File	fossum-d/discussion_threads/324.

AUGIE E-NEWS October 25, 2000 Volume 1, Number 4 ***** Augie E-News is a bi-monthly (or as needed) newsletter sent to alumni of Augustana College informing them of the latest news from campus.

***Viking Days 2000 - Thanks for Coming Home!: October 6-8 was quite the weekend for Augustana. It began with the inauguration of Dr. Bruce Halverson '66 as Augustana's 22nd President. Cold weather didn't keep alumni away from the parade. And the football game against NDSU was a good fight. We inducted the Class of 1950 into the Honor Guard at the Heritage Honor Luncheon and honored outstanding individuals at the Athletic Hall of Fame Banquet on Friday night and at the Alumni Banquet on Saturday night. Viking Varieties was a hit in the Sioux Falls Arena and the crowd was great at the Afterglow, complete with music by President Halverson and the Fabulous Jadesmen and Doc Krueger and the Alumni Brass Choir. Click on <http://www.augie.edu/alumni/homecoming.html> for pictures from the weekend. Class pictures can be found at the "Reunions Site" under each class year. Plan now to attend Viking Days 2001, October 5-7. The Classes of 1936, 1941, 1946, 1951, 1956, 1961, 1966, 1971, 1976, 1981, 1986, 1991, and 1996 will celebrate reunions.

Joel Wudel '78 resigns as Director of Alumni Relations, Paul Krueger '97 is Promoted: Effective October 15, 2000 Joel Wudel, is no longer at Augustana. He is moving on to other endeavors in Kansas City, MO. Well-wishes can be sent to his home at 4908 S Quail Run Ave, Sioux Falls, SD 57108.

Paul Krueger, who has been Associate Director of Alumni Relations the last three years, has assumed Joel's position. Paul graduated from Augustana in 1997 with majors in journalism and communications. He was student body president his senior year and involved in many other campus activities. Paul's wife, Joni, works in the Admission Office at Augie. Paul can be reached at (605) 274-5530 or at krueger@wise.augie.edu

Augustana and WYNCOM, Inc. present The Fifth Annual Worldwide Lessons in Leadership Series: The world's largest training conference focuses on rapid change and strategies for success. Entitled "The Brave New Workplace: Strategies to Excel in a World of Change," the program will be available throughout the world via satellite on November 15, 2000.

Augustana joins FORTUNE Magazine as the exclusive local hosts for this program. This extraordinary program features personal insights from Nobel Peace Prize winner Nelson Mandela. It continues with the latest strategies from Dr. Stephen Covey, Dr. Tom Peters, Dr. Ken Blanchard, Dr. Martha Rogers, and Don Tapscott. There will also be an executive panel featuring Martha Stewart, Intel founder Andy Grove, and Yahoo! founder Jerry Yang.

The program begins at 9:45 a.m. in Sioux Falls and will be held at the Sioux Falls Convention Center. For time and location details for Augie alums in other parts of the country, for more information, or to register, please visit the online program information at www.wyn.com or call 1-800-689-9771.

***Christmas Vespers Tickets Available: Tickets are available for Christmas Vespers, which will be December 1-3. They are \$10 per person and can be purchased with a credit card by calling the Augustana Box Office at (605) 274-4613. You can also stop by the Box Office during regular business hours. Performances are Friday, December 1 at 7:30 p.m. at First Lutheran Church, Saturday, December 2 at 4:30 and 7:30 p.m. at First Lutheran Church, and Sunday, December 3 at 2:30 and 7:30 p.m. at Saint Joseph Cathedral.

***Augie Volleyball Team Continues Winning Streak: The Augie Volleyball team continues to be ranked #2 in the national Div. II rankings. The team is 23-1 overall and 12-1 in the North Central Conference. The team travels to Brookings on October 31 to battle 8th ranked SDSU. Recently, the Vikings swept Saint Cloud State and Minnesota State, Mankato. The team has set a record for consecutive wins with 38. The previous record of 16 was set a year ago. Follow volleyball and all Augie athletics on the web at www.augie.edu/athletics

E-mail the Augustana Alumni Office at: alumni@inst.augie.edu Our phone number is (605) 274-4904.

Here is my suggested mark up (in bold) of Greg's paragraph. I haven't sent it to him yet. My tiering thing will follow shortly for your review. Dari, please take a look and let me know if you have any heartburn about deleting Par. 7. It is in the standard form OBA, but it is inconsistent with the new letter agreement. DF ----- Forwarded by Drew Fossum/ET&S/Enron on 09/14/2000 10:06 AM -----

"Porter, Greg J" <GJPorter@midamerican.com> on 09/14/2000 08:03:36 AM To: "Drew.Fossum@enron.com" <Drew.Fossum@enron.com> cc:

Subject:

Drew, I will send the agreement over shortly. I wanted you to review the following. I suggest inserting it as a new paragraph.

MidAmerican and NNG understand and agree that the original November 29, 1994 Cedar Rapids and Quad Cities Operational Balancing Agreements ("the OBA's") provide for volumetric resolution of imbalances and were not intended to be subject to the mandatory cash out provisions of NNG's Ferc Gas Tariff. MidAmerican and NNG further understand and agree that the Agreements, as clarified herein, reflect the exclusive manner in which imbalances applicable to NNG Station Nos.'s 54227 and 62858 will be incurred, valued and resolved. MidAmerican and NNG acknowledge Northern has filed previously (e.g., Docket No. RP00-404) and may file from time to time hereafter, to modify or otherwise affect the manner in which imbalances are valued and resolved on NNG's system. Unless otherwise mutually agreed by written amendments to the Agreements, MidAmerican and NNG expressly agree that any such modifications or changes, whether approved by FERC or not, shall not modify or affect the manner in which imbalances applicable to MidAmerican's OBA's are incurred, valued or resolved. Consistent with this agreement, MidAmerican and NNG agree that Section 7 of the OBA's is hereby deleted in its entirety. J. Gregory Porter Senior Attorney MidAmerican Energy Company 515-281-2641 (voice) 515-281-2355 (fax)

Dear Energy Bar Association-Houston Chapter Member:

Attached is a notice of our next EBA Houston Chapter luncheon of 2001, scheduled for Wednesday, March 21st. We are pleased to have Marianne Carroll, of Carroll & Gross L.L.P., joining us to share her perspectives on the restructuring of the Texas electric market in light of California's experience. This should be an interesting discussion.

Please print out and return the attached notice to confirm your seat for the luncheon at the Hyatt Regency-Downtown. The notice will be distributed by mail as well.

See you there!

Subject: Hanover / TW Compression Monetization

Charlie -

Talked to Jim Gill with Hanover

jgill@hanover-co.com

Hanover Co 12001 N Houston Rosslyn Houston TX 77086

phone 281 405 5174

Per your previous conversation: 1. send equipment list - engine /comp models plus aux equipment

2. face to face meeting - Houston Feb 23 or 24 (monetization team?)

* discuss equipment - operations (swing or continuous) * jurisdictional / FERC issues

3. 3+- day station tour with Hanover VP of Ops

*site review * very basic due diligence

4. re-group to:

*discuss issues *financials *agreement

Comments / questions.....

Mike

----- Forwarded by Michel Nelson/ET&S/Enron on 02/11/2000

10:58 AM -----

From: Charlie Graham 02/10/2000 04:43 PM

To: Michel Nelson/ET&S/Enron@ENRON cc:

Subject: Hanover!

Mike,

Talked to Jim Gill at 4:30 pm. They are very interested. He proposed the following steps:

- 1) Send him an equipment list. I think the Description and Location Schedule 1.1 from the P&S Agreement would more than suffice.
- 2) He would like to visit the stations with the Hanover V.P. of Operations and one other person. (He indicated 3 total.) A quasi due diligence look at the condition of the facilities. He would like access to records etc. during his visit.
- 3) We could set down and talk "financials" after that.

He did not seemed surprised that I did not have good station plot plans to supplement the equipment list. I will get a package together tomorrow. [Forgot to get his address. dah!]

I conjectured that you would want to discuss this with him further tomorrow. He said he would be in all day.

Charlie

Subject: Hanover / TW Compression Monetization

Charlie -

Talked to Jim Gill with Hanover

jgill@hanover-co.com

Hanover Co 12001 N Houston Rosslyn Houston TX 77086

phone 281 405 5174

Per your previous conversation: 1. send equipment list - engine /comp models plus aux equipment

2. face to face meeting - Houston Feb 23 or 24 (monetization team?)

* discuss equipment - operations (swing or continuous) * jurisdictional / FERC issues

3. 3+- day station tour with Hanover VP of Ops

*site review * very basic due diligence

4. re-group to:

*discuss issues *financials *agreement

Comments / questions.....

Mike

To: Michel Nelson/ET&S/Enron@ENRON cc:

Subject: Hanover!

Mike,

Talked to Jim Gill at 4:30 pm. They are very interested. He proposed the following steps:

1) Send him an equipment list. I think the Description and Location Schedule 1.1 from the P&S Agreement would more than suffice.

2) He would like to visit the stations with the Hanover V.P. of Operations and one other person. (He indicated 3 total.) A quasi due diligence look at the condition of the facilities. He would like access to records etc. during his visit.

3) We could set down and talk "financials" after that.

He did not seemed surprised that I did not have good station plot plans to supplement the equipment list. I will get a package together tomorrow. [Forgot to get his address. dah!]

I conjectured that you would want to discuss this with him further tomorrow. He said he would be in all day.

Charlie

November 20, 2000

Drew J. Fossum Counsel Enron Corp.

Dear Mr. Fossum:

I would like to take this opportunity to introduce you to LRSolutions. It is our mission to provide corporate in-house counsel with all the tools and resources necessary to excel in every area of legal practice - preventative law, new product development and new markets, litigation support, transactional work, and regulatory compliance, among others. At LRSolutions, we are able to meet this challenge through the provision of expert legal knowledge at reasonable, fixed prices.

As you are well aware, legal research and related "knowledge" activities and products are traditionally not a great source of efficiency and expertise. (if you would like to see our website it is <http://www.lrsolutions.com>. Click on any of the links on the lefthand side of the screen for detailed descriptions). Too often, these practices involve an inordinate amount of "reinventing the wheel", leading to inefficiency and burdensome expense. Outside counsel bill at exorbitant hourly rates while utilizing inexperienced, junior associates. The subsequent learning curve only adds to the enormous costs for corporate counsel.

However, LRSolutions is structured to maximize efficiency, value and quality. Our network of legal experts includes hundreds of the nation's premier law professors and other distinguished attorneys organized intuitively into areas of specialty. Please see <http://www.lrsolutions.com/network.html>. In addition, our Board of Advisers includes the former Chief Counsel for Cigna Corporation, the former Associate General Counsel from Proctor and Gamble, and a partner from a large Washington D.C. law firm.

Experienced, partner-level attorneys actively manage all research -related projects, and are always available to discuss your concerns. Our products and formats are flexible, and include multi-state surveys, detailed research memoranda on specific, complex issues, summations of law, advocacy materials such as appellate briefs and court filings, and listings of relevant authorities. We will always work with you to determine the format and objective that best suits your needs. Please see <http://www.lrsolutions.com/expert.html>.

We also are in the early stages of developing essential online compliance education training for corporate employees. As you know, compliance training is essential if corporations are to avoid damaging liability. Please see <http://www.lrsolutions.com/online.html>. Federal sentencing guidelines and courts often reduce or eliminate liability for companies with effective programs. We are looking for corporations that are interested in forming strategic alliances with LRSolutions regarding production of these courses. Please see <http://www.lrsolutions.com/strategic.html>.

I would like to respectfully request a brief meeting at your corporate headquarters to discuss LRSolutions further. If you would like to contact me by phone, or would like to receive a brochure, please feel free to call at 1-800-627-8047. Please also feel free to reply via email as well. I am convinced that LRSolutions will be a critical and welcome long-term resource for your legal department and greatly look forward to speaking with you.

Sincerely Yours

Ray Nussbaum, Esq. CEO, President LRSolutions, Inc.

1-800-627-8047 121 Captains Drive Babylon, NY 11704

* This email is for information purposes only. If, for whatever reason, you do not wish to receive further information, please simply hit reply and type remove. Thank you.

Mark Greenberg 03/23/2001 04:01 PM To: Robert Eickenroht/Enron@EnronXGate, Drew Fossum/ET&S/Enron@ENRON, John Schwartzenburg/ENRON_DEVELOPMENT@ENRON_DEVELOPMENT, David Koogler/Enron Communications@Enron Communications, Kelly Higgason/HOU/EES@EES, Jordan Mintz/Enron@EnronXGate cc: Rob Walls/ENRON@enronXgate, Mark E Haedicke/HOU/ECT@ECT, Mark Taylor/HOU/ECT@ECT, Janette Elbertson/HOU/ECT@ECT

Subject: iBuyit Payables Workflow Tool Stakeholder Kickoff Luncheon March 20

To All -

I have been asked to be the Legal Department stakeholder for the final development and implementation of the iBuyit program. Basically, iBuyit is an intranet based procurement and payables systems being developed for implementation across Enron. It is intended that this system will become the standard method for purchasing any number of services and for paying the invoices associated with these purchases.

As a stakeholder, it is my responsibility to assist with the development of the product and its marketing (internal to the various Enron Legal Departments). In order to ensure that the development and implementation run as planned, the program calls for the appointment of "Change Agents," - defined as:

"individuals who are highly respected within their area and known as the 'GO TO' people among their peers."

Though I am sure this definition fits each of you to a tee within your respective departments, I am also well aware that schedules may prohibit you from being the Change Agent. Accordingly, what I am in need of is assistance in designating that one person within your respective departments who can become the Change Agent for your group. The responsibilities of this position are the following:

- to disseminate communications regarding the project
- to develop awareness and ownership of the product among their department
- to encourage use of the product
- identify those who will need training
- encourage peer training attendance
- engage in rumor control (basically relay the facts of the program and not the myths (e.g., the product will replace jobs))

In picking the appropriate candidate, I would make sure that he/she has a working knowledge of the procurement and payables practices of your group, together with knowledge of the SAP system. Since the iBuyit system will interface with SAP, this latter knowledge would be very useful.

Please let me know as soon as possible who is the likely candidate from your group so that I can meet with them and bring them up to speed on the program. For your benefit, I have attached below the general information that has been provided to stakeholders about the program.

If any of you should have any questions, please call me.

Thanks.

Subject: Status Conference before Judge Downes

FYI. (I have not yet had an opportunity to talk to Charlie about any of this.) ----- Forwarded by Staci Holtzman/FGT/Enron on 12/11/2000 09:07 AM -----

"Tetrault, Charles D." <ctetrault@velaw.com> on 12/07/2000 04:31:10 PM To: "Richard B. Sanders (E-mail)" <Richard.B.Sanders@enron.com>, "Staci Holtzman (E-mail)" <sholtzm@enron.com> cc: "Barrett H. Reasoner (E-mail)" <breasoner@Gibbs-Bruns.com>

Subject: Status Conference before Judge Downes

There was a lengthy status conference this afternoon, lasting about an hour and a quarter. It was marred by extremely poor telephone connections. The technical difficulties frustrated the parties and the judge and made the conference a mess.

Without trying to summarize the conference, I note a few things that the Court decided to do based on the discussions.

1. Quinque. Judge Downes agreed to have oral argument on the motion to remand in Quinque on January 3, 2001 at 1:15 p.m. in Casper. One hour was set aside for argument. He declined Mike Beatty's suggestion of an additional executive summary of the briefing. The judge was the first one to suggest the oral argument. The plaintiffs suggested that the Court rule on the papers, but quickly acquiesced to the Court's suggestion when the defendants said that they wanted argument.
2. Osterhoudt. Osterhoudt appeared pro se. Motion to disqualify Wright's counsel (Phillips & Cohen) and estopping Mr. Wright on some claims. Both Osterhoudt and Wright want oral argument. Wright defendants and DOJ didn't object. Osterhoudt was appearing pro se, and so there was a long rambling discussion of the matter. The judge was reluctant to cut off a pro se party, but ultimately did. Regrettably, the rambling discussion set the tone for the rest of the call.
3. Osterhoudt. Government's motion to dismiss Ousterhoudt's case. Government wants its motion to dismiss Grynberg's valuation claims to be heard at the same time. The government claims these relator status issues are holding up the Shell \$56 million settlement and any future settlements. Grynberg objected to having the motion in Grynberg heard at the same time. Grynberg wants discovery from Wright and the government.
4. Pending Motions. The Court, of out frustration at the inability to hear the parties and at the attempts by some to argue the merits of things that the Court was not prepared to address, set down two hours for oral argument on February 22, 2001, at 10:00 a.m. on all pending motions in Wright and Grynberg that address the jurisdictional issues discussed on the call and the motions to dismiss. This obviously will create some problems. It was far from clear precisely which motions that the Court had in mind. While there are not that many motions pending, some of the pending government motions

likely could affect public disclosure / original source motions that the defendants could, but have not yet, filed. The defendants have not filed those motions yet because of a desire to first test the complaints on Rule 9(b) grounds.

5. Discovery. Parties who want discovery on those issues (Grynberg and probably the Wright defendants) were given one day to present their position by letter to the Court. Other parties then will have two days to respond.

6. Liaison Counsel. The Court designated Tom Nicholas as Liaison Counsel for the defendants in the Wright case and Don Schultz as Liaison Counsel for the defendants in the Quinque case.

7. February 22 hearing. Phil Figa, one of Grynberg's lawyers, was given the task of leading the consultation among counsel concerning how the pending motions should be addressed at the hearing and how the time should be divided.

DF

Jeffery Fawcett 03/13/2000 01:25 PM To: Terry Galassini/ET&S/Enron@ENRON, Ronald Matthews/ET&S/Enron@ENRON cc: Steven Harris/ET&S/Enron@ENRON, Kevin Hyatt/ET&S/Enron@Enron (bcc: Drew Fossum/ET&S/Enron)

Subject: Estimates for potential new IPP Loads

Marketing needs an "order of magnitude" estimate for two IPP projects that are being developed- one is NW Arizona, the other off the Panhandle lateral. These estimates are for purposes of preliminary scoping of the project(s). The Caithness Sandy Project is a little farther along in the development process.

I know we've considered the Wikiup location before as being a possible "first drop-off" point for the Panda lateral, but for purposes of this analysis, let's look at the Caithness (Wikiup) as a stand alone project.

With respect to the Panhandle lateral project, do we even have enough flowing gas supply to handle this load consistently? Can we meet the pressure requirement?

Since we're probably looking at Timberline-type estimates I'm assuming this isn't too long a putt for you guys. Can you give me a time frame to get back to me with something, first on Caithness, then on Panhandle? Thanks.

Requesting party: Gas consultant- George Briden Snake Hill Energy Resources 17 Cody Dr. Glocester, Rhode Island 02857-2916 telephone: 401-934-1433

Project #1 Caithness Corp.- Caithness Sandy, LLC Project Estimate to build a station and a lateral down to a location, approx. 40 miles south of Kingman, 2 mil. S/W of Wikiup, AZ. (along Hwy. 93) in: Sec. 5, T15N, R12W Mohave Cnty., Az. IPP load forecasted at 80 (1st phase) to 120 MMcf/d (2nd phase) at not less than 450 psig. Test Gas Jan. 2002 Commercial July 2002

Caithness is privately held. It has geothermal projects and one gas fired project- S.Carolina

Project #2 Undisclosed Utility Customer (probably SPS or PNM) Estimate to build a station and a lateral down to a (secret) location 2 miles from TW's Panhandle Lateral in Curry County, N.M. IPP load forecasted 125 MMcf/d Two GE Frame F(a)'s 550 psig minimum

John, great to hear that you are still doing the Lord's work on this case! Sounds like you have things well in hand and that the appeal argument went well. Good luck on this one and please let me know how it turns out--in fact, please send me a copy of the appellate decision when issued at this email address or by mail at 1111 S. 103d St. Omaha Nebraska, 68124. Thanks. DF

"John Wyss" <JWyss@WRF.com> on 10/02/2000 12:52:31 PM To: "pdondanville" <pdondanville%schiffhardin.com%smtp@wrf.com> cc: "dhill" <dhill@bspmlaw.com%smtp@wrf.com>, "Christopher Hardee" <CHardee@WRF.com>

Subject: MHP-Bath 2d Cir Argument

We argued the Bath appeal in the Second Circuit last Friday. Bath's counsel went first for 10 minutes; I was second for 8 minutes; Alan Knauf was next for CREST for 2 minutes; David Connors took 2 minutes for TPC; and Bath's counsel took the final 2 minutes for rebuttal. The panel took the matter under advisement when the argument was finished.

The panel was Judge Jacobs (who was on the recent Primetime 24 Joint Venture case dealing with the "access barring" sham exception to Noerr- Pennington), Judge Straub and Judge Sacks. All three are from private practice with large firms.

The argument went reasonably well, although the panel played it pretty close to the vest. Bath's counsel was not brilliant and received a lot of hard questions from the bench. The panel seemed to have no trouble with the fact that the District Court reviewed the administrative record in addition to the allegations in Bath's complaint. They got close to getting a concession from Bath's counsel that the complaint alleges damages from long delays in the administrative process, which necessarily puts at issue the overall course of the agency proceedings and requires the judge to review the record.

The panel also seemed uninterested in Bath's argument that Noerr-Pennington immunity only applies to antitrust cases. The panel recognized that the First Amendment protections must apply to all types of causes of action.

The biggest issue for the panel appeared to be the "fraud" sham exception to Noerr-Pennington. During argument, Bath's counsel suggested that, if only he had discovery, he would be able to prove that MHP's experts had "doctored" the

geological data as part of submitting their fraudulent affidavits. I countered that this was the first we had ever heard of such allegations, that they were never part of Bath's complaint, and that the only allegation was that the expert's "opinions" were wrong and without basis.

The court came back to the question of what to do if a party claims that there has been clear fraud committed during the agency proceeding. I argued, and Judge Straub agreed, that such fraud is only relevant under the case law if it goes to the very core of the proceeding and deprives it of its legitimacy. The district court's opinion establishes that noting like that occurred here.

Finally, both I and David Connors argued that the lower court's alternative proximate cause ruling was independently fatal to Bath's complaint, in that the alleged "fraud", even if it had occurred, did not cause any of Bath's alleged damages.

Please call me (202-719-7038) if you would like further details regarding the argument. Otherwise, we will just have to wait for the decision.

What would we have to do to get rid of the Demarc deal approval requirement (requiring President level approval for all Demarc delivery deals)? Can Danny revoke the policy, just like Bill created it? DF ----- Forwarded by Drew Fossum/ET&S/Enron on 01/25/2001 09:49 PM -----

Drew Fossum 01/25/2001 08:00 AM To: Danny McCarty/ET&S/Enron@ENRON cc: Dave Neubauer/ET&S/Enron@ENRON, Mary Kay Miller/ET&S/Enron@ENRON

Subject: Re: Request 39833, EOL Deal

As long as Dave and/or you are signing off on the EOL packages, I don't have any problem with this. As to non-EOL deals, we may also want to eliminate the requirement that all Demarc deals need such a high approval level. I don't think there is anything uniquely risky about Demarc as long as we have our capacity posting squared away. DF

Danny McCarty 01/24/2001 12:26 PM To: Drew Fossum/ET&S/Enron@ENRON cc: Dave Neubauer/ET&S/Enron@ENRON

Subject: Request 39833, EOL Deal

Drew, Placement of a demarc delivery package on EOL necessarily means it was approved. An after the fact note from Linda will suffice.

Linda Trevino 01/24/2001 08:48 AM To: Drew Fossum/ET&S/Enron@ENRON, Mary Kay Miller/ET&S/Enron@ENRON, Dave Neubauer/ET&S/Enron@ENRON, Danny McCarty/ET&S/Enron@Enron cc: Rick Dietz/ET&S/Enron@ENRON, Craig Buehler/ET&S/Enron@ENRON, Laura Lantefield/ET&S/Enron@ENRON

Subject: Request 39833, EOL Deal

Tenaska Marketing Ventures accepted a package on EOL yesterday that delivers to demarc. Although EOL deals are pre-approved the CMS system is coded to route demarc deals to the president level. In order to expedite the activation of this request and since it was a pre-approved EOL deal, I approved the route for each of you in CMS per a request from marketing.

Please let me know if this process will not be agreeable on future EOL deals that include demarc.

Thanks

Linda

As long as Dave and/or you are signing off on the EOL packages, I don't have any problem with this. As to non-EOL deals, we may also want to eliminate the requirement that all Demarc deals need such a high approval level. I don't think there is anything uniquely risky about Demarc as long as we have our capacity posting squared away. DF

Subject: Request 39833, EOL Deal

Drew, Placement of a demarc delivery package on EOL necessarily means it was approved. An after the fact note from Linda will suffice.

File	fossum-d/sent/1088.

Good thinking and good hustle on your part Craig, as usual. Do we know what the system problems were and if they were on their end or ours? I agree that timetable issues in general and the approval process for Demarc deals, in particular, need to be reviewed when we get together on contract process issues.

From: Craig Buehler 02/02/2001 12:20 PM

To: Kent Miller/ET&S/Enron@ENRON, Drew Fossum/ET&S/Enron@ENRON, Mary Kay Miller/ET&S/Enron@ENRON, Danny McCarty/ET&S/Enron@Enron, Dave Neubauer/ET&S/Enron@ENRON, Jo Williams/ET&S/Enron@ENRON, Jeff Nielsen/ET&S/Enron@Enron, Karen Brostad/ET&S/Enron@ENRON, Rick Dietz/ET&S/Enron@ENRON, Linda Trevino/ET&S/Enron@ENRON cc:

Subject: Re: Routing request on EOL deal

This is a long story...

Oneok requested a deal for Feb. 3-28, 10,000/d from MidCon Pool to Demarc @ \$.03/d Demand + Min. Commodity (Standard Language terms plus all Field Area points available as alternates at the discounted rate). Originally, this deal was going to be entered into via EOL. I input the deal's terms into CMS (contract system) under this assumption. Oneok

was a first-time EOL participant and they had system problems when attempting to accept the EOL posting. With the "on-time" nom deadline fast approaching, I decided to switch the deal over to a standard TFX agreement. Since EOL deals are "pre-approved," the deal had already been manually routed (at my request) so it could be activated per our standard EOL process. This deal was required to route due to the Demarc DP (all other terms were standard and within the Marketer's approval level). At the point I decided to switch the deal over to a TFX deal from an EOL deal, it was impossible to re-route for approval. I advised Danny and Drew of the change and they signed off on the CAF form. I then called Ranelle and advised her of the switch from EOL to TFX but she was not given time to review the agreement. The deal was then faxed to the Shipper, signed, returned, activated and nominated prior to 11:30am. The deal got done but not within our standard procedures. The window between a deal being struck and on time noms (a factor in the deal's value) is constantly shrinking, leaving no room for error. Hopefully the Contract Process meeting scheduled for next week will address some of these issues. If anyone has additional questions, I'll try and answer them.

Craig

Karen Brostad 02/02/2001 11:42 AM

To: Craig Buehler/ET&S/Enron@ENRON cc:

Subject: Re: Routing request on EOL deal

Craig: Would you please respond to Mary Kay on what transpired on this deal since I did the approvals? Thanks

Karen

From: Mary Kay Miller 02/02/2001 11:10 AM

To: Karen Brostad/ET&S/Enron@ENRON cc:

Subject: Re: Routing request on EOL deal

What was the EOL posting for, besides 10,000? term, rate etc? MK

Karen Brostad 02/02/2001 11:01 AM

To: Kent Miller/ET&S/Enron@ENRON, Drew Fossum/ET&S/Enron@ENRON, Mary Kay Miller/ET&S/Enron@ENRON, Danny McCarty/ET&S/Enron@Enron, Dave Neubauer/ET&S/Enron@ENRON cc: Craig Buehler/ET&S/Enron@ENRON, Linda Trevino/ET&S/Enron@ENRON, Rick Dietz/ET&S/Enron@ENRON

Subject: Routing request on EOL deal

There was an EOL deal this morning for Oneok Field Services, req 39940, for 10,000; Midcontinent Pool to Demarc that because of demarc, requires approvals through President level.

Due to the nature of the EOL deals, I routed the request then approved on your behalf immediately thereafter.

Please disregard your email notice to approve request 39940. Should you have further questions, please advise.

Karen Brostad x 37312

Will California's Restructuring Tremors Be Felt in Your Region?

Sender	lmiller@eei.org

Will California's Restructuring Tremors Be Felt in Your Region? , Copyright 2000 EEI. All rights reserved.

EEI's State Restructuring Service is proud to present an Internet E-Forum to investigate whether the problems of California could occur in other parts of the country.

The California "restructuring earthquake" is marked by the doubling of some electric bills, multi-billion dollar utility under collections, electric reserve margin problems, and consumer outrage. While these problems are the result of numerous factors, some may be replicated in other parts of the country. This E-Forum will look at six regions of the county to see if the same "tremors" will be felt in those regions and if not, why not. Our speakers will address the following questions:

Will your region see price spikes next summer?

What reliability challenges might your region experience next year?

Do any changes in state or federal laws or regulations need to be made?

How will retail markets be impacted by other factors such as, market structure, dependence on a spot market, high gas prices, and environmental restrictions?

To address these questions we have:

California - Dr. John Jurewitz, Dir, Regulatory Policy, SoCal Edison ERCOT - Mike McCall, VP, Regulatory Affairs, TXU
PJM - David Pratzon, Consultant, Exelon Power Team Mid -West - Corun Gagatsis, Sr Regulatory Strategist, Detroit
Edison New England - Gary Simon, Sr VP, Enterprise, Development and Analysis, NU New York - William L. Jaeger, Chief Eng., Transmission Planning, ConEd

Our guest moderator is Chuck Gray, Exec. Dir., National Association of Regulatory Utility Commissioners

To provide questions and commentary we have Dr. John H. Landon, Principal, Dir. Energy Practice Analysis Group/Economics

November 17, 2000 1 p.m. ET Note: Please block a 2-hour time slot for the E-Forum. We expect the program to take at least one hour. Q&A at the conclusion of the E-Forum could take up to an additional hour.

Registration Cut-off and Cancellation Policy: All registrations must be received by November 15, 2000. Substitutions may be made at any time, however, no refunds will be made for cancellations received after November 15, 2000.

Registration Cost: EEI/NARUC/NCSL Members: \$50.00 / Associates \$75 / Non-members: \$100.00

Overview of NERC's Reliability Assessment 2000-2009

Sender	lmiller@eei.org
Recipients	[]
File	fossum-d/all_documents/716.

An overview of NERC's Reliability Assessment 2000-2009 ,Copyright 2000 EEI. All rights reserved.

EEI's State Restructuring Service is proud to present an Internet E-Forum providing an overview of the North American Electric Reliability Council's (NERC) recently released Reliability Assessment 2000-2009, the reliability of bulk electric systems in North America.

The reliability of the electric generation and transmission systems serving North America has come under increased federal government, state regulator, and customer scrutiny. Generation capacity margins have decreased and the bulk electric systems are subjected to flows in magnitudes and directions not contemplated when they were designed or for which there is minimal operating experience.

Each year, the Reliability Assessment Subcommittee (RAS) of the North American Electric Reliability Council (NERC) reviews the overall reliability of existing and planned electric generation and transmission systems in North America. This year's Reliability Assessment 2000-2009 report presents:

- *An assessment of electric generation and transmission reliability through 2009
- *An assessment of the generation resource adequacy of each Interconnection in North America
- *A discussion of key issues affecting reliability of future electric supply
- *Regional assessments of electric supply reliability, including issues of specific Regional concern

Presenting an overview of this year's Reliability Assessment is Frank J. Koza, Jr., Chairman, Reliability Assessment Subcommittee, and General Manager, Ventures, PECO Energy Company.

Our guest moderator is Tim Gallagher, Mgr Technical Services, NERC

To provide questions and commentary we have Jolly Hayden, Vice President of Transmission, Dynegy

A copy of the Reliability Assessment 2000-2009 is available from the NERC web site at <http://www.nerc.com/~pc/syscond.html>.

November 21, 2000 1 p.m. ET Note: Please block a 2-hour time slot for the E-Forum. We expect the program to take about one hour. Q&A at the conclusion of the E-Forum could take up to an additional hour.

Registration Cut-off and Cancellation Policy: All registrations must be received by November 17, 2000. Substitutions may be made at any time, however, no refunds will be made for cancellations received after November 17, 2000.
