It's good to hear from you. The game is November 10th. And we hope you come down, it would be alot of fun. We are getting ready to go to Disney World on Saturday. The kids are pumped. First I guess you should see if I'm the coverage area. We are at:

14343 Millstone Estates Ln. Cypress, TX 77429 281-304-8303

Right now, we just have dial-up internet service and a local calling company that also gives us 100 minutes of long-distance. We get off pretty cheap on this, but I would be willing to give this ION a try. Let me know.

Hi Darron, Hope all is well with you and your family. Boy, do I have an offer for you!!!

Sprint is looking for consumers in Houston to test our new ION technology. ION stands for Intergrated On-Demand Network. It basically provides your voice service and your data service over the same phone line. ION offers several different products. There is a 1 phone line version, 2 phone lines and up to 4 phone lines. We also offer just a data/internet access only product. The real benefit with ION is that when you have one phone line, you can be on the internet and talking on the phone at the same time.

Anyway, if you are interested in helping us test ION in Houston, please let me know. I will need your phone number and address to see if you are in our coverage area. Of course, the service would be free of charge during the testing period. If you want more information regarding ION, you can visit our website at www.ion.sprint.com.

We need to start making plans for the KU-Texas football game!

Tell everyone hello for me!

Attention: All Enron Employees

HireSynergy wants to express its condolences for everyone at Enron. We have met and developed relationships with many of you over the years, and have heard the disappointing news with both the job losses and the invasion of privacy by the news and media. Since Tuesday 12/4 seems to be the last known day of employment for most of you, we are offering everyone at Enron the following immediate services at no charge, so please forward this email to all of your friends and colleagues:

How HireSynergy can help you NOW:

1) Resume writing tips that help you get the interview 2) Interview techniques to help you get the job offer, even if your technical skills aren't an exact match 3) Identify specific job opportunities that match your background and criteria (as opposed to you applying via the internet or Human Resources job postings, and not hearing back for weeks or being completely overlooked.).

HireSynergy is a retainer and contingency search firm that traditionally charges fees to clients for our services. However, since most of Enron's major competitors already have access to you, our contribution to the Enron community is proactively helping everyone through the job search process, regardless of what stage of the interview process you're in.

HireSynergy specializes in the areas of Accounting, Tax, Finance and Risk Management. In addition, we have a division that places Executive Secretaries and all clerical/ administrative staff.

We are walking distance from Enron! Please give us a call at 713-222-7667. HireSynergy, Inc. www.hiresynergy.com

Just got off the phone with Dave Forster.

Currently we are in dispute with Sempra over the terms & interpretations of the verbal & written agreement with Sempra regarding their transactions. They have terminated all agreements & all transactions. The only open 'issue' is the settlement of those transactions.

So, please add CP# 57508, Sempra Energy Trading Corp. to the list previously submitted.

Thank you, Cyndie

We reconciled both lists. Attached are the counterparties who have terminated their Financial Agreements or transactions, as approved by legal, per the Master Letter Log. I did not include Sempra as they do not appear on the list & I have no further details at this time of their status. I've left a voice mail message for Dave Forster requesting additional information.

Is the closest hotel to the Enron office the Doubletree? Do you have an address or phone number?

I was thinking that perhaps we should plan to have dinner on Monday evening. This would be a good opportunity to get acquainted. Are you available? Please let me know as we have not made our airline reservations.

I think we will take the 5:30 flight back to Minneapolis. I assume that we should plan to leave the office no later than 3:00. Will this work or do we need to leave earlier?

Wednesday's Activity Recap

Sender	patrick.tucker@enron.com
Recipients	['bryant.frihart@enron.com', 'c..giron@enron.com']
File	giron-d/inbox/395.

Jim @ Kaztex bought 20/d NBPL @ Harper on our behalf from Tenaska. Jim sold it to us at his cost, he said--\$1.84. Said yesterday's deal was at 2 cents over his cost, but that you had done him a favor and that he also owed us one related to something Patrice had done for him, so that 'we're even' now. Shelly @ MRT called to say that she wouldn't be needing the second package of 5000 for the weekend. As you know, this set in motion quite the adventure. Reliant informed us that Domtar was not taking gas, and we had to get an additional 10/d for the weekend off their system. Here's how we got rid of the 5 not taken by MRT and the 10 not taken by Domtar: Sinha @ Aquila bought 3126 of North at 1.65. Deal ticket #1182363. Sylvia took the remaing 6874 of North, plus 5172 combined Flex & South and moved them to Laquiba (sp?) for sale to OG&E, incurring fuel of 1.3% plus \$0.02 transport charge. Sylvia sold the delivered volume of 11718 to OG&E for \$1.85, deal ticket # 1182441. Later in the day Reliant told us that we had been cut at Laquiba--only 2/d of flow there for the

weekend, so we had to find another home for the remaining 9718/d. Ended up taking the remainder to Enogex @ Chandler. Souad handled the nominations; Bonnie was also involved in the gas control issues as well. Spoke with Bonnie about the Domtar buyback ticket (Tammy was sick today). Bonnie knew nothing about it. Bonnie said that we needed to wait until she could see all of the deal tickets in Sitara. Given Bonnie's and our lack of familiarity with the Domtar provisions, we decided to wait until Monday to enter the Domtar side of the deal with your assistance. Melinda @ MidAm called to get our offer on 50 contracts of the Dec-Aug NYMEX swap. Dutch quoted at \$0.35, with \$2.82 on the front. Melinda held off. Spoke with her later and she said that she'd gotten done elsewhere 'at a different price'. Cheryl @ Terra bought our remaining 3193 of OGT at \$1.59. Deal ticket #1182379. Sinha, ever the bottom-feeder, had earlier bid us \$1.59 when our offer was \$1.69. Denver was showing the OGT at \$1.60 when Cheryl called, but he was eager to get rid of it, so he jumped at the \$1.59. No unpleasant calls from Credit as of 2:30pm. Greg Hayes @ Farmland called for an offer of 2000/d of Demarc for the weekend. He could see Denver's 10/d offered on EOL, but explained that he was calling because he only wanted 2/d. Asked Denver if he would do 2/d, and Denver suggested that I remind Greg that he could adjust his buy quantity on EOL. Denver verbally quoted \$1.72. Went back to the phone and communicated our offer of \$1.72 to Greg. Greg asked if he could have it at \$1.70, as that was the price that was showing on EOL at the beginning of our conversation, he claimed. Ran this past Denver, but Denver stood fast at \$1.72. Greg did not sound happy and asked for my name and number. Haven't heard anything further. Sinha called again at about 9:50 and asked if we had 1800 PEPL to sell him. Denver was done for the day, so no deal.

Please don't hesitate to ask me if you need some further clarification on any of this. I'll be reachable by cell over the holiday weekend at 713-213-7644.

Hope you and your family are having a nice Thanksgiving. Sorry that we had to pull you away for such an extended period this morning.

Patrick

The below Analyst & Associate recruiting dates require ENA participation at Manager level at above. In order to resource each of your departments it is important to have ENA's involvement and participation in the interviews and debrief sessions on Fantastic Friday and Super Saturday events. These de-brief sessions will allow you the opportunity to select candidates you wish to join your groups. The target is to assign potential candidates to business units and departments from the outset.

As ENA has the highest percentage of A&A rotating in its business unit, the participation of ENA at interview should reflect this. Therefore, please encourage your direct reports and managers to participate in the below events in order to secure candidates for your business area.

The deal number in Sitara was changed because of an internal book name change. It had nothing to do with the monetization status of the deal. If this has caused a problem, let me know. I didn't think that just changing the deal number would have this effect. Thanks.

Darron,

Sitara indicates that the below deal #10129 was changed to deal #312218. Steve Ross with Company 103 and my records indicate that this deal should have been monetized until September prod. Please let me know if you show otherwise, as monetized volume stopped flowing as of July production.

Thank you, Melissa

Melissa, We are missing the CIG/NNG pull for deal 10129. The 232,500 is south TX deal 10132 which is booked. Past history has the 10129 deal pulling the same quantity as the 10132. I am just trying to figure out were the other half of the monthly pull might be if in fact there is any.

Thanks

Steve,

Please field all monetized questions/requests through me. We have many new faces, most of which have not yet been trained on monetizations. We are actually restructuring which coordinators will be handling the monetized contracts and once completed, we will have firm contacts for you.

To answer your question, Wisconsin Electric Power deal #10132 and 10129 are still valid until 9/00, but I booked invoice #13470SA on your books in Doc #1600000445 for 232500 mmbtu and \$1,011,549.39. Is this not what you were looking for? Please explain further.

Thanks! Melissa

Is the CIG/NNG DUMAS contract expired? My water fall is still looking for monthly MMBtu and there is none for July production yielding the above short fall. Please let me know today as I am procesiing this months' payment.

Thanks

I just wanted to pass on some information regarding the only person in Congress to vote against the US showing force regarding the terrorist attacks is NY and DC. Barbara Lee a representative from California's 9th district(Oakland, Berkeley)

voted against the resolution. The final vote was 424-1. The senate voted 98-0(2 members unable to get to Washington). Barbara Lee has a history of doing this, she was also the only one who voted in '99 not to respond to the bombing of the US embassies in Africa. She also was involved in trying to disrupt the confirmation process of President Bush(Al Gore had to tell her to refrain from speaking several times while certifying the electoral college votes).

If you would like to write her or call her to let her know your feelings, the phone number in DC is 202-225-2661 and in Oakland is 510-763-0370. Her fax numbers are (DC) 202-225-9817 and 510-763-6538(Oakland). I tried by phone, but every person in her offices' voice mailbox was full(probably full of outraged citizens). So I faxed her a letter. I urge you IF you are also offended by her vote, a slap in the face to all Americans and anyone who knew someone who lost their life in this tragedy, to call or fax a letter. Representative Lee needs to know that she represents all Americans, not just the ones in her district. Her email address is barbara.lee@mail.house.gov.

I also urge you if you were offended to watch the news, she will be up for reelection in 2004 and look for her opponents, Democrat and Republican.

Whether you agree or not, you should make your voice heard. PL

I can't believe it either. I just accepted a new job, so unfortunately I don't think I can take any time off. I am going to try and leave early Friday. I'm still testing out the waters over here in my new group. I am free in the evenings so I will plan on coming over to dad's. I would invite you all to stay at my house, but I don't have any beds in the bedrooms! I just moved in and am in the process of furnishing. What time are you coming in on Thursday? Dad and I can come up with some fun things for you all to do during the day.

We haven't purchased tickets for the game on Saturday. We were thinking we could just buy them the day of the game. Shouldn't be a sell out! I'm sure KU will lose. Michelle's family is all excited about going to the game Saturday.

I'm looking forward to seeing you all. It's going to be a little cold so be sure to bring warm clothes!
