RE: NS50

Sender steven.harris@enron.com**Recipients** [gr42271@csmail.corp.fedex.com]**File** harris-s/deleted_items/516.

Hi Greg. Thanks for the info. When you say it has the optional headlight fairing, etc., does that mean they are not on the bike? What color is the bike? Do you have a number I can reach you at so we can discuss it further? I am very interested and would like to see what we can work out. I need to know what city and zip code the bike is in to find out how much it would be to ship it. Thanks.

Steve Harris (713) 853-1796 work (281) 350-8441 home 3314 Thicket Run Dr. Spring, Texas 77388

From: "Greg Rowe" <gr42271@csmail.corp.fedex.com>@ENRON Sent: Monday, November 26, 2001 6:18 PM To: Harris, Steven Subject: Re: NS50

Hi Steve, yes I still have the bike for sale, I just decided to sell it last friday (11/23). I hate to part with it, but I'm trying to raise capital to fund a business venture. I don't have any pictures of it, but I can borrow my girlfriends digital camera and get you some; however, I won't see her until this friday (11/30), and we are heading out of town until 12/4. I'll try to see if I can do anything before then, but I can't say for sure, as I don't own a computer or any computer equipment. I only have computer access at my job. In reference to shipping cost to Texas, shipping company's usually charge by size, weight, and distance travelled. The bike doesn't weigh that much, but you'd probably have to check with a truck line to verify a freight prices. In regard to the title, I do have the title, but it's still in the person's name that I purchased the bike from. He had it licensed, with tags on it, and rode it on the street. I bought it just as a pit/play bike. I take it to local motorcycle races on a trailer as a pit bike and ride it around my neighborhood, so I never licensed it to keep from paying sales tax. If it becomes an issue, I can retitle it in my name. The unit has somewhere around 980 miles on it, and it has the optional headlight fairing and engine/radiator shroud/cowl. The only thing that I did to it when I bought it was change all the fluids, lube, check everything over and adjust things as needed. Let me know if you have any further questions or need more info.

Thx.

Greg Rowe

"Harris, Steven" wrote:

Do you still have the bike for sale? I am very interested and would like to see a picture of it if you have one. Do you know if it could be shipped to Texas relatively inexpensively? Also, do you have the title? Thanks. Steve Harris (281)350-8441

Contract Review & \$20 MM RCM

Sender	david.a.foti@accenture.com
Recipients	['steven.harris@enron.com']
File	harris-s/inbox/50.

Steve -

I have some ideas related to ECS contract restructuring options. If your team is available I could come by next Friday mid-morning or later to start discussing with them.

On the administrative side, I am working to nail down the lowest hourly rate I can get for you. I would probably propose something like 80 hours * rate, in the engagement letter. This amount of time should be adequate to put together a short study on your different options. I will send you a engagement letter this week. I would just need to get that signed by you before Friday.

Also, please let me know if you need any other information on the Reliability Centered Maintenance idea, as you prepare to talk to the other officers.

Dave

Hello Steve -

Haven't talked to you in a while, hope all is well. A quick update - I moved over from EES to Accenture's Energy group about six months ago and have been focusing on Trading and Risk Management & Pipeline Optimization projects.

I had an idea which I thought you might find interesting. Accenture has a strategic alliance with a technology provider for Reliability Centered Maintenance (RCM) -- basically an advanced methodology & technology for making maintenance decisions. They are the standard for electric T&D companies and are now trying to move over into the pipeline segment. This is how I was thinking about using them to structure a deal:

1. TW hires Accenture to implement RCM
2. RCM Benefits are determined by a pilot project (4 weeks)
3. Accenture pays TW upfront for 10 years of projected benefits from RCM (say \$20MM) as part of our "guarantee"
4. TW pays Accenture an annual licensing fee for the use of RCM over the next 10 years which will flow into the next rate case.

I am currently pursuing another project with Ben Asante, so I am around the Enron building. Let me know if you would like to get together to discuss further.

Hope all is well.

File	harris-s/deleted_items/437.

Any possibility I could get you to call me either on my cell @ 713-201-6135 or @936-597-3905. I would like to get the CERA discussion going with these guys if at all possible before monday.

-----Original Message-----

From: Brent.Wahl@jpmorgan.com Sent: Fri 11/23/2001 1:33 PM To: Hayslett, Rod Cc: Eric.Fornell@jpmorgan.com; DAVID.EDELSON@chase.com; Carl_O_Vevle%JPMORGAN@restricted.chase.com Subject: Transwestern information requests

Rod:

As per our phone conversation, the list of information we would like to have follows:

1. FERC Form 2s for the last three years 2. Revenue breakdown: Assumptions made for the contracted period, as well as the time period beyond current contracts - firm/interruptible mix and volumes, tariffs for each type of transportation contract A build up from contracts to the revenues in the model would be ideal 3. As before, compressor gas volumes and assumed sales prices for the projected years 4. As before, the story as it relates to CERA's view of the world 5. Explicit calculation of rate base going forward 6. Employee benefit plan information - funding status, return rates, future liabilities

Thanks Rod.

When you have a time in mind for a call to discuss the above list please contact:

Eric Fornell

The LOI with a nonbinding bid referencing our interest in their West Leg of the Southern Trail Pipeline was faxed to Questar yesterday . We are confident that we will be invited to the data room to perform due diligence. We anticipate that this will occur at the end of this month. As soon as we know the exact date, we will advise all of those involved.

We will be assembling the due diligence team this week and then we will meet to create a plan for the process while we have access to the data room.

We'll be in touch as the details unfold. In the mean time, if you have any questions, please feel free to call Kim Watson or myself.

| File       | harris-s/deleted_items/145.                    |

The following items were discussed in this week's ETS and Corporate Change Control Item...

Oct. 21 From 10:00 a.m. - 2:00 p.m., the Unix team will perform maintenance and reboot app server emerald. The following applications will be affected: CAS, ERP/TRV, IZZIE, SIEBEL, WEBMODAL, Commodity Logic. No impact to ETS users is expected.

Oct. 27 From 4:00 - 8:00 p.m., Trizechan Properties has scheduled a shutdown of all electrical service at 3 Allen Center. Enron Network Services will power down the 3AC network infrastructure between 3:30-4:00. There will be no network access during the electrical maintenance and the outage will continue until ENS is able to power up all of the networking devices. If you need access to 3AC anytime that Saturday, you will need to contact Trizechan Properties beforehand with your security information. Anyone to attempts to enter the building on Saturday that is not on the list will be denied access.

Have you determined for sure when and where the meeting will be?

-----Original Message-----

From: Lokay, Michelle Sent: Wednesday, November 21, 2001 9:52 AM To: Harris, Steven; Watson, Kimberly Subject: FW: BR/TW Window Rock Meeting Scheduled for Dec 3rd

FYI.

-----Original Message-----

From: Hills Greg [mailto:GHills@br-inc.com] Sent: Wednesday, November 21, 2001 8:56 AM To: Lokay, Michelle Cc: Hinton John; Hanse Lee; Eason Robert; Cervin Pete Subject: BR/TW Window Rock Meeting Scheduled for Dec 3rd

Michelle, We are looking forward to the planned meeting between BR and TW to further discuss the Window Rock interconnect. The following is an informal agenda listing of topics:

1. BR would provide an overview of our November 6th discussions with EPNG regarding the Window Rock Interconnect.
2. As discussed, it would be beneficial if TW would be able to discuss the operating parameters along TW's pipeline system prior to and after the proposed Red Rock expansion. In particular, BR would be interested in expected pressures/volumes at Window Rock, Station 4, 5 and Thoreau prior to the expansion and after the expansion with 0mmcf/d, 50 mmcf/d, 100mmcf/d, and 150mmcf/d delivered at Window Rock into TW. The Window Rock deliveries into TW would physically service markets to the west while allowing TW to reduce physical flow from the eastern delivery points by providing the eastern backhaul service to BR.
3. Discuss potential system or operating modifications to allow Window Rock deliveries.
4. Review potential alternative delivery points into TW for backhaul service.
5. Discuss potential meeting between TW/EPNG/BR

Please give me a call if you would like to discuss the above prior to the meeting or if you would like to add additional topics. We look forward to meeting with you Monday, Dec 3rd in our office at 3pm. Thanks,

Greg Hills Burlington Resources Marketing Business Development (713) 624-9009 Fax: (713) 624-9617 Email: ghills@br-inc.com

From: "Gregory Klatt" <gregoryklatt@earthlink.net>@ENRON Sent: Monday, November 19, 2001 2:46 AM To: Hass, Glen; Harris, Steven Cc: Dan Douglass Subject: FW: A.01-09-024 PHC Statement draft

SoCalGas is circulating a draft pre-hearing conference statement for parties to sign on to, if they wish (please see attached). Given Transwestern's position in the BCAP, it makes sense to sign on to SoCalGas' generic PHC statement. Please take a few moments to review the same and let me know your thoughts. SoCalGas has asked for a response by Tuesday noon. Thanks. ----- Original Message ----- From: Parrott, Jeff To: gloria.ing@sce.com ;mdm8@pge.com ;burkee@cts.com ;douglass@energyattorney.com ;gregoryklatt@earthlink.net ;pjpowerlaw@aol.com ;tpeterse@energy.state.ca.us ;marcel@turn.org ;chilen@llgm.com ;tomb@crossbordenenergy.com ;Thompson, Vicki L. ;Winter, Rodney ;Brill, Thomas R. ;fdeleon@energy.state.ca.us ;napedersen@jonesday.com ;plg@cpuc.ca.gov ;ek@a-klaw.com ;jkarp@whitecase.com ;bkc@pge.com ;Davis, Robert E. ;kcl@cpuc.ca.gov ;weg@cpuc.ca.gov ;aclark@calpine.com ;epoole@adplaw.com ;salleyoo@dnt.com ;bradylaw@pacbell.net ;Mday@gmssr.com ;bcragg@gmssr.com Cc: Brill, Thomas R. ; Davis, Robert E. ; Winter, Rodney ; Wright, Gillian - TP1GXW Sent: 11/16/2001 11:14:43 AM Subject: A.01-09-024 PHC Statement draft To: Parties Who Participated in the A.01-09-024 (SoCalGas and SDG&E BCAP) Meet and Confer: Attached is a proposed PHC Statement as required by ALJ Brown in her Ruling of November 5, 2001. Per that Ruling, this Statement must be filed within 10 days of our meeting (which by my calculation would be the 26th of November). I would REALLY like to get it filed on the 21st if possible, before the Thanksgiving weekend. I tried to keep the Statement simple, while reflecting the consensus views articulated at the meeting. I tried not to go into too much detail on the description of some of the outstanding CPUC proceedings that may affect this case, but wanted to give the judge some flavor for each proceeding. I ask that each of you let me know by noon next Tuesday (the 20th) if you want to "sign on." I will incorporate any non-substantive edits you may have. For substantive edits (hopefully there will be few if any) I will do my best to incorporate. However, let's remember that none of us want to be de-positioned by what is said in this document so argumentative statements will be ignored. If only nonsubstantive edits are received, I will file on behalf of all participating parties without further review. If substantive changes are made, a second review will be provided. I hope we can keep this from becoming an unwieldy exercise. I ask for your cooperation and appreciate your input. If you want to provide your individual PHC Statement, fine. Just let me know so I can take your client's name off this one. Thanks again. <<BCAP-PHC statement(v1).DOC>> Jeff Jeffrey M. Parrott Attorney Sempra Energy ph. Commercial Email Gets Results!

Interested in putting your product or service in front of millions? To find out how READ ON.

My name is Paul Willis and I am one of the few who have managed to make a very comfortable living marketing products on the Internet. My methods and techniques have been quoted in magazines, radio talk shows, the Nov. 27th issue of the Wall Street Journal, and the Financial Post just to name a few.

I have marketed everything on the Internet from Personalized Baby Calendars to Information and have made money with everything. Even the Wall Street Journal referred to me as being crafty in my techniques that have out maneuvered the anti commerce radicals since 1995.

How?

By placing your ad over the Internet and directly into the mailboxes of consumers who, like you, have an Internet e-mail address. Almost every user of the Internet has an e-mail address and we can effectively reach as many of those people as you want FAST and EFFECTIVELY.

Every year the number of users increases tremendously creating a huge market. Why not become part of this unlimited market by placing your personal ad in one of the largest consumer databases?

We are interested in doing business with you, however, we DO NOT do pornography, chain letters, or schemes of any kind. Please call us with a legitimate product or service.

Some of you may not be interested at all, and possibly are agitated by our message. We will respectfully remove you from our list by request. We are responsible commercial e-mailers and don't want to bother those who are not interested. We not only respect you, but also our customers. We do not want our customers spending their advertising dollars on prospects that do not have any interest.

(Remove instructions are at the end of this letter.)

Below you will find basic mailing options we are offering at this time. Check out our October SPECIALS!
