SPP GOLF / Hotel Reservations

Sender	wayne.reed@xemkt.com
Recipients	['dean.laurent@enron.com', 'bill.grant@enron.com', 'juan.hernandez@enron.com']
File	hernandez-j/inbox/318.

Hello Golfers,

Just a reminder that the block of rooms at the Ameristar Casino / Hotel at the group rate expires 8/17. Don't forget to make your reservations at 888-833-7700. There are only a few spots open for the golf and there is a limit of 144 paid players, so if you know of anyone that plans to attend ask them to contact me 303-308-6148 or Mike Martin 806-378-2376. We need someone to volunteer to host the golf tournament next year so that we can keep this going as an annual event. If your company has an interest please let me or Mike know.

Thanks Wayne Reed Xcel Energy 1099 18th St Suite 3000 Denver, Co. 80241 303-308-6148 (Office) 303-981-4667 (Cell) 303-308-6075 (Fax)

FW: SPP Energy Traders Golf Tournament - Sponsor Announcement

Sender	wayne.reed@xemkt.com
Recipients	['martin@enron.com', 'mike.martin@xcelenergy.com']
File	hernandez-j/inbox/321.

Dear Sponsors, After several requests, we have decided that the hole sponsors should have the opportunity to provide gift items that bear their respective corporate logo to the tournament players . We will put together a "goody bag" containing the items provided which will then be distributed to the tournament players at the registration desk the day of the tournament. We would suggest the items you send be a golf related since a few extra golf balls, tees and other such things come in handy before a tournament, but they do not need to be limited to golf-related items only. Xcel plans to provide a sleeve of golf balls to throw in the goody bag to get things started - I'm sure additional golf balls would be welcome by the players as would pens,

post-it-note pads and the like. I don't want to limit any of you on the cost of the items but I would recommend the items be small since a lot of people will be travelling, smaller means lighter and more convenient to tote through an airport. As for logistics, and since time is growing nearer, the sponsors wanting to include in the goody bags should ship them to the golf course at the address shown below. We plan to assemble the goody bags on Monday, September 17th. Please ship them so that they arrive in Kansas City no later than Friday, September 14th - we will do our best to accommodate items arriving after that date. The shipping address is: Tiffany Greens Golf Course Attn: John Leavitt - Xcel/SPP Golf Tournament 6100 N.W. Tiffany Springs Parkway Kansas City, MO 64154 Phone: 816-880-9600 (ext #206) As sponsors, we feel we needed to give you the opportunity to show your 'brand' and communicate your sponsorship to those attending. It is not mandatory that you send any item as a sponsor. Thank you all for generous support of the tournament. If you have any questions, please contact Mike Martin (806-378-2376) or myself at the number below.

FW: New E-Tag Feature: Potential Adjust List

Sender	andy.rodriquez@enron.com
Recipients	['don.baughman@enron.com', 'juan.padron@enron.com', 'richard.shapiro@enron.com', 'john.kinser@enron.com', 'sus...]
File	hernandez-j/inbox/210.

I am pleased to announce that a new feature is being added to the E-Tag system: the Potential Adjust List (PAL).

As you may or may not know, there is currently an "Adjust List" that is issued when TLRs are called. An "Adjust List" is a recommendation from the IDC that describes what transactions should be cut and by how much to achieve needed relief to eliminate a constraint. This Adjust List sent out to Generation and Load Control Areas and Tag Authors for all transactions that are being recommended for curtailment. It is intended to aid in coordination Control Area schedules during curtailment, as well as alert the marketplace of recommendations for their transactions to be curtailed. Under the current process, the Adjust List notice is sent out when the initiating Security Coordinator and all impacted Security Coordinators have agreed to recommend specific curtailments. As such, this recommendation can occur very late, leaving very little time for the market to react (i.e., resource and/or resink their power).

The Potential Adjust List feature adds a second, earlier Adjust List that is sent out when the initiating SC requests relief, but prior to the confirmation of all the impacting SCs. This should allow this recommendation to be delivered several minutes sooner than it is today, giving more time for the market to begin searching for alternate economic sources and sinks. When all impacted SCs confirm, the standard Adjust List recommendation is sent out as it is today.

It should be recognized that both the Potential Adjust List and the standard Adjust List do not represent actual curtailments - in both cases, they are only recommendations for curtailment. Control Areas may elect to curtail different transactions or amounts than reflected in either Adjust List due to local relief procedures or other business practices. However, both lists should aid in mitigating risk associated with physical transactions and curtailments. Further, empirical evidence seems to indicate that in the majority of cases, the Potential Adjust List, standard Adjust List, and final curtailments will be very close.

This change is based a proposal I wrote with the help and support of Jim Eckelkamp (Carolina Power and Light), Mark Scheel (Dynegy), and Patt Terris (Exelon Power Team). If you talk to any of them during the course of daily business, please thank them for their support of this effort. With their assistance in developing the concept, ironing out the technical details, and cultivating NERC support in the various forums, we were able to implement this change very quickly.

I expect this change to take place sometime between June 15 and June 28. Attached, please find a message from NERC that describes the feature and how it works. If you would like more detail, please let me know. I currently Chair the group that is responsible for improving E-Tag, and as such, am intimately familiar with tagging and its functions.

In the next few weeks, I will be working with Don Baughman and Juan Hernandez to ensure we utilize this feature (and others) to maximize the value of our E-Tagging tools. As indicated above, please feel free to contact me with any

questions.

File	hernandez-j/all_documents/446.

Attached is a copy of a letter which we are sending to our Corporate, Enron= =20 North America Corp., Enron Energy Services Operations, Inc., Enron Broadban= d=20 Services, Inc., Enron Net Works, LLC, Enron Engineering and Construction=20 Company, EGEP Services, Inc., Enron Transportation Services Company, Enron= =20 Property Services Company, and Portland General Electric Company vendors as= =20 an additional step toward implementing our commitment to conduct our busine= ss=20 affairs in accordance with the highest ethical standards.

We are sending you a copy of this letter so that you will be aware that you= r=20 vendors will be receiving this letter and so that you will be reminded that= =20 Enron does enlist the cooperation of its vendors in adhering to its Busines= s=20 Ethics Policy. =20

We appreciate your efforts in contributing to an Enron work environment of= =20 which we can all be proud.

SAMPLE

November ____, 2000

OFFICE OF THE CHAIRMAN rHeadquarter_Name_ rAddress_ rCity_ rState_ rZip_

Dear Sir or Madam :

Enron Corp. (=01&Enron=018) believes in conducting its business affairs in= =20 accordance with the highest ethical standards. Accordingly, employees of= =20 Enron and its subsidiaries are required to comply with Enron's Business=20 Ethics Policy which requires an employee to conduct himself/herself in a=20 manner which is not detrimental to the best interests of Enron and which do= es=20 not bring to the employee financial gain separately derived as a direct=20 consequence of his/her employment with Enron. Further, Enron's Business=20 Ethics Policy states that no lavish entertainment or gifts are to be given = or=20 received by Enron employees for special position, price, or privilege.

Not only is it incumbent upon our employees to follow this policy, but you= r=20 cooperation in respecting these standards is also critical. Enron expects= =20 each of its vendors and contractors to maintain adequate records that=20 document its

work relationship with Enron. Enron's auditing department will routinely conduct business ethics compliance audits of certain vendors and contractors with whom Enron does business. Your recognition of our ethical standards allows Enron employees to work with you via arm's length transactions and avoids potentially embarrassing and unethical situations. If you ever become aware of variances from our policy, please advise:

James V. Derrick, Jr. Executive Vice President and General Counsel (713) 853-5550 or report anonymously to: Enron Compliance Officer CONFIDENTIAL Conduct of Business Affairs PO Box 1188 Houston, Texas 77251-1188 or the anonymous telephone line: (713) 853-7294 or the anonymous e-mail address: ochairm@enron.com

Your business relationship is important to us, and we look forward to maintaining that relationship with you.

Very truly yours,

OBJECTIVE

To obtain an assistant trader or analysis position in a trading environment which provides a challenging opportunity for growth.

EXPERIENCE

Bridgeline Holdings L.L.C.- Bridgeline Gas Marketing, Lead of Risk Management, Houston, TX. November 2000-Current
Bridgeline Holdings is a joint venture between Enron Corporation and the Texaco Corporation. Served as the head of the risk management group for Bridgeline Holdings L.L.C. Obtained valuable experience working in a start up environment. Worked in close conjunction with upper management and accounting department heads in order to reconcile the mark to market daily trading profit and loss statements to the monthly corporate income statement and balance sheets. Trained and managed a new risk employee. Performed daily risk functions, including researching trends as well as many ad hoc request the traders might of needed. Gained technical experience working with the LIM database.

Enron North America- Enron Networks Gas Risk Management, Specialist, Houston, TX. August 1999-November 2000
Responsible for the reporting the daily profit and loss statement, as well as, the trading positions to the trader. Gained an excellent understanding of risk and structuring. Worked extensively with options, derivatives, swaps and transport. Obtained a working knowledge of Visual Basis macros and Access databases. Completed three derivatives courses. Trained several new risk employees. Helped leads define and streamline risk processes, such as the consolidation of the positions and profit and loss statements that are reported upper management. Involved in the testing of EnronOnline

systems, TDS systems.

TransCanada Energy- Natural Gas Group, Book Analyst, Houston, TX. May 1998-August 1999 Responsible for tracking all physical and financial positions, analyzing which portions of the current position are at risk through a mark to market MS Access database. While doing such, gained an excellent understanding of price exposure and risk. This also provided the opportunity to learn the physical aspect of Natural Gas trading, as well as, learning how to hedge the physical with financial instruments such as swaps, and derivatives. Served as the back up for nominations on the Texas Gas Pipeline, and the ANR Pipeline. Worked closely with the accounting department to reconcile the trades, imbalances, and invoicing.

J.P. Morgan Securities, Inc. - Municipal Bond Department, Intern, New York, NY. Summer 1997 Developed analytical, interpersonal and teamwork abilities while conducting various modeling and research projects, including industry specific and general analyses for the Structured Products and Tax- Exempt groups. Actively participated in all facets of fixed income trading and sales. Presented bids for competitive bond deals for the Underwriting desk. Responsible for maintaining the Bond Buyer Index, an important tool used by traders to value proprietary positions in the market.

EDUCATION The University of Texas at Austin Bachelor of Arts - History, minor in the Business Foundations Program, May 1998

SKILLS . Computer: Proficient in MS Excel, MS Access, LIM database, CQG

MDEA May 4 HE5 4 Mwhs

Sender	jeffrey.miller@enron.com
Recipients	['m..grace@enron.com', 'kayne.coulter@enron.com', 'juan.hernandez@enron.com']
File	hernandez-j/inbox/243.

Guys,

Rebecca Grace received a call from Axia and they are NOT agreeing that they sold us 4 Mwhs for HE5 on May 4. The MDEA 0504.xls model (maintained at the time by GENCO) indicates that we made a 4 Mwh purchase from Axia for MDEA. Rebecca has checked OATI for any/all tags for this day and has accounted for everything but that transaction.

I was hoping we could find out who was working that morning and perhaps they could check their records / log book to see if the transaction occurred and verify it was, in fact, AXIA.

Please let me know and copy Rebecca Grace what we can do to resolve this issue.

Regards,

Jeff Miller Enron North America 1400 Smith Street Houston, TX 77002 713.853.5642

New Real-time California Market Information!

Sender	bill@friedwire.com
Recipients	[juan.hernandez@enron.com]
File	hernandez-j/24_hr_power/49.

Dear Juan,

FriedWire Inc is pleased to announce the release of the California ISO module in our Traffic Report System. With the information in the CA ISO module you'll be able to quickly assess the supply and demand fundamentals that drive market decisions in the Western grid. The real time information in the CA ISO module is incorporated into easy to read graphs, charts and custom interactive maps. Below is a snapshot of the new content:

CALIFORNIA ISO MODULE OVERVIEW Frequency Monitoring in WSCC (deviation from 60Hz) Real-time California ISO loads for today, two weeks, month and year Congestion Prices in California -10 Minute Expost Incremental & Decremental Prices -Hour Ending Expost Prices -Hour Ahead Congestion Prices -Day Ahead Congestion Prices Day Ahead Congestion Price Summary Congestion Zone Profiles Branch Group Profiles Maps illustrating Congestion, Flows & Prices Day Ahead & Hour Ahead Schedules for Load, Generation, Imports & Exports - Coming Soon!

COMPUTING & NETWORK UPGRADES Recently our ISP implemented several upgrades to improve connectivity to all of our failover uplinks and provide increased reliability during an outage with any one upstream provider. Unfortunately during this upgrade some of you were unable to get to our website the morning of February 27th. I apologize for this and want to re-confirm that we try to never perform any upgrades or maintenance during business hours. FriedWire is also very pleased to announce that our entire system will be upgraded in the next 30-days. We have entered into a contract with Verado (formerly Firstworld) to migrate all of our systems to their facility in Denver, Colorado. With this migration we should see increased performance and reliability in all of our systems.

OLD DATA IN MAPS? RESET YOUR BROWSER CACHE SETTINGS! If you have seen any maps or charts that seem contain old data then please make sure that you set your browser NOT to cache web pages. Internet Explorer users can do this by going to the "Tools" menu and selecting "Internet Options". On the General tab press the "Settings" button for Temporary Internet Files and set "Check for newer versions of stored pages" to "Every visit to the page". Netscape Navigator users can do the same by going to the "Tools" menu and selecting "Edit" then "Preferences". Select "Advanced" then "Cache" in the Category window and set "Document in cache is compared to document on network" to "Every time".

NUCLEAR OUTAGE MAP New labels on the map provide unit-level detail on outages.

We appreciate your business and look forward to providing additional energy information to your organization. Please call us at 303-447-0288 if you have any questions.

Sincerely,

Bill Townsend President FriedWire Inc. 3209 Walnut St. Boulder, CO. 80301 (303)447-0288- extension 24

Well guys...the time has come. Here is the Agenda and a few reminders for the Las Vegas Trip:

There will be a shuttle that will pick you up in front of the building on Thurs., 10/4/01...IT WILL LEAVE ENRON AT 9:30AM. Please do NOT be late. We want to make sure that we do not have any problems at the airport.

Please make sure that you bring your Vitol Travel Receipt with you and your valid Id.

Please note that there will be ONLY a few people who have authorization to use their Amex Cards while the group is out in the evenings. This means that when we return those people will be authorized to turn in expense reports. Remember guys, we do have a budget that I am accountable for. The following people are:

Don Baughman Juan Hernandez Joe Stepenovitch Lloyd Will

I will meet you at check in and confirm your Spa time, if you have any questions or concerns please feel free to contact me.

Thanks for your patience,
