Stacy -

I will have to look at the ICE agreement and see if we can add affiliates to the agreement. Since the agreement was negotiated, if they cannot add us to the current agreement, then they should be able to submit a similar version for enovate to use.

Mark,

The traders at enovate in the Chicago office would like to be able to use the ICE system. I understand that you are the person who should review these agreements. If you are not the right person, please let me know. I am sending a second e-mail that goes with this one. Feel free to call me for any additional information that you might need.

Brad, I spoke to Evans King today. I will work on resolving this with him. Should he or his client call you refer them to me. They don't need to bother you about this.

Stacy: Friday I got a call from Evan King (Attorney for B & J Gas and Oil) regarding a payment. They think that index is the price and we have proof that the price was fixed. Proof that the price was fixed is included in the email Jim Javins sent me. Please review and get with the attorney to help resolve the dispute (Evan King 304 624 8000). If you have any questions please call me at ext 37699. Thanks, Brad ----- Forwarded by Brad McKay/HOU/ECT on 04/09/2001 10:53 AM

James T Javins@EES 04/09/2001 09:24 AM To: Brad McKay/HOU/ECT@ECT cc: Subject: B & J Gas & Oil

Brad:

I got your message late Friday. The B & J Gas and Oil deal was done on 2/10/2000 for 10,000 a month @ \$2.70 for one year (March, 2000 - February 28, 2001). The confirmation was sent in care of Bowie, Inc., another of our customers from whom he had purchased this production, and who received his revenue and did his distributions at the time. I got another copy from Stacy Dickson, ENA attorney, last week and faxed it to Bowie to review with Cawthon.

This was not paid correctly by the payables department, and was paid at the index instead of the fixed price. We sent the deal ticket to Wade Price the day the deal was done, but it was not paid correctly. This causes these kinds of problems.

I am attaching some notes from my phone log where I had discussions with B & J (Cawthon) and Bowie at the time I locked him in, as well as conversations later in March when he said he had not received his confirmation (it was sent again). Call me if you need anything further.

Jim

Daniel,

I found a GISB between Morgan Stanley Capital Group Inc. and Enron North America Corp. dated July 1, 1998 in our files. ENA received the contract from an assignment from Columbia Energy Marketing Corporation. Why do we need to negotiate and execute another GISB agreement?

Congratulations on the new job and promotion. I did not respond to you sooner because I was on vacation in Arkansas last week . I will try to call you soon. Can you do lunch now that you have a new job?

Hey. I've been so busy. Most of May was a whirlwind. John's sister, Lynn, got married two weekends ago. Then, we went on vacation for the past week to Kiahwah. Oh, and I switched jobs. I am now the Managing Director of our internal trading platform. I miss Jennifer, she was really great to work with. Such a nice person.

How have you been? How is Merideth? I took a cute picture of her sleeping from when you were over and she had tired herself out from crying (hee, hee). Anything else new with you? Paige had her baby. A little boy named William after his pop. She has taken to motherhood and absolutely loves it. She's even talking about #2 already. She's always been a kind of crazy that way!

Call me when you get a chance. I still have the same work number (713-207-1341) and John is out traveling all week so I have time to chat at night, too (713-432-0470). Not that I wouldn't have time to chat if he was around!

Talk to you soon!

Mark,

Jeff asked that I review TradeSpark. All I could find for product descriptions were abbreviations of products that were not very clear. If these are the only descriptions of the products on TradeSpark , they are completely inadequate. If there are longer, more clear descriptions, please let me know how to find them so that I can review them.

Earlier this month I notified each of you of a request by Enron traders to access and utilize TradeSpark, a third party electronic trading platform. We had some initial problems setting up the TradeSpark software, but eventually overcame these so that we had available a computer terminal (located outside of Sandi Braband's office) for review of product descriptions. I am proceeding with negotiation of the access agreement and need to assess the status of the product description reviews.

Please let me know where each of you stand in relation to your product categories and, if you have completed your review, what matters need to be addressed with TradeSpark.

Thanks.

Hi Debra!

As per our conversation, attached is Constellation Power's comments to the Master Firm agreement they received from Roy Rodriguez. I will be happy if you can review this. Additionally, as soon as I come to some agreement with their credit group regarding threshold and MACs, I will draft a credit worksheet and forward same to you.

Thanks Rudwell.

Rudwell- Pursuant to our discussion, attached please find a revised draft of the Enfolio Agreement between CPS and enovate LLC. The form of agreement is the original one used by Enron and edited accordingly for enovate LLC.

The edits proposed (as submitted to enovate back in January) are consistent with industry standards and according to my notes were being forwarded to enovate's Legal (Enron) for further review. We are continuing contact and discussions to this matter with Roy Rodriguez at enovate and hope we can put closure to this agreement in the very near future.
