95 Pointer and more!!!!

Sender	swl@winelibrary.com
Recipients	[jarnold@enron.com]
File	arnold-j/deleted_items/340.

To Place an order . . . PLEASE CALL 973-376-0005 ask for Order Dept.www.winelibrary.com or e-mail us at swl@winelibrary.com 1. #16063 - Rotllan Torra 1997 Tirant - \$89.99 (Only \$71.99 when you buy a case) 95 points Wine

Spectator / Wine Library Super Tasting Star ! "Powerful and intense, this Spanish red is as ripe and rich as young Vintage Port, bursting with flavors of black cherries and blueberries, chocolate and coffee, supported by muscular yet round tannins. An impressive achievement in an age of blockbuster wines. Best after 2003. 500 cases made. (500 cases produced)." Have your own tasting notes? Post your own review of this wine on Wine Library.com! 2. #15993 - Cerro 1998 Manero (Tuscan) - \$28.99 on sale 92 points Stephen Tanzer Limit 2 6-packs per customer, this is a limited offer !!! "Virtually impenetrable blackish-ruby. Potent, deep nose melds plum and berry fruit, oak spices and vanilla. Super-dense, powerful and mouthfilling; really coats the palate with flavor. Firm tannins add to the impression of structure. Long and sumptuous on the back end." Have your own tasting notes? Post your own review of this wine on Wine Library.com! 3. #16345 - Louis Bernard 1999 Chateauf Du pape \$26.99 (Only \$21.59 when you buy a case) 92 Points Wine Spectator / Best Chat-Du-Pape buy in a long time "Soft and smooth, a full-bodied, low-acidity beauty that coats the palate with its seductive flavors, cascading with roasted game, toasted coconut, ripe plum and blackberry complexity. Stunning red. Best from 2005 through 2020. 5,000 cases made." Have your own tasting notes? Post your own review of this wine on Wine Library.com! 4. #15827 - Dominus 1998 Red - \$84.99 On sale 91 Points Wine Spectator / Wine Library Super Tasting Star ! "Earthy, elegant and refined Cabernet blend, delivering layers of currant, tar, black cherry, cedar, coffee and anise, all sharply focused and framed by just the right amount of tannin. Drink now through 2009. 6,000 cases made." Have your own tasting notes? Post your own review of this wine on Wine Library.com! 5. #14175 Behrens & Hitchcock 1999 Oakville "Fortuna" Merlot \$65.99 (Only \$52.79 when you buy a case) 90-92 Points Robert Parker "(500 cases of 100% Merlot) is a dense, very chewy merlot with oodles of smoky blackberry and cherry fruit. The wine is unctuously-textured, with plenty of glycerin, and a heady, concentrated finish. It will be delicious when released, and age well for at least 10-12 years." Have your own tasting notes? Post your own review of this wine on Wine Library.com! 6. #15236 - Pepper Bridge 1998 Cabernet Sauvignon \$63.99 (Only \$51.19 when you buy a case) The day after the "Super Tasting" people were calling like crazy for a few wines, however none more then this spectacular wine form Washington State. The 1998 pepper bridge is a massive, explosive, ripe fruit bomb. The 1998 vintage is one of the great in the Pacific North West's history. This wine is very limited so please act quickly if you were looking for it ! Have your own tasting notes? Post your own review of this wine on Wine Library.com! ***** Hot Best Buy`s - Give these outstanding whites a try! 1. #16151 - Defaix 1998 Chablis Petite \$12.99 on sale - reg. \$19.99 Wow! This Petit Chablis is a stunning value, something not to be missed! Medium bodied with nice fruit . . . very easy drinking . . . an absolute steal for the money.If you are a chardonnay fan you will be blown away by this steal ! Have your own tasting notes? Post your own review of this wine on Wine Library.com! 2. #16149 - Defaix 1997 Chablis "Cote De Lechet" \$19.99 On Sale - Reg \$29.99 89 Points Robert Parker "The sea breeze and lemon scented Chablis Cote de Lechet is a fat, ripe, medium to full bodied wine with richly strewn layers of pears, stones, and flint-like flavors. This lively wine was aged in 15% new oak barrels, and yet there are no traces of wood in either its aromas of character." Have your own tasting notes? Post your own review of this wine on Wine Library.com! 3. #16148 - Herve Seguin 2000 Pouill Fume \$14.99 on sale - Reg \$19.99 This wine made from 100% Sauvignon Blanc is clean, crisp and very well balanced. Tasted recently by our Wine Library staff and brought in based on it's lively flavor and value. If you enjoy wine to go with shell fish or salmon this is a great example of a super match ! Have your own tasting notes? Post your own review of this wine on Wine Library.com!

Opus One and more . . .

Sender	swl@winelibrary.com
Recipients	['jarnold@enron.com']
File	arnold-j/deleted_items/267.

To Place an order . . . PLEASE CALL 973-376-0005 ask for Order Dept.www.winelibrary.com or e-mail us at swl@winelibrary.com 1. #13794 - Opus One 1998 - \$117.99 a bottle - On Sale Limit 2 bottles per customer please!! Well here it is again,the 1998 Opus One. Not much you can say here, except- keep those verticals going! 2. #15427 - Corzano 1998 "I Tre Borri" Chianti - \$30.99 a bottle - (Only \$24.79 when you buy a case) 93 Points - Gary Vaynerchuk - Wine Library This wine comes in 6-pack cases "This wine could go down as 1 of the top 5 wines I have had this year. I have always been impressed by this winery and the Reserva Chianti is among the best ever produced. The Riserva is 100%

Sangiovese, from the oldest vines, with the best exposure. Vinified in barrel, this silky, explosively aromatic Chianti is the best wine Corzano e Paterno has ever produced. Aljosha feels it best represents the wonderful vineyards of Corzano e Paterno. "Gary V - Wine Library Have your own tasting notes? Post your own review of this wine on Wine Library.com! 3. #13554 - Babcock 1999 Black Label Syrah - \$54.99 a bottle - (Only \$43.99 when you buy a case) This wine comes in 6-pack cases This wine is huge in every respect. It really typifies one of Babcock's favorite themes in winemaking-- the integration of amplitude and balance. In contrast to the 1997 Black Label Cuvee, this wine is a little more compact, achieving the same riveting intensity, but at a lower finished alcohol. The result-- a concentrated, teeth-staining wine, with elegance. Parker has now put this wine on the map, and Babcock has taken it to even a higher level with this massive effort ! Have your own tasting notes? Post your own review of this wine on Wine Library.com! 4. #13918 - La Fleur De Bouard 1998 Lalande de Pomerol - \$27.99 a bottle - (Only \$22.39 when you buy a case) Featured in last week's Wall Street Journal! Limited Supply Avail! "An outstanding effort . . . this 98 from Pomerol displays a brilliant nose and a deep, dark color. The fruit just seems to last and last throughout the palate leading you to a tremendously smooth finish. Limited Supply! "Have your own tasting notes? Post your own review of this wine on Wine Library.com! 5. #15875 - Bollini 2000 Pinot Grigio - \$8.99 a bottle - (Only \$7.19 when you buy a case) "Clear, yellowish-straw color, with fresh white grape aromas and a distinct floral fruit found typical of Pinot Grigio. Citric acidity and crisp flavors, full-bodied and round, clean and fresh. If you like Santa Margherita you will never drink it again after tasting this wine!"Have your own tasting notes? Post your own review of this wine on Wine Library.com! 6. #16144 - Manzone 2000 Dolcetto D'Alba - \$11.99 a bottle - (Only \$9.59 when you buy a case) Manzone is one of Piedmonte's superstars. The 2000 version of this Dolcetto is a very explosive wine and an outstanding value. The dark fruit and complexity on both the finish and the mid-palate is very exciting. If you are looking for a wine to drink with a steak or lamb I couldn't think of a better combo than this. Have your own tasting notes? Post your own review of this wine on Wine Library.com! 7. #11869 - Joel Gott 2000 Zinfandel - \$14.99 a bottle - (Only \$11.99 when you buy a case) 90 Points - Rob Hunter - Wine Library This lush fruit driven red explodes on the palate, ripe bright raspberries and subtle cherry flavors come forth right from the beginning. Slight hints of pepper and spice intermingle on the palate. A true pleasure to drink, try this with your holiday meals. This also has a lasting finish that really rounds out this wonderful wine. Have your own tasting notes? Post your own review of this wine on Wine Library.com! 8. #13003 - Cline 1999 California Syrah - \$8.79 a bottle - On Sale Dollar for dollar this may be the best value in the shop ! Cline has always made great wine and this 1999 Syrah is an explosive fruit bomb. If you have been a fan of the Shiraz grape from Australia you will find this to be an amazing wine. Cherry is the dominate flavor in this wine and the finish is almost overwhelming. Don't miss this wine ! Have your own tasting notes? Post your own review of this wine on Wine Library.com!

Recipients	['newsletter@libation.com']
File	arnold-j/deleted_items/31.

Dear customers and friends,

We had intended to send a newsletter out weeks ago but the tragedy that happened in the eastern United States set us back just like all of America. We have so many customers in NY and the East Coast including many who worked at the World Trade Center. Our sincerest regret and hope go out to all people in this country and the world but especially those who have family or friends who were victims of the terrorist acts.

One of our dearest employees Ed Campbell grew up in Queens and all of us at Libation have a strong connection with the people of NYC. As I told Ed the other day, all Americans are New Yorkers now. We have wanted to call many of you but feel that this is not the time. If you live in NYC (or anywhere else) please take the time to drop us a line and let us know how you are faring. Best wishes to you all.

Now to the wines. It's that time of the year when some of California's perennial favorites are released. Feel free to give us a call toll free at 877-LIBATION (877 542-2846).

Caymus 1998 Special Selection Cabernet Sauvignon \$120/bottle

Caymus 1998 Cabernet Sauvignon \$65/bottle Rich and exotic, with layers of currant, black cherry, espresso, mocha, mineral and herb. Turns supple, all the while maintaining its firm and youthful tannic structure. Drink now through 2009. 18,000 cases made. Wine Spectator July 31, 2001 to order or for more info on our website click on the link. <http://www.libation.com/cgi-bin/wine/55624>

Caymus 2000 Conundrum \$24/bottle There is no doubt that this is our hottest selling wine by far for the last two months. If you have not tried it, order a few bottles and see what the excitement is all about! to order or/ for more info on our website click on the link. <http://www.libation.com/cgi-bin/wine/61379>

Dominus Estate 1998 Meritage \$98/bottle Cellar Selection. Earthy, elegant and refined Cabernet blend, delivering layers of currant, tar, black cherry, cedar, coffee and anise, all sharply focused and framed by just the right amount of tannin. Drink now through 2009. 6,000 cases made. Wine Spectator July 31, 2001 to order or/ for more info on our website click on the link. <http://www.libation.com/cgi-bin/wine/29097>

Dominus Estate 1998 Meritage Napanook \$36/bottle to order or/ for more info on our website click on the link. <http://www.libation.com/cgi-bin/wine/28198>

Mondavi / Rothchild Opus One 1998 \$130/bottle

Here are a few gems from our cellar at OUTSTANDING prices,

Arrowood 1990 Cabernet Sauvignon Sonoma County 1.5 Liter \$120/bottle

Heitz 1994 Cabernet Sauvignon Trailside Vineyard 1.5 Liter \$130/bottle

You'll find that our pricing is very competitive. These prices are subject to change in the upcoming weeks. Availability is fairly limited.

Peace, love and cheers, Curt Chrestman Libation.com

Tons of new Parker 90+ Pointers!!!!

Sender	swl@winelibrary.com
Recipients	[jarnold@enron.com]
File	arnold-j/deleted_items/438.

To Place an order . . . PLEASE CALL 973-376-0005 ask for Order Dept.www.winelibrary.com or e-mail us at swl@winelibrary.com

1. #14146 - La Palazzola 1999 Rubino - \$35.99 On Sale 93 Points - Robert Parker A Wine Library Super Selection!!!! - This is a tremendous effort, don't miss it! "A cask-aged, unfinned, unfiltered blend of 80% Cabernet Sauvignon and 20% Merlot. It exhibits a smoky, chocolatey bouquet with hints of cassis, tobacco, and toasty new oak. With superb definition, moderate tannin, excellent structure, and exceptional concentration as well as overall purity, this full-bodied, blockbuster effort can be drunk now or cellared for 10-12 years. There are approximately 1,000 cases of the Merlot and 2,000 cases of the Rubino" Have your own tasting notes? Post your own review of this wine on Wine Library.com!

2. #16358 - Tommaso Bussola 1997 Amarone TB - \$71.99 (Only \$57.59 when you buy a case) 92 Points - Robert Parker "The 1997 Amarone is a broad, expansive, muscular, dense, full-bodied, pure effort offering aromas and flavors of melted asphalt, black plums, cherries, and earth. This concentrated Amarone cuts a large swath across the palate. Drink it over the next 10-15 years." Have your own tasting notes? Post your own review of this wine on Wine Library.com!

3. #16411 - Collosorbo 1999 Laurus IGT - \$22.99 (Only \$18.39 when you buy a case) 92 Points - Robert Parker "The 1999 Laurus, an intriguing, explosively scented and flavored blend of equal parts Sangiovese and Cabernet Sauvignon, aged in new oak, is a Tuscan fruit bomb. It possesses a deep purple color, dazzling levels of plum, black

cherry, and currant fruit, and a voluptuous, opulent, thick, rich personality. Drink it during its first 6-7 years to take advantage of its exuberance and lavishly fruited qualities."Have your own tasting notes? Post your own review of this wine on Wine Library.com! 4. #15936 - Falesco 1999 Montiano IGT - \$39.99 On Sale 95 Points - Robert Parker "The profound, dense ruby/purple-colored 1999 Montiano (2,500 cases of 100% Merlot aged in 100% new French oak, and bottled unfined and unfiltered) offers a smorgasbord of aromas, including melted chocolate, with terrific purity, a multilayered texture, and suprising freshness for a wine of such depth, it can be drunk young, or cellared for 10-15 years. For technicians who care about such things, it has a whopping 37 grams per liter of dry extract."Have your own tasting notes? Post your own review of this wine on Wine Library.com! 5. #11466 - Morgante 1999 Don Antonio - \$28.99 (Only \$23.19 when you buy a case) 92 Points - Robert Parker "The finest wine I have ever tasted from the Nero d'Avola grape is Morgante's 1999 Don Antonio, a cuvee of 100% Nero d'Avola aged in 100% new French oak, and bottled without filtration. Maloactic fermentation was also done in barrel. This exquisite effort boasts and opaque purple/blue color as well as an extraordinary bouquet of creamy new oak intertwined with blackberry liqueur, flowers, and cassis. This ripe, full-bodied beauty possesses great intensity, explosive richness, and a finish that lasts for over 35 seconds. This is a revolutionary example from a varietal indigneous to Sicily. Moreover, it should drink well for a decade or more. Wow!"Have your own tasting notes? Post your own review of this wine on Wine Library.com! 6. #16405 - Dry Creek 1999 Zinfandel Heritage Clone - \$12.99 On Sale 90 Points - Robert Parker "It boasts a dense purple color as well as a sweet nose of blackberries, licorice, pepper, and minerals. There is a terrific mid-palate, beautiful harmony, and well-integrated acidity, tannin, and oak. Drink this opulently-styled, pure, classic Zinfandel over the next 4-5 years."Have your own tasting notes? Post your own review of this wine on Wine Library.com! 7. #16237 - Dry Creek 1999 Zinfandel Old Vines - \$15.99 On Sale 90 Points - Robert Parker "The similarly-styled, opaque purple-colored 1999 Zinfandel Old Vines offers gorgeously sweet aromas of black cherries, raspberries, and currants. Multi-layered, powerful, and rich, with more muscle as well as structure than the Heritage Clone cuvee, it is a top flight, balanced, concentrated yet harmonious Zinfandel to enjoy over the next 4-6 years."Have your own tasting notes? Post your own review of this wine on Wine Library.com!

Jennifer:

I am planning a trip with Carmen to Memphis to meet these FedEx representatives and build the cross sell.

SJ ----- Forwarded by Sarah-Joy Hunter/NA/Enron on 11/27/2000 05:44 PM -----

Carmen Perez <carmen.perez@fedex.com> on 11/27/2000 05:24:40 PM To: shunter2@enron.com, john.will@enron.com
cc: clint.beard@fedex.com, carmen.perez@fedex.com

Subject: FedEx Strategic Sourcing & Supply Contacts

Good afternoon! I hope everyone had an excellent holiday. Now, it is time to prepare for the next. Oh, boy, I am glad that stairmaster is still working!

As follow-up to our 11-11-00 conference call, Clint Beard provided an update to Ms. Hunter via telephone today. The update referenced the lawsuit avoidance between FedEx and a division of Enron. Per Ms. Hunter, she feels satisfied with what information FedEx provided. A follow-up conference call is scheduled for December 11, 2000 at 10 a.m. Complete agenda, attendees and phone number will be announced at a later date.

In addition, FedEx Strategic Sourcing & Supply Contacts are listed below. Names, titles and phone numbers are attached. I will assist Ms. Hunter in facilitating initial meetings.

Chris Bolen, Manager Supply Chain FedEx Strategic Sourcing & Supply Dept.: Fuel 2600 Nonconnah Ste 301 Memphis, TN 38132 901-922-5442 901-922-4595 fax (Jet fuel)

Steve Mattman VP for Strategic Sourcing & Supply Dept.: Shared Services 2600 Nonconnah Ste 301 Memphis, TN 38132 901- 224-5078 (Enron energy services in CA and TX)

Bryan Wright Managing Director for IT Supply Chain Management or Dane Bachelor FedEx Strategic Sourcing & Supply Dept.: IT 2600 Nonconnah Ste 301 Memphis, TN 38132 901- 263-6857 (Bryan Wright) 901-263-6846 (Dane Bachelor) (Enron Broadband Services)

Finally, rates were proposed to Enron November 14, 2000. I am looking forward to discussing these further with the Enron board who will decide who will be Enron's primary carrier.

I am excited about our growing partnership. Thank you!

Recipients	['tom.moore@enron.com', 'eric.merten@enron.com', 'jennifer.medcalf@enron.com']
File	arnold-j/all_documents/80.

Eric,

Thank you very much for taking the time to speak with Tom Moore and me. Attached is the (only) contract which I have received from the EBS origination team trying to close a deal with BMC Software. Steve Morse and Chaz Vaughan report to Brad Nebergall (VP, Central Origination, EBS), who reports to Jim Crowder (VP, Enterprise Services, EBS).

Please review, and provide your feedback to me, the EBS origination team (Chaz, Steve, and Brad Nebergall), and Tom Moore.

If there are any other EBS deals/contracts on the table involving BMC, I would like to do whatever I could to help them close on this. Please let me know if I can do anything else for you! You can reach me at (x55968) or Tom at (x55552). The origination team is at (Chaz: x58815, Steve: x37137, Brad: x34714). On a final note, the originators have repeatedly driven home the point that they must have this deal closed with BMC by end-of-day this Friday, December 15. I am focused on helping them win the business however I can.

Thank you,

Jeff

Jeff Youngflesh Director, Business Development Global Strategic Sourcing Enron Corp. 333 Clay Street, 11th Floor Houston, TX 77002 t: 713-345-5968 f: 713-646-2450 c: 713-410-6716

Re: BMC Update, 2:30pm 12/13 - changes noted

Sender	jeff.youngflesh@enron.com
Recipients	['jennifer.medcalf@enron.com']
File	arnold-j/all_documents/102.

Jennifer,

This is apparently the type of deal flip-flop which BMC has been blessing EBS with. In the note from Doug Cummins which contained his updated spend projections, he had the "Professional Services" highlighted with a bunch of question marks. It is at the bottom of his sheet, and lists a qty of 30 @ \$2000 per = \$60,000 --- I assume that's \$2K/hour or per day. Either way, it's not something that appears palatable to them (Net Works). I'll be going over there in a few minutes, and will try to check w/each of the guys. I'll keep you posted.

Jeff ----- Forwarded by Jeff Youngflesh/NA/Enron on 12/13/2000 02:41 PM -----

Stephen Morse@ENRON COMMUNICATIONS 12/13/2000 02:10 PM

To: Chaz Vaughan/Enron Communications@Enron Communications cc: Jeff Youngflesh/NA/Enron@ENRON, Brad Nebergall/Enron Communications@Enron Communications Subject: Re: BMC Update

Clarification on the below.

Point #1 our position has been \$3MM on software (they are saying they need \$4MM to get the deal done.)

Additionally, they want Maintenance and professional services to go with the dollar amount. \$2.4MM is their position here. I need your help to clarify with each group who is on board with maintenance and profesional services. BMC's #2 guy Jeff Hawn told Jim Crowder this was critical for them.

Thanks,

Steve

Chaz Vaughan 12/12/00 07:29 PM

To: Jeff Youngflesh/NA/Enron@ENRON cc: Stephen Morse/Enron Communications@Enron Communications Subject: Re: BMC Update

Jeff,

Thank you for your efforts on the BMC deal. We are making real progress. Here are the answers to your questions:

1. How much do they want you to guarantee them in BMC revenue? \$4 MM in software and \$2.4 MM in maintenance and professional services 2. Are you still looking at a \$13MM TCV over 5 years? No, our current TCV over 5 years is \$10 MM 3. Have I properly conveyed the "acceable-to-BMC method" of proving purchase commitment from Enron? Not sure what you mean here 4. Your note re: getting the Prof'nl Svcs contract signed says it has to be done by 6pm the 14th...what if you don't get it until the morning of the 15th? We prefer the 14th, but if we can't get it until the 15th, that will work

Please let me know if you have any other questions. I will call you tomorrow to touch base.

Thanks,

Chaz Vaughan Enron Broadband Services 1400 Smith Street Houston, TX 77002 Ph: 713-345-8815 Cell: 713-444-3074 Fax: 713-853-7354 Chaz_Vaughan@enron.net

Communications, Eric Merten/Enron Communications@Enron Communications Subject: BMC Update

Steve/Chaz -

I have taken your EBS Professional Services contract through our contracts folks, and we have ended up with it now being in EBS' contracts dept w/one of your attorneys. Our contracts Director, Tom Moore, and I spoke w/Eric Merten (PDX) early this afternoon, and he now has the contract. EBS may have some Intellectual Property issues related to ownership of BMC Consultant-developed materials (while being paid by Enron). Eric is in the driver's seat with the contract at this point.

I have sent notes to all of the Net Works directors currently engaged in one form or another with BMC product and/or personnel. In it, they have been requested to help us understand our opportunity from a number of angles: Application(s) considered, attractiveness of the new pricing, attractiveness of the BMC flexibility w/regard to "purchase commitment", etc. In addition, I have re-iterated the time urgency.

I have followed up the note w/telephone calls & messages to all of them: Doug Cummins, Randy Matson, Bob Martinez, Jim Ogg, and Bruce Smith. I am meeting with Bob Martinez on Wednesday at 3pm. Matson, Ogg, and Smith have me in their voicemailbox, Cummins was in a meeting and he said he would call me back.

Would either one of you please let me know what BMC wants EBS to do for them: how much do they want you to guarantee them in BMC revenue? Are you still looking at a \$13MM TCV over 5 years? Have I properly conveyed the "acceptable-to-BMC method" of proving purchase commitment from Enron? Your note re: getting the Prof'l Svcs contract signed says it has to be done by 6pm the 14th...what if you don't get it until the morning of the 15th?

I will call you to follow up on this note.

Thank you,

Jeff Youngflesh

are you free around 430 wed to discuss?

-----Original Message-----

From: Shults, Bob Sent: Tue 11/6/2001 3:21 PM To: Arnold, John Cc: Subject: Nymex Status

John,

I met with Bo last Thurs and continued the discussion today with Bo, David Keller (Nymex CTO), David Salomon (Nymex), Brad Richter and Jay Webb. Nymex indicated that they would like to move ahead very quickly on getting a price posting arrangement with them on Access where they will be showing prices all day including the OTC products. Once this is complete they would also like to contemplate an arrangement on a Phase 2 technology sale with them. They are currently scoping out the Phase II requirements.

Nymex does not have the resources to build the API (interface with EnronOnline) and would like us to do the development. This type of arrangement requires the desk to make some decisions:

Are we willing to post numbers on Access electronically and have the transaction occur on Access? This will give us the risk of being double hit. Are we willing to dedicate technology resources to this effort (and away from other EnronOnline priorities) and will the desk get enough benefits to justify the opportunity costs? What would it take for you to post numbers in this fashion (fees, preferential fills, etc). You have the original specialist proposal we sent to them.

We indicated to Bo that we would get an answer on this and call in the next couple of days. If we can answer these questions, Jay will have someone look at the Access code and determine the cost to us (development time).

We will also be meeting with Nymex next Wed to talk about Phase II. We think that we can structure a transaction that would include an Access Price Posting in the short term, Specialist role and an obligation to look at our Phase II proposal. If we do not get a firm commitment on Phase II within a specified period we can review our specialist role and ask them to pay for the API we built to access.

Please call me to discuss at 713 853-0397.

Hi All,

I think we should play hard ball with these guys. They want a great deal more business, and we are going to have to see something in return for us to pull this trigger this year or early next year. Lets have them help us find opportunity. Also - Gary's idea of longer term is a good one. Especially for a company of this size.

Re Rex, all BW deals go through EBS so we are accountable for the BW opportunity.

Couple things

1. Dale/Patrick - can you guys please get involved here. Gary has done a good job bringing in a live deal. We need some focus to make it happen. 2. Paula - can you please setup a conf call for Thurs, 11/30, morn. Gary, Jennifer S, Dale, Tucker, and myself should be on the call.

Thanks!

Gary, On the Rex issue, I think that we need to talk to him. I am under the impression that he does not get compensated for broadband but I might be wrong. Jennifer Stewart Medcalf Senior Director, Business Development Global Strategic Sourcing (713) 646-8235

Gary Waxman@ENRON COMMUNICATIONS 11/28/2000 07:05 PM

To: Matt Harris/Enron Communications@Enron Communications, Jennifer Stewart/NA/Enron@ENRON cc: Subject: SAP Update

Spoke with Curtis today:

- he is still waiting for Dietmar to provide us the international cities etc so that we can size the opportunity - reiterated what we learned on the call -- their is no storage opportunity since they self-serve - told him we doubted that their network is at 60-70% utilization and there may be some intermediation opp yet to be discovered - we talked extensively about EBS' concern that the size of this deal appears small, my comment was that we can create a larger deal by extending the terms to 10-years (or something greater than 2 years) with bi-annual renewals, this also ensures the two companies pro-actively work with each other - Curits keeps asking me about deal size and I stated that if we don't get specific requirements from SAP we can not place a value on the deal so there is no use trying to pull a number out of thin air. - Curtis asked about Rex and whether he gets comped for broadband - he is concerned about cutting Rex out since they were his first contact, I need help on this -- Anyone?

Bottom Line - ball is in their court to provide us details so we can take something to structuring and size the opportunity.

All,

In our meeting on the 17th of November, the NetWorks team explained their position(s) relative to possible upcoming purchases of software, in which BMC might be selected as the vendor. There were several issues and concerns which were voiced, mostly related to BMC's lack of support and suboptimal application capability (that is the "net", understated

version).

Bob, you and I spoke briefly after the meeting regarding what, if anything, BMC could do to "fix their problem". I relayed the gist of our brief conversation to EBS.

As discussed in the meeting, EBS has a near-term opportunity to get a deal done with BMC, and it would be of optimum benefit to execute this year. One of the outcomes of our November 17 meeting is that EBS has been pressing BMC for a BMC commitment to Enron's overall customer satisfaction. Per a voicemail to me from EBS, it appears that BMC have provided a response to EBS.

I would like to schedule a meeting for the addressees of this note for either November 30th, or December 1st. The purpose is to get an update from the NetWorks team on the BMC application testing that was underway, and for EBS to explain what BMC has proposed. This meeting should take an hour.

Please let me know if you can meet tomorrow or Friday. I'll book a room and time that works for the majority, and confirm with a Notes "Meeting Invitation".

Thank you,

Jeff

Your "Bridge" corp./contract info request

Sender	jeff.youngflesh@enron.com
Recipients	['jennifer.medcalf@enron.com', 'kim.godfrey@enron.com', 'ali.khoja@enron.com', 'kathy.shaps@enron.com']
File	arnold-j/all_documents/44.

Ali,

The "Bridge" you referred to in your voice message to me is not the one you want, I believe. You referred to a \$5MM spend by Enron w/ "Bridge". That spend data comes from the pre-SAP era, and may not be as accurate as one might hope. In addition, you will find that the product/service category is "Hardware". I am not sure that is the "Bridge" which Kathy Shaps is looking for the contract information (if any) on.

That Bridge (Kathy's target, I believe) is the one which EBS has done a deal with (Bridge/Savvis/EBS, early summer '00; for WebFN)...Jeannette Busse & Greg Reynolds are intimately familiar with that customer relationship, but perhaps not at the contract level. If it is and EBS-only relationship, EBS may have the only contract. The EBS contracts contact would be Ray Stelly, who reports to Pat Weatherspoon (Ray is out until Monday the 11th, though). You might also check with Richard Weeks, who could direct you to the right person in EBS purchasing, if it's a "buy on PO" situation.

<http://www.bridge.com/>

<http://www.webfn.com/cgi-bin/core.dll?i9=267&s144=index.txt&sfront=1&slogin=0&sframeBust=undefined>

Please check the URLs above, and if they take you to the company with the "Enron relationship" you're referring to, I'll have a better idea what to look for. In the meantime, I am looking into our contracts area to see what, if any, contracts that GSS has active (for any part of Enron) with any company called "Bridge", whether it is Bridge Information Systems, or some other "Bridge". When I have more information, I'll call and/or e-mail you with an update. I'll also copy Kathy and Kim.

Thank you,

Jeff

File	arnold-j/deleted_items/263.

Texas Economic Development - Marketing the Lone Star State

Dear TEDC Member:

Texas Economic Development (TxED) is pleased to introduce three new items to add to your economic development tool chest. The State Comparison Database, Texas Country Information, and NAFTA Center web sites are all designed to assist local economic development efforts. These products and other demographic and economic data can be found on our award-winning Business and Industry Data web site at www.bidc.state.tx.us.

With an ever-increasing emphasis on global trade opportunities and the ability to compete in world markets, information on other countries and our existing relationship with those countries is vital. The Texas Country Information and NAFTA Center web sites are designed to help you easily access important international information.

On a more domestic front, The State Comparison web site shows comparative information on how Texas stacks-up to the other 49 states on over 200 economic and demographic variables.

These new products were developed to complement the wealth of resources provided by Texas Economic Development on our award-winning web site. The attached brochure provides more details on the toolbox of resources currently available on the TxED web site.

As always, if we can assist you with your information needs, please contact the Business and Industry Data Center at 1-800-888-0511 or by e-mail at: bidc@tded.state.tx.us.

Sincerely,

Michael West Director, Market Texas Clearinghouse 512-936-0292

Texas Economic Development markets Texas for tourism and business. P.O. Box 12728 ? 1700 North Congress Avenue ? Austin, Texas 78711

This is a news update from the Texas Department of Economic Development.

If you would like your name removed from EconDev Update, reply to this message with the word "Remove" in the subject line.

Thanks for your continued support of the Texas Department of Economic Development, for more information go to our web address at: <http://www.txed.state.tx.us>

Bob,

Thank you for your reply. I know you are doubly busy with your being on the road this week, just prior to a vacation. Your answer below is perfect! Bob, you and your team have been very supportive of our efforts to assist EBS with BMC, and you have done all that we could have asked! I wanted you to know that we really appreciate your support (I especially do, as a "late arrival" to this situation)! Thank you again for all of the help!

Jeff

Bob McAuliffe/ENRON@enronXgate 12/05/2000 06:56 PM

To: Jeff Youngflesh/NA/Enron@ENRON cc: Randy Matson/Corp/Enron@ENRON, Bruce Smith/ENRON@enronXgate, Douglas Cummins/HOU/ECT@ECT, Jenny Rub/Corp/Enron@Enron Subject: RE: Update

Jeff,

Assuming that either Randy or Doug were to decide that BMC was a viable solution for their areas of responsibility, we would certainly support purchasing the appropriate products from BMC.

Bob.

-----Original Message-----

From: Youngflesh, Jeff Sent: Tuesday, December 05, 2000 5:34 PM To: McAuliffe, Bob Cc: Matson, Randy; Smith, Bruce; Cummins, Douglas Subject: Update

Bob,

I understand from Thais that you're on the road for Enron, but soon you'll be "on the road for Bob" - a well-deserved vacation coming up! In light of your impending vacation, I wanted to do a quick follow-up check.

If we could somehow, without causing an undesirable state in your organization, facilitate the ability to purchase BMC solution product for Net Works, would you support that?

I have spoken with Bruce Smith, Randy Matson, and Doug Cummins in followup calls from the November 17th meeting in EB 22C1. IF Randy and Doug were likely to make a pro-BMC decision (instead of for a competitor's product), and IF there was a way to painlessly (for Net Works) enable the funds to become available to make a purchase of BMC product (by Net Works), would that be something you would support? I am searching for a way to help EBS without impacting Net Works in any negative way...but ultimately, I will abide whatever you demand here.

I hope to hear from you, either by telephone/voicemail, or e-mail; if you could do so prior to your vacation.

Thank you again for your help,

Jeff Youngflesh

Enron/Avaya Meeting in Basking Ridge, wk of Jan 8, '01

Sender	jeff.youngflesh@enron.com
Recipients	['thadwhite@avaya.com', 'kroswald@avaya.com']
File	arnold-j/all_documents/25.

Thad,

Would you please get the calendars of your execs synchronized, and tell us which 2-day period the week of January 8 - 12, 2001 works best for our mutual meetings? We were originally looking at the 9th, 10th, or 11th as days to choose from primarily to avoid having the EBS executives located in the western U.S. travel from Portland, OR on Sunday for meetings on Monday in NJ. Consequently, I had asked the EBS executives to pencil in the 9th - 11th of January, and got the final one to confirm late last week.

However, Kim Godfrey at EBS may have some new requirements; which is why I need your help in an expedited way - I'll need to give Kim your executives' availability during that week, and then we'll get things locked in ASAP. The meetings would still be scheduled such that the 1st meeting day would be for the meetings to be held during the 2nd half of that day, from 2-4 hours of meeting time for the executives (VP & up, primarily) to discuss possible alignments and opportunities. This would include two primary areas:

1) EBS-sell-to-Avaya for Avaya internal use: what types of potential solutions EBS could offer Avaya for Avaya's internal use; and 2) EBS & Avaya join together in a product and/or marketing effort to determine what kinds of solutions which the could jointly propose to the (common) markets served: "sell with" (each other); and "sell through" (channels type efforts), where either or both Avaya and EBS would act as sales channels for each other's sales forces.

These meetings would be followed by the 2nd day's session(s), which would include primarily development and marketing team members who would discuss areas in which Avaya and EBS could develop one or more joint value propositions, such that they would have a "jumping off point" for a go-to-market effort (item #2, above). In addition, the technical aspects of some of the "EBS-would-like-to-sell-its-services-to-Avaya-for-Avaya-internal-use" (item #1, above) meetings from the Executive session the 1st day could then be addressed.

Please let me know which 2-day period looks like the most workable one for your executives at Avaya HQ during the week of 1/8/01, so that I can get to Kim to allow her to get the EBS executives' schedules locked into days synchronized with your executives'.

Thank you,

Jeff

EBS opp'ty w/BMC

Sender	jeff.youngflesh@enron.com
Recipients	['jennifer.medcalf@enron.com', 'stephen.morse@enron.com', 'chaz.vaughan@enron.com']
File	arnold-j/bmc/2.

Chaz & Steve,

I was able to review our recently completed conference call w/BMC with Jennifer Medcalf.

During the call, Bernie Goicoechea and Ann(e?) Munson expressed that during their last few months of interaction with Enron Net Works, they have attempted to understand the exact issues and concerns which Net Works has with regard to selection/use of BMC's products. Bernie voiced that he hasn't been able to get more detail on the problems or nature of concerns that Net Works has, beyond what you and I know. The BMC account team feels that without specifics, they cannot address the issues accurately or in a timely fashion.

The Enron Net Works team has expressed concern that various BMC products are not Windows 2000 certified (at least, not the ones they are focused on, and not in writing). Net Works also have some other concerns relative to the (Net Works) team's feelings that the BMC products (in some areas) "...haven't kept up with the industry", and that they (Net Works) have some residual issues with the BMC account support in general. Bottom Line, expressed by Net Works, is that there is a low probability of their purchasing enough BMC software product this year to enable EBS to clinch its deal with BMC.

You related Jim Crowder's suggestion related to the use of indemnification and liquidated damages clauses being implemented. Jennifer and I discussed this situation, and our meetings with your team, in context. We have a possible alternative for you to consider: perhaps EBS might provide a hedge for Net Works in the form of "advance purchase" of BMC product.

For example, EBS is poised to buy about \$1 million worth of BMC software, but needs to show BMC a firm purchase commitment for about \$3 million in total Enron purchases from BMC. A way in which you could reach the \$3 million mark with BMC; while also allowing the relationships between Net Works and BMC time to "click" might be this: EBS buys all \$3 million worth of BMC software, but \$1 million is used to actually take product now, and the other \$2 million is used as a "future purchases" fund, in which EBS buys, but does not take immediate delivery of, the (remaining \$2 million worth of) current software...

THEN, future Enron Net Works (and any other ENE business unit) purchases of BMC software would be executed such that EBS is paid, and the software is delivered from/by BMC. That way, EBS gets its \$2 million back, the other business units aren't spending any of today's dollars for product which they seem to have some concerns about (but they can get current/certified product when they need it in the future). In addition, you secure the business with BMC right now. I'm sure you could also figure out how to account for the time value of money in this, so that there is further leverage advantage to you.

If all else fails, you may wish to consider something like this...In the meantime, we will continue along the current path and keep you posted on progress.

Thanks,

Jeff

Meeting Minutes: Bristol Babcock, Pagosa Energy/Well Master, EBS, and GSS Meeting Purpose: Business overview, solutions identification/brainstorming Date: 12/1/00

Enron

EBS Attendee: Anthony Gilmore Global Strategic Sourcing Attendee: Jeff Youngflesh

Bristol Babcock Kevin Finnan Jim Griffith

Pagosa Energy/Well Master Rob Bender

DISCUSSION POINTS:

- 1) Bristol and Well Master feel that there is significant opportunity, with placement of enough BBI TeleFlow devices (integrated flow computer, corrector, recorder and controller/RTU) in North America that the data transmission needs would generate enough bandwidth demand that it would be of interest to EBS to provide some of its solutions to Bristol & Pagosa Energy "unified solutions" (quotes are mine - JKY) for the gas industry. NOTE: this could take a longer term to reach the necessary "critical status", due to the need for a very large hardware install base since each TeleFlow generates only about 11 - 12,000 bytes of data per day in its report bursts. 1a) In this scenario, the EBS opportunity would be primarily driven by sales of product solutions by BBI and Pagosa, which would include EBS network capacity. (a "sell-through" effect for EBS)
- 2) There could also be enough demand for bandwidth- or related EBS solutions to Bristol by including Bristol's own internal I/T bandwidth consumption that a near-term solutions engagement would be desirable. NOTE: this could accelerate to the necessary "critical status", bringing to EBS more solutions demand due to the addition of "sell-to". The "sell-through" effect would be present with Bristol/Pagosa selling solutions which use EBS' solutions (a sales "channel"), as well as EBS "sell-to" BBI & Pagosa for their own internal consumption of bandwidth.

ACTION ITEMS: 1) Bristol will provide Anthony (Tony) Gilmore of Enron Broadband Services the necessary contact information for the appropriate people in FKI's (Bristol's parent co.) Info/Technology area.

- 2) Enron GSS contacts (J Youngflesh) will attempt to ascertain if there would be value to Enron (GPG?) and/or its customers if they had the ability to execute nomination control all the way to the ground (upstream of gas well-head).
- 3) EBS (Tony Gilmore) will begin working on the I/T discovery process, attempting to aggregate total Bandwidth demand: (usage patterns/volume/etc.) at Bristol and/or Pagosa. 3a) Per Rob Bender, Tony Gilmore should be contacting Al Freimeyer (sp?) at Pagosa to understand the volum of data from their daily batches from well-to-vendor. Rob provided Tony Al's telephone number on 12/1.
- 4) Enron GSS to contact Ron Smith - waterSCADA.com - to investigate parallel opportunity (gas / water analog).
- 5) EBS and BBI/Pagosa will begin (internal efforts) to figure out ways of getting the TeleFlow CDPD data onto the EBS "Enron Intelligent Network"

Next Meeting: TBD

Please let me know if I've missed anything.

Thank you,

Jeff

Jeff Youngflesh Director, Business Development Global Strategic Sourcing Enron Corp. 333 Clay Street, 11th Floor

To: jeff.youngflesh@enron.com cc: Anthony_Gilmore@enron.net Subject: Meeting 12-1-00

Dear Jeff:

It was a pleasure meeting with you last Friday with Jim Griffith and Kevin Finnan of Bristol Babcock. Perhaps by now you have had an opportunity to review the <http://wells.pagosaenergy.com> web site and look at aspects of the "demo" section. This is a very dynamic program with changes, upgrades, and customization taking place all the time to meet the individual needs of our customers.

There may well be a good fit here as we are seeking ever faster means of communication and will be requiring a substantial infrastructure not only for communications but for data base hosting as well. While yet in its infancy we have received very positive feedback and interest from numerous oil and gas companies in the industry. An alliance with Enron

to help us on the road to becoming the "Microsoft" of oil and gas well automation would be a very alluring prospect. I would like to keep a dialog going between us to scope out areas of mutual benefit for our two companies where such an alliance would make sense.

I hope to hear from you soon.

Sincerely, Rob Bender, President - PagosaEnergy.com rob@pagosaenergy.com

Thanks, Chaz, for the response. What I am looking for in question #3 (purchase commitment) is did I convey the info correctly re: what BMC will accept from Enron to allow the EBS deal to close? From notes to the Net Works directors and Bob McAuliffe, I have copied the following statements into the space below:

"1) The pricing is applicable if EBS gets their deal done, and you are willing to provide some form of commitment (at least in writing, either e-mail or letterhead) to purchasing a BMC product in 2001... For example, if Randy Matson's team chose the BMC solution at the conclusion of their current testing, they could lock in the discount at 45% by sending an e-mail (or other form of written communication) committing to the purchase in 2001 (the preference would be to get the "buy" done by end of 1st Qtr, if possible). This would be sufficient commitment for BMC to go forward with their purchases of EBS' solutions currently proposed to BMC." Is this correct the way I have presented it to NetWorks? Will their replies work for you if completed as requested above?

I didn't want to put you in a bind when I told the NetWorks teams what BMC would feel is acceptable proof-of-commitment, nor did I want to have to go back to the Net Works group and change the requirements.

I've got another note to send you in a minute or so, from Doug Cummins.

Thank you, Jeff

Chaz Vaughan@ENRON COMMUNICATIONS 12/12/2000 07:29 PM

To: Jeff Youngflesh/NA/Enron@ENRON cc: Stephen Morse/Enron Communications@Enron Communications Subject: Re: BMC Update

Jeff,

Thank you for your efforts on the BMC deal. We are making real progress. Here are the answers to your questions:

1. How much do they want you to guarantee them in BMC revenue? \$4 MM in software and \$2.4 MM in maintenance and professional services 2. Are you still looking at a \$13MM TCV over 5 years? No, our current TCV over 5 years is \$10 MM 3. Have I properly conveyed the "acceptable-to-BMC method" of proving purchase commitment from Enron? Not sure what you mean here 4. Your note re: getting the Prof'n'l Svcs contract signed says it has to be done by 6pm the 14th...what if you don't get it until the morning of the 15th? We prefer the 14th, but if we can't get it until the 15th, that will work

Please let me know if you have any other questions. I will call you tomorrow to touch base.

Thanks,

Chaz Vaughan Enron Broadband Services 1400 Smith Street Houston, TX 77002 Ph: 713-345-8815 Cell: 713-444-3074 Fax: 713-853-7354 Chaz_Vaughan@enron.net

Jeff Youngflesh@ENRON 12/12/00 04:43 PM

To: Stephen Morse/Enron Communications@Enron Communications, Chaz Vaughan/Enron Communications@Enron Communications cc: Jennifer Medcalf/NA/Enron@Enron, Brad Nebergall/Enron Communications@Enron Communications, Eric Merten/Enron Communications@Enron Communications Subject: BMC Update

Steve/Chaz -

I have taken your EBS Professional Services contract through our contracts folks, and we have ended up with it now being in EBS' contracts dept w/one of your attorneys. Our contracts Director, Tom Moore, and I spoke w/Eric Merten (PDX) early this afternoon, and he now has the contract. EBS may have some Intellectual Property issues related to ownership of BMC Consultant-developed materials (while being paid by Enron). Eric is in the driver's seat with the contract at this point.

I have sent notes to all of the Net Works directors currently engaged in one form or another with BMC product and/or personnel. In it, they have been requested to help us understand our opportunity from a number of angles: Application(s) considered, attractiveness of the new pricing, attractiveness of the BMC flexibility w/regard to "purchase commitment", etc. In addition, I have re-iterated the time urgency.

I have followed up the note w/telephone calls & messages to all of them: Doug Cummins, Randy Matson, Bob Martinez, Jim Ogg, and Bruce Smith. I am meeting with Bob Martinez on Wednesday at 3pm. Matson, Ogg, and Smith have me in their voicemailbox, Cummins was in a meeting and he said he would call me back.

Would either one of you please let me know what BMC wants EBS to do for them: how much do they want you to guarantee them in BMC revenue? Are you still looking at a \$13MM TCV over 5 years? Have I properly conveyed the "acceptable-to-BMC method" of proving purchase commitment from Enron? Your note re: getting the Prof'n'l Svcs contract signed says it has to be done by 6pm the 14th...what if you don't get it until the morning of the 15th?

I will call you to follow up on this note.

Thank you,

Jeff Youngflesh

From: Chuck Pavlica [mailto:cpavlica@enerad.com] Sent: Friday, September 14, 2001 3:56 PM To: Prospective Natural Gas Supplier Subject: American Rice RFP Clarification

Based on questions I have received, I wanted to make sure everyone had the same information in preparing their bid on the American Rice natural gas RFP.

American Rice holds transportation on Dow moving gas from the various pipeline interconnects with Dow at Katy to their facility in Freeport. ARI will give you monthly nominations and be responsible for imbalances on Dow. If you provide an index related price, we would like the option to convert it to a fixed price at our option.

I hope this helps you in your bid preparation. Proposals are due September 20, 2001. Thank you for your consideration.

Chuck Pavlica Ascentergy Corporation 440 Benmar, Suite 1060 Houston, TX 77060 (281) 447-7376 ext. 117 (281) 447-7310 fax email: cpavlica@enerad.com <mailto:cpavlica@enerad.com>

Mike,

Hello. My name is Adrian Clark and I am an executive recruiter in the energy industry. One of my industry sources told me you are a successful Gas Options Trader. My firm, First Call Associates, is currently doing a search for some clients of ours, one of which is retained, which are looking to hire high-quality Gas Options Traders. If you, or someone you know, has an interest in learning more about these opportunities, please contact me. If the timing is not right for you at this time, I've included my contact information for future reference.

You can find more information about us at www.firstcallassociates.com. The founders of our firm came from the energy business themselves, having spent more than 10 years trading energy (both gas and power). Because of their experience, we have been able to form relationships with some of the leading energy companies in the country enabling us to present qualified employees for their consideration.

Be assured that any information we discuss will be completely confidential. My apologies for sending this to your email at work but I have not been able to get you by telephone during business hours.

Adrian Clark Director First Call Associates, Inc. 8 Andrew Dr. Canton, CT 06019 860-693-4122 860-693-4118 (fax)

Small world!

Sender	hrobertson@cloughcapital.com
Recipients	['john.arnold@enron.com']
File	arnold-j/inbox/67.

Hey John!

How are you?? I've been following the Enron story closely, which means I've thought of you a lot recently. I hope things are going well, despite the uncertainty.

I ran into someone from our Enron days today, which made me think of a funny story. Do you remember when John Mee tried to eat 8 Big Macs and hurled instead? John was talking to my boss, Chuck Clough, today, who he's known since childhood and is a mentor of sorts. When he got off the phone, Chuck told me who he was talking to and the name John Mee struck me as familiar. I asked Chuck if he was a big kid who'd gone to Harvard and he said yes. So I tell him the Big Mac story and Chuck picks up the phone and calls John to ask him if that was him because if so, I knew him. Poor thing says "yeah, that was me, but not one of my finer moments..." I could tell he was embarrassed. I guess there are some things in life you just never live down.

I also ran into some friends of yours in Bermuda last month. We shared a cab to the airport and realized we had all been at Enron, though not at the same time. I mentioned that I really loved the company, especially how young it was and that I had a friend who joined right out of undergrad and is now doing really well. They immediately said "John Arnold!" Shocked the hell out of me, honestly. They were very funny in saying that I had made a "bad trade" by marrying my husband instead of you. I told them I would keep that in mind.... ;-} I would tell you their names, but I can't remember off the top of my head. They both work for a weather trading firm in the Northeast now, with Lynda Clemmons.

Well, gotta run to the gym - been putting it off as long as I could today. I really do hope you're doing well. Please drop me a line when you aren't trading up a storm...

Warm regards, Heather

Heather Lockhart Robertson, Director Clough Capital Partners, LP 260 Franklin Street, 19th Floor Boston, MA 02110 P: 617-204-3409 F: 617-204-3434 E: hrobertson@cloughcapital.com

-----Original Message-----

From: "Robertson, Heather" <HRobertson@cloughcapital.com>@ENRON [mailto:IMCEANOTES-+22Robertson+2C+20Heather+22+20+3CHRobertson+40cloughcapital+2Ecom+3E+40ENRON@ENRON.com] Sent: Monday, September 17, 2001 8:56 AM To: Robertson, Heather Subject: FW: How You Can Help the US Stock Market

I apologize for the mass email, but I thought this was a simple, yet powerful idea... especially as the opening bell on Wall Street just rang.

I pray that each of you are safe and sound. Please note my contact info below, especially if we haven't kept in touch as well as we should. I'm sure we're all feeling the need to connect with old friends...

Take care of yourselves, Heather

Heather Lockhart Robertson Clough Capital Partners, LP 260 Franklin Street Boston, MA 02110 P: 617-204-3409 F: 617-204-3434 hlockhart@mba1997.hbs.edu

-----Original Message-----

From: jhsin@mba1997.hbs.edu [mailto:jhsin@mba1997.hbs.edu] Sent: Friday, September 14, 2001 3:41 AM To: hrobertson@cloughcapital.com Subject: FW: How You Can Help the US Stock Market

We CAN help America TODAY

No doubt you have heard dire predictions about the financial devastation that will occur when the US stock market re-opens. This will be a second devastating attack on America if we allow it to happen.

We DON'T have to allow it to happen. Here's what YOU can do to help prevent it...

When the markets re-open, in a show of support and solidarity, BUY at least one share of stock in a U.S. company.

Open your minds to imagine what a SLAP in the face of terrorism it would be if the American markets actually RISE instead of PLUNGE when they re-open!

Can you think of a STRONGER message we could send to those who would seek to destroy our way of life?

This e-mail is sponsored by noone, so if you also have a suggestion for people without stock accounts, please add that information before you forward this e-mail.

If we all participate in a massive stock selloff, then we are BOWING to terrorism. We do NOT have to do that. We have a choice.

People by the hundreds of thousands are lining up to donate one pint of blood. Think of the effect we can have if we line up in the same way to contribute to the American economy!

For very little money you can DO something to show would-be terrorists that they will NOT win.

YOU CAN MAKE A DIFFERENCE!

Take part in this revolution and forward this e-mail to everyone on your mailing list. We can reverse the tide of the financial carnage throughout the world just by doing that.

Do you want to show support for America? Then show support for American companies.

WHEN THE US MARKETS RE-OPEN, BUY AT LEAST ONE SHARE OF STOCK IN A U.S COMPANY.

Imagine the headlines we will read when we all make this happen...

"US Financial Victory -- Of the People, By the People, and For the People."

don't care about the front. i think its vulnerable to a good short squeeze like we saw on thruday and friday. trade is getting short in here with cash such a piece. if weather ever changes, which the weather boys are saying it might in 2 weeks, the cash players are going to be big buyers. don't really want to carry length on the way down waiting for that to happen though. Backs are crazy stong. cal 3 traded as high as +10. everybody a buyer as california trying to buy any fixed price energy they can find

File	arnold-j/deleted_items/192.

Aren't you used to me popping in every few years by now?? And are you calling me wacky?? =)

Basically, I just started working for a new-ish hedge fund in Boston with Chuck Clough, the former Chief Investment Strategist for Merrill. I got a random phone call yesterday from a woman who is just starting a hedge fund here in Boston. She had heard I was in town and has been trying to get a hold of me to help her start her hedge fund. She finally got my number from someone, who told her I had already started working with Chuck. I'm not sure why she called me anyway, but she basically tried to convince me what a great opportunity it would be to work with her and her "team."

The only person on her "team" that she described was Jeff Gossett. She said that she and her husband had hired him out of Southwest Texas undergrad and he had stayed with her first fund for four years (which she subsequently sold) until Enron recruited him away. The stories of the recruitment seemed a bit wild, like using private jets to fly him to Europe. Anyway, she said that he had quit Enron two weeks ago to join her in this new hedge fund. Having never heard of him and thinking she seemed to be a bit of a crackpot, I was wondering if it was true. I would never leave this opportunity, even if she offered me the world, but I have friends who really want to break into hedge funds, so I was doing some due diligence on their behalf.

Does it sound like the same guy?

Craig Brown 713-345-5701

John Bone 12/06/2000 10:11 AM

To: Craig H Brown/NA/Enron@Enron cc: Subject: Nitrogen

Details of Nitrogen Pressures and volumes. For a new scheme we would want 100 psi, to suit the nitrogen ring main. Current supply pressures from BOC are not relevant. Volume is 28-29,000 rm3/hr at Wilton and total of approx 45,900rm3/hr when the other sites are included. This issue of supply to the other sites could be a problem as BOC are physically entrenched in the piped supply arrangements.

Dear Mr. Arnold:

I was referred to you by Ms. Eva Pao. I am a second year MBA student at Harvard Business School, writing to express interest in exploring potential employment opportunities with Enron. In particular, I am interested in derivatives trading.

I have attached my resume for your convenience. As you can see, my professional experience has been in a variety of roles within financial institutions and specifically, managing a currency trading-desk, before starting my MBA.

I would appreciate an opportunity to meet with you or with one of your colleagues, on a formal or informal basis, who might be in the Boston or NYC areas in the next few months.

Thank you for your time and consideration.

Sincerely,

Gad Caspy

US Corporate Sublease Space and Global Office Link

Sender	jaydonahue@globalofficelink.com
Recipients	[' jarnold@ei.enron.com ']
File	arnold-j/deleted_items/17.

Global Office Link (www.globalofficelink.com) is an e-business platform for corporate real estate. Built by KPMG Consulting, our platform serves companies with diverse needs on a worldwide basis. Our listings include corporate properties for lease or sublease, properties for sale, and requirements for companies that need space.

One of our clients has a number of quality office properties available for lease or sublease in the US. These corporate offices are partially or fully fitted out and are available for occupancy either immediately on in the near future. Some offices may be subdividable into smaller sizes.

The enclosed hyperlinks summarize each listing:

Alpharetta, GA - 13,000 sq. ft. <http://www.globalofficelink.com/promo/georgia-alpharetta.html>

Atlanta, GA - 11,000 sq. ft. <http://www.globalofficelink.com/promo/georgia-atlanta.html>

Atlanta, GA - 27,000 sq. ft. <http://www.globalofficelink.com/promo/georgia-atlanta.html>

Norcross, GA - 4,000 sq. ft. <http://www.globalofficelink.com/promo/georgia-atlanta.html>

Bedford, MA - 33,000 sq. ft. <http://www.globalofficelink.com/promo/massachusetts-bedford.html>

Framingham, MA - 18,000 sq. ft. <http://www.globalofficelink.com/promo/massachusetts-framingham.html>

Fort Lee, NJ - 8,000 sq. ft. <http://www.globalofficelink.com/promo/newjersey-fortlee.html>

Princeton, NJ - 18,000 sq. ft. <http://www.globalofficelink.com/promo/newjersey-princeton.html>

Charlotte, NC - 37,000 sq. ft. <http://www.globalofficelink.com/promo/nocarolina-charlotte.html>

Independence, OH - 17,000 sq. ft. <http://www.globalofficelink.com/promo/ohio-independence.html>

Blue Bell, PA - 23,000 sq. ft. <http://www.globalofficelink.com/promo/pennsylvania-bluebell.html>

Plymouth Meeting, PA - 31,000 sq. ft. <http://www.globalofficelink.com/promo/pennsylvania-plymouthmeeting.html>

Radnor, PA - 12,000 sq. ft. <http://www.globalofficelink.com/promo/pennsylvania-radnor.html>

Plano-Dallas, TX - 149,000 sq. ft. <http://www.globalofficelink.com/promo/texas-plano.html>

Richmond, VA (Glen Allen) - 26,000 sq. ft. <http://www.globalofficelink.com/promo/virginia-richmond.html>

We invite you to access the detailed listings, and directly contact the company, through Global Office Link (registration as a corporate user is required under "Login" - there is no registration fee). We will offer corporate users other value-added services, and more US property listings, in the near future. Please contact us if you have any questions about our services or web site.

Best regards,

Jay Donahue President & CEO Global Office Link 101 Federal Street, Suite 1900 Boston, MA 02110 USA

Any time tomorrow afternoon around 3 or 4:45 to discuss?

-----Original Message-----

From: Thuraisingham, Ravi Sent: Wednesday, October 03, 2001 6:29 PM To: Arnold, John Subject: RE: Neural Networks

John, here is a power point slide that provides a draft outline of the problem at hand. It is very draft in nature but I wanted to get the working version over to you ASAP. I wanted to get this discussion going via written format so that I (or others who may implement this) can stay focused on what you want and not get into broader research, etc....

I think I can put a model together if we can define what parameters, the interface (levers) and model (transfer functions) to use that would be useful for you as phase I product.

I will fire off updates to this document as I make them. If you have a spec doc or ideas that you want to hand write on a print out, please do so and I will update the document.

I will like to make sure that I am on the same page before beginning to code the program and to start linking to additional moths (month 2, 3, ..) and different curves, etc.

My Job search has gone well with the Crude desk and I am waiting compensation indication from them to make my decision. Also, Kevin Presto feels that I could potentially help his power group with new market or spread trading. John Suarez is a director who came from the power desk to EBS is going back to work for Kevin Presto. I may have an opportunity to build the southeast market by supporting John.

I am very grateful that I met you and other key Enron traders during this job search.

not necessarily looking for predictive power. that's a 3 year project. just for market making skillset. The work that Dave Forster did was just for front month. That creates month 1. Then, similar logic has to create a month 1/month 2 spread to create a month 2 outright market. Same for month 2/ month 3 to create month 3. There might be 24-36 individual markets to create a forward curve. Sometimes month 1 has correlation to the month 1/ month 2 spread. Sometimes it does not. Must create a system that is mechanical but very easy for a human to add bias.

-----Original Message-----

From: Thuraisingham, Ravi Sent: Monday, October 01, 2001 10:20 AM To: Arnold, John Subject: Neural Networks

John, I just wanted to give you heads up that I did look into the subject system to learn from what your trading activities and then figure ways to automate some aspects of you daily activities. I will try to send you a few power point slides showing my initial thoughts on the system.

It appears that neutral network (AI is a subset of this class of learning systems) type of model that takes input from all available sources (including actual market feedback, weather and other fundamentals) and uses curve building functions and other existing tools as transfer functions, along with your own thinking (your processing functions that your neurons are wired up to do), could help the neural network to learn and eventually provide the necessary predictive power.

File	arnold-j/_sent_mail/659.

Michael: Thanks for putting the paperwork together.

I would have interest in meeting if you can present unique investment opportunities that I don't have access to now. Most of my contact with financial advisors in the past has consisted of them suggesting a mutual fund, telling me to invest in Home Depot, Sun, and Coke, or trying to pass off their banks' biased research reports as something valuable. The above services provide no value to me personally. If you can present opportunities such as access to private equity or hedge funds, or other ideas with strong growth potential and low correlation to the S@P, I'd listen.

John

Michael: Appreciate the idea. However, with my natural long, I'm not looking to really trade around the position. I believe ENE will continue to be range bound, but in case it is not, I don't want to forgo 50% of my option premium. I have price targets of where I would like to lighten up exposure to ENE and will use calls to implement the strategy. To that regards, I noticed I was not approved to sell naked calls. I would like that ability in order to hedge some exposure I have of unexercised vested options. Please look into that for me. John.

To: "Arnold, John" <john.arnold@enron.com> cc: Subject: Buying back calls

John -

I was looking at the recent pullback in ENE and thinking it might be an opportunity to buy back the calls you sold. Of course, you would then be in a position to sell calls again if the stock makes a bounce. I'm not sure that ENE @ 75 is the place, but maybe @ 73. Call me if you're interested.

yea, i'll talk to them.

who should i call?

Brian Hoskins@ENRON COMMUNICATIONS 10/25/2000 09:04 AM To: John Arnold/HOU/ECT@ECT cc: Subject: Re: Implementation issue on IE5.0/5.5

John,

Looks like IT has decided not to install Internet Explorer 5.5 after all. The program is ready to go as soon as that is installed. Do you want to put some pressure on them, or would you rather wait to see if they can fix it to work on IE 5.0? You have 5.5 by the way, so I'm not quite sure what the problem is.

Brian

Re: Implementation issue on IE5.0/5.5

Brian,

We are not good to go here. These are high profile traders and I do not want to install IE55 just for this chatting application. I would like for Fangming to resolve whatever the problem is with IE5 first and go from there.

Again, sorry to be a pain and I understand your situation, but developers should not develop applications with unsupported dependencies.

-jkc

Brian Hoskins@ENRON COMMUNICATIONS 10/24/2000 03:44 PM To: John Cheng/NA/Enron@Enron cc: Subject: Re:
Implementation issue on IE5.0/5.5

John,

So are we good to go to install IE 5.5? From you email yesterday, I was under the impression that we were. I understand that you guys need to keep the integrity of the system, but these guys really need this program ASAP.

Again, if you need additional support, we can get that for you. Just let me know what you need to resolve the problem.

Thanks, Brian

To: Brian Hoskins/Enron Communications@ENRON COMMUNICATIONS, John Cheng/NA/Enron@Enron@ENRON
COMMUNICATIONS cc: Subject: Implementation issue on IE5.0/5.5

All, As John suggested, I have contacted the Microsoft Expert on the IE 5.0/5.5 issue early this morning. We actually had a conversation over the phone. I also sent him E-mail to describe the problem. So far I haven't heard anything from him yet. I doubt if he can solve the problem. In order to solve this browser issue, I suggest we can have 5-10 traders to install IE5.5 on their PC. If everything works fine, we can update everyone into IE5.5. It is really not my decision whether or not to use IE5.0 or 5.5. Right now everything is ready for users to test the application except the browser issue.

Let me know when and how we are going to implement the messageboard application.

Thanks,

Fangming

Mike Horning's pre-conference call comments	
Sender	colleen.koenig@enron.com
Recipients	['jennifer.medcalf@enron.com']
File	arnold-j/universal_studios/5.

Jennifer, I gave Mike Horning a call I received his e-mail. He is following up with Cox directly to find out what is happening on the broadband side (negotiations with Blockbuster).

I reviewed Universal's request for a sponsorship (of JPI). He was also asking dollar amounts for the sponsorship. It looks like Mike is going to probe Daphne Harvey (Universal) for the technical knowledge he needs in order to make the best pitch to Universal. It looks like he will also feel out the organizational structure to see if his contacts are the right ones.

Colleen

Michael Horning@ENRON COMMUNICATIONS 12/13/2000 04:22 PM

To: Colleen Koenig/NA/Enron@ENRON cc: Subject: Confidential

Colleen,

As part of my strategy, I want to glean information. Hopefully it will give me an understanding of their process and goals, so that I may be more effective in my discussions with their media group.

Following are a few questions I will ask Daphne (I don't expect Daphne to have all the answers):

1) Help me understand how Universal wants to save money on advertising? 2) Who at Universal is driving that process? (Names, Titles, etc.) 3) What are the saving targets? (% or \$ amount) 4) Where do they want to save in regards to advertising? (Spot TV, Network TV, Cable, Radio, NP, etc.) 5) What is their annual advertising budget? (Per film? Metric? Per media, etc.) 6) How much does she understand about media buying? (GRP's, CPM's, Demos, Dayparts, Reach & Frequency, etc.) 7) What is her role in this process?

I'm sure I will have a few more questions, as we speak with each other.

From: Jennifer Fraser/ENRON@enronXgate on 04/12/2001 07:59 AM To: John Arnold/HOU/ECT@ECT cc: Subject: RE: ng views + wager

Most import - the wager - I will take the over on May NG (4.95). 2:1 is okay--- \$5 per penny okay?

Agree - Products Rally is not different for products. 92% of heating oil is made ondemand (storage is not as important as in nat gas) Heat will get ugly this October and then give it up (unless we have 7 blizzards in the Northeast very early). SOME things to consider : 1- in the next 3-4 weeks we will finish the very heavy maintenance season and be in full blown gasoline season. - yields will be preferentially shifted for HU 3- nobody will pay any attention to HO 2-HO will have incremental demand due to utility switching and will quietly build slower than last year 4- therefore by September everyone will freak out 5- After the October contract expires (HO) , everyone will realize (similar to NG) that the world will not end.

Where does this get us: 1- Sell q3 HU crack and by Q4HO crack (By the time q3 prices out--the wind will have been taken out of HU sails - plus you can do it month avg--therefore less noise) 2-Benefit from heat's recent excitement -- sell HO calls (June -Aug), buy ng puts nov-jan

Ng-Disagree: I think prices stay high through June. The big drop off come some where in July 15 to Aug 15 and downhill from there. (Looks like 1998)

From: Arnold, John Sent: Wednesday, April 11, 2001 10:41 PM To: Fraser, Jennifer Subject: Re: ng views

the only change that's happened to my long term outlook has been that the weather in the short term has been more bullish and we'll have 30 or so bcf less storage than i was anticipating in two weeks. so yea, my curve is a touch higher, but it doesnt change my longer term view. most of the move this week was a short squeeze of spec shorts combined with a strong heat market. a little concerned about heat, but also saw products very strong going into the season this past winter only to stage a huge failure. not convinced this rally in products is different.

File	arnold-j/all_documents/586.

Hi,

Following the e-mail you have received yesterday concerning the new WTI bullet swap contracts, we would like to summarize what we have done on the ICE system yesterday evening:

-Deleted WTI monthly time spreads -Deleted WTI/Brent monthly diff spreads (spread with legging) -Deleted 1% NYH Harbor Fuel Oil Crack monthly (spread with legging)

-Added WTI/Brent monthly diff spreads (spread with NO legging) -Added 1% NYH Harbor Fuel Oil Crack monthly (spread with NO legging)

Unfortunately the WTI/Brent and the 1% NYH Fuel Oil Crack contracts (with the legging functionality) have been removed from your portfolios. You will need to add the first four nearby months' contracts to your portfolios by going to Admin / Manage Portfolios / Edit your portfolio....

Please do not hesitate to contact us if you have any question: Helpdesk on +1 770 738 2101 (US) Stephanie Trabia: +44 207 484 5546 (UK)

FW: Terminating Trades

Sender	john.arnold@enron.com
Recipients	['dutch.quigley@enron.com']
File	arnold-j/sent_items/620.

-----Original Message-----

From: Calger, Christopher F. Sent: Monday, December 03, 2001 5:43 PM To: St. Clair, Carol Cc: Sacks, Edward; Arnold, John Subject: RE: Terminating Trades

Ed Sacks has the list. With respect to CSFB, it sounds like we have a dispute. Trades, my understanding, can get "done" verbally and then confirmed. It sounds like we should pull the tapes. We should also think of whether the deal agreed to Friday is currently in or out of the money.

Ed, could you look into this? -----Original Message----- From: St. Clair, Carol Sent: Monday, December 03, 2001 2:55 PM To: Calger, Christopher F. Cc: Rohauer, Tanya Subject: Terminating Trades

Chris: We need to come up with a list of trades that we terminated last Friday so that we can take them out of our books. Do you have that list? Also, I spoke with "Dutch" this morning because CSFB left me a message yesterday after we filed claiming that the Friday trade was not effective. I disagree even though a confirm has not been signed. How do you want to handle this?

My email system has recently developed a glitch. It has come to my attention that some emails have been sent to me, but I never received them. When this happens, the system does not return a 'mail not delivered' message to the sender. If you have sent an email to me in the last couple weeks expecting a response, but did not hear back from me or my office, please call us. I apologize for any misunderstanding or inconvenience. Of course, issues requiring a timely response are always best handled over the phone, and until my email system is fixed it is best to either call me or email Rafael (rafael.herrera@ubspainewebber.com). Thank you for your understanding.

Re: Buying back calls

Sender	john.arnold@enron.com
Recipients	['michael.gapinski@painewebber.com']
File	arnold-j/all_documents/907.

Michael: Appreciate the idea. However, with my natural long, I'm not looking to really trade around the position. I believe ENE will continue to be range bound, but in case it is not, I don't want to forgo 50% of my option premium. I have price targets of where I would like to lighten up exposure to ENE and will use calls to implement the strategy. To that regards, I noticed I was not approved to sell naked calls. I would like that ability in order to hedge some exposure I have of unexercised vested options. Please look into that for me. John.

"Michael Gapinski" <michael.gapinski@painewebber.com> on 02/20/2001 06:28:27 PM To: "Arnold, John"
<john.arnold@enron.com> cc: Subject: Buying back calls

John -

I was looking at the recent pullback in ENE and thinking it might be an opportunity to buy back the calls you sold. Of course, you would then be in a position to sell calls again if the stock makes a bounce. I'm not sure that ENE @ 75 is the place, but maybe @ 73. Call me if you're interested.

John -

I realize you don't have "fresh money" now, but if you happen to come across fresh money in the next month, I want you to be aware of a new crossover fund. The fund seeks to invest up to 50% (may exceed 50% under certain circumstances) of the portfolio into late-stage venture capital companies through relationships that Putnam and Thomas H. Lee Partners (great name in private equity) have with various participants in the capital markets. The remainder of the fund will be in small- and mid-sized publicly traded companies managed by Putnam's Specialty Growth team.

Let me know if you're interested, and I'll send a kit over. So far, nice trade on the ENE GJs.

----- Forwarded by Jeff Leath/NA/Enron on 12/04/2000 01:57 PM -----

"Johnson, Beverly" <Beverly.Johnson@the-woodlands.net> 12/04/2000 01:48 PM

To: "jeff.leath@enron.com" <jeff.leath@enron.com> cc: "Wallin, Kelli" <Kelli.Wallin@the-woodlands.net>, "Hudson, Coleman" <Coleman.Hudson@the-woodlands.net> Subject: Strategic Sourcing Conference

ENRON STRATEGIC SOURCING FOLIO # 336135 10/8-11/00 MR. JEFF LEATH PHONE: 713-646-6165 FAX: 713-646-6313

Jeff,

Per our conversation this morning, I will list the items in question. I am also forwarding this to Kelli Wallin in our accounting department to follow up on as well.

* ACCOUNTING: Please see that all service charges were posted as 18%, per contract * JEFF: I will fax you the comp ticket showing the 1 hour reception posted to The Woodlands House account. * ACCOUNTING: Please fax Jeff the back up for the package handling charges. \$451.35 * ACCOUNTING: Please adjust (1) wireless mouse charge for a total of \$156.41 * JEFF: In regards to the lunch charges, we charged a day guest rate to include lunch in The Woodlands Dining Room @ \$57.00 for 40 day attendees. You had 80 persons on the Complete Meeting Package. However, when coordinating with Tracey Kozadinos, she ordered and guaranteed 100 box lunches @ \$5.50 per person surcharge for the golf. Thus, 80+40=120 - 100 (box lunches) would leave 20 persons permitted to have lunch in The Woodlands Dining Room. We billed you for the total amount of persons over the 20 permitted in the Woodlands Dining Room. * JEFF: Breakout charges were for (2) rooms. Enron had a guarantee of 120 attendees. We allow (1) breakout per 40 attendees. This particular day, (5) breakouts were ordered. The audio visual in the additional breakouts is based on a-la-carte pricing and is not included in the package. Only av is included in the rooms that are part of the allocation.

Jeff, I will see that the adjustments are forwarded to you as soon as possible in order to remit for payment. Please feel free to call me should you have further questions. Thank you for your business!

----- Forwarded by Colleen Koenig/NA/Enron on 12/13/2000 04:18 PM -----

Michael Horning@ENRON COMMUNICATIONS 12/13/2000 04:03 PM

To: Stewart Seeligson/Enron Communications@Enron Communications cc: David Cox/Enron Communications@Enron Communications, Edward Ondarza/Enron Communications@Enron Communications, Colleen Koenig/NA/Enron@ENRON Subject: Universal (JPI) sponsorship

Stewart,

Per our phone conversation, Universal is looking for sponsorship funds to grow JPI (Jurassic Park Institute).

Enron Media has an opportunity (perhaps) to provide advertising risk management services beyond their Motion Picture Group, to their Music, Home Video and Recreation Groups.

There may be an opportunity for EBS to provide bandwidth in lieu of sponsorship dollars or some other type of arrangement.

I am trying to reschedule my meeting with their motion picture advertising team for the second week in January, so I'll stay in touch to see if you develop an opportunity through their global sourcing group.

Regards,

Michael P. Horning Director Enron Media Services Global Media Risk Management Phone: 713-853-9181 Fax: 713-646-8436 Cell: 713-303-0742 ----- Forwarded by Michael Horning/Enron Communications on 12/14/00 04:04 AM

Additional offerings to round out your portfolio

Sender	michael.gapinski@ubspainewebber.com
Recipients	['john.arnold@enron.com']
File	arnold-j/notes_inbox/64.

John -

I left a message about this last week, but wanted to follow-up with additional information for your review. We have three offerings currently available (or coming soon) that I feel would compliment the small/mid cap and fixed income exposure you already have through Redwood, Sequoia, and Willow.

Quantitative Allocation, LLC: Integrates four quantitative investment models to drive aggressive (and potentially leveraged) asset allocation decisions. Generates exposure to stock and bond markets through indexing techniques and futures transactions. Portfolio market exposures can range from +325% to -175% of net assets. This is clearly different from the largely non-leveraged stock-picker funds you already own. I would consider this to be a predominately large-cap investment (I think of it as an index fund with a brain and on steroids - call me and I'll explain that comment in more detail).

Juniper Crossover Fund, LLC: Managed by OrbiMed Advisors, and focused on global biotech and pharma. Up to 30% participation in private equity. This could be a way to get you some private equity exposure with a world-class manager.

Tamarack International Fund, LLC: Long/short stock-picker fund focused on the international mid-cap market. I feel this fund is very similar in style to the managers you already own, but would give you exposure to the international markets that you currently lack. This is a new fund and the first closing will probably be in June.

Of course, the summaries above are for information purposes only and do not constitute an offer to sell or solicitation of an offer to buy interests in these funds. Please call me if you're interested in any of the strategies outlined above, and I'll have the appropriate offering memorandum sent to you.

Thanks,

Michael Gapinski Account Vice President Emery Financial Group PaineWebber, Inc. 713-654-0365 800-553-3119 x365 Fax: 713-654-1281 Cell: 281-435-0295

John -

I want to float an idea past you to see if you have any interest. In the past, I have not made a habit of participating in PaineWebber syndicate offerings because, frankly, investment banking was not our strong suit. Now, with the UBS merger, our deal flow is starting to look much better (see press release below). 5.79% isn't a mind-blowing number, but it is impressive in light of market conditions and the fact that "UBS Warburg was the only bank to have a positive return among the 17 banks listed including Merrill Lynch, Morgan Stanley, Goldman Sachs and Salomon Smith Barney."

As the market rebounds, I think you may benefit from participation in IPOs and other syndicate deals. If you have an interest in this, let me know and we'll discuss it further. Thanks.

January 12, 2001 UBS Warburg has been ranked first in IPO performance for US offerings in 2000, according to CommScan's Equidesk. Achieving a 5.79% return, the result is particularly significant considering the Bank was not involved in any of the top 10 largest IPOs of the year. Lead managing 12 IPOs, UBS Warburg was the only bank to have a positive return among the 17 banks listed including Merrill Lynch, Morgan Stanley, Goldman Sachs and Salomon Smith Barney. UBS Warburg also tied first place for IPO "batting average" (the % of IPOs that trade above issue price), achieving the highest "batting average" overall. Three deals in 2000 which helped achieve these impressive statistics include Intermune Pharmaceuticals, Luminex, and Bruker Daltonics.

The Fortune article is about grassroots change within a company. It is written about the lady who started EOL, but I'm in it a little. Chief of natural gas derivatives...I'm not really sure what that means. I run the Nymex book now but not the floor..just the derivatives desk of five people.

I'm actually going to Costa Rica tomorrow morn thru Monday. Never been but heard it's beautiful. Next time you're in we'll go out. J

Heather Robertson <hrobertson@hbk.com> on 08/31/2000 01:20:05 PM To: John.Arnold@enron.com cc: Subject: RE: Young John?

What do you mean? I'm serious!

So what Fortune article? I only saw you in Time... Pretty freaky to see someone you know like that! What the heck is a "chief" of natural gas derivatives?! Skilling's old job?

Check out the Amazon (AMZN) chat on Yahoo... I was joking that all of my friends were in the press lately (i.e. YOU, as well as all my HBS buddies), so the guys on the trading floor thought this would be funny. The best part is that someone thought they were serious and started in on the conversation!! I do investor relations for a hedge fund in Dallas, so that's why they are talking about my IR/selling skills... but it's not exactly your typical corporate IR position considering our investor base.

I'm going to be in your neck of the woods tomorrow. I'm visiting friends in Houston on Friday & Saturday, then going to my sister's house in Bay City on Sat. night. No firm plans, just getting out of Dallas. Are you going to be around?

I thought about you the night after I saw the article because I was in Snuffers, drinking a strawberry daiquiri... =) do you remember why?? I think about that every time I go there....

Take care and make money!

So what Fortune article? I only saw you in Time... Pretty freaky to see someone you know like that! What the heck is a "chief" of natural gas derivatives?! Skilling's old job?

Check out the Amazon (AMZN) chat on Yahoo... I was joking that all of my friends were in the press lately (i.e. YOU, as well as all my HBS buddies), so the guys on the trading floor thought this would be funny. The best part is that someone thought they were serious and started in on the conversation!! I do investor relations for a hedge fund in Dallas, so that's why they are talking about my IR/selling skills... but it's not exactly your typical corporate IR position considering our investor base.

I'm going to be in your neck of the woods tomorrow. I'm visiting friends in Houston on Friday & Saturday, then going to my sister's house in Bay City on Sat. night. No firm plans, just getting out of Dallas. Are you going to be around?

I thought about you the night after I saw the article because I was in Snuffers, drinking a strawberry daiquiri... =) do you remember why?? I think about that every time I go there....

Take care and make money!

-----Original Message-----

From: Debbie Nowak =20 Sent: Wednesday, March 07, 2001 8:35 PM To:=20 Subject: Your Invitation to Enron's Executive Forum - 1st Quarter 2001

The Office of the Chairman would like to invite you to participate at an=20 Enron Executive Forum. This invitation is extended to anyone who attended an Executive Impact and Influence Program within the pa= st=20 two years. These informal, interactive forums will be 90 minutes in length and held several times per year.

Most of the participants in the Executive Impact and Influence program have= =20 indicated a strong desire to express opinions, share ideas, and ask questions to the Office of the Chairman. Although not=20 mandatory to attend, the forums are designed to address those issues. They= =20 also afford the Office of the Chairman opportunities to speak directly to i= ts=20 executive team, describe plans and initiatives, do =01&reality checks=018, = create a=20 =01&rallying point=018 and ensure Enron=01,s executive management is on the= =01&same=20 page=018 about where Enron is going---and why.

To accommodate anticipated demand, we currently have two sessions:

Choice: (Please rank in order of preference 1 or 2 for a session below. Yo= u=20 will attend only one session.)

_____ Thursday, March 29, 2001 from 2:30 p.m. to 4:00 p.m. in EB50M

_____ Friday, March 30, 2001 from 2:30 p.m. to 4:00 p.m. in EB50M =20

The Office of the Chairman will host the forum. Here=01,s how it will work: ? Each session will have approximately 20 participants. ? The format will be honest, open, interactive dialogue. ? This will be your forum. Don=01,t expect to simply sit and listen to=20 presentations.=20 ? This will not be the place for anonymity. You can safely ask your own=20 questions and express your own opinions. ? You can submit questions/issues in advance or raise them during the forum= . ? Some examples of topics you might want to discuss include, but are not=20 limited to: the direction of Enron, business goals/results, M&A activitie= s,=20 projects/initiatives, culture, leadership, management practices, diversity,= =20 values,

etc.

Because the forum will work only if everyone actively participates, we encourage you to accept this invitation only if you intend to have something to say and if you are willing to allow others to do the same. For planning purposes, it is essential that you RSVP no later than Friday, March 16, 2001 by return e-mail to Debbie Nowak, or via fax 713.646.8586.

Once we have ensured an even distribution of participants throughout these sessions, we will confirm with you, in writing, as to what session you will attend. We will try to honor requests for first choices as much as possible.

Should you have any questions or concerns, please notify Gerry Gibson by e-mail (gerry.gibson@enron.com). Gerry can also be reached at 713.345.6806.

Thank you.

Please take care of ----- Forwarded by John Arnold/HOU/ECT on 09/07/2000 05:13 PM -----

Enron-admin@FSDDataSvc.com on 09/07/2000 11:51:29 AM To: John.Arnold@enron.com cc: Subject: TIME SENSITIVE: Executive Impact & Influence Program Survey

Executive Impact & Influence Program * IMMEDIATE ACTION REQUIRED - Do Not Delete *

As part of the Executive Impact and Influence Program, each participant is asked to gather input on the participant's own management styles and practices as experienced by their immediate manager, each direct report, and up to eight peers/colleagues.

You have been requested to provide feedback for a participant attending the next program. Your input (i.e., a Self assessment, Manager assessment, Direct Report assessment, or Peer/Colleague assessment) will be combined with the input of others and used by the program participant to develop an action plan to improve his/her management styles and practices.

It is important that you complete this assessment NO LATER THAN CLOSE OF BUSINESS Thursday, September 14.

Since the feedback is such an important part of the program, the participant will be asked to cancel his/her attendance if not enough feedback is received. Therefore, your feedback is critical.

To complete your assessment, please click on the following link or simply open your internet browser and go to:

<http://www.fsddatasvc.com/enron>

Your unique ID for each participant you have been asked to rate is:

Unique ID - Participant EMP74A - Phillip Allen

If you experience technical problems, please call Dennis Ward at FSD Data Services, 713-942-8436. If you have any questions about this process, you may contact Debbie Nowak at Enron, 713-853-3304, or Christi Smith at Keilty, Goldsmith & Company, 858-450-2554.

Thank you for your participation.

From: Mark Sullivan [mailto:msullivan@prosrn.com] Sent: Wednesday, October 17, 2001 4:47 PM To: Rangel, Ina Subject: PROS Revenue Management: Energy Profit Optimization Workshop

Dear Ina,

Please forward the following to John Arnold:

John, my name is Mark Sullivan with PROS Revenue Management and we are the world's leader in revenue management technology for the airline and energy industries, among others. On Monday, November 5, in Houston we will be holding an Energy Profit Optimization Workshop which will demonstrate how you can use revenue optimization technology to increase your revenues by 10-25% in EACH of your Trading, Transportation and Storage operations while also reducing your operating costs. This workshop has proven to be a significant career enhancing event for people in the energy field, particularly at the Senior Trader level, and I strongly encourage you to attend. I would be happy to tell you more about it if you would call me back at 713-335-5812 or you can visit our website at www.prosrn.com which provides more information, directions and free registration.

Best regards, Mark

Compaq / EBS Relationship

Sender	kim.godfrey@enron.com
Recipients	[jim.crowder@enron.com', 'tracy.prater@enron.com', 'david.spurlin@compaq.com', 'everett.plante@enron.com', 'b...
File	arnold-j/all_documents/133.

David and Bob,

We look forward to working with you to strengthen the Compaq and EBS relationship. EBS has identified potential server business opportunities (storage, streaming media) where our two organizations can work together. After our meeting on

Dec 14th, EBS now understands to utilize David Spurlin as the point person for these communications. EBS had prior direction from Compaq to direct our discussions to Derrick Deakins, Rob Senders, Keith McAuliffe or Kent Major. Tracy Prater and myself look forward to spending additional time with David to ensure that he is aware of the EBS business opportunities and issues.

EBS had invested significant dollars, time and energy with Compaq to develop the streaming media server solutions. We discussed during the Dec 14th meeting that there are decisions to be made regarding the existing Product and Server Supply Agreement that are contingent on those streaming media solutions. EBS and Compaq have both acted in good faith to achieve the intent of the Product and Server Supply Agreement in pursuing these solutions. To that end, EBS has had internal discussions regarding the appropriate next steps to further our relationship.

The January 2000 Product and Service Supply Agreement is the legal framework for our relationship until both parties mutually agree to change. Until those changes are made: 1) 2000 Compaq Annual Purchase of ECI Services: Per the Agreement, Compaq was invoiced for the 2000 Minimum Annual Purchase of ECI Services on November 7, 2000 as per Sections 3.1, 3.2 and 3.3. Compaq had agreed to the invoice amount. EBS expects payment for the total invoice as outlined in Section 3.0 on or before December 31, 2000. 2) Potential for Agreement Termination: Prior to the Dec 14th meeting, Compaq (Keith and Rob) have discussed this with EBS (Jim Crowder, myself). The understanding between both Parties was that EBS would need a written notice and payment by Compaq of \$2,500,000. The concept to start over with a new contractual agreement was again discussed during the Dec 14th meeting. EBS strongly believes in the value of the Compaq and EBS relationship, if Compaq believes that to start over with a new agreement is necessary then we look forward to working with Compaq to achieve that goal.

Again, we look forward to working with yourselves to identify and create strategic business opportunities for both EBS and Compaq.

Kim Godfrey Director, Enterprise Services Enron Broadband Services phone : 713 345 8813 cell : 713 501 8105 fax: 713 853 7354

Brian,

I apologize if I didn't make myself clear over the phone. There is a process that we must follow for software upgrades to ensure compatibility with existing applications and supportability for the helpdesk staff, even if it is for a small subset of the population. Furthermore, all applications must be packaged by Application Integration before it gets rolled out to the desktops. As you can see, it is more than dispatching desktop support to install the application itself.

Have you guys look at other technologies such as NetMeeting? It is installed with IE5 and provides real time chat.

I don't mean to be a pain in the neck, but I must advise against IE5.5 at this time.

Regards,

-jkc

Brian Hoskins@ENRON COMMUNICATIONS 10/23/2000 01:25 PM To: John Cheng/NA/Enron@Enron cc: Fangming Zhu/Corp/Enron@ENRON, Pablo Torres/Corp/Enron@ENRON, Don Adam/Corp/Enron@ENRON, Marlin Gubser/HOU/ECT@ECT Subject:

John,

I talked to Fangming, and unfortunately, her program is not compatible with IE 5.0. Let's proceed with the installation of IE 5.5. This is an extremely important program that all of the traders will be using. If you need additional resources, I can arrange for this. Just let me know what you need.

These are the people we need to set up with the upgraded version.

Thanks, Brian

Re: presentation for Kinko's conference call

Sender	sarah-joy.hunter@enron.com
Recipients	['dorothy.woster@enron.com', 'ed.quinn@enron.com', 'chris.charbonneau@enron.com', 'mike.rabon@enron.com']
File	arnold-j/all_documents/92.

Mike:

The presentation is a great idea! Per our conversations tonight, let's keep the EBS slides to 4-5 pages maximum; I have spoken to Chris Charbonneau and he will have an even briefer discussion on EIN's pulp & paper initiative. The purpose of the call is to introduce you to Kinko's decision makers who can understand a brief overview of your questions then provide the phone numbers of the appropriate Kinko's contact who could work with you on your value proposition definition. Subsequent to the call, you would then follow up with meetings as you deemed appropriate. This is not a call for details!

Since you'll need additional time and we don't want to waste the time of the other Enron participants (Chris Charbonneau and Ed Quinn), they will present first then leave you with the balance of the time. You noted that you'd be forwarding your overview to me later this evening. Thanks. I'll look forward to receiving it. Tomorrow, I'll add EIN's(Enron Industrial

Markets) piece then cc:mail you on what I send to James Thompson.

Thanks again for the excellent suggestion.

Sarah-Joy, Dorothy and I have assembled a short PPT that is currently in Matt's hands for review. Once finalized we will forward it to Chris Chabonneau who will add Pulp and Paper slides. Total length to be around 12 - 15 slides. I spoke to James Thompson who recommended this approach. We will have the presentation to James by noon Wednesday. He will ensure that the Kinko's participants have the presentation before the call.

Comments/concerns?

the implied market on that from put spreads is 5.3:1. I'll take 4:1. that's all the juice i'll pay.

From: Jennifer Fraser/ENRON@enronXgate on 04/12/2001 07:59 AM To: John Arnold/HOU/ECT@ECT cc: Subject: RE: ng views + wager

Most import - the wager - I will take the over on May NG (4.95). 2:1 is okay--- \$5 per penny okay?

Agree - Products Rally is not different for products. 92% of heating oil is made on demand (storage is not as important as in nat gas) Heat will get ugly this October and then give it up (unless we have 7 blizzards in the Northeast very early). Some things to consider : 1- in the next 3-4 weeks we will finish the very heavy maintenance season and be in full blown gasoline season. - yields will be preferentially shifted for HU 3- nobody will pay any attention to HO 2-HO will have incremental demand due to utility switching and will quietly build slower than last year 4- therefore by September everyone will freak out 5- After the October contract expires (HO) , everyone will realize (similar to NG) that the world will not end.

Where does this get us: 1- Sell q3 HU crack and by Q4 HO crack (By the time q3 prices out--the wind will have been taken out of HU sails - plus you can do it month avg--therefore less noise) 2-Benefit from heat's recent excitement -- sell HO calls (June -Aug), buy ng puts nov-jan

Ng-Disagree: I think prices stay high through June. The big drop off come some where in July 15 to Aug 15 and downhill from there. (Looks like 1998)

From: Christopher's Wine Warehouse To: Recipient list suppressed Sent: Monday, September 24, 2001 12:14 PM Subject: Schedule for the week of Monday, Sept 24, HOUSTON PRESS "BEST OF HOUSTON" results Good afternoon wine lovers, Before we get to the schedule of tastings this week, I wanted to thank everyone out there for the great response to the latest issue of The Houston Press. Christopher's Wine Warehouse was named the "BEST WINE STORE" on page 97 of the September 20-26, 2001 issue. We are thankful to all our loyal friends and neighbors for this recognition of our hard work and dedication to bringing the best wines we can find to Houston's wine lovers. Thanks again for your continued support. We will continue to work hard with our unique selection to, hopefully, be honored again next year. As for the schedule this week, I believe we have perfected our website so that everyone can now view our tastings. We have two versions of the site, one in very easy to navigate form, and one that sings and dances if you have the necessary plug ins. If you don't want to re configure your system, just click on the normal site when you visit us at: www.christopherswine.com . EVERY day this week, starting tomorrow (Tuesday the 25th), we will be hosting our wine tastings. The topics, prices per person, etc, etc, are posted at our site and include the weekly schedules through October. REMEMBER: YOU MUST CALL US TO RESERVE AT 713-524-9144. We look forward to seeing all of you. As for this

week's sampler case, I decided (based on popular demand) to extend the fabulous case from last week. If you missed the details, here it is again:

CHRISTOPHER'S LATEST ULTIMATE SAMPLER (2 BTLS EACH):

Martine Saunier's California Viognier 1999 (exotic, floral and a tremendous value) \$18.50 each Merlin Macon La Roche Vineuse 1999 (THE greatest vintage for this Chardonnay) \$17.50 each Chateau Ferry Lacombe Provence Rose' 2000 (remember this one from the Wine Bar?) \$18.50 each Domaine Monpertuis Ramiere Cotes du Rhone 1999 (ultra-spicey Grenache) \$17.50 each Domaine de Fenouillet Beaumes de Venise CDR Villages 1999 (glad my house red is back!) \$21.50 each G H von Mumm Rheingau Pinot Noir 1999 (AMAZING new discovery for me) \$22.50 each Normally, this case runs about \$235.00 SPECIALLY PRICED FOR E-LISTERS: \$197.00 plus tax As always, please call us to order at 713-524-9144. This case is one of my best ever, don't miss out!!! AS FOR SATURDAY, THE 29TH, I THOUGHT IT WOULD BE FUN TO CELEBRATE OUR REVIEW IN THE HOUSTON PRESS!!! So, from 2-5 PM, this Saturday, at no charge, come on down and have some fun with us as we host an amazing tasting of GREAT wines. I will be showcasing a dozen different wines and we will pop a few bottles of Champagne to celebrate. Get here early for best selection and bring some friends, too. This Saturday will be a blast!!! That's about it for this week. See y'all soon. Your friend in wine, Christopher 713-524-9144 www.christopherswine.com 2516 Times BLVD Rice Village "BEST WINE STORE IN HOUSTON" Houston Press 2001

Fw: The most popular wines from recent samplers together in one

Sender	kward1@houston.rr.com
Recipients	['john.arnold@enron.com']
File	arnold-j/deleted_items/754.

----- Original Message -----

From: Christopher's Wine Warehouse To: Recipient list suppressed Sent: Monday, November 26, 2001 1:25 PM Subject: The most popular wines from recent samplers together in one case, schedule, another limited Italian Good afternoon wine lovers, Over the past three weeks, I have been monitoring the feedback from those of you who have purchased the weekly sampler cases. And it appears that we have found some winners. While all the wines have been well-received, the ones below have gained a serious following in just three short weeks. To give the rest of you a chance to see what all the buzz is about, and to help the regulars re-stock their wine racks after the Thanksgiving feast, I have put together our most recent sampler. As always, it comes with a special price, too.

THE BEST FROM RECENT SAMPLER CASES, TOGETHER AT LAST (2 BTLS EACH):

Finca Flichman Cabernet Mendoza Argentina 1999 (full bodied, concentrated fruit) 87 points Finca Flichman Malbec Mendoza Argentina 1998 (intense color, maximum Malbec expression) 87 points Vina Sardasol Cabernet Crianza 1995 (how did they get so much flavor at this price?!) 88 points L'Enclave des Papes Cabernet 2000 (surprising depth, mature fruit components) 87 points Chateau LaCroix Martelle Minervois 1999 (you may remember this, my house red, serious Syrah) 89 points Domaine Capouilleres Ventoux 1998 (so full of blue fruits, loves the spicy stuff) 87 points Let me tell you, this case is already a bargain at \$155!!! LOAD UP, THIS WEEK ONLY (IF THEY LAST THAT LONG) FOR JUST \$132 PLUS TAX!!! Now most of you know that these cases disappear before the week's end. So pick up the phone and call us now with your card number and we will be happy to set as many of these aside as you would like. Don't miss out! This is one heck of a great buy!!! As for the schedule:

THURSDAY, NOVEMBER 29th: Topic: "UNBELIEVABLE CABERNET & MERLOT VALUES" Time: 6-8 PM (Champagne reception at 5:30 PM) We will be tasting through and discussing 8 of the best values in my store! Price per person: \$18 plus tax RESERVATIONS ARE REQUIRED Please contact the store to reserve your seats 713-524-9144 FRIDAY, NOVEMBER 30TH: WINE BAR AT CHRISTOPHER'S For all of you who have visited over the past several weeks: Thank you for making this such a fabulous success!!! If you have not yet visited the Wine Bar on Friday, here are some details: We offer 45 wines by the glass to include reds, whites, sparkling wines & after dinner wines, too. Our amazingly talented

Chef prepares 4 new menu items each week. In addition to the wines by the glass list, you may choose ANY wine in the store to enjoy with your foods or friends. BEST PART??? Retail prices for all wines, NOT restaurant prices!!! Our wines by the glass range from \$4 to \$15 & Our Chef's specials range from \$10 to \$22. No reservations are needed. Get here early for the best seats. Time: 6-10 PM Friday nights Location: here at Christopher's YOU HAVE GOT TO CHECK THIS OUT, IT IS A BLAST!!! SATURDAY, DECEMBER 1ST: CUSTOMER APPRECIATION DAY This Saturday, from 2-5 PM, please be our guest for this free tasting. We will be showcasing 6 new wines from around the world. California, France, Italy & Spain will all be open for tasting. No reservations are required. Super special discounts during the tasting. All new wines, never before seen at the bar. Get here early for best selection. Time: 2-5 PM Here at Christopher's No Charge Bring some friends and have a great tasting!!!

How about something for the cellar? Or as an early gift for your own stocking??? Falesco Montiano 1999 (from the master himself, Cotarella, 2500 cases for the world, 24 bottles for us)

95 points from Parker LIMITED TO 2 BOTTLES PER CUSTOMER, \$70 EACH, NET Well, I guess I'll head to the phones. Call us at 713-524-9144. Your friend in wine, Christopher "BEST WINE STORE" HOUSTON PRESS 2001 2516 Times BLVD Rice Village 713-524-9144www.christopherswine.com

confused... what are you disagreeing with me in regards to demand destruction?

From: Jennifer Fraser/ENRON@enronXgate on 03/07/2001 08:55 AM To: John Arnold/HOU/ECT@ECT cc: Subject: rebuttal

I am definitely a bigger fan of the crude complex for the next few months. Agree the defcon 5 bubble has burst for natgas. Disagree about the demand destruction. ? I think some demand is just permanently gone (i.3. cheaper BTUs in ASIA-Pacific and plants just wont run here anymore). But I think that we are underestimating the structural changes in energy demand. Just as the economy is less dependent on heavy industry for its health, energy demand is changing. Since just about everyone missed the boat on the increased power demand as a result of Silicon Valley, I think we don't have a good handle on what the drivers of the new power generation really are. So what i'm saying is that industrial demand will weaken, demand in service based industries will increase. Also energy is a much smaller component of the cost structure in service industries. ? Also I think in 2000, people had sticker shock-- they couldn't have imagined 10\$ gas, but now that volatility and higher prices are firmly entrenched in their minds --- they will find ways of running their factories. Also they will budget for these prices instead of \$2.50 ? See NG Week (3/5/01) Nevada power price hikes affecting casinos --- increases of 20%. When asked the implication for missed earnings and their plans for demand conservation, one casino official replied 'We're in the bright lights business' ? I don't believe the economic doom and gloom First of all no one wants a repeat of the 1990 recession (which was much worse outside of the US) Every central bank in the G7 has or will cut rates this week. The US will follow suit or it will have a very expensive dollar which will blow exports. With all of the monetary slack, consumer credit will not tighten and thus buying will continue (witness the lack of destruction in big ticket items purchasing). Heavy manufacturing is contracting but this is not everything. Productivity gains are strong. The economy is becoming more service based and traditional industrial barometers are not telling the whole story. ? Finally, I am London and it is not doom and gloom over here.

well there's my 2 cents.

Obviously most bearish the further out you go. However, the game right now is not sell and hold...although it will be soon. The game is where will it be tomorrow and next week and next month. The market is structurally short term gas thanks to our friends from california. where ca is buying power, williams and calpine and dynegy dont care of the gas costs 450 or 475 or 500 or 525. irrelevant. so term is not going down in the short term unless the front comes into the 400's and scares some producers to start hedging or we or el paso can find fixed price lng to the tune of 250,000 a day for 10 years.

Kim Godfrey 12/15/00 09:01 AM

To: Everett Plante/Enron Communications@Enron Communications, Jim Crowder/Enron Communications@Enron Communications cc: Marie Thibaut/Enron Communications@Enron Communications, Bryan Williams/Enron Communications@Enron Communications Subject: Compaq Update

Everett and Jim,

I have phone calls into both of you to gain your feedback and support on appropriate next steps with Compaq. Everett, I am asking for your input as it is your cost center that purchases the Compaq servers and hence one of the relationship owners. During the meeting yesterday - the following happened : a) Keith McAuliffe announced that he is leaving Compaq effective immediately (his replacement has yet to be named). My perception is that Keith took the hit for Compaq missing their 4th quarter Server Business Unit sales projections. EBS is not their only account who did not meet projected targets. b) Bob Jordan - Director NA Sales reporting to Jerry Earle will expand his existing Enron sales relationship to include ownership of the EBS Server Agreement c) EBS Server Agreement - Under the agreement Compaq was to buy EBS Services. For the first two quarters - the Compaq purchase amount was fixed at \$1.72 million and starting with the third month then would be based on an 8% value of the total EBS Server spend for the prior two quarters. EBS sent Compaq an invoice for \$4,134,229 on November 7th. Compaq has not paid the invoice. Lou Casari's team is handling the delinquency and notifying Compaq. Compaq (Keith M.'s stewardship) had agreed to pay. Bob stated that EBS has not performed to Compaq's satisfaction under the Server Agreement and Compaq does not believe that Compaq should be accountable to buy any EBS services (Bob's first negotiation position). d) EBS and Compaq have different viewpoints on what should be included in the EBS Server Spend amount. Compaq (Bob Jordan) value - EBS purchase of \$5.1 million for servers and hardware in 2000 EBS (added) - EBS purchase value would add an additional \$1.0 million for servers and hardware in 2000 EBS (added) - EBS purchase of \$4.9 million for servers and hardware in 1999 EBS (added) - EBS purchase of \$3.1 million in Compaq professional services (costs for Server deployment)

From these viewpoints - if one was to set a Compaq purchase amount then the following might occur EBS total is \$14.1 million spend for 1999/2000 at 8% would equal a Compaq purchase amount of \$1.128 million (w/out the 2 fixed quarters) Compaq total is \$5.1 million spend at 8% would equal a Compaq purchase amount of \$408,000 EBS Viewpoint - Per the signed EBS Server Purchase Agreement - the amount is \$4,134,229. (I did not concede)

e) 2000 income. Per the signed EBS Server Purchase Agreement - Compaq had to pay for the Compaq Purchase amount before or by Dec 31, 2000 but could defer identifying the services to be used against the amount until Dec 31, 2002. If Compaq had not used the services by Dec 31, 2002 then they lost the right to spend against the amount. To gain 2000 income recognition, EBS worked with Keith M and Rob Senders to invoice for \$832,000 to cover EBS consulting services provided to Compaq. Again, under Keith M's stewardship - they verbally agreed to pay.

Now with the above information - my offered next steps : a) Until everything is done - maintain the "stick" of the EBS invoice (\$4.1 million). This is being done. b) Termination fee - the contract does not state a termination fee. It does state a value of \$2.5 million max for liquidated damages. Prior conversations have discussed Compaq paying a \$2.5 million termination fee (again with Keith M). This could be recognized as yr 2000 income. c) Consulting Fee - The recognition of the \$832,000 would be a 20% return on services of \$4.1 million. This is a good return for a commodity transaction. So.... do we accept a lower amount to maintain a healthier relationship.

So..... please let me know your thoughts. We have countered with the \$2.5 million with the understanding that the lower end would be \$832,000.

Please let me know your thoughts
