RE: TW Contract Template Clean-up

Sender	elizabeth.brown@enron.com
Recipients	['nancy.bastida@enron.com', 'dennis.lee@enron.com', 'karen.brostad@enron.com']
File	donoho-l/inbox/junk_file/288.

Here's what I noticed in researching the points listed below:

Point # Point Name Template Comment

6828 NGPL Gray County Panhandle Receipts Delivery Already exists under PHDEL template 8143 TW/Seven M Gas Sherman CO. I/C Panhandle Receipts Delivery Already exists under PHDEL template 9028 Delhi Cheyenne Panhandle Receipts Point has term date of 11/18/98 9278 TW/NNG Hutchinson Cactus Lateral Panhandle Receipts/Delivery Already exists under PHDEL and PHREC template (as bi-directional pt) 12354 Dominion Gas/Tule Lake I/C CE9Receipts Already exists under CE9REC template 13855 Getty Fed "24" #1 West Texas Receipts Point has term date of 11/18/98 15409 Jones Trust #44-565 CMP Panhandle Receipts Point has term date of 11/18/98 56943 Valero Ward West Texas Receipts Delivery Already exists under WTDEL template 57096 Northwest Bloomfield San Juan Receipts Is this point valid any longer? 58710 PNM Thompson CE9Receipts Delivery Already exists under CE9DEL template 500517 Delhi Ward I/C West Texas Receipts Delivery Already exists under WTDEL template 500540 El Paso Blanco I/C San Juan 2 Receipts Delivery Should not be added to a template since they were set up as alt pt on each contract (until we move to new system)

3531 TW/NNG Beaver Panhandle Deliveries Already exists under PHDEL template 500176 Dale Ferguson Tap Panhandle Deliveries Needs to be added to PHDEL template 500203 Continental Follette Panhandle Deliveries Needs to be added to PHDEL template 500390 Sum WTG Delivery Pt Panhandle Deliveries Already exists under PHDEL template

Lindy - Could you verify if POI #57096 is still valid for any reason?

Ramona - It appears that some of these points are available for displacement. In the new system, Linda indicated that a separate group has been set up for any points you have identified as valid. I will assume then that these should not be added to the paired template (ie, if a delivery point allows displacement, then they will only be added to the related basin delivery template. Nominating this point as a receipt would depend on the displacement grouping defined in the new system for pools and interruptibles.).

Thanks, Elizabeth

In cleaning up some template information, the following points were found to be on no templates.

1. Do they belong on a template? 2. Is the template listed the correct one?

Unless I hear differently, I will go ahead and update the templates accordingly.

Point # Point Name Template

6828 NGPL Gray County Panhandle Receipts 8143 TW/Seven M Gas Sherman CO. Ramona, Yes, K 24954 is a Hub contract and we have special code tied to it. Let me know if you find any evidence showing otherwise. Wayne

-----Original Message-----

From: Betancourt, Ramona Sent: Monday, March 18, 2002 4:34 PM To: Feng, Wayne Cc: Lee, Dennis; Donoho, Lindy Subject: FW: CR 24954

Wayne,

Do you have this contract defined as a HUB contract? I thought that we showed this as a FTS-1 HUB agreement. Please let me know. Also don't you have specific hard coding tied to the HUB contracts?

Thanks Ramona

-----Original Message-----

From: Lee, Dennis Sent: Monday, March 18, 2002 12:56 PM To: Donoho, Lindy; Betancourt, Ramona Cc: Lee, Dennis Subject: CR 24954

Should Cr 24954 (The Northwest Capacity in the Hub) be and FTS-1 contract or should it be an Administrative contract?

It is currently set up as an FTS-1.

Please advise...

ROCKY MOUNTAIN 3rd QUARTER PRODUCTION REPORT

Sender	lippmanc@aol.com
Recipients	['lippmanc@aol.com']
File	donoho-I/inbox/junk_file/190.

RE: ROCKY MOUNTAIN 3rd QUARTER PRODUCTION REPORT

Lippman Consulting, Inc. has just completed the Rocky Mountain 3rd Quarter of 2001 Production Report. This report contains historical volumes for each of the 11 producing basins contained in the Rocky Mountain Region. The report contains over 25 pages of text and graphs depicting various statistics. Drilling programs by operator, number of wells first delivered in each basin, rig activities as well as monthly gas production volumes are fully illustrated. Production volumes are reported both annually and quarterly.

The cost for the report is \$300 per quarter when order on an annual subscription or you can order on a one time basis for \$450. If you would like additional information or to order this report or any other report, please feel free to contact me by e-mail at Lippmanc@AOL.com or phone at 915-581-1668.

RE: PERMIAN BASIN 3rd QUARTER PRODUCTION 2001REPORT

Lippman Consulting, Inc. has just completed the Permian Basin Production report that contains historical volumes for the basin through the 3rd quarter of 2001. The report separates the Permian Basin into the following four regions: Southeast New Mexico and the Texas districts of 7C, 8 and 8A. The report contains text and graphs depicting various historical statistics for each of the four regions as well as for the total basin. Statistics on the number of new wells first delivered, rig activity and the operators that are most active in the region are included in the study.

The cost for the report is \$300 on a quarterly subscription basis or the report can be purchased on a one time basis for \$450. If you would like additional information or to order the report, please feel free to contact me by e-mail at Lippmanc@AOL.com or phone at 915-581-1668.

File	donoho-l/inbox/junk_file/481.

NEW REMAINING RESERVE REPORT

Lippman Consulting, Inc. is proud to announce that is has just completed a new Lower 48 States Dry Remaining Reserve Report. This report lists annually the reserves, additions, revisions and production as well as the reserve life index for the period 1990 through 2000. The data for this report was obtained from the EIA and is shown in both a table and graphical form. LCI has captured the data and summarized the report into the 8 separate producing regions that we have used for all our other production reports. Individual charts and tables are provided for each of the separate regions. The report quickly gives the reader an excellent overview of the historical activities that have been underway in each of the regions. It highlights the growth of some regions and the significant declines in other regions. Historical reserve life index over the period for each region is provided to inform the reader of the producing ability of that region.

The cost for the report is \$300. If you would like additional information or to order the report, please feel free to contact me by e-mail at Lippmanc@AOL.com or phone at 915-581-1668.

*Message 6 of 34***ETS and Corporate Change Control**

Sender	center.ets@enron.com
Recipients	[]
File	donoho-l/inbox/junk_file/507.

The following items were discussed in this weeks corporate change control...

Mar. 21 From 5:00 - 7:30 p.m., the Corporate Unix team will perform maintenance on dns1-corp. Dns1-corp is the primary dns server for enron.com domain. Queries to enron.com domain will be forwarded to dns2-corp which is the secondary dns server. No impact is expected. Mar. 21 From 7:00 - 8:00 p.m., the Messaging team will update the virus engine on Mailsweeper servers. This will be done on a monthly basis for better protection against new viruses. No impact is expected. Mar. 21 From 8:00 - 11:45 p.m., the Corporate Security team will re-enable the File Replication Service on all Corporate domain controllers. This change is necessary to replicate security policies. FRS will be started on Corp DCs one at a time, watching to be sure replication completes. Brief outages of Corp.enron.com security policies and possibly Exchange may occur. The Messaging team will be notified if replication causes problems. Support staff whose

applications experience problems due to FRS should contact the solution center at ext. 54745. Mar. 23 From 5:00 p.m. through 3/24 at 7:00 a.m., the Envision system will be taken offline to perform backups. Users will not be able to access information located on Envision during this maintenance. Mar. 25 From 9:00 a.m. through 4/5 at 3:00 p.m., the Corporate server team will make WINS/DNS changes on all servers to reflect the new server settings. Devices that require a reboot will be submitted via a separate change control. Some impact may occur during these changes and that information will be forwarded as it becomes available. May 1 At 5:00 p.m., the Corporate Security team will remove access to CORPHOU-DC07 (172.23.226.23, primary/secondary DNS) and NAHOU-NSWN03 (172.23.226.24, primary/secondary WINS) from devices within ECN. All servers/workstations/equipment using these for WINS/DNS must have their settings changed. Use 172.16.7.120 for DNS and 172.16.7.116 for WINS in their place by this 5/01. Future Changes: ENS backbone will be upgrading the code on the floor switches in the very near future. Individual companies will be contacted as the floors are scheduled. This will result in network outages for ETS and will be coordinated with ENS.

ETS Solution Center - Houston, at 713-345-4745 ETS Solution Center - Omaha, at 402-398-7454

Daily and Weekly Power Plays FREE Trial Offers!

Sender	10182829@mbox.surecom.com
Recipients	['lindy.donoho@enron.com']
File	donoho-l/inbox/junk_file/160.

Dear Colleague:

In this business, information and top-level analysis are key in ensuring that the decisions you make are the right ones. Weekly Power Plays and Daily Power Plays are the answers to your information needs

What is Weekly Power Plays?

It's a weekly newsletter exclusively targeted for electricity producers and distributors - professionals whose strategies are both long and short term.

Weekly Power Plays combines price information and analysis in every weekly issue so that you not only see the prices, you see how to anticipate future prices and the moves you need to make to take advantage of their fluctuations.

Not Just Prices!

Weekly Power Plays analyzes the issues that affect prices - helping you to anticipate changes by exploring:

- * Supply and demand issues;
- * Industry trends;
- * Fuel prices;
- * The affects of the new administration's new energy policy;
- * Environmental regulations and the EPA's review of the NSR program;
- * Much, much more - in a concise, easy to read format!

What is Daily Power Plays?

The number of independently owned publications covering the energy industry has dwindled, yet your need for solid pricing information is increasing. You simply can't afford to make decisions based on limited information- yet what can you do? Daily Power Plays, is a daily pricing service that offers:

- * Market prices for the West, Midwest, East and Texas;
- * Commentaries on each market;
- * Exclusive fuel price indicators from Petroleum Argus and COAL Daily;
- * Exclusive spark spreads;
- * Exclusive emission permit indices from AIR Daily;
- * Breaking news;

* And much, much more! See for Yourself with these FREE No-obligation Trial Offers! Just reply to this email: <mailto:rlippock@energyargus.com> and let us know which newsletter(s) you'd like to receive a trial to, and we'll start your free no-obligation trial(s) today!

FREE TRIALS TO OUR OTHER PRODUCTS!

For more information and FREE trials to Energy Argus' line of other publications, visit our website at http://207.49.16.150/ct.cgi?url=http%3a%2f%2fwww.energyargus.com%2fservice.html&appno=422&mrn=44356126&xqn=886&url_no=2&flag=1

File donoho-l/inbox/junk_file/433.

FYI - I just reviewed the preliminary invoices for the global settlement contracts (8255, 20715, 20747, 20748, 20822, 20834, 20835, 21165, 21175, 25923, 25924, 26371, 26372, 26677, 26678) and the capacity release contracts (releasing and acquiring). Everything looks good, including the necessary adjustments identified below.

If you need further assistance, please let me know.

Thanks, Elizabeth

-----Original Message-----

From: Brown, Elizabeth Sent: Wednesday, February 27, 2002 8:29 AM To: Giambrone, Laura; Hernandez, Bert; McEvoy, Christine; Miller, Beverly; Miller, Christopher L; Minter, Tracy; Mulligan, Amy; Ward, Linda; Donoho, Lindy; Lindberg, Lorraine; Lohman, TK; Lokay, Michelle; Watson, Kimberly; McConnell, Mark; Y'barbo, Paul; Buchanan, John Cc: Dietz, Rick; Lee, Dennis Subject: Transwestern Capacity Release Report for February 2002 Reservation Invoices

Attached is the file to be used for demand invoice verification for January 2002 capacity release transactions. If you have any questions, please feel free to contact me.

FYI - Based on the flash invoices I generated last night for the capacity release transactions and global settlement contracts, please note the following: ENA K #24924 Res - manual rate adjustment is needed for the 50/50 split of marketing fees for capacity released to Burlington Conoco K #20748 Res - delete the Thoreau to E. Thoreau line item Conoco K #20835 Comm - delete authorized overrun line items and roll volumes up to the commodity charge type Texaco K #25923/25924 Comm - when verifying fuel rate of 4.5% between the lateral and mainline contract sched volumes, there is a difference that could not be attributed to rounding. Need to verify if difference is caused by makeup volumes; and if delivery makeup scheduled, then invoice should be adjusted accordingly.

Please remember that the notes above are based on data as of 2/26/02. I will review again on the 1st.

Schedulers - Please provide a final copy of the delivery tolerance report to both me and Marketing so it can be determined if makeup will affect the rate to be charged [some contracts are based on calculations, especially when charging incremental fees for alternate point usage].

<< File: TW2002.02.XLS >>

Thanks, Elizabeth x3-6928

File	donoho-l/inbox/junk_file/414.

The TCR II surcharges are only charged on 20747 and 20748, the mainline contracts, not 20835 (it is a SJ contract).

-----Original Message-----

From: Moore, Jan Sent: Monday, March 04, 2002 10:55 AM To: Doll, Jeanette; McConnell, Mark Subject: FW: Conoco Contract Nos. 20747 & 20748

I guess Conoco CR #20835 would also be billed the TCR surcharge beginning March, 2002.

Let me know if you agree.

Thanks again!

Jan

-----Original Message-----

From: Moore, Jan Sent: Monday, March 04, 2002 10:38 AM To: Doll, Jeanette; McConnell, Mark Cc: Donoho, Lindy Subject: Conoco Contract Nos. 20747 & 20748

Jeanette:

I just reviewed the handout for your presentation on the Global Settlement. One of your slides stated that the TCR surcharge is applicable for 10 years from the Global settlement, even if the CFS's contract expires.

Conoco Contract Nos. 20747 & 20748 expired at the end of February. I assume we should bill the TCR surcharge for these contracts beginning in March, 2002. Please let me know if this is correct.

Thanks!

Travel Services

Sender	lhinson@allianceworldwide.com
Recipients	['lhinson@allianceworldwide.com']
File	donoho-l/inbox/junk_file/32.

While recent events have dramatically impacted Enron's travel volume, Alliance Worldwide (formerly Travel Agency in the Park) wanted to contact you regarding the Enron Travel Program. Since 1984, our company has been a strategic business partner with Enron and has provided a complete scope of services from booking, ticketing, ticket delivery, customer service, reporting, management of ClickTrip, to facilitating preferred vendor arrangements with airlines to benefit Enron. These services have been provided on a management fee basis from Alliance to Enron. As of December 1, 2001 the management fee has been suspended during Enron's period of reorganization. We are continuing to provide the turnkey travel services to Enron and forego the management fee and simply charge a time of ticketing fee per ticket.

To provide you with a brief history of our arrangement, Enron and Alliance approached the airlines a couple years ago and negotiated deep upfront discounts for Enron's business travel. These discounts are available only through Alliance and are given at time of ticketing. All commissions were stripped from the price of the discounted ticket and returned to Enron, in exchange for Enron paying Alliance a contracted management fee. This management fee was paid monthly and allocated back to each Enron cost center based on the total number of transactions. This travel program provided Enron over \$8.6 million in airline savings on \$55 million spent in the year 2000 and over \$5.2 million on \$33 million spent for the first 3 quarters of 2001. These savings are after the payment of the travel agency management fee.

The effect that the reduced travel volume will have on discounts provided by the airlines cannot yet be determined. We have contacted the airline companies and most of Enron's preferred carriers have agreed to extend the contracts through April 2002. You may utilize these discounts through Alliance by calling 713 650-8080 or 1 800 962-0248. In March, Enron and Alliance will begin evaluating Enron's volume and travel patterns, and determine any changes that are to be made to the discounts or fee structure.

As mentioned earlier, Alliance is implementing a time of ticketing fee in lieu of a management fee. These fees are reimbursable to Enron employees through normal expense report procedures. Specifically, the new fee structure is based on zero-commission contracts for tickets purchased from Enron's preferred carriers. The fee schedule for all airline tickets for Enron travel is as follows:

\$30 - Domestic tickets with or without upfront discount \$30 - International tickets without upfront discount 25% of Savings, capped at \$175 - International tickets with upfront discount \$15 - Southwest Airlines and ClickTrip Reservations, Hotel/Car Only Bookings

The savings to Enron on a per ticket basis more than covers the nominal fees that are charged. For example, Enron's average ticket prices are \$589 domestic and \$2207 international (after discounts). Enron's average savings are \$144 domestic and \$587 international (before fees). The savings are more than three times the per ticket fee!

If you are accustomed to booking your own travel online, you may continue to do so by booking through ClickTrip. ClickTrip is the only online booking tool that allows access to Enron's negotiated discounts. Ticketing through ClickTrip also bears a smaller fee of \$15 if no agent assistance is necessary. There is no charge to look at schedules. ClickTrip is available 24 hours a day and may be accessed through Enron's intranet site <<http://travel.enron.com>> or via the Internet site <<http://www.resassist.com/enron/>>. ClickTrip is also a useful tool for checking flight schedules or for checking upgrade status. To check upgrade status or to review a ticketed itinerary, simply click the Check My Trip button on the ClickTrip home page and fill in your name and Amadeus locator number (provided at the top of your itinerary). A user log-in may be obtained by contacting Alliance at 713 328-5100.

If your office location, phone number or any profile information has changed, please notify us by return email. A profile form is attached if you prefer to fax the information to Alliance at 713 328-5600 or if you are a new traveler wishing to set up a profile.

We at Alliance are proud of our 17 year association with Enron and dedicated to ensuring you of the best possible service at the most economical price for all of your travel needs. We have a highly trained and experienced staff working on Enron's account and we look forward to providing you with continued service for years to come. If you have any questions regarding any of the changes mentioned, or wish to discuss specific details relating to your corporate travel policies, please call me 713 328-5139, or email lhinson@allianceworldwide.com <<mailto:lhinson@allianceworldwide.com>>.

Sincerely, Lee Ann Hinson Director Account Management 713 328-5139 lhinson@allianceworldwide.com

The long awaited Transwestern web based Contract and Capacity Release system will go live Sunday March 10, 2002. The implementation team will be on site from Saturday evening thru Sunday evening to assure the system is performing properly. Should you receive any calls from customers related to the new system please direct the calls to one of the following individuals:

Elizabeth Brown - 36928 Dennis Lee - 31715 Linda Trevino - 35413 Rick Dietz - 35691

Thanks to all of you who provided assistance to the team the past few months. Your input and cooperation was greatly appreciated.

A couple of reminders:

Houston Customer Training - Thursday March 14th & Friday March 15th Marketing Dept Training - Monday March 18th & Thursday March 21st

Call if you have further questions.

Thanks

Linda

Dear Linda Wehring,

We would like to inform you of two Rockets home game time changes. Please note the changed start times for the following games:

Houston Rockets vs. Sacramento Kings, THURSDAY, MARCH 28 and Houston Rockets vs. San Antonio Spurs, THURSDAY, APRIL 4 will now begin at 7:30 p.m. at the Compaq Center. Per the request of the NBA, these games, which were originally scheduled to start at 8:00 p.m., have been moved to the standard 7:30 p.m. tipoff time. Both games will be broadcast on Fox Sports Network.

Please NOTIFY ANY OTHER PARTIES USING YOUR TICKETS.

Thank you for your patience and understanding. If you have any questions, please contact a Customer Service Representative at (713)627-DUNK.

From: Lee, Dennis Sent: Monday, November 19, 2001 1:14 PM To: McConnell, Mark; Watson, Kimberly; Rapp, Bill Cc: Dietz, Rick Subject: Request for W Thoreau delivery rpt

The attached spreadsheet breaks out scheduled volumes West of Thoreau for the period May, 2000 through October, 2001. The first tab of the spreadsheet breaks out the volumes by month; the second tab is a summary for the reporting period.

Please note, for the reporting period, there were some scheduled receipts. These have been listed separately and can be easily removed if necessary.

Let me know if you need anything else.

Dennis P. Lee ETS Gas Logistics (713) 853-1715 dennis.lee@enron.com

-----Original Message-----

From: McConnell, Mark Sent: Friday, November 16, 2001 6:00 PM To: Lee, Dennis Subject: Request for W Thoreau delivery rpt

Dennis,

To follow up from our meeting today, please provide the delivery report that includes the following:

WHAT Total volumes (by month) delivered to primary delivery points versus alternate delivery points WHEN For the period of 5/00 thru 10/31 WHERE For all delivery points West of Thoreau (including: Calif pool, Window Rock, PGE/Mojave Topock and SOCAL Needles) WHO Send to William Rapp (legal), Kim Watson and myself

This information will be used to respond to criticism by the California PUC. I believe that Bill Rapp is wanting to respond by early Wednesday so if he could get these numbers by end of day Monday, I'm sure he'd appreciate it.

Thanks for your help,

Mark

Message 17 of 34**Outlook Tips**

Sender	center.ets@enron.com
Recipients	[]
File	donoho-l/inbox/junk_file/79.

The following information and tips are provided to assist you as you're working with Outlook:

The Outlook mail file size restriction has been removed. However, if you have ever submitted an eRequest for additional space, you will need to forward an email to the ETS Solution Center to have the email restriction lifted.

The steps listed below will allow you to turn off the Auto-Delete feature, so that your mail will not be deleted as you exit: Go to your inbox, Select tools, Select options, Select the "other" tab, Deselect the check box that says "empty deleted items folder upon exit".

You might want to consider creating a folder called 'Junk' or 'Undecided' for any non-business-related information or any retained items you don't want to clutter your normal folder structure.

Regarding quarantined email messages: Inbound - For inbound quarantined messages, a ticket needs to be opened with the Resolution Center, 713-853-1411. If the intended email is of valid business-related content and you believe it requires Enron resources to retrieve it, the Help Desk will open a ticket to have the email released from quarantine and delivered to your e-mail Inbox. Your message will be scanned and checked for viruses prior to requested release. If it contains a virus or there is reason to suspect it is malicious code, it will not be delivered. Outbound - For outbound quarantined messages, an e-mail needs to be sent to IT Security and Controls (itsecurityandcontrols@enron.com) with the recipient's address and the subject line of message.

Should you have any questions or concerns, please feel free to call us at:

ETS Solution Center - Houston 713-345-4745 888-465-4745

ETS Solution Center - Omaha 402-398-7454

Sender	lindy.donoho@enron.com
Recipients	['perry.frazier@enron.com', 'patricia.steele@enron.com']
File	donoho-l/sent_items/210.

CAS continues to reserve the capacity under the contract, as if it's not terminated, as long as there is a ROFR flag on the contract. ROFR indicates that the customer has a contractual right to extend the contract pursuant to certain parameters in the tariff.

-----Original Message-----

From: Steele, Patricia Sent: Wednesday, November 14, 2001 4:00 PM To: Donoho, Lindy Cc: Frazier, Perry Subject: RE: Ctrc 24690 Continental CMS

I took the ROFR flag off. Since it is expired, I can't really figure out how it affects CAS. I'm confused.

But I will also look in the file.

-----Original Message-----

From: Donoho, Lindy Sent: Wednesday, November 14, 2001 3:51 PM To: Steele, Patricia Cc: Frazier, Perry Subject: Ctrc 24690 Continental CMS

Perry had asked me whether this contract had ROFR or not because he thinks it should be terminated, but CAS is still reserving capacity for the contract because it has a ROFR flag on it in CBS. I think that this contract does not have ROFR, but could you confirm this for me? If my memory is correct, I thought that this agreement was always done just a month or two at a time and that at the end of each term it was negotiated with the price desk (& more recently TK) to roll for another month or so. If I'm thinking of the right contract, that would mean that it did not have a ROFR (because it was not for a year or longer) and that it terminated 3/31/2001.

Could you check the contract file for me and look at the amendment history to confirm that the agreement did not have a year or longer term? If not, then this agreement should not have the ROFR contract on it.

Let me know. Thanks!

-----Original Message-----

From: The Riehm's [mailto:rriehm@houston.rr.com] Sent: Sunday, December 16, 2001 1:33 AM To: Riehm, Richard
Subject: Outstanding College Savings Plan

Are you concerned about saving for college expenses? If you are interested in what I have learned, read on. If not, delete this now and save yourself from my poor grammar.

I started my own savings program for our kids a couple years ago, but it wasn't very tax efficient. Up until last year, there really wasn't a very easy way to save for college. You basically had 2 choices: Educational IRA that had contributions limited to \$500 per year and you didn't qualify if you were "rich". The other was Prepaid College Tuition programs like the Texas Tomorrow Fund. The prepaid tuition programs are a good deal if you know your kid is going to go to an in state, public school because you can lock in tuition rates now. It doesn't cover room & board and if your kid goes out of state or to a private school, they will gladly give you your money back without much growth.

A couple of years ago, Congress authorized what are know as Section 529 plans. Each state is authorized to set up their own plan, cover different expenses, allow different investment options and charge different fees. One of the best web sites I found to give me a basic background and help me compare state plans was www.savingsforcollege.com. This web site is packed full of information.

Some of the features that make the 529 plans great are (each state varies on some options): High contribution limits (current max is \$251,000 per beneficiary) The account owner maintains control (forever) and the money is moved out of the account owner's estate. You can switch beneficiaries to anyone else in the family from grandparents out to first cousins. Multiple Investment Options from 100% Equity to 100% bonds and time adjusted portfolios. Qualified withdrawals cover tuition, books, room & board at all (nationwide) accredited 2 and 4 year colleges and most technical schools. Tax free growth on qualified withdrawals.

Each state plan has it's own quirks. Several states, including Texas do not even have a plan set up yet. You really have to evaluate several state plans to figure out what is best for you. Each state charges a management fee for maintaining these accounts. The fees I found varied from 0.30% to 1.05% annually based on your account balance. Some states only allow front loaded mutual funds and/or make you go through a broker. This can really add up.

I looked for a plan that had high contribution limits to cover the most expensive schools and aid in estate planning. A low annual management fee was very important to me. I was also concerned with investment options. I like picking my own portfolio styles. Some states don't give you too many options because they think they know better. I also found a state that allows you to switch your investment selections once a year. Most states currently prohibit investment changes from what was selected when you make a contribution. I think this prohibition was due to a tax law that was recently revised to allow investment switching.

I decided to go through New Mexico 529 plan. There web site is www.theeducationplan.com/education/SS/splash.jsp. I was able to set up my accounts on-line in a couple of minutes each.

I think this is the best investment vehicle for saving for college. Let me know what you think. If you have any questions, I would be happy to reply.

ETS and Corporate Change Control

Sender	center.ets@enron.com
Recipients	[]
File	donoho-l/deleted_items/91.

The following items was presented in this week's corporate change control.... Jan 10 From 10:00 a.m. - 1:00 p.m., the Messaging team will upgrade mailsweeper servers NAHOU-MSMSW03P and NAHOU-MSMSW06P to version 4.2_8. No impact is expected.

Jan. 12 From 11:00 p.m. through 1/13 at 2:00 a.m., ENS backbone will replace the primary clock on the 172.16.7.0 server segment. This switch is located in the old ECT 34th floor section of the raised floor. All servers connected to this switch will

have an outage of approximately three hours. No impact to ETS users is expected.

Jan. 14 From 12:00 p.m. through 1/15 at 12:00 p.m., the SAP team will move the XMS database from Seattle to Denver. During this maintenance, the web-based XMS (employee expense) system will be unavailable.

Jan. 22 From 5:00 p.m. through 1/27 at 5:00 p.m., the ETS server team will coordinate the move of the Envision system from 3AC to the Ardmore data facility. During this move the Envision system will not be available. Some of the applications affected by this outage include: Corporate-wide applications accessing the Envision web query, FileNet Panagon IDM Desktop, FileNet IDM for R3, Panagon Capture professional. Users will be able to access IBuyit and IPayit from SAP but will not be able to view invoices.

There is a great concern from TW Planning/ Marketing that the existing CAS system is not responding to our expectations. While we have corrected numerous bugs in the program, getting the solutions to the production side has been somewhat slow. This has caused a delay from Facility Planning to the Marketing group. Lets plan to talk about some new features that Marketing has requested for the CAS system. Pipeline Facility Planning is arranging a meeting on Friday Feb-1 From 2 to 3:30 pm in Room # 3907 to discuss the concerned issues.

Regards, Mansoor Abdmoulaie & Perry Frazier #33158 # 30667

FW: Bus Applications Meeting Follow Up

Sender	lindy.donoho@enron.com
Recipients	['wendy.koh@enron.com', 'elizabeth.brown@enron.com', 'joanne.bisbee@enron.com', 'lachandra.fenceroy@enron.com']...
File	donoho-l/sent_items/10.

I believe what Lisa (Sawyer?) was referring to is the termination of TW's shared cost surcharge effective October 31, 2001. I don't think there would be any system changes required. Typically, TW's rates are entered with a start and end date and (if this is correct) the surcharge should have an end date of 10/31/2001 and there wouldn't be anything else to do. If it's not entered that way, an end date could be entered now (whether at the surcharge level or at the contract level - the surcharge applies to just 14 firm contracts) and that should take care of it.

Elizabeth, Is this correct? I know you're on a project, please let me know if you can check this or who can.

Thank you! Lindy

RE: My Calculation

Sender	paul.y'barbo@enron.com
Recipients	['jan.moore@enron.com', 'lindy.donoho@enron.com', 'amy.mulligan@enron.com']
File	donoho-l/deleted_items/99.

Amy's calculations should be close depending on:

1. verification of the volume TW owes ECS for January, and
2. Did ECS actually sell 25,000/day during those last 10 days of December? Randy seems to be saying that they sold 25,000/day for 5 days.

Paul

tk: we show we only actually scheduled 125,000 in december. Richardson is taking the rest in Januaty, so we will be scheduling 21,447 a day jan 5th thru the 31st. If you have any questions give me a call

Randy

-----Original Message-----

From: Lohman, TK Sent: Thursday, January 03, 2002 4:57 PM To: Gay, Randall L. Subject: FW: Compression Gas

Randy, Stephanie asked me to send this to you. Is this correct with your records?

TK

-----Original Message-----

From: Mulligan, Amy Sent: Thursday, January 03, 2002 10:08 AM To: Lohman, TK Subject: Compression Gas

For December we should have scheduled 363289 to ECS.

We Scheduled 250000.

Therefore, as of the end of December, we still need to schedule an additional 113289.

So far 15000 was scheduled for 1/2/02 and 11000 will be scheduled for the 3rd.

I did not receive any official numbers this month as to how much we owed ENA for January, so that still needs to be figured out.

I hope this is what you need, Amy

Yes, Lindy is correct in her statement below. The shared cost surcharge is input in the current TW CBS system as contract-specific surcharges that are due to end on 10/31/01. There is no system impact.

Thanks, Elizabeth

From: Betancourt, Ramona Sent: Monday, November 26, 2001 5:12 PM To: Kedwaii, Hasan; Duff, David; Brown, Elizabeth; Hoang, Joe; Trevino, Linda; Donoho, Lindy; Doll, Jeanette Subject: FW: Follow-Up on East of California Busines Changes

Please plan to attend a meeting on Tuesday, 11/27/01 at 3:00pm in room 3907 to discuss PLE, TMS, CBS, & Rate system changes that would be required to add additional areas or basins to TW in order to handle this request from Marketing and regulatory regarding TW's East of California rate structure tariff issues. If I have missed anyone on the distribution list, please forward. A decision is needed on this item by 11/29/01.

Thanks Ramona -----Original Message----- From: Brady, Andy Sent: Wednesday, November 14, 2001 11:44 AM To: Betancourt, Ramona Cc: Brown, Elizabeth; Trevino, Linda Subject: RE: Follow-Up

Ramona,

Please take this and run with it and find out what the best solution is. We need information on what the different options are and what the best solution is for January implementation of the change. Let me know what help you might need. The major impact seems to be to TMS and Accounting, with minor affects to CRS and CMS (determining credit and gaining the

correct max rate). We really need to have the solution defined by the Tuesday after Thanksgiving, or earlier if possible.

Thanks a bunch and let me know.

ab.

-----Original Message-----

From: Betancourt, Ramona Sent: Wednesday, November 14, 2001 10:23 AM To: Brady, Andy Cc: Brown, Elizabeth; Trevino, Linda Subject: RE: Follow-Up

Andy, I wanted to clarify on the item related to the West of Thoreau area. To me, I think that we could create a new Basin in PLE and call it East of California. The area is still W. of Thoreau with two basins in that area. Maybe check with Elizabeth to make sure she agrees. I have attached the POI view of one of the points that should be changed to the East of California basin. Let me know what you think.

Thanks Ramona

ETS and Corporate Change Control Items

Sender	center.ets@enron.com
Recipients	['center.ets@enron.com', 'sue.rich@enron.com']
File	donoho-l/deleted_items/55.

The following items were discussed in this week's ETS and Corporate Change Control Item... Oct. 11 Beginning today, the Corporate team is pushing out workstation updates. Users were notified via email when their floors will have the upgrade available. The major push for ETS floors begins on Oct. 24. Oct. 12 From 5:00 - 6:00 p.m., the Messaging team will add all EES mail to route through mimesweeper. No impact to ETS is expected.

Oct. 13 From 7:00 a.m. - 5:00 p.m., Facilities will complete the installation of Alarm and status controls on the new Humidifier Unit in 3450 and the new water detector system in the EB34 Data Center. No impact is expected.

Oct. 13 From 8:30 - 10:00 a.m., the Corporate Server team will migrate the EES DNS to Corp. No impact to ETS is expected.

Oct. 13 From 9:00 a.m. - 2:00 p.m., Enron Network Services will migrate the switches for the printer networks on ECN 24 - ECN 38. This will effect the printers on each of these floors as the hubs are replaced. The printers will be reconnected to the new cisco switches and tested to make sure they are back on the network. No impact to ETS users is expected unless they reside on floors 24-38.

Oct. 13 From 11:00 a.m. - 12:00 p.m., Enron Network Services will migrate EBS users on the 10.x.x.x network to the 172.28.x.x network. This change will result in intermittent network outages. No impact to ETS users is expected unless they reside on a 172.28.x.x floor. Oct. 13 From 6:00 p.m. through 10/14 at 6:00 a.m., the Unix group will perform maintenance on Croaker. The following applications reside on this server: Custom Logs (CEI), EnPower, Equities, ERP/TRV, Estreme Relocation, Etalk, Government Affairs, Infinity, ITOPS, IZZIE, OMS (Yantra), RMS, SIEBEL, WEBMODAL, and REMEDY. This maintenance will result in a total disruption of access to these applications. Oct. 13 From 6:00 p.m. through 10/14 at 6:00 a.m., the Unix group will perform maintenance on Charon. The following applications reside on this server: OPM, ENLighten, RAM. This maintenance will result in a total disruption of access to these applications. Oct. 13 From 10:00 - 10:15 p.m., Enron Network Services will add IGMP to ENA-CX13 and ENA-CX14 which house the 172.28.0.0 networks. No impact is expected. Oct. 13 From 10:00 p.m. through 10/14 at 2:00 a.m., Telephony services will perform their monthly maintenance and backups of the CMS and Conversant systems. No impact to ETS users is expected although the Solution Center will not have access to their call management system during this time. Oct. 13 From 6:00 p.m. through 10/14 at 6:00 p.m., the Unix group will perform maintenance on Adcupalpha. The following application resides on this server: SAP / Project Sunrise. This maintenance will result in a total disruption of access to these applications. Oct. 16 At 11:00 a.m., Enron Network Services will add routing protocols to the 155.251.16.0 network which currently bridges Gas Control from Houston to Omaha. This change along with additional maintenance will result in disruption of service between Houston and Omaha for the Gas Control segment only. Oct. 17 From 8:00 - 10:00 p.m., Enron Network Services will enable multicast or change filters to ENA WAN sites. The sites affected include: Calgary, Chicago, Costa Mesa, Dublin, Hinsdale, NY Metals, Omaha, Portland, Toronto, and Washington DC. There will be a slight disruption of service (a few seconds) to these WAN sites while the multicast changes are made.

Oct. 20 From 11:00 p.m. through 10/21 at 3:00 a.m., the EDI team will upgrade the QA-Test server, adding hard drives and memory resulting in a total outage for the EDI test environment.
