Amigo, Good to hear from you. Yeah, the pending merger with Dynegy will greatly impact our business. We are not sure what the power trading desk will look like in the new structure. Dynegy has a sizable real-time trading desk due to it's assets. The good thing is that I just signed a two year contract, about a month ago.

How is your gig?

Best wishes,

Don Cliff Baughman Jr. Commercial Manager Enron Power Marketing, Inc. Desk: (800) 349-5527 Cell: (281) 787-0029

Hi Don,

How's everything going for you, haven't talk to you in a long time.

Are the financial difficulties at Enron effecting you much?

Regards,

Jeff Lenamon Vice President, Portfolio Management DZ Bank AG - Deutsche Zentral Genossenschaftsbank 609 Fifth Avenue (Between 48th & 49th Street) New York, NY 10017 Tel: (212) 745-1597 Fax: (212) 745-1465 Cellular: (201) 280-2969 Home: (201) 460-1168

From: Rich Heidorn Jr. [mailto:rich.heidorn@ipgdirect.com] Sent: Thursday, July 05, 2001 7:28 PM To: John.Kinser@enron.com Subject: Proposed revisions to TradersNews Hourly Index Methodology

Dear John:

We are fine tuning the methodology for our hourly indexes in order to clarify our regional definitions. I know that you offered some valuable feedback in the past to Bobette Riner and wanted to solicit your input now as well.

In the draft (attached) we have classified trades solely based on their source and sink. In so doing, we have removed references to power moving "into or through" hubs.

In drawing regional boundaries, we have generally relied on the NERC regions, although we continue to offer two indexes for ECAR (AEP/Northern ECAR and Cinergy/Southern ECAR). We also are retaining the Entergy/SPP index, based on Entergy's intention to join SPP's proposed Regional Transmission Organization.

The most significant other changes are:

-- ComEd/MAIN: Trades sourcing from, or sinking in, Ameren's control area, would be included; title may change to "MAIN"

-- TVA/SERC: Virginia would be included; as previously planned, the name changes to "SERC"

-- ERCOT: power moving out of ERCOT can be included in the index

I will attempt to reach you via phone next week to discuss these proposed changes. We are particularly interested in how these changes may impact use of the indexes in financial trading, quantitative analysis, risk management, deal structuring, etc.

Feel free to pass this along to any of your colleagues for their input and to jot any immediate thoughts to me in an e-mail.

We appreciate your input.

Regards,

RICH HEIDORN JR. General Manager TradersNews Energy 170 Pheasant Run, Suite 200 Newtown, PA 18940

Debra,

Same list as previous email. This one has TPs on "East no Duplicates" tab that are not on your master list highlited in yellow. I don't know of any other transmission lists.

Reagan C. Rorschach Enron North America 1400 Smith Street Houston, Texas 77002 713.345.3363

-----Original Message-----

From: Bailey, Debra Sent: Tuesday, January 29, 2002 5:23 PM To: Rorschach, Reagan Subject: RE: Minutes and actions from todays UBS start up meeting

Reagan,

Thank you for the heads up. So far the agreements I have discussed with the TP's sound like blanket agreements for firm and non-firm transmission. Once I get my hands on the paperwork, I would like to review each TP with the group to make sure we are covered for all services we will require. Debra

-----Original Message-----

From: Rorschach, Reagan Sent: Tuesday, January 29, 2002 4:55 PM To: Bailey, Debra Subject: RE: Minutes and actions from todays UBS start up meeting

Debra,

As I continue to look through these lists, it is apparent that there are potentially more than one agreement with the TPs. For example: point to point firm non-firm short term firm non-firm etc....

I am not up to speed on all the different blanket trans agreements we might need or are available. It seems they all are a bit differently named but fall into similiar transmission classes?? I noticed the Agreement Required column, and it does indicate multiple agreements. Just want to make sure we don't miss one with a TP.

-----Original Message-----

From: clarke@pjm.com [mailto:clarke@pjm.com] Sent: Monday, August 20, 2001 2:58 PM To: pjm-miwig@pjm.com
Subject: pjm-miwig PJM and PJM West ATC OASIS Postings

As promised at last week's meeting, here a follow-up to the current and proposed PJM and PJM West ATC OASIS postings. Currently the ATC evaluation is being performed at PJM with consultation of Allegheney Power. The determination being performed is for PJM and PJM WEST paths as they would exist after December 31, 2001. The coordinated ATC values, for service beyond December 31, 2001 are being divided between PJM and AP, with each portion being posted on the respective OASIS. The paths between PJM and AP, and between AP and PJM, are being posted as zero. It is intended that all PJM and PJM WEST transmission service beginning January 1, 2002 and beyond be posted and requested on the PJM OASIS as soon as possible. The most probable date for the transition to full posting on the PJM OASIS site would be Monday October 1, 2001 coincident with the PJM Monthly Transmission Service postings. It would be hard, at this time, to imagine overcoming the remaining necessary infrastructure changes in time to meet the PJM Monthly posting date of September 3, 2001. Once the transition to a single OASIS takes place the January 1, 2002 and beyond postings will be zero on the AP OASIS. All AP OASIS existing transmission service for January 1, 2002 and beyond will be converted to the PJM OASIS maintaining the original service request date and time. If you have any questions please don't hesitate to call or e-mail. Bob Moore (610) 666-8846 moore@pjm.com

Subject: SPP PROPOSED TRANSMISSION LINES

DJ Southwest Power Pool To Study 6 New Transmission Lines Copyright , 2001 Dow Jones & Company, Inc.

HOUSTON (Dow Jones)--A working group within the Southwest Power Pool identified six new transmission lines with an estimated price tag of \$240 million needed to ease the region's constrained high-voltage grid. Last week, the SPP work group voted to proceed with a more detailed analysis of each project. Most of the new lines would take at least three years to develop and build. The projects include: - A 60-mile, 345-kilovolt line in northern Missouri running from the Fairhope substation to Sibley substation. Cost: \$22.2 million. - A 30-mile, 345-kv line in eastern Kansas running from Wolf Creek Nuclear Power Station to the Lang substation. Cost: \$23.8 million. - A 32-mile, 345-kv line in northern Oklahoma running from the Sooner Power Station to the Cleveland substation. Cost: \$23.8 million. - A 275-mile, 345-kv line in northern Texas and central Oklahoma connecting the Potter substation to Northwest substation. Cost: \$79.2 million. - A 50-mile, 230-kv line in southern Louisiana running from Cajun Power Station to Coughlin Power Station. Cost: \$37.4 million. - A 70-mile, 345-kv line in northern Arkansas running from St. Francis Power station to Independence Power Station Cost: \$57.3 million. SPP's transmission assessment working group has been meeting to identify needed system upgrades since March 2000. A total of 23 known system constraints were analyzed. Seventeen upgrade options were studied for their potential to benefit bulk system transfer capability. The working group identified the six new transmission lines as the most beneficial, officials said. Detailed analysis of each new line and further recommendations will be made to the SPP engineering and operating committee in the fall. Currently, SPP has some 50,000 miles of transmission lines and requests more than 11,000 megawatts of new generation to be constructed during the next three years in the eight-state region, said SPP President John Marschewski. "As a result, there will be a need for new transmission lines," he said. SPP, which seeks to gain final approval of its regional transmission organization this week from federal regulators, is ready to move forward to coordinate the planning process for new transmission, said Marschewski. The SPP grid is often paralyzed by transmission-line relief requests from utilities, particularly in the spring when seasonal generation outages occur, said Marschewski. While the regional council has attempted to put incentives in the market to encourage generation redispatch to avoid TLR events, "those options haven't been exercised to any significant amount so far," said Marschewski. SPP has worked to coordinate generation outages to minimize problems, but if the region sees plant outages this summer, TLR events could occur, he said. SPP includes Kansas and Oklahoma and parts of Arkansas, Louisiana, New Mexico, Mississippi, Missouri and Texas. -By Eileen O'Grady, Dow Jones Newswires; 713-547-9213; <mailto:eileen.ograde@dowjones.com> (END) Dow Jones Newswires 27-03-01 1605GMT

DJ Ameren Expects 676-MW Of New Ill. Power Online By Summer

Copyright , 2001 Dow Jones & Company, Inc.

CHICAGO (Dow Jones)--Ameren Corp.'s (AEE) nonregulated power affiliate expects to bring about 676 megawatts of new natural-gas-fired power in Illinois online this summer, a company spokesman said Tuesday.

?????The company plans to bring a new 117-megawatt unit online in Patoka, Ill., by mid- to late April, spokesman Ed McDowall said. Ameren will bring another 117-megawatt unit online at the south-central Illinois site by early June, he said.

?????Ameren is also re-powering its Grand Tower facility, located in Jackson County in southern Illinois. Two coal-fired units that produce a combined 202-megawatts at the site will be removed, and two new gas-fired units with total capacity of 326 megawatts will be added.

?????"Those two units are scheduled to be online by midsummer," McDowall said.

?????The Grand Tower plant will also use a heat-recovery system to produce power through the old turbines, boosting its overall capacity to 500 megawatts. That gives the facility a net gain of 298 megawatts.

?????Ameren also has plans to boost capacity at its 176-megawatt Pinckneyville, Ill., plant located in the southwestern part of the state. Four new gas-fired units totaling 144 megawatts of power will be brought online this summer to join the four units that were brought online last summer, giving the plant total capacity of 320 megawatts.

?????All the new units will run during peak demand times and will be assets of Ameren Energy Generating Co., a nonregulated affiliate of Ameren. The plants will sell power to the region's wholesale markets, and will also help supply power to Ameren customers, McDowall said.

Hi Lloyd,

I am contacting you in reference to our Hourly Price Index service, and as a follow-up to your recent message to my co-worker, Barbara Clancey. I am interested in meeting with you and discussing our various service options & getting a better understanding of your needs. I'm based in Houston - and can meet at your earliest convenience. Just let me know when you have some time.

Thanks,

Ted Mirenda IPG Energy 9235 Katy Freeway, Suite 410 Houston , TX 77024 office: 713-973-8028 cell: 713-301-3166

Proposed revisions to TradersNews Hourly Index Methodology

Sender	rich.heidorn@ipgdirect.com
Recipients	[don.baughman@enron.com]
File	baughman-d/power/cinergy_index/90.

Dear Don:

We are fine tuning the methodology for our hourly indexes in order to clarify our regional definitions. I know that you offered some valuable feedback in the past to Bobette Riner and wanted to solicit your input now as well.

In the draft (attached) we have classified trades solely based on their source and sink. In so doing, we have removed references to power moving "into or through" hubs.

In drawing regional boundaries, we have generally relied on the NERC regions, although we continue to offer two indexes for ECAR (AEP/Northern ECAR and Cinergy/Southern ECAR). We also are retaining the Entergy/SPP index, based on Entergy's intention to join SPP's proposed Regional Transmission Organization.

The most significant other changes are:

-- ComEd/MAIN: Trades sourcing from, or sinking in, Ameren's control area, would be included; title may change to "MAIN"

-- TVA/SERC: Virginia would be included; as previously planned, the name changes to "SERC"

-- ERCOT: power moving out of ERCOT can be included in the index

I will attempt to reach you via phone next week to discuss these proposed changes. We are particularly interested in how these changes may impact use of the indexes in financial trading, quantitative analysis, risk management, deal structuring, etc.

Feel free to pass this along to any of your colleagues for their input and to jot any immediate thoughts to me in an e-mail.

We appreciate your input.

Regards,

File	baughman-d/discussion_threads/21.

According to my fancy ciphering we made \$310,037.50 for the month of November. This figure does not include Buck o 5's New York p&l. We made &127508.45 moving power incrementally and \$62497.05 in NEPOOL and PJM. Mitch made \$120,032.00 in his December position that was closed out in the month of November. Great job by everyone.

On another note Russell Ballato has been accepted into the new ENRON trading program that will start in January. No further details as of yet. Everyone should congratulate and support his efforts. Way to go Russell and remember the peasants. We expect you to check in with us on a daily basis. We expect a monthly happy hour at your expense.

Also with the Holidays coming up and the reorganization it is very important that we communicate with the utmost importance. We are all responsible for what happens on this desk. I will be out of town from the 23rd of December until the 1st of January. I will have my mobile with me 713-859-1713, any questions please call. Once again great job in November and let's take December by the horns.

Thanks Kayne

Enpower weekend maintenance - down times

Sender	dave.nommensen@enron.com
Recipients	['don.baughman@enron.com', 'charles.brewer@enron.com', 'duong.luu@enron.com', 'w.white@enron.com', 'bill.will...']
File	baughman-d/inbox/355.

All,

The Enpower Database is in need of some routine maintenance and clean-up. The work is designed to improve performance and expandability for the future. We were hoping to utilize the Thanksgiving holiday to perform some of this work. What we need from you guys is permission to have some agreed upon downtime for Enpower over the holidays so we can run some clean-up jobs on the database. However, we do need to execute the jobs in such a way as to have a minimal impact on the Real Time trading desks. Here is our plan as was previously discussed with David Poston:

Wed Nov 21, 8pm - 10pm Central (6pm - 8pm Portland), for unrelated hardware maintenance

Beginning Saturday thru Sunday, rolling 3 hour outages: (NOTE: during the below times, the system may not actually be totally down, but error messages may occur so don't be alarmed)

Starting Saturday morning at 10am (8am Portland Time) we will be contacting the East & West Real Time Desks to determine if they can afford a 3 hour down-time window. When the clean-up job is completed, we will contact the related desks that the Enpower application is now available. We will then want to keep the environment stable for at least an hour to allow the traders to catch up from the down-time. We will repeat this process during the following time periods.

Saturday, November 24nd from 10am (8am Portland) - Saturday, November 24th @ 6pm (4pm Portland) Saturday, November 24nd from 8pm (6pm Portland) - Sunday, November 25th @ 8am (6am Portland) Sunday, November 25th from 10am (8am Portland) - Sunday, November 25th @ 6pm (4pm Portland)

Contact numbers during this maintenance are:

Portland's Trader on-call 1-800-684-1336 Michael Berger (desk) 713-345-3190 (active DBA) Chip Brewer (cell) 281-960-7066 (escalation DBA) DBA on-call 1 - 888-993-3793 DBA on-call 2 - 888-993-3795 EnPower on-call 713-553-3758 Risk on-call 713-857-5746

Please forward to others that may be affected.

Thanks, Dave Nommensen Enpower Support

Corey: I spoke to WorldCom this morning and they are in the process of trying to find some vanity numbers with UBS as the prefix. Before I can order the new numbers, I need to know where to bill them. I am having them set up a separate billing account for UBS, but I need to know who is going to be responsible for the bill. Also, I need to know what number these toll free numbers are going to be directed to. Are the phones already setup or is it going to be a new application? Let me know and I'll get it going. Thanks!

Kathy

-----Original Message-----

From: Bentley, Corry Sent: Tuesday, February 05, 2002 12:10 PM To: Link, Kathy Cc: Baughman Jr., Don; Will, Lloyd; Black, Tamara Jae Subject: New UBS Numbers

Kathy,

We are requesting three new numbers for UBS Warburg Energy to replace the (soon to be) Enron Estate numbers.

1) We will need two (2) toll free numbers. If possible, a 927 (WAR) or 827 (UBS) prefix and sequential numbers is desired. For example, our search showed 1-866-927-1401 and 1-866-927-1402 are available.

2) Also, we need a local number for a dedicated fax line.

Please contact TJae Black, Lloyd Will or me for any further information you may need.

Thanks,

Corry Bentley 713-853-0421

T. Jae Black 713-853-5800

Lloyd Will 713-853-3383

Sent: Thursday, June 28, 2001 1:08 PM To: Wood, George Cc: Baughman Jr., Don; Broderick, Paul J. Subject: RE: Vermont Yankee derate/outage notification

Don,

As promised I talked to someone here who is knowledgeable about pagers. The pager service GMP subscribes to has nationwide service, and GMP only subscribes to service for the Northeast because that's all we require. I'm betting that Enron's paging provider has nationwide service, so the page sent by Vermont Yankee will reach Houston as long as Enron subscribes to nationwide service. The tech here at GMP said that a lot of paging is Internet based now. For instance a page sent by Vermont Yankee would be translated into an email and arrive in Houston as an email and then a machine in Houston would transmit the email to a tower in Houston which would send the page. I was told by someone at Vermont Yankee they use "Air Source Pro" software to send the page and Enron's paging provider must have software compatible with Air Source Pro in order for Enron to receive the page.

Could you check with a tech person at Enron to find out whether your paging provider is compatible with Air Source Pro and whether Enron subscribes to nationwide service?

Woody,

Sorry for the delay in my response. I was out on Tuesday & Wednesday. I am forwarding an email from Nancy Brock (below). Does Enron wish to be paged (if that's technically feasible), or would email satisfy Enron?

-----Original Message-----

From: Brock, Nancy

Sent: Thursday, June 28, 2001 9:18 AM

To: Rivest, Anabeth; Brown, Jim

Subject: RE: ICAP / VELCO monthly peaks

I spoke with VY yesterday about notifying Enron. We should work with Bobbi (Bruce is far less willing to accommodate...). Bobbi says she will be happy to add Enron to the pager list as long as Enron has a VY pager that works in Houston. In the alternative, she will add Enron to the blast email. Since I assume that Enron's email would be monitored 24/7 for this sort of thing, that may be the cheapest and easiest way to go. She said that emails are not sent for every downpower (whereas pagers are notified for almost everything), depending on severity. I would say that next step is to understand what can be done with an email and does it satisfy the Enron needs. If that doesn't work, we'll have to see about the pager. I think Bobbi wants to accommodate us, she just needs to understand what Enron needs.

Head" <wj.head@mapp.org>@mapp.org on 02/21/2001 04:24:26 PM Sent by: owner-rtc@mapp.org To: <rin@mapp.org>, <rtc@mapp.org>, <mrc@mapp.org>, <sot-trainers@mapp.org>, <sotwg@mapp.org>, <mc@mapp.org>, <rrc@mapp.org>, <pemmem@mapp.org> cc: <sco@mapp.org>, <sl.duncan@mapp.org>, <ca.anderson@mapp.org> Subject: OASIS 1.4 Conversion Status - 2/28 - 3/1 Cutover Plan

To: ALL OASIS USERS

From: Tami Anderson, MAPP Transmission Operations Dan Fredrickson, MAPP Transmission Operations Jolene Gleason, MAPP Transmission Operations

Date: Wednesday, February 21, 2001

Subject: OASIS 1.4 Conversion on 3/1/2001 Update

This is a notice to update the OASIS users on the status of the MAPP implementation of the 1.4 version of OASIS.

Several processes are on-going in an effort to meet the March 1, 2001 OASIS 1.4 production date. These include:

1. Communication process:

a. OASIS Workshop: Feb 14-16: There were 88 workshop attendees.

b. For the OASIS users who were unable to attend this Workshop and are still interested in taking the class, MAPP Staff is offering two more classes on March 20-21. There will be two more lecture / lab sessions, the first starting the morning of the 20th and ending late in the day on the 20th, the second starting midday on the 20th and ending midday on the 21st, and the third starting the morning of the 21st and ending late in the day on the 21st. Please send an email (if you have not already done so) to sl.duncan@mapp.org or call at (651) 632-8422 if you are interested in attending one of these classes.

2. Implementation process:

a. OASIS 1.4 Beta Releases and bug fixes continue to be released by ESCA (the JTSIN vendor) on a daily basis. The production software release will be on Friday, February, 23:

OASIS 1.4 Beta Release #3 is located at: <http://mappb3.oasis.mapp.org/OASIS14/NODE/MAPPB3> The only requirement to use this test node is a valid Tradewave certificate. Please send an email to ds.fredrickson@mapp.org to indicate any problems that are encountered while testing this beta release.

b. MAPP Validation and Request Evaluation Processes revised: MAPP Staff is working with OATI to implement the modifications required to the automated processes due to the OASIS 1.4 changes. Testing will continue through the month of February.

c. February 28 / March 1 Cutover Plan

The OASIS 1.4 functionality specified by FERC includes numerous changes to business practices and OASIS requirements. The JTSIN group is modifying the OASIS to be compliant. Members and Staff need to be prepared to perform the cutover to OASIS 1.4 during a 12 hour period beginning at 1800 on February 28 and ending 0600 on March 1.

Our objective is to cutover to OASIS 1.4 within two hours. This is, however, a best case scenario, so customers should be prepared for a more extended outage of OASIS.

All communication from the MAPP Center just prior to and during the cutover will be via e-mail and the MCN.

E-mail communication during the cutover will be via the rin@mapp.org list only.

All communication sent via rin@mapp.org will also be broadcast to all MCN sites.

Telephone communication, if necessary, should be done through the Transaction Coordinator Help Line (651) 632 - 8508.

Cutover Schedule (Tentative; best case scenario)

February 28, 2001

1800 Shut down access to the MAPP OASIS by the outside world. Complete processing of all requests currently residing on OASIS.

1815 Shut down all OASIS and related backend applications. Back up OASIS 1.3 databases.

1830 Perform OASIS 1.4 database and software modifications.

1930 Start up modified backend applications. Test processing of transmission requests.

2000 Enable access to the MAPP OASIS by the outside world.

Processing of Transmission Requests During Shutdown

It is preferable that no transmission requests be received during the shutdown. Customers are requested to complete as much business prior to shutdown as possible, and to enter any transactions that occur during the shutdown after-the-fact when OASIS is back on-line. Customers must be prepared to submit requests in OASIS 1.4 formats when OASIS comes back on-line, and realize that this may be prior to midnight. If prevailing transmission system conditions allow, short duration tags will be accepted without reservations during the shutdown, at the discretion of the Senior Security Center Operator on duty and the Transaction Coordinator on duty.

If it appears that the shutdown will last longer than two hours, alternative means of accepting transmission requests may be implemented.

Thank you.

Tami A. Anderson MAPP Senior Engineer ta.anderson@mapp.org Phone: 651-632-8423

Dan Fredrickson Supervisor ds.fredrickson@mapp.org Phone: 651-632-8441 Fax: 651-632-8417

RE: Great Duck Hunting

Sender	lyle.larkworthy@enron.com
Recipients	[don.baughman@enron.com]
File	baughman-d/inbox/267 .

Don, the duck hunting went great. We bagged over 30 ducks (between 6 guys). They were a combination of pintail, teal, buffalo head, and blue bills.

The guides provide the dog, decoys, blinds, transportation, and they call them in for you. They will let you call if you want, but the guides are top notch.

My uncle and I are thinking of going down this weekend or the next. Let me know if you are interested, and we will reserve you a spot with us.

Lyle

-----Original Message-----

From: Baughman Jr., Don Sent: Tuesday, November 06, 2001 2:28 PM To: Larkworthy, Lyle Subject: RE: Great Duck Hunting

Lyle,

Thanks for the note. How did the hunt go? Did you have to bring decoys? How did the guides do callin' in the ducks?

Looking forward to hearing from you.

Thanks,

Don Baughman Commercial Manager Enron Power Marketing, Inc. 800-349-5527

-----Original Message-----

Don, it was great talking to you about hunting and shooting today. Below is the link to Central Flyway Outfitters (CFO). They are a top notch guide service out of Winnie, Texas (near Beaumont) that specialize in duck and goose hunting. They have hunting packages around \$150 a gun (they offer corporate discounts as well). All you need is a license, shells, gun, and waders: they will take care of the transportation (4 wheelers), guide, and dog.

I am heading down there tomorrow for a hunt with my uncle. I will let you know how we do. If you are interested I can arrange hunt on a future Saturday or Sunday morning. Regards, Lyle

FYI. Also, are you all on this SPP email list? If so, I can get off it. Let me know. Thanks! ----- Forwarded by Christi L Nicolay/HOU/ECT on 05/01/2001 04:33 AM -----

"Gibson, Barbara" <bgibson@SPP.ORG>@spplist.spp.org on 04/30/2001 10:38:48 AM Please respond to "Gibson, Barbara" <bgibson@SPP.ORG> Sent by: bounce-operations-1560@spplist.spp.org To: "Operations Information" <operations@spplist.spp.org> cc: "Taylor, John" <JTaylor@SPP.ORG>, "Perry, Kevin" <KPerry@SPP.ORG>, "Kirby, Josh" <jkirby@SPP.ORG>, "Friddle, Jarrett" <jfriddle@SPP.ORG>, "sppteam@oatiinc.com" <sppteam@oatiinc.com>

Subject: RTO_SS Parallel Test Sessions

The SPP members completed the first of several scheduled parallel test sessions of the new electronic scheduling system, RTO_SS. This first session was held on Friday, April 27 from 9am CDT to 1pm CDT. There were a total of 9 SPP Control Areas that participated during this session. Those Control Areas included; WR, KCPL, CSWS, WPEK, GRDA, MPS, SPS, SPA, and CLEC. Many thanks to all those companies that participated! We are hoping for a higher turnout at the next session. If you do not plan to participate during these parallel test sessions, please contact Barbara Gibson so arrangements can be made for your schedule approvals.

These parallel test sessions are excellent opportunities for training and practice on the new system with live data being imported into RTO_SS. During the times that parallel testing is NOT in session, users can test additional functionality by creating their own sample tags and taking the various actions on those associated schedules, i.e. approving, denying, adjusting, canceling, etc. The system is available to users 24 hours per day.

There will be 3 more parallel test sessions this week and finally 3 sessions the following week. The sessions this week are scheduled for:

Tuesday, May 1 - 9am CDT - 1pm CDT Wednesday, May 2 - 9am CDT - 1pm CDT Friday, May 4 - 12pm CDT - 4pm CDT

Please refer to the attached document for more details regarding logins, test information, etc.

We still do not have many sources and sinks set up for the different Generation Providers and Load Serving Entities that wish to have direct approval rights on the schedules. If you are a GP or LSE and need to get this data set up, please call Barbara Gibson or Shari Brown at SPP.

If you have any trouble with RTO_SS please contact someone listed below:

Get a Sneak Preview of the New Wall Street Journal Online

Sender	update@listserv.dowjones.com
Recipients	['new_features@listserv2.dowjones.com']
File	baughman-d/deleted_items/209.

NEW FEATURES from The Wall Street Journal

Dear Subscriber:

I am pleased to invite you to a sneak preview of our redesigned and enhanced edition of The Wall Street Journal Online, with superior site organization, easier-to-use features and better performance for faster results. You can get an early look at: <http://wsj.com/tour>

Rest assured, all the up-to-the-minute, exclusive Journal news and information you rely on remains center stage. We're simply unveiling the next-generation Online Journal, which offers NEW FEATURES FROM US - and DRAMATIC NEW BENEFITS FOR YOU.

You'll find this state-of-the-art site includes many of the enhancements you've been asking for, including your own PERSONALIZED HOME PAGE that gives you control of the information that matters most to you while still providing a concise picture of the top news from the Journal newsroom. You'll also find an incredibly effective site organization that makes finding what you want not just easy but effortless.

Specifically, the new Online Journal includes:

==New Organization== We've reorganized the site to better meet your needs, with all-new main sections and additions such as News by Industry. You'll also find more related links on article pages, improved site navigation and pages that surface more information yet require less scrolling.

==More Personalization== Here's where the new Online Journal really shines. Create your own customized home page, with one-click access to the topics you're interested in. Put your favorite portfolio, company news, industries, market data and more right on your home page so you'll always have a completely up-to-date view of the information that matters most to you. To be ready for the change please be sure and update your current Personal Journal listings today.

==Better Searching== We've added our search options to every page, making it simple for you to expand your knowledge and tap into our improved search results. We've also revamped our Quotes & Research area, giving you access to detailed financial information on more than 30,000 companies and funds.

==More Convenience== You'll be able to conduct tasks such as e-mailing, saving and printing properly formatted articles on demand.

This new edition of the Online Journal is the result of months of in-depth interviews with our subscribers and exhaustive research and testing, as well as comments from subscribers over the past six years. I believe you'll find the Online Journal truly comes of age with the introduction of these new benefits. I hope you'll take a moment to preview the site even before it rolls out in late January. Our advance tour is available at: <http://wsj.com/tour>

Sincerely,

Neil F. Budde Publisher, The Wall Street Journal Online nbudde@wsj.com

ABOUT THIS E-MAIL

When you registered with The Wall Street Journal Online, you indicated you wished to receive this New Features Alert e-mail. From time to time, we will also send you e-mail announcements on new features and special offers from other Dow Jones products and services.

File	baughman-d/power/24_hour/68.

I sent an e-mail to MAPP about possibly attending the OASIS class the week of March 19th. Just waiting on the specific dates and times before I can commit. Also need to talk to the Hourly brass about attending!!!!!!!!!!!!

To: Bill Rust/HOU/ECT@ECT cc: Matt Lorenz/HOU/ECT@ECT, Patrick Hanse/HOU/ECT@ECT, Terri Clynes/HOU/ECT@ECT Subject: Re: OASIS 1.4 Conversion on 3/1/2001 Update

We need to send someone with more experience than Karla and Gary have currently. I would suggest Pat or Matt if they can get away for a day. If not them, maybe they can suggest someone from the hourly desk. ds

Enron North America Corp.

From: Bill Rust 02/14/2001 01:34 PM

To: Doug Sewell/HOU/ECT@ECT cc: Subject: Re: OASIS 1.4 Conversion on 3/1/2001 Update

Doug,

While I would like to go to this OASIS seminar, I will be in Las Vegas Tuesday afternoon through Thursday night, 20 MAR - 22 MAR. Who else can we send? Karla? Gary?

Bill Rust

From: Doug Sewell 02/14/2001 10:43 AM

To: Bill Rust/HOU/ECT@ECT cc: Terri Clynes/HOU/ECT@ECT Subject: OASIS 1.4 Conversion on 3/1/2001 Update

Bill, here is the training I told you about. We definitely need someone to attend to keep up with MAPP changes. Are you on the MAPP email distribution list yet? Let me know if you need help getting on. ds ----- Forwarded by Doug Sewell/HOU/ECT on 02/14/2001 10:41 AM -----

"William J. Head" <wj.head@mapp.org>@mapp.org on 02/13/2001 04:18:05 PM Sent by: owner-rin@mapp.org To: <rin@mapp.org>, <rtc@mapp.org>, <mrc@mapp.org>, <sot-trainers@mapp.org>, <sotwg@mapp.org>, <mc@mapp.org>, <rrc@mapp.org>, <pemmem@mapp.org> cc: <sco@mapp.org>, <sl.duncan@mapp.org>, <ca.anderson@mapp.org> Subject: OASIS 1.4 Conversion on 3/1/2001 Update

To: ALL OASIS USERS

From: Tami Anderson, MAPP Transmission Operations Dan Fredrickson, MAPP Transmission Operations Jolene Gleason, MAPP Transmission Operations

Date: Tuesday, February 13, 2001

Subject: OASIS 1.4 Conversion on 3/1/2001 Update

This is a notice to update the OASIS users on the status of the MAPP implementation of the 1.4 version of OASIS.

Several processes are on-going in an effort to meet the March 1, 2001 OASIS 1.4 production date. These include:

1. Communication process:

a. OASIS Workshop: Feb 14-16: All Sessions are currently full for the Lecture and Lab.

b. For the OASIS users who were unable to attend this Workshop and are still interested in taking the class, MAPP Staff would like to offer another class the week of March 19-23. We have received enough potential interest to teach two more lecture/lab sessions. Please send an email (if you have not already done so) to sl.duncan@mapp.org if you are interested in attending a class during that week.

2. Implementation process:

a. OASIS 1.4 Beta Releases and bug fixes continue to be released by ESCA (the JTSIN vendor) on a daily basis. The next major software release will be OASIS 1.4 Beta 3, on Friday, February, 16:

OASIS 1.4 Beta Release #2 is located at: <http://mappb3.oasis.mapp.org/OASIS14/NODE/MAPPB3> The only requirement to use this test node is a valid Tradewave certificate. Please send an email to ds.fredrickson@mapp.org to indicate any problems that are encountered while testing this beta release.

b. MAPP Validation and Request Evaluation Processes revised: MAPP Staff is working with OATI to implement the modifications required to the automated processes due to the OASIS 1.4 changes. Testing will continue through the month of February.

c. Attached are tables indicating some of the major changes in requesting service that OASIS users should be aware of. These tables show pre- and post-OASIS 1.4 functionality. OASIS users are encouraged to familiarize themselves with these changes, and to exercise them on the test site prior to the March 1 implementation.

d. Coming next week: February 28 / March 1 Cutover Plan

Thank you.

T Jae-

I sent an email to Don Baughman last week stating that currently we are experiencing difficulty with our bankruptcy attorney's on having any "incentive pay" for exempt level employees. I am working with payroll and the attorney's to see if there is anything that we can do to have these people paid. I am out this week, but will be checking my email to see if there is some resolution.

Thanks, Anne

Howdy from Don Baughman

Sender	don.baughman@enron.com
Recipients	['baddream@email.msn.com']
File	baughman-d/sent_items/95.

Bad-dream Shotwell,

I got your e-mail address from Andrea Korth Walters the other day. I tried to get a hold of you earlier in the year, to no avail. Just wanted to catch up, and go drink a beer and eat a cheeseburger.

Doing fine down here in Houston. I bought a house in League City. In addition, I asked Shannon to marry me but that fell through during the summer. We are trying to see if we can salvage any of the relationship. I am doing well at Enron, managing the real-time power trading desk and trading. Enron, as you have seen in the paper, is experiencing some trouble. We are reasonably sure we will merge with Dynegy in mid to late 2002. Family is doing well; my sister is about to have her second baby. Travis is back from his year and a half tour in Europe, and took a position with Cemex as an account manager. Dad is about 3/4 retired and he and mom are doing a fair amount of hunting & fishing. Travis & I are gonna spend Thanksgiving in West Texas, deer hunting.

How's life in Hooterville? I heard that you are full on retired! FANTASTIC! What are you doing these days to keep yourself busy? Hopefully consuming large quantities of beer & tequila and blowing you eardrums out with Jimmy Buffett!

Tell when you are not busy and I will drive up, or have you down to the house and the bayhouse. Hope to hear from you soon.

Drop me a line when you have a chance!

Adios,

Rika:

I enjoyed speaking with you today.

Attached is an example of our Cinergy hourly index and a chart listing the start dates of all six hourly indexes.

Also attached is our current methodology (dated 3/01) and a draft methodology incorporating changes we expect to institute shortly. The most significant of these changes will make the Cinergy index more of a mirror of the Into Cinergy next-day product. We have received some feedback from Enron already on these changes but welcome additional comments.

I have asked Barbara Clancey of our customer service department to register you, Don Baughman, Matt Lorenz and Juan Hernandez for access to our website www.tradersnewsenergy.com She will send you an e-mail with your password and logon information.

By separate e-mail, I will be sending you spreadsheets containing the historical data. I will need our CTO, Greg Baber, to talk to you or your technical contact to set up an FTP procedure to automate your receipt of the indexes going forward.

Finally, Gene Simpson and I are set to meet you and the Enron team in your office at 2 p.m. Monday Oct. 8. I will contact you next week to discuss the agenda for our meeting and ensure that you have all the information you need.

Feel free to contact me in the meantime with any questions.

Regards,

Cantor Fitzgerald - HGA NOx Trading Program Market Study

Sender	loshiro@cantor.com
Recipients	[don.baughman@enron.com]
File	baughman-d/so2___nox/2.

Good Day,

You may be aware that the Texas Natural Resource Conservation Commission (TNRCC) has developed a Mass NOx Emissions Trading program for the Houston-Galvesto nonattainment area (HGA) to fulfill its requirements in meeting EPA quality standards. Targeted sources are those that emit 10 tons per year or more in the HGA. Though this program will be tailored to meet the region's needs it will likely share characteristics of other Cap and Trade emissions trading programs such as the Title IV SO2 acid rain program, the OTC NOx program, and the RECLAIM program.

At the request of a number of HGA proposed program participants, Cantor Fitzgerald is conducting a short survey of participants in the Mass Emissions Trading Program. In exchange for your completion of this survey we will provide you with its findings. Results will be tabulated, aggregated, and included in a NOx TRADING PROGRAM MARKET STUDY, which Cantor Fitzgerald intends to present to participants at an interactive seminar (date yet to be established). We will notify participants by fax when a date has been chosen.

ALL SPECIFIC INFORMATION THAT YOU PROVIDE WILL BE KEPT STRICTLY CONFIDENTIAL. PLEASE FAX BACK YOUR COMPLETED SURVEY TO 415-296-9582 NO LATER THAN FEBRUARY 9, 2001.

We believe the information we gather will be beneficial to both potential buyers and sellers of HGA NOx Emission Allowances, and we encourage you to take part.

If you have any questions please call 1-800-228-2955 and speak to Laurie Gage on ext 11. We welcome any extra input you may wish to provide.

Thank you,

Cantor Fitzgerald Environmental Brokerage Services 800.228.2955

PJM West Implementation Delay to March 1, 2002

Sender	tgrabia@alleghenypower.com
Recipients	['cteaman@alleghenyenergy.com', 'tmcustomers@alleghenypower.com', 'teamann@enron.com']
File	baughman-d/inbox/64.

Transmission Customers:

Since FERC did not act on our September 11, 2001, PJM West compliance filing (Docket No. RT01-98-000) at its December 19th meeting, Allegheny Power (AP) will need to delay the start of the PJM West arrangement until March 1, 2002. In order to accommodate the further delay in the start date, AP will need to sell transmission service under the AP OATT and on the AP OASIS for the month of February 2002. To accomplish this, AP will do the following:

* AP will attempt to call the Transmission Customers that have "confirmed" point-to-point transmission service reservations on the PJM OASIS for the paths that are not currently valid for PJM (AEP and DLCO) by 4:30 p.m. on December 21 to determine if they need comparable service on the AP system. If that is the case, AP will honor the "confirmed" reservations and the PJM OASIS timestamps. * Yearly service that was not given the option to exercise roll-over rights on the PJM paths (AP to PJM and PJM to AP) will be given the option to extend that service through the month of February. AP will attempt to call these Transmission Customers by 4:30 p.m. on December 21. * ATCs for the month of February will be uploaded to the AP OASIS starting at 8 a.m. on December 24. The upload will include all valid AP paths (AEP, PJM, VAP, FE and DLCO). * Transmission Marketing will post a message on the OASIS when the ATC upload is started and when it is complete. * Transmission service beyond March 1, 2002, will continue to be sold by PJM per the Interim Coordination Agreement that was filed with FERC on February 12, 2001. * January 30, 2002, is the last scheduled FERC meeting in January. If FERC does not act on our filing at that time, the start of the PJM West arrangement may then be delayed until April 1, 2002. Further information will be provided at that time, if necessary.

AP regrets any inconvenience that this delay may have caused you. AP will continue to keep you up-to-date on the implementation of PJM West. AP has requested that FERC issue an effective date of the first day of the calendar month which begins at least thirty days after the date on which FERC issues an order. If you have any additional questions or concerns, please call me at (724) 838-6748 or the Transmission Marketers at (724) 838-6064.

Well, I looked around again for another inexpensive ski trip for us to take this year. The path has seemed to lead the same direction as it did last year. Lake Tahoe is by far the cheapest package deal I can find. I have already spoken to most of you who went last year and everyone seems to agree it was a good time and great atmosphere. The dates for this adventure are leaving the evening of January 30th (Wed.) and returning on Febuary 3rd (Sun.).

The vacation package is through Southwest Airlines Vacations.

We will stay at the Horizon Casino for 4 nights.

We will depart: Houston Hobby Airport @ 4:50 pm with a short stop in Las Vegas and arrive into Reno at 9:20 pm. We will then go by Charter bus to Lake Tahoe.

Leaving Lake Tahoe: Our plane will depart Reno at 12:10 pm on direct route to Houston arriving at 6:50 pm.

And you ask how much for all this excitement?

This can be all yours for 359.75 per person. This price is for two people per room. I will need to know who would like to go no later than Wednesday afternoon so I can set up reservations. These trips are booking fast. We will be able to do like

last year. I will call in the reservations and then each individual person will be able to call Southwest directly and bill the trip to their own credit card. The only other expenses to be prepaid are for ski lift tickets and roundtrip transfer from the airport to the hotel and back. This cost is \$30. I figure we will discuss the lift ticket options. Some people may want to Snowmobile a day or do something else. We will discuss these options further after the trip is set.

Hope to see everyone there. The snow is looking good up there so far. They had 24" on the mountain yesterday.

Mason is going. I just don't have his e-mail address but he said to count him in.

Scott Tichavsky

A man boards an airplane and takes his seat. As he settles in, he glances up and sees a very beautiful woman boarding the plane.

He soon realizes she is heading straight towards his seat. Lo and behold, she takes the seat right beside his. Eager to strike up a conversation, he blurts out "Business trip or vacation?"

She turns, smiles and says, "Business. I'm going to the annual "Nymphomaniac Convention in Chicago."

He swallows hard. Here is the most gorgeous woman he has ever seen sitting next to him and she's going to a meeting for nymphomaniacs. Struggling to maintain his composure, he calmly asks, "What's your business role at this convention?"

"Lecturer", she says. "I use my experience to debunk some of the popular myths about sexuality."

"Really", he says, "what myths are those?"

"Well", she explains, "one popular myth is that African American men are the most well endowed when, in fact, it's the Native American Indian who is most likely to possess that trait.

Another popular myth is that French men are the best lovers, when actually it is the men of Jewish descent. However, we have found that the best potential lover in all categories is the Southern Redneck."

Suddenly the woman becomes a little uncomfortable and blushes.

"I'm sorry", she says. "I shouldn't be discussing this with you."

I don't even know your name!"

"Tonto", the man says, "Tonto Goldstein. But my friends call me Bubba."

Hey Dangerous Don!!!,, Am so happy to hear from you! Have tried to keep up with you as best as I could,, Will write more later as my life is still very weird.. Hope you and the fam have a grand Thanksgiving.. Will write more next week and tell you of some of my insanity...I'm still having fun!! Bad Dream ----- Original Message ----- From: "Baughman Jr., Don" <Don.Baughman@ENRON.com> To: <baddream@email.msn.com> Sent: Monday, November 19, 2001 1:15 PM Subject: Howdy from Don Baughman

Bad-dream Shotwell,

I got your e-mail address from Andrea Korth Walters the other day. I tried to get a hold of you earlier in the year, to no avail. Just wanted to catch up, and go drink a beer and eat a cheeseburger.

Doing fine down here in Houston. I bought a house in League City. In addition, I asked Shannon to marry me but that fell through during the summer. We are trying to see if we can salvage any of the relationship. I am doing well at Enron, managing the real-time power trading desk and trading. Enron, as you have seen in the paper, is experiencing some trouble. We are reasonably sure we will merge with Dynegy in mid to late 2002. Family is doing well; my sister is about to have her second baby. Travis is back from his year and a half tour in Europe, and took a position with Cemex as an account manager. Dad is about 3/4 retired and he and mom are doing a fair amount of hunting & fishing. Travis & I are gonna spend Thanksgiving in West Texas, deer hunting.

How's life in Hooterville? I heard that you are full on retired! FANTASTIC! What are you doing these days to keep yourself busy? Hopefully consuming large quantities of beer & tequila and blowing you eardrums out with Jimmy Buffett!

Tell when you are not busy and I will drive up, or have you down to the house and the bayhouse. Hope to hear from you soon.

Drop me a line when you have a chance!

Adios,

Don C. Baughman Jr. Commercial Manager Enron Power Marketing, Inc. Office: 713-853-0392 Home: 281-557-2068 Cell: 281-787-0029

-----Original Message-----

From: Dan S. Fredrickson [mailto:DS.Fredrickson@MAPP.Org] Sent: Friday, November 17, 2000 5:22 PM To: 'rtc@mapp.org'; 'pemc@mapp.org'; 'mrc@mapp.org'; 'rin@mapp.org' Subject: Notice of Pending Changes (effective 12/18/2000) to MAPP's Loss Repayment Procedure

Notice of new MAPP Loss Repayment Policies and Procedures

At the direction of the Regional Transmission Committee of MAPP, new Loss Repayment Policies and Procedures will be implemented on December 18, 2000. These changes make the transmission customer, as identified on the OASIS reservation, responsible for paying energy losses on MAPP Schedule F transmission service. Previously, the MAPP Source entity has been responsible for paying these losses. These changes do not modify the application of MAPP's Loss Repayment Procedure (LRP) to MAPP Member Open Access Transmission Tariff (OATT) customers. Changes to the administration of Schedule F loss repayment include: o The Schedule F transmission customer will now be responsible for the LRP losses on their energy schedules. o Payment of third party impacts due to "through flowing" Schedule F transactions (where the Source and Sink are both outside MAPP) will be included in the LRP. o To facilitate the payment of third party losses, the Customer will make arrangements with the Source Scheduling Participant (SSP), as defined on the transmission reservation, to pay for energy transaction losses at the onset of a schedule. o The SSP will bank the losses for repayment of third party losses, one week later, to the day. The repayment is done, as it is today, according to a schedule sent out by the MAPP Center. For additional information please see the business practices section of MAPP's Schedule F OASIS: <http://mapp.oasis.mapp.org/documents/MAPP/practices.html>

Questions may be e-mailed to Tom White at the MAPP Center: ts.white@mapp.org

Answers to frequently asked questions will be posted at the URL given above.

A copy of the revised section five of the policies and procedures document is attached.

Dave: As far as new numbers for the Portland folks, I believe that once we split from the PGE phone system you will need to acquire new numbers from Qwest. This question was posed to Ruth quite some time ago, and the direction at that time was that the numbers belong to PGE and we were going to get new numbers. We had some numbers reserved with Linda Rowlett at Qwest, but I don't know if they are still available. Give me a call and we can discuss. Thanks!!

Kathy

Re: PDX Estate 800 numbers for Real Time and Scheduling. I have spoken with Murray Oneil, who is working on the estate efforts in PDX and facilitating whatever decisions are made on where the resources will be homed for Estate, West Power functions. I am waiting for direction based on his efforts.

Just to be clear, there is no final decision yet on if UBS PDX will do the contracted back work (in part in whole) for West Power Estate. Until a decision is made, please do not make any changes to the current numbers in Portland.

Re: New Numbers for UBS Trading, Realtime, and Scheduling. I am looking for advice on what needs to happen. Kathy, please let me know what question I should be asking of local business if any, or if this just needs to happen.

I will be the on site contact and can be reached at 503.464.3701 desk,,, or 503.703.1553 cell.

Thanks

Dave

Corry: I have not heard any more on whether new numbers will be assigned, but I don't expect that to happen right away. I'll let you know if I hear anything to the contrary. Thanks!

-----Original Message-----

From: Bentley, Corry Sent: Monday, February 04, 2002 2:52 PM To: Will, Lloyd; Black, Tamara Jae; Baughman Jr., Don; Steiner, David Cc: Link, Kathy; Bailey, Debra; Cummings, David A. Subject: New UBS Phone Number Requests

Several discussions have been circulating regarding current Enron phone numbers and the need for new toll-free numbers for the UBS East Power Group.

For the UBS Power Trading group (EAST):

We can request new toll-free numbers (24 Hour, Fax and Scheduling) as per Kathy Link (UBS Houston 5-5418). a. Don Baughman and I have discussed a few options for these numbers, but would welcome any input or related requirements you may be aware of prior to us initiating this. b. We will establish these for East Power ASAP. David Steiner (503-464-3701) will be the contact to facilitate this effort for the West Desk

Our current "853" numbers will probably be replaced by new "584" numbers (Kathy Link is working on this). If this occurs, new numbers will be assigned to us.

Our Current "800" numbers for 24-Hour, "Fax, and Scheduling can be forwarded / transferred by the IT group to the Estate from our current phone turrets.

Let's discuss these numbers tomorrow, Tuesday morning (February 4th).

Thanks,

Corry Bentley 3-0421

Good Day,

Getting rid of Lotus Notes for NetCo (or whatever we will be?): The power scheduling group and the 24 hour Power Trading group both use the "East Power Discussion" db in Lotus Notes.

They need a bulletin board basically that they can all write to. They will need to have the historical information from the Lotus Notes db saved into the new format(whatever that is).

Let me know if you have any other questions.

Thanks, Daniel A. Muschar Trader Support Group CCNA, MCSE, CNA, A+ Pager: 877.582.5484 Cell: 281.541.6203 Can also text page: 8775825484@skytel.com or daniel.muschar@enron.com

Thanks for responding Dan

The Traders have Kobra, so that's what they'll use, it's been planned forever, they should be aware

Can you get me a list of the Lotus Notes apps that you're aware of?

thanks

spc

-----Original Message-----

From: Muschar, Daniel Sent: Wednesday, January 16, 2002 9:42 AM To: Cox, Paige Subject: RE: CONFIDENTIAL: FW: Final - Project Expectations & Issues

I have read this.

Questions: 1. Do the traders know that they will not have Bridge Telerate?

2. Some trading groups use Lotus Notes for business applications.

Thanks for the update.

Daniel

-----Original Message-----

From: Cox, Paige Sent: Tuesday, January 15, 2002 5:44 PM To: Elliott, Clay; Muschar, Daniel; McNair, Jason; Knox, Bill; Belt, Cedric; Gichana, Doug Subject: CONFIDENTIAL: FW: Final - Project Expectations & Issues

The fact that you have seen this document is to remain confidential do not share with anyone that is not included on this distribution list

The attached is a list of NETCo transition project assumptions/expectations and issues that are being worked in anticipation of Day 1 at NETCo. I want you to read through it so that:

you are aware of what we'll be expected to support on Day 1 you can read for issues that will directly impact your ability to support

any concerns/questions that you have should be directed back to me. Please let me know when you have completed reading, even if you don't find anything that raises concern

thanks!

P.S. "Day 1" is subjective ... means first day of business. The term "Day 2" means when NETCo is actually physically separated from Estate, not the literal 2nd day of ops
