PROS Energy Web Seminar Series - a Resounding Success

Sender	prosnews@prosrm.com
Recipients	['fermis@ect.enron.com']
File	ermis-f/inbox/124.

FOR IMMEDIATE RELEASE

PROS Revenue Management's Energy Web Seminar Series a "Resounding Success"

December 10, 2001-Houston- PROS Revenue Management, the world's leader in revenue management science and software, and the pioneer and dominant provider of revenue management to the airline and energy industries, today announced the success of its Energy Profit Optimization Web Seminar Series held December 5-7, 2001. Each seminar in the series discussed the benefits of PROS commercial optimization systems in the natural gas industry. Each seminar included case studies which provided participants an insight to the practical applications of PROS science-based optimization systems. Focused on pipelines, storage, and trading, these seminars enabled participants from various areas of the energy industry to take advantage of pricing and revenue optimization best practices.

"These seminars were a resounding success," says Matt Johnson, PROS' Senior VP of Energy. "PROS is continuing to take the leadership role for transfer of our mature revenue management science and technology into the energy industry. Based on the positive feedback of key energy first-movers, we anticipate several more of these innovative, interactive seminars in 2002. These sessions allowed attendees to have access to free, informative business case studies reflecting state-of-the-art energy revenue management."

The PROS Trading Optimization System can increase gas trading profitability by 10-15% by generating the optimal routing of supply to market given all pipeline contract constraints, gas purchase and sale obligations, and trading opportunities. The system recommends optimal spot gas buy/sell strategies and provides real-time physical position and opportunity cost data between any two points on the pipeline network. The result is the reduction of the gas scheduling process to less than 60 seconds.

The PROS Storage Revenue Management System has been shown to increase revenues from the sale of storage capacity by 7-25% after initial implementations. This system provides pipelines, storage marketers and traders with the ability to maximize revenue from the sale of storage services and contracts. It provides the comprehensive ability to analyze the value of storage using PROS' state-of-the-art revenue management science and to execute and track those deals in real-time.

The PROS Transportation Revenue Management System has demonstrated a revenue lift of 7-15% for firm transportation services in both open-season and negotiated sales environments. It allows natural gas pipelines to maximize revenue from the sale of transportation capacity. The system uses PROS' mature forecasting technology to predict demand for transportation contracts and forecast the customer utilization of existing contracts. PROS' price modeling and network optimization technology is used to provide pipeline capacity marketers with an optimal marketing plan that maximizes revenue from the sale of available capacity.

These products are based on the PROS Enterprise RM Platform, which uses world leading science, forecasting and optimization to generate revenue and profits for PROS' clients worldwide. The Platform is high performance, distributed computing, using parallelized, highly scalable technology. This architecture will support the high performance, high availability, real time, and mission critical applications of our clients. PROS' advanced architecture supports data intensive and calculation intensive, science-based enterprise solutions.

PROS 9th Annual Pricing and Revenue Optimization Conference will be March 3-7, 2002. This premiere event will feature industry leaders participating in presentations, panel discussions, and product workshops. Join industry colleagues, academics, and representatives from the international business community at large to discuss relevant topics specific to the energy industry and to the practice of revenue management. More information and formal invitations are coming soon. In the meantime, be sure to save the following dates on your calendar: March 3-7, 2002 Houstonian Hotel, Club & Spa Houston, Texas If you have further questions or if you are interested in speaking at this event, joining discussions as a panelist, or becoming a sponsor, please contact Andrea Balfour at abalfour@prosRM.com.

About PROS Revenue Management PROS Revenue Management is the world's leader in pricing and revenue optimization solutions and the pioneer and dominant provider of revenue management to the airline and energy industries. PROS provides system solutions to the airline, cargo, rail, energy, healthcare and broadcast industries, and has delivered over 230 systems to more than 90 clients in 39 countries. PROS' clients include 15 of the top 25 carriers in the airline industry.

The PROS mission is to maximize the revenue of each client using PROS' world-leading revenue management science, systems solutions, and best practices business consulting. PROS' airline clients report annual incremental revenue increases of 6-8% as a result of revenue management. PROS' solutions forecast demand, optimize inventory, and provide

dynamic pricing to maximize revenue.

Founded in 1985 in Houston, PROS Revenue Management has a six-year compounded revenue growth of 40%, in large part due to the intellectual capital of its staff. Nearly half of PROS' professional staff has advanced degrees and the staff speaks a cumulative total of 26 languages. The company is profitable with Year 2000 revenue of \$29 million. For more information on PROS Revenue Management, please visit www.prosRM.com or call 713-335-5253.

PROS Revenue Management Moves into New Headquarters

Growing software company chooses ComTech Center in midtown Houston

April 24, 2001-Houston-PROS Revenue Management, the world's leader in pricing and revenue optimization science and software, and the pioneer and dominant provider of revenue management to the airline industry, today announced that it is moving into its new Corporate Headquarters in the ComTech Center in midtown Houston. The move into the new headquarters will take place between April 26-30, 2001. All interested parties are encouraged to update their records to reflect PROS' new address:

PROS Revenue Management, Inc. 3100 Main Street, Suite 900 Houston, Texas 77002 USA

This address should be used for all correspondence, including billing and legal notices. Email addresses and telephone numbers are unchanged. PROS' main switchboard can still be reached at 713-335-5151 and its Web site can be accessed at www.prosRM.com.

"Our move into our newly renovated, larger headquarters has come because of PROS' incredible growth over the years," says Bert Winemiller, Chairman and CEO of PROS. "ComTech Center offers the latest in amenities and technology, and we are proud to be its newest and largest tenant. The new offices are mere blocks from our original location and easy to find."

Winemiller encourages visitors to come visit the new facilities and be given a tour.

PROS Revenue Management is the world's leader in pricing and revenue optimization solutions and the pioneer and dominant provider of revenue management to the airline industry. PROS provides system solutions to the airline, cargo, rail, energy, healthcare and broadcast industries, and has delivered over 180 systems to more than 80 clients in 37 countries. PROS' clients include 17 of the top 25 carriers in the airline industry.

The PROS mission is to maximize the revenue of each client using PROS' world-leading revenue management science, systems solutions, and best practices business consulting. PROS' clients report annual incremental revenue increases of 6-8% as a result of revenue management. FOR IMMEDIATE RELEASE

PROS Energy Profit Optimization Workshop

October 30, 2001-Houston- PROS Revenue Management, the world's leader in pricing and revenue optimization science and software, and the pioneer and dominant provider of revenue management to the airline and energy industries, today announced that its Energy Profit Optimization Workshop, being held November 5 at PROS' offices in Houston, TX, will afford attendees the opportunity to learn revenue management best practices and implementation experiences from industry leaders.

PROS industry experts will offer interactive workshops on the robust solutions available to the energy industry in the realm of revenue management.

* Storage Optimization System - offering a 7-28% revenue lift, provides pipelines and storage marketers and traders with the ability to work real time and optimally manage storage assets, analyze the value of storage, and then maximize revenue from the sale of storage services and contracts.

* PROS Pipeline Capacity and Pricing Optimization System - offering an 8-14% revenue left, allows natural gas pipelines to optimize the capacity allocation of incoming bids, taking into account the economic interaction between all

transportation service opportunities across the entire pipeline network, and then maximize revenue from the sale of transportation capacity

* PROS Trading & Scheduling Optimization System - offering a 10-15% revenue lift, generates the optimal routing of supply to market given all pipeline contact constraints, gas purchase and sale obligations, and trading opportunities. A process which typically takes hours is now optimized in seconds.

"Until recently, the energy industry has not had the opportunity to enjoy the benefits of pricing optimization and revenue management. We're about to change that for the energy leaders," says Matt Johnson, senior vice president of PROS' energy group. "In our experience, giving hands-on demonstrations and workshops of our products shows our message of how our solutions can revolutionize your company by incrementally increasing your revenue and profits."

This workshop is free of charge. Join us to hear from your energy colleagues the amazing functionality and associated benefits available through these product applications. Network with industry leaders at various levels of their organizations to understand best practices within your business arena. For more information, please check PROS' Web site at <http://www.prosrm.com/energy/workshop.htm>.

PROS Revenue Management is the world's leader in pricing and revenue optimization solutions and the pioneer and dominant provider of revenue management to the airline and energy industry. PROS provides system solutions to the airline, energy, cargo, rail, healthcare, and broadcast industries, and has licensed over 235 systems to more than 95 clients in 39 countries. PROS' clients include 15 of the top 25 carriers in the airline industry.

The PROS mission is to maximize the revenue of each client using PROS' world-leading revenue management science, systems solutions, and best practices business consulting. PROS' clients report annual incremental revenue increases of 6-8% as a result of revenue management. PROS' solutions forecast demand, optimize inventory, and provide dynamic pricing to maximize revenue.

Founded in 1985 in Houston, PROS Revenue Management has a six-year compounded revenue growth of 40%, in large part due to the intellectual capital of its staff. Nearly half of PROS' professional staff has advanced degrees and the staff speaks a cumulative total of 26 languages. The company is profitable with Year 2000 revenue of \$29 million. For more information on PROS Revenue Management, please visit www.prosRM.com or call 713-335-5151.

Please note that although the PROS 9th Annual Conference has been postponed, this has not affected the PROS Energy Profit Optimization Workshop which will occur as planned on Monday, November 5, 2001. We look forward to your attendance.

October Malin Penalties - Enserco

Sender	charles.jacobs@enron.com
Recipients	['frank.ermis@enron.com']
File	ermis-f/discussion_threads/124.

Frank - I'm forwarding the email I received from Enserco regarding the penalty for our failure to take the full volume on days 1 and 18 on deal #423705. As I explained to Suzanne, I would not have paid this had they invoiced me for it but Enserco is a Netout customer and we were in a net receivable position this month so they deducted this amount out of what they paid me. As the penalty seems to be legitimate, can I get you to set up a new deal in Sitara to offset the receivable? If you agree with their calculations, can you set up a positive Demand charge of \$2,405.03 with Enron as the Purchaser and Enserco as the Seller?

Please reply to this email with your approval (or disapproval) of their calculation and let me know when you have the demand charge set up (or not).

Call me if you have any questions. ...Chuck x.36275 ----- Forwarded by Charles Jacobs/NA/Enron on 11/27/2000 04:15 PM -----

File	ermis-f/all_documents/257.

FYI ----- Forwarded by Mark Whitt/NA/Enron on 05/01/2001 12:58 PM -----

"Brent Kitchen" <BrentK@questar.com> 04/30/2001 05:10 PM

To: undisclosed-recipients;; cc: Subject: Questar Pipeline's Southwest Wyoming Storage Project Open Season

Questar Pipeline Company is holding an open season to determine the feasibility of constructing a salt cavern storage facility near Evanston, Wyoming to provide firm natural gas storage service. This facility will provide multiple cycle, high deliverability storage service that will be connected to several interstate pipelines.

All interested parties are invited to submit requests during the open season, which will begin on Wednesday, May 2, 2001 and close on Friday, June 1, 2001. Depending on customer interest and the scope of the project, the firm storage is anticipated to be in service by June 1, 2004.

A description of the open season, including application requirements, is attached to this message in Microsoft Word format. The Precedent Agreement form is also attached as an Adobe Acrobat PDF file. The Precedent Agreement must be completed and e-mailed or faxed to Questar Pipeline by 5 p.m. on Friday, June 1, 2001. Questar Pipeline's fax number is (801) 324-2980. Precedent Agreements for the storage service should be faxed to Attention: Tom Myrberg.

If you are unable to open the PDF file containing the Precedent Agreement and would like us to fax you a copy, please call Derby Flygare at 801-324-2041 or Mary Kay Olson at 801-324-5873.

Additional information about the open season can be obtained online at <http://www.questarpipeline.com/html/marketing.html> or by calling Tom Myrberg at 801-324-2978, Mary Kay Olson at 801-324-5873, or Shelley Wright at 801-324-2509.

File	ermis-f/inbox/576.

To All Enron Bowling Association Teams,

If any of you are interested in bowling for Special Olympics next Saturday, November 17, 2001, please contact any officer listed below to send you a package. This Event is open to any and everyone who can help support Special Olympian with a minimum of \$25 in pledges.

This is the only charitable event the bowling association sponsors during the year, so it is important to have a good turnout.

Don Sinclair, Energy Industry Leader, Keynote Speaker

Sender	achrisco@prosrn.com
Recipients	['fermis@ect.enron.com']
File	ermis-f/discussion_threads/293.

..at PROS Trading and Storage Revenue Optimization Seminar

May 8, 2001=01*Houston=01* PROS Revenue Management, the world=01,s leader i= n revenue=20 management science and software, and the pioneer and dominant provider of= =20 revenue management to the airline and energy industries, today announced th= at=20 Don Sinclair will be the keynote speaker at the PROS Trading and Storage=20 Revenue Optimization Seminar. The focus of the seminar will be a discussio= n=20 and demonstration of the benefits of trading and storage revenue=20 optimization in the energy industry. The seminar will be hosted by PROS=20 Revenue Management at their new facility in midtown Houston, located at 31= 00=20 Main Street and Elgin on Tuesday, May 22, from 1:00 - 3:30 pm.

Don Sinclair currently provides strategic consulting services to the energy= =20 industry. He has been involved in the energy industry since deregulation= =20 began in the early 1980s. He served as president of Duke Energy Trading and=20 Marketing LLC, from April 1997 to September 1998. Prior to joining Duke,= =20 Sinclair served as senior vice president of Tenneco Energy and president of= =20 Tenneco Energy Resources. Mr. Sinclair was also one of the original=20 principals of Dynegy, where he served eight years in various officer=20 positions, including senior vice president and chief risk officer. At Dyneg= y=20 he was in charge of all risk management activities and commercial operation= s.

=01&This seminar will outline a powerful new set of pricing and revenue=20 optimization tools for the energy industry ,=018 says Matt Johnson, PROS= =01,=20 Senior VP of Energy. =01&Our products have been at the vanguard of pricing= and=20 revenue optimization for over fifteen years, and at this seminar we will=20 demonstrate how two of our newest energy products =01) the PROS Trading=20 Optimization System and the PROS Storage Revenue Management System =01) are= =20 delivering unprecedented revenue lifts to the energy marketplace.=018

PROS=01, Trading Optimization System enables customers to increase deal=20 profitability by 10-25% across their entire gas business in real-time. PRO= S=20 Storage Revenue Management System has been shown to increase revenues from= =20 the sale of storage capacity by 7-25% after initial implementations. Both= =20 PROS Trading Optimization System and PROS Storage Revenue Management System= =20 are built on the PROS Enterprise Platform=01,s world leading forecasting,= =20 pricing and optimization science, generating revenue and profits for PROS= =01,=20 clients worldwide.

To find out more information about the PROS Trading and Storage Revenue=20 Optimization Seminar, please contact Tricia Stewart at 713-335-8056, or=20 register at PROS=01, registration page on the Internet at=20 www.prosrn.com/energy/seminar_registration.htm.

About PROS Revenue Management

PROS Revenue Management is the world=01,s leader in pricing and revenue=20 optimization solutions and the pioneer and dominant provider of revenue=20 management to the airline and energy industries. PROS provides system=20 solutions to the airline, cargo, rail, energy, healthcare and broadcast=20 industries, and has delivered over 200 systems to more than 80 clients in 3= 7=20 countries. PROS=01, clients include 17 of the top 25 carriers in the airlin= e=20 industry.

The PROS mission is to maximize the revenue of each client using PROS=01,= =20 world-leading revenue management science, systems solutions, and best=20 practices business consulting. PROS=01, clients report annual incremental= =20 revenue increases of 6-8% as a result of revenue management. PROS=01, solut= ions=20 forecast demand, optimize

inventory, and provide dynamic pricing to maximize revenue.

Founded in 1985 in Houston, PROS Revenue Management has a six-year compounded revenue growth of 40%, in large part due to the intellectual capital of its staff. Nearly half of PROS's professional staff has advanced degrees and the staff speaks a cumulative total of 26 languages. The company is profitable with Year 2000 revenue of \$29 million. For more information on PROS Revenue Management, please visit www.prosRM.com or call 713-335-5253.

File	ermis-f/discussion_threads/11.

PROS Revenue Management Named to The Houston 100(r)

Pricing optimization leader makes Fastest Growing Companies List

October 26, 2000 - Houston-PROS Revenue Management, the world's leader in revenue management science and the pioneer and dominant provider of revenue management to the airline industry, today announced that it has been named to The Houston 100(r), a ranking of the fastest-growing private businesses making the greatest economic impact on the Houston area. PROS has shown a 79 percent growth in revenues from 1997 to 1999.

The Houston 100(r) profiles Houston's fastest-growing businesses based on sales and revenues over a three-year period. It is an annual program of the University of Houston Small Business Development Center and is sponsored by Comerica Bank-Texas and underwritten by Southwestern Bell, the Greater Houston Partnership and the Houston Business Journal.

"It's an honor to be named in the top 100 list of growing private companies," says Bert Winemiller, President and CEO of PROS. "The past two years have seen tremendous growth in revenue management, and we have been leading the charge by providing products to the airline, energy and other industries. Our most recent quarter set records, and our year-end outlook is very positive."

PROS Revenue Management is the world's leader in revenue management science and the pioneer and dominant provider of revenue management to the airline industry. PROS provides system solutions to the airline, cargo, rail, energy, healthcare and broadcast industries, and has delivered over 180 systems to more than 82 clients in 25 countries. The PROS mission is to maximize the revenue of each client using PROS' world-leading revenue management science, systems solutions and best practices business consulting. PROS clients report annual incremental revenue increases of 2-8% as a result of revenue management. PROS solutions forecast demand, optimize inventory and provide dynamic pricing to maximize revenue.

Founded in 1985 in Houston, PROS Revenue Management has a five-year compounded revenue growth of 40%, in large part due to the intellectual capital of its staff. Nearly half of PROS' employees have advanced degrees and the staff speaks a cumulative total of 26 languages. The company is profitable with 1999 revenue exceeding \$21 million. PROS' strong balance sheet is evidence of the company's continued success. For more information on PROS Revenue Management, please visit www.prosRM.com or call 713-335-5813.

Power Market Risk Management: A Survival Guide - * Order

Sender	donald_mallory@platts.com
Recipients	[pmmr1101np@listserv.ftenergy.com]
File	ermis-f/inbox/546 .

<<http://public.resdata.com/htmlmail/pmmr%20top%20bar.gif>>

Brought to you by Platts (a division of McGraw-Hill) Order by November 30, 2001 and Save! Call 800-424-2908 today to order your own Survival Guide By the time you finish reading this management report, you'll have gained a working understanding of power market risk-management concepts and practices. Risk management is a structured discipline that uses well-defined policies and procedures to mitigate a company's credit, market, or operational risks. It's a way of looking at an unstable factor, such as fluctuating fuel prices, and finding ways to offset the risk of that instability. Our Survival Guide will give you the tools you need to make risk management an integral part of your power market business. You'll discover: <<http://public.resdata.com/htmlmail/opri%20bullet.gif>>

How to protect revenue streams for the future.

<<http://public.resdata.com/htmlmail/opri%20bullet.gif>>

What market leaders, such as Koch Energy Trading and Enron, are doing.

<<http://public.resdata.com/htmlmail/opri%20bullet.gif>>

Ways to incorporate risk-management operations into your business strategy.

<<http://public.resdata.com/htmlmail/opri%20bullet.gif>>

How to better evaluate and manage consultants' risk-management services, such as those offered by Risk Advisory or SAVA Risk Management.

<<http://public.resdata.com/htmlmail/opri%20bullet.gif>>

Workable strategies for monitoring and assessing risk-management operations. To corporate energy managers, risk management may mean understanding the risks and variable value of different commodities. Power market players need to run their plants and structure contracts to ensure that they'll be able to service debt and achieve a solid return. As new entrants join the power market, bringing risk-management experience from other sectors, existing players need to get up to speed quickly. The Survival Guide supplies exactly what information these professionals need to get started. "Power Market Risk Management: A Survival Guide" focuses exclusively on risk management for power markets. Risk management isn't gambling-it's business sense! File	ermis-f/discussion_threads/260.

PROS Revenue Management to Host Trading and Storage Revenue Optimization Seminar

April 26, 2001--Houston-- PROS Revenue Management, the world's leader in revenue management science and software, and the pioneer and dominant provider of revenue management to the airline and energy industries, today announced that it will host the PROS Trading and Storage Revenue Optimization Seminar, which will discuss and demonstrate the benefits of trading and storage revenue optimization in the energy industry. The seminar will be held at PROS Revenue Management's new facility in midtown Houston, located at 3100 Main Street and Elgin, on Tuesday, May 22, from 1:00 - 3:30 pm.

"PROS Trading Optimization System enables our customers to increase deal profitability by 10-25%," says Matt Johnson, Senior VP of Energy. "The benefits in terms of increased profitability, reduced transaction costs and trader productivity deliver a significant competitive advantage in today's gas trading business environment."

PROS Storage Revenue Management System increases revenues from the sale of storage capacity by 7-25%. This system provides storage marketers and traders the ability to maximize revenue from the use of their storage assets and sale of storage services.

"The PROS Storage Revenue Management System provides the comprehensive ability to both analyze the value of storage using PROS state-of-the-art revenue management science and to execute and track those deals in real-time," says Johnson. "This powerful combination of science and technology helps our customers drive their storage revenues to previously unattainable levels."

Both PROS Trading Optimization System and PROS Storage Revenue Management System are built on the PROS Enterprise RM Platform, its world leading science, forecasting and optimization, generating revenue and profits for PROS clients worldwide.

Pricing and revenue optimization have arrived in the energy sector. "PROS=01,=20 revenue management products have allowed Williams to succeed in a new arena=,=20 resulting in the most advanced capacity scheduling capability of any compan= y=20 in our industry. Our business is realizing immediate benefits," claims Mik= e=20 Fiser, V.P. Williams Energy Marketing & Trading.

Best Practices Presentations at Energy Profit Optimization Workshop

Sender	annualconference@prosrn.com
Recipients	['fermis@ect.enron.com']
File	ermis-f/inbox/536.

FOR IMMEDIATE RELEASE

PROS Energy Profit Optimization Workshop Showcase of Best Practice Presentations

November 1, 2001-Houston- PROS Revenue Management, the world's leader in pricing and revenue optimization science and software, and the pioneer and dominant provider of revenue management to the airline and energy industries, today announced that its Energy Profit Optimization Workshop, being held November 5, at PROS' offices in Houston, TX, will showcase informative presentations from industry leaders in the energy industry with focus on best practice and implementation experiences.

The following are a sampling of synopses of presentations to be offered at next week's event:

* Albert Viscio of Accenture will be answering the question, "What is revenue management and why do I need it?" Albert will discuss how Revenue Pricing Optimization (RPO) is the next leading edge business practice. With the potential to have broad and deep business impact within the Energy Industry, revenue management focuses on profitability and creation of shareholder value.

* Soli Forouzan of MindSpan, Inc., and former VP at PG&E, will pose the question, "What kind of strategy are you using to manage your trades?" Soli will examine how trader profits are generated, common mistakes, how to optimize assets, and then managing and exercising options.

* Kurt King of Duke Energy North America wishes us to contemplate, "What makes a successful software implementation?" Kurt reviews the objectives, team assembly, communication, challenges, benefits, and future initiatives.

* Glen Schrank from @TheMoment, Inc. asks, "Why do I need a revenue management-enabled auction and how can optimized dynamic commerce help me?" With FERC strongly encouraging pipelines to file auction proposals, companies can create new web-based supplier-friendly markets while supplementing current revenues in the process.

"At PROS, we are seeing an increasing demand for pricing and revenue management across the energy industry. PROS is uniquely positioned to deliver the revenue management tools that have proven to be a strong competitive device, giving our clients a distinctive competitive advantage." says Matt Johnson, senior vice president of PROS' energy group.

Previous seminars this year have drawn nearly 100 energy professionals, representing over 40 world leading energy companies. Our attendees have not only reported high value in attending these workshops but many have attended multiple sessions. Your attendance is critical to success for you and your company in the revenue management arena. Whether you are a trader, marketer, are involved with gas pipelines or gas storage, this seminar is for you.

This workshop is free of charge. Join us to hear from your energy colleagues the amazing functionality and associated benefits available through product application. Network with industry leaders at various levels of their organizations to be aware of best practices within the realm of your business. For more information, please visit PROS' Web site at <http://www.prosrm.com/energy/workshop.htm>.

About PROS PROS Revenue Management is the world's leader in pricing and revenue optimization solutions and the pioneer and dominant provider of revenue management to the airline and energy industry. PROS provides system solutions to the airline, energy, cargo, rail, healthcare, and broadcast industries, and has licensed over 235 systems to more than 95 clients in 39 countries. PROS' clients include 15 of the top 25 carriers in the airline industry.

The PROS mission is to maximize the revenue of each client using PROS' world-leading revenue management science, systems solutions, and best practices business consulting. PROS' clients report annual incremental revenue increases of 6-8% as a result of revenue management. PROS' solutions forecast demand, optimize inventory, and provide dynamic pricing to maximize revenue.

Founded in 1985 in Houston, PROS Revenue Management has a six-year compounded revenue growth of 40%, in large part due to the intellectual capital of its staff. Nearly half of PROS' professional staff has advanced degrees and the staff speaks a cumulative total of 26 languages. The company is profitable with Year 2000 revenue of \$29 million. For more information on PROS Revenue Management, please visit www.prosRM.com or call 713-335-5151.

FOR IMMEDIATE RELEASE

PROS Revenue Management Announces Record Third Quarter and YTD 2001

November 20, 2001-Houston- PROS Revenue Management, the world's leader in revenue management science and the pioneer and dominant provider of revenue management to the airline and energy industries, today announced that third quarter, although impacted by the tragic events of September 11, 2001, was a record revenue quarter for the company, and the company achieved low double digit operating income levels. PROS posted revenue in the first nine months of the year of \$27.7 million, which is a 36% increase over the previous year. Record profits, along with positive cash flow, enhanced PROS' strong balance sheet. PROS also posted record annual revenues and profits for 2000.

"Our goal is to be the clear leader in the new Revenue Pricing Optimization category," says Bert Winemiller, president and CEO of PROS. "Our financial performance of record revenues, profits, and cash flow will enable PROS to maintain its commitment to achieving this goal and provide high value solutions to our clients."

PROS Pricing Revenue Optimization Solutions' major milestones in the first nine months of 2001 include:

- o In the airline industry, PROS completed signed contracts with airline companies, including Aeropostal, Air Jamaica, All Nippon Airways, Cathay Pacific, Delta Air Lines, Korean Air, Singapore Airlines, South African Airways, and TWA/American Airlines.
- o Contracts were signed in the energy industry with major US gas pipeline companies.
- o PROS concluded its second contract for Network Optimization (O&D) in the airline industry. This product will become the standard for the industry.
- o Energy Pricing & Revenue Optimization Seminars were held with participation from industry leaders and Accenture.
- o PROS hosted its first Pricing Optimization Web Seminar which covered pricing optimization principles common among virtually all industries. Participants included executives of some of the strongest Fortune 500 companies.
- o PROS completed the move of its headquarters to the ComTech Center in midtown Houston. This state-of-the-art facility will assist in the support of PROS' expansion both internally and into other industries.
- o PROS announced its 9th Annual Pricing and Revenue Optimization Conference, the largest revenue management conference in the world, with industry leaders, analysts and representatives from industries such as airline, energy, healthcare, hospitality, broadcast, rental car, and rail. The Conference will take place March 3-7, 2002.

About PROS PROS Revenue Management is the world's leader in pricing and revenue optimization solutions and the pioneer and dominant provider of revenue management to the airline and energy industries. PROS provides system solutions to the airline, cargo, rail, energy, healthcare, and broadcast industries, and has delivered over 230 systems to more than 90 clients in 39 countries. PROS' clients include 15 of the top 25 carriers in the airline industry.

The PROS mission is to maximize the revenue of each client using PROS' world-leading revenue management science, systems solutions, and best practices business consulting. PROS' clients report annual incremental revenue increases of 6-8% as a result of revenue management. PROS' solutions forecast demand, optimize inventory, and provide dynamic pricing to maximize revenue.

Founded in 1985 in Houston, PROS Revenue Management has a six-year compounded revenue growth of 40%, in large part due to the intellectual capital of its staff. Nearly half of PROS' professional staff has advanced degrees and the staff speaks a cumulative total of 26 languages. The company is profitable with Year 2000 revenue of \$29 million. For more information on PROS Revenue Management, please visit www.prosRM.com or call 713-335-5253.

PROS' 9th Annual Pricing and Revenue Optimization Conference will be March 3-7, 2002. This premiere event will feature industry leaders participating in presentations, panel discussions, and product workshops. Join industry colleagues, academics, and representatives from the international business community at large to discuss relevant topics specific to the airline industry and to the practice of revenue management. We have broadened our scope this year to include separate sessions related to other industries benefiting from revenue management, such as Energy, Healthcare, Hospitality, Broadcast, Rental Car, and Rail.

More information and formal invitations are coming soon. In the meantime, be sure to save the following dates on your calendar:

March 3-7, 2002 Houstonian Hotel, Club & Spa Houston, Texas

If you have further questions or if you are interested in speaking at this event, joining discussions as a panelist, or becoming a sponsor, please contact Andrea Balfour at abalfour@prosRM.com.

READ THIS IMMEDIATELY - EMERGENCY - CODE & APPROVE ALL IPAYIT	
Sender	patrick.cagney@enron.com
Recipients	[chuck.andrews@enron.com, 'kylie.sharp@enron.com', 'gregory.adams@enron.com', 'wade.stubblefield@enron.com', ...]
File	ermis-f/inbox/56.

Everyone, It is crucial that before you leave the office today, all of the invoices in your iPayit Inbox be properly coded and then forwarded to Wade Stubblefield (EES' Chief Accounting Officer) for approval. The ISC is working as we speak to add Wade Stubblefield back into iPayit as someone you can forward to, in the meantime, just finish the coding of each invoice. If Wade's name is not added back to iPayit by the time you leave tonight, forward them to Wade first thing Monday morning.

If you need help coding the invoices, call us at the numbers below and we can have someone from our Financial Operations area help you.

Pat Cagney 3-9047 Kylie Sharp 5-3828

If you have a problem with the iPayit system or your ID/password, please contact the ISC Customer Care Group at 713 345-4752, option 3. (If you don't get a quick response, call me directly).

If needed, iPayit training materials can be found in the iPayit folder of the ISC's Document Center webpage (<http://isc.enron.com/site/doclibrary/user/default.asp>). Click on the iPayit folder on the left side of this webpage to display a list and description training items which include quick reference cards, an extensive user guide, etc.

Thank you, Patrick Cagney Phone 713 853-9047 EBN 1202

PROS Revenue Management Announces Record Quarter Q1 shows moves and advances

May 3, 2001--Houston-- PROS Revenue Management, the world's leader in revenue management science and software products, and the pioneer and dominant provider of revenue management to the airline and energy industries, today announced yet another record quarter.

PROS, record revenue for the first quarter of 2001 was \$8.7 million, a 56% increase over revenue for the same quarter last year. Additionally, this quarter continues to show strong profitability and positive cash flow, enhancing PROS, strong, debt-free balance sheet. This follows record annual revenues, positive cash flow, and profits in 2000.

PROS (Pricing Revenue Optimization Solutions) has grown in more than just its revenues and profits. Employment has increased 11% in the quarter and is projected to increase 25% by the midpoint of this year, continuing PROS, rapid employee growth rate of 28% in 2000.

"We are very pleased with the first quarter results, as they represent continuing client confidence in our high value solutions," says Bert Winemiller, Chairman and CEO of PROS Revenue Management. "During the first quarter, we also announced the successful implementation of the PROS Enterprise Revenue Management Platform. PROS Platform uses world leading science, forecasting and optimization to generate revenue and profits for PROS clients worldwide. The PROS Platform is high performance, distributed computing, using parallelized, highly scalable technology. This architecture will support the high performance, high availability, real time, mission critical applications of our clients. PROS, advanced architecture supports data intensive and calculation intensive, science based enterprise solutions."

Highlights of the first quarter of 2001 also include PROS, move of its corporate headquarters to the ComTech Center in midtown Houston. On April 30, PROS began occupying 73,000 sq ft of newly refurbished office space. This state-of-the art facility will assist in the support of PROS, expansion both internally and into other industries.

PROS Revenue Management is the world's leader in pricing and revenue optimization solutions and the pioneer and dominant provider of revenue management to the airline industry. PROS provides system solutions to the airline, cargo, rail, energy, healthcare and broadcast industries, and has delivered over 200 systems to more than 80 clients in 37 countries. PROS clients include 17 of the top 25 carriers in the airline industry.

The PROS mission is to maximize the revenue of each client using PROS, world-leading revenue management science, systems solutions, and best practices business consulting. PROS clients report annual incremental revenue increases of 6-8% as a result of revenue management. PROS, solutions forecast demand, optimize inventory, and provide dynamic pricing to maximize revenue.

Founded in 1985 in Houston, PROS Revenue Management has a six-year compounded revenue growth of 40%, in large part due to the intellectual capital of its staff. Nearly half of PROS, professional staff has advanced degrees and the staff speaks a cumulative total of 26 languages. The company is profitable with Year 2000 revenue of \$29 million. PROS Revenue Management Announces Record Third Quarter and Year-to-Date 2000

Major milestones, company records and client successes achieved

October 30, 2000-Houston- PROS Revenue Management, the world's leader in revenue management science and software, and the pioneer and dominant provider of revenue management to the airline and energy industries, today announced that the third quarter of 2000 was the company's most successful yet, with record revenues and profits. Third quarter revenue for 2000 was a 50% increase over the third quarter of 1999. Year-to-date revenue for 2000 approximates the full year revenue for 1999. Additionally, the first nine months of 2000 were cash flow positive and enhanced PROS' strong balance sheet. This follows record annual revenues and profits for 1999.

"During the third quarter of 2000 we achieved successful results in many key areas. Most important were science breakthroughs in network demand forecasting, scientific selection of inventory for e-commerce, and customer-centric

revenue management. Another milestone was the production cutover of our first energy products," says Bert Winemiller, Chairman, President and CEO of PROS Revenue Management. "Our goal is to be the first mover in a major new category of revenue management and we have the talent and financial resources to achieve this goal. The third quarter of this year proved to be another landmark with record revenues, record profits and the launch of new products in the energy market."

Major milestones of 2000 include:

- * The PROS 8th Annual Conference held in October was a huge success and is the largest revenue management conference in the world, with industry leaders, analysts and representatives from over 70 companies attending.
- * In the airline industry, PROS completed signed contracts with airline companies AirTran Airways, Avianca, Continental Airlines, China Southern Airlines, Gulfstream International, LanChile, Philippine Airlines, Swissair, Thai Airways and Virgin Atlantic.
- * Contracts were signed in the energy, rail, healthcare and broadcasting industries, including a major US gas pipeline company, German rail line Deutsche Bahn, one of the top ten pediatric hospitals in the world, and TV Azteca, one of Latin America's largest broadcasting companies.
- * PROS announced its first Application Service Provider (ASP) contracts for the healthcare and the energy industries.
- * PROS posted a record backlog as of September 30, 2000, and a record number of contracts signed in one year.
- * The PROS Advisory Board was formed in June, and consists of many industry leaders.
- * PROS announced a new e-commerce product, eCustomerRevenueManagement.
- * PROS' new Technical Services Group was formed, enhancing customer service.

About PROS Revenue Management

PROS Revenue Management provides system solutions to the airline, energy, cargo, rail, healthcare and broadcast industries, and has delivered over 180 systems to more than 82 clients in 25 countries. Recent contracts with clients include AirTran Airways (AMEX: AAI), Continental (NYSE: CAL), China Southern Airlines (NYSE: ZNH), LanChile (SGO: LAN.SN), Swissair (SWX: SAG), Virgin Atlantic (NasdaqNM: VIRGY) and TV Azteca (NYSE: TZA).

The PROS mission is to maximize the revenue of each client using PROS' world-leading revenue management science, systems solutions and best practices business consulting. PROS clients report annual incremental revenue increases of 2-8% as a result of revenue management. PROS solutions forecast demand, optimize inventory and provide dynamic pricing to maximize revenue.

Founded in 1985 in Houston, PROS Revenue Management has a five-year compounded revenue growth of 40%, in large part due to the intellectual capital of its staff. Over fifty percent of PROS professional employees have advanced degrees and the staff speaks a total of 26 languages. For more information on PROS Revenue Management, please visit www.prosRM.com.
