Re: TCo and Gulf Capacity for April 2001

Sender	chris.germany@enron.com
Recipients	['scott.goodell@enron.com', 'Timothy Ray/HOU/NewPower@NewPower', 'Jeffrey Porter/HOU/NewPower@NewPower']
File	germany-c/all_documents/2862.

MICHAEL GARRED @ NEWPOWER 03/13/2001 04:53 PM

To: Chris Germany/HOU/ECT@ECT cc: Jeffrey Porter/HOU/NewPower@NewPower, Timothy Ray/HOU/NewPower@NewPower, Dick Jenkins/HOU/ECT@ECT Subject: TCo and Gulf Capacity for April 2001

Chris,

As you and I both know and discussed, New Power will manage what used to be the old CES TCo and Gulf capacity starting in April, 2001. We have talked to the CDC's (COH, CPA, CMD, & CVA) have worked out the following with them:

CMD & CVA CMD and CVA will recall all of the CES capacity on Gulf and TCo from you. They will subsequently re-release it to New Power effective April 1, 2001. New Power will execute it at that time. This should happen late this week or early next week.

CPA CPA will not recall it form ENA and re-release to New Power. Can you permanently release all of that capacity at max rates to New Power as soon as possible effective April, 2001?

COH For COH, the biggest pieces of capacity on TCo are FSS storage and corresponding SST contracts. They both expire in March 2001. Therefore nothing is required of ENA in terms of releasing them to New Power.

There is a contract with an mdq of 1,000/day primary from Leach to COH 8-35 Pittsburgh (K#: 67694) that should be permanently released to New Power at max rates effective April, 2001.

There are, I believe, about seven contracts (K#'s: 68918, 68915, 69148, 69693, 68916, 68917, 69149) with primary receipt point(s) in the Toledo agg area. The primary delivery points are 5-2 Parma, 5-7 Sandusky, and 7-4 Alliance. These contracts need to be permanently released to New Power at the following rates: 68918 - \$5.171 68915 - \$5.171 69148 - \$5.171 69693 - \$5.171 68916 - \$5.181 68917 - \$5.181 69149 - \$5.181

Let me know that this okay.

Re: Storage/Choice - TCO

Sender	joan.veselack@enron.com
Recipients	['jporte1@columbiaenergygroup.com', 'dkinney@columbiaenergygroup.com', 'chris.germany@enron.com']
File	germany-c/ces/108.

Jeff (CES) and I just had a nice chat about the Choice program. Jeff mentioned the "famous contracts" that should be used for Choice Peaking outside the SST. I double checked with Joann and these contracts are being used for CES Endusers

(C&I customers) as follows:

37956 600 CES EU 61822 4000 CES EU 61825 8000 CES EU 61838 1000 CES EU 61990 2000 CES EU 65402 13400 CES EU (contract total is 20,000) 65418 500 CES STOI 66931 4000 Jeff this is Enron's transport. The Paulding contract went away effective 4/1/2000. 67693 1200 CES EU Rest CHOICE 38021 19041 CES EU (note... we are using Dayton, because not enough capacity for CES EU) 38021 27,000 STOI

If you want us to use these contracts for Choice, we would have to cut the CES EU volumes to 0. This would impact about 40 nominations on TCO side. You would have to ask Kara/Heidi/Kim/Donna... how many nom's on their side. Because of the labor involved and the general consensus not to cut CES EU markets, we have always left these nom's alone. We have found other capacity for Choice gas above the SST capacity (54,000 now and 134,000 in the winter). There are many different options... and we can discuss them over a conference call.

The other item to consider, the Choice program requires us to have some STOW to use to balance Choice burns. Currently, I have been doing 50/50 to 60/40 split (pool/stow). The baseload target is 20,000. Actual STOW for April has been 2400 to 42,000 depending on mother nature. This is up for discussion... I used to discuss this with Paul and Noel on daily basis. Now, I'm just doing it on my own.

Lastly, our target for net STOI is 36,000 a day. We have been calling for overinjections, caused by mother nature and choice actuals. My understanding is that CES had a different goal for net STOI... we just need this clarified and can move forward for the rest of the month. We have typically tried to meet the EOM goal, not necessarily a daily goal because of choice actuals cause havoc. Therefore, we can get the net STOI back in line... with the remaining days.

Hope this covers it.

Chris Germany@ECT 04/11/2000 02:01 PM To: dkinney@columbiaenergygroup.com, jporte1@columbiaenergygroup.com cc: Joan Veselack/Corp/Enron@ENRON, Molly LaFuze/HOU/ECT@ECT

Subject: Storage

Hey gang. Joanie is still working on current day activity.

Joanie, please call Jeff Porter at 703-561-6447.

I will try to update this worksheet every other day if not every day. ----- Forwarded by Chris Germany/HOU/ECT on 04/11/2000 01:26 PM -----

Chris Germany 04/11/2000 07:31 AM To: dkinney@columbiaenergygroup.com cc: Subject: Storage

Here is a quick and dirty worksheet. I've been trying to come up with a total daily activity worksheet on "Sheet 2". The storage numbers and choice numbers are on "Sheet 3" and the proxy numbers with the daily storage volumes are on "Sheet 1".

Capacity

Sender	chris.germany@enron.com
Recipients	['victor.lamadrid@enron.com', 'scott.goodell@enron.com', 'katherine.kelly@enron.com', 'dan.junek@enron.com', '...]
File	germany-c/sent/1061.

Transco Beverly has all the numbers. Either Scott or Beavy needs to go into Transit as Enron North America tomorrow morning and execute the 4 segments listed. Beavy has the offer numbers. We will have (hopefully) 115,000 dt's of pure 3-3 segmented capacity, all on k#.7537.

Dan, next week we can probably create at least another 40,000 effective next Wed.

Tetco We ran out of credit on ECT. Scott will talk to Trish Meigs about that in the morning. Kathy has a list of all the offer numbers that need to be executed. AFTER the all offers have been executed, have Meredith check screen AN52 effective 4/1/2000. Kathy, you might be able to do this too.

Dan, I think you will be hurting for Tetco capacity. Remember, we did release 3500 dts of Ela to M2 to IGS.

CNG We have no fuel waivers from Canajoharie for April. I just never got around to requesting them.

Scott, Call Cindy McGinnis at 304-623-8854 and ask for fuel waivers on contract 5A2500 from Iroq/Canajoharie (meter 41101) to the following meters NIMO East 20550, NIMO West 20500, East Ohio 20100, NYSEG 20700, RG&E 20600, and Hanley & Bird 21100. I left her a voicemail to call you. Ask her if we can send in the paperwork next week. Let Scott Hendrickson, Robin, and Dick know what fuel waivers CNG approves. I have all the CNG contracts on the worksheet.

I will be calling in the morining.

New Hours for The Doctor's Office

Sender	announcements.enron@enron.com
Recipients	['dl-ga-all_enron_houston@enron.com']
File	germany-c/memos/17.

Beginning May 6, 2002, the Doctor's Office in the Enron building will be open on Tuesdays and Thursdays only. The office hours will remain the same: 7:30 a.m. - 12:30 p.m., and 1:30 - 2:30 p.m. For our employees' convenience, Dr. Ramirez has a second office where she will work Monday, Wednesday and Friday. This office is currently located at:

Greenpark II Office 7505 South Main, Suite 400 Houston, Texas 77030 713-796-8422

Emergency appointments will be accepted on the same day at the respective office. To schedule an appointment, employees can call 713-750-7074 on Tuesdays and Thursdays, and 713-796-8422 on Monday, Wednesday and Friday.

This summer Dr. Ramirez will move from the Greenpark II office to the St. Joseph Hospital Medical Towers. Employees will be notified when the new office is open for business. Transportation to the St. Joseph office will be available through the St. Joseph Van Services at (713) 756-8267. The van service requests that reservations be made 24 hours in advance.

A third medical services option is available. Employees may schedule appointments with Dr. Farris Blount, who is located at:

St. Joseph's Professional Building 2000 Crawford, Suite 1118 Houston, Texas 77002 713-659-1118

Employees may also utilize the St. Joseph Van Services for appointments with Dr. Blount.

For more information or if you have a question, please contact <mailto:georgia.fogo@enron.com> or 713-853-5609.

FW: Fwd: Northern Border Stipulation

Sender	ruth.concannon@enron.com
Recipients	['ed.mcmichael@enron.com', 'maria.garza@enron.com', 'chris.germany@enron.com', 'michael.koss@us.pwcglobal.com']...
File	germany-c/bankrupt/transport/northern_border/4.

Michael,

Here is the Northern Border Pipeline draft stipulation that ENA is planning to present to the BTRC. It incorporates the flexibility and features that Enron Canada needs to complete settlements that are in the works with a couple of former netback producers, Birchill and Tenaska. It also has backup disposition plans for ENA's Northern Border capacity in the event that the Enron Canada deals fall apart. With respect to future claims, NBPL's posting of the capacity on their website is just another way to find creditworthy shippers that can step into ENA's shoes for the remaining terms of the firm max rate transport agreements.

Ruth

Gulf South Pipeline k#28223

Sender	chris.germany@enron.com
Recipients	['s..olinger@enron.com', 'ruth.concannon@enron.com', 'maria.garza@enron.com']
File	germany-c/bankrupt/transport/gulf_south/1.

I spoke with Kelly Edwards (713-544-4692) at Gulf South on Friday regarding our Gulf South contracts 28223 and 28754.

According to Kelly, k#28223 was an Entergy contract and ENA was agent for Entergy. The rate schedule is NNS. The agency was cancelled and the bills are being sent directly to Entergy. She couldn't tell me when the agency was cancelled but she suggested that I call Dave Sommer (281-297-3502) at Entergy to find out more about the contract. I briefly spoke with Dave Sommer this morning. He will call me back this afternoon.

Contract 28754 is a FTS rate schedule with a MDQ of 15,000 dth. The primary receipt point is Vencie and the primary delivery point is Ormet, meter 9122. The end term on this contract is June 30, 2003. I believe ENA used this contract to serve a sale to Ormet, deal 1020612. The end term of the capacity matches the end term of the sale.

From: Chance, Lee Ann Sent: Thursday, March 28, 2002 4:08 PM To: Concannon, Ruth Subject: RE: Transwestern K#24924 Capacity Release Revenue Sharing for January 11-31

Ruth,

FYI the payment of \$1,312.50 from Transwestern came in to ENA on 3/4/02. Do you have a particular way you'd like these dollars handled?

- Lee Ann

-----Original Message-----

From: Concannon, Ruth Sent: Wednesday, February 27, 2002 12:12 PM To: Wynne, Rita; Chance, Lee Ann Cc: McMichael Jr., Ed; Garza, Maria; Polsky, Phil; Mann, Kay Subject: Transwestern K#24924 Capacity Release Revenue Sharing for January 11-31

Rita,

Richard Hanagriff at Transwestern called and asked that we e-mail him our wiring instructions so that TW can pay ENA's capacity release revenue sharing for January 2002. The details of the deal and my discussions with TW are given below.

Please send him the wiring instructions so that we can get the money in the door.

Please note that there will also be payments made to ENA under K#24924 for February and March 2002. The good news is that invoice credits will be very clear for February and March, since the deals were done for the entire month.

Richard Hanagriff's phone number is 713-853-6709.

Thanks,

Ruth

CAPACITY RELEASE REVENUE SHARING TRANSACTION

ENA and Transwestern agreed to share the revenues generated in releasing ENA's TW capacity in excess of our discounted rates on a month-to-month basis. The agreement also requires that TW release us from claims if the capacity is released at rates below ENA's contract rates. As a result, only K# 24924 (i.e. the San Juan contract) has been released to a third party.

Transwestern was able to release the 25,000 Dth/d of Ignacio to I/B Link capacity at \$0.065/Dth for January 11-31 (i.e. 21 days). Since our discounted rate is \$0.06/Dth, ENA should receive 50% of \$0.005/Dth, or \$0.0025/Dth, for the 21 day period. Transwestern's invoice for January 2002 business showed that a \$13,687.50 payment is due Transwestern. This amount was calculated from a credit of \$0.0625/Dth for 21 days offsetting the \$46,500 monthly charge. Another way to calculate this amount is that ENA's portion of the capacity release revenue sharing, \$1,312.50, was netted against the \$15,000.00 pipeline charges for January 1-10.

ENA's position is that the agreement entitled ENA to receive the revenue sharing of \$1,312.50 as a cash payment during the normal billing cycle, and that the other \$15,000 should be addressed during the bankruptcy claim process. I discussed this issue with Paul Y'Barbo at Transwestern on February 15th. He followed up with me on February 20th that ENA will be paid the \$1,312.50 as soon as Transwestern receives payment from the outside party that picked up ENA's capacity. TW thought that payment from the third party would be received in a "couple of days".

Mr. Fleck,

I write on behalf of my colleague Antonia Donohue. You and her negotiated a stipulation on or around May 15, 2002 between Enron and KeySpan Energy Delivery-New England (Boston Gas) whereby Enron agreed to decide by May 25, 2002 whether to assume or reject an executory contract between Enron and Boston Gas. According to the stipulation, if Enron neither moved to assume the contract or noticed its intention to reject the agreement by May 25, 2002, the contract would be deemed rejected. It is my understanding that Enron has not acted to assume or reject the Agreement within the agreed upon time frame. Please inform me whether this is correct.

Thanks, Sharan Nirmul

File	germany-c/bankrupt/transport/northern_border/5.

Mark,

My reading of the 45 page settlement agreement, says that ENA agrees ... to release to Birchill "on a permanent basis on or before October 31, 2002". This wording gives us more flexibility than just saying the Birchill transaction is not going to become effective until November 1, 2002. It also matches up with Enron Canada's Birchill settlement which is how I discussed the issue with Eva.

I did a quick read of NBPL's Motion. Although, there was not a Schedule A in the Motion, it looks like the base contract for ENA's Tenaska temporary capacity release will be included in NBPL's Schedule A. Your comment to Len Parkins on the

revision is on point.

Ruth

-----Original Message-----

From: Mark Ellenberg [mailto:Mark.Ellenberg@cwt.com] Sent: Monday, May 13, 2002 4:18 PM To: Lenard M. Parkins Cc: Concannon, Ruth Subject: Re: Fwd: Stipulation and Order - Clean and Redlined

Thanks for the revisions. We need the following additional changes:

We need to see schedule A. One contract has been released to Tenaska until October 31, 2002. That contract should not be rejected until after that date. The Burchill transaction is not going to become effective until November 1, 2002. We suggest that NB do temporary releases between now and then. Mitigation referred to in paragraphs 2 and 4 should include either payments actually received or the highest bid rejected in the event NB imposes a minimum bid that is not hit.

I understand that Ruth Concannon has discussed these issues with Eva.

Also, I have not yet heard from Brian Rosen.

Thanks.

File	germany-c/sent_items/831.

Same as before. We should have another supplier set up by the end of the day. The calculation for the prepay is 2000 dth x \$.1221 per dth = \$244.20 for gas flow on 2/5/02 on Tenn contract 2891.

-----Original Message-----

From: Germany, Chris Sent: Friday, February 01, 2002 11:40 AM To: Dhont, Margaret; Boyt, Eric Cc: Garza, Maria; Olinger, Kimberly S. Subject: Prepay to Tennessee Gas Pipeline

Margaret I've attached the prepayment request. The physical address for the bank is

Tennessee Gas Pipeline Company C/O Bank Of America File #96264 840 S. Canal Street, 6th Floor Chicago, IL 60693

The address of the company we are doing business is

Tennessee Gas Pipeline Company Nine Greenway Plaza Houston, TX 77046

The person I negotiated the deal with is Andy Armstrong, his number is 832-676-5120. The person at El Paso Corporate Credit (Tennessee is a sub of El Paso) is Julie Baker, her number is 713-420-7446.

Eric, Julie at El Paso said the only reason she is requiring a prepay for this small an amount is because her records show that ENA has not paid any monies for anything on the El Paso pipelines, including Tennessee, Sonat, ANR, or El Paso Pipeline. I know that we should have at least paid for the Bear Creek storage on Tennessee.

Allied Signal	
Sender	joan.veselack@enron.com
Recipients	[jwhited@columbiaenergygroup.com', 'dick.jenkins@enron.com', 'chris.germany@enron.com', 'katherine.kelly@enro...]
File	germany-c/discussion_threads/857.

Per my voicemail message to John.

I talked to Stacy Miller at TCO to better understand the SIT limitations.

TCO has something called TFE (Total Firm ???). Plants can burn up to this amount and plus 1.03%.

Allied has the following FTS capacity;

39095 50075 62672 3333

Total 53408 x 1.03

Total allowed without penalty 55,010

Stacy, Cindy, Steve please verify this amount.

If Allied burns above this amount then they will be subject to penatly, even if SIT withdrawal is allowed. TCO has started to enforce this penatly again.

Stacy did say that we could true-up the next day to avoid the penatly, like we do for the Cogen's. However, you still need capacity above 55,010 to meet the burns. That is why Cindy was letting Allied use its SIT withdrawal and Aristech's contract. Unfortunately, this was cut by TCO by about 50%.

Not sure what you want to do John. You are welcome to talk to Chris and Scott about using Enron's Capacity... but ours is maxed out for the Cogen's in that area. International Paper may have some idle capacity, you would have to talk to Amy at Alliance 502-426-4500 x7372.

This brings up another question. When will Allied be transferred to another fuel manager?? Lee Tippet said it would be effective April 1st. If it is not April 1st, Allied needs to sign the piece of paper to allow Enron access to perform Allied's nominations. If Allied still refuses this to do it, you will need someone at CES to perform these nominations. I will not have access to my CES account on April 1st to do Allied's nominations.

Thanks for your patience and understanding.

Gentlemen,

It is my understanding that Enron Representative Chris German informed Tallahassee Representative Pam McCullers, earlier this morning that Enron would not be scheduling gas to Tallahassee pursuant to subject agreement for the month of June. If this is indeed the case and Enron does not schedule gas with Tallahassee by 9:00 a.m. Eastern Prevailing Time tomorrow, May 31, 2002, Tallahassee will seek replacement supplies from alternative sources.

Should you have any questions or comments, please do not hesitate to contact me or Pete Koikos, Director of Energy Services. Sincerely,

Roger McDonald
Roger McDonald Manager of Energy Trading City of Tallahassee - Energy Services 100 W. Virginia Street Tallahassee, FL 32301 850.891.6897 - Phone 850.891.6890 - Fax 850.524.6897 - Cell mcdonalr@talgov.com

I just spoke with Brian Lamb at Columbia Gulf. He said the space being auctioned in the notice below is Enron space.

Brian said their primary contact at Enron was Scott Neal. I told him to change that to Ruth Concannon and I gave him Ruth's phone number.

Chris, Is this some of the space that EES wants to keep on TCO? Ruth

-----Original Message-----

From: Vanderhorst, Barry Sent: Monday, March 04, 2002 1:49 PM To: Concannon, Ruth Subject: Capacity on Columbia Gas Transmission

Ruth: Rhonda Smith received a telephone call from Greg Williams regarding an asset which is still tied to Enron Energy Services. NYSEG released storage (contract # 65116) and pipeline capacity (contract # 71412) which are mandatory assets tied to supporting the retail markets behind NYSEG. These assets have not been released by Enron Energy Services and thus could be make us liable to post-petition damages and claims. The storage volume of 13056 dth must be resolved by March 31, 2002 as the amount will be liquidated by the pipe. NYSEG is no longer a market being supported by EES but I would like to take advantage of the high current market prices.

This brings up another question....has any of the EES capacity been released back to the pipe, especially those assets which are currently not being used to support 'keeper' markets? Please contact me regarding the status of this progress and what needs to happen to expedite resolution to paragraph one. Thanks for your help! BV

Diane,

I am also missing two deals from the same time. One goes with deal # NA0713.5 for delivery to Transco Z6, the term is Mar'00-Feb'01 for various volumes and prices, CES buying (Mar'00 vol. - 11,137@0.5250).

The second goes with deal # NA1137.2 for delivery to Columbia Gulf Mainline, the term is Mar'01-Apr'01: Mar'01 26,671@0.0375 Apr'01 13,166@0.0300

Please check on these confirms and refax them to me @ 703-561-7317.

Thanks for your help,

Brian 703-561-6486

Chris.Germany@enron.com on 05/12/2000 03:46:59 PM

To: Kimat.Singla@enron.com cc: Elizabeth.L.Hernandez@enron.com, Dianne.J.Swiber@enron.com, Brian Perrone/CES/ColumbiaGas@COLUMBIAGAS, Charles Dalphon/CES/ColumbiaGas@COLUMBIAGAS

Subject: CES Confirms

I changed the Oct 2000 volume on deal 203062 (tagg NA1167.8) from 95244 dth to 95246 dth.

Please make the following change: Deal 203030 (NA1137.4) change the volume for April from 50,857 dth to 13,527 dth, and change the volume for May from 17,866 dth to 4,752 dth.

Please verify the following info; The confirm for deal 169036 (NA0713.1) shows a price of \$2.295 + \$.6800, according to CES this should be a price of \$2.795 + \$.6800. Please verify which price is correct.

The confirm for deal 168997 (NA0713.4) shows a basis price of \$.455 for April and CES is showing \$.175. Please verify which price is correct.

CNG MARQ Space from the pipeline

Sender	chris.germany@enron.com
Recipients	['dick.jenkins@enron.com', 'james.javins@enron.com', 'john.singer@enron.com']
File	germany-c/discussion_threads/637.

I don't think this is very usefull but you guys will know best.

MARQ CAPACITY AVAILABLE Received 2/29/00 9:20 am Posted 2/29/00 9:30 am

CNG Transmission will accept bids for the following MARQ capacity, which is available for service commencing March 2, 2000.

Receipt Point: 1,779 Dths/day at Meter #60004 Name - Aggregation Point #1

721 Dth/day at Meter #50004 Name - Finnefrock Aggregation Point

Rate: Maximum Demand Effective Tariff Max (Currently \$6.2500)

Primary Term: Commencing March 2, 2000 through March 31, 2000

MARQ: 2,500 DT/Day

Bids will be evaluated using the Net Revenue criteria of Section 23.3.B.2 of CNG's FERC Gas Tariff. Subject to the open-access requirements of Parts 161 and 284 of the Commission's regulations, unless mutually agreed otherwise in consideration of relevant operational and market factors, CNG reserves the right to reject any bids at less than its maximum applicable rates.

CNG also reserves the right to reject contingent bids and bids from any party that does not qualify for service in accordance with all applicable provisions of CNG's FERC Gas Tariff.

Bids for this capacity must be submitted to CNG by fax at (304) 623-8530, during the period from 10:00 AM (EST) February 29, 2000, through 10:00 AM (EST) on March 1, 2000.

If you have any questions regarding this capacity, please contact Iris King at (304) 623-8213.

File	germany-c/inbox/127.

Hey Squat Low,

Debbie and I went for a Booze Cruise last Saturday Night up the Bernard. My Buddy has a 95 Mastercraft which is immaculate. Man, that is a nice boat. His son does the bare foot thing and ski boarding. Man, I told Jerry there are a million more homes on the river than I remember. I don't remember the banks being that high either. Hey, Debbie's parents are selling their home on the Bernard. It is down close to the mouth. The are approximately two hundred yards up and across the river from Perry's windmills. The house is about 1400 square feet upstairs, two be, open living, dining, kitchen, one bath. Garage and small efficiency apartment downstairs with bath room. There is river frontage with canal frontage down the south side of lot. I think it is listed for \$140/152 k. Hopefully it will sell pronto. How much is the insurance and taxes all together, please itemize! Time to head out to God's Country. My second light bill was \$58. I have not moved the washer and dryer into the house as of yet. I still have to buy a gas dryer. We keep the thermostat on 76 until bedtime. I turn it down to 75 so it will be sort of snuggly! Hmmmhuuu! See you in the funnies.

Keep your powder dry!!!

Be Safe!

Yo'

Bro'

From: Germany, Chris [mailto:Chris.Germany@ENRON.com] Sent: Tuesday, June 05, 2001 1:58 PM To: Don Germany (E-mail); Jerry & Barbara Germany (E-mail) Subject: House Papers

Guess what? The house is insured through July 21st or 24th or something like that. I went digging through the papers last night and found it. Guess who the Goober was that paid it last year???? me.

What I don't have are papers on the Silver Leaf resort thingy. I mean I don't have a stitch. That's ok - I mailed them a letter yesterday. I'm going to try to get a gazillion bucks for it and leave you guys high and dry! Whoooo hooo - Brazil (because of the ladies) here I come!!!!!!!!!!!!

Movies I want to see - Swordfish (John Travolta), The Mummy II, and a new Jet Li (kung fu dude) movie.

I'm still looking for a bay boat fella's - about 17-19 ft long with a 70-115hp motor. I'm willing to spend up to \$6,000.00.

FW: Gas Sales Contract Between Tallahassee and Enron

Sender	chris.germany@enron.com
Recipients	['ed.mcmichael@enron.com', 'robin.barbe@enron.com', 'chris.germany@enron.com', 'michael.bridges@enron.com', 'r...']
File	germany-c/bankrupt/tall_dominion/6.

Ed, Mike, I am assuming that you two will address all the activity related to the Tallahassee contract going forward. Let me know if there is something you need me or Robin to do.

Also, Pam Alley at Tallahassee (backup for Pam McCullers) would like for us to let Tallahassee know by 8:00 AM everyday what we are going to do for the next gas day. It sounds like Tallahassee has not bought any base load supply to replace this gas.

-----Original Message-----

From: Doug John [mailto:djohn@jhenenergy.com] Sent: Friday, May 31, 2002 11:22 AM To: Germany, Chris; McMichael Jr., Ed; Bridges, Michael; McDonaR@talgov.com Cc: WES@mail.ci.tlh.fl.us; FernandR@talgov.com; HurleyP@talgov.com Subject: Re: Gas Sales Contract Between Tallahassee and Enron

Roger/Pat, et al: Should we be drafting an emergency motion to the Bankruptcy Court for rejection of this contract, such motion being prompted by Enron's impending failure of performance? I would think that we at least need to have a plan for advising the Court of any intention we have to try to terminate this contract for cause. I am concerned that the Court may take the following view: (i) Enron has just advised us that it values this contract at over \$2 million, so it presumably it does not want to terminate it for nothing; (ii) under the terms of the contract, our remedy for non-performance is arguably the right to be made whole for our incremental costs of replacing the underlivered gas supply, rather than contract termination, and there is no indication Enron, as debtor-in-possession, does not intend to honor that obligation. We probably need Jason's input here, and in any event to proceed carefully before throwing down the gauntlet. Doug

"McDonald, Roger" <McDonalR@talgov.com> 05/31 11:57 AM >>>

Gentlemen,

Your company has failed to provide gas supply beginning tomorrow, June 1st, and it is my understanding that Enron will not be scheduling gas to Tallahassee pursuant to obligations of subject agreement for the entire month of June. Moreover, it appears that Enron shall default same contract for failure to perform, thus terminating the agreement. In any case, Tallahassee would appreciate notification at your earliest convenience so that we may make decisions regarding our energy supply alternatives.

Should you have any questions or comments, please do not hesitate to contact me or Pete Koikos, Director of Energy Services. Sincerely,

Roger McDonald

Dear Mark:

I received your voicemail concerning the parked gas and have discussed the matter with our client.

It is our understanding that Enron owes Southern Natural Gas at least \$72,000 in parking charges under the relevant agreement for this parked gas. This is separate and distinct from any other amounts owed to Southern Natural Gas under any other agreements. It would seem appropriate that Enron pay the amounts owed in respect of the parked gas.

We would be happy to discuss this with you, of course.

Greetings,

Thanks for the TV. and Jaime also said Thanks for the bed room suite. Chris, I found Dad's old pistol. It was under the dresser in his bed room. I placed it in the linen closet third shelf from the top, back left. It is captured in a pistol storage case. I stuck it in behind the sheets and things. I saw Chad and Angela on my way out. They are a great couple. Jerry, I am going to be very busy with the scrap here at work. I am going to get in touch with Gerald and you and him can work out the agreement if he wants to lease Dad's pasture. As I stated he will pay \$20/acre per year. You had said we do not want to pay for a fence along the creek. When I have leased places in the past I have had to build new fence at my own expense. Most folk's base their cow/calf operations on a five year program/depreciation. If I built fence and that particular piece of property sold before the five years was up, then I was reinversed the balance of my initial fence/material investment, excluding my labor. Something to think about. I hope we do not own that place for five more years. Gerald also said he would mow the grass around the house and sort of keep the place tuned up.

Ma fell Saturday Night and busted her forehead. They placed her in Angleton/Danbury for overnight observation. I think she required about seven stitches in her head. There were x-rays taken and her lungs are pretty much gone. Of course, that depends on how well the x-ray tech can read his prints.

Stopped by and saw Bernie Max. Now where did they come up with a name like that? They removed the lymph glands from his neck. Starting down the torso just at the left collar bone, a width of about three inches go down the torso about six or seven inches. A triangle shape about the size of a piece of large pizza. The incision must have been about 1.5/1.75 inches deep into his body. The doctor told him it was only fatty tissue. They took a pretty big chunk out of his chest. He had a six " x eight " piece of skin removed from his left thing for a skin graft. It looked pretty painful. He was in good spirits and bull coming around.

I guess that is about it. I would like to have a timber appraisal performed on the Dad's place. I'll be chatting with you guys. Oh, I forgot the dang remote to the TV. I really was not for sure which one it was. I think I need it to program the darn thing. Keep your powder dry.

Y'all be safe,

don

Spoke to Carrie at the lawyer's office today. Everything has been signed by Mary and Carrie will mail me the originals to sign. I asked about a termination ont he \$1500.00. Joal told Carrie that since we couldn't include it in this agreement since we didn't agree to it in the meeting with Mary. IF Mary agrees, they will prepare and addendum to the original agreement.

I've learned a lot and the sooner we are through with this lawyer the happier I will be. BE NICE NOW.

Kim,

Please order Chris a power strip. I was not able to power on his PC because he did not have a free outlet.

Please call the Resolution Center (3-1411) to request IDF 6F4A-B be activated. I would have done this myself, but the Network Team is now requiring a Co. and RC #.

One more thing, Chris is requesting Monitor Arms. If you do order them for him, he will need two sets of Vertical Arms. These Arms can be ordered via e-mail from Reggie Wilson.

Chris,

As soon as the power strip comes in and the port is activated I can come by and complete the install.

If you have any questions please call me.

thanks,

File	germany-c/inbox/42.

All,

At today's Legal Staff Meeting Sara asked that forward to all members of the EWS/EES Legal Department the Indices or Tables of Contents for the Master Netting Agreements & Payment Netting Agreements, which are housed in notebooks in my office. Therefore, attached are the following:

1. MASTER NETTING AGREEMENTS FOR ENRON'S DOMESTIC AFFILIATES 2. NETTING AGREEMENTS FOR ENRON'S DOMESTIC AFFILIATES (Liquids Group) 3. MASTER NETTING AGREEMENTS FOR ENRON CAPITAL & TRADE RESOURCES LIMITED (LONDON OFFICE)

It is my understanding that Enron Power Marketing, Inc. entered into Netting Agreements for payment with various counterparties; however, I do not possess copies of those agreements.

The attachments may be a good indicator of what agreements are out there with respect to netting, however, if you need a hard copy of a particular agreement or agreements, just let me know.

Cordially, Susan S. Bailey Enron North America Corp. 1400 Smith Street, Suite 705 Houston, Texas 77002 Phone: (713) 853-4737 Fax: (713) 646-3490 Email: Susan.Bailey@enron.com

Electronic Pay Stubs

Sender	enron.payroll@enron.com
Recipients	[chris.germany@enron.com]
File	germany-c/inbox/250.

Get ready. Beginning in November, electronic pay stubs will be available to all employees who have their paychecks direct deposited into their bank account. Electronic pay stubs are an easy, fast, and efficient way for you to get your payroll information. They will also help Enron to realize a considerable savings in time and dollars spent over traditional printed pay stubs.

If you prefer to receive a hardcopy of your pay stub, click on the link below to complete a request form. This form must be submitted to Payroll by October 15, 2001. Unless you submit a form your pay stub information will default to electronic viewing.

Please click on the link below.

Name: CHRIS GERMANY Personnel number: P00503219 Phone: 7138534743

If you have questions about electronic pay stubs, please contact Janice Priddy (Payroll) 713-853-7839 or Marie Newhouse (ClickAtHome) at 713-345-4185 or send an email to Enron.Payroll@enron.com (Enron Payroll in Outlook).

Stay tuned for more details in the coming weeks.

Chris,

Columbia Marketing has some outstanding invoices from Jan - Mar of this year for gathering and processing charges against contract 50140 IGS. I talked with Doug Kinney at CES, and he referred me to you. Should Enron be paying these charges? Do you need me to send copies of the invoices to you, or do you have an accounting contact for me?

Any help you can give me would be greatly appreciated.

PS Credit tells me that the Jan Gulf invoice is outstanding, also.

Hi everyone!!

I made it and my bags finally showed up... almost had to do a shopping trip.

My apartment is right across from the office and is very nice. Maryland is beautiful and the weather is great... nice and cool... in the 60/70's! I need my sweaters already.... who would have thought.

TCO (the pipeline I scheduled) is taking us to the Orioles game Friday.

Please note my e-mail has changed slightly... I know... I said it wouldn't. Gen changed to neg. Neg is for National Energy Group. It was gen for US Generating.

joni.veselack@neg.pge.com

My Phone numbers: 301-280-6177 work 301-654-0508 home (still need to change my voicemail)

My address: The Metropolitan 7620 Old Georgetown Road Unit #214 Bethesda, MD 20814

Looking forward to hearing from y'all and your visits!!!

PG&E National Energy Group and any other company referenced herein that uses the PG&E name or logo are not the same company as Pacific Gas and Electric Company, the regulated California utility. Mark,

Williams will be buying Juniper's crude from EI 28 and EI 57 for December 01 thru May 02.

The price for the EI 28 crude is Koch WTI plus \$1.45. The price for the EI 57 crude is Koch WTI plus \$2.38.

Per our phone discussion, you will automatically pay Juniper each month...no invoice is needed from me. However, I will be contacting you each month, just to confirm that payments will be made.

I will need to get back with you re exact name of the Juniper entity, and address, state of inc.... so you can put together a 6 month contract.

Chris,

Columbia Marketing has some outstanding invoices from Jan - Mar of this year for gathering and processing charges against contract 50140 IGS. I talked with Doug Kinney at CES, and he referred me to you. Should Enron be paying these charges? Do you need me to send copies of the invoices to you, or do you have an accounting contact for me?

Any help you can give me would be greatly appreciated.

PS Credit tells me that the Jan Gulf invoice is outstanding, also.

Settlement Conversation Recap

Sender	michael.bridges@enron.com
Recipients	['koikosp@talgov.com', 'chris.germany@enron.com']
File	germany-c/bankrupt/tall_dominion/17.

Hi Pete,

Wanted to recap our conversation yesterday, update you on our timing and get you my contact information.

Regarding a possible settlement, it appears to me that this is a concept that you have considered and are willing to pursue. We will have a valuation of the contract for you Monday. It is my suggestion that you review the proposal, make sure that you agree with the outstanding transactions and complete your own valuation. Once we have agreed on the

universe of transactions, you and I will discuss and finalize a settlement amount that we are comfortable will be approved by the creditor committee and bankruptcy judge.

From this point, Enron will begin the process of filing a motion for settlement and schedule an appropriate hearing date for the judge to rule. Please seek bankruptcy council to determine if it will be necessary for a representative from your company to attend and, as well, to be comfortable with the process.

Finally, we will provide you a sample Release Letter for your review. We will seek your comments, if any, prior to the hearing date. After the settlement motion is filed, we would ask that there are no more document or value negotiations in order to expedite closure.

All of that said, concurrently, in case you and I are not able to reach agreement on a settlement amount, we are going to take the first step in an auction process. This means that I am going to send you a procedural Notice of an anticipated auction to sell your contract as we discussed yesterday. It is our desire to settle this prior to an auction taking place. The settlement process is our preferred route of resolution. Please call me if you have any questions regarding this.

Please, call me with any questions and let's work hard at keeping an open dialog so that we can resolve this to both of our mutual benefits. I have included my contact information at the end of this email-- if you could return this email with your mailing address, I would appreciate it. Also, I look forward to working with you through this process, and finally, thank you for your time and attention to this matter.

Sincerely,

Mike Bridges

File	germany-c/sent_items/1111.

This is what I want, at 17 to 18 footer with a 70-100 HP motor. I prefer a shallow draft center console for bay or bayou fishing.

Make it happen buddy - and remember, I'm not made of money.

"Germany Jr, Don (WD)" <WDGERMANYJR@dow.com> on 04/16/2001 07:03:27 AM To: "Chris.Germany@enron.com" <Chris.Germany@enron.com> cc: Subject: RE: Taxes

I am glad to hear the both of you are o.k. How does the grass look up at Dad's. I am thinking we should maybe bale the hay. I have intentions of going up there this coming weekend. You should have bought a boat during the boat show. I have a friend who is always fishing and I will ask him about a boat. Do you want a ski boat or a fishing boat? Freshwater or Saltwater. I do know the best motors are made by Yamaha. A friend of mine at Demi Jon had a Gulf Coast which is basically a chopped down Boston Whaler. I think the boat was around 21/23 '. The sides were approximately 6/8" tall with a center console and a very large ice chest mounted directly behind that which served as a seat. It also had what I call a jack plate on the motor for vertical lift prop clearance between boat and bay bottom. He could run in about 8" of h2o. If I

remember correctly it was a V 6 150 horse Yamaha. That baby would fly. They are bay boats but Aubrey took his out in the Gulf frequently. You should call Duane Davis. I bet he can find you exactly what you want.

Buddy, did the Easter Bunny come to see you?

Be Safe!

Yo Bro,

dg

I started the process with Oxy to approve an agreement with ENA similar to the one with EES in December of 2001. We should have it tomorrow morning, it can be signed and faxed to them and you will be able to do a deal.

We will get regular, hard copies of the agreement back via regular mail.

Post-petition monies cannot be set off against pre-petition, but if someone wants to send me the short paragraph you are using....we will incorporate it. I am adding the necessary bankruptcy wording to the GISB.

-----Original Message-----

From: Finelli, Christina Sent: Monday, June 17, 2002 11:53 AM To: Barbe, Robin Cc: Darmitzel, Paul Subject: RE: GISB Base Contract - Occidental Energy Marketing, Inc.

Robin,

I have reviewed the GISB sent by Occi. The GISB between Occi and EES does NOT contain the special provisions contained in the within GISB. I can tell them we want the wording exactly the same, but we are dealing with different types of deals.

The main reason EES was able to negotiate them out, was EES did not record. EES prefers to have a written confirmation, does Wholesale?

Paul, since Wholesale records, I would think that the second special provision would apply, and the first one certainly could or could not, depending upon whether this is the practice of Wholesale. If this is merely Occidental's practice, then I will propose wording to change the reading to reflect that we do WANT all confirmations of less than one month to be confirmed.

The third special provision, can go either way, your call?

The fourth provision, seems fine, again your call?

Normally the pre-payment (by Occy) does not go in the actual GISB agreement. I would like to have Carol Wilson insert our bankruptcy language right before the signatures on page one.

Also, I would suggest under confirming party on page one, that it read: Enron Wholesale, unless you do not prefer to confirm, but I am pretty sure you do.

Let me know later.

FW: Dominion prepay for City of Tallahassee deal for March 2002

Sender	chris.germany@enron.com
Recipients	['max.doner@enron.com', 'ed.mcmichael@enron.com', 'ruth.concannon@enron.com', 'phil.polsky@enron.com']
File	germany-c/bankrupt/tall_dominion/4.

Ed,

There was an outage on MOPS in Feb 2002 that impacted how much gas ENA received from Dominion (Louis Dreyfus deal #30468). We paid Dominion for 100,000 dth and we invoiced Tallahassee for 100,000 dth. After the month was over, we discovered that we actually received 104,793 dth. We billed Tallahassee for the incremental volume and they paid for it. Is it ok to generate a payment to Dominion for the additional volumes [$\$10,334.67 = 4,793 \text{ dth} \times \2.1562]. Tallahassee paid us \$14,570.72 for the gas [$4,793 \times \3.04].

If yes, I would like to have Phil show the payment of \$10,334.67 to be made next Friday while I work on the cash request.

-----Original Message-----

From: Germany, Chris Sent: Monday, March 25, 2002 10:06 AM To: Hamic, Priscilla; Dhont, Margaret Cc: Polsky, Phil; Boyt, Eric; Sanchez, Christina; McMichael Jr., Ed; Parks, Joe; Dinari, Sabra L.; Germany, Chris Subject: FW: Dominion prepay for City of Tallahassee deal for March 2002

Per David Walker at Dominion - for February, his supplier said we received 104,793 dth. Using my calculation down below, we paid Dominion (and billed Tallahassee) for 100,000 dth. I would like to verify that Tallahassee received 104,793 dth, then bill Tallahassee for the additional 4,793 dth and pay Dominion for the same amount.

Please let me know if you have any questions. thx

-----Original Message-----

From: Germany, Chris Sent: Monday, February 25, 2002 3:40 PM To: Sewell, Doug; Dhont, Margaret; Hamic, Priscilla Cc: Polsky, Phil; Boyt, Eric; McMichael Jr., Ed; Barbe, Robin Subject: RE: Dominion prepay for City of Tallahassee deal for March 2002

I just went over the March prepayment with David Walker (405-749-5240) at Dominion. On Thursday, ENA will wire \$280,306.00 to Dominion. The Force Majeure event has ended and Dominion will resume deliveries effective 2/26/02. We are assuming Dominion did not deliver any gas for Feb 8th through Feb 25th, 18 days. Following are my calculations

Prepay for March 2002 10,000 dth per day x 31 days x \$2.1562 = \$668,422.00 Non deliveries for Feb 2002 10,000 dth per day x 18 days x \$2.1562 = (\$388,116.00)

Amount to wire on 2/28/02 ==> \$280,306.00

There may have been some gas flow on Feb 8th, but David will let us know about that later.

Doug, do I need to prepare a new Cash Use Approval Request form?

-----Original Message-----

From: Germany, Chris Sent: Thursday, February 21, 2002 10:58 AM To: Sewell, Doug; Dhont, Margaret; Hamic, Priscilla Cc: Polsky, Phil; Boyt, Eric; McMichael Jr., Ed; Barbe, Robin Subject: Dominion prepay for City of Tallahassee deal for March 2002

I'm requesting the prepay for Dominion for March 2002. I printed out the request, signed it, and gave it to Doug. I just want everyone to be aware of what is happening with Dominion. Dominion is still not delivering the gas to Tallahassee due to a Force Majeure event. We are expecting gas to flow any day, hopefully by the weekend.

Eric, I left a message for David Walker (405-749-5240) at Dominion to call me about the prepayment amount. Following are my calculations

Prepay for March 2002 10,000 dth per day x 31 days x \$2.1562 = \$668,422 Non deliveries for Feb 2002 10,000 dth per day x 14 days x \$2.1562 = (\$301,868)

Estimated payment due 2/28/02 \$366,554

As of today Mops has been down from Feb 8th - 21st, 14 days. Mops may not come up until the weekend or early next week. I will adjust the prepayment as needed next week.

FW: Sonat Park & Loans and Sale to Sonat

Sender	chris.germany@enron.com
Recipients	['kay.mann@enron.com', 'ruth.concannon@enron.com']
File	germany-c/sent_items/722.

Could you tell me who in legal is assigned to this?

thanks -----Original Message----- From: Germany, Chris Sent: Wednesday, February 20, 2002 2:39 PM To: McMichael Jr., Ed; Concannon, Ruth; Garza, Maria; Dicarlo, Louis; Boyt, Eric Cc: Olinger, Kimberly S.; Germany, Chris Subject: FW: Sonat Park & Loans and Sale to Sonat

These are my notes on the Sonat Park & Loan. I have not spoken with any legal counsel representing ENA.

Summary: Sonat has netted our Parked Gas Balance with our Loaned Gas Balance and filed a motion with the courts to retain the remaining Parked Gas Balance, 92,949 dth per my conversation with Sonat, to offset \$879,030.42 ENA owes Sonat for the purchase of gas in October 2001. According to Sonat, the payment was due November 26, 2001 but ENA did not pay. Sonat's motion is set to be reviewed by the court on March 6th.

ENA recognizes a balance of 197,537 dth - the difference is ENA is not netting the 96,000 dth Loan with the park and Sonat is showing an additional day of withdrawal of 8,588 dth in January 2002.

Chris's notes: Sonat Park & Loans

2/19/02 History - Per Dave Dyer (205-326-2007) at Sonat ENA has 2 Park & Loan (PAL) contracts with Sonat. All PAL's with Sonat are under master contract PAL1001. Sonat assigns a deal number to each deal under this contract.

Deal #1424 - ENA borrowed a total of 96,000 dth from Nov 3rd-5th and has not paid this back. ENA still owes Sonat 96,000 dth. The terms of the deal were to payback Sonat anytime with 3 days notice on any 3 days on 2002, SONAT ONLY CHARGED ENA \$96.00 FOR THIS DEAL, because Sonat needed to get gas off the system.

Deal #1222 - ENA parked 309,192 dth in August to come out in Jan 2002. Sonat let ENA withdraw 42,951 on 11/29/01 leaving a balance of 266,241 dth. In Jan 2002, ENA withdrew 8,588 dth per day for the 1st-9th. That left a balance of 188,949 dth. On Jan 8th, 2002, Sonat sent a letter stating that Sonat will hold on to the remaining to balance to offset 1) the Loaned gas on deal #1424 (96,000 dth) and 2) to offset dollars ENA has not paid Sonat for gas Sonat sold to ENA in October 2001. According to Sonat, the remaining balance on this deal is 92,949 dth = [309,192 parked in Aug - 42,951 w/d in Nov - 77,292 w/d in Jan - 92,000 balance on #1424]. According to Sonat's letter, Sonat has filed the appropriate motion for court approval for the offsets. According to Dave, ENA is being billed \$.00305 x daily balance in this account. ENA should have paid some bigger amount went the gas was parked in August.

Other items; ENA purchased system supply from Sonat in October 2001. ENA purchased 286,998 at an average price of \$3.063 = \$879,030.42. According to Sonat, ENA did not pay for this before Enron declared bankruptcy. ENA also sold Sonat gas - 16,000 dth day at \$2.885 (sitara #1172076) in January 2002 and 10,000 dth day at \$2.955 in May 2002 (sitara #1172087). ENA used 77,292 dth (8,588 dth per day for Jan 1st - 9th) of the parked gas on deal #1222 to supply the 16,000 dth before Sonat stopped ENA from withdrawing from the park. ENA defaulted on 418,708 dth of the Sonat deal in January.

Sonat's in house legal counsel is Patti Frances (205-325-7696). I left a message for Patti to call me.

2/20/02 Patti Frances returned my call. Patti said the motion is currently set to be reviewed by the court on March 6th. I asked Patti if there were any penalties for not performing on the Jan 2002 sale to Sonat and if Sonat was going to pay for the 77,292 dth that ENA did supply. Patti said she didn't think there were penalties but she would verify that and see if they were going to pay. I also asked her if Sonat is still honoring the ENA sale to Sonat in May 2002 and if Sonat would pay

ENA if ENA performed. She will check on it and call me back.

"Germany, Chris" To: "Concannon, Ruth" <Ruth.Concannon@ENRON.com>, <Chris.Germany@Mark.Ellenberg@cwt.com ENRON.com> cc: "Garza, Maria" <Maria.Garza@ENRON.com>, "McMichael Jr., Ed" Office: <Ed.McMichael@ENRON.com>, "Mann, Kay" <Kay.Mann@enron.com>, sproctor@akllp.com 03/08/02 04:32 Subject: Boston Gas PM

I just received a call from Joe Krajewski (617-723-5512 x4731) at Boston Gas. He is a Resource Management Analyst at Boston Gas working for Liz Danehy. According to Joe, ENA is still billing Boston Gas for part of the demand charges on the long term producer netback deal (that Ruth is so familiar with). This is Iroquois and Tennessee capacity I am releasing back to Boston Gas each month at a 100% demand rate.

Joe asked me why we were doing this and I told him that ENA was probably not paying the capacity bills and Boston Gas was aware of that fact and knew Boston Gas would be liable for the demand charges anyway. Sounds like Boston Gas may be getting double billed and Joe said they will probably not pay the invoice.

Sender	chris.germany@enron.com
Recipients	[maria.garza@enron.com]
File	germany-c/sent_items/347.

Jon asked some lady to call me back and she didn't know either. At first she did it the way you show it on your worksheet. Then when I told her that normal demand charges (a 1 year deal at max for example) are the same each month regardless of how many days there are in the month she got confused. I guess we will find out when we get the invoice.

ENA Upstream Tennessee storage

Sender	l.kelly@enron.com
Recipients	['victoria.versen@enron.com', 'chris.germany@enron.com', 'maria.garza@enron.com', 'ruth.concannon@enron.com']
File	germany-c/bankrupt/transport/tennessee/4.

Ruth, =20

Per Patricia Sanchez with Tennessee, ENA Upstream has a balance of 36,171 o= n the IT storage contract 37011.

Patricia has given us the ok to sell thi= s gas at any time. =20

This balance had been over looked because in the month of Oct. I had sold m= y remaining storage balance of 400,000 to Sequent who was pulling the gas p= rorate ably throughout the month. When we reached the final week, I was co= ntacted by Patricia that we were 36,000 short in our storage account. Afte= r much research at the time, Tennessee informed me that the beginning balan= ce in October had been adjusted due to a PMA made to September's business. = At that time, I went into the market bought the additional gas to fulfill = my obligation to Sequent. However, after some reconciliation, Tennessee ha= s discovered that only the reversal of the original entry was booked in Oct= . and that the rebooking was made in November's business, thus resultin= the additional gas in storage. Basically, the PMA was the result of a req= uest I had made for them to move a withdrawal transaction from an IT agreem= ent to an overrun contract which I had a special discount on, thus saving E= NA Upstream quite a bit of money. =20

If you need to speak to Patricia, she can be reached at 832-627-2617. Plea= se let me know if you would like me to do anything further with this.

Thanks,

Kathy

columbia has been holding enron gas hostage since december. it refused to honor enron requests to release the gas, asserting a freeze while recoupment and setoff rights were figured out. this caused enron to lose a sale of the gas that had been arranged at a time when the market was favorable. subsequently, columbia unilaterally effected a recoupment and filed a motion for setoff. columbia was holding the gas as bailee, just like sng, and , thus, the sng ruling effectively blew them out of the water. their response was to withdraw the old motion, set for hearing today, and file a new motion. the new motion tries to get around the sng ruling by arguing that title to the gas passed to columbia when the agreements expired in december and january. of course, the only reason the gas was still there is that they refused to let it out. i would consider requesting rule 9011 sanctions on this one, but want to make sure that is consistent with the "gestalt" of the case before doing it. let me know what you think.

I'm not aware of an AP rate schedule. AS (tariff sheet #205) and IPP (tariff sheet #215) are separate rate schedules in the tariff. AS pools are used to aggregate production meters on CGAS's system and are assigned a specific geographical

location on the pipeline. AS pool meters can be used as primary receipt points on firm transportation agreements whereas IPP Pool meters are not.

Shemin, can you answer Ed Smith's question concerning the pooling tariff?

Ed McMichael, do you have knowledge concerning the EES pooling agreements?

Mark C. Ellenberg Cadwalader, Wickersham & Taft 1201 F Street, NW Washington, DC 20004 202.862.2234 -----

Edward Smith Office: To: Mark Ellenberg/DC/CWT@CWT cc: 03/01/02 Subject: Enron/Columbia Gas 11:13 AM

Two quick questions:

1. The Columbia Gas motion refers to two pooling agreements, the IPP Service Agreement and the AS Service Agreement. Ms. Shemin's e mail attaches a copy of a rate schedule entitled "IPP Rate Schedule Interruptible Paper Pools." Does this rate schedule also apply to the AP Service Agreement, or is there another rate schedule for that agreement?.
2. Can Mr. McMichael swear the affidavit with respect to the pooling agreements, which are with EES, not ENA?

CGT - Open Season

Sender	navigator@nisource.com
Recipients	['navigator@nisource.com']
File	germany-c/inbox/239.

COLUMBIA GULF TRANSMISSION COMPANY NOTICE TO ALL INTERESTED PARTIES OCTOBER 05, 2001

Notice ID: 3159 5 - NO RESPONSE REQUIRED

COLUMBIA GULF TRANSMISSION COMPANY OPEN SEASON

Overview

Columbia Gulf hereby provides notice that it is conducting an open season to determine whether there is demand for additional firm transportation on its mainline under Rate Schedule FTS-1.

Purpose of the Open Season

Columbia Gulf is conducting this open season to comply with a Stipulation and Consent Agreement approved by the Federal Energy Regulatory Commission (FERC) in Docket No. CP93-736. Under the FERC orders, Columbia Gulf must hold an open season to gauge the demand for firm mainline transportation service on Columbia Gulf by entities that were firm sales customers of Columbia Gas Transmission Corporation at the time of Order No. 636 restructuring (October 31, 1993).

Details

* The open season period begins at 5 p.m. Central Time on October 5, 2001 and ends at 5 p.m. Central Time on November 4, 2001.

* ELIGIBLE PARTICIPANTS IN THE OPEN SEASON ARE LIMITED TO ENTITIES WHO WERE FIRM SALES CUSTOMERS OF COLUMBIA GAS TRANSMISSION CORPORATION ON OCTOBER 31, 1993.

* To indicate interest in firm mainline transportation capacity on Columbia Gulf, a prospective shipper must complete, execute and return the attached Open Season Response form. All signed Open Season Response forms must be received by Columbia Gulf no later than 5 p.m. on November 4, 2001. They may be sent to Columbia Gulf by mail, overnight delivery service or facsimile (at 713-267-4249). A faxed form must be followed by the mailing of an executed original to Columbia Gulf. Forms sent by mail or overnight delivery service should be addressed to:

Columbia Gulf Transmission Company 2603 Augusta, Suite 125 Houston, TX 77057 Attention: Customer Services

* Please note that terms of service shall be 5 years minimum (consistent with Columbia Gulf's minimum term for its Mainline '99 open season), and such term shall commence no earlier than October 9, 2003 (consistent with Section IV(E) of the FERC Stipulation and Consent Agreement).

* Columbia Gulf is not obligated to construct facilities to satisfy any interest in capacity expressed during this open season.

* Arranging for upstream or downstream transportation is the sole responsibility of the shipper.

OPEN SEASON RESPONSE FORM

Name of Responding Company: _____

Primary Contract Term (check one):

_____ 5 years _____ Greater than 5 years (please fill in number of years here: _____)

Maximum Daily Quantity (Dth/day): _____

Receipt Point: Rayne, LA, MLI # 2700010 Delivery Point: Leach, KY, MLI # 801

Service Commencement Date: _____

Please verify, by signing below, that your company was a firm sales customer of Columbia Gas Transmission Corporation on October 31, 1993, and that you are submitting this Open Season Response form with the knowledge and approval of your company's senior management.

Signature

Name of Individual Whose Signature Appears Above:

Title: _____

Mailing Address:

Delivery (or Street) Address, if different:

Telephone Number: _____

Tennessee Gas Pipeline Bankruptcy Filing

Sender	ruth.concannon@enron.com
Recipients	['ed.mcmichael@enron.com', 'chris.germany@enron.com', 'kay.mann@enron.com', 'maria.garza@enron.com']
File	germany-c/bankrupt/transport/tennessee/6.

Since our meeting on Tuesday, we completed additional research on the invoices from the pipeline. I have attached a spreadsheet that provides summaries of the invoiced amounts and details of the cash out charges for gas and penalties. Also attached is a few pages of the pipeline tariff that addresses the required process for the pipeline to collect demand/reservation fees from the Releasing Shippers, Boston Gas and NYSEG, if the Replacement Shippers, ENA and EES, do not make on-time payments. =20

SUMMARY

For the capacity release contracts, it appears that Tennessee is using the bankruptcy filing to satisfy their tariff requirements of issuing non-payment notice, and termination notice due to non-payment that are required before the pipeline can bill the Releasing Shippers, Boston Gas and NYSEG, for the reservation charges that were not paid by ENA and EES. I have not been able to find any other letters sent to Enron from Tennessee regarding non-payment. See attached Sheet No. 337A, 338, 355, 356 and 405. The Boston Gas capacity release deal appears to be the largest \$ amount of Tennessee's claim. For November and December, \$374,500.00 of the claim is associated with the reservation fees of Boston Gas' contract. For January, \$373,660.00 is the reservation fee. The remaining portion of the bills are commodity and commodity surcharge expenses. For the months of February and March, ENA posted a capacity release transaction on the pipeline EBB. Each month, the deal was posted at 100% maximum rate transaction with Boston Gas as the pre-arranged party. Therefore there should not be a continuing for those months. At Boston Gas' request, both postings specified that the releases were subject to bid. =20 Tennessee's listing of contracts in the

bankruptcy filing excludes the five contracts designated as "ENA Agent-Nomination and Billing". This makes sense in that ENA was just a middle-man and transportation charges were being passed through to the customer. Tennessee must be billing the customers directly! For the Cash Out and Level Charges (i.e. penalties), there are two summaries that describe the information that you requested. I believe that it is important to distinguish between current and prior month. Current month imbalance numbers are usually tracked by the pipeline and are available to shippers with a couple of day lag time. Prior month imbalances are made by the pipeline when accounting problems and issues result in reallocations of shippers volumes. For example, in the Dec 2001 invoice dated 1/14/2002 for ENA's K# 80045, current month imbalance was 34,266 Dth due the pipeline or \$92,323.29. Since gas was due the pipeline, a Level Charge or \$38,997.33 was also due the pipeline. Prior month cash outs of 134,869 Dth or \$887,821.20 due ENA also appeared in the same bill. This adjustment covered the months of Oct 2000 through April 2001. Another prior period adjustment will probably be made by the pipeline for May 2001 through December 2001 time period. Please note that the Average \$/Unit price is a simple average and not what is shown as the cash out gas price on the invoice. For ENA, the storage agreement was used post-petition so that the storage inventory could be withdrawn. It is my understanding that ENA has not paid the invoices yet. There may be an issue whether or not the discounted rate was in effect for the last month that withdrawals took place. ENA is waiting to see what the billed rate is before a payment is made to the pipeline. EES's LMSMA balancing agreement is tied to serving one of EES's former customers. The pipeline has expressed an interest in retroactively transferring this agreement and obligations over to the new supplier. We are still trying to get additional information on the timing from EES. As you can tell from the summary, there is some miscellaneous charges that have popped up. One is clearly designated as a Late Payment Charge. The others could probably fall into a similar category.

We have tried to summarize the facts. I will leave it up to you to decide whether the amounts are prepetition or post petition.

RE: Trailblazer

Sender	ruth.concannon@enron.com
Recipients	['ed.mcmichael@enron.com', 'mark.ellenberg@cwt.com', 'edward.smith@cwt.com']
File	germany-c/bankrupt/transport/trailblazer/2.

Kinder Morgan has wired ENA \$34,978.01, They also provided backup information that the payment was for Trailblazer post petition receivables + interest, and it was the net amount of the following items:

Post Petition A/R Items + Interest:

\$84,296.30 ProRated Demand (December 3-31) \$90,578.56 Demand (January 1-31) (\$33,465.04) Demand (February 1-28) + Capacity Release Revenue (February 7-28) (\$176,387.83) Demand (March 1-31) + Capacity Release Revenue (March 1-31)

Supposedly, TBPL has also sent Ed M. or Ruth a letter describing how things are going to be handled going forward. Neither Ed or I received the letter so I am asking that TBPL send it again. By now, ENA should have also received a wire for April business for about \$176,000.

Since there is normally a payment lag, I recommend that TBPL immediately pay us \$174,874.86 + interest that has been frozen by TBPL for the December and January post petition amounts. If the court comes back and agrees with TBPL's arguments, then TBPL makes an adjustment on the next invoice to ENA. It is about the same amount of money.

Ruth

Edward Smith x5790 To: Mark Ellenberg/DC/CWT@CWT Office: NY cc: Subject: Trailblazer 05/23/02 07:09 PM

I talked to Philip Bentley, Trailblazer's counsel, today. I told him that Enron would not even consider the possibility of exploring settlement unless Trailblazer turned over the proceeds of the capacity release that it has been holding. He said that he would relay that to his client.

Bentley left a message for me tonight. His message said that he had spoken to his contact at Trailblazer and that "coincidentally" Trailblazer either just has or is about to wire the final payment to Enron. Bentley said that this was in keeping with "Trailblazer's practice of wiring portions of the payments as they came in the door." He said Enron should either already have the payment or should be getting it soon. He said that this appears to eliminate the issue I raised with him today. He said that the "ball is back in our court." He asked me to relay to Enron that this was no longer an issue and let him know whether there is any interest in exploring settlement.

File	germany-c/sent_items/535.

Max, I forgot all about you needing this. I'm working on it now and I'll highlight the items as I do it in case it takes a couple of days. This is what I have done so far. -----Original Message----- From: Doner, Max Sent: Tuesday, March 19, 2002 11:04 AM To: Germany, Chris Subject: FW: Pricing Adjustments in Sitara for November 2001

Chris, Just following up on this item as I have tried to process these adjustments and they have not been zeroed in Sitara yet. If I need to send these to someone else, just let me know.

Thanks, Max

-----Original Message-----

From: Doner, Max Sent: Wednesday, March 06, 2002 10:16 AM To: Germany, Chris Subject: Pricing Adjustments in Sitara for November 2001

Chris,

Here are the adjustments that need to be made in Sitara for November 2001

Please "Zero" out the Demand charges for the following deals :

118129 352617 40399 594833 1020672 109473 156869 207039 318420 40390 40401 40402 71744 40393 1146752
118380 156865 156875 231751 231752 253906 253946 318413 458679 550864 594832 64154 64155 64156 64158
64159 64161 64162 643880 643882 643885 86362 86373 40397 40403 40404 40405 40406 40407 40408 40409 40411
80041 318426 570534 534938 706526

I had Phillip Love enter these prior to the bankruptcy. These are items we would have collected and then repaid to other parties on behalf of the State of Florida. Since we were unable to do that, these charges need to be removed. If you have any other questions, please call me.

Thanks, Max

P.S. I will be sending your pricing adjustments for December 2001 soon.

My only comment to this is to please make sure the contracts have IMNE and IMME as desks since most of them will be market area deliveries. They are already in Unify and the multiple desks may be all we need to path them. The Transco schedulers are also going to have to know the receipt and delivery points that are primary for all these contracts with Transco changes among other things.

Chris Germany 08/10/2000 12:24 PM To: Victoria Versen/HOU/ECT@ECT, Alvin Thompson/Corp/Enron@Enron, Marlene Hilliard/HOU/ECT@ect cc: Beverly Beaty/HOU/ECT@ECT, Judy Townsend/HOU/ECT@ECT, Scott Goodell/Corp/Enron@ENRON, Brenda H Fletcher/HOU/ECT@ECT, Victor Lamadrid/HOU/ECT@ECT Subject: Terminating Transco contracts

As most of us are aware, Trasnco will be terminating all master commodity contracts effective 9/1/2000. I don't think we should make any changes to the master contracts in our system until after the 1st. However, we will need start adding the demand contracts to the East and Market East in Sitara. Following is a list of master contracts and the associated demand

contracts effective 9/1/2000.

Subject: CES Supply Management Agreement

Hi team. Do not discuss this with anyone at CES or EES please. May not be a problem but just in case.

----- Forwarded by Chris Germany/HOU/ECT on 06/02/2000 11:06

AM -----

Timothy L Ray@EES 06/02/2000 10:48 AM To: Colleen Sullivan/HOU/ECT@ECT cc: Chris Germany/HOU/ECT@ECT, John Henderson/HOU/EES@EES Subject: CES Supply Management Agreement

New Power Company is current working on the acquisition of CES' mass market customers. In light of the acquisition, there are issues that surround our relationship with ENA as we step into the supply management agreement. Below are the observations that I have. I would like to get you feedback on these. If necessary, let's get together to discuss the ramifications.

1) We are purchasing customers within only twelve markets. As such, we will only interpret the language of the agreement related to "existing markets" as applying to only those twelve markets. For other markets that we conduct business in, we would choose to make a decision on supplier and load management even if it is an LDC identified as an existing market under the agreement. In essence, we see the supply management agreement being bi-furcated since CES is selling C&I to another marketer.

2) My interpretation is that New Power Company will only be on the hook for capacity and storage charges as they apply to mass markets. This would include capacity and/or storage allocations received on CVA, CMD, AGL. In addition, it would include the FSS and SST purchased on COH. It would also include the following transportation agreements: 61822, 61825, 61838, 61990, 64939, 65418, 62164. There are some capacity agreements on TCO for CPA(65041, 65042) and BGE(65108) that were purchased by CES for both C&I and mass markets. It is our contention that we will only be on the hook for the demand charges related to the capacity covering mass market purchase commitments identified in the schedules of the purchase agreement. All un-utilized capacity would to stay with CES and/or buyer of the C&I agreements.

3) We need to discuss the application of the contract to additional capacity that New Power procures applicable to the periods prior to Apr. 1, 2001. I want to keep this capacity separate and under our control. I will need your viewpoint on this. If ENA feels strongly that we must place the capacity under the supply management agreement, then I would want to discuss our ability to market any excess capacity in open market. Bottom-line, I want to avoid gas costs being inflated due to my inability to receive value for un-utilized capacity.

4) I would like to get your viewpoint on the right of first refusal clause. My view would be that its applicable would be made to transactions of similar nature and service level. (supply management) To the degree that New Power chose after the primary term to manage its supply, all supply only transactions would not be subject to this clause.

I know you will need to review the contract. We have some time to discuss these issues, but would like to have feedback from you no later than next Friday, if at all possible. I can be reached at ext 39475. Thanks for your help.

NEW E-SCRIPT PRINT FUNCTION You can now do print screens on E-Script. To take advantage of this new feature, in the menu file, click on: file, and print screen MAY 2002 IMBALANCE VOLUMES

May 2002 Imbalance Volumes are now available to view on-line. They may be viewed in ESCRIPT through the Flowing Gas/Imbalance Window. If you have any questions, please contact me, John Lester at 304/627-3141 or Doug Barr at 304/627-3827.

PL- RESTRICTION

The work schedule for the pigging of the PL-1 system that was originally scheduled for Monday, June 10, 2002, has been changed to Wednesday June 12, 2002. This notice replaces the previous notice posted on Tuesday June 4th. The implementation of this restriction on Wednesday means that there will be no interruptible transportation capacity or non-PL1 transportation capacity available along the PL-1 system. This restriction will also require that all deliveries at that time on the PL-1 system be made to their primary delivery point. All interruptible and secondary deliveries along the PL-1 system will be reduced to zero effective for the gas day of June 12, 2002, at 10:00 ECT (9:00 CCT). Please give me a call if you have any questions.

LATE SHIFT & WEEKEND DUTY JUNE 8 through JUNE 14, 2002

To contact the Transportation Analyst working the late shift or weekend, call 1-800-895-8899 You will have access to Analyst on duty or the E-Script helpline.

WEEKEND SATURDAY JUNE 08 thru SUNDAY JUNE 09, 2002 NAME PHONE NO. PAGER PIN NO. CELL PHONE

Subject: VNG Capacity Release to ENA

This is where we are today on the VNG releases to ENA. All effective dates are 1/1/2001 - 12/31/2003 unless stated differently.

MDQ/MSQ (Storage) Pipeline VNG k# ENA k# MDQ Comment CNG 100007 523666 58352 FT CNG 100104 523664 15225 FT CNG 200088 523667 10000 FT - to be used with Cove Point. Released 1/1/2001 - 2/28/200. CNG 700005 571492 40148 FTGSS. Released 1/1/2001 - 3/31/2001. CNG 300008 530912 53648 / 2791000 GSS CNG 300107 530913 15225 / 761250 GSS

CGLF 38070 70198 51479 FTS1

CGAS - we may not release any VNG CGAS capacity to ENA. According to CGAS, we may loose some of our flexibility with the contract. Scott is waiting to hear from CGAS. At this point, we will not release the capacity effective for the 1st.

Tenn - VNG K# ENA K# MDQ Comment 47 35874 16,373 FT End date 3/31/2001 21881 35875 518 FT End date 3/31/2001 21882 35876 4599 FT End date 3/31/2001

Trco - Trco has a capacity release "glitch" in their EBB and needs to "temporarily flip a switch" while I do the capacity releases. Since I know Trco well, I've decided to wait until after the 1st to do the releases in case their are EDI issues with the "switch flipping". AND we would not know about any problems until the 31st.

Also, VNG has 35,930 dth of telescoped Trco capacity. Williams has 15,930 dth of the VNG capacity because of the FS service. I will release 20,000 dth to ENA. This will eliminate the overlapping problems we have with Williams.

Please get with me to discuss before 5:00 PM today.

-----Original Message-----

From: Schneider, Chip Sent: Thursday, June 06, 2002 10:47 AM To: McMichael Jr., Ed; Concannon, Ruth Subject: FW: Bridgeline Formal Response from Yesterday

FYI. This is the formal response we received from Bridgeline yesterday. In the event Bridgeline does not agree to purchase the gas, what delivery point on Bridgeline is best for us to use under FT if we were to bleed out the inventory over 30 days and what price could we get?

We appreciate your support on this.

Thanks.

Chip

-----Original Message-----

From: Schneider, Chip Sent: Thursday, June 06, 2002 8:59 AM To: McConnell, Mike; Sharp, Greg; Bartlett, Jeff; Gray, Barbara N.; Ellenberg, Mark; 'jayne.south@weil.com'; 'stephen.youngman@weil.com' Cc: Coffey Jr., Jim Subject: Bridgeline Formal Response from Yesterday

Attached is a letter from Randy Curry faxed to me yesterday afternoon outlining the initial proposal made by Bridgeline in our meeting yesterday. Bridgeline is not formally offering to purchase the gas, however, in a subsequent voice mail from Randy, such a purchase is not out of the question.

Additionally, ChevTex has formally requested through Jayne that the accounting information be provided for their review. I agree with Mark Ellenberg's view that we should not provide this until we have agreement on the commercial deal. Jayne/Stephen, I would like to hear from you on this.

We need to huddle today to discuss our response to Randy's letter and keep the momentum alive. Given the LIP meetings this morning, can I suggest 3:00 this morning in ECN2829?

Before then, I may be calling around to get people's views on a response.

Thanks,

Chip

RE: Tennessee Gas Pipeline Contracts -- EES

Sender	chris.germany@enron.com
Recipients	['barry.vanderhorst@enron.com', 'maria.garza@enron.com', 'ruth.concannon@enron.com', 'kay.mann@enron.com']
File	germany-c/sent_items/655.

Per my discussion with Sherry Glazebrook at Tennessee, she wasn't real specific since I don't have an EES ID on Tennessee but this is what I found out.

CONTRACTS

Balancing Agreement K# 31905 (OBAD) This is a balancing agreement for Bethlehem on the 200 leg in Zone 5, probably meter #20816. This balancing agreement should have been cashed out every month. She wouldn't tell me the current balance. ENA had a term sale to EES (sitara #1003036). The volume was 1,200 dth per day in Tenn Zone 5 and the name of the point was Bethlehem Sales. The term of the sale matches the term of the capacity release from Boston Gas. Firm Gas Storage Service K# 38454 (FS-MA Assign) -- Assignment from New York State Electric & Gas Company Gas Transportation Agreement K# 38535 (FT-A Assign) -- Assignment from New York State Electric & Gas Company Gas Transportation Agreement K# 38539 (FT-A Assign) -- Assignment from New York State Electric & Gas Company All 3 capacity releases from NYSEG are non-recallable. In my opinion, this capacity should be the property of the customers EES was serving behind the NYSEG city gate and the capacity should go with the customers. But, I believe we need to address the LDC tariff issues along with the pipeline issues. Gas Transportation Agreement K#27848 (IT) Supply Aggregation Service Agreement K# 80265 (SA)

Of all the items shown above, I am more concerned with the Balancing Agreement k#31905. We need to know what has happened to the sales customers EES had at this point. I believe it was just one customer. How is this customer currently getting its gas? If Enron is still the operator of the balancing agreement at this point, does it "appear" that Enron is still using this agreement?

-----Original Message-----

From: Concannon, Ruth Sent: Monday, March 04, 2002 2:42 PM To: Germany, Chris Subject: FW: Tennessee Gas Pipeline Contracts -- EES

-----Original Message-----

From: Concannon, Ruth Sent: Wednesday, February 27, 2002 4:35 PM To: Vanderhorst, Barry; Hewitt, Jess P.; Draper, David Cc: McMichael Jr., Ed; Garza, Maria; Mann, Kay Subject: Tennessee Gas Pipeline Contracts -- EES

Tennessee Gas Pipeline has made a global Enron bankruptcy filing. We have checked the information that EES provided earlier to Maria and there was no retail contracts on Tennessee Gas Pipeline shown. Tennessee shows the following six active contracts with Enron Energy Services, Inc. Please provide some additional clarification including the following information so that Enron can decide how to best respond to the filing.

CONTRACTS

Balancing Agreement K# 31905 (OBAD) Firm Gas Storage Service K# 38454 (FS-MA Assign) -- Assignment from New York State Electric & Gas Company Gas Transportation Agreement K# 38535 (FT-A Assign) -- Assignment from New York State Electric & Gas Company Gas Transportation Agreement K# 38539 (FT-A Assign) -- Assignment from New York State Electric & Gas Company Gas Transportation Agreement K#27848 (IT) Supply Aggregation Service [Germany, Chris] e Agreement K# 80265 (SA)

INFORMATION REQUIRED

Is the contract active or how/when did EES dispose of it? Did EES nominate under the agreements since November 30, 2001? If so, provide nomination by day. Does EES need to retain the contract? How much pre-petition and post-petition claims are due to Tennessee? Are there any contract imbalances remaining that need resolution? For transport assignments, can contract be re-released back to NYSEG? Can EES provide a copy of the contract, capacity posting and back-up information for the bankruptcy files?

As always, there is a short turnaround time to complete Enron's response to the filing.

Please respond by Monday, March 4th.

Thanks,

Ruth Concannon x31667

Angel,

Steve Gillespie is managing the day to day operations of the VNG asset mgt. deal for our logistics group. Please include him with your queries. It is my understanding that we are agents for all of their contracts and we pay all their transport costs. In turn, we invoice them and they re-imburse us for that transport.

Chris Germany and Scott Goodell in the Transportation Trading Group are responsible for setting these contracts in UNIFY. All of these contracts in question are storage or transportation tied to storage. Chris/Scott please set up the 5 valid contracts below in UNIFY as soon as possible....Contract 37634 is terminated effective 8/31/1999.

If you have any questions please let us know. Victor

Angel Fuller@ENRON 11/21/2000 09:47 AM To: Joann Collins/Corp/Enron@ENRON, Alvin Thompson/Corp/Enron@Enron cc: Victor Lamadrid/HOU/ECT@ECT, Katherine L Kelly/HOU/ECT@ECT, Brenda H Fletcher/HOU/ECT@ECT, Sherry Anastas/HOU/ECT@ECT Subject: Virginia Natural Gas...Columbia Gas

Hi Joann and Alvin,

As you know, effective October 1, ENA became agent for Virginia Natural Gas. Here in Volume Management, as I try to load beginning balances and actualize volumes (so that I can pay VNG's transportation charges) for 10/2000, it appears that the following contracts for VNG/Cgas are not in Unify.

Contract Number Type 38079 FSS...Master Contract 35889 x-133 LNG Storage 60536 SST 37634 ISS 53004 FSS 60537 FSS

I would appreciate any help you can give me in getting these contracts in Unify as soon as possible. If you have any questions or need additional information, please let me know.

Thanks, Angel

EQUITRIANS for JULY

Sender	john.singer@enron.com
Recipients	['nelson.ferries@enron.com', 'cynthia.franklin@enron.com', 'chris.germany@enron.com', 'mary.franklin@enron.com...]
File	germany-c/all_documents/1094.

Cindy & Chris, EQUITRANS FOR JULY: 1. CBE, Inc meter 11480 will be nominated by Equitable Energy, LLC for the month of July. The paper work did not get in on time to effect a transfer of this meter into Equitable's pool. Equitable is

buying the production from the producer. 2. Power Gas Marketing & Transmission 7,500 Dth (revised to 5,000 due to curtailments implemented by PNG) has been sold to Equitabel Energy, LLC @ CNG Index plus 2 cents. Equitable will do a pool to pool from PMGT's pool. 3. Envirogas, Inc meter 11445 has been shut-in by Envirogas. Do not nom any volumes from this meter. 4. The other metered production (Aurora, Braxton, & Kennedy) of 296/day. Unless I can sell to Equitable this AM, you will have to take to ????? (If I sell to Equitable, I'm sure they will want to use their own firm transport.)

Happy 4th of July John

Enron North America Corp.

From: Cynthia Franklin 06/22/2000 08:47 AM

To: John M Singer/Corp/Enron@ENRON cc:

Subject: Re: CBE, Inc. Equitrans production

John, Here's the Equitrans numbers I've received:

Meter# Volume Braxton #21620110 7 #21720103 5 #22008 7 #22028 7 #22049 12 #22128 0 #22299 2 #22575 47
#23150101 14

Bill Kennedy #23234 40 #23478 130

Aurora #23420 25

Per records that accounting provided late last month, it does look like we are short to the pipe. I've tried getting Equitrans to confirm but to no avail. I'll keep trying to get it tied down.

Cindy

Enron North America Corp.

From: John M Singer 06/20/2000 10:27 AM

To: Cynthia Franklin/Corp/Enron@ENRON, Chris Germany/HOU/ECT@ECT, Scott Goodell/Corp/Enron@ENRON cc:
Mary Theresa Franklin/HOU/ECT@ECT, Nelson Ferries/Corp/Enron@ENRON, Wade R Price/HOU/ECT@ECT

Subject: CBE, Inc. Equitrans production

CBE, Inc is cancelling their contract with ENA for Meter 11480 Equitrans production effective July 1, 2000.

The only production which we have for July forward should be: 1. Braxton Oil & Gas 2. Bill Kennedy 3. Aurora I do not want to cancel their contracts until we are sure that we do not owe Equitrans for any past negative imbalances.

Cindi, when you nom for July, let me know the volume and I will try to sell the gas to Dominion.

John

VNG Capacity Release to ENA

Sender	chris.germany@enron.com
Recipients	['scott.goodell@enron.com', 'beverly.beaty@enron.com', 'victor.lamadrid@enron.com']
File	germany-c/sent/2095.

This is where we are today on the VNG releases to ENA. All effective dates are 1/1/2001 - 12/31/2003 unless stated differently.

MDQ/MSQ (Storage) Pipeline VNG k# ENA k# MDQ Comment CNG 100007 523666 58352 FT CNG 100104 523664 15225 FT CNG 200088 523667 10000 FT - to be used with Cove Point. Released 1/1/2001 - 2/28/200. CNG 700005

571492 40148 FTGSS. Released 1/1/2001 - 3/31/2001. CNG 300008 530912 53648 / 2791000 GSS CNG 300107 530913 15225 / 761250 GSS

CGLF 38070 70198 51479 FTS1

CGAS - we may not release any VNG CGAS capacity to ENA. According to CGAS, we may lose some of our flexibility with the contract. Scott is waiting to hear from CGAS. At this point, we will not release the capacity effective for the 1st.

Tenn - I do not have the new contract numbers yet. Per Tenn - Scott will send a letter to Tenn requesting that the VNG discounts be transferred to the new ENA contracts.

Trco - Trco has a capacity release "glitch" in their EBB and needs to "temporarily flip a switch" while I do the capacity releases. Since I know Trco well, I've decided to wait until after the 1st to do the releases in case there are EDI issues with the "switch flipping". AND we would not know about any problems until the 31st.

Also, VNG has 35,930 dth of telescoped Trco capacity. Williams has 15,930 dth of the VNG capacity because of the FS service. I will release 20,000 dth to ENA. This will eliminate the overlapping problems we have with Williams.

From: Garza, Maria Sent: Monday, January 14, 2002 1:01 PM To: Germany, Chris Subject: RE: TCO pal contracts

did we have the copy of these agreements that are still valid???

-----Original Message-----

From: Germany, Chris Sent: Monday, January 14, 2002 12:49 PM To: Garza, Maria Subject: RE: TCO pal contracts

#67401 and #70457 are the correct contracts. #67401 was intended to come out in Dec and #70457 was intended to come out in Jan.

-----Original Message-----

From: Garza, Maria Sent: Monday, January 14, 2002 11:28 AM To: Germany, Chris Cc: Little, Kelli Subject: TCO pal contracts

Hey there...

Can you please verify the following. Our files indicate that the two pal contracts for TCO are 39607 and 38079. TCO is invoicing us on contracts 67401 and 70457. All these contracts show 310,000 MDQ.

Which ones are correct and current. I am assuming only 2 are or should be current. Please advise.

Thanks, Maria

Kara/Heidi, please give this to Brian and Melissa.

Because the burns significantly increased on 1/24 from the forecasted amount (+16749). Contract #63281 was over-run and Storage #51407 was over-withdrawn. Contract over-run is \$.21 per dkt and storage over-withdrawals are \$10 per dkt.

Because the forecast was lower, I let Joann use the extra space for CES Enduser Market. TCO will let me cut gas to CES Enduser Markets as a retro. Not sure if you want this gas to flow or try to make it up over the weekend. If you need the gas to flow because of OFO penalties, maybe the storage over-withdrawal is cheaper than incurring OFO penalties. Please tell me what you want me to do. Need to do the retro's ASAP while TCO is still feeling generous.

FYI, the traders at Enron talked to Noel Bartlo on Tuesday. Noel said any costs over the space that retail had (134,710 for choice), Enron had the right to pass on the costs. I really hope the Noel communicated that to CES Retail. I would hate to have a huge misunderstanding between Enron and CES Retail. Remember, we schedulers are caught in the middle... and don't try to cause unnecessary pain.

From: Price, Wade R. Sent: Tue 2/19/2002 2:23 PM To: Mann, Kay Cc: Dhont, Margaret; Hall, Bob M.; Dickson, Stacy E.; Richardson, Stacey; Germany, Chris; Kelly, Katherine L. Subject: Termination / Release letters for Producers on Dominion Transmission

Kay - Thanks for your attention and assistance in this matter.

Several gas producers are flowing gas through Dominion Transmission pipeline to Enron's pool. They have terminated their contracts with Enron, or have sent documents to us to terminate their contracts with Enron. They are calling now

requesting letters confirming termination of their contracts and/or letters releasing their gas on Dominion Transmission's pipe from Enron's pool in order to satisfy Dominion Transmission's requirement for proof of termination and/or release of gas back to the producers. Dominion Transmission is holding these producers' gas and is not letting the producers sell their gas to other buyers.

I have been trying for the last three weeks to discover the route these requests need to pass through in order to get the aforementioned termination and release notices. I have met with little success and fewer answers. Prior to my being involved, Nelson Ferries had forwarded a few requests through Contracts and Legal and had Fred Lagrasta sign off on them. I also talked to several people last week in Contracts and Legal asking for help, but a process does not seem to be in place.

Please advise as to how quickly we can act on these requests. Producers are fearful of not being able to sell their January 2002 gas (ie. not getting paid) and are facing severe financial hardships. Please advise as to what I can provide or help out with this process.

A list of producers is provided below. I am sure more producers will call.

Thanks WRP

The following producers have been calling requested such letters: Master Log Producers Contract Contact Phone Status Comments

Re: TCO STOW Overage - 1/24 - UPDATE

Sender joan.veselack@enron.com

Recipients ['kdestep@columbiaenergygroup.com', 'mflewellyn@columbiaenergygroup.com', 'mstiles@columbiaenergygroup.com']

File germany-c/all_documents/2245.

Sent a retro request to TCO last week with two options:

1) Inject into storage from CES IPP pool, which was long that day. 2) In ground storage transfer from Dayton's FSS storage to CES's FSS storage. Dayton has given Enron the approval to move this storage.

I told TCO the second option would be the most viable option, and it should not comprise TCO's position with its other shippers.

As of right now, TCO has put all retro requests on hold. The bills will probably go out with these penalties on it. However, TCO will revisit the penalty issue, once the dust has settled. We are not the only shipper that incurred penalties, and TCO wants to treat everyone fairly. I did tell TCO to remember that Enron is not an affiliate, and TCO needs to treat Enron as TCO would its other shippers.

Subject: Re: TCO STOW Overage - 1/24 - NEED ANSWER (Document link: Joan Veselack)

What's the final answer.... do you need the enduser gas or do you want me to cut the enduser gas?

If you really need the enduser gas... the only other option is for me... is to beg TCO to let me inject some pool gas into storage for that gas day to avoid the \$10 withdrawal penalty... but we would still incur the overrun charge plus the additional overrun charge to get the gas into storage. Need a decision by 1 pm CST time on Monday, January 31st. Thank you!!!!

Please pass this note to Melissa... still don't have her e-mail address.

Can't wait for it to warm up!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!

Subject: TCO STOW Overage - 1/24

Kara/Heidi, please give this to Brian and Melissa.

Because the burns significantly increased on 1/24 from the forecasted amount (+16749). Contract #63281 was over-run and Storage #51407 was over-withdrawn. Contract over-run is \$.21 per dkt and storage over-withdrawals are \$10 per dkt.

Because the forecast was lower, I let Joann use the extra space for CES Enduser Market. TCO will let me cut gas to CES Enduser Markets as a retro. Not sure if you want this gas to flow or try to make it up over the weekend. If you need the gas to flow because of OFO penalties, maybe the storage over-withdrawal is cheaper than incurring OFO penalties. Please tell me what you want me to do. Need to do the retro's ASAP while TCO is still feeling generous.

FYI, the traders at Enron talked to Noel Bartlo on Tuesday. Noel said any costs over the space that retail had (134,710 for choice), Enron had the right to pass on the costs. I really hope the Noel communicated that to CES Retail. I would hate to have a huge misunderstanding between Enron and CES Retail. Remember, we schedulers are caught in the middle... and don't try to cause unnecessary pain.

(713-215-3361)October 12, 2000

TO: All Operators, Producers, Shippers and Customers on the Williams Gas Pipeline - Transco

RE: 2000 Winter Operations and 1Line Meetings

You are cordially invited to attend one of Transco's three regionally scheduled 2000 Winter Operations and 1Line meetings.

The meetings are scheduled as follows:

November 7 Newark, New Jersey Hilton Gateway Hotel

973-622-5000 November 8 Charlotte, North Carolina Omni Charlotte Hotel

704-377-0400 November 13 Houston Williams Tower

Auditorium

This year's Winter Operations Meetings have been expanded to include a variety of material that will be of interest to all customers. The meetings will focus on three specific areas: (1) the traditional update on operational plans for the winter, maintenance outages planned for next year and a customer service update; (2) a 1Line update and discussion on business

practice changes that will require tariff changes; and (3) a review and discussion of the EDI and flat file datasets for nominations, confirmations and schedule quantity reports targeted at those customers and their information technology staff who have expressed an interest in this information. Transco will also be holding a pre-filing meeting in Washington DC specifically to address the tariff changes associated with implementation

of the 1Line system. That meeting will be held in mid-November and customers will be notified as to time and location in the near future.

The meetings in Newark and Charlotte will start at 9:00 a.m. and end at approximately 4:00 p.m. Coffee, juice and pastries will be provided before the meeting and lunch will be served at approximately 11:30 a.m. The Houston meeting will start at 12:30 p.m. and end at approximately 5:00 p.m. Refreshments will be provided mid-afternoon.

The agenda for the Newark and Charlotte meetings as well as the Houston meeting is included below. Please note that the agenda for the Houston meeting is significantly different than the other meetings.

Please RSVP to Rosina Freeman at 713-215-4054 or via e-mail at rosina.l.freeman@williams.com no later than Wednesday, October 25, 2000 so that we can have an accurate count for each meeting. If you have any questions, please call Rosina Freeman at 713-215-4054. We hope to see you at this event.

Sincerely, Terry Fitch Manager, Gas Operations

AGENDA Newark, New Jersey November 7, 2000 and Charlotte, North Carolina November 8, 2000

9:00 a.m. Introduction I. System Overview -- Operational and Storage Update II. Construction and Maintenance -- 2000 Review and 2001 Preview III. Project Updates IV. Customer Survey and Regulatory Overview V. 1Line -- Process changes requiring tariff modifications Lunch 11:45 a.m. - 12:30 p.m. VI. Service Delivery -- Continuation of process change discussion VII. EDI X-12 and Flat File Data Set Structure and Layout

AGENDA Houston, Texas November 13, 2000

12:30 p.m. Introduction I. 1Line -- Process changes requiring tariff modifications Breakout session to begin at approximately 2:00 p.m. -- EDI X-12 and Flat File Data Set Structure and layout (to run coincident with the remainder of the Winter Operations program). II Gas Control Introduction III System Overview -- Operational and Storage Update IV Construction and Maintenance -- 2000 Review and 2001 Preview V Project Updates VI Customer Survey and Regulatory Overview

If you plan to attend only a portion of the program, please plan to arrive 30 minutes before the scheduled time identified above, as the break times are approximate.

File	germany-c/all_documents/3072.

I just checked the 24th, the actual number per navigator (actuals delivered to New Power from Stow) is 54246. I'll check the others on Monday now that I know how to do it. ----- Forwarded by Chris Germany/HOU/ECT on 01/19/2001 04:41 PM -----

Chris Germany 01/19/2001 04:17 PM To: Jeffrey Porter/HOU/EES@EES cc: Subject: Re: 12/31 Actuals

Just looking high level, I see 3 days where storage is off by more than 1,000 dt's that I will check into.

Date Sitara Jeff's 24th 54245 55720 26th 25058 32794 28th 39388 40053

I don't understand your storage number on the 16th. Does that mean you banked gas that day?

Also, I setup a column for Navigator numbers and it looks like we took out 66,000 for ENA.

I need to reconcile storage back to Nov so I can track what we took out vs. what we pay New Power for.

Angel,

Steve Gillespie is managing the day to day operations of the VNG asset mgt. deal for our logistics group. Please include him with your queries. It is my understanding that we are agents for all of their contracts and we pay all their transport

costs. In turn, we invoice them and they re-imburse us for that transport.

Chris Germany and Scott Goodell in the Transportation Trading Group are responsible for setting these contracts in UNIFY. All of these contracts in question are storage or transportation tied to storage. Chris/Scott please set up the 5 valid contracts below in UNIFY as soon as possible....Contract 37634 is terminated effective 8/31/1999.

If you have any questions please let us know. Victor

Angel Fuller@ENRON 11/21/2000 09:47 AM To: Joann Collins/Corp/Enron@ENRON, Alvin Thompson/Corp/Enron@Enron cc: Victor Lamadrid/HOU/ECT@ECT, Katherine L Kelly/HOU/ECT@ECT, Brenda H Fletcher/HOU/ECT@ECT, Sherry Anastas/HOU/ECT@ECT Subject: Virginia Natural Gas...Columbia Gas

Hi Joann and Alvin,

As you know, effective October 1, ENA became agent for Virginia Natural Gas. Here in Volume Management, as I try to load beginning balances and actualize volumes (so that I can pay VNG's transportation charges) for 10/2000, it appears that the following contracts for VNG/Cgas are not in Unify.

Contract Number Type 38079 FSS...Master Contract 35889 x-133 LNG Storage 60536 SST 37634 ISS 53004 FSS 60537 FSS

I would appreciate any help you can give me in getting these contracts in Unify as soon as possible. If you have any questions or need additional information, please let me know.

Thanks, Angel

Just got this clarified by Scott G., that this is not a special pricing but like any other contract. ENA will bill CES for both demand and commodity charges, ENA is billed by TCO for \$0.01 demand and commodity and Aristech pays TCO the remaining demand.

Jeffrey Porter 04/20/2000 03:53 PM

To: Chris.Germany@enron.com cc: Joan.Veselack@enron.com, Kara Destephanis/CES/ColumbiaGas@COLUMBIAGAS, Robert.Allwein@enron.com, Joann.Collins@enron.com, Doug Kinney/CES/ColumbiaGas, John Whited/CES/ColumbiaGas@ColumbiaGas Subject: Re: COH Choice for 4/21 - PLEASE READ - WEEKEND SETUP

Just a note that the bill from TCO goes to Aristech and CES pays Aristech for both demand and commodity. Any gas we buy from Enron should not include any commodity costs. Thanks JPP

Joan.Veselack@enron.com on 04/20/2000 12:12:17 AM Please respond to Joan.Veselack@enron.com

To: Kara Destephanis/CES/ColumbiaGas@COLUMBIAGAS cc: Chris.Germany@enron.com, Jeffrey Porter/CES/ColumbiaGas@COLUMBIAGAS, Robert.Allwein@enron.com, Joann.Collins@enron.com Subject: Re: COH Choice for 4/21 - PLEASE READ - WEEKEND SETUP

Kara, because we are close on the SST's max MDQ, we are going to use some of Aristech's Capacity. Also, to be pro-active on the huge temperature swings that we have been seeing on the weekends, we are going to do a 50/50 split with storage. Hopefully, this will prevent overrun charges and overdelivery gas. Cross our fingers!!!!!!! This has been approved through Jeff Porter, the CES Choice God!!!!!!

Also Joann Collins is on call this weekend. Friday is an "unofficial holiday" for us. Joann will be in the office tomorrow morning to do Choice.

Contract Changes:

7-1: 67693 11558 67829 5000 (aristech capacity) Total 16558

7-5 67693 9693 67829 3527 (aristech capacity) Total 13220

Thank you!!!!!!!!!!!!!!!!!!!!

Angel,

Steve Gillespie is managing the day to day operations of the VNG asset mgt. deal for our logistics group. Please include him with your queries. It is my understanding that we are agents for all of their contracts and we pay all their transport costs. In turn, we invoice them and they re-imburse us for that transport.

Chris Germany and Scott Goodell in the Transportation Trading Group are responsible for setting these contracts in UNIFY. All of these contracts in question are storage or transportation tied to storage. Chris/Scott please set up the 5 valid contracts below in UNIFY as soon as possible....Contract 37634 is terminated effective 8/31/1999.

If you have any questions please let us know. Victor

Angel Fuller@ENRON 11/21/2000 09:47 AM To: Joann Collins/Corp/Enron@ENRON, Alvin Thompson/Corp/Enron@Enron cc: Victor Lamadrid/HOU/ECT@ECT, Katherine L Kelly/HOU/ECT@ECT, Brenda H

Fletcher/HOU/ECT@ECT, Sherry Anastas/HOU/ECT@ECT Subject: Virginia Natural Gas...Columbia Gas

Hi Joann and Alvin,

As you know, effective October 1, ENA became agent for Virginia Natural Gas. Here in Volume Management, as I try to load beginning balances and actualize volumes (so that I can pay VNG's transportation charges) for 10/2000, it appears that the following contracts for VNG/Cgas are not in Unify.

Contract Number Type 38079 FSS...Master Contract 35889 x-133 LNG Storage 60536 SST 37634 ISS 53004 FSS 60537 FSS

I would appreciate any help you can give me in getting these contracts in Unify as soon as possible. If you have any questions or need additional information, please let me know.

Thanks, Angel

Re: 12/31 Actuals

Sender	jeffrey.porter@enron.com
Recipients	['chris.germany@enron.com']
File	germany-c/all_documents/47.

for the 16th, yes we swung down to nearly zero on storage, but in a few markets we were delivering SST from pool and FT and had to overdeliver. It gets banked and cashed out annually.

that 66,000 is about the discrepancy I see over the last 8 days.

Chris Germany@ECT 01/19/2001 04:17 PM To: Jeffrey Porter/HOU/EES@EES cc: Subject: Re: 12/31 Actuals

Just looking high level, I see 3 days where storage is off by more than 1,000 dt's that I will check into.

Date Sitara Jeff's 24th 54245 55720 26th 25058 32794 28th 39388 40053

I don't understand your storage number on the 16th. Does that mean you banked gas that day?

Also, I setup a column for Navigator numbers and it looks like we took out 66,000 for ENA.

I need to reconcile storage back to Nov so I can track what we took out vs. what we pay New Power for.

RE: TCO**Sender** chris.germany@enron.com**Recipients** [victoria.versen@enron.com]**File** germany-c/sent_items/786.

Steve Stonestreet at CGAS did verify that metered production on CGAS is "attached" to the AS (aggregation service) contracts, and from there you would schedule it to a transport contract or into the IPP contract. CGAS and Dominion work very similar when talking about metered production.

-----Original Message-----

From: Germany, Chris Sent: Tuesday, February 12, 2002 2:49 PM To: Versen, Victoria Subject: RE: TCO

37147 IPP agreement - our pooling contract. 39149 AS agreement - 66917 AS agreement -

I think the AS agreements are aggregation supply and I believe the wellhead meters were attached to these contracts to help with allocations and billing. I not 100% sure so I left a message for our CGAS contact to verify.

Columbia Gas - Pathing Arrangements & Storage Valuation

Sender	donna.greif@enron.com
Recipients	['angel.fuller@enron.com', 'bob.hall@enron.com', 'diane.cook@enron.com', 'katherine.kelly@enron.com', 'sherry....
File	germany-c/all_documents/739.

Yesterday, Logistics, Volume Management and the CGAS Trader met to discuss pathing arrangements for the CES Storage deal.

C R I T I C A L I N F O R M A T I O N F O R V O L U M E M A N A G E M E N T * All Storage Account Balances for contracts 67713, 51407 and 39607 should not be valued as an ENA asset - The storage inventory is CES's inventory and NOT owned by ENA. - The storage inventory on contracts 67713, 51407 and 39607 should NOT be part of the UA4 calculation - Fuel associated with storage injection should be part of * The "Select Point" feature will be used to create the sale to CES in storage. This pathing process will allow deal to be settled. -The "Point" balances should NOT be part of the UA4 calculation

Logistics is in the process of correcting pathing arrangements for the injection season to match the schematic as provided below. Once this is completed, Volume Management can complete the actualization process.

Logistics did make part of the corrections needed for the withdrawal season, to allow actualization on the storage contract; yet did not redo the transportation piece. Due to this, the pipeline is not in balance.

Logistics would like to meet with Volume Management and discuss this clean up process. I will try to set up a meeting for next week (Anastas, Kelly, Lamadrid, Collins, Fuller, Superty & me). How does Wednesday afternoon (9/20/00 at 2 p.m.) look for you guys?

Please get with me if you have any questions. If you could also please forward to anyone I may have excluded from this email.

Thanks,

dg

Pathing arrangements for CES Storage deals should be created following the schematics below.

FW: Tennessee Gas Pipeline Contracts -- EES

Sender	ruth.concannon@enron.com
Recipients	[chris.germany@enron.com]
File	germany-c/bankrupt/transport/tennessee/7.

-----Original Message-----

From: Concannon, Ruth Sent: Wednesday, February 27, 2002 4:35 PM To: Vanderhorst, Barry; Hewitt, Jess P.; Draper, David Cc: McMichael Jr., Ed; Garza, Maria; Mann, Kay Subject: Tennessee Gas Pipeline Contracts -- EES

Tennessee Gas Pipeline has made a global Enron bankruptcy filing. We have checked the information that EES provided earlier to Maria and there was no retail contracts on Tennessee Gas Pipeline shown. Tennessee shows the following six active contracts with Enron Energy Services, Inc. Please provide some additional clarification including the following information so that Enron can decide how to best respond to the filing.

CONTRACTS

Balancing Agreement K# 31905 (OBAD) Firm Gas Storage Service K# 38454 (FS-MA Assign) -- Assignment from New York State Electric & Gas Company Gas Transportation Agreement K# 38535 (FT-A Assign) -- Assignment from New York State Electric & Gas Company Gas Transportation Agreement K# 38539 (FT-A Assign) -- Assignment from New York State Electric & Gas Company Gas Transportation Agreement K#27848 (IT) Supply Aggregation Service Agreement K# 80265 (SA)

INFORMATION REQUIRED

Is the contract active or how/when did EES dispose of it? Did EES nominate under the agreements since November 30, 2001? If so, provide nomination by day. Does EES need to retain the contract? How much pre-petition and post-petition claims are due to Tennessee? Are there any contract imbalances remaining that need resolution? For transport assignments, can contract be re-released back to NYSEG? Can EES provide a copy of the contract, capacity posting and back-up information for the bankruptcy files?

As always, there is a short turnaround time to complete Enron's response to the filing.

Please respond by Monday, March 4th.

Thanks,

Ruth Concannon x31667

Re: CGAS contract 64231

Sender	chris.germany@enron.com
Recipients	[brenda.fletcher@enron.com]
File	germany-c/sent/976.

uhhh - ok <=== see no caps.

Brenda H Fletcher 04/11/2000 10:45 AM To: Chris Germany/HOU/ECT@ECT cc: Subject: Re: CGAS contract 64231

The reason for my question is due to a comment in cell 34 S of spreadsheet that says, "For Retail needs".

Chris Germany 04/11/2000 10:14 AM To: Brenda H Fletcher/HOU/ECT@ECT cc: Subject: Re: CGAS contract 64231

NO. CALP is a wholesale contract.

Brenda H Fletcher 04/11/2000 09:09 AM To: Chris Germany/HOU/ECT@ECT cc: Subject: Re: CGAS contract 64231

Chris, Do you invoice CES Retail for the monthly and volumetric demand paid by ENA to CALP?

Chris Germany 04/10/2000 06:09 PM To: Robin Barbe/HOU/ECT@ECT, Dick Jenkins/HOU/ECT@ECT, Joan Veselack/Corp/Enron@ENRON, Joann Collins/Corp/Enron@ENRON, Robert Allwein/HOU/ECT@ECT, Brenda H Fletcher/HOU/ECT@ECT, Scott Goodell/Corp/Enron@ENRON, Mark Feldman/HOU/ECT@ECT cc: Dan Junek/HOU/ECT@ECT Subject: CGAS contract 64231

This is a good time to bring this up. Unless the original CES agreement has changed, ENA will pay CALP a monthly demand charge of \$103,417 from 1/1/2000 - 4/30/2000. From 6/1/2000 - 7/7/2000, ENA will pay a (volumetric) demand charge of \$.02/mmbtu to CALP for any volumes utilized by ENA.

Which brings up 2 important points; 1.The month of May has not been addressed which means Robin needs to discuss this with CALP (and she may have already) However, currently we will not be showing any demand estimates for May.

2. It's a new ball game starting 7/8/2000.

Comments/questions?

----- Forwarded by Chris Germany/HOU/ECT on 04/10/2000 05:57

Termination / Release letters for Producers on Dominion

Sender	r..price@enron.com
Recipients	['margaret.dhont@enron.com', 'kay.mann@enron.com', 'e..dickson@enron.com', 'm..hall@enron.com']
File	germany-c/bankrupt/transport/dominion/38.

Kay - Thanks for your attention and assistance in this matter.

Several gas producers are flowing gas through Dominion Transmission pipeline to Enron's pool. They have terminated their contracts with Enron, or have sent documents to us to terminate their contracts with Enron. They are calling now requesting letters confirming termination of their contracts and/or letters releasing their gas on Dominion Transmission's pipe from Enron's pool in order to satisfy Dominion Transmission's requirement for proof of termination and/or release of gas back to the producers. Dominion Transmission is holding these producers' gas and is not letting the producers sell their gas to other buyers.

I have been trying for the last three weeks to discover the route these requests need to pass through in order to get the aforementioned termination and release notices. I have met with little success and fewer answers. Prior to my being involved, Nelson Ferries had forwarded a few requests through Contracts and Legal and had Fred Lagrasta sign off on them. I also talked to several people last week in Contracts and Legal asking for help, but a process does not seem to be in place.

Please advise as to how quickly we can act on these requests. Producers are fearful of not being able to sell their January 2002 gas (ie. not getting paid) and are facing severe financial hardships. Please advise as to what I can provide or help out with this process.

A list of producers is provided below. I am sure more producers will call.

Thanks WRP

The following producers have been calling requested such letters: Master Log Producers Contract Contact Phone Status Comments

Juniper

Sender	l.kelly@enron.com
Recipients	[chris.germany@enron.com]
File	germany-c/bankrupt/juniper/2.

I kind of doubt that you'll get any changes since both of the wells have changed in just the last two days, but here's the scoop.

There are only two wells to worry about getting calls from.

1) West Cam 310/313 (Hios) you may hear from Elma with Forest regarding a change. She called today with a change for the 7th to go from 3795 to 3700. I'm going to go ahead and let Steve Lewis at Petrocom know, so you shouldn't have to worry about it unless she calls back. I did however, give your number to her. Her number is 337-265-2622.

2) EI 57 (Trco) you may hear from Janine with Samedan. She just just her volume for today's flow, so I doubt that you'll get any new changes. The current flow is at 1400. Janine's number is 580-221-1200.

If you get a call regarding either well, just call Steve Lewis with Petrcom and let him know. His number is 713-353-2752. He's very nice and easy to work with. I also always follow up with an email. His email is shl@ptrcom.com.

That should be all that would need immediate assistance. If anyone should need me though, my home phone is 281-361-2334 and cell is 713-304-1327.

Thanks!

*Message 117 of 174***IT discounting week of June 5**

Sender	robin_almond@iroquois.com
Recipients	[]
File	germany-c/transport/63.

Hello all:

We will be out of the office June 5 through June 8. On the mornings of the 5th and the 8th we will be airborne during the usual IT trading time. As such, we would like to sell for Tuesday's gas day on Friday, June 2 (much like this past Memorial Day Weekend) and for Friday's gas day on Wednesday, June 7.

Fri June 2 - sell for Sat June 3 through Tues June 6 gas days Tues June 6 - sell for Wed June 7 gas day Wed June 7 - sell for Thurs June 8 and Fri June 9 gas day Fri June 9 - back in the office, sell for Sat June 10 - Mon June 12 gas days, business as usual

While we are away you can beep us at 860-260-6741. If you call 203-944-7006 and leave a message, please make it a DETAILED one, because the voicemail automatically beeps us at the above number, and we call in to listen to the messages. Please don't leave a message and then beep us anyway, you will just be delaying our response to you. You can also try us directly at the hotel - 602-955-6600.

Please call either of us at the numbers below if you have any questions.

Robin & Maria

Sitara Deal 77563

Sender	brenda.fletcher@enron.com
Recipients	['scott.goodell@enron.com', 'chris.germany@enron.com', 'judy.townsend@enron.com', 'dan.junek@enron.com']
File	germany-c/transport/81.

Dan, This was response from Tom on question about the deal # for Bug contract 414 on Tenn that you were unable to terminate. I've cleaned up the other 3 deals he mentioned. Brenda ----- Forwarded by Brenda H Fletcher/HOU/ECT on 05/17/2000 11:56 AM -----

From: Thomas Engel 05/17/2000 11:27 AM

To: Brenda H Fletcher/HOU/ECT@ECT cc: Subject: Sitara Deal 77563

Somehow they broke the program rules - I will have to check that out - deal 229101 was supposed to be ENA-IM EAST as a secondary desk to the BUG deal. They were able to save it as BUG as the secondary - which they should not be able to do - as this breaks the one deal rule per business unit per contract per time period.

I cleaned up the deals for you - it is the only way I could make sure it worked - and removed the evergreen flag off the the BUG deal.

There are 3 more deals that have May forward activity - can you follow up on these - don't forget to cancel the evergreen on the service deals or they will just keep rolling.

----- Forwarded by Thomas Engel/HOU/ECT on 05/17/2000 11:09 AM -----

Brenda H Fletcher 05/17/2000 09:23 AM To: Thomas Engel/HOU/ECT@ECT cc: Subject: Sitara Deal 77563

Deal # 77563 is a Transport Capacity ticket for a BUG contract which needs to end 3/31/00. I have been unable to change the end date to 3/31/00 or change the demand to zero beginning 4/1/00. When I try to release after editing the deal, this message appears. How can I get deal 77563 terminated? Thanks, Brenda

Transco - System Imbalance Notice

Sender	chris.germany@enron.com
Recipients	['jim.homco@enron.com', 'jason.crawford@enron.com']
File	germany-c/sent/2102.

This is the first notice from Transco regarding imbalances. Transco has not changed their IT notices since the 6th, when they closed down St 90. ----- Forwarded by Chris Germany/HOU/ECT on 12/21/2000 01:12 PM

"CustomerNotices, WGPHOU" <WGPHOU.CustomerNotices@Williams.com> on 12/21/2000 12:56:04 PM To: cc:
Subject: Transco - System Imbalance Notice

Media Inquiries: Chris Stockton (713) 215-2010 Other Inquiries: Terry Fitch (713-215-3361) or John McGrath (713-215-2514) December 21, 2000

To: Transcontinental Gas Pipe Line Corporation Customers and Shippers

Re: System Imbalance Notice

Please be advised that Transco has been experiencing excessive negative transportation imbalances (deliveries in excess of receipts) on its system over the past several days. As of December 21, 2000, Shippers are advised to avoid any additional negative imbalances as soon as possible.

Additionally, until further notice, Transco will institute more restrictive practices at its pooling points. Transco will reduce the 4% tolerance currently allowed at its pooling points to 1% or 1,000 dts for Shippers with negatively scheduled imbalances (i.e. deliveries into the pools are less than receipts away from the pools). Shippers with positively scheduled imbalances at their pools will continue to be held to the 4% tolerance levels. Transco will not enforce these pool imbalance tolerances during the timely nomination cycle; however, Shippers are expected to balance their pools to the limits identified above by the ID2 nomination cycle. Transco may proactively decrease markets to bring them in line with supplies at pooling points.

Absent voluntary compliance with this notice, Transco may be required to use any remedies available, up to and including reliance upon Section 52 of the General Terms and Conditions of Transco's FERC Gas Tariff, to ensure it retains the appropriate level of operational flexibility.

If you have any questions, please call Terry Fitch at (713) 215-3361 or John McGrath at (713) 215-2514.

Iroquois is offering to market ENA's capacity for \$1.00 (see attachments at the bottom of this email). Doesn't sound like a bad deal to me

-----Original Message-----

From: "Robin Zaleski" <robin_zaleski@iroquois.com>@ENRON Sent: Monday, January 28, 2002 1:49 PM To: Germany, Chris Subject: [Fwd: [Fwd: Enron noms]]

Chris

I checked our tariff and with our in house council and there is nothing that precludes us from assisting you with marketing this capacity. In fact, our tariff provides for it in Section 28.15 of the General Terms & Conditions (Transporter & Shipper negotiate a "marketing fee" for Transporter to actively market capacity on behalf of Shipper). So as not to set a precedent of doing it for free, I've attached a letter agreement for a token \$1 marketing fee. What is the protocol (and likelihood) of having something like this signed?

Once the capacity is offered and a replacement shipper is found, all three parties would sign a permanent release agreement, a pro forma of which is also attached. Basically it outlines who the parties are, what agreements are in place, and takes all the liability (and right of first refusal) off of you and puts it on the Replacement Shipper. Enron has signed a similar agreement in the past regarding the majority of volumes on the same contract when it released them to ProGas in 1997.

Please call me to discuss and/or if you need the relevant tariff page faxed to you.

Gas Daily's for January

Sender	chris.germany@enron.com
Recipients	['jeffrey.porter@enron.com']
File	germany-c/sent/2012.

Jeff, don't forget that Mike is taking 27835 of the FOM gas into his pool everyday. With the Maumee cuts, I am showing that you are buying gas daily from ENA everyday. Column T under the CGAS tab shows what Gas Daily volumes you are taking from me. Column V shows the Gas Daily sells you are making to me. Column F is the citygate storage number that should match cell Q41 on your COH sheet. We have one big discrepancy on the 8th.

Call me if you have questions.

Joann, on the 8th, Jeff is showing a withdrawal of 57431(citygate number) we are showing a volume of 49560 (48478 at the citygate). Would you check that please.

Thanks to each of you who agreed to sponsor my MS150 bike ride. Can you please complete the following spreadsheet and return it to me?

<< File: MS150 Pledge Sheet.xls >>

Just a few things you should be aware of:

1. I prefer checks written to "National MS Society"
2. Please send checks to me (via post or interoffice mail) at: work - 1400 Smith Street, ECS 04443, Houston, TX, 77002 or home - 3400 Timmons Lane #66, Houston, TX, 77027 Or call me at 35966 and we can arrange something.
3. The purpose of completing the pledge sheet is so that MS can send each of you a receipt for your records.

My riding continues....the wet roads made for an interesting ride on Sunday!! Again, I thank each of you for your contribution.

The Last Transco IT notice

Sender	chris.germany@enron.com
Recipients	['jim.homco@enron.com', 'jason.crawford@enron.com']
File	germany-c/all_documents/3146.

Media Inquiries: Chris Stockton (713) 215-2010 Other Inquiries: John McGrath 713-215-2514 December 29, 2000

To: Transcontinental Gas Pipe Line Corporation Customers and Shippers

Re: Market Area IT Availability - January 1, 2001

The available interruptible transportation service (IT and secondary FT) on Transco for pipeline day Monday, January 1, 2001 and continuing until further notice is summarized as follows:

Tier I and Tier II (only Sta. 90 through Sta. 180 affected) 0 MDt/day

South Virginia Lateral Compressor Station 167 144 MDt/day

Tier III (Station 180 through East) 0 MDt/day

Leidy - at Centerville Regulator Station (Only 50 MDt/day Deliveries downstream of Centerville regulator affected)

Linden Regulator Station 50 MDt/day (Located in Union County, New Jersey)

Mobile Bay Lateral 162 MDt/day

The above available interruptible transportation service refers to deliveries into the affected area that have receipts upstream of the bottleneck or affected area.

If you have any questions, please call John McGrath at (713) 215-2514 or Jeannette Sirois at (713) 215-2651.

Chris-

(It's Clayton, on my UT account from home)

I may have the perfect girl for you; she's a 29-year old *beauty* in Ukraine, one of my wife's best-friends, about 5'2" in height, slim, smart but a bit quiet and introspective, who really wants to meet a quality guy and get married and have children. She had her heart broken by her first love, a guy who dumped her for a girl in Kiev whose father gave the guy a good job. It seems the quality guys, as few as they are, all want to marry a rich girl and want only money andnot children.

I'll bring a picture of her by your office tomorrow.

One hang-up- she doesn't speak English very well (yet). But, where there's a will, there's a way.

Clayton

File	germany-c/discussion_threads/1727.

As you are painfully aware, starting October 1 several of the CES / New Power utilities will be going to daily requirements. Therefore, for those of you that handle the upstream scheduling for city gate deliveries to New Power please provide us with the pipelines you schedule, your pager number and that of your designated back-up, if applicable. Additionally, anytime you know that you'll be unavailable please advise us who to contact in your absence.

Our plan is to send e-mails each weekday morning directly to schedulers that have changes ... and then follow up with a Daily Requirements summary (which several of you have indicated you do not need to see a copy of). If you would prefer a phone call instead of or in addition to the e-mail on mornings that we have changes on your pipelines, please advise. Please notify us via e-mail anytime you have a contract change that affects us (during the week) and page us on the weekends.

Thanks for your help.

Re: CGAS contract 64231

Sender	chris.germany@enron.com
Recipients	['brenda.fletcher@enron.com']
File	germany-c/_sent_mail/1216.

NO. CALP is a wholesale contract.

Brenda H Fletcher 04/11/2000 09:09 AM To: Chris Germany/HOU/ECT@ECT cc: Subject: Re: CGAS contract 64231

Chris, Do you invoice CES Retail for the monthly and volumetric demand paid by ENA to CALP?

Chris Germany 04/10/2000 06:09 PM To: Robin Barbe/HOU/ECT@ECT, Dick Jenkins/HOU/ECT@ECT, Joan Veselack/Corp/Enron@ENRON, Joann Collins/Corp/Enron@ENRON, Robert Allwein/HOU/ECT@ECT, Brenda H Fletcher/HOU/ECT@ECT, Scott Goodell/Corp/Enron@ENRON, Mark Feldman/HOU/ECT@ECT cc: Dan Junek/HOU/ECT@ECT Subject: CGAS contract 64231

This is a good time to bring this up. Unless the original CES agreement has changed, ENA will pay CALP a monthly demand charge of \$103,417 from 1/1/2000 - 4/30/2000. From 6/1/2000 - 7/7/2000, ENA will pay a (volumetric) demand charge of \$.02/mmbtu to CALP for any volumes utilized by ENA.

Which brings up 2 important points; 1.The month of May has not been addressed which means Robin needs to discuss this with CALP (and she may have already) However, currently we will not be showing any demand estimates for May.

2. It's a new ball game starting 7/8/2000.

Comments/questions?

FW: CNGP Storage --- Dominion Storage

Sender	ruth.concannon@enron.com
Recipients	['sproctor@akllp.com', 'robin.barbe@enron.com', 'maria.garza@enron.com', 'chris.germany@enron.com']
File	germany-c/bankrupt/transport/dominion/7.

Here is the information that I requested from EES accounting on the value of the Dominion storage using the weighted average cost of gas approach. I am sure that I will be able to you to come around to my view of what NiMo's SC-11 tariff says.

I will also try to get documentation that confirms that when the storage volumes were assigned to EES that the wieghted average cost of gas approach was also used. EES believes that the market value of the NiMo storage volumes were significantly higher than the invoice price that was paid.

Ruth

we did not

-----Original Message-----

From: Germany, Chris Sent: Wednesday, November 21, 2001 11:35 AM To: Halstead, Lia; Collins, Joann Subject: Iroq/Tenn on Nov 13th

On Nov 13th, I sold 2700 dth to Black Hills in Tenn Z6 for the 13th. I bought the gas from Hodge on CNG. I need to know where the gas is if it didn't get delivered to Tenn. The deal ticket shows that I changed added the deal at 8:50 am. The volumes must have been in Sitara because Sitara shows Joann changing the volume from 14085 to 11348 on the 14th? Then it shows me changing the volume back on the 14th.

Lia, would you see if we even nominated the intraday on the 13th to Black Hills?

thanks

Chris

Since you are not using the smaller contract at all, and it is a true Enron contract (as opposed to capacity release), you can release that one as well, to anyone. We may be able to help you find a home for it. The liability right now is about \$27,000 a month.

Call me to discuss.

robin

Re: Orwell & Lakeside - Enron IPP

Sender	joan.veselack@enron.com
Recipients	['chris.germany@enron.com', 'bperron@columbiaenergygroup.com', 'robert.allwein@enron.com', 'victor.lamadrid@en...']
File	germany-c/ces/167.

Brian said the deal was done with Chris to use Enron's IPP. This has been scheduled.

TCO cannot attached Enron's FSS (storage) to Orwell and Lakesides GTS contracts. TCO could do an inground storage transfer between Enron and these accounts, however storage withdrawal and injection fees would be charged.

Per my other e-mail... we are on target in getting the total gas withdrawn from storage for March. There is no need to do outside deals to get additional storage gas out of the ground. If you do outside deals, this just changes the amount of storage that goes to Choice.

Thanks.

Transwestern K#24924 Capacity Release Revenue Sharing

Sender	ruth.concannon@enron.com
Recipients	['rita.wynne@enron.com', 'maria.garza@enron.com', 'chris.germany@enron.com', 's..olinger@enron.com', 'phil.pol...]
File	germany-c/bankrupt/transport/transwestern/5.

I need your help to make sure that the P&L/cash estimates get updated to record the February and March capacity release revenue that ENA will be receiving from Transwestern under K#24942 (i.e. Ignacio to Blanco I/B Link). It is my understanding that Kim will be flashing the expense at our contract rate of \$0.06/Dth, therefore the demand expense that should be flashed is \$42,000 for February and \$46,500 for March. TW released the capacity at the maximum rate of \$0.102/Dth for February and March. TW will keep \$0.021/Dth or 50% of the amount above ENA's discounted rate (i.e. \$14,700 for February and \$16,275 for March). To offset ENA's demand expenses of \$0.06/Dth, the invoice will also show a credit of \$0.081/Dth or \$56,700 for February and \$62,775 for March. TW will be paying the difference to ENA (i.e. \$14,700 on March 15th and \$16,275 on April 15th).

Chris -- Please put new Sitara tickets in the system to record ENA's capacity release credit for February and March

Maria -- It looks like TW K# 24924 can be released, either moon-to-month or permanently, above our discounted rate. This contract needs to be on ENA's list of contracts to keep and remarket for the estate. TW Accounting has told me that for February and March the payments to ENA will be made on the 15th of the month.

Phil -- Set this contract up as one that ENA wants to keep. Update your cash flow model to record the TW payments on March 15th and April 15th.

Thanks for your help,

Ruth x31667

Transco - FT - NT - Texas Gas Rate Changes Eff. 01/01/01

Sender	wgphou.customernotices@williams.com
Recipients	['FT-NT Customers']
File	germany-c/notes_inbox/1.

Media Inquiries: Chris Stockton (713) 215-2010 Other Inquiries: Mike Heeney 713-215-2424 December 13, 2000

To: FT-NT Customers

Re: Texas Gas Rate Changes Effective 1/1/01

On November 30, 2000 Texas Gas Transmission Corporation (Texas Gas) filed revised tariff sheets in Docket No. RP01-135-000 pursuant to the Settlement Agreement in Docket No. RP97-344, in which the Commission required Texas Gas to reduce certain Account No. 858 contracts. In the instant filing Texas Gas proposes to reflect rate reductions resulting from the termination of the HIOS T-17 contract. Included in the filing were revised rates under Texas Gas' Rate Schedule FT which Transco utilizes to render service to its customers under its Rate Schedule FT-NT. The revised tariff sheets have a proposed effective date of January 1, 2001. If accepted as proposed, the revised Texas Gas tariff sheets would result in the following changes in Transco's current Rate Schedule FT-NT Rates:

Zone SL Demand Charge - \$0.0192 decrease Zone 1 Demand Charge - \$0.0192 decrease

Please refer any questions to Mike Heeney, Rate Department, at (713) 215-2424.

Ruth,

I followed up with Joe in regards to the MRT capacity on the retail side. He would like to now how to proceed. Please advise. MRT is ready to purchase back the capacity at max rates.

Maria

-----Original Message-----

From: Des Champs, Joseph Sent: Friday, January 18, 2002 10:59 AM To: Garza, Maria Subject: RE: Central transport

Yes we picked up the ANR transport directly and as for he others I do not know if they are release or not. I would assume if they are not in our name then they would be released capacity from the contracted party or successor. We may have picked some capacity up with the purchase of the PG&E book last year. Call me at x52503 as we can discuss. Maria-Our contact at MRT is Mike Stoll at 314-991-7405 and he contacted me and wants to buy the agreements back asap at Max rates which is what we own them at I believe. My ANR contact is Joyce Quinten @ 882-676-2603. PEPL contact would be Mark Wilke at 713-989-7574(I spoke with the nominations rep and she said Mark sent a letter that I have not seen)

-----Original Message-----

From: Garza, Maria Sent: Wednesday, January 16, 2002 9:07 AM To: Des Champs, Joseph Subject: Central transport

Hello!

A few pending questions regarding central transportation contracts.

1. PEPL and MRT contracts - Are these capacity release, agency, or do we own them? The ANR agreements indicate that we own those. The MRT agreements appear to state that they were released. If these are release contracts have they been recalled?

2. Can you provide the contact name and title, the address and the fax number for the ANR, PEPL and MRT. We need to provide notification of turn back for the contracts that we own.

Thanks a lot. Please let me know if you have any questions.

Maria

-----Original Message-----

From: Balfour-Flanagan, Cyndie Sent: Friday, May 31, 2002 1:36 PM To: Germany, Chris Cc: Couch, Greg Subject: RE: Deals

NK7775.1 This Confirm was sent to the counterparty but it is not showing that we received an executed copy back

EE9092.1 (Sitara# 10258, no confirms on file, in TAGG & in Sitara & DCAF, states that this is a rebooking of E23290.1)

EE9092.3 (TAGG states that this is a rebooking of E23290.4, as part of E23290.1; no confirms on file)

E23290.1 (states "Retrofit - Oracle #52730.IB, 15419.02") 1/8/98

This LOOKS (at least as far as I can tell) like the volumes are a result of the Fuel Load need to support X HP hours for the compressor, this is echoed by a memo related to E23290 (looks like someone did an inquiry into this in 10/1995. I did a very quick scan of these "agreements" & it appears as all this looks to be gas for the "Hubbard Station" compressor fuel requirements (there is an Exhibit C that calcs out HP-hours into fuel requirements). Other than the SWAP confirms - - - and this "agreement" I could not find anything else other than deal tkts.

The "Agreement" progression (for the Compression Services Agreement) goes like this: 3/1/95 Compression Services Agreement (fuel calc in Exhibit C) - - - Amended & Restated 11-1-97 (fuel calc in Exhibit C) - - - terminated & replaced by 6-29-00 Compression Services Agreement (Fuel Calc in Exhibit B). The Fuel needs are found in the exhibits.

So, id according to the notes in TAGG & if all of these roll back to E23290 - - - - here is your paperwork << File: NNG.zip >>

To: Chris Germany [SDCV01.NAV0409]@LMSOV cc: Subject: Questions about CES Capacity

I have a few questions about CES Retail's firm capacity. I am trying to determine what capacity CES had that was assigned to ENA, with contract details. I combined a few spreadsheets but still have questions. Mostly I am looking for some of the following: contract #, RP, DP, MDQ or term. Also not sure if capacity K#s I have were CES's, then assigned or ENA's own. Can you please assist?

1. TCO K#64651-is it CES' or ENA's? delivers to CMD4-25 Originally CES'. Assigned to ENA. 19-26 3 19-27 23 19-32 4 19E (19-25) 34 Rec-Leach 64

2. TCO COH7-1, Exhibit 1 shows 20,000 of capacity for C&I. I have no details on this K. I don't see a break between Commerical and Retail, can you provide more information?

3. TCO K#62164- I believe it delivers to COH7-4, but I have no details. Rec MLI 1000 Volume of 2000 Del MLI 23-9 Volume of 2000 Thru 12/31/2000

4. TCO K#65403- believe it delivers 19,000+ to BGE, but need all detail. Rec- Leach Del-4-Baltimore 19,293 Thru 4/30/2001

5. CNG NORTH- K#'s 5A2291/5A2181 and 5A2292/5A2182; deliveries to NIMO, CES's or ENA's? 5A2292 Enron North America released from CES 5A2289 2/00 476/d 5A2291 ENA from CEM 5A2288 2/00 422/d 5A2181 and 5A2182 Appear in the EBB as CES for January. ENA was the agent

6. Have a bunch of contracts to TETCO M3, CES or ENA? see below No info provided, was a file attached to this original email?

7. TRANSCO Z5-Ex 1 shows 150 capacity, I have no details. Sounds like a PSNC type volume. Can you verify?

8. TRANSCO Z6- for LILCO, is this released monthly to ENA? YES 9. Texas Gas Z-4 to DP&L- monthly also? The 1440/d from Dayton on TXGAS is released monthly (to ENA).

10. Did CES have any ColGulf capacity that was assigned? All the retail contract, O&R, CMD, COH, etc. Both FTS-1 and FTS-2. Wholesale capacity

Call me if you have questions. Jeff 703/561-6447

FW: Tenn Sonat Park & Loan deals

Sender	chris.germany@enron.com
Recipients	[maria.garza@enron.com]
File	germany-c/sent_items/991.

Here is a little more info in the Tenn/Sonat park & loan deal. The volume is 500,195 dth parked in Bear Creek storage on Tenn contract 15692. It was supposed to come out on Sonat this month but we never scheduled it. Yesterday, Clarissa Garcia tried to schedule some of this gas for today's gas day. We don't know if Tenn allowed us to schedule it yet.

Summary There is only 1 Tenn park & loan deal for 500,195 2 Cgas park & loan deals shown below. We have not scheduled any of the CGAS park & loan deals.

-----Original Message-----

From: Germany, Chris Sent: Monday, December 17, 2001 4:43 PM To: Breese, Mark; Boyt, Eric; Little, Kelli Subject: Tenn Sonat Park & Loan deals

I really need to chat with the pipeline on this one but this is my best guess right now. This gas was parked at Bear Creek on a Tenn park and loan contract. It is scheduled to come out on Sonat. To my knowledge, we don't have any Sonat demand charges. But our monthly demand charge expense on Tenn is at least \$376,000.00, mainly due to the Boston Gas netback deal. I think Tenn would make us prepay the Tenn demand charges to get this gas out of the park & loan on Sonat.

We have 500,000 that was scheduled to come out in December on Sonat. I have no idea how Tenn/Sonat will bill us for this contract going forward.

-----Original Message-----

From: Germany, Chris Sent: Monday, December 17, 2001 4:29 PM To: Breese, Mark; Boyt, Eric; Little, Kelli Subject: CGAS Park & Loan deals

We currently have 2 park & loan deals with Colubia Gas.

Deal 1) we have 310,000 that was scheduled to come out in December, contract #67401, we are currently paying \$8370.00 per month on this deal.

Deal 2) we have 310,000 scheduled to come out in January 2002, contract #70457, we are currently paying \$16,740.00 per month.

I have not spoken to the pipeline but I believe we would have to prepay all of our transport demand charge expenses before CGAS will let us schedule any of this gas. Our monthly demand charge expense is \$290,000.00. I would also assume that we would have to prepay the EES demand charges as well.

RE: Iroquois' 7th Annual Customer Meeting, October 4-6, 2000 (batchmail 09.21.00)

Just a reminder that TODAY, September 21, 2000 is the cut off date for hotel reservations at the Mystic Hilton for Iroquois' meeting.

If you haven't done so already, you can make your reservations online at:

** <http://www.hilton.com/hotels/MYSMHFF/index.html>

** with the hotel directly at 860-572-0731

** or with Hilton Worldwide at 1-800-HILTONS

Use the group code "IGT" to get the Iroquois rate of \$135. After today we cannot guarantee room or rate availability.

Unfortunately there is nothing we can do about the the lack of rooms on Wednesday night at the Hilton. The golf was originally planned for Friday afternoon but we had to move it to early Thursday morning because of the holiday weekend, and could not get additional hotel rooms for Wednesday night because of another conference. There are still plenty of rooms left for Thursday night.

If you are coming on Wednesday night, it is suggested that you make a reservation at one of the alternate hotels in the area and ask to be waitlisted for available rooms at the Hilton. The alternate hotels are listed on our website at <http://www.iroquois.com/igts/mystic/section-mystic-hotel.html> The first four properties listed and the Residence Inn are less than a mile from the Hilton.

While you're at it, if you haven't already RSVP'd for the meeting, please do so by September 28. You can register online at <http://www.iroquois.com/mystic.html>. If you have already registered online and did not receive an e-mail acknowledgment from Lori Rauser, please phone her at 203-944-7022 to confirm receipt.

Please contact me if you have any problems with accommodations, or any other questions about the meeting. We look forward to seeing you in October.

Re: Orwell & Lakeside - Enron IPP

Sender	joan.veselack@enron.com
Recipients	['robert.allwein@enron.com', 'chris.germany@enron.com', 'joann.collins@enron.com']
File	germany-c/all_documents/1916.

Per our phone call... I changed the deal ticket to match reality of 1174/day. Robert will path as a buy/sell in unify.

Chris Germany@ECT 03/14/2000 01:45 PM To: Joan Veselack/Corp/Enron@ENRON, Robert Allwein/HOU/ECT@ECT, Joann Collins/Corp/Enron@ENRON, Jesse Villarreal/HOU/ECT@ECT, Cynthia Franklin/Corp/Enron@ENRON cc:

Subject: Re: Orwell & Lakeside - Enron IPP

I'm a bad person. I forgot to tell you I sold CES 880 to 1000 day at the pool starting tomorrow on deal 217775

Also, I just sold CES 2500/day at CGLF Mainline starting the 16th-31st, deal 217854. This gas is for Atistech. I assume we schedule that.

Joan Veselack@ENRON 03/14/2000 12:58 PM To: bperron@columbiaenergygroup.com, Chris Germany/HOU/ECT@ECT, ltippet@columbiaenergygroup.com, dkinney@columbiaenergygroup.com cc: Joann Collins/Corp/Enron@ENRON, Robert Allwein/HOU/ECT@ECT, Victor Lamadrid/HOU/ECT@ECT Subject: Re: Orwell & Lakeside - Enron IPP

Brian said the deal was done with Chris to use Enron's IPP. This has been scheduled.

TCO cannot attached Enron's FSS (storage) to Orwell and Lakesides GTS contracts. TCO could do an inground storage transfer between Enron and these accounts, however storage withdrawal and injection fees would be charged.

Per my other e-mail... we are on target in getting the total gas withdrawn from storage for March. There is no need to do outside deals to get additional storage gas out of the ground. If you do outside deals, this just changes the amount of storage that goes to Choice.

Thanks.

bperron@columbiaenergygroup.com on 03/14/2000 10:58:19 AM To: " - *Tippett, Lee" <ltippet@columbiaenergygroup.com> cc: " - *joan_veselack@enron.com" <joan_veselack@enron.com>

Give me your fax number and I'll fax it over. Doug Sewell said he would not pay for it as ENA and I don't know enough about the deal to argue with him. I've pasted in Richard's response is in black below.

-----Original Message-----

From: Tomaski, Richard Sent: Tuesday, March 12, 2002 5:01 PM To: Germany, Chris Subject: Re: FW: Peoples Energy invoice

I'm familiar with the item. It sounds like enovate should pay it if it is enovate access.

Is this taken care of or do I need to call someone to pay it? Let me know

Richard

-----Original Message-----

From: Wynne, Rita Sent: Wednesday, March 13, 2002 8:42 AM To: Germany, Chris Cc: Tomaski, Richard Subject: RE: Peoples Energy invoice

No I am not. Donna Grief called me on Monday concerning this and I told her we would need Commercial's blessing and then approval by the cash committee. I agreed to handle it because of the urgency of it needing to be paid. According to Kim, normally it would appear on a buy/sale ticket and therefore, Margaret Dhont's group would handle this. I'm not really sure what group should handle it. Is there an invoice that you can get to me so that I can have it as backup support for the cash request?

-----Original Message-----

From: Germany, Chris Sent: Tuesday, March 12, 2002 4:33 PM To: Wynne, Rita Cc: Tomaski, Richard Subject: FW: Peoples Energy invoice

Are you familiar with this item?

From: Olinger, Kimberly S. Sent: Tuesday, March 12, 2002 3:18 PM To: Germany, Chris Subject: RE: Peoples Energy invoice

chris - forward the info to rita wynne and she will expedite the payment

-----Original Message-----

From: Germany, Chris Sent: Tuesday, March 12, 2002 2:20 PM To: Tomaski, Richard Cc: Brady, Kevin; Olinger, Kimberly S.; McMichael Jr., Ed Subject: Peoples Energy invoice

Beth Jenkins gave me your name as an Enron contact regarding Enovate.

I work for Ed McMichael on the gas side of the Enron Estate team. Kevin Brady schedules gas for the Enron Estate Team. Kevin received an invoice from Peoples Energy in the amount of \$1,380.44, it looks like this invoice has not been paid in a few months. I just faxed the invoice to you at 312-541-2728. This invoice is for a license fee and a customer charge for Pegasys, the system Kevin uses to do nominations on Peoples Gas Light & Coke. All the activity is for the Enovate deals. Doug Sewell said that this should be paid by Enovate, not Enron. Kevin was told by Peoples that if this invoice is not paid, they will terminate Kevin's access. Do you know who we could forward this too so that it can get processed correctly?

Thanks

NNG Deals

Sender	chris.germany@enron.com
Recipients	['sara.shackleton@enron.com', 'chris.germany@enron.com']
File	germany-c/inbox/49.

I work with Louis Dicarlio in Ed McMicahels group.

Louis gave me some Northern Natural Gas Company (NNG) deals to research and he suggested that I talk to you if I have any questions.

According to Louis, when NNG did a deal with ENA, the deal would be booked under the counter party name RISKMANTRA. It appears that deal number NK7775.1 is a swap between NNG and ENA. I spoke to Morgan Gottsponer at NNG last week and he said he was hedging some of the NNG storage positions. I've pulled the confirmation for this deal out of the zip file attachment so you can see it. Unless you object, I'm going to ask risk management to change the counter party to RISKMANTRA in tagg.

Please let me know if you have any comments or questions. I have some other items that deal with NNG and Enron Compression Services that I may ask you questions about but I'm still doing my research.

Thanks.

-----Original Message-----

From: Balfour-Flanagan, Cyndie Sent: Friday, May 31, 2002 1:36 PM To: Germany, Chris Cc: Couch, Greg Subject: RE: Deals

NK7775.1 This Confirm was sent to the counterparty but it is not showing that we received an executed copy back

EE9092.1 (Sitara# 10258, no confirms on file, in TAGG & in Sitara & DCAF, states that this is a rebooking of E23290.1)

EE9092.3 (TAGG states that this is a rebooking of E23290.4, as part of E23290.1; no confirms on file)

E23290.1 (states "Retrofit - Oracle #52730.IB, 15419.02") 1/8/98

This LOOKS (at least as far as I can tell) like the volumes are a result of the Fuel Load need to support X HP hours for the compressor, this is echoed by a memo related to E23290 (looks like someone did an inquiry into this in 10/1995. I did a very quick scan of these "agreements" & it appears as all this looks to be gas for the "Hubbard Station" compressor fuel requirements (there is an Exhibit C that calcs out HP-hours into fuel requirements). Other than the SWAP confirms - - - - and this "agreement" I could not find anything else other than deal tkts.

The "Agreement" progression (for the Compression Services Agreement) goes like this: 3/1/95 Compression Services Agreement (fuel calc in Exhibit C) - - - - Amended & Restated 11-1-97 (fuel calc in Exhibit C) - - - - terminated & replaced by 6-29-00 Compression Services Agreement (Fuel Calc in Exhibit B). The Fuel needs are found in the exhibits.

So, id according to the notes in TAGG & if all of these roll back to E23290 - - - - here is your paperwork

-----Original Message-----

Hi team. Laurie has been asking for quite some time about an imbalance trade behind NIMO. As you can see, I did my usual ignore it and maybe it will go away but its not working. So, this is what I need to know;

Did Enron purchase gas (pool or local production) behind NIMO in Jan and Apr 2000? What CES activity do we have at NIMO for the months shown above? Do we have any out-of-balance items at NIMO for the months shown above?

Laurie Ellis@ENRON 04/19/2001 07:41 AM To: Chris Germany/HOU/ECT@ECT cc: Subject: Re: Imbalance trades on CNG

Chris, have you gotten anywhere with this? I really need to get this resolved.

Thank you Laurie

Guys, I put a request for your 39569 SIT contract to be entered into Unify..Should be available in the morning. It's Sitara deal number 154700 if you want to see it. It's ok to path SIT for the month towards the end since TCO changes it alot and does retro's for you..I don't think it's that big a volume and it should only be pathed once. Let me know if I can help path the CALP exchange tomorrow afternoon. After that we can bridge back first 20 days and see what falls out and clean up (KATHY WILL HELP SHE"S AN EXPERT AT CLEANING).....THANKS AND KEEP YOUR CHINS UP!!!

I'll also start looking at the first of Feb tomorrow as well. The remaining Cove point and Dayton storage volumes have been rolled into February-ratably for the month and I'll put an estimated market number in the numbers and roll production. Ya'll may have to help me with the interconnect gas..Robert please make sure the ENA portion of it is ok...

To: Victor Lamadrid/HOU/ECT@ECT cc: Joann Collins/Corp/Enron@ENRON@ECT, Robert Allwein/HOU/ECT@ECT, Katherine L Kelly/HOU/ECT@ECT, Chris Germany/HOU/ECT@ECT Subject: Re: Dayton Buy/Sell ticket

SIT that is being used is CES's 39569. Does this need to be created like we did CES pools??? Joann and I had waited until the last couple days of the month for SIT, because TCO changes it a lot. Is that acceptable at Enron???

Not sure when Calp will be done. Have to leave at 5 pm today. I have been swamped with Agency Deals today. Sorry.

Victor Lamadrid@ECT 01/24/2000 02:25 PM To: Joann Collins/Corp/Enron@ENRON, Joan Veselack/Corp/Enron@ENRON, Robert Allwein/HOU/ECT@ECT, Katherine L Kelly/HOU/ECT@ECT, Chris Germany/HOU/ECT@ECT cc:

Subject: Re: Dayton Buy/Sell ticket

Joanie, It should be a whole lot better next mmonth.....Hang in there and keep Kathy posted on workload.....As far as Hopewell, we should decide how to handle fluctuations at hte 4Pm meeting today. SIT is easy to path.....Just put the SIT inventory contract Enron's is 39607 in the source or destination spot depending on which way we are going, put the contract from the service list in the middle path section and put the sitara deal # for Hopewell on the source or destination section depending again on which way we are going....Thaks

From: Joann Collins @ ENRON 01/24/2000 07:34 AM

To: Victor Lamadrid/HOU/ECT@ECT, Katherine L Kelly/HOU/ECT@ECT cc: Subject: Dayton Buy/Sell ticket

DPL ticket is path up to the 20th, i have started and should be completed on the transport by today up to the 20th.

From: Joan Veselack 01/23/2000 05:52 PM

To: Victor Lamadrid/HOU/ECT@ECT, Katherine L Kelly/HOU/ECT@ECT, Chris Germany/HOU/ECT@ECT cc: Joann Collins/Corp/Enron@ENRON, Robert Allwein/HOU/ECT@ECT

Subject: More Efficient Way?????

This buy/sell ticket with Calp takes forever. I've been pathing for 4 hours on just one side of it. It's very hard to keep physical flow versus this accounting flow straight. If Enron wants it done this way... may need to hire a full time pathing person. Can you tell... how unhappy this makes me.

Also... not sure how Hopewell should be done and SIT. I just pathed the amount of 4500 baseload, plus the extra gas that was bought about a week ago. Reality... the hopewell ticket should be actualized to burn and SIT is used to make up the difference. Not sure how Enron wants this done.

Kathy and Victor... will definately need your help in the bridging process and clean-up. Have no clue how this is done and not sure how time consuming this will be.

TCO said the constraints will still be in place through the week... so most our time will be scheduling gas and dealing with cuts.

Need help with accounting process!!

Thank you.

FW: Today's discussion with Bridgeline

Sender	ruth.concannon@enron.com
Recipients	[chris.germany@enron.com']
File	germany-c/bankrupt/bridgeline/26.

FYI

-----Original Message-----

From: Schneider, Chip Sent: Monday, June 10, 2002 1:00 PM To: Bartlett, Jeff; Concannon, Ruth; Gray, Barbara N.; Jayne South (E-mail); Mark Ellenberg (E-mail); McMichael Jr., Ed; Sharp, Greg; Stephen Youngman (E-mail) Subject: Today's discussion with Bridgeline

I spoke with Hugh Connett this morning regarding the letter sent to Bridgeline. His comments are as follows:

1. Generally, Hugh is adamant that the proposed offer to sell gas to Bridgeline be solely for the gas and not include any discount component for storage and transportation.
2. He is also firm that we pay for one month of transport and storage to move the gas off-system. He envisions full service under the contracts during this period such that all scheduling and other provisions under the contract are followed as in the normal course of business. The plan would be for us to try to get all of the gas out of storage in month. To the extent that residual gas remains, Bridgeline may be willing to buy it to avoid triggering another month of services under the contracts.
3. Hugh wanted clarification on the segregated account. He wants this concept back in and is not comfortable with any potential lien attachment afforded under Section 7-209 of the Louisiana UCC.
4. Hugh stuck to the issues related to the movement/sale of gas out and storage and did not attempt to link the removal of the gas to rejection of the contracts. As stated above, however, he was very clear on separating the commodity price from the cost of service on the system.
5. He had little to say on withdrawal of the pending motions, but was clear that he wanted to preserve all of his rights.

As pointed out to me by Ruth Concannon, please note that the volumes in today's letter are incorrect and will be corrected in future communication with the company. I did point this out to Hugh and he confirmed Ruth's storage volume of 1,930,552 Dth. He was not able to yet confirm the imbalance gas of 24,390 Dth in ENA's favor. We will be working with Bridgeline over the next few days to finalize the reconciliation.

Conclusion:

1. Basically, Bridgeline is looking for another \$650k or so from us to move the gas out of storage. 2. Purchase of the gas is another matter and they would be willing to entertain doing so at an attractive price. 3. They want to preserve all rights relative to any and all claims. 4. They want a segregated account for proceeds in an amount up to their claim.

Discussion:

1. To move this along, we need to consider that 40% of the payments made to Bridgeline (e.g. the \$607k + the \$650k) accrue to ENA in the partnership. Of the \$650k they want, we've basically conceded \$145k in our gas pricing structure. Can we justify more from a commercial perspective to bring this to resolution? We may be able to. 2. I need to do more homework with Ed and his team on buyers for gas at the Napoleonville delivery point. What is a reasonable clearing price to expect at this point? Can ENA sell the gas in a month? 3. I need more input from the legal folks on the segregated account matter. 4. Does the triggering of transport capacity under the contract for the first time since bankruptcy add substance to Bridgeline's claims from a legal perspective? Can we agree with them otherwise? 5. Before we consider paying more money, should we consider a turnover action? Under a turnover, would ENA be responsible for the same storage and transport charges that they are requesting? If so, we probably should consider this and the potentially adverse consequences to forcing removal of the gas via these means.

I would like to get back to Bridgeline today or tomorrow. Hugh and Randy will be out for the remainder of the week beginning Wednesday.

Please let me know your thoughts ASAP.

Regards,

Chip Schneider VP-Enron North America Corp. Tel: (713) 853-1789 Fax: (713) 646-3059 Cell: (713) 306-1184 Location: ECN711c

Ernie, this is what I think. ENA sold CES gas delivered to the NIMO citygate. I don't think we ever had supply behind the citygate like we did with Peoples and East Ohio. Heidi probably did the imbalance trades because it was after the gas flow day and we were unable to do anything about it.

Comments, questions?

I include Darla on anything dealing with New Power or CES. Maybe CES should just be you?? AND Wade can tell me what producer activity is going on or if he is aware of any items not in Sitara. But Ernie should have the whole CES picture nailed down. I'm thinking this Statoil should just go to Ernie and we not be involved. I spoke to him on the phone before I sent the email.

Hi team. Laurie has been asking for quite some time about an imbalance trade behind NIMO. As you can see, I did my usual ignore it and maybe it will go away but its not working. So, this is what I need to know;

Did Enron purchase gas (pool or local production) behind NIMO in Jan and Apr 2000? What CES activity do we have at NIMO for the months shown above? Do we have any out-of-balance items at NIMO for the months shown above?

Laurie Ellis@ENRON 04/19/2001 07:41 AM To: Chris Germany/HOU/ECT@ECT cc: Subject: Re: Imbalance trades on CNG

Chris, have you gotten anywhere with this? I really need to get this resolved.

Thank you Laurie

It is a CES deal. I have some support that Cindy faxed me. What is your fax number and I'll send it to you.

Thanks for your help Laurie

I just left Cingy a message - I said that I'm not aware of any imbalance trades that we initiated. However, it could have been done by CES or EES. I asked her to call me back.

Laurie Ellis@ENRON 04/02/2001 09:56 AM To: Chris Germany/HOU/ECT@ECT cc: Subject: Re: Imbalance trades on CNG

Chris, I am still trying to get these imbalance trades resolved. John Bieltz is no longer with Amereda Hess but Cindy Wernecke has been working this issue. She can be reached at (703) 317-2293. Can you please get back to me as soon as possible as they would like to resolve.

Thanks Laurie ----- Forwarded by Laurie Ellis/NA/Enron on 04/02/2001 09:53 AM -----

No, I still haven't gotten anywhere on this. My contact at Amereda Hess (formerly Statoil) is John Bieltz. His number is 703-317-2318 and his email is jbieltz@hess.com. Thanks for your help.

Subject: Re: Imbalance trades on CNG

I'm sorry I have not responded sooner. Any new developement on this? To my knowledge, ENA has not done any imbalance trades. Do you have a contact at Statoil? I can call and try to get more info. It could be some CES thing we were not aware of.

Laurie Ellis@ENRON 11/01/2000 02:55 PM To: Chris Germany/HOU/ECT@ECT cc: Subject: Imbalance trades on CNG

Chris, do you have any information on an imbalance trade with Statoil on CNG Niagara Mohawk for January and April 2000? Statoil has been very patient awaiting payment on this, but I cannot seem to find anything. Gloria Barkowsky suggested that I talk to you. Thanks for your help.
