Re: REVISED COMPLAINT

Sender	ayudkowsky@stroock.com
Recipients	['nolan.steiner@avistacorp.com', 'dvermillion@avistaenergy.com']
File	hain-m/discussion_threads/244.

Attached please find a revised version of the revised version together with a redline version of the proposed complaint. We have incorporated many of Bracewell's changes but our approach, on behalf of Sempra Energy Trading, is to state the legal argument first (that the CalPX's use of the tariff is wrong) followed by the equitable argument that its doing so was unjust and unreasonable. We feel that this presents a stronger argument for retroactive application.

Alan Z. Yudkowsky, Esq. Stroock & Stroock & Lavan LLP 310-556-5829 310-556-5959 (fax) ayudkowsky@stroock.com

"Andrea Settanni" <asettanni@bracepatt.com> 02/07/01 06:41AM >>>

Attached please find a clean version and a redline version of the CalPX complaint. The redline compares the version sent yesterday afternoon. If you have any questions please contact Ron Carroll at 202-828-5872 or Andrea Settanni at 202-828-7631. If you are interested in joining the complaint, please contact either Ron or Andrea by 1:00 pm today. Thanks.

If anyone has email addresses for Douglas Thorpe, Fred Yanney, Katalin Kiss, and Sterling Koch, please forward this email. Thank you.

Oregon Law Institute, Northwestern School of Law of Lewis & Clark College, is pleased to present a program for paralegals and secretaries on 01&Mastering Your Profession018 on Friday, June 15th, which by proclamation of the Office of the Governor is 01&Paralegal Day018 in the State of Oregon. The program, which is a valuable networking opportunity for paralegals, will be held at the Standard Insurance Center Auditorium in Portland.

Take advantage of our 01&early bird018 price of \$115 for paralegals and secretaries through June 11th (price includes lunch).

Equip your paralegals and secretaries with the necessary skills for a successful career in the legal field. This program provides paralegals with essential communication skills, as well as valuable information on how to master balance in his/her life, how to use personal image to represent the legal profession with honor, and how to deal with ethical situations that may arise.

The brochure is attached in PDF format. You may also contact the Oregon Law Institute at 503-243-3326 or 800-222-8213 for a brochure or to register your paralegal now at the 01&early bird018 tuition.

UPCOMING CONSUMER LAW CLE: TAKE ADVANTAGE OF "EARLY BIRD" PRICES!

Sender	oli@lclark.edu
Recipients	[]
File	hain-m/all_documents/233.

Oregon Law Institute, Northwestern School of Law of Lewis & Clark College is pleased to present a program on "A Primer on Consumer Law" on Friday, May 4th at the Oregon Convention Center, in Portland.

You can still take advantage of our "early bird" price of \$140 or \$110 for new attorneys (admitted 2000-2001), paralegals, or secretaries. This price is good through April 30th.

By now, you should know that attorneys can be considered debt collectors subject to the Fair Debt Collection Practices Act (FDCPA) even if the attorney never sends a letter or makes a telephone call, but simply files a lawsuit. Litigation against attorneys under the FDCPA is increasing nationwide, and attorneys are being held liable for even innocent and technical violations of the FDCPA. Attend this program to learn the top 10 ways attorneys violate the FDCPA, and how they can avoid the violations. Learning even one new tip could save you in damages many times the cost of this CLE!

The brochure is attached in PDF format. You may also contact the Oregon Law Institute at 503-243-3326 or 800-222-8213 for a brochure or to register now at the "early bird" tuition.

-- Oregon Law Institute Northwestern School of Law of Lewis & Clark College 620 SW Main, Suite 706 Portland, OR 97205 PH: (503) 243-3326 (800) 222-8213 FX: (503) 242-2931 E-mail: oli@lclark.edu

I'll be sure to let you know if I hear anything from any of the East coast entities - NYISO, ISO-NE, and PJM.

Enron Capital & Trade Resources Corp.

From: "Lon L. Peters" <lpeters@pacifier.com> 03/25/2001 06:21 PM

To: Mary.Hain@enron.com cc: mhain@ISO-NE.com Subject: Life After Enron

Mary,

Best of luck in your new responsibilities. If you hear of any opportunities for an economist at NE-ISO, please let me know. I'm always interested in what might "lie beyond" (but not "beneath").

Actually, I recently responded to an ad at NE-ISO for an economist to study market structures, but never heard back from them. Marcia and I have family or good friends in NY, New Hampshire, Vermont, Massachusetts, and Connecticut, and occasionally think that we should move back, notwithstanding the winters . . . and the summers!

Lon

*I am going to be the Senior Regulatory Counsel at ISO New England starting on April 9, 2001. My last day in the Portland area will be March 31, 2001. Hi Mary, I have left voice mails with both Debi LeVine (Director of Contracts) and Roger Smith (Senior Regulatory Counsel) of the CAISO. Roger's no. is 916-608-7135. I reached Debi through the operator at 916-608-7100. If I hear back, I will briefly describe our mission re: the RTO West tariff integration group, try to get a contact that we can work with, and then either refer them to you or try a 3-way call if they are interested in following up right then. Paul

Participants:

Last Friday, January 26th, the Special and Correcting Invoices for the Southern California Edison (SCE) default were due and there were some Participants who failed to comply with Schedule 2. Section 4.3.2. of the PX Tariff which states, "All payments by the PX Participants shall be made to the PX Clearing Account via the Fedwire System for funds to be received at the PX Clearing Account no later than noon PPT on the Payment Due Date."

Additionally, Schedule 2, Section 5.5 of the PX Tariff requires the PX to identify such Participants to all other affected PX Participants by the most expeditious means available. In accordance with Section 5.5, here is a list of PX Participants not in compliance with Section 4.3.2. for the SCE default:

American Electric Power Service Corporation Arizona Public Service Los Angeles Department of Water and Power Pacific Gas & Electric Sacramento Municipal Utility District Salt River Project

Each PX Participant's pro-rata portion of the shortfall from the Participants mentioned above will be communicated to them individually in the next couple of days. If you should have questions, please call Clark Cheng at 626-537-3243 or Chris Anderson at 626-537-3377.

Thank You.

To Members of the RTO West Provisions and Requirements Content Group:

Hello!

Attached is an e-mail regarding California's New Facility Interconnection Policy. My thanks to Barney for sending this to my attention!

Regarding the March 21st meeting -- I appreciate all of your responses regarding the rescheduling request. While some of you were amenable (in fact it worked better for many of you), it was not doable for a significant number of members, in particular some who had already made their travel plans. As such, we'll go ahead with the meeting as original scheduled on the 21st. My apologies to those of you who will not be able to attend.

Thanks! Kristi

ISO Market Participants: The ISO has posted on its web site a white paper and draft Tariff language regarding its proposed New Facility Interconnection Policy (NFIP). You can find these documents at <http://www.caiso.com/docs/2001/03/05/200103051825008351.html>

<<http://www.caiso.com/docs/2001/03/05/200103051825008351.html>> . These documents will be the basis of the stakeholder meeting scheduled for Monday, March 19. If, as you review these documents, you have questions or comments that you would like to have addressed on March 19th, please send them to me and to Steve Greenleaf

(sgreenleaf@caiso.com <mailto:sgreenleaf@caiso.com>) by close of business on Wednesday, March 14. (In your e-mail, use "NFIP Comments" in the subject line.) We will do our best to address whatever issues we receive by then. The ISO will present an informational briefing on the NFIP proposal to the Governing Board on March 15. We will then bring the issue to them for a decision at their March 30 meeting. Finally, FERC has directed the ISO to submit a compliance filing with its NFIP proposal by April 2. Byron B. Catch the Wave! Join the Enron/MDA Beach Bowl!!

Help us "strike a blow" against ALS at the 3rd annual Enron/MDA Beach Bowl! This year's event will be held on July 14th at Palace Lanes in Bellaire. Come have a great time while raising money for ALS (Lou Gehrig's disease) research. It doesn't matter if you bowl a 50 or a 300, as long as you have fun! Call Lindsay Meade at ext. 34551 or Geriann Warner at ext. 35036 for more information!

Make a donation to the Peru Earthquake Relief Fund! Peru is beginning reconstruction after a powerful earthquake devastated the southern region of the Andean highlands last Saturday. The 8.1-magnitude earthquake, that has been recently upgraded to the "great" quake category - the most powerful according to the U.S. Geological Survey-triggered a tsunami that crashed into the seaport town of Camana destroying more houses and raising the death toll. Up to now, the earthquake has left over 100 people dead, 1,374 injured and 47,696 homeless. The people who lost their homes have been forced to sleep on the ground in Peru's frigid Andes highlands, tents provided by the army and by some help organizations does not provide sufficient insulation against winter temperatures in that region. Help is urgently needed. If you would like to contribute to this cause please send your donations to:

American Red Cross 2700 Southwest Freeway Houston TX 77098 (In the memo line of your check please write: Earthquake-Peru)

In order to get Enron to match your donations dollar for dollar please go to <http://home.enron.com/cr/> and click on Gifts, Grants and Giving. Once there, click the Matching Gifts link and you will be able print the Matching Gift form. If you have any questions regarding the Matching Gift program please email community-relations@enron.com.

Join Enron's Preferred Hotel Vendors July 10 in the Enron Building Lobby Join Enron's Preferred Hotel Vendors Tuesday, July 10th from 10:30 - 2:30 in the Enron Building Lobby for Your Passport to Hotel Savings brought to you by Enron Global Strategic Sourcing. It's your chance to learn about savings opportunities, see clicktrip.com demos and register to win fabulous prizes including the GRAND PRIZE, a trip for two to London with airfare and hotel accommodations.

Enron Night with the Astros Enron Field Gift Package Winner!! The winner of the Enron Field Gift Package is Andrea Dulany. Andrea was one of the first 200 employees to purchase tickets to Enron Night and was selected at random to win this exciting prize courtesy of the Signature Shop.

CAISO NOTICE: Proposed Market Stabilization Plan Conference Call

Sender	cgrant@caiso.com
Recipients	['20participants@caiso.com']
File	hain-m/discussion_threads/633.

ISO Market Participants:

As you may know, the ISO Governing Board, at their March 15, 2001 meeting, approved in concept the Market Stabilization Plan (MSP) proposed by the ISO. Although there was no formal motion, they directed Management to proceed with the plan and prepare a filing to be submitted to FERC this week. The proposed MSP and Lorenzo Kristov's presentation are posted on the ISO's web site at <http://www.caiso.com/docs/2001/03/09/2001030913380120705.html>.

When we discussed this proposal at the conference call on March 9, participants identified some implementation issues that would need to be addressed in order to implement the MSP. In addition, many of you have certainly identified other implementation issues since March 9.

On Tuesday, March 27, the ISO will host a conference call from 11:00 a.m. to 2:00 p.m. PST to discuss MSP implementation issues. The call-in information is as follows:

Call In Number: (877) 381-6005

Conference ID: 98843

Conference Leader: Byron Woertz

The purpose of the conference call is to provide Market Participants with additional MSP implementation information and to answer questions that Participants may have. In addition, the ISO will describe resource-specific data that is needed from Participants for development of cost-based bids to be used for resources bid into the market. Please note that we will not discuss policy issues or whether the MSP should be implemented. We will assume for this discussion that the ISO proceeds with implementing the plan as presented to the Board and will address only those issues that would affect our ability to implement the proposed MSP.

If you have already identified specific implementation issues or questions, please e-mail them to Scott Jercich (sjercich@caiso.com) with a copy to me by 5:00 p.m. PST on Thursday, March 22 so that we can address them on Tuesday. We will do our best to post initial questions and answers by COB on Monday, March 26 so that you can review them before the call on Tuesday.

If you have questions, please contact me at the number below or Scott at (916) 608-5987.

Byron B. Woertz, Jr.

Motion for Interim Relief by CPUC

Sender	mary.hain@enron.com
Recipients	['rcarroll@bracepatt.com', 'steve.c.hall@enron.com', 'richard.sanders@enron.com', 'James.D.Steffes@enron.com',...
File	hain-m/all_documents/1251.

Attached is a brief proposal for economics arguments against the CPUC's proposal for load based price caps. Obviously, these arguments would also apply to the ISO Board's recent decision. ----- Forwarded by Mary Hain/HOU/ECT on 10/27/2000 03:00 PM

Enron Capital & Trade Resources Corp.

From: "Seabron Adamson" <seabron.adamson@frontier-economics.com> 10/27/2000 10:58 AM

To: <mary.hain@enron.com> cc: <rcarroll@bracepatt.com>, <James.D.Steffes@enron.com> Subject: Motion for Interim Relief by CPUC

Mary:

cc: Ron, Jim

I have had a quick read-through of the CPUC Motion, as requested. There would appear to be two salient points.

1) CPUC asks for FERC to impose strict load-differentiated price caps. These would be imposed using a formula based on "marginal heat rates" times an index gas price. So the maximum cap would be around \$100 and the minimum could be quite low off-peak - more like \$30-40/MWh. Needless to say this does not recognize the opportunity costs of power in other markets. It would also completely make redundant any trading into California. The prices would rise immediately to the low caps, so there would be no incentive for anyone to enter into any commercial hedging arrangements. The mechanism is basically similar to the old SRAC QF contracts, but without the capacity payments.

2) CPUC asks that FERC require all jurisdictional generators AND marketers to offer forwards contracts for a substantial portion of their capacity at FERC regulated rates and conditions for 18-36 months. They claim these are like the UK and Australian "vesting contracts", but these involved significant capacity or options payments as well. CPUC request that all generators and marketers should be instructed to begin preparation of cost-based filings (how this would actually work is not stated).

Needless to say the implementation of any of this would be wiping out the market for up to three years, and eliminating any potential profits from current long positions in the market.

The schemes they have proposed have numerous problems - even if the objectives were desirable - so there is plenty to poke holes in. The decision on whether to file any response to me would seem to be based on whether these issues will be completely addressed in FERC's order, making the CPUC Motion irrelevant. If there is any chance that the CPUC could be taken seriously their motion should be opposed, as the restrictions on the market are quite onerous. Any players with long positions in the market would stand to lose quite a bit under the proposed capped rates at these levels.

Fwd: FW: Free KNOW THE ISO service

Sender	mary.hain@enron.com
Recipients	['susan.mara@enron.com', 'alan.comnes@enron.com', 'jeff.richter@enron.com', 'tim.belden@enron.com', 'carrn@br...]
File	hain-m/all_documents/1044.

Here's a really interesting service summarizing ISO activities. Also read the content about governance and confidential information. If the PX conveys its confidential information to the ISO, it would violate the PX's tariff (but what's new?). On governance, the new directors are hoping that people will be results-oriented in deciding whether to challenge them at FERC.

5061 Knightswood Way Granite Bay, CA 95746 Phone (916) 797-3106 A California Limited Liability Company

Free KNOW THE ISO service

You recently inquired about subscribing to Phoenix Consulting's California ISO analysis/reporting service, KNOW THE ISO. I am writing to let you know about a special offer available until March 1st only. . With any new subscription between now and the end of the month, you can receive free service for the month of February (including any reports we've issued so far this month). Service this month includes Event Reports covering these important topics: .

Stakeholder meetings about:

-- The ISO's draft generator Market Power Monitoring/Mitigation Proposal (plus our special report summarizing the ISO's proposal, and the others offered at the January 23rd FERC technical conference); . -- Proposed changes to the pricing/dispatch order for Imbalance Energy supplies, and other near-term ISO tariff change proposals; . -- Proposed generator availability standards, and the penalties proposed for violating them; and . -- The 2000 ISO Control Area Transmission Expansion Plan. .

Meetings of the new state-appointed ISO Board, where the new members will

decide: -- Summer 2001 demand-side program bidding results/contract awards; . -- Summer 2001 peaking generation contract results and unit construction progress; . -- Eligibility of PG&E interruptible end-use customers for ISO demand-side programs; and . -- ISO policies regarding Distributed Generation. . You'll also be on board to receive our reports for March, when the ISO will address Congestion Management Reform, dual-fuel requirements for generators, the New Facilities Connection Policy (for generator/load interconnection with the grid), and the Long-Term Grid Planning Policy.

KNOW THE ISO subscribers include municipal and investor-owned utilities, regulatory bodies, ISO Board members, generator owners and developers, law firms, consulting firms, trade-industry associations, power marketers, Scheduling Coordinators, retail Energy Service Providers, and consumer groups. They receive accurate information about important ISO events within about 2 days, including our unique insider perspective and explanations, for less each month than the cost of a single overnight trip to Folsom or an hour of high-level consulting service.

If you've been meaning to subscribe but just haven't gotten around to filling out the form, don't worry - just reply to this e-mail message confirming your decision to subscribe, then follow up with the paperwork later. (For your convenience, we've attached another KNOW THE ISO Services Description Package, with cost information and a subscription form, along with another couple of free samples.)

We'll add you immediately to our mailing list and send you any reports from earlier this month (including the special reports on generator market power monitoring/mitigation).

I look forward to hearing from you. Please call me at one of the numbers shown below for answers to any questions you may have.

File	hain-m/all_documents/955.

<<ADR Options Master.rtf>> Hi Sarah, Here is the compilation of ADR-related "options.". I haven't yet received anything from Mary or Don, so these sections are not included in this version.

I started to incorporate the various pieces of this into the ADR provision itself, but it quickly became clear that was not going to be a productive task until we narrow the options.

I will not be in Portland next week, but will dial in if that option is available. Thanks, Paul

As agreed at last week's tariff integration group meeting, I will be collecting and organizing the revisions/options we discussed for the RTO West Tariff ADR provision. I owe the compiled results to Sarah by Friday, March 2, so would appreciate getting whatever you can provide to me by Thursday, March 1, at the latest.

The assignments as I recorded them are:

Carl: Fast-track option Don: Parties can agree to take all, or part, of dispute to FERC Gary: Default: baseball or not? Mary: Applicability to unaccepted service agreements. Paul: Preliminary required mediation? Paul w/ Shelly: Source(s) for mediators/arbitrators.

Attached for your convenience are the fast-track interconnection and regular ADR provisions from the TOA.

<<Dispute Resolution.doc>> Thanks, Paul

Directions to my house

Sender	mary.hain@enron.com
Recipients	['michele_farrell@pgn.com']
File	hain-m/discussion_threads/828.

Come after work.

What would you like to bring?

Directions from the Junction of Interstate 5 and Rt. 217:

Take Kruse Way (Rt. 217) east from I-5. (towards Lake Oswego until Kruse Way ends at L. Boones Ferry Rd) Turn right onto Lower Boones Ferry Rd. (follow sign for Lake Grove Dist. / Tualatin). Go straight less than mile to the 3rd light at Bryant Rd. and Firwood. (Bryant Rd. is on the left, Firwood is on the right) (Albertsons and a Texaco are on the right, 2 banks on the left) Turn left onto Bryant Rd. Go straight to the 2nd stop sign. (at Lakeview after crossing the R.R. tracks right before the 7 Eleven) Turn left onto Lakeview. Go straight to the first stop sign. (at South Shore Blvd.) Turn right onto South Shore Blvd. Go "straight" - South Shore winds around a lot - a little over mile to Cedar Rd. on the right. (if you get to a stop sign - at Westview - you've gone too far) The order of streets - on the right only - coming up to Cedar are: Canal, Kelok, and Cedar. Turn right onto Cedar Rd. to: 17110 Cedar Rd. Our house is the second paved driveway on the left. (about 50 feet from S. Shore Blvd.)

2001 Electric Market Forecasting Conference

Sender	amy@epis.com
Recipients	
File	hain-m/all_documents/24.

We hope to see you at this year's Electric Market Forecasting Conference. The purpose of this email is to recap the conference,

give you the latest agenda, and to remind you of the approaching deadline for early registration. If you register by June 30th the early registration fee is only \$399.00. I recommend that you reserve your room at Skamania Lodge as soon as possible. They go quickly.

For more information see below and on the attachment. Or, go to our website at www.epis.com. The conference information is at www.epis.com/Event/2001_conference.htm

We look forward to seeing you.

Regards,

Lee Barney

Forecasting Challenges in Electricity Markets

2001 Electric Market Forecasting Conference Skamania Lodge, Washington September 12-14, 2001

[IMAGE] Today's electricity markets are more challenging to predict than ever. Discover the keys to managing risk in volatile energy markets.

The conference venue is the beautiful Skamania Lodge in the scenic Columbia River Gorge--45 minutes East of Portland International Airport, Portland, Oregon. A mind expanding setting for an executive-and professional level exchange of information and strategies concerning North American energy markets.

Navigating Today's Energy Markets

The challenges of taming energy markets don't begin and end in California. Volatility and risk are present in every market region, forcing all participants to carefully examine the underlying factors and accurately assess their current and future market positions.

For the 4th year, EPIS, Inc., developer of the AURORA electric market model, has assembled a stimulating program of interest to any company exposed to energy market risks. This year's agenda includes a detailed look at the various energy trading regions in the U.S. and Canada - an exploration of market conditions and market dynamics.

This year's conference will feature thoughtful exchanges on:

Electric and Gas Markets - 2001 and Beyond U.S. Markets: Crisis in the West, Emerging Issues in the East and ERCOT
Keys to U.S. Electric and Gas Forward Markets Issues in Canadian Markets Gas Hedging Strategies and Electric Markets

Price and Volume Volatility in Turbulent Markets New Resources: When and Where to Develop?

You=01, I hear from top-level speakers representing companies that have been there - Williams Energy Marketing, FPL Energy, NYMEX, ENRON, DTE Energy, Deutsche Bank and others. Plus there will be informative =01&roll-up-your-sleeves=018 sessions on applied forecasting techniques by Williams= =20 Energy Marketing, Pinnacle West, GenerSys, Southern California Edison.

Register for Conference

Register by sending the registration information on the attachment to EPIS= =20 by:=20 Fax???? (503) 722-7130? MAIL 1800 Blankenship Rd., Suite 350, West Linn, OR= =20 97068

Or register by phone at (503) 722-2023 x201.

today's Energy Committee hearing

Sender	craiggannett@dwt.com
Recipients	['paul.kaufman@enron.com', 'mary.hain@enron.com', 'tom.briggs@enron.com', 'linda.robertson@enron.com']
File	hain-m/notes_inbox/703.

FYI, the highlight of this morning's Senate Energy Committee hearing is the tentative alliance between Dianne Feinstein and Gordon Smith in favor of regionwide price caps. You'll receive a fax of his press release this afternoon.

The essence of the agreement (which has not been reduced to legislative language) is that Smith is agreeing to support regionwide price caps while Feinstein is agreeing to force California to raise retail rates. In other words, the price cap would only apply to a state that allows its retail rates to rise to allow utilities to pay their bills. But Feinstein got Smith to agree that there should be flexibility for states to determine how and when wholesale rates will be passed on to ratepayers. I seriously doubt that this whole proposal will become law, but if it does, I would expect the CPUC to thoroughly abuse this flexibility.

In her plea for the proposal, Feinstein said that: "I agree that the CPUC was wrong to not allow long-term contracts."

Secretary Abraham and Chairman Hebert were strongly opposed to price caps. When asked about the Feinstein/Smith proposal, Abraham noted that he hadn't seen anything in writing, but that, to the extent the proposal includes price caps, the Administration would not support it. This was obviously an awkward situation for Abraham because he was essentially dumping on the proposal of a fellow Republican; nevertheless, he did it. Abraham said that his most important mission is to keep the lights on, and that price caps don't increase supply or decrease demand, so he's against them.

One of Abraham's arguments against price caps was that it would discourage Canadian and Mexican sellers from selling into the U.S. Bingaman expressed strong skepticism that Mexico has much to offer, but Abraham said that he has had talks with his Mexican counterpart on this subject, and that every little bit helps.

Senator Cantwell briefing endorsed the Feinstein/Smith effort, but it did not appear that she has yet studied it. Senator Craig said that he is "fundamentally skeptical" about price caps. He said that they have no history of success, and that they are a distraction from working on the real solutions.

Locke testified in favor of "short-term, interim [seems redundant to me], wholesale price caps." He wants to base the cap on the cost of service, and then add a reasonable rate of return. He said that if you set the cap high enough, it will not discourage new generation. He also noted that NW suppliers are out tens of millions of dollars on sales to California for which they have not been paid. Counterbalancing Locke, Governor Marks (sp?) of Montana testified against price caps on the ground that it discourages new generation. It's worth noting that, of the 11 western governors, only the 3 coastal governors support price caps. The other 8 sent a letter to Bush opposing price caps.

Hebert took the opportunity to speak out of a single RTO for the West. He made similar remarks yesterday at the Commission open meeting when they were discussing the order to increase generation output in the West.

Please call me if you have any questions.

Craig

Mary,

Good luck to you! I think I remember you saying that you could just as easily live in New England.

I'm glad we worked together enough for me to get to know you! I've been to the NEISO several times, and you'll likely run into other TCA'ers out there. I look forward to seeing you again sometime soon. And if I or others at TCA can be of assistance (either formally, or informally) feel free to let me know.

Best wishes! Ellen.

I am going to be the Senior Regulatory Counsel at ISO New England starting on April 9, 2001. My last day in the Portland area will be March 31, 2001. I enjoyed working with you and wish you the best of everything. My new address will be:

Mary Hain Senior Regulatory Counsel ISO New England Inc. One Sullivan Road Holyoke, MA 01040-2841 (413) 535-4000 mhain@ISO-NE.com

Broadcast Message for Houston Enron Employees

Sender	enron.announcements@enron.com
Recipients	[all.houston@enron.com]
File	hain-m/all_documents/35.

For all of you who are active participants in the Enron Corp. Savings Plan, we have made arrangements with Northern Trust, our Plan Administrator, to expedite any loan requests made during the week of June 18 - June 29 in order to help you during this recovery period from any flood damage you may have experienced.

If you do not already have an outstanding loan, you can request up to 50% of your balance up to a maximum of \$50,000. To request a loan follow these three easy steps in order to ensure quick processing:

1. Log onto the website: <https://www4.rsweb.com/61045/#> or call the Benefits Service Center at 713.853.7979.
2. Enter your SSN and your Personal Identification Number and click on "Loan Information" to see the amount available. If you wish to request a loan, click on "Loan Modeling/Request" and follow the instructions.
3. Checks will be mailed from Northern Trust in Chicago on June 27 for loans requested the week of June 18 - June 22 and on July 5 for loans requested June 25 - June 29.

NOTE: The IRS restricts Hardship Withdrawals to specific circumstances outlined in the Money-in-Motion guide on the benefits website. Unfortunately, while we know the flood has imposed hardships on many of you, these circumstances do not qualify for a withdrawal.

Energy Restructuring in the SW Conference

Sender	postmaster@lawseminars.com
Recipients	[mary.hain@enron.com]
File	hain-m/notes_inbox/61.

Dear Ms. Hain,

Energy Restructuring in the Southwest conference, co-sponsored by Energy Newsdata Corporation

When/Where: July 19 and 20, 2001 at the Alexis Park in Las Vegas

While California's electric system stumbles from crisis to crisis during a continuing state of emergency, states and municipalities throughout the Western region are reexamining and, in some cases, reversing their policies regarding restructuring of the electric services industry. This has resulted in ever-changing and confusing laws and policies affecting utilities, energy service providers and consumers in Arizona, Nevada and New Mexico.

This conference will help lay the groundwork for a better understanding of current market and regulatory conditions in the Southwest, and the faculty of expert speakers will provide insight as to how evolving policies will shape markets of the future.

Program Co-chairs: Arthur O'Donnell of California Energy Markets and Fred Schmidt of Hale Lane Peek Dennison Howard & Anderson.

Information or registration: reply to this announcement; call us at (800) 854-8009; or visit our web site (<http://www.lawseminars.com/htmls/seminars/01resnv>).

Note: We want to provide notice of upcoming continuing legal education programs, not to intrude on your privacy. If you do not want to receive notice of upcoming programs, please reply to this email with "remove" in the subject line. You also can limit notices to specific topics by replying and specifying the topics. Thank you.

Bring Your Child To Work Day, June 29! The annual Bring Your Child To Work Day is this Friday, June 29th. Parents may bring their children as early as 7:30am on Friday, June 29th in Antioch Park.

Guidelines for participation:

(1) Parents MUST stay with their children at all times. Children will not be allowed to participate without their parent in attendance. (2) Participation in the event is with immediate supervisor's permission only. (3) Children 6 years and older only. (4) Participation is limited to children of Enron or contract employees. (5) Each employee participating MUST sign a release waiver and return it with the registration form by Friday, June 22nd. (6) Writsbands MUST be worn at all times.

Visit the Infozone from 11am - 1pm Monday, April 19th through Thursday, April 28th to register your child(ren) or volunteer for the event. Contact Angela Sprock at x36335 with questions.

Credit Union Offers Flood Relief Loans EFCU is offering two special Flood Relief Loans to Enron employees and their families who have been affected by the flooding.

o Signature Loans* at a 5.00% Fixed APR, single pay plan, and \$10,000 maximum.

o Auto Loans** are available at 6.49% Fixed APR on all conventional loan terms, with a 90-Day No Payment Option.

Apply on-line, 24x7 at enronfcu.com, then select Anytime Loans and the loan type. Please type Flood Relief in the Purpose of Loan Field. Or, call Anytime Loans at 800.235.8763 and reference our Flood Relief Loan. For more information, please e-mail efcu@enron.com or call our Lending Department at x30578.

*Must be a Credit Union member to apply. Unpaid loans must pay interest due after 6 months, and renew on monthly payments at the regular lobby rate at time of renewal. **Term will be extended and finance charges will continue to accrue during the 90-day period. Subject to normal underwriting requirements. Auto Balloon Notes and current loans are excluded from this offer. No other discounts apply. EFCU is an Equal Housing Lender & NCUA Insured. Loans will mature on March 1, 2002. Offers end July 15, 2001.

Volunteers Needed for Bring Your Child to Work Day!

Bring Your Child to Work Day is Friday, June 29

Please email Jennifer Milligan if you are interested in volunteering and indicate your preference for indoor or outdoor activities.

Enron Kids Volunteers Needed The Enron Kids Committee is looking for additional volunteers to help plan for another successful Enron Kids year. We are in the early planning phase for our holiday event. This year's school is Gordon Elementary in the Bellaire area. Gordon has 98% of its student population that qualifies for free or reduced lunch.

To join the planning committee, please contact Lillian Villarreal, via email or phone (xt. 37092), to be added to our distribution list. Meetings are once a month, until we get closer to the December event, when we will meet at least twice a month. The Enron Kids program has consistently been among the top Enron events in terms of employee participation. We look forward to our employees again supporting the children of Gordon Elementary through Our Enron Kids program of 2001.

Have News to Share? To post news or events in Enron In Action, please e-mail your information to EIA@enron.com no later than 12:00 noon the Thursday prior to the next Monday, mailing=.

Weekend Volunteer Opportunities

Sender	enron.announcements@enron.com
Recipients	['all.houston@enron.com']
File	hain-m/all_documents/48.

Over the past week, many Enron employees have volunteered their time to help with the city-wide flood relief efforts. Thank you!

There are many agencies that need your help this weekend. We have included a list of agencies that are looking for volunteers over the weekend. If you are interested in donating your time and energy, please call the individual contact phone number listed for each project.

Thank you for volunteering your time to help the Houston community during this time of great need. Please feel free to send this information to other friends and family who may be interested.

Please visit the Enron flood website for additional information at home.enron.com/flood <<http://home.enron.com/flood>>.

City-wide Volunteer Opportunities

Sign-up information and contact numbers are listed for each individual project.

American Red Cross: Caseworkers desperately needed - training at Red Cross will take place on Friday at 1 p.m. and 4 p.m. - The Red Cross needs more than 100 caseworkers. You must be trained before you can volunteer; the training takes 2 hours. Please contact 713-526-8300.

Salvation Army: Volunteers are needed immediately for around the clock help to sort donations, process and distribute, serve food, and donate plastic ware/paper products. All volunteers should contact Darlene at 713/692-4186.

Neighborhood Services, Inc: Need volunteers to assist seniors with clean up. Anticipated manpower needs include helping to remove wet carpet, furniture and other soiled materials, clean up of debris, minor and major repair work, and distribution of emergency supplies. Please call 713-669-5329 by 2:00 p.m., Friday, June 15 if you are interested in volunteering on Saturday, June 16 for this project. Teams of 2-3 people would be assigned to each home or family.

United Methodist Coalition on Houston Flood Relief: Teams of volunteers are needed to aid families and individuals in dealing with damage and distress caused by the flooding. Please call the Flood Hotline at 713-822-8815 if you wish to volunteer or make donations.

San Jacinto Baptist Church, corner of Flint and Muscatang (off of I-10 East, exit Mercury - stay on the feeder road and turn right on Flint): Volunteers are needed to help run the shelter from 5 p.m. to 5 a.m. - tough hours to fill! Please call Heather Hughes at Second Baptist Church to get more information - 713-465-3408.

Bridge Over Troubled Waters, Pasadena: This shelter for women and children has had significant roof and water damage. Volunteers are needed to help with repairs. Call 713-472-0753.

Houston Food Bank: Volunteers are needed to help sort food for the American Red Cross and Salvation Army Food Shelters. Call Carol Gooden at 713-547-8609.

Donations Needed for Agencies Across the City Please drop off donations at the InfoZone on the Plaza Java side of the Enron Building lobby from 11 a.m. - 2 p.m., Monday, June 18 through Friday, June 22.

Items needed: ? toiletries ? paper products ? blankets ? pillows ? non-perishable food ? pet food ? formula ? diapers ? cribs ? bedding (baby and adult) ? bug repellent ? clothing: socks, undergarments, large size shoes

Megan Beiser Assistant Account Executive Edelman Public Relations Worldwide, Sacramento Phone: (916) 442-2331 Fax: (916) 447-8509

PR01:104 FOR IMMEDIATE RELEASE 03/20/2001 01:30 PM GOVERNOR DAVIS ANNOUNCES STATE AGREEMENTS TO SPUR ENERGY EFFICIENT BUILDINGS 03/20/2001 SACRAMENTO Governor Gray Davis today announced that the California Energy Commission has signed 12 grants and contracts totaling almost \$9.2 million to install "energy smart" technology in commercial and industrial buildings throughout the state. "Our campaign for conservation and improved energy efficiency will translate into real reductions in the summer when we need it most - and beyond," Governor Davis said. "With these grants in place, California will continue to set the national standard for energy efficiency." The agreements signed by Governor Davis will account for about 93 megawatts of projected savings from buildings outfitted with demand responsive building systems technology. Demand responsive building systems work by using software that automatically dim lights, reduce air conditioning use, and cut other electrical loads. They operate in response to signals from the Independent System Operator (ISO) or from an electric utility or service provider. Under the agreements, commercial electricity customers will agree to shave peak loads by 10 to 30 percent upon receiving the signal from the ISO. They will be paid by the ISO to curtail electricity load in their buildings in real time. In addition to these grants, the Governor also announced that an additional eight megawatts of electricity would be saved through grants to the K-Mart Corporation. K-Mart will use a \$2 million grant to replace old lighting fixtures with energy efficient ones in its 85 California stores. The demand responsive program and the innovative efficiency and renewables program covering the K-Mart grant are parts of AB 970, which was passed last year. The bill is designed to reduce at least 220 megawatts of peak load by June 1, 2001. The Governor has proposed an additional \$70 million in his New Demand Reduction Initiative program that would yield an additional 160 megawatts in savings from demand responsive building systems. For more information, please contact the California Energy Commission. Demand Responsive Contracts: 1. Sacramento Municipal Utility District, \$882,750, target savings: 10 megawatts 2. Roseville Electric, \$956,000, target savings: 10 megawatts 3. Pacific Gas and Electric, \$1,411,026, target savings: 35 megawatts 4. Seiben Energy Associates, \$340,245, target savings: 1.3 megawatts 5. Apogee Interactive, Inc., \$422,915, target savings: 5 megawatts 6. Enron Energy Services Op. Inc., \$1,500,000, target savings: 7.5 megawatts 7. San Diego Regional Energy Office, \$1,085,476, target savings: 3.125 megawatts 8. Global Energy Partner, LLC, \$1,540,000, target savings: 15 megawatts Grants: 1. Cisco Systems, \$40,460, target savings: 1.2 megawatts 2. Alameda County, \$260,964, target savings: 1.2 megawatts 3. Hewlett Packard, \$445,693, target savings: 1.8 megawatts 4. Foothill College District-De Anza, \$283,140, target savings: 1.3 Megan Beiser Assistant Account Executive Edelman Public Relations Worldwide, Sacramento Phone: (916) 442-2331 Fax: (916) 447-8509

Steve C Hall@ECT 03/19/2001 03:07 PM

To: Susan J Mara/NA/Enron@ENRON cc: Subject: Re: Underscheduling Penalty

Sue,

Thanks for letting me know the status of this filing. I apologize for nagging Mary and Alan about this, but it's not everyday that you get a chance to make a claim for \$50-500 million. I'd hate to let this one slip through our fingers. If I can help in any way on this, let me know. There are many good reasons to have an underscheduling penalty, and if EPMI happens to get paid for accurately scheduling, all the better.

Steve

Susan J Mara@ENRON 03/19/2001 01:02 PM To: Steve C Hall/PDX/ECT@ECT cc: Mary Hain/HOU/ECT@ECT, James D Steffes/NA/Enron@Enron, Alan Comnes/PDX/ECT@ECT

Subject: Underscheduling Penalty

I heard through the grapevine that you have concerns about what we are doing.

Just to clarify: We are planning to file on 3/22 in response to the ISO's filing to continue to calculate but not charge the penalty. We will oppose the ISO and ask that the ISO charge it.

We are not going to withdraw our previous filing in support of the utilities.

If you have any concerns, please contact me before the end of today. Or I can set up a conference call if you like.

<IMCEAEX-_O=CAISO_OU=CORPORATE_CN=DISTRIBUTION+20LISTS_CN=ISO+20MARKET+20PARTICIPANTS@caiso.com> cc: Subject: CAISO Notice: EOB subpoena

To Market Participants and Scheduling Coordinators:

The ISO received a subpoena from the Electricity Oversight Board ("EOB") Friday afternoon. The subpoena is attached. The subpoena requires response by today. The ISO will mark as confidential documents it produces to the EOB that contain information subject to 20.3.2, and will request confidential treatment in accordance with the EOB's prior agency opinion letters discussing treatment of confidential information. Concerns related to the subpoena should be directed directly to the Electricity Oversight Board. The EOB contact related to the subpoena is Eric Saltmarsh who can be reached at (916) 322-8601. The ISO would appreciate being notified also of any concerns. The ISO contacts are Jeanne Sol, at jsol@caiso.com and Norma Formanek at <mailto:nformanek@fbm.com> nformanek@fbm.com both of whom should be copied on correspondence.

File	hain-m/all_documents/259.

Unfortunately, I don't think everyone wants to be removed from the primary Enron Employee mailing list. In the future, however, when a note is sent requesting a reply, please use the "Reply" or "Reply with history" selection and not the "Reply to All" or "Reply to All with History." This is the reason that everyone is getting these unsolicited mails - not because you are on an inappropriate distribution list.

Therefore requesting to be removed is not the answer.

Thanks, Jack F.B. Netek Specialist - Deployment & Integration Projects Enron Broadband Services Tel: 713-345-8677

Brian - I'll be on vacation next week so if you have any questions, please call my counterpart in Houston, Christi Nicolay. Her E-mail address is above. Her phone number is (713) 853-7007.

Christi will be pulling together the answer to data request number 8 for you for just the WSCC. Christi - Chris is your contact person here to make sure the numbers are correct.

Enron Capital & Trade Resources Corp.

From: "Brian Harrington" <brian.harrington@ferc.fed.us> 09/15/2000 04:59 AM

To: <Mary.Hain@enron.com> cc: Subject: Re: Response to FERC Data Request for Bulk Power Investigation

I appreciate your quick response. Yes, we would like response to question 8 for the WSCC only. Thank you for the names at Enron Wind. I will contact them shortly. Other team members have reviewed your responses, but I have not had a chance to look at them in detail. I plan to do this today. As a result, I may have further questions or data needs depending upon what was provided. Please call me at 202-208-2493 if you need anything.

<Mary.Hain@enron.com> 09/14/00 08:06PM >>>

Since you only wanted information for the WSCC, do you want the answer to number 8 to be corrected to only include information for the WSCC?

We don't have any information here about Enron Winds' generators. I have forwarded your data requests to the following people at Enron Wind who I hope will be able to help you: John Lamb, Michael Payne, and Hap Boyd. Their addresses are: Michael Payne/ENRON_DEVELOPMENT@ENRON_DEVELOPMENT, Hap Boyd/EWC/Enron@Enron, John Lamb/EWC/Enron@ENRON

Thank you for your timely response to FERC's data request. To date, I have received responses to questions 2-8. The only outstanding items are responses to question #1 and a portion of #4 (unit identifier). It is understood that the responses for #1 will be available after September 15 and the additional information for #4 will be available this week. We will look over your responses and call you if clarification or additional information is necessary. We will treat as you requested #2, 3, 4, 6, and 8 as Confidential.

You were correct in responding only to the WSCC. We did not provide separate data requests to Enron Wind. In not doing so, what information are we missing from our data requests? Please e-mail me a response to these questions. For any other concerns please continue to use e-mail or contact me at 202-208-2493.

Thanks!

MEMORANDUM

TO: Regulatory Affairs Committee Power Marketers Working Group

FROM: Joe Hartsoe, Regulatory Affairs Committee Chair Bob Reilley, Power Marketing Working Group Chair Julie Simon, Vice President of Policy

DATE: January 12, 2001

RE: FERC Conference on Market Monitoring in California ? Revised Draft ? Conference Call on Tuesday, January 16th, 2:00 p.m. (EST), 1-800-937-6563

Based on discussion at our last conference call and follow-up conversations with some EPSA members, attached is a significantly revised list of Guiding Principles on Market Monitoring for FERC's staff technical conference on January 23rd to develop market monitoring procedures for the Cal ISO markets. The most significant change from the prior draft is that we now delete any reference to specific price levels that would screen prices in California and focuses instead why a price-based analysis for market monitoring is inappropriate, since it fails to account for capacity costs, opportunity costs and scarcity values.

FERC Staff has asked that EPSA be prepared to make a presentation at the January 23rd conference, so it is important that we see if there is consensus on this approach. We will discuss this draft on a conference call on Tuesday, January 16th at 2:00 p.m. (EST). To access the call, please dial 1-800-937-6563. Ask for the Julie Simon/EPSA Call. In the meantime, if you have any questions, concerns or ideas about this effort, please contact Julie at 202-789-7200 or jsimon@epsa.org before the call.

Re: Response to FERC Data Request for Bulk Power Investigation

Sender	brian.harrington@ferc.fed.us
Recipients	[mary.hain@enron.com]
File	hain-m/all_documents/1273.

I read your e-mail the day of receiving it. Anyways thanks for the update .

<Mary.Hain@enron.com> 09/15/00 12:03PM >>>

Brian - I'll be on vacation next week so if you have any questions, please call my counterpart in Houston, Christi Nicolay. Her E-mail address is above. Her phone number is (713) 853-7007.

Christi will be pulling together the answer to data request number 8 for you for just the WSCC. Christi - Chris is your contact person here to make sure the numbers are correct.

(See attached file: data request generators&marketers.wpd)

<brian.harrington@ferc.fed.us> 09/15/2000 04:59 AM

To: <Mary.Hain@enron.com> cc: Subject: Re: Response to FERC Data Request for Bulk Power Investigation

I appreciate your quick response. Yes, we would like response to question 8 for the WSCC only. Thank you for the names at Enron Wind. I will contact them shortly. Other team members have reviewed your responses, but I have not got a chance to look at them in detail. I plan to do this today. As a result, I may have further questions or data needs depending upon

what was provided. Please call me at 202-208-2493 if you need anything.

<Mary.Hain@enron.com> 09/14/00 08:06PM >>>

Since you only wanted information for the WSCC, do you want the answer to number 8 to be corrected to only include information for the WSCC?

We don't have any information here about Enron Winds' generators. I have forwarded your data requests to the following people at Enron Wind who I hope will be able to help you: John Lamb, Michael Payne, and Hap Boyd. Their addresses are: Michael Payne/ENRON_DEVELOPMENT@ENRON_DEVELOPMENT, Hap Boyd/EWC/Enron@Enron, John Lamb/EWC/Enron@ENRON

Attached is a preliminary first draft of the WPTF comments to be filed on Thursday with regard to the FERC Staff's market monitoring proposal.? It is essentially based on Ben Zycher's draft paper concerning this issue.? Ben has made a number of astute economic arguments in response to their proposal.? In several areas, questions?are indicated, or a suggestion that there is a need for additional material to support the statements made.? ? It would be helpful to see the drafts in progress by other WPTF members.? By reviewing them we can make sure that inconsistent observations are not made and WPTF's own filing can be enriched by additional policy arguments concerning the staff proposal. ? I'd like to expand on the last point. The Market Monitoring Committee (MMC) should not make findings, it should simply refer the information it gets to FERC about abuse of market power and violations of antitrust and if should report that information subject to confidentiality. Also, if contrary to our wishes, the FERC allows market monitoring committees to further investigate, make findings, and impose penalties, FERC must require the tariffs to contain detailed due process requirements that: (1) specifically name the behavior that is illegal and relate any penalties to specific violations, (2) require the MMC to notify the party being invested of the tariff or law that may have been violated, (3) allow the party being investigated to perform discovery on any other party (including the ISO or the PX) that may instead be at fault or may be a contributing party, (4) to facilitate this discovery, allow a party to know the identity of the party (if any) that alerted the MMC

to the alleged violation, and (5) detail the process for any discovery, hearing, or ADR process to ensure the party being investigated has adequate notice and opportunity to be heard and to impute others who may instead be at fault.

Lloyd and Aleck, thank you both for the info re: Gen data, I will keep that and interject it in the debates.

I have been working with Kurt Conger of American Public Power Assoc on a pro-Gen status disclosure paper. This paper will be proposed to the Electronic Scheduling Collaborative for inclusion in the response to the FERC OASIS Phase II ANOPR.

Southern Company Mktg is leading the charge to prevent disclosure of such data. This fight is lining up as those marketers with large gen assets vs. those who don't.

Transmission customer reps on NERC committees and subcommittees working independently outside the NERC process cannot agree on a pro or con position however, many support putting these 2 arguments in front of FERC for action.

I will push for filing both the pro and con positions to be filed in the ANOPR response.

Colleagues:

Please find below the first glimpse of the plan to update, and review, the largest 50 curves; they represent 75% of URM exposure. I am confident of your cooperation and support; both are absolutely essential to complete this ambitious

schedule on time (the process will start on April 23rd and conclude by May 25th, 2001).

Stella, Pat and I are currently working on streamlining the regulatory inputs required from you in a faster, and more cost-effective manner. We are also working on ensuring that documentation will be compiled in a very user friendly database (with the help/support of Elizabeth it shall be on the intranet) that will make the process next time a cinch, and provide the required inputs for your suggested strategy for the curve/utility when the time comes (it is the second stage of the process).

Stella, Pat and I shall seek your permission for an appropriate time this coming week to discuss the details of the plan and take stock of your comments and suggestions.

Best regards
