Weekend Activities

Sender	tom.acton@enron.com
Recipients	['robert.cotten@enron.com', 'lauri.allen@enron.com', 'clem.cernosek@enron.com']
File	farmer-d/logistics/2007.

Here is the weekend calls

Sat. Dec 23

9:45 am Bruce at PG&E called with some cuts. I called Eddie and informed per his request due to the deep cut at 9g96. 9gd5 was cut from 16495 to 16488. They parked the cut for us. 9g96 was cut from 45000 to 38092. Bruce and Eddie worked out a deal on that.

10:00am Daren Farmer called requesting that we move the miles/Bayer gas from the plants at meters 988056 and 981550 to the Katy tail gate due to wet gas. I called Lee Papayoti and Rick Tiotrowski from Bayer to inform of the move and to get Bayer to nom with Midcon. Called Jackie Young and she was already and her way to the office for other reasons and she kindly renomed and resent the nom the tailgate for me . THANK YOU JACKIE FOR YOUR KINDNESS.

10:20am Bruce at PG&E called again with some cuts at Channel due to El Paso.

980584 Agua Dulce was cut from (on the channel transport) 21964 to 16884 for a new point total of 50156. Old point total was 45076. Called Gas Control and asked them to call channel's gas control and confirm. Called Sabrae to inform.

3:30 pm Bruce Called again with more cuts 980584 Aqua Dulce as cut again on the channel transport. 16884 was cut to 16275 for a new point total 50765. Called Gas Control and informed of the cuts and asked them to call Channel's Gas Control WHO 34 was cut from 38092 to 37412. They parked 4575 for us. Called Eddie to inform. Sun. Dec 24

9:30am Bruce from PGE called with the cuts. WHO34 was cut from 16495 to 16358 Bruce matched the cut on the receipt 9g96 was cut from 45000 to 41298 the cut was parked 980584 Aqua Dulce was cut from 21964 to 8000 for new point total of 59040.(channel transport) 986040 Riverside was cut from 13964 to 12930 fro a new point total of 38061(channel transport). Gas Control was called on both these meters and informed of the new numbers and asked to call Channels Gas Control to confirm.

10:00am Sam from Gas Control called and informed me that the Bayer plants didn't want to take any gas from HPL due to the water content. The tail gate still had the intraday change in place and so does Midcon apparently so were rolling the move another day. Lee said yesterday that he didn't care were they get the gas. We will true up pops for the tailgate on TUES.

3:30pm Bruce PGE cutl again. 9dwe was cut from 10000 down to 6988 9g96 was cut from 45000 down to the 41298 Bruce parked the gas for us.

Mon. Dec. 25

9:30 am Cindy PGE called with the cuts. 9gd5 was cut from 16495 down to 16259 9g96 was cut from 45000 to 43127 980584 Aqua Dulce was cut an the channel transport form 21964 to 11864. New point total was 55176. Called Gas Control and informed them of the new total and asked them to confirm with Channel's gas control. 10:00 pm Again Sam called and said we need to keep Milles/Bayer at the Tail gate due to high water content. So we did. We will need to update pops.

1:00 pm Marilyn from Oasis called with some cuts. A 10000 and a 5000 package was cut going to ANP TA0020. I called Mark and he said t I move the 10000 back haul to HPL which I did. The 5000 Duke gas we moved over to 5896 and will move to back to HPL on our 202 contract. Marilyn said there will be a 1% fuel and a 4 cent change but we could pay the fuel at another time or use it against the imbalance so she confirmed the full 5000. New meter total is 49765.

4:00pm Cindy PGE called with more cuts 96d5 was cut from 16259 to 16100 9g96 was cut from 45000 to 36215. Cindy said that they would not park the gas this time for us. I called Eddie to inform and he said he would call Cindy and dazzle

her with his charm and wit and fix the problem. Well that didn't work so we ended up moving it from TECO on the Mid TEX line to 8740 on HPL.

I'll now be including Gayla on these e-mails because she has agreed to write brief profiles of each new family for the bulletin.

Here are the First Friends candidates from this week (please remember to tell me what assignments you made so I can track that with my new member data - Thanks!)

Jeanna Bent 8002 Fonthill Dr Spring, TX 77379 281-376-4470 (Champion Oaks)

Michael and Jeanna are both CPA's. They have a 7-year-old son named Mason. Michael's company will be relocating to New Hampshire in the fall, but he does not want to move, so he will be looking for a new job soon. Michael was just baptized two weeks ago after studying with Gerald Bendele. He was raised in a Catholic background. I believe Jeanna has been a Christian for some time.

Sandra Caballero 19707 Rackingham Humble, TX 77338 281-540-2331

Don & Sandra are transferring membership from Hidden Valley C of C. Prior to that they attended Katy for several years. Don works at Compaq and Sandra is at Clark Electric and Spring ISD. They have a 16 year old son named Daniel at Spring H.S. and an 18 year old daughter named Amanda at North Harris Community College.

Vickie Gonsoulin 15718 Falling Creek Houston, TX 77068 281-444-8157 (h) (Oak Creek)

Vickie and Bill are transferring from the Magnolia church. They have a son named Dustin who is a junior in high school. He participated with Bammel's LTC program even before they placed membership here. They also have an older, married son. Bill grew up in this area. In fact, Ron Anders was his football coach.

Class Party CAPTURE THE FLAG

Date: Friday, Oct. 26th Time: 6:30 p.m. - ? Location: Angie's parent's land (30202 Dobbin Huffsmith, Magnolia 77354)
Cost: \$3 per couple (pitch in when you get there) Food: Frito Pie and hot dogs (feel free to bring any extra snacks) Attire: All dark clothes from head to toe; definitely not a fashion show Bring: (opt.) lawn chair, bug spray Contact: Bob and Angie Burgess @ 281-296-0182 cell 281-788-6353 (John & Opal Singletary @ 281-356-2692)

Instead of going to the haunted house, we decided to do something where everyone could be involved. The weather is going to be nice and cool, so the plan is to have a fire, eat and then play "Capture the Flag". We will divide into two teams and then each team hides their opponent's flag somewhere on their side. The goal of the game is to find your team's flag and bring it safely back to your side. Of course, it will be dark and you have to be sneaky, because if you get caught on your opponent's side, then you have to wait until you are freed. It is a very fun game, but even more entertaining will be to see different sides of people's personalities. If you aren't up to playing the game, then please feel free to hang out around the fire and just yack for hours.

General Location: north of 2920, between Stuebner Airline and Tomball

Starting point: Stuebner Airline and 2920 Directions: Go west on 2920, towards Tomball Go North on 2978, which is at a light, gas stations on both sides (if you've gone into town, then you've missed it.) Drive several miles and take a left at the 3rd stoplight, which is Hardin Store Road (there is a big horse statue at this corner) Go about one mile and take a right at first stoplight, which is Dobbin Huffsmith. Go about two miles, as soon as you pass two convenience stores, my parent's house will be about the 5th driveway on the right. the address is on the mailbox-30202 Dobbin Huffsmith.

Pull in their first driveway and drive back through the first gate and park by the barn. You'll see us.

Starting point: 249 and 2920 Directions: Go north on 249 towards Magnolia. After you pass a long bridge, Take a right on "Stagecoach", which is at a light. This road will automatically turn into Hardin Store Road. Stay on this road for several

miles. Take a left on "Dobbin Huffsmith", which is at a light. Go about two miles, as soon as you pass two convenience stores, my parent's house will be about the 5th driveway on the right. the address is on the mailbox-30202 Dobbin Huffsmith.

Pull in their first driveway and drive back through the first gate and park by the barn. You'll see us.

If you are coming from The Woodlands, call me and I will give you directions for a shorter way.

You may want to go to www.mapquest.com and find the location via their website.

Name Overlays 05/13/02

Sender	cheryl.johnson@enron.com
Recipients	['chris.abel@enron.com', 'laurel.adams@enron.com']
File	farmer-d/inbox/1.

The following name overlays were completed in GCP this morning. I have been unable to update the report in Livelink, due to technical problems, which will hopefully be resolved tomorrow, May 14. If additional information is required in the meantime, please contact me.

These changes are as a result of a merger between PanCanadian Energy Corporation and Alberta Energy Corporation Ltd., effective 04/05/02. The combined entity was renamed EnCana Corporation.

CP ID FROM TO Effective Date 58009 AEC Marketing (USA) Inc. EnCana Marketing (USA) Inc. 04/08/02 58736 AEC Oil & Gas Partnership EnCana Oil & Gas Partnership 04/08/02 72509 AEC Storage and Hub Services Inc. EnCana Gas Storage Inc. 04/08/02 49597 AEC West Ltd. EnCana West Ltd. 04/05/02 90432 PanCanadian Energy Holdings Inc. EnCana Energy Holdings Inc. 04/08/02

Please note: PanCanadian Energy Corporation did not previously exist as a global counterparty record. Alberta Energy Corporation Ltd. still exists in that name, as a subsidiary of EnCana Corporation. EnCana Corporation was created as a non-trading entity in GCP under CP ID 200474.

Shortname changes will be coordinated with ERMS IT on Friday, May 17.

Hello friends,

Leslie and I have a sleeper sofa, a real sturdy and heavy one, that we are wanting to get rid of. It has a very comfortable bed and would be great for an extra room in the house. It is in great condition other than some cat claws in the arms...done before I cut out the claws.

I have pictures I can e mail if you are interested. We will give it away or sell it to the highest bidder!

Enron North American

Daren Farmer

1400 Smith Street

Houston, Texas 77002

Thank you for your bid. CPS is currently evaluating all bids. Part of this process includes (where needed) clarification/confirmation of the bids. We emphasize we are not seeking nor can we accept any change of bids. Our understanding of the your bid reflects (in part):

* unbundled gas supply, 5 year term:

- to Waha, Agua Dulce, or Thompsonville; up to 15,000 MMBtu/d, at stated bid prices; firm baseload (no nomination)

* bundled gas supply, 5 year term:

- to CPS-Karnes or CPS/El Paso; up to 15,000 MMBtu/d, at stated bid prices; firm baseload (no nomination).

CPS needs clarification of total volumes available combining maximum unbundled and bundled gas supply. We may have other questions as we continue our evaluation. We look forward to your response. Please respond via email to me and all parties in the "Cc" box above, or by fax to Ms. Trisha Wiatrek at 210-353-3060 and copied to Barry Williams. Again, thank you for your bid.

Sincerely,

Barry S Williams Geologist City Public Service PO Box 1771/145 Navarro San Antonio, TX 78296 210-353-2876

My November Real Estate News Update

Sender	iona@garygreene.com
Recipients	[iona@ionaalphonso.com]
File	farmer-d/all_documents/313.

Hi There,

November is here and it is time to give thanks. As the year is drawing to a close there is much to be thankful for. Thank you for your business and your continued support of my business with referrals and support.

Once again, I am having a drawing for a free turkey for your Thanksgiving dinner. Write, phone, or e-mail me with your entry by November 18th, 2000. Your chances of winning are excellent.

My new newsletter is now available from the hyperlinks below. Please check it out and I can answer any questions you might have.

This month's issue includes topics such as:

.To stretch or not to stretch, that is the question .Pre-approval versus pre-qualification,Is there a difference. .Should I take my home off the market during the holidays .Is your neighborhood kid-friendly .Steel forges new role in home building

File	farmer-d/all_documents/461.

Hello Again,

My Monthly Newsletter is attached. Please read it and let me know your comments.

According to a survey taken by HomeGain, homesellers hoping to turn a bigger profit by making home improvements would do best to stick to moderately priced projects. The survey of real estate agents from across the nation found that home improvements in the \$80 to \$2,800 range yield the highest rate of return when the home sells. The biggest return is on simple lightening and brightening, which typically costs about \$80-\$100 and gives an average return of 769% on the sale price. Other big winners were cleaning and de-cluttering (cost=\$305-\$339;; return=594%), landscaping and trimming (cost \$432-\$506; return=266%), and fixing, plumbing and electrical (cost \$338-\$381; return=196%).

Here is the link to my October newsletter:

From: "Iona Alphonso" <ialphonso@garygreene.com>@ENRON Sent: Tuesday, October 02, 2001 8:47 PM To: iona@garygreene.com Subject: October Real Estate Newsletter

Dear Friends,

Cannot believe that we have just entered the fourth quarter of this year. Halloween, Thanksgiving, Christmas & then 2002.

It has been a busy year and if interest rates keep going lower, and stay low for a while, that should stimulate the economy and the real estate sector as a whole.

Please go out and make the purchases you were planning to make and contribute to stimulating the economy.

My October newsletter follows and I hope you enjoy reading it. Here is a link to my "October Real Estate Update":

<http://homeownernews.com/35/IonaAlphonso>

AOL Users: <a href=<http://homeownernews.com/35/IonaAlphonso>> Click Here

This newsletter is full of interesting and useful information that I think you will enjoy whether you are a buyer, seller, homeowner, or renter.

This month's issue includes topics such as:

"How To Re-Finance With An Eye Toward Future Rates"; "Getting the Most From Your Home Inspection"; "Charitable Contributions"; "Why Do You Need So Many Reports?"; "Moving Tips Ease Your Pain";

Plus a roundup of September real estate activity as well as much more advice and information.

I hope you enjoy this monthly newsletter. If you have any comments, please e-mail them to me. Or, if you would like to see a certain topic covered in future months, let me know that too!

If you do not wish to receive this newsletter each month, please reply to this e-mail with the word 'REMOVE' in the subject line.

Sincerely,

IONA ALPHONSO

-----Original Message-----

From: Dudley, Cheryl Sent: Friday, June 15, 2001 7:20 AM To: Lambert, Karen Cc: Bryan, Linda S.; Huthmacher, Tammie; aalland@aep.com Subject: Re: FW: 05/01 ENA Gas Sales on HPL, to D & H Gas Company

The contract (96007529) should have expired under ENA, but because of the timing of the expiration, it got "assigned" to AEP/HPL (96060798). Therefore, for informational/historical purposes, I extended the term under 96060798 thru 5/31/01.

Someone from Linda's group will have to extend the term under the original contract in order for the deal to be attached.

From: Karen Lambert/ENRON@enronXgate on 06/14/2001 04:34 PM To: Linda S Bryan/ENRON@enronXgate, Cheryl Dudley/HOU/ECT@ECT cc: Tammie Huthmacher/ENRON@enronXgate

(Embedded image moved (Embedded image moved to file: pic00491.pcx) to file: pic09961.pcx)

Julie - Need your help again.... D&H gas Company, faxed their 05/01 volume support for HPL Meter 428 (980428), whihc reflects ENA gas sales to D&H for 5/11/01, 143 mmbtu and 5/31/01 for 286 mmbtu for a total of 429 mmbtu for 05/01. he deal last month (04/01), was SA-70120. I don't have see a sales draft under ENA or HPL for 05/01 sales to D&H, nor do I see any 05/01 sales deal under SA-70120.

Can you assist me in finding out if there was a sale to D&H in 05/01, and if so, what is the deal number and where is sales draft?

Thanks! Tess

Dear Jerry,

Thank you for requesting more information from Quicken Loans through our website. We are excited to have this chance to demonstrate our world-class customer service to you.

I made an initial attempt to contact you to gather the additional information required to process your application but have not been able to get through. Please reply to this message with the best time to call and the phone number you would like me to use.

If it is more convenient, you can also call me direct at 800.226.6308 Ext. 57531. Our phone lines are open Monday-Thursday, 8:00 am - 9:00 pm, Friday, 8:00 am - 7:00 pm and Saturday, 10:00 am - 4:00 pm (all times Eastern). If I am not available, one of the other loan consultants on my team will be happy to assist you.

Interest rates change daily. For the latest rates on our many programs you can call anytime. I look forward to working with you to complete your application.

Sincerely,

Daniel Jenuwine Mortgage Banker Phone: 800.226.6308 Ext. 57531 Email: daniel_jenuwine@quickenloans.com

*Message 19 of 111***Falcon/Lone Star transport**

Sender	miguel.vasquez@enron.com
Recipients	[brian.redmond@enron.com', 'eric.boyd@enron.com', 'j..farmer@enron.com']
File	farmer-d/term_proposals/6.

Darren,

I joined Brian Redmond on his visit a few weeks ago to Sid Richardson. During that visit SR indicated that they have firm Lone Star transport that they want to sell (only details I know at this time is that it is 45MM/D point to point on a true firm basis). I believe we could use this transport to back stop the Falcon transaction (parking gas in their facility Oct/Nov 01 - Jan 04). I spoke with the folks at SR today and indicated that we want to know more details about the sale to see if we could garner interest internally. They gave me the name of a person in their shop who would be right person to talk to about the details. I understand you would be the right person to a). bounce this idea off of and b). if there is an interest on this transport I presume you would be the best person to get the details on this transport from SR.

The name of the person to talk to at SR is Scott Walker (817.810.9385).

I'd like to touch base with about this.

Thanks Miguel E. Vasquez Manager -- Enron Storage Products 1400 Smith Street Houston, TX 77002

Sender	byronellis@usa.net
Recipients	['byronellis@usa.net']
File	farmer-d/deleted_items/223.

Hello again. Thanks to those of you that have RSVP'd for our event. If you haven't and you would like to attend, please let us know. We would love to have you join us!

After what had already been a difficult year for you as an investor, the tragic September 11 events only added to our concern for financial recovery. While we certainly can't control events around us and the impact they have on our investments, it is still important to remember that we must look past short-term effects on the markets and think of our long-term goals.

We would like to invite you to join us for an evening out to talk candidly about how we all must feel right now, the current market conditions, and steps that we need to take to help us reach our financial goals.

We will address The Three E's - Emotions, Expectations and Economics:

? How to cope with investment emotions ? Education on asset allocation ? Education on long-term investing

Please join us for our Market Outlook Seminar, to be held on Tuesday October 30th from 6:30 to 7:45 at Romano's Macaroni Grill at 1155 Lake Woodlands Drive in The Woodlands. We encourage you to bring a guest - in fact, we will have drawings for some free giveaways for clients that bring guests!

You will have the opportunity to hear Allen Kuhn, Regional Vice President of Franklin Templeton Investments, discuss the current market and what you need to be aware of for the future. Also, we have a new assistant for you to meet, Karen. Karen came to work with us last October. Some of you may have already had an opportunity to talk with her.

Call Kathy at 281.367.8658 ext. 2234 soon to make your reservations, since seats are limited. I look forward to seeing you soon.

Byron W. Ellis

Hello friends,

Leslie and I have a sleeper sofa, a real sturdy and heavy one, that we are wanting to get rid of. It has a very comfortable bed and would be great for an extra room in the house. It is in great condition other than some cat claws in the arms...done before I cut out the claws.

I have pictures I can e mail if you are interested. We will give it away or sell it to the highest bidder!

Please respond to Great idea, Byron!

Everybody,

I've created a new moderated list at <http://BammelYoungFamilies.listbot.com/>

If you are interested in hearing info (from anyone, not just me) about the Bammel Road Young Families class, please go to the address above to subscribe to the list.

It's free.

Then, if you have anything that you want to share with the class, just e-mail it to BammelYoungFamilies@listbot.com.

-Ram.

Thank you for selecting QuickenLoans!

Sender	daniel_jenuwine@quickenloans.com
Recipients	[dfarmer@enron.com]
File	farmer-d/all_documents/3549.

Hello Jerry,

Thank you for submitting your loan information to QuickenLoans. All of the information you provided will be kept strictly confidential. My name is Daniel Jenuwine, and I have been assigned to be your personal Mortgage Banker.

Your application number is: 4611454237 Please keep this number handy when corresponding with us regarding your loan application.

So what happens next?

1. I will be contacting you within 24 hours* to introduce myself and review your information with you. 2. Your application will then be submitted to our RocketLoan system for a quick approval. 3. I will request the documentation required to meet the conditions of your approval. 4. We will deliver your loan package containing your application and written confirmation of your loan terms to you within 48 hours.

If you have any questions please email me at daniel_jenuwine@quickenloans.com, or call 1-800-226-6308 and ask for Daniel Jenuwine.

*Hours of operation for our QuickenLoans Customer Service Center are 8:00a.m. - 9:00p.m.(EST) Monday-Thursday, 8:00a.m. - 7:00p.m.(EST) Friday, and 10:00a.m. - 4:00p.m.(EST) Saturday. All applications submitted after hours will be handled the next working business day.

Have a great day!

Daniel Jenuwine Quicken Loans Phone: 1-800-226-6308 Extension 57531 Email: daniel_jenuwine@quickenloans.com

From: Farmer, Daren J. Sent: Thursday, August 16, 2001 1:43 PM To: Ogunbunmi, Hakeem Subject: FW: TUFCO Deal 108058

Hakeem,

Have you determined the volume flow to Tufco for 4/30/01?

D

-----Original Message-----

From: Majorwitz, Buddy Sent: Wednesday, August 15, 2001 1:43 PM To: Farmer, Daren J. Cc: Ogunbunmi, Hakeem; Baxter, Bryce; Schumack, Sherlyn Subject: FW: TUF CO Deal 108058

Darin,

Since the volume on this ENA deal is on PGEV (EPGT Texas) Pipeline, the ENA Volume Management contact is Hakeem Ogunbunmi. His number is X-31801 and he has been cc'd on this note.

FYI - ENA Volume Management has assumed all of the volume duties associated with all Texas deals that are not specifically on Houston Pipe Line. For those on Houston Pipe Line, I will still be the contact. If you have any questions, please let me know.

Buddy X-31933

Re: Saudi Arabia

Sender	samir.salama@enron.com
Recipients	[rob.stewart@enron.com']
File	farmer-d/all_documents/1248.

I spoke to Mr. Maldonado this morning and it doesn't look good. He claims he has a connection to the Minister of "Energy" who will allocate gas to him. I asked where would the gas be delivered, and he said anywhere you want it. Short term or long term? Again, anything you want, but probably long term is better.

I pointed out that there isn't an Energy Minister in Saudi and would he know the name of the Minister whose giving him the gas? He stumbled and couldn't remember the name.

Finally he said "What do you have to lose? Just send me a letter requesting gas with the specs, location and duration" and he'll do his best to get it.

If you want to try it Rob, he's all yours. His fax number is 562/866-7368, address 16276 Grand Avenue, Bellflower, CA 90706.

Regards,

Samir

What is the market doing now

Sender	byronellis@usa.net
Recipients	[byron.w.ellis@aexp.com]
File	farmer-d/deleted_items/61.

The stock market sprang back a bit this spring in April and earlier in May. And while the market gave back those gains at the end of May, we're still positive about prospects for the rest of 2001. Here's how things look for the year and recent month:

6/1/00 1/2/01 5/1/01 5/31/01 % chg. Yr. % chg. YTD % chg. May '01 Dow Jones 10,652 10,787 10,898 10,912 2% 1% 0%
S&P 500 1,449 1,320 1,266 1,256 -13% -5% -1% Nasdaq 3,582 2,471 2,168 2,110 -41% -15% -3% * does not include
reinvested dividends

Dan Laufenberg, American Express Financial Corporation's chief economist, says investors have several reasons to be optimistic long term. These include:

* Continued interest rate cuts - The Federal Reserve cut rates yet another half a percent in May, for a total reduction of 2.50% so far this year. Historically, such cuts have taken a few months to affect the economy and market - but the eventual result has often been a substantial upturn for both.

* Newly passed tax cuts - Congress has passed a \$1.35 trillion, wide-ranging tax-cut package that should put extra dollars into U.S. consumers' pockets soon. That, in turn, could eventually boost corporate profits and stock prices.

* Signs of a strengthening economy - The upturn in stocks this spring, continued rate cuts and the prospect of lower taxes all helped boost consumer confidence in May. The New York-based Conference Board said its Consumer Confidence Index jumped in May to 115.5 from 109.9 - more than economists expected. The rise in confidence is important since consumers are a major driver of the U.S. economy.

Dan Laufenberg says these positive developments support his forecast of stronger economic growth - and potential stock market improvement - through the rest of the year. However, he adds that the economy remains vulnerable and volatility could continue, so a long-term investment focus is best.

I'll keep you informed as economic and market developments continue. Thank you for your loyalty and understanding as we ride out this market correction.

Best regards,

"Make all you can, save all you can, give all you can."

Any interest?? ----- Forwarded by Brenda F Herod/HOU/ECT on 04/26/2000 11:41 AM -----

Alexus Rhone@ENRON 04/26/2000 11:22 AM To: cc: (bcc: Brenda F Herod/HOU/ECT) Subject: Sean Wells Resume

Are you interested in considering summer employment for college students? If so, attached is a resume for Sean Wells. Sean is a University of North Texas student interested in building his energy industry background. If you're interested, please let me know. Thanks.

ar/33202 ----- Forwarded by Alexis Rhone/Corp/Enron on 04/26/2000 11:20 AM -----

All,

Intern referral from Mike McConnell. Not sure his background/education is a fit for Technology? Maybe other groups are looking for summer interns with some energy related experience. He worked last summer at Dynegy in gas control and scheduling.

Please let me know if you have any interest.

Thanks,

Robert

----- Forwarded by Mike McConnell/HOU/ECT on 04/25/2000

Rollins50@aol.com on 04/20/2000 05:09:59 PM To: mike.mcconnell@enron.com cc: Subject: Sean Wells Resume

Mr. Mike McConnell Chief Executive Officer Global Technology Enron Corp. 1400 Smith Street Houston, TX 77002

Subject: Resume for Summer Internship

April 20, 2000

Dear Mr. McConnell:

Thank you for taking the time to consider this resume for a possible summer internship with Enron. I understand that you have spoken to my father, Scott Wells at Texaco, and he has informed me that Enron accepts interns only when a department asks for one.

I'd like to continue my education in the energy industry for a second summer. I interned for Dynegy last summer and learned many new concepts and terms for working in the gas industry. I worked on the trading floor as a gas scheduler, and after only a month I was controlling the northeast CNG pipeline. This helped because I really got to learn were many of the northeast pipes are located and different pooling and connecting points.

Other responsibilities were inputting numbers into the morning spreadsheet of the gas bought and sold that morning. Throughout the day I would work on projects they needed completed and attend meetings that pertained to the trading floor. It was all a great learning experience for me and I hope to use my knowledge again this summer for Enron.

I would appreciate your help in forwarding my resume to the proper Human Resource personnel so that I might be able to contact him or her in hopes of a future internship possibility. I will be available to have a start date of May 15th and be available for employment until school resumes in late August. Thank you for your time, and I look forward to hearing from someone in your company at his/her earliest convenience. Please feel free to call me at 940-323-0891, or email me at

Rollins50@aol.com.

Sincerely-

Sean Wells

Lee Steely MD; Rktf@aol.com; Trofholz, Elizabrth A; Andy Andrau; Charles Cusack; Ethelyn Kuldell; Julie Zinck; Lisa Kern; Marcie Dasher; Marco Lopez; Mona Manchester Subject: FWD: Too funny not to send

Subject: Press Release from Kyle Field

College Station, TX (AP) - R.C. Slocum and the Texas A&M Aggies are demanding a recount of the game in which Oklahoma won 35 to 31. "The end zones were confusing," says Slocum. "I'm sure that some of the touchdowns that went in Oklahoma's end zone were meant to go into ours. We were scoring in those end zones also. Oklahoma would never have scored thirty-five points. There's no way we lost this one. A&M demands a recount."

Oklahoma officials are calling this "outrageous". "They agreed to the size, shape and locations of the end zones prior to kick-off," replies OU coach Bob Stoops. "If they had a problem with them, they should have said so before we started. You don't get to keep playing until you're happy with the outcome. Someone had to lose. We've scored over thirty-five points many times."

A&M has sent lawyers, farmers, and those guys in the funny boots as well as that damn dog down to Kyle Field, where the scoreboard will be tested. "We are confident that when the points are re-totaled, we will be the winner of the game," says Slocum.

OU also points out that in many games prior to this one, the same end zones were used. "They didn't have a problem with the end zones until they lost," says Stoops.

Outside of Kyle Field, A&M student protesters have gathered outside bearing signs such as, "A&M wants a fair game! WHOOOOOOP!" Students' thoughts echoed their signs. "All we want is a fair total of the points before we declare a winner," says student Karen Hays, an aggie from Marfa. "We need to proceed cautiously and not rush to judgment before we declare a winner."

ABC, around 2:00pm central time, had mistakenly declared A&M the winner, despite the slim 3 point lead the Aggies held at that point. At about 2:30 pm, with the game still too close to call, ABC had to back off its prediction.

College Football analyst Brent Musburger made the call. "We felt that with a number of points still not added in by Jamaar Tombs and the Aggies, we were certain A&M would carry this game. We may have been premature in our prediction."

New tax law update

Sender	byronellis@usa.net
Recipients	['venette@flash.net', 'hblunk@txucom.net', 'alanj@hiway.spring.isd.tenet.edu']
File	farmer-d/deleted_items/personal/47.

Whether you're investing for your kids' education or your retirement, the new federal tax law may make your goals easier to reach. The \$1.35-trillion tax relief package could affect your finances in many areas, from investing for college and retirement to managing income and estate taxes.

Many of the tax cuts will phase in gradually over the next several years. But to help you take advantage of all possible provisions, we should start planning soon. Some of the ways you may benefit include:

Lower income tax rates. The gradual reduction of tax rates has already begun. In fact, the new withholding schedule went into effect on July 1. And, you should receive a tax rebate check soon due to the creation of a new 10% bottom rate retroactive to January 1, 2001. As tax rates fall over the next few years, your disposable income will likely rise - offering an opportunity to invest more toward your various goals.

Education-funding incentives. Parents who want to help their children attend college may now find their financial task easier. The tax relief act will improve education savings tools such as:

? **Education IRAs** - The accounts' contribution limit will rise from \$500 to \$2,000 in 2002. What's more, money in these accounts can now be used for elementary and secondary school costs in addition to higher education expenses.

? **State sponsored 529 college savings plans** - Also beginning in 2002, distributions from these plans for qualified education expenses will be tax free. Currently earnings in the accounts are deferred and taxed at the beneficiary's rate upon withdrawal. 529s are particularly attractive due to their generous contribution limits.

? **Deductions for education expenses** - The act increases eligibility for student loan interest deductions and it creates a new deduction for higher education expenses.

? **The Child Tax Credit** - Though not tied specifically to education expenses, this credit will provide increasing help to parents investing for college. Previously \$500 per qualifying child under 17, the credit increases to \$600 in 2001-2004, \$700 in 2005-2008, \$800 in 2009 and \$1,000 in 2010 and thereafter.

Higher retirement plan contribution limits. The tax act will allow people with earned income to invest more in retirement plans and IRAs - possibly helping them retire sooner and more comfortably. Your options may include:

? **Traditional and Roth IRAs** - Annual contribution limits for both of these types of IRAs will gradually rise from \$2,000 this year to \$5,000 in 2008. After that, the limits will be indexed to inflation in \$500 increments.

? **401(k)s and 403(b)s** - Working individuals also may be able to invest more in their employer retirement plan. The limit on elective deferrals will gradually rise from \$10,500 this year to \$15,000 in 2006, and this doesn't include the catch-up contribution provision for people 50 years and older.

And much more. There are other provisions in the new tax law that may benefit you and your family. When we meet, we'll identify the ones that apply to you and help you make the most of them.

As you can see, the new tax law provides meaningful tax savings in a number of areas. But because the changes will be phased in gradually - and some are set to expire after 2010 without reauthorization - your planning must be flexible enough to react to year-by-year changes.

Such planning is where American Express Financial Advisors excels. I'm backed by a corporate team of specialists in taxation, investments, estate and retirement planning, and more to help you make the most of your finances.

Let me know if you have any questions. I look forward to seeing you. Byron

"Make all you can, save all you can, give all you can."

Subject: Amen

A little something to make us think about the impact we might make on our world if only we would be willing to try!

OPENING PRAYER -- KANSAS STATE SENATE Thought you might enjoy this interesting prayer given in KANSAS at the opening session of their Senate. It seems prayer still upsets some people.

When Minister Joe Wright was asked to open the new session of the KANSAS SENATE, everyone was expecting the usual generalities, but this is what they heard:

Subject: Amen

A little something to make us think about the impact we might make on our world if only we would be willing to try!

OPENING PRAYER -- KANSAS STATE SENATE Thought you might enjoy this interesting prayer given in KANSAS at the opening session of their Senate. It seems prayer still upsets some people.

When Minister Joe Wright was asked to open the new session of the KANSAS SENATE, everyone was expecting the usual generalities, but this is what they heard:

" Heavenly Father, we come before you today to ask your forgiveness and to seek your direction and guidance.

We know Your Word says, "Woe to those who call evil good", but that is exactly what we have done.

We have lost our spiritual equilibrium and reversed our values. We confess that.

We have ridiculed the absolute truth of Your Word and called it Pluralism.

We have exploited the poor and called it the lottery,

We have rewarded laziness and called it welfare,

We have killed our unborn and called it choice,

We have shot abortionists and called it justifiable,

We have neglected to discipline our children and called it building self-esteem,

We have abused power and called it politics,

We have coveted our neighbor's possessions and called it ambition,

We have polluted the air with profanity and pornography and called it freedom of statement,

We have ridiculed the time-honored values of our forefathers and called it enlightenment.

Search us, Oh, God, and know our hearts today; cleanse us from every sin and set us free. Guide and bless these men and women who have been sent to direct us to the center of Your will and to openly ask these things in the name of Your Son, the living Savior, Jesus Christ. " Amen.!! "

The response was immediate. A number of legislators walked out during the prayer in protest. In 6 short weeks, Central Christian Church, where Rev. Wright is pastor, logged more than 5,000 phone calls with only 47 of those calls responding negatively. The church is now receiving international requests for copies of this prayer from India, Africa, and Korea. Commentator Paul Harvey aired this prayer on his radio program, " The Rest of the Story ", and received a larger response to this program than any other he has ever aired. With the Lord's help, may this prayer sweep over our nation and wholeheartedly become our desire so that we again can be called, " one nation under God. " If possible, please pass this prayer on to your friends. Think about this: If you forward this prayer to everyone on your email list in less than 30 days it would be heard by the world.

All,

For those of you who have not responded to the prior parking email, please take a moment in doing do, as I am trying to get a firmed up number for future parking in our new building @ 1201 Louisiana. I need to get the name of the garage that you are currently parking in. This would include those of you that ride the bus, participate in the vanpool or park on a surface lot. Thank you in advance for your cooperation.

Regards,

Dena Pawlowski ENRON North America 1400 Smith Street Houston, Texas 77002 Office: 713-853-5073 Pager: 281-631-1310

Samantha, Please schedule an interview with this candidate, Mark McCoy 713-369-9281 for Monday January 24th. I would like him to interview with Daren Farmer, Gary Hanks, and yourself. I have already met with him outside of the office. He will also need some sort of briefing on benefits if that is possible. Please let me know if this is ok. Also keep in mind that he is currently employed and has limited flexibility. I believe that the date, January 24th is a good day for him. I will be out of the office on jury duty but I don't think that will be a problem. Thanks, Pat Clynes 35578

Resume is attached.

The Houston Expl Dec 2000

Sender	megan.parker@enron.com
Recipients	[j..farmer@enron.com]
File	farmer-d/logistics/90.

Darren: Elizabeth Hernandez fixed this deal for me. I don't need for you to look i= nto it. Thanks anyway. -----

Forwarded by Megan Parker/Corp/Enron on 07/27/2001 0= 1:46 PM ----- =20

=09 From: Megan Parker 07/19/2001 10:27 AM=09 =09=09

To:=09Daren J Farmer/Enron@EnronXGate cc:=09=20

Subject:=09The Houston Expl Dec 2000

Daren: I'm not sure if you can help me, but I have a Danny Conner deal from Decemb= er 2000 that has a price issue. =20

We were buying gas from The Houston Exploration Company on Black Marlin, Hi= gh Island 138/HPL meter 98663, deal 508426. The deal was priced at HSC - 0= .14. In December, a new platform came on, High Island 115/HPL meter 986431= . It did not start flowing until the 20th. Danny did not put a new deal i= n for this meter, so we combined the gas on deal 508426. The Houston Explo= ration thinks that the gas at HI 115 should be kept separate and priced at = HSC GD - 0.14 since it did not begin flowing until the 20th. We agree that= we received the gas. We have the pipeline statement from Black Marlin. W= e just don't have the same pricing. The Houston Exploration shows that we = owe them an additional \$222k due to this price difference. We only purchas= ed this gas in Dec 2000 and Jan 2001. The deal for Jan, 547063, was priced= at GD - 0.14. Can you verify how this deal should be priced? I sent this= issue to Danny back in January and he said the IF price was correct, but T= he Houston Exploration is sticking to their price. If you need to talk to

= their trader, his name is Lester Lipperdt 713-830-6960.

Megan

Charlotte Hawkins should be able to help you with this.

From: Stephanie Gomes 04/13/2000 09:38 AM

To: Daren J Farmer/HOU/ECT@ECT cc: Subject: Aspect Resources- meter # 78033, #78032 - 3/00 production

Daren, I'm not sure if you are the person that can make this change for me. If you are not, could you please let me know who I need to speak to. For meter # 78033 and # 78032 for 3/00 production forward, this deal is set up under the wrong Sitara #, therefore the volumes are not pulling in Sitara. The sitara # that it is currently attached to is # 149421 which this deal was only for 1/00 production. The new Sitara number that we should be using is Sitara # 156387 (for meter # 78033) and Sitara # 156383 (for meter # 78032). I have attached an example to help see what I am talking about. (this was for 2/00 production) Could you please let me know when the change has been made or if there is something that I need to do.

Thanks, Stephanie (3-6004)

FW: Deal 93836

Sender	j..farmer@enron.com
Recipients	['sherlyn.schumack@enron.com']
File	farmer-d/sent_items/324.

I just found out that Anthony has changed responsibilities. He said that he forwarded the message to Bridgett ?. I'll let you know as soon as I hear anything.

D -----Original Message----- From: Farmer, Daren J. Sent: Tuesday, November 27, 2001 12:45 PM To: Schumack, Sherlyn Subject: RE: Deal 93836

I sent an e-mail to anthony campos on the 19th asking him to change the counterparty. I don't have the access to do that. If he can change the name, then we won't have to create a new deal and re-path. I just sent him another message today.

D

-----Original Message-----

From: Schumack, Sherlyn Sent: Tuesday, November 27, 2001 12:21 PM To: Farmer, Daren J. Subject: FW: Deal 93836

Daren, Have you had a chance to look at this yet?

-----Original Message-----

From: Schumack, Sherlyn Sent: Monday, November 19, 2001 8:50 AM To: Farmer, Daren J. Subject: FW: Deal 93836

Daren, Will you let me know when this change has been made? I need to get some payments finalized by 3pm tomorrow.

-----Original Message-----

From: Schumack, Sherlyn Sent: Thursday, November 15, 2001 12:08 PM To: Farmer, Daren J. Subject: RE: Deal 93836

Prior to 7/99 this was ENA not HPL, but there may be some issues on it as well for 3/99 to 6/99. The deal ticket we used was 62717. I will have to look further into the ENA activity because I know we still have some invoices that were paid under one company and we still have drafts under the other.

-----Original Message-----

From: Farmer, Daren J. Sent: Thursday, November 15, 2001 10:42 AM To: Schumack, Sherlyn Subject: RE: Deal 93836

This ticket starts with 7/99 production. How were all of the other months paid?

D

-----Original Message-----

From: Schumack, Sherlyn Sent: Thursday, November 15, 2001 10:32 AM To: Farmer, Daren J. Subject: Deal 93836

Daren,

I am trying to get some payments out to Williams for old months 11/2000 and 1/2001 but global counterparty said this deal should have Black Marlin Pipeline Company Inc. instead of Black Marlin Pipeline Company effective 3/99. The Black Marlin Pipeline Company was for an internal record (when it was an Enron entity).

File	farmer-d/all_documents/2514.

Hey guys,

Just wanted to make known my concerns on this issue. While I agree that Howard, Robert and George needed to work on this together, I do not think that Howard should have been the driving force behind this. Once we left the meeting, they all

convened on the 37th floor and worked from Howard's desk - with Howard sitting down doing much of the work. I also think that the below e-mail should not have come from Howard, but should have originated out of the Logistics group. I understand that Howard has prior scheduling experience, but he is not functioning in a scheduling role now and bascially took on that role in getting this set up correctly. He too had to sit down and try to figure out what needed to be done and set everything up correctly (?). In my opinion this is a kudoo for Howard for stepping up, but I am concerned at the role that he played. Team effort is important and it's what we all want between our groups, but I want to ensure that everyone does their fair share and expectations are appropriately placed. Let me know what you both think. Thanks! -----

We have a buyback under HPL (#586534). ENA had only 7,000/day scheduled at mtr 1373 in Feb. In reviewing the daily volumes in POPS, I didn't see any days with flow under 18,000. So, we should not need a buyback for ENA. Any shortages should be allocated to the HPL ticket.

D

Aimee Lannou 03/14/2001 11:03 AM

To: Daren J Farmer/HOU/ECT@ECT cc: Subject: Re: deal 34342

Daren - Thu has asked if I can extend deal 343421 thru Feb. '01. I told her I didn't have the authority to do this. It is for Equistar. It looks like it is a term deal expiring Jan. '01. She wants it added to keep the ENA deal whole. What do you suggest?

AL ----- Forwarded by Aimee Lannou/HOU/ECT on 03/14/2001 10:58 AM ----- To: Aimee Lannou/HOU/ECT@ECT cc: Subject: Re: deal 34342

Aimee,

This is the deal for Equistar. There is not enough gas at meter 1373 to keep the ENA deal whole. I need this deal to create buyback. This was out there last month and Anita told me to get the deal extended. Let me know if there is another way.

Subject: DEFS PURCHASE OF TECO PIPELINE

Effective February 1, 2001 Duke Energy Field Services (DEFS) will begin operating TECO Pipeline under the name Duke Energy Guadalupe Pipeline Inc. We are attempting to make this transition as seamless as possible with a minimum of changes.

The only meter number change will be at the El Paso Field Services Waha header. In the past shippers have nominated at 00501723 whereas starting February 1st you will nominate at 8000007.

For the time being, use the same nomination form you have used in the past. Be sure to include both upstream and downstream contract numbers on your this form. Attached is a file which will list, with a description, all the meters on the Duke Energy Guadalupe Pipeline.

Operational contacts are as follows:

Eileen Ponton - Senior Representative Marketing Operations (Responsible for Daily Business) Office nbr: 713-627-6206
Pager: 800-976-2802 Fax: 713-627-6273

Donna Spencer - Manager Marketing Operations (will back up Eileen) Office Nbr: 713-627-6224 Fax: 713-627-6273

Gas Control: 888-204-1781 (staffed 24 hours/day, 7 days/week)

Attached is a list of all contacts for the Duke Energy Guadalupe Pipeline.

Please remember February 1st noms are to be faxed to DEFS, ATTN: Guadalupe Pipeline, at 713-627-6273. If I can be of any further help, please do not hesitate to call me.

(See attached file: Shipper Meter List.xls) (See attached file: DEGP CONTACT LIST.doc) - Shipper Meter List.xls - DEGP CONTACT LIST.doc

To: Jeffrey A Austin/HOU/ECT@ECT, Michael C Bilberry/HOU/ECT@ECT, Gary Bryan/HOU/ECT@ECT, William C Falbaum/HOU/ECT@ECT, Mary Jo Johnson/HOU/ECT@ECT, Jennifer Martinez/HOU/ECT@ECT, Brian M Riley/HOU/ECT@ECT, Jill T Zivley/HOU/ECT@ECT, Greg Brazaitis/HOU/ECT@ECT cc: Jennifer D Pattison/HOU/ECT@ECT, Melissa Graves/HOU/ECT@ECT Subject: Teco Gas Processing; Meter No.: 6884

Each month at Seven Oaks, TECO (PG&E) makes an adjustment to the allocation to either pay HPLC for underages or charge HPLC for overages - ie. the difference between what our producers put in the plant and what we take from the plant after shrinkage. This adjustment arrangement doesn't seem to be papered - it's just occurred each month for the past 5 years on a relatively routine basis.

Since the adjustment arrangement isn't papered, we've been having difficulty properly reflecting the deal in sitara and unify. It has been suggested that we try to paper the deal for posterity (the lease to TECO has 9 more years to run), but, in view of the forthcoming expiration of the primary term of both the Comstock and Oryx (Sun and/or Kerr-McGee) contracts, I'm reluctant to open this can of worms. I'd like your thoughts.

George x3-6992 ----- Forwarded by George Weissman/HOU/ECT on 03/29/2000 07:53 AM

To: Greg Brazaitis/HOU/ECT@ECT cc: Donald P Reinhardt/HOU/ECT@ECT, Jim Coffey/HOU/ECT@ECT, Sabrae Zajac/HOU/ECT@ECT Subject: Teco Gas Processing; Meter No.: 6884

Greg, this relates to the Seven Oaks tailgate accounting issue we have been discussing. HPLR once had an appropriate agreement in place, but that agreement has been assigned to ECT. Until the agreement can be re-assigned from ECT to HPLC, we will use spot GTCs to clear the purchase/sale accounts for the period from 10/98 to 6/99 or perhaps 7/99.

Julie,

In 1996, a contract was drawn up between HPLR and Teco Gas Processing, Contract Numbers 078-86978-101/078-86978-301. In April '99, these contracts were assigned to ECT. In October of 1998, these contracts should have been assigned to HPLC, but did not get assigned. Beginning in Jan. '99, negative volumes started appearing in my purchase payment statements under Sitara #18372 (meter #6884), causing my payments to be reduced. I believe that the deal number for the sale was being attached to the purchase contract. (The purchase deal numbers which I have been using are Sitara #14086 and Sitara #11079). Both these sales and purchases (since October '98) are suppose to be for HPLC. Donald Reinhart stated that spot purchase and spot sale GTC's between Teco and HPLC can be set up from October of 1998 until the Master Contract is changed. Amelia Alland has set these up, which I believe terminate in October '99. The GTC spot contract numbers are as follows:

Purchases: 012-86978-102; Global 96021450 Sales: 012-86978-301; Global 96021451

Per our conversation earlier can you make these retroactive adjustments? When complete, can you tell me what the new deal numbers will be?

Thank you so much for your help and let me know if you need additional information.

cc's:

Let me know if something I stated is incorrect or if anyone has any additional information.

Julie

Daren J Farmer 12/20/99 01:43 PM To: Julie Meyers/HOU/ECT@ECT cc: Subject: Evergreen deals

Julie,

I need to know if the following deals have evergreen provisions to roll into Jan 2000.

Cokinos / 9676 95912 - No this is a GTC Firm contract, deal expires with contract Cokinos / 6373 128952 - This is a GTC
Spot Coral / 4120 93883 - This is on a Single Transaction contract, we would need to check with the trader Encina / 6392
93487 - Yes, this is a committed reserve. I marked the evergreen flag. Midcoast / 5097 92956 - No, GTC 1st Purchaser,
deal expires with contract. United O&M / 5053 93728 - No, this deal was moved to the Wellhead portfolio for January, but
the deal was terminated per legal. Vintage / 2540 93750 - Not the right deal number.

Thanks.

File	farmer-d/discussion_threads/2201.

If you assisted in the completion of the OPM Hours Survey in the past and/or are expected to in the future, you will need access to Microsoft Access beginning Wednesday, September 27, 2000. If you do not have Microsoft Access, please go to the enron.itcentral.com website and complete an IT application request for Microsoft Access as soon as possible.

If you are not the individual who will be updating the hours surveys, please (1) coordinate with the individual who will and (2) notify Suzanne Nicholie at #57341.

On Wednesday, September 27, 2000 a new Hours Survey will be distributed to you and will be due for completion on Wednesday, October 4, 2000.

We have developed what we think to be an easier and more efficient method of handling the Hours Survey using Microsoft Access. The Hours Survey is menu driven and you are not expected to need specific Microsoft Access training.

We will provide help lines and as needed direct training with the roll out of the new Hours Survey. If you have any questions please contact anyone in the OPM group.

Suzanne Nicholie - Primary Hours Survey Contact at #57341 Shari Mao - #33859 Jennifer Reside - #35971 James Scribner - #39641

Thanks.

James Scribner

Okay, this one has been resolved.... the deals for days 9 and 10 are good. Sitara did not feed this deal to MOPS at all therefore it didn't feed to POPS.

Sherlyn is setting things up and will provide me with a tracking ID, I will enter volumes and re-allocate the meter.

Very confusing but finally resolved.

CHawkins

From: Charlotte Hawkins 05/08/2000 10:55 AM

Charlotte

From: Sherlyn Schumack 05/01/2000 10:11 AM

To: Charlotte Hawkins/HOU/ECT@ECT cc: Subject: I/C variance for deal 72893

Charlotte,

There is an interconnect variance at meter 980071 for 2/99. It appears the variance is created on 2/9/99 and 2/10/99. There is a transport usage deal ticket 72893 in Sitara which shows PG&E delivers 6,965 mmbtu to HPL on 2/9/99 and 3,683 mmbtu on 2/10/99, but HPL does not show a receipt of this volume. Let me know if you need the PG&E support.

Re: UA4 - Meter 1441 for 11/97 - Falfurrias

Sender	stella.morris@enron.com
Recipients	['daren.farmer@enron.com', 'pat.clynes@enron.com', 'howard.camp@enron.com']
File	farmer-d/discussion_threads/26.

Howard - the above meter indicates a daily swing with no one in Volume Management's initials in OSS. I need some information for Daren before it can be determined if a deal should be set up to cover the 089 contract for 11/97 forward.

I've done some research as follows:

1/95 shows delivery on transport contract #012-82269-02-002 (Southeastern Marketing Co. as counterparty)

1/96 thru 10/31/97 shows delivery on transport contract #012-27182-02-001 (Esperanza Marketing Corp as counterparty).

11/97 thru 12/97 shows delivery on 089-41500-102

1/98 shows delivery on 089-41500-101

No other transactions at this meter since 1/98.

Some questions I need answered are - why was volume allocated to transport contracts through 10/31/97 and then started to be allocated to the 089 contract later? Are the transport contracts no longer valid to allocate to and is that the reason the 089 contract was used? Or should the transport contract be allocated to instead of the 089 contract for 11/97 forward? Each item indicates a delivered volume, so either a transport or sale is taking place.

All the information that is supplied on the UA4 report is need a contract for 9,448 MMBTU.

Since the meter was assigned to someone else during this timeframe before it was assigned to me, it's difficult to know why the 089 contract was ever used for allocation and since there are no other records such as deal tickets in CPR or OSS.

Need help, Stella

Daren J Farmer 12/22/99 07:14 AM To: Stella L Morris/HOU/ECT@ECT cc: Subject: Re: UA4 - Meter 1441 for 11/97 - Falfurrias

What occurred at this point in prior months? Who was allocated the volume?

D

From: Stella L Morris 12/16/99 06:04 PM

To: Daren J Farmer/HOU/ECT@ECT cc: Mary M Smith/HOU/ECT@ECT, Howard B Camp/HOU/ECT@ECT Subject: UA4 - Meter 1441 for 11/97 - Falfurrias

Daren - I need your help in resolving this issue. There wasn't any deal in OSS for the above reference meter, nor could I find anything in CPR. The contract shows 089-41500-102 representing a sale in the amount of 9448.

Thanks, Stella

File	farmer-d/discussion_threads/94.

Charlotte,

This is a desk-to-desk deal. You need to get with the scheduler on the East Desk who handles Transco. Both desks will need to tie in MOPS. In this case, POPS most likely tried to update the HPL side, but the East Desk has not adjusted their side in MOPS.

D

Let me know if i can help.

Charlotte

From: Sherlyn Schumack 05/01/2000 10:11 AM

To: Charlotte Hawkins/HOU/ECT@ECT cc: Subject: I/C variance for deal 72893

Charlotte,

There is an interconnect variance at meter 980071 for 2/99. It appears the variance is created on 2/9/99 and 2/10/99. There is a transport usage deal ticket 72893 in Sitara which shows PG&E delivers 6,965 mmbtu to HPL on 2/9/99 and 3,683 mmbtu on 2/10/99, but HPL does not show a receipt of this volume. Let me know if you need the PG&E support.

Flow change for Fuels Cotton Valley Redeliveries into HPL

Sender	mkhenderson@duke-energy.com
Recipients	[cwester@duke-energy.com', 'briley@enron.com', 'carlos.j.rodriquez@enron.com']
File	farmer-d/all_documents/3372.

Saturday, March 3, the redeliveries into HPL from Fuels Cotton Valley for the Eastrans deal will increase to approximately 19500 MMBtu/dy. This change should continue through March 5th or 6th. The reason for the change is an operational emergency. DEFS typically delivers approximately 12200 MMBtu/dy into TXU Lone Star. This delivery will not be able to occur because the Alford B compressor needs to get into the shop for maintenance. This compressor will be out of commission for the month of March. The Busby compressor will compress the usual 7300 MMBtu/dy of Fuels Cotton Valley redelivery gas as well as the 12200 MMBtu/dy of TXU Lone Star redelivery gas. A different redelivery point with TXU Lone Star is being established and should be available by March 5th or 6th. At this point in time, we will take the HPL Fuels Cotton Valley redelivery gas to zero and balance the redeliveries between the two points. Therefore, DEFS will not change the delivery or redelivery nominations in place for Eastrans. After the new TXU Lone Star redelivery point is put into place and the points are volume balanced, it is our intent to have redeliveries of 7300 MMBtu/dy from Fuels Cotton Valley and 22700 MMBtu/dy into PG&E (which is what is in place effective 3/1/01) for Eastrans.

Larry and Jim,

Thank you for expressing your interest in responding to Valero Energy Corporation's Request for Proposals for natural gas supplies. Please find attached a file containing daily consumption data for most of Valero's major facilities in Texas, California and New Jersey. Certain other smaller accounts such as Valero's asphalt plants in California and Texas are not represented at this time. In lieu of daily data for these accounts, Valero intends to provide summary level data in the near future. Daily data for the Clearlake methanol plant will be provided at a later date when it becomes available. In the meantime, please refer to the RFP for the summary data and associated discussion regarding the market environment for domestic methanol production.

Please treat the provided data as confidential per the Confidentiality Agreement executed between Valero and your company. Power use data has been sent via overnight mail. As questions arise, please send them to my attention.

Thanks,

Dave

Some after thoughts to our meeting

Sender	mam@teamlead.com
Recipients	['daren.farmer@enron.com']
File	farmer-d/discussion_threads/393.

Hi Daren,

I enjoyed our lunch together yesterday and believe we made a good beginning. You have very high standards for your own performance and are highly committed to the best outcome in all situations. You are likely to have high expectations for results from our coaching meetings This a good formula for success and I will do my best to honor your strengths with a focus on moving the action forward. With this in mind, I had some thoughts and additional questions for reflection following the meeting that I would like to share.

You are in a transition from being a high team performer to becoming the leader of a high performing team. One of your frustrations as leader is that members of your team seem to rely too much on you to solve problems that arise in the day to day operations of the team. At first you responded to their requests for help by solving it for them, then you shifted to using questioning techniques to have them solve the problem with you. You have also offered some training to address the learnings needed to be more independent problem solvers. You are frustrated when some members of the team continue to come to you with questions they should be able to solve and when they fail to implement changes that you have trained them to use. You are seeking ways for the the team to have the same problem solving ability that they come to you for. You have recruited people with this ability and you seek to expand it in the team.

This issue was the focus of our first session and needs to be the focus our next meeting. The question is: How to engage the team in solving this problem. How do I get the members of this team to own this responsibility and begin creating their own solutions? What resources are needed by each person to contribute more to this problem? How do I involve the team members more in the solving of this problem? What new behaviors do I need to employ to increase the involvement of the team? What do I need to change in myself or my relationship to the people in order to engage them more actively in the problem?

There is one dimension that I am clear about. I know that you have used performance appraisals to give feedback. Have you put this issue before the team as a whole for the team to solve or have you tried to change individual team members?

I look forward to our meeting on the 17th. Keep growing!

Transport contracts

Sender	daren.farmer@enron.com
Recipients	['steve.hooser@enron.com']
File	farmer-d/sent/274.

Steve,

I really need the Oasis and PGE transport contracts assigned to HPL by July 2000. Currently, we are buying gas in the Waha region as HPLC. But since our transport is under ENA, we have to enter an additional transaction where HPL sales the gas to ENA at the point of purchase. ENA then transports the gas to a delivery point. If the gas is sold to another counterparty, an additional transaction between ENA and HPL must be entered at the delivery point. This causes great difficulty in balancing out the pipelines and completing the scheduling in reasonable time. Plus, it just doesn't make sense to keep the transport under ENA since we transact all other deals as HPLC. Please let me know when we can get these contracts assigned.

Thanks for your help.

Daren ----- Forwarded by Daren J Farmer/HOU/ECT on 06/01/2000 04:22 PM -----

Daren J Farmer 04/04/2000 04:47 PM To: Steve Van Hooser/HOU/ECT@ECT cc: Subject: Transport contracts

Steve,

How are things going with this request?

FYI. The majority of deals we transact on Oasis are done as HPLC. Only sales to LCRA and term sales to Tufco are done as ENA.

Thanks.

Daren ----- Forwarded by Daren J Farmer/HOU/ECT on 04/04/2000 04:44 PM -----

Enron North America Corp.

From: Dan J Hyvl 03/22/2000 01:00 PM

To: Steve Van Hooser/HOU/ECT@ECT cc: Daren J Farmer/HOU/ECT@ECT Subject: Transport contracts

Please forward this to whoever in the Pipeline group does transport, especially Oasis, and I disagree that it should be HPL cause most of the things off Oasis are ENA and will continue to be. ----- Forwarded by Dan J Hyvl/HOU/ECT on 03/22/2000 12:56 PM

Daren J Farmer 03/22/2000 12:05 PM To: Dan J Hyvl/HOU/ECT@ECT cc: Subject: Transport contracts

Dan,

ENA - Texas currently has tranport contracts on PGEV and Oasis pipelines (listed below). Since we are transacting as Houston Pipe Line for the majority of our trades, we need these contractsto be assigned from ENA to HPL. Or, we need to enter into new agreements as HPL. What is the process used to accomlish this? We would like to get this set up as soon as we can.

Thanks.

Fred Boas 02/24/2000 11:25 AM To: Stella L Morris/HOU/ECT@ECT cc: Robert E Lloyd/HOU/ECT@ECT, Howard B Camp/HOU/ECT@ECT Subject: 1/2000 Meter 9643 Three Rivers Issues

Stella:

The Swift deal is not pathed correctly in POPS. I set up an accounting arrangement on the 012-41500-02-015 contract with the Track ID 80705. Would you put the contract in POPS with the associated Track ID?

The transportation contract (012-41500-02-003) for the Liquids Replacement gas is not POPS. I looked in Path Manager and there is no deal for it either. In December, the deal for this gas was 114096. Could you extend the deal or get me the number for the new deal if there is one? I need to set up an accounting arrangement so I will need for you to verify the deal number and transportation contract that this gas is supposed to go on. When I set up the accounting arrangement I will let you know what the Track ID is so you can put the contract at meter 9643.

Let me know when all of this is done so that I can reallocate the meter.

Thanks,

Fred

Megan

As I mentioned to you yesterday, it still looks like the volumes for gas delivered to TX GLO do not have Linda Robert's origination fee deducted. Do we need to execute a PMA with TXGLO to deduct those volumes from the next delievery?

Also isn't there an entry that is missing in your file to capture the \$ cost of gas for the gas delivered to TXGLO? Is that being captured in Unify or is it being manually entered by Gas Accounting?

Darren Do we need to execute a seperate deal ticket for the origination deduct?

Susan/Laynie What busines unit are these cost centers rolling up to (11814 & 27117?)

Rebekah E Seales 05/25/99 03:04 PM To: Anita Luong/HOU/ECT@ECT cc: Daren J Farmer/HOU/ECT@ECT, Howard B Camp@CCMAIL Subject: Re: Sales to PanEnergy at Exxon Clear Lake for 2/99

Anita:

I did some additional research regarding the sale to PanEnergy at meter 4045 on 2/27 and 2/28. This sale was a brokered deal.

DATE PURCHASE VOLUME SALE 2/27 & 2/28 Phillips Gas Mkt. (#55397) 10.000 MMBtu PanEnergy Marketing (#64749) 10.000 MMBtu 2/27 & 2/28 Superior Natural Gas (#57065) 7.000 MMBtu PanEnergy Marketing (#64749) 7.000 MMBtu

ECT did not transport this gas away from meter 4045. If this gas was transported away from meter 4045, it would have been a transaction between PanEnergy Marketing (or whomever they sold the gas to at that point) and HPL. Hope this information helps.

RS

Anita Luong 05/25/99 01:31 PM

To: Rebekah E Seales/HOU/ECT@ECT cc: Subject: Re: Sales to PanEnergy at Exxon Clear Lake for 2/99

Just want to check see if you have a chance to look at this.....

Rebekah E Seales 05/24/99 03:31 PM To: Anita Luong/HOU/ECT@ECT cc: Subject: Re: Sales to PanEnergy at Exxon Clear Lake for 2/99

Anita:

I'm working on renominating back to 5/1 to the pipeline for the current month. I'll work on this first thing tomorrow morning. Please let me know if you need the information sooner.

Thanks! RS

Anita Luong 05/24/99 02:10 PM

To: Rebekah E Seales/HOU/ECT@ECT cc: Subject: Sales to PanEnergy at Exxon Clear Lake for 2/99

Additional info I see in Path Manager.....

Seems like this is a brokered deal, ECT is buying 20,000mmbtu from Phillips Gas and 14,000mmbtu from Superior Gas and sell the total 34,000mmbtu to PanEnergy.

My question is then who is paying for the transport of this gas, ECT or PanEnergy? We need to schedule for the delivery of this gas at meter 984045.

Please let me know

Thanks

Is there still a problem with this? We need HPLC to nominate for 1/99 forward at meter no. 6884. Please let me know the status. Thanks, Mary ----- Forwarded by Mary M Smith/HOU/ECT on 04/26/99 04:49 PM

Gregory Allen Jackson 04/26/99 02:22 PM To: Hank Eisenhour/HOU/ECT@ECT cc: Mary M Smith/HOU/ECT@ECT, George Weissman/HOU/ECT@ECT Subject: Re: Teco Gas Processing Company

I'm not sure what's going on, but I DID NOT see a TECO deal ticket in MOPS for Houston Pipeline Company anywhere (January 1999 to March 1999). I DID see one on Houston Pipeline Company Resources.

As my original note stated, I think this is a buy/sell which means that TECO Gas Processing should appear in both the Market and Supply depending on HPLC's position.

Please let me know something ASAP.

3-9768

Mary M Smith 04/12/99 12:39 PM To: George Weissman/HOU/ECT@ECT, Hank Eisenhour cc: Gregory Allen Jackson/HOU/ECT@ECT Subject: Teco Gas Processing Company

The sitara deal needs to reflect 3/99 forward. 1/99 and 2/99 was done. Thanks, Mary ----- Forwarded by Mary M Smith/HOU/ECT on 04/12/99 12:37 PM

Gregory Allen Jackson 04/12/99 09:44 AM To: Jennifer Meador/HOU/ECT@ECT cc: Mary M Smith/HOU/ECT@ECT, Theresa R Kotrla/HOU/ECT@ECT, Gary W Lamphier/HOU/ECT@ECT, Sabrae Zajac/HOU/ECT@ECT Subject: Teco Gas Processing Company

Mary, this is the message I left a voice mail concerning. In addition to the other producer at this meter, the following needs to be setup:

POPS HPLC transport delivery 12-41500-203 done (there) MOPS HPLC sale to Teco GP 12-86978-101 NEEDED (think this is buy/sell arrangement); no deal ticket.

Gary Lamphier is looking into the Exxon Jack Creek receipt flow at meter 6884 - make final determination on whether it's either HPLR or HPLC. The deal setup in POPS and MOPS as HPLR.

Summary: Need HPLC sale to TECO related to transportation delivery in POPS. Final determination on whether the current HPLR purchase from TECO at Exxon Jack Creek is correct or should HPLC be purchasing from TECO - starting in

February 1999 business.

Thanks for you help, 3-9768

-----Original Message-----

From: Majorwitz, Buddy Sent: Tuesday, October 23, 2001 9:55 AM To: Olsen, Michael Cc: Wynne, Rita; Schumack, Sherlyn Subject: Meter 98-7266; May 2001 Texas General Land Fuel Volume

Mike,

As you may recall, this meter needs to be set up for May 2001 just as it was for April 2001. Below is a screen print of what April 2001 looks like. When you had previously attempted to set this meter up, I believe it wouldn't let you because of one (or both?) of the contracts being canceled or expired. I have inquired as to what can be done and have learned that you can contact Global Counterparties and have them temporarily set the contract(s) back up for a short period to give us time run the volumes through the system. As I am unfamiliar with this process and the Global Counterparty personnel, I do not have a contact for you. Hopefully this is something you may have had to do in the past. Since this is a call-out meter, I can enter the actual volumes in once the contracts are set up and appear for May 2001. In case you need to enter them, the volume should be as follows:

Contract 012-41500-05-002 HPL Injection 16,149 Contract 012-88494-05-001 TX Genl Land Withdrawal 16,149

I have been advised that this volume needs to be entered by the end of October if at all possible, therefore, your prompt attention to this matter would be most appreciated. If you have any questions, please don't hesitate to give me a call.

Buddy X-31933

John,

I did some preliminary work on your question concerning oil use at the Cleburne, Texas plant. See the attached document.

I just answered all of your questions in an effort to save time. I'm still summarizing the procedures that are used for gas nominations. Call me with any questions.

Michael Mazowita White Pine Energy, LLC

Phone: (248) 442-4823 Fax: (248) 477-5729 Cell: (248) 345-4002

John Griffith 07/17/2000 10:03 AM To: Garrick Hill/HOU/ECT@ECT, Mike Mazowita/Corp/Enron@Enron cc: Eric Moon/HOU/ECT@ECT

Subject: Cornhusker

Rick and Mike,

When you talk to plant manager I have a few other questions regarding the fuel oil.

- 1) What exact oil can they burn? What sulphur content?
- 2) How much oil is in storage at the plant?
- 3) What is the storage capacity at the plant?
- 4) Are there any oil contracts at this time?
- 5) How do they normally buy oil?
- 6) How is the oil transported to the plant?
- 7) Are there any transport contracts for oil?
- 8) What is the efficiency for the oil at the plant?
- 9) What are the costs to burn oil? Any downtime due to this? Any costs to switch? Time it takes to switch?
- 10) What are the decisions that the plant goes through to decide to switch?
- 11) What are the emission concerns? Are they long emission credits? Do they get credits annually? How many?
- 12) Does Brazos have any control over burning oil vs. burning natural gas?
- 13) Can the plant run totally on oil?
- 14) Any costs to switch back to natural gas?

Please let me know if you need anything from me. Thanks.

John

Daren,

Thank you for the proposal, I look forward to discussing this further with you over the next week.

Dave

"Farmer, Daren J." To: <DyckD@valero.com> <Daren.J.Farmer@ cc: enron.com> Subject: Valero RFP Issued June 1, 2001

06/29/2001 04:29 PM

David,

In response to the RFP you issued on June 1, 2000 for electric power and natural gas supplies, Enron would like to present the following offers for your gas supply in Texas:

For deliveries to the Corpus plant: 10,000 Mmbtu per day, priced at Inside FERC Houston Ship Channel less \$.04 for a term of one year. or 10,000 Mmbtu per day, priced at Inside FERC Houston Ship Channel less \$.035 for a term of two years.

For deliveries to the Houston plant: 10,000 Mmbtu per day, priced at Inside FERC Houston Ship Channel less \$.005 for a term of one year. or 10,000 Mmbtu per day, priced at Inside FERC Houston Ship Channel flat for a term of two years.

For deliveries to the Clear Lake Plant: 10,000 Mmbtu per day, priced at Inside FERC Houston Ship Channel less \$.005 for a term of one year. or 10,000 Mmbtu per day, priced at Inside FERC Houston Ship Channel flat for a term of two years.

Under this offer, Enron reserves the right to serve the plants from any of the pipelines listed under Appendix D: Table 2 of your RFP (HPL, EPGTT, Kinder Morgan). I appreciate your review of this offer. Please contact me at 713-853-6905 with any questions or comments.

Thank You

Daren Farmer Enron North America Ph: 713-853-6905 Fax: 713-646-2391 E-mail: dfarmer@enron.com

Daren or Mike, Can you add these meters to the deals below?

-----Original Message-----

From: hbcamp@aep.com@ENRON [mailto:IMCEANOTES-hbcamp+40aep+2Ecom+40ENRON@ENRON.com] Sent: Thursday, August 09, 2001 12:37 PM To: Schumack, Sherlyn Cc: hbcamp@aep.com; ttnguyen@aep.com; ccernosek@aep.com Subject: Entex May 2001

Sherlyn, The POPS meters 7107, 7108, and 7109 need to stay non allocatable and need to be allocated on Unit Gas Pipeline. You will need Daren or Michael at Enron to do the following Add Meters 7107, 7108 and 7109 on Unit Pipeline to Sitara Deals 70550 70549 70119 Then you can run the POPS 53 report for these meters or use your allocation to properly allocate to the meters on Unit Pipeline. Once this is done, Let me know and I will zero out the POPS meters. HC

Subject: Re: Feedback Monitor Error - Meter 984132 - 1/99

Karen,

I realize this. It appears as if you're asking me to have day 16 added to the Sitara deal ticket so that all volumes that flowed for that day can allocate to this deal.

Maybe you might want to phone me if this is not the case.

-Jackie- 3-9497

To: Jackie Young/HOU/ECT@ECT cc: Subject: Re: Feedback Monitor Error - Meter 984132 - 1/99

Jackie, What I am saying is that in POPS volume is allocated to deal number 51862, however in Sitara, this deal doesn't have day 16 on it. Call me if you need further details. X58381

Jackie Young@ECT 08/22/2000 11:08 AM To: Karen Lindley/Corp/Enron@ENRON cc: Gary W Lamphier/HOU/ECT@ECT

Subject: Re: Feedback Monitor Error - Meter 984132 - 1/99

Karen,

I've looked in POPS and on day 16 of January 1999, I see a total confirmed volume of 61,365 and an actual of 62,151. If I'm understanding you correctly, you're asking me to allocate all of this volume to deal #51862.

If so, that's incorrect. Several deals are associated the this days volume.

Please write back or phone back with further details.

Thanks -Jackie- 3-9497

Subject: Re:

Ami,

I think you're referring to the 28th. On the 15th we reported 30 at the HPL LS Katy I.C. Below is a copy of the note you originally sent me back on 10/05/00. I called Gary Gafford, but only got through to his voice mail. I requested he call me tomorrow to clear this up. Unless I hear otherwise, I will proceed for a correction on March 28th, not March 15th.

Thanks, CCS

Charlie,

Here is a breakout for the volumes that have been paid on. We are off by approximately 20000 according to what was billed vs what was paid. Could you peruse the worksheet for discrepancies. We are off by 20,000 in March (28th). Our logs show that 20000 flowed on that day at LS (Meter 67). I've attached the email showing the revision for that day below.

Based on paid amounts, the remaining obligations are as follows: IFERC 2,680,000 IFERC + Gas Daily 6,895,252 Please advise.

Regards, Ami

(See attached file: tufco.xls)

Steve/Daren,

I interviewed this candidate and REALLY liked her. She has previous allocations and settlements experience, but really wants to do financial accounting. As you will see on her resume, she is doing internal auditing at Foleys. She was honest with me that she did not necessarily want to do allocations again and that she really enjoyed working with the schedulers and traders, although she doesn't necessarily want to schedule or trade. She mentioned Risk specifically. I think she would be an asset to Enron. Please use at your discretion. Thanks! ----- Forwarded by Rita Wynne/HOU/ECT on 05/31/2000 11:09 AM

Good afternoon everyone,

I would like to present Megan Jones for consideration of the Sr. Specialist position (Job 103143) As for your essential requirements, she meets and exceeds them all. Accounting degree from UT, very detailed, knowledge of the gas industry, EXCELLENT communication skills, and over 2 years of experience. Regarding essential functions, she could perform them right away. Her resume shows detail of experience. Megan left Coral Energy to get into a department at Sonat which would provide her more of a challenge. She was truly being utilized as a "bean-counter" and wanted more interaction with others. She went to work at Sonat which she says is the best job she ever had. She enjoyed the company, people, everything... As you know, Sonat was bought by El Paso which ended her position along with others in her department. She honestly took her current position in haste, but also thought it would give her the experience of using her accounting

skills, but having more interaction with others in an audit capacity. This has not been the case. She misses the industry, and learns quickly, very social and has no problem interacting with people at all levels. Let me know your thoughts and any questions you may have. Best Regards, Sharon

The GL currently has 1,177,186 MMBTU @ \$3,548,001.99.

I believe the sale took place in the facility.

-----Original Message-----

From: Wynne, Rita Sent: Tuesday, November 13, 2001 1:05 PM To: Pond, Jim Cc: Koerselman, Lisa; Lo, Connie;
Swisher, Stephen Subject: RE: Centana Storage

Jim,

Where did the sale take place? Was it an in place sale at the facility? Stephen is working on the reconciliation. If he cannot have it completed by this close, then we will have unaccounted for until he finishes his reconciliation. We will do everything possible to get it cleared this close. What does the G/L currently have for the storage number?

-----Original Message-----

From: Pond, Jim Sent: Tuesday, November 13, 2001 12:57 PM To: Wynne, Rita Cc: Koerselman, Lisa; Lo, Connie
Subject: Centana Storage

Rita,

It looks like we will be making our Bammel true-up payment to AEP in the next couple of days. Included in the payment to AEP is a deduction for the sale of the Centana storage gas. We are selling them 1,236,286 MMBTU @ \$2.375 for a total of \$2,936,179.25. The sale is for September, 2001 production. We will need a deal put in Sitara for that sale along with the appropriate pathing from storage by logistics. However, there is only 1,195,754 MMBTU on report 006 in Unify (for contracts 96018371, 96014189, and 96019236). How do we account for this volumetric difference? Connie will be truing up the GL to match the current Unify volume. The GL was short approx. 18,000 MMBTU because a beginning balance was not booked.

This needs to happen before the upcoming close.

Thanks for you help in this matter.

Please let me know of any concerns.

To: George Weissman/HOU/ECT@ECT cc: Gary A Hanks/HOU/ECT@ECT, Mary Jo Johnson/HOU/ECT@ECT, Gary Bryan/HOU/ECT@ECT, Jill T Zivley/HOU/ECT@ECT Subject: Producer Shut-in list for Victoria 18" line work

George,

Gary called me about this Shut In situation a few minutes ago, specifically regarding Meter 6722. This meter is at the tailgate of Three Rivers, therefore, an HPL field employee will not be able to contact the producer (they probably have no idea where the gas is coming from that goes through this meter).

Gary suggested that the deal maker contact these producers verbally, and then Connie Sutton will follow up with written notice. Per our discussion, since Mary Jo and Gary are out this afternoon, I am forwarding this message to you.

The concerned contracts are: Cody Texas, LP, 012-64365-101, 96018049 and Samson Lone Star, 012-77555-105, 96016761.

Let me know if there is further information that I can provide.

Thank you, Melissa ----- Forwarded by Melissa Graves/HOU/ECT on 12/29/99 02:50 PM -----

Subject: Teco's Indian Spring Plant

A meeting was held on November 1, 2000 at 3 pm in EB3270 to resolve Exxon's residue volume issue at Teco's Indian Spring Plant. Exxon's issue is that the residue volumes that HPL is recording for Exxon's account for transportation do not equal to the wellhead volumes produced and delivered to PGE.

Items that were identified so that Exxon's Issue could be resolved:

1. HPL is responsible for any UA4 loss/gain and fuel consumed on PGE's line attributable to Exxon's Big Sandy production. 2. If Exxon's production exceeds 500 mcf/d, HPL must on a monthly basis elect to process or not process the Exxon Big Sandy Gas. If HPL elects to process, then Teco buys the products from HPL. 3. If Exxon's production flows between 100 Mcf/d and 499 Mcf/d, then Teco can process and makeup the shrinkage to HPL with their own gas volumes. 4. If Exxon's production is less than 100 Mcf/d, then HPL must terminate the Processing Agreement. If HPL does not terminate and volume continue to flow at less than 100 Mcf/d then HPL loses the shrinkage and must pay to Teco an additional \$500 per month.

Solution: 1. HPL will schedule and record the Gain/Loss Volumes at HPL Meter #986884 that is attributable to UA4 and Fuel on the PGE line. 2. HPL will schedule and record the sale volumes of PVR to Teco at HPL Meter #986884. 3. The scheduling of the volumes for items 1 and 2 will allow for offset volumes to be record as adjustments to Exxon's transport volumes. 4. The HPL Logistics dept. (Mary Poorman) will inform Assets Group (Jack Simunek) when and if the volumes nominated for Exxon fall below 100 Mcf/d.

If any of the above does not reflect what was discussed or agreed to, please let me know at X-36650.

Thanks, Clem

Hi Daren,

Sorry that I didn't include you on Gary's e-mail. He presented these questions to the Volume Management Group (which I agree). I will now forward you the response from Volume Management.

To: Jackie Young/HOU/ECT@ECT cc: Karen Lindley/Corp/Enron@ENRON Subject: Re: Feedback Monitor Error - Meter 984132 - 1/99

I am uncomfortable putting a deal out there without more details. Here are my questions: 1) Why was this gas just discovered now? And where has it been hiding? 2) Adonis is a WMBE which means he has a direct pay agreement so never pays for gas taken. We have to invoice the actual burner for this gas (HL&P, TU, CP&L, etc). Can we identify end user and see if they paid for this gas or will have to pay. 3) Adonis has skipped town and is no longer in business. HL&P told me he got paid for gas that never was delivered (rumor). How can we invoice him now? 4) 60,000 mmbtu seems like a high volume of gas to slip through the cracks for almost two years. Answer the above questions and I will be glad to approve this.

Jackie Young 08/22/2000 12:45 PM To: Karen Lindley/Corp/Enron@ENRON cc: Gary W Lamphier/HOU/ECT@ECT Subject: Re: Feedback Monitor Error - Meter 984132 - 1/99

Karen,

I realize this. It appears as if you're asking me to have day 16 added to the Sitara deal ticket so that all volumes that flowed for that day can allocate to this deal.

Maybe you might want to phone me if this is not the case.

To: Jackie Young/HOU/ECT@ECT cc: Subject: Re: Feedback Monitor Error - Meter 984132 - 1/99

Jackie, What I am saying is that in POPS volume is allocated to deal number 51862, however in Sitara, this deal doesn't have day 16 on it. Call me if you need further details. X58381

Jackie Young@ECT 08/22/2000 11:08 AM To: Karen Lindley/Corp/Enron@ENRON cc: Gary W Lamphier/HOU/ECT@ECT

Subject: Re: Feedback Monitor Error - Meter 984132 - 1/99

Karen,

I've looked in POPS and on day 16 of January 1999, I see a total confirmed volume of 61,365 and an actual of 62,151. If I'm understanding you correctly, you're asking me to allocate all of this volume to deal #51862.

If so, that's incorrect. Several deals are associated the this days volume.

Please write back or phone back with further details.

Thanks -Jackie- 3-9497

From: Karen Lindley @ ENRON 08/21/2000 10:24 AM

To: Jackie Young/HOU/ECT@ECT cc: Subject: Feedback Monitor Error - Meter 984132 - 1/99

Jackie,

Volume is allocating to deal number 51862 on 1/16/99 on meter 984132, however the deal does not have this day on it. Please have 1/16 added to the deal so the error will clear.

Thanks and if you need additional info, let me know.

Karen

Melba,

This is actually a complicated issue. I am not sure that we can add that language. I need to talk to Jeff Hodge and Gerald Nemec about this issue. I will let you know what we figure out.

Stacy

Stacy,

Could we add the following phrase (as shown below in RED) to the Exxon Katy location? This is to reassure our customers that the delivery is in fact intrastate. Please let me know if this is possible to do and if we have your approval.

ExxonKaty The transaction is for delivery of intrastate gas at the tailgate of the Exxon Katy Plant. Notwithstanding anything to the contrary in the General Terms and Conditions, if applicable, this Transaction is between Counterparty and Enron North America Corp.

Thanks, Melba Lozano 713-345-8986 713-646-8511 Fax 713-698-4847 Pager

Kara,

The product development team will check with Legal on this and we'll get back with you.

Thanks. Lisa

-----Original Message-----

From: Lauer, Kara Sent: Monday, September 17, 2001 9:38 AM To: Lees, Lisa Subject: FW: Intrastate Gas

Lisa, what is involved in changing a product description to include this phrase? I do have some customers in Texas that are legally bound to only trade intrastate gas and they are fearful of trading anything that doesn't specifically state that. Since it is probably only a handful of customers, if it is a major production, it may not be worth it, but I wanted to check. Thanks. Kara

-----Original Message-----

From: Farmer, Daren J. Sent: Monday, September 17, 2001 9:31 AM To: Lauer, Kara Subject: RE: Intrastate Gas

That will be fine. Most people know that the gas in this area is intrastate. But, if someone wants to see that in the description, we can add it.

D

Hi Daren, Bryan Hull gave me your name. A customer was interested in trading Intrastate Gas and Bryan had informed me that our Exxon-Katy location is intrastate. I was wondering if you would be interested in changing the long description on EOL for this location to include the phrase intrastate gas so that any customers that are interested would be able to see that. If this is okay with you, I will forward it on to our product development team. Thanks. Kara

File	farmer-d/all_documents/578.

Steps 2 - 4 have been done.

Mary, since Jackie is out tomorrow, you will need to verify the following information has flowed across to POPS tomorrow morning (check meter catalog).

Meter Facility DRN

986892 515136 60217 980439 501026 286715

If there is a problem, then you will need to get with Romeo.

If everything is okay, you will need to let Sherlyn know so she can set up accounting arrangements on meter 439 and you will need to enter them into POPS.

Step # 1 has been completed. Sherlyn, verify step # 2 tomorrow and call me when completed.

Jackie, verify the nom on Oct 4 & 5. It appears there is still a volume for meter 6892 until Oct 6.

If there are any questions or issues, contact me at 37649. I am the contact person while Clem is out (through Friday). HC

Romeo D'Souza 10/04/2000 12:40 PM To: Clem Cernosek/HOU/ECT@ECT cc: Michael Eiben/HOU/ECT@ECT, Howard B Camp/HOU/ECT@ECT Subject: Re: Tetco/HPL (Enerfin) Meter #986892

Clem,

I have completed setting the confirm = 0 for 986892 and reallocated all the days. They are all zero now, however 10/4/2000 and 10/5/2000 still have a non-zero BAV, these should get set to 0 by 10/6. Since allocation will not allocate these days till 10/6 gas date.

r.d

Clem Cernosek 10/03/2000 05:19 PM To: Donna Consemiu/HOU/ECT@ECT, Romeo D'Souza/HOU/ECT@ECT, Sherlyn Schumack/HOU/ECT@ECT, Jackie Young/HOU/ECT@ECT cc: Michael Eiben/HOU/ECT@ECT, Rita Wynne/HOU/ECT@ECT, Pat Clynes/Corp/Enron@ENRON, Daren J Farmer/HOU/ECT@ECT, Gary A Hanks/HOU/ECT@ECT, Victor Lamadrid/HOU/ECT@ECT, Howard B Camp/HOU/ECT@ECT Subject: Tetco/HPL (Enerfin) Meter #986892

Step I.

Romeo: Please do Step 1 today, 10/4/00.

1. Please change the confirmed noms to zero for all contracts that have be nominated for period 1/1/00 thru 10/31/00 for the above meter. 2. Change the allocation method to "Not Allocatable" effective 1/1/99. 3. Please reallocate the meter for period 1/1/99 thru 10/31/00. 4. Call me after the above tasks have been completed.

Step II.

Sherlyn: Please check the following tommorrow, 10/5/00.

1 Verify with Settlements that the zero BAV adjustment were received for all Contract Activities at Meter 986892 for period 1/1/99 thru 9/30/00. 2. After verification is complete, please call me.

Step III.

Donna: I will call you tomorrow, 10/5/00 to inform when you can make the following changes:

1. Change the meter # and DRN # at Facility # 501026. This facility should be Trade and Nom "YES". 2. Change the meter # and DRN # at Facility # 515136. This facility should be Trade and Nom "No". 3. After completion, please call me as well as Romeo (x-34544).

Step IV.

Romeo: Upon receiving a call from Donna:

1. Please make the appropriate changes or corrections in POPs System for the Facility Changes made by Global Facilities Dept. My understanding is that these changes can not be done automatically. 2. Upon completion, please call me.

Step V.

Jackie:

1. Tomorrow, 10/05 /00, after I am informed that Romeo has made his changes, I will let you know and you may begin scheduling Meter #0980439 which is the meter replacing #0986892. 2. After completion, please let me know.

Gary:

This could create some problems for Gas Control, because all confirmed volumes will be zeroed including October, 2000 activities at meter 986892 today (10/4/00). This should correct itself within 24 thru 48 hours at meter #980439.

Daren:

This could also create some issues for you, but remember, these issues should clear within 24 to 48 hours.

Victor:

This is just for your information, since this should not create and changes for you.

IF ANYONE HAS ANY QUESTIONS, PLEASE FEEL FREE TO CALL ME AT X-36650.

THANKS, CLEM
