Sharon - I need your assistance with respect to the registrations that we have to do in respect of the PG&E Master Netting Agreement. In this regard would look up the address for PG&E Energy Trading, Canada Corporation as such address is set out in the notice provisions of our gas master with PG&E Energy Trading, Canada Corporation.

Also, could you do the same for CEG Energy Options Inc., PG&E Energy Trading - Power L.P. and PG&E Energy Trading - Gas Corporation. If we do not have masters in place, look in other executed agreements, and if no agreements are executed please look in recent drafts of unexecuted agreements (and note that the address is from an unexecuted draft).

If you have any questions please call or email.

Mary,

All those traps with security were worked out 4 years ago. London can get into the o: drive from there, the only directory they have access to in the o: drive is the atty.fms bank. If we put the swap forms back there, they can get at them. I know, because I've pulled them up myself from London.

Mary,

I have spoken to Taffy regarding this matter. She said that even if we move the forms within atty.fms, that the satellite office will still not be able to access them.

The only way that the forms whether in stty.fms or SWAP FORMS can be only accessed if one can access our "o" drive. Therefore, each satellite office must contact computer security @ Enron an request access to our "o" drive.

Thats the story.

We will also be getting these Mid-Market EIM Group Customer Lists on a going forward basis. I spoke to Credit and for right now we will only be approving these counterparties to trade physical steel. As with the regular online trading lists, IF I DO NOT HEAR FROM YOU WITHIN ONE DAY, I will take it that you do not have any legal issues with the counterparties below trading.

Here is the revised BETA for Europe. The changes reflect the revised language that Mark originally provided to the original BETA with APB Energy, Inc. My understanding is that there has been no agreement yet on what the fee should be; so, I

have made no comment or change to that language at this point, while you and Chris discuss this issue.

My understanding is that there should be only one letter of credit for all APB entities. Also keep in mind that before too long the letter of credit, and the APB Energy, Inc. BETA and Fee Agreement, will need to be in the name of APB Energy Intl. LLC, which will be the successor to the operations of APB Energy, Inc. as a result of a business acquisition we soon hope to complete.

If you have questions please do not hesitate to contact me.

Sincerely,

Joe Wright

Joe,

Chris and I discussed next steps for the Broker Client agreements for Europe. We concluded that it would be best to proceed with finalizing documents in anticipation of your acquisition in Europe. Chris indicated that you had amended the draft that Mark sent. Could you please send us the document for review?

I am working on a financial contract audit and could not find any records in the Financial Lotus Notes Tracking system for the following counterparties. I was able to pull and make copies of the executed agreements from your legal files last week and I am sending them to the file room to be scanned into Livelink and properly filed.

Since the Financial tracking system is one of our means of verifying information, would you please populate this information in it? If any of these counterparties are not active, I will need to know that information also.

As you can see from the below, it appears that EPMI has a confidentiality agreement with Green Mountain. If possible, could I get a copy so that we can conclude negotiations on an NDA for Net Works.

Thanks.

Craig -

I have looked over the attached document. Based upon the draft we provided in January, Orbian has made a number of changes which are acceptable to me. Only the following present issues:

1. Paragraphs 3(a), 3(b) and 6 - The original form of this agreement had 5 years as the time period for protection and return of confidential information. We had proposed 1 year and they have now come back with 3 years. The timing under other Enron NDA's is generally 2 years. Accordingly, this time period should be suggested for these paragraphs.
2. Paragraph 3(d) - I had previously deleted the phrase "and each such copy shall be marked with the same proprietary notices that appear on the originals (if any)." Orbian now wants to keep this phrase. Since this presents an administrative burden which we do not support now, it makes little sense to maintain this with the agreement. Accordingly, it should be deleted.
3. Paragraph 7 - The added provisions of "and/or their Affiliates" should be deleted in two places. The affiliates of the parties are not third party beneficiaries of this Agreement, nor signatories to the agreement. Accordingly, any action they may have against Enron would be outside of this Agreement.

Otherwise, the agreement looks fine.

Please let me know if you should need anything further.

You may also be interested in Orbian. They are looking for ways to shed the risk they are incurring as they issue something called Orbian credits. There may also be partnering sorts of opportunities but the potential portfolio opps may be greater in the short run.

Stop by if you want a quick review of who they are (from my less than stellar memory)

Attached for your review are a blacklined and final version of the NDA. The blacklined version includes AMR's last set of revisions (with the exception of Paragraph 3, which is marked to be consistent with my last e-mail). The final version incorporates all changes and is ready for signature by AMR. If these are acceptable, please have the final version printed and two originals signed. A copy of one signed original should be faxed to me in the morning so that I can obtain a countersignature by Enron and forward a copy of same to your attention. The changes proposed are fine, except in Paragraph 3. I believe the second sentence of the paragraph should remain, but should read "If, in the absence of a protective order or the receipt of a waiver hereunder, you or your Representative are, in the opinion of your counsel, compelled to disclose the Confidential Information or else stand liable for contempt or suffer other censure or significant penalty, you may disclose only such of the Confidential Information to the party compelling disclosure as is required by law."

Ms. Bannes -

A copy of the AMR non-disclosure agreement was forwarded to my attention to review in anticipation of a meeting to take place tomorrow between our companies. I have reviewed the form provided and have numerous comments related to bringing the agreement into the form generally acceptable to Enron. Instead of revising your form, I have provided Enron's standard form to you for review. The general concepts are the same, however, you will note:

1. the attached contained provisions relating to arbitration as the means of settling disputes between the parties 2. the laws of New York are applicable (neutral site to both parties), and 3. there is no requirement of marking information as confidential as this places an undue burden on Enron to police this practice.

Please review the attached at your earliest convenience and let me know your thoughts.

Thanks in advance for your cooperation with this matter.

Tana,

Per my voice mail to you this week, I have obtained the information which you requested regarding Amerada Hess Corporation's ability to trade on Enron On-Line.

Amerada Hess Corporation would like to trade gas and power, financial and physical, in the United States and Canada.

We would also like to trade options for gas and power.

Could you run the necessary reports and contact me with our current ability to trade On-Line? Also, if we do not presently have the ability to trade the above, could you inform me as to the steps which need to be taken in order to trade?

I look forward to hearing from you.

Glad to be of assistance. In order to ensure we prepare an accurate document, I need to have the complete name and address of CMS (or the appropriate entities). Also, our intention is to put as the "transaction" the following:

"Enron and CMS are prepared to furnish each other with information in connection with the development and implementation of a pipeline portfolio management solution..."

Please let me know if this is acceptable or if we need to modify this generic description of the transaction.

Mark,

Thanks for agreeing to help prepare this NDA. As we discussed on the phone, our team is now in a position to begin detailed negotiations with CMS for a systems solution project (CMS Energy - Panhandle Pipe Line Companies). As a part of the negotiations we will need to disclose some detailed information about ETS systems.

Steve Hotte (CIO of ETS) and our team agreed that we should to execute an NDA that covers both ENW and ETS and gave me Drew's name as their legal council.

The contact name at CMS should be:

Cynthia C. Albert Vice President, Regulatory Affairs and Information Systems 5444 Westheimer Road Houston, TX 77210-4967

713-989-7334 tsmehta@cmsenergy.com

On the Enron side, I would use

David Berberian for ENW Steve Hotte for ETS

for signatories.

I hope this is sufficient information to prepare one or two NDA's whichever is appropriate.

Sincerely, Steve Abbanat

The instructions below should help you find the access to get into the Financial Trading Agreement Database (where the ISDA information is located). If you want to get into where the documents are actually stored online, you need to contact Moyez Lallani, and he can get you access to Livelink. Tell him you are in Legal in New York and you need access ASAP. Attached is the requested NDA with Enron Networks. I added in the business purpose regarding the Online Website. This is form of the Enron NDAs negotiated with Enron Broadband Services and Enron Puerto Rico. This form is different from the form Enron Net Works sent you as referenced below. In order to keep our NDAs consistent, David thought it would be best to stick with one form agreement. This form was the one sent to us by the other 2 Enrons - not our form.

Bob and Corinna, Here are the versions of the MOU your lawyer will need to review. As expected, some of the items just did not make the bar to warrant a change. Specifically: an actual date for the released product will not go on the MOU. Customers who participate in the JDP have a high degree of touch and disclosure with MS. Although we are glad to discuss dates and they draw near with the customer we do not promise anything from the beginning (though this hardly matters now considering the date). The line in #4 that was cut and pasted to #17 has been placed back in #4. This is due to the placement of the topic in #4. The rest of #17, specifically stating that there is NO COST TO THE CUSTOMER has been left in on #17, and I'll probably incorporate this for future use. It is a good addition. #10 on Microsoft's section has been removed. It is clearly redundant and not necessary. We already say there is absolutely no cost to the customer.

If this is agreeable (I have included the red lined version, so your lawyers can review), the final version with those changes have also been included. Please print, sign and return.

Thanks! JamMo!

Marilyn,

We have a Paralegal Luncheon scheduled for Thursday, April 12th, and each of us has this date already set on our calendars. Therefore, we propose that the GCP Training be scheduled for April 12th from 11:30 am to 1:30 pm.

Let us know if this works for you.

Ladies - I would like to get a vote on which date would work best for the training class in April. We have a conference room where a PC cart would work nicely for us. The monitor is a large screen for easy viewing. You might want to select 2 dates in case your first choice is taken.

Which of these dates works best: April 9, 11, 12, 13 (Mon, Wed - Fri) ? Also, would 11 AM - 1:30 PM be enough time? Lunch will be provided.

I have approved all the security forms received so far so you should have view access to GCP in plenty of time. Look forward to hearing from you!

No, I do not think so. I think we might have a misunderstanding on the separation of roles between ECC and ENA. ECC legal will do the legal work in assisting the Calgary confirm desk in preparing the actual confirms, amendments, terminations, etc. However, ENA legal will continue to handle all legal matters or inquiries with respect to the negotiation and interpretation of the contracts surrounding the confirms which, I assume, would include the negotiation and interpretation of matters such as the financial GTC forms. Therefore, I would suspect that the negotiation of the terms of the GTC between ECC and PowerEX, for example, would still be handled by ENA. Also, as a result, I would suspect that the guarantees would also be coordinated with Clement through ENA. Perhaps Mark Taylor can clarify on these points.

Cheers

I know I'm not supposed to continue imposing on you, but if these entries are showing up in both places this is going to creating large problems for us, as well as giving persons who should not have access to brokerage/other agreements access to that information. Our brokers are quite confidential. The only information we want to make available to all Enron employees is the master swap agreements. Can you PLEASE, PLEASE take a look at this for me. You need to speak with the developer. There is no way to control the inclusion of "Other Agreements" in the "All Agreements" section as the system is currently designed.

I am not disagreeing with you; I learned this the hard way a few months ago. The system is confusing.

Sara Shackleton Enron North America Corp. 1400 Smith Street, EB 3801a Houston, Texas 77002 713-853-5620 (phone) 713-646-3490 (fax) sara.shackleton@enron.com

To: Sara Shackleton/HOU/ECT@ECT cc: Subject: Re: JP Morgan Securities Inc. (Electronic Order)

It has been my understanding that the first section is supposed to be for master swap agreements only. Having other documents listed in that section may be misleading to some parties who may misconstrue their use for general trading purposes, such as Global Contracts. That is why we created the "Other Agreements" section, to house these other agreements. My understanding is that the only reason other agreements has been listed in the Master Swap Agreements Section is that they have been done so erroneously. The drop down were not created too artfully created, allowing wrong agreements to be put in Master Swap Agreements, which has been proliferating. If my understanding is not correct, than when did the intentional use of that first section change? I think putting all agreement is a very bad idea.

Ms. Bannes -

A copy of the AMR non-disclosure agreement was forwarded to my attention to review in anticipation of a meeting to take place tomorrow between our companies. I have reviewed the form provided and have numerous comments related to bringing the agreement into the form generally acceptable to Enron. Instead of revising your form, I have provided Enron's standard form to you for review. The general concepts are the same, however, you will note:

1. the attached contained provisions relating to arbitration as the means of settling disputes between the parties 2. the laws of New York are applicable (neutral site to both parties), and 3. there is no requirement of marking information as confidential as this places an undue burden on Enron to police this practice.

Please review the attached at your earliest convenience and let me know your thoughts.

Thanks in advance for your cooperation with this matter.

Can you please review the changes made by Susan Chang at Microsoft to the SQL 2000 SP1 JDP MOU for our Unify application. Bob Ward is out of the office until June 4th, and this application is going into production on June 11th. We need to ensure the MOU is finalized and signed prior to going into production so that we can receive the appropriate support from Microsoft when we go live.

Bob and Corinna, Here are the versions of the MOU your lawyer will need to review. As expected, some of the items just did not make the bar to warrant a change. Specifically: an actual date for the released product will not go on the MOU. Customers who participate in the JDP have a high degree of touch and disclosure with MS. Although we are glad to discuss dates and they draw near with the customer we do not promise anything from the beginning (though this hardly matters now considering the date). The line in #4 that was cut and pasted to #17 has been placed back in #4. This is due to the placement of the topic in #4. The rest of #17, specifically stating that there is NO COST TO THE CUSTOMER has been left in on #17, and I'll probably incorporate this for future use. It is a good addition. #10 on Microsoft's section has been removed. It is clearly rednundant and not necessary. We already say there is absolutely no cost to the customer.

If this is agreeable (I have included the red lined version, so your lawyers can review), the final version with those changes have also been included. Please print, sign and return.

Thanks! JamMo!

Raquel -

Thanks for the message. I will get the letter and Password App. out to you tomorrow. As to the ETA, the reason we do a side letter on the changes is because every user of EnronOnline is required to "click" on the on-line ETA prior to using the system. Accordingly, the process is really this -

- PGW completes the PA and submits it to EnronOnline - Presuming approval of the PA, EnronOnline issues the appropriate password and user id to PGW - PGW signs onto the system using the password and user id - After being asked to change the password, the on-line ETA appears and PGW must "click" to accept in order to use the system

Since the ETA is not agreed to until access is first obtained to the system, if you want to wait to sign the amendment letter, that is fine. Either way, I will have them forwarded.

Please let me know if you should need anything further.

We would like an NDA for the following counterparty:

Agilon Technologies, Inc. Attn: Mr. Paul S. Galant 14180 Dallas Parkway Dallas, TX 75240 gpreston@agilon.com

Nature of business - Enron Net Works L.L.C. is hoping to have Agilon perform Transaction Hub Service functions for EOL. Agilon has software that would fit nicely on top of EOL and help our trading counterparts more easily download and create their own trading reports as a result of their transacting with EOL.

Please email the NDA to me and you can send the hard copy out directly to Mr Galant.

No know legal contact at Agilon yet.

To the best of my knowledge none of the ENA affiliates that I receive agreements from has any agreement with Standard & Poor's. These entities have several agreements with Citibank, but each is transaction specific and with one exception (an agreement with Enron Europe Limited relating to a power project in Turkey) protect only Enron information.

I'm sure you are aware of the agreement that EnronCredit.com has with Credit2B.com.

I was asked to contact you regarding your proposed confidentiality agreement.

As drafted, we think the confidentiality agreement is overly broad, and potentially could limit our ability to speak with and participate in other ECNs. Consequently, I suggest that we create a definition as to what items specifically constitute confidential information, and attach a list of those items as a schedule to the agreement. Using this methodology, we prevent putting ourselves in the position where we need to worry about the broad definition currently contained in your agreement every time we speak with a competing ECN.

If you wish to discuss this matter further, I can be reached at (212) 566-9647.

Rob

Mark,

Thanks again for you quick help on the Totality NDA. No word yet from them.

Below is an NDA from Sabre Corporation, which I received today. As you may know, Sabre is mostly known as a Global Distribution Services company (GDS), chiefly providing an electronic distribution channel for airline seats to travel agents and a growing group of internet purveyors. ENW would like to explore ways to help Sabre possibly create a new ticket distribution platform, which may involve imparting the knowledge and systems we have used in the development of EOL. I would characterize our discussions as exploratory. See Supplement 1 or NDA for Sabre's characterization of undertaking.

My legal-wannabe eye says you may have issues with paragraph 5, 7 and 9. Let me know if I should provide you with anything further. Brenda Crabtree's number is below. I assume she is with Sabre's legal group. They seem fairly intent on using their NDA.

Thanks -John

Thanks for your comments. As to the name, that is taken care of. As to Paragraph 2, I believe the language merely requires that the fact that disclosure of the Confidential Information (CI) has been made, that a review of the CI is underway or that discussions between the parties are underway (including the status of these discussions) are the only things prohibited by this provision. It does not say that the existence of the agreement cannot be disclosed. If there is any particular part that you find objectionable, let's talk about it as this is a provision that is fairly standard for Enron and carries some importance.

John -

In discussing a bit further with our business people the basis for the NDA, I understand it is solely in relation to the disclosure of financial information to Enron for access to EnronOnline. Accordingly, I have inserted the necessary topic for disclosure, redefined "Project" to be "Discussions" and deleted the provisions of Paragraph 19 as to the accuracy and validity of the confidential information. Since Enron will be relying on your financials to make a credit based decision, it makes no sense for the language of Paragraph 19 to be in the agreement.

Please review the attached. If acceptable, please have two originals signed and forward one via fax to my attention. We will arrange for countersignature. The originals should also be forwarded for countersignature and subsequent distribution for file retention.

The best way to do this is by a side letter agreement. That way we do not have to modify the existing document and only need to address the issue with those counterparties that raise it. We can do the side letters from our office. This needs to be coordinated with either me or Tana Jones.

From: Greenberg, Mark Sent: Tuesday, February 20, 2001 2:42 PM To: Thompson, Marla Cc: McCullough, Travis; Taylor, Mark; Jones, Tana Subject: Clickpaper Password App.

Marla -

I appreciate the patience on the Password issue. I realize it has been a while since we first spoke about this point.

I have reviewed the concern about hackers and Enron use of Passwords and the best we can do is insert language into the Password App. similar to that appearing in the attached document (which is the same type of language used in the ETA's). It is intended only to cover the situation where Clickpaper personnel use the password or otherwise access the website, in an unauthorized manner, on behalf of a counterparty. The language does not address the hacker situation as we place the burden in that situation upon the counterparty.

Finally, since the Password App. is a legal, electronic agreement, any amendments or modifications for a counterparty must come through my office or through Tana Jones ((x. 33399). Accordingly, those counterparties who have raised the issue should call either one of us if further action is necessary. We do not actually revise the form agreements, but do provide side letters indicating modifications to the form agreement.

Once again, please accept my apologizes for the delay. Let me know if you should need anything further.

What is Ajilon's full legal name? For instance, Ajilon Technologigies Company or Ajilon Corporation, etc. The legal name is necessary for this document.

We would like an NDA for the following counterparty:

Agilon Technologies, Inc. Attn: Mr. Paul S. Galant 14180 Dallas Parkway Dallas, TX 75240 gpreston@agilon.com

Nature of business - Enron Net Works L.L.C. is hoping to have Agilon perform Transaction Hub Service functions for EOL. Agilon has software that would fit nicely on top of EOL and help our trading counterparts more easily download and create their own trading reports as a result of their transacting with EOL.

Please email the NDA to me and you can send the hard copy out directly to Mr Galant.

No know legal contact at Agilon yet.

Muchas Gracias Herrin Jones!

Mr. Goldsmith -

I have attached below a copy of the updated BETA reflecting the changes you proposed earlier. I have added some language to your proposals, but have kept the intention intact.

The only additional comments that I will make are that Enron will require (a) a confirmatory letter from Natsource LLC that the LC posted by Natsource will be applicable to Natsource-Tullet (in essence a guarantee letter) and (b) if an LC has already been posted, it will need to be modified so that it will reflect the ability of Enron to realize under it for Natsource-Tullet. If no LC has been issued, this latter point will need to be handled in any LC issued.

Please take a look at the attached and let me know if anything further. I will be checking with our personnel to confirm that Natsource LLC does not have to be a signatory to this BETA.

Contact Name:

Sharon Granger sharon.granger@experian.com 450 Gears Road, Suite 130 Houston, TX 77067 281 877 1436

Nature of Discussions:

Several groups within Enron (RAC, Enron Direct North America, Enron Direct Canada, Enron Direct U.K., Enron Credit) use credit scoring information to approve/deny credit to potential counterparties associated with deal flow. D&B, the top source of this information in North America, only covers about 60% of the counterparties in which we have interest. We want to bring Experian data into the credit process to get North American coverage up >90%. It is possible that will want to use Experian to support Canada, UK, Spain and Netherlands markets as well. As we get into discussion with Experian, we will need to reveal details about RAC, EES, EC, our systems, marketing plans, target acceptance rates, etc. They will need to reveal limitations relating to coverage, interfaces, data structure, etc. It is the coverage of these discussions I am seeking.

Jeannine -

I have have been asked to work with you directly on completing a non-disclosure agreement between Experian and Enron Credit, Inc.

As you can see from the below message, I have been provided with your Addendum to the Confidentiality Agreement. Based upon this document, I have made the appropriate changes to the original agreement forwarded so that all terms are contained in one agreement. I have attached a redlined version of the agreement below for your review.

I have not incorporated portions of your suggested changes to Paragraph 1 (a portion of the last sentence) or Paragraph 8 (now 18)(the lenght of the confidentiality obligations). Otherwise, all modifications have been incorporated.

Please review the attached at your convenience and let me know your thoughts. If this draft meets with your approval, please let me know and I will forward originals for Experian's signature.

Hi Tana

I am putting on the Financial Trading Agreements database ISDAs that are currently under negotiation and have a couple of questions (sorry Matt is away today).

Where the Credit Contact is not listed under the arrows how do I add a new one? I have the same problem with an Enron entity - EFET LLC is not on there.

Hope you are surviving OK over there.

Branches: only relates to those branches of a multibranch party, which under ISDA can ONLY be a bank.

Restrictions: Things put in the restrictions column should be those things so critical to trading, payment/settlement or contract formation that you should not enter into a trade unless you read it. It is not a place to dump general legal negotiation stuff. Examples would be: "masters limited to natural gas or crude oil trading only", "no payment netting between energy commodity and interest rate and currency transactions", "no oral trades allowed", "only the treasurer can enter to trades for the company", "all agreements for this counterparty require two signatures". You can do a sort on the PENDING SWAP UPDATE - EXECUTED, which will then show you all the restrictions, then scroll down and look at the type of restrictions entered into for the different companies to get a flavor for these types of restrictions. But we don't want to junk it up with general legal negotiation stuff. Just critical, DON'T TRADE UNLESS YOU LOOK AT THIS STUFF.

Hi Tana

I am entering my first ISDA on the database and have a couple of questions and because the database is your baby I thought it best to ask you.

Branches: does that mean Enron branches and/or counterparty branches? Restrictions: does that mean whether we have included for example FX and Currency provisions?

Kind regards, Anna Fox Enron Ph. +4420 778 36403 Fax. +4420 778 31850

Please forward to Louise as I did not have her email address. Thank you.

Further to documents previously submitted, please note:

TAX: Regarding tax provision with HQUS set forth in the ISDA, our tax department does require the representation in our US to US masters. Please have your tax attorney discuss this with our tax attorney, Morris Clark at 713 853-5846. Further, upon review of our tax comments as to the guaranty, I have been advised by our tax department that the FORM W 8BEN will not be necessary, therefore, the one sentence paragraph in my comments immediately following Specified Jurisdiction should be deleted.

OPINIONS: As I referenced in our conversation today, in respect of the HQ opinion, the definitional structure is intended to cover the Guaranty and the ISDA to the extent ISDA representations concern HQ as Guarantor and joining the ISDA for effecting such specific representations. In connection with the Guaranty, it is intended that the opinion cover the Guaranty as it relates to supporting the particular types of underlying obligations to be entered into by HQUS and ENA, which we understand to be both hedge derivatives and speculative derivatives for up to multiple years.

BOARD MINUTES: My reading of the resolutions submitted suggests that HQ guaranties for financial derivative transactions are not affirmatively authorized thereby. Are there other resolutions?

We are all available for call at 10 your time on Monday.

Lara,

We are finalizing a Broker Client deal with the referenced companies. We are giving them access to European Gas, European Power, European Weather, European Bandwidth, European Coal and Brent Crude. Is it appropriate to use the following as the exhibit for this transaction?

UK and European Gas UK and European Power [McKinney, Lara] - In this case 'European Power' does NOT include Nordic Power? European Coal [McKinney, Lara] - Do you mean ONLY European Coal and do not want to include US as well? European Weather [McKinney, Lara] In this case 'European Weather' does NOT included Nordic Weather? European Bandwidth [McKinney, Lara] There is an initiative to launch Asian Bandwidth products. This is a ways from launch yet, but do you want it included? Brent Crude [McKinney, Lara] This one is pretty broad - since you have not listed a country, can I assume that you mean US, UK, and Asian Brent products?

Tana -

Please see the below NDA request.

This is in relation to the Letter of Interest I put in your box this am. Basically, ENW is going to team with a consulting company to provide a pipeline portfolio management solution to CMS Panhandle Pipeline Companies. This proposal will involve some work with ETS and, therefore, both groups want to be covered under one NDA. It needs to be bilateral as CMS will be disclosing information to us also.

I will get particulars from Stephen about CMS and have you copied on the information.

Mark,

Thanks for agreeing to help prepare this NDA. As we discussed on the phone, our team is now in a position to begin detailed negotiations with CMS for a systems solution project (CMS Energy - Panhandle Pipe Line Companies). As a part of the negotiations we will need to disclose some detailed information about ETS systems.

Steve Hotte (CIO of ETS) and our team agreed that we should to execute an NDA that covers both ENW and ETS and gave me Drew's name as their legal council.

The contact name at CMS should be:

Cynthia C. Albert Vice President, Regulatory Affairs and Information Systems 5444 Westheimer Road Houston, TX 77210-4967

713-989-7334 tsmehta@cmsenergy.com

On the Enron side, I would use

David Berberian for ENW Steve Hotte for ETS

for signatories.

I hope this is sufficient information to prepare one or two NDA's whichever is appropriate.

Sincerely, Steve Abbanat

Tana,

Brad Flinn and I spoke re. the credit terms for Bellingham. I have agreed to increase the cp's collateral threshold level from \$500,000 to \$750,000 as well as the third-party cross-default from \$500,000 to \$750,000. Brad was going to check w/his attorney, at which time, somebody will contact you to let you know whether they've agreed to the \$750,000 for both. They may come back and just ask for the \$750,000 increase to the collateral threshold and keep the \$500,000 for the cross-default. Either way, I'm fine with this.

Thanks for your follow up.

Tracy

Mr. Goldsmith -

I have attached below a copy of the updated BETA reflecting the changes you proposed earlier. I have added some language to your proposals, but have kept the intention intact.

The only additional comments that I will make are that Enron will require (a) a confirmatory letter from Natsource LLC that the LC posted by Natsource will be applicable to Natsource-Tullet (in essence a guarantee letter) and (b) if an LC has already been posted, it will need to be modified so that it will reflect the ability of Enron to realize under it for Natsource-Tullet. If no LC has been issued, this latter point will need to be handled in any LC issued.

Please take a look at the attached and let me know if anything further. I will be checking with our personnel to confirm that Natsource LLC does not have to be a signatory to this BETA.

Andy had mentioned to me that he would probably be signing the confidentiality agreement before it goes out, so I presumed that thats the case . This is the first time I'm working on a project like this so I'm not fully familiar with the process and would appreciate your help. If you think the first draft that needs to be sent out doesn't require any signature lets go with that. Thanks a lot.

Why do we want Andy to sign the draft going out? If it's not a rush, it makes us look heavy handed to send a signed document, giving a tone like "this is not negotiable!".

Hi Tana,

To answer your questions

1. The companys full name is NatSource LLC 2. I'm not sure but it should be exactly the same as what we sent to True Quote, Houston Street and Espeed. 3. The project is for posting EOL prices on NatSources Electronic Trading Platform. 4. The companys address is Nat Source LLC 140 Broadway 30th Floor, New York NY 10005 It should be sent to the attention of Jack Hogan (Tel 212-232-5335, fax-212-232-5354) Their General Counsel is Andrew O Connor (tel 212-286-1234). Andy Zipper will sign the document before it is sent. 5. Its not a rush we're just starting to talk to them.

I hope this gives you all the information you need. Thanks a lot.

The directions to my house are as follows:

1. Take 59 to the Greenbriar exit (like you are going to Church)
2. Make a right on Greenbriar
3. Quickly get into the left lane because you will have to make the first left possible onto a street called Milford
4. Then, make a left onto Shepherd (you need to go back one street in the opposite direction)
5. The first right will be Banks Street (it is the street right next to the 59 freeway)
6. On Banks, go past the first stop sign, I will be the 3 or 4th house on the left, a taupe colored, ivy covered cottage, 1920 Banks
7. My phone number is (713) 529-1038

I have have been asked to work with you directly on completing a non-disclosure agreement between Experian and Enron Credit, Inc.

As you can see from the below message, I have been provided with your Addendum to the Confidentiality Agreement. Based upon this document, I have made the appropriate changes to the original agreement forwarded so that all terms are contained in one agreement. I have attached a redlined version of the agreement below for your review.

I have not incorporated portions of your suggested changes to Paragraph 1 (a portion of the last sentence) or Paragraph 8 (now 18)(the lenght of the confidentiality obligations). Otherwise, all modifications have been incorporated.

Please review the attached at your convenience and let me know your thoughts. If this draft meets with your approval, please let me know and I will forward originals for Experian's signature.

Kathryn -

In accordance with our discussion, attached you will find a blacklined and clean version of the Beta Agreement between your client and Enron. I have made the revisions based upon the original document forwarded and have incorporate those of the changes we discussed. The only item that I changed that was not discussed was the addition of the words "TO THE OTHER PARTY" in the fourth line of Paragraph 6B. These words were inserted as it is only between the parties that the waiver is effective.

If these changes meet with your approval, please have the agreement reviewed by your appropriate business personnel. If acceptable at that level, please have two originals of the agreement signed and dated. Once completed, a fax of a signed document should be forwarded to my attention (at the below fax number). I will ensure it is countersigned by Enron and faxed back to your attention. The originals should be forwarded for completion by Enron and, once completed, one fully signed original will be forwarded back to your attention.

I appreciate your cooperation with this matter. Please do not hesitate to call me if you should need anything further.

Per the attached memo from Mary Cook, an attorney in the Swap Group, and our meeting with members of Global Counterparty where we discussed problems with utilities of cities not being clearly identified, may I suggest the we rename GPP 98029, Norwich Public Utilities, something like, The City of Norwich, Connecticut?(which state?), by and through its Public Utilities Department. (The city utilities are at the bottom of the list.)

Stephanie, we will also need them to resubmit their PA. Cheryl, we may need to confirm how we want to set this counterparty up before Stephanie send out the PA.

Lisa,

Please give Amerex Power read access to North American emissions products. Once we get an amendment we will open up for transact status.

Mark/Tana,

Can you draft an amendment to the fee agreement to allow transact status on NA emissions. I would like to reserve the right to pull it back if we want to as they are not paying any incremental fee.

There is no broker fee. The broker is not part of the deal and does not pay the book. The company on the other side of broker is who you are matched with and who pays. You will not have to do anything. You would simply see the brokers name with the counterparty if they initiated the transaction.

Bob, If there is no broker fee involved on an online transaction and they pay the book direct then we'll give them access. Let me know what needs done, Trevor -----Original Message----- From: Shults, Bob Sent: Wednesday, October 24, 2001 10:18 AM To: Woods, Trevor Subject: RE: Emissions Broker

Trevor, This would not mean that you need to take a call from them only that they can electronically transact for a customer based upon your bid/offer on EnronOnline. They have a system that shows your EnronOnline numbers and if they have a counterparty willing to transact at those numbers they can initiate the transaction by clicking on the Broker Client system. You would simply see that Amerex had initiated a trade for a particular counterparty on your EnronOnline Stack Manager. If the transaction failed you would see that Amerex tried to do a deal for a customer. If a transaction is completed you pay no brokerage fee for the electronic introduction. I believe this is just incremental exposure of your bid offer. Let me know.

Trevor,

Amerex currently has access to many of our commodities on an application called Broker Client. This allows them to enter into a transaction on behalf of a counterparty. The deal is done as if it is a telephone brokerage deal. Amerex is entering the Emissions space again and requested that we give them access to our emissions products also. If they have access and do a trade for their customer we would not have to pay any brokerage on the deal. Are you willing to let them view and transact for others on the emissions products?

Tana,

Per my message to you on Friday, Frank and I are planning on working through this tomorrow. It may be a good idea if you can join us as you are familiar with this type of request. In addition, the transactions they provided in the Exhibit do not have transaction numbers, I am going to need these transaction numbers to understand the exposure. If they can not provide the transaction numbers, then is it possible for the Confirm group to provide the active transactions we have with Fletcher so I can cross reference them with the exposure we show in our credit system, and tie them back to the transaction detail they have provided.

Thanks Russell

Tana:

This email is just a follow-up on the telephone message that I left for you earlier today. As I explained, our firm (Chamberlain Hrdlicka) represents Apache Corporation and I will be replacing Saul Laureles in concluding our work related to the assignment of certain natural gas price swaps from Fletcher Challenge Industries Limited ("Fletcher Challenge") to Shell Overseas Holdings Limited ("Shell"), and the reassignment from Shell to Apache Corporation. My contact information is as follows:

Robert J. Viguet, Jr. ("Bert") Chamberlain, Hrdlicka, White Williams & Martin 1200 Smith Street, Suite 1400 Houston, Texas 77056 Telephone: 713-654-9693 FAX: 713-658-2553 rviguet@chamberlainlaw.com

You should have received a letter from Saul Laureles dated February 6, 2001 via overnight courier requesting that your firm confirm certain facts related to the swaps to be assigned as described above. We are looking for a written response to that inquiry at your earliest opportunity. If there are any errors or other discrepancies in the list of swap transactions or other matters identified in the letter, we need to know as soon as possible so that there will be time to resolve those issues before the assignments are made.

This firm (Chamberlain Hrdlicka) has prepared a draft of the Assignment and Assumption Agreements for the transfer of the swaps from Fletcher Challenge to Shell and from Shell to Apache Corporation. Our draft of the assignment forms is being reviewed by attorneys for Shell now, but should be available for your review in a few days. The acquisition of assets of Fletcher Challenge Energy by Shell and Apache, and the related assignments of the swap transactions, is expected to closes in early March.

If you have any questions or comments concerning the proposed transactions, please don't hesitate to contact me. I look forward to working with you.

Steve, It was good speaking with you this morning. I would like to cover a few housekeeper issues and to plan for our next meeting and the EnronOnLine (EOL) demonstration. Non-Disclosure Agreement The demonstration will show you how the Market Manager programs work, the different behind-the-scenes administrative and data modules, and the screens a trader would use to load and trade on the system. In order to show these proprietary functions and screens, my management is requiring third parties to sign a confidentiality agreement. I have attached this agreement. Please have your legal team review it and direct questions to Tana Jones, paralegal, at 713-853-3399 or Mark Greenberg, legal counsel, at 713-345-8897.

Suggested Day and Time for the Meeting & Demonstration How is November 1st or 2nd ? What days are good for you and your team?

Format of the Demonstration We can provide various ways to demonstrate EOL and its applications. The simplest way may be for HETCO to provide us with one or two desktops or laptops in order to view a remote, internet, demonstration from Houston, which would also feature an open phone line to my demo-team in Houston. In this way, HETCO and Enron get a live demonstration of the EOL system, but avoid the IT headaches of opening up the necessary internet port and setting aside the required IP addresses, which are necessary if Enron were to bring its own laptops and projectors. I can work with someone from your IT department to work out these details. Thanks again for this opportunity. Please reply or call me with any questions. I look forward to our next meeting.

Re: World Series in Question

Sender	tana.jones@enron.com
Recipients	['I', 'kyle.jones@radianz.com']

It was good to hear from you!

We had a nice Thanksgiving here too. It's funny, because usually it's just me, Mom, Craig and Danelia, and Danelia doesn't really like roasted turkey or roast beef (not that she would say it to me!), so there is not just the same joy in cooking it would be elsewhere.

It was good having the girls down. We played a new version of Uno called "African Uno" that was complex, fast and at times, physically challenging. It's not for the meek. It was incredible what a good player Alena was. She had her cards memorized as well as everyone elses (when you play you'll see why you can know everyone elses hands!).

I expect Craig didn't want Mom to see his place because it was messy. I think compared to my house, he's embarrassed about his apartment. Then, also, he's got so much stuff in there right now, that I don't know how he's going to fit baby stuff. They would only give him a 6 month lease when he renewed his lease last month because they don't want 3 people in that small apartment. So he's going to have to start looking for another place. And his apartment is so run down down I'm afraid roaches might be crawling over the baby.

I guess Mom is going to come back down sometime in March or April to see the new baby. You'll have to come visit to check out my new house. The upstairs "guest suite" is pretty neat. It's got its own bathroom and tv, and is pretty cozy.

As far as the call with Uncle Ben goes, if he was thrilled to hear from me I couldn't tell by his voice. It was a pretty stilted conversation for both of us. But, I guess, it's a start...

I've already made my XMAS plans. I leave the evening of the 21st, my flight comes in about 10 pm, and leave the morning of the 27th at 6 am.

It's good chatting with you. Keep in touch!

I think it may be possible that we have existing NDAs in place with the referenced counterparty. The nature of our discussions that I am currently preparing an NDA for is the possible access to and use of a web-based transactions-support system for online and offline commodity trade (including derivative products).

Tom -

Attached are revised and clean versions of the Beta Agreement for Coral. I placed a call to Coral to confirm that I have the proper entity listed, but have not yet heard from Ms. Reynaud.

Also, in making the revisions, you will note that I have kept the concept of the Electronic Agreements. This has been retained so that it is clear, as stated in Paragraph 1 (to which Coral had no objections), that any use of a production version of the system will be subject to "Electronic Agreements." The BETA does not tie to these documents anymore, which is the point I believe Coral had.

Please take a look over the attached. If you should have any questions or need anything further, please let me know.

David -

In the interest of time, I have provided below the final agreement between Clickpaper.com and Forestweb for the streaming of news/information to Clickpaper.com and the microsite. As you will note, all references to EOL have been removed as it was determined internally that there was no need for EOL to be a party to this agreement.

If you could, please print two originals of the attached, have them signed by an authorized officer of Forestweb and forward them to my attention. I will ensure counter-signature by Clickpaper.com and will, thereafter, forward one fully signed original to your attention for Forestweb's files.

Please let me know if there is anything further that you should need.

Thanks for your cooperation.

Below is a revised version and clean version of the agreement. These incorporate the changes we just discussed.

If these changes meet with your approval, please have the agreement reviewed by your appropriate business personnel. If acceptable at that level, please have two originals of the agreement signed and dated. Once completed, a fax of a signed document should be forwarded to my attention (at the below fax number). I will ensure it is countersigned by Enron and faxed back to your attention. The originals should be forwarded for completion by Enron and, once completed, one fully signed original will be forwarded back to your attention.

I appreciate your cooperation with this matter. Please do not hesitate to call me if you should need anything further.

This morning after I left home, my son Joshua had a fever convulsion and passed out. Zane called 911 and believing Josh wasn't breathing, gave him mouth to mouth until his breathing stabilized. Josh is okay now, but he has a severe inner ear infection. The emt's sent Zane to our pediatricians office, where they immediately examined Josh and did blood work. His white blood count is extremely elevated, which apparently is normal after the trauma of a seizure after such a fever spike. They are home now, but my husband is quite shaken and so am I. I'm not really up to discussing this today.

To make a long story short, I plan to catch the 2:30 p.m. bus home today. I will be back in tomorrow at 7:00 a.m. and at full speed. I apologize for any inconvenience this may cause.

Dan -

As a follow-up to our conversation this morning with Geoffery Chinn, I have made revisions to the TFS documents and have attached the revised versions below. The only area I did not address was the "reasonable" insertions Geoffery wanted in Paragraph 2(c) of the BETA. While I have no problem being "reasonable" with the procedures, I believe we need to keep our right to modify the terms and conditions of access and utilization as we see fit. Given that changes to the system affect a tremendous amount of users, I am sure we will be reasonable, but I do not want TFS to be the yardstick measure of our reasonableness.

Take a look at the attached when you have a chance and let's discuss any comments or questions you may have. I will be out of the office tomorrow, but will catch up to you on Tuesday if we do not talk today.

As you are aware a "safety net" type of provision has been included in the master netting agreement to attempt to convert any underlying master agreement one way payment provision to a two way payment provision. However, this is only a safety net and should not be relied upon. It may not cover every particular definitional/form structure in an underlying master agreement. Please be sure to review the underlying master. It is probably always best to draft a contract specific amendment to convert to 2way payment since this is a critical issue to effect properly the closeout netting and setoff provisions of the master netting agreement. The specific amendment can be included in the master netting or accomplished as a separate amendment to the underlying master agreement.

Any questions, call me.

Mr. Goldsmith -

I have attached below a copy of the updated BETA reflecting the changes you proposed earlier. I have added some language to your proposals, but have kept the intention intact.

The only additional comments that I will make are that Enron will require (a) a confirmatory letter from Natsource LLC that the LC posted by Natsource will be applicable to Natsource-Tullet (in essence a guarantee letter) and (b) if an LC has already been posted, it will need to be modified so that it will reflect the ability of Enron to realize under it for Natsource-Tullet. If no LC has been issued, this latter point will need to be handled in any LC issued.

Please take a look at the attached and let me know if anything further. I will be checking with our personnel to confirm that Natsource LLC does not have to be a signatory to this BETA.

Thanks again for spending the time earlier today to review this matter.

Based upon our conversations, I have revised both agreements to reflect the general concepts discussed. Since I take no pride in authorship, if wordsmithing needs to be done that is fine, but I hope I have at least hit the concepts accurately. The attached blacklined documents have incorporated the changes reflected in my draft of 3/29/01. The clean drafts incorporate all changes from prior versions and the changes I made this evening.

Since both Bob and Michael will be reviewing these documents in the morning, it is possible they may have some additional comments. Accordingly, I must reserve the right to propose additional changes - if deemed necessary by either Bob or Michael.

Please review these at your convenience.

I am working on creating a Master ISDA Agreement with HQ Energy Services (U.S.) Inc., to be guaranteed by Hydro Quebec. In my work on this file, Hydro provided us with a form previously executed on the physical side and they also propose to reissue a guaranty to cover both physical and financial matters in an aggregate amount. Question, our Quebec counsel advised that the guaranty, if executed in Quebec, would have to also be in French pursuant to the statute regarding government papers etc. I noticed that the prior guaranty seems only to be in English with no French, and also note that it states that it is governed by NY law. Do you think if it is governed by NY law that the actual papering in French requirement does not then apply to Hydro Quebec as a government entity? Interesting. Please let me hear from both of you. Thanks. Mary

Deutsche Bank recently completed an ISDA with ENA. On the heels of this agreement, they are now working on getting access to EOL for financial trading. They originally provided five pages of comments to the ETA and Password Application, but it was clear from the comments they really did not understand how EOL was presented for use. I provided a letter to them better explaining the way EOL works. They have recently provided additional comments to both documents.

Tana suggested that you may have worked on an ETA with Deutsche Bank for EnronCredit. Accordingly, before I move forward and respond to/negotiate the changes, I wanted to check with you and see if this was accurate and, if so, whether or not you agreed to changes in the document. If so, could you please give me a heads up as to what areas were modified and were big issues.

John Allario forwarded the Sabre comments to the NDA. I have reviewed the latest document and find changes to paragraphs 2, 7 and 12 only. If this is accurate, then my comments are as follows:

1. Paragraph 2 - deletion of residual knowledge - this deletion is unacceptable.
2. Paragraph 7 - deletion of residual knowledge - this deletion is unacceptable.
3. Paragraph 12 - deletion of arbitration - this deletion is acceptable.

As to the residual knowledge concept, this is clearly a concept that Sabre contemplated would be outside of the boundaries of confidentiality. The mere fact that the disclosing party's information is contained within someone's mind should not enable it to be used to the disadvantage of the disclosing party, nor remove it from remaining confidential. The changes made by Enron on 3-20-01 should be reimplemented. If this presents a problem, please have your legal personnel contact me to further explain Sabre's position.

To: Deb Korkmas/HOU/ECT@ECT cc: Subject: Solo Energy & Spinnaker Exploration Company

Hi Deb. Do you know if Solo Energy closed in August? If so, have you received closing docs? I am trying to get the 3rd Quarter Share Verification Report out by early next week, and the DASH for Solo shows that ENA will receive 6.4 million shares of Series C Convertible Preferred Stock. Also, ENA will receive warrants exercisable for 4.5 million shares of Series C Conv. Pref. Do you know if this is in fact what happened? If you have any backup for these shares it would be greatly appreciated. Otherwise, just let me know if you know anything! :-)

Also, do you have Spinnaker Exploration Company closing docs?

Thank you for your help!

Bob -

Consistent with your request, I have made some general revisions to the form BETA. These revisions revolve around the concept approved by Andy whereby Enron is willing to allow the Broker to be absolved of responsibility for a "busted" deal at such time as the Broker has provided Enron with the verification of the Execution required under the agreement and Enron has yet to obtain an actual confirmation (either in writing or by performance) from the Participant/Counterparty.

I have modeled the provisions after the suggestions originally made by Amerex and moved a few of the provisions around in order to accommodate the changes. If these changes are acceptable, I will then embark on preparing amendment documents for the five current customers. Since each of the BETA's for these customers vary a bit from the base form, the amendment documents will have to be customized to address each agreement independently.

Please take a look at the attached and let me know your thoughts.

Ladies - I would like to get a vote on which date would work best for the training class in April. We have a conference room where a PC cart would work nicely for us. The monitor is a large screen for easy viewing. You might want to select 2 dates in case your first choice is taken.

Which of these dates works best: April 9, 11, 12, 13 (Mon, Wed - Fri) ? Also, would 11 AM - 1:30 PM be enough time? Lunch will be provided.

I have approved all the security forms received so far so you should have view access to GCP in plenty of time. Look forward to hearing from you!

Gentlemen -

We are working on a non-disclosure agreement with BEA Systems Inc., a software company. The basis for the NDA is the disclosure to BEA of the EOL software and discussions concerning a possible transaction involving either the purchase or long term license of the software. This possible transaction is in association with an ongoing project by ENW involving the EOL software.

The original NDA provided to BEA contained a unilateral non-solicitation provision. BEA responded with a bilateral provision that sought to reach beyond BEA and ENW. I have provided the attached language to BEA for their review. They have subsequently approved the language.

Basically, the attached is our standard non-solicitation provision, but has, as a caveat, a statement that the non-solicitation is only applicable to BEA and ENW, and not affiliates/subsidiaries or parent companies.

At your convenience, please let me know if the attached is acceptable for the BEA non-disclosure agreement.

If any of you should have any questions, please do not hesitate to call me.

Sorry about that Edmund. The forms have been moved out of the atty.fms bank into their own subdirectory called "Swap Forms" (look it up just like a person's named directory). Let me know whether you can access that database from London. We had London set up to review the atty.fms bank only, I don't know if you can access other subdirectories.

We have made some substantive revisions to the ISDA Schedule and Credit Support Annex, so you might want to take a look. If you can't do a comparewrite from London, let me know and I'll email you the blacklined forms. We've also made changes to the forms of guarantees. They are now located in a document called Guaranty.doc in the Swap Forms/Current Forms directory.

Also, the ISDA definitions have been changed since you've been gone, you may already know that, but just in case...I thought I'd bring it up.

Jake -

The Cargill changes are acceptable except for (1) the deletion of the non-solicitation provisions and (2) the change back to Minnesota law. The non-solicitation provision is a business call and relates to the disclosures being made and individuals involved in the project. If Cargill will have contact with key EOL IT personnel, the non-solicitation should be part of the agreement. As to the change of law, we cannot accept Minnesota and must have New York as this is a neutral forum.

Subject: Re: Outercurve Technologies - Request for EOL NDA

To prepare an NDA for you I will need the following information:

1. The correct legal name of the counterparty 2. Whether the agreement is bilateral (both parties providing confidential information) or one-way (where only Enron is providing confidential information). Our preference is to use the Enron protected party form since it is written more in our favor. 3. The nature and/or use of the information being provided. 4. The address of the counterparty 5. The phone and fax number of the counterparty

Once I have all this I can prepare your NDA in short order.

I want you to know that after a lot of deep thought and pondering of my potential status downgrade, I have resolved myself to pull from deep inside and work to maintain my status. Although my mates in credit have provided some strong competition to remove me from favorite credit status, I am here to tell you that I am committed 150% to remain as your favorite credit person!!!!

Yours Truly, Russell

Now, that being said, my commitment is demonstrated by the submittance of the Sempra Energy Solutions Credit Worksheet.

Thanks again, Russell

Mark.Greenberg@enron.com wrote:

Brenda - John Allario forwarded the Sabre comments to the NDA. I have reviewed the latest document and find changes to paragraphs 2, 7 and 12 only. If this is accurate, then my comments are as follows: 1. Paragraph 2 - deletion of residual knowledge - this deletion is unacceptable. 2. Paragraph 7 - deletion of residual knowledge - this deletion is unacceptable. 3. Paragraph 12 - deletion of arbitration - this deletion is acceptable. As to the residual knowledge concept, this is clearly a concept that Sabre contemplated would be outside of the boundaries of confidentiality. The mere fact that the disclosing party's information is contained within someone's mind should not enable it to be used to the disadvantage of the disclosing party, nor remove it from remaining confidential. The changes made by Enron on 3-20-01 should be reimplemented. If this presents a problem, please have your legal personnel contact me to further explain Sabre's position. I need two non-disclosure agreements before sharing our DocuLogic functional requirements document with an external consulting company with expertise in building document management systems. Can you make these for me, or should I approach IT's contracts department?

Last time I had them made, Enron required (1) official name of company, (2) state of incorporation, (3) principal address of business, (4) name/title of their authorized signatory. Is this still the case?

Steve/Jimmy -

Pursuant to your conversations with Bob and the e-mail messages that have been traded, I have updated and finalized the BETA and Fee Agreement. The changes from the last draft of 3/20 are reflected in the updated draft of 3/22 where in the prior changes have been incorporated and the two items identified below have been addressed. The final documents incorporate the new changes.

The two items that were addressed were:

1. The change in Paragraph 3(e) of the BETA from 48 hours on the LC notice to two (2) business days.
2. In Paragraph 3(f) of the BETA and on Page 2 of the FA, language has been inserted to address the view only status until the LC is delivered to Enron.

Other than these, there were a couple of minor clean-up changes (e.g., inclusion of "Date:" above both of Amerex's signature blanks and deletion of unnecessary spaces between paragraphs).

Presuming all is in order with the attached, please have two originals of both the BETA and FA printed and signed by Amerex. These originals, together with the first installment of the Access Fee, should be forwarded to either me or Bob for counter-signature by Enron. Thereafter, a fully signed original of each document will be delivered to Amerex for its records.

If there are any further questions or comments, please do not hesitate to call me or Bob.

Thanks again for the continued cooperation.

You might want to touch base with David Portz about Green Mountain with whom EPMI has a confidentiality agreement re EPMI's possible provision of a host of services. Since EOL will getting even more information to protect and Green Mountain has specifically asked that no New Power affiliate get any of their information it might be a good idea for EPMI and EOL each to know what the other is contemplating.

Teresa -

The changes reflected are generally acceptable. I cannot, however, agree to the changes made in Paragraphs 8 and 11. In Paragraph 8, the deletion of this information from secured back-up systems could only be deleted in accordance with any existing policy of our company. We cannot pick and choose what is and is not deleted. As to Paragraph 11, since this

agreement is intended to address subjects consistent with the April 6 NDA between our companies, it makes little sense to have two agreements in place. Therefore, the language indicating that this agreement supersedes the prior NDA needs to be retained. Whether or not this is also applicable to AETRS is between the two of you.

I will be in my office in the morning and look forward to speaking with you or your counsel.

On May 4, 2000, a Certificate of Amendment to the Certificate of Limited Partnership of ONEOK Texas Gas Marketing Company, L.P. was filed with the Texas Secretary of State, changing the name of the limited partnership to "ONEOK Energy Marketing and Trading Company, L.P." ("ONEOK LP").
2. On April 27, 2000, a Certificate of Amendment to the Certificate of Incorporation of ONEOK Gas Marketing Company was filed with the Delaware Secretary of State, changing the name of the corporation to "ONEOK Energy Marketing and Trading Company, II" ("ONEOK II").

NOT YET EFFECTIVE ---- BUT FYI

We have Master Agreements in place with each of these entities. We have sent to ONEOK a Transfer and Termination Agreement under which the following will occur once it becomes effective.

1. Oneok II will assign all of its trades and its rights under its Master Agreement to Oneok L.P.
2. The ONEOK LP Master Agreement will be terminated and all trades will be done under the ONEOK II Master Agreement.

In summary, once the Transfer and Termination Agreement becomes effective, all trades will be done with ONEOK LP under the ONEOK II Master Agreement that was assigned to it. Credit Support comes from the parent ONEOK Inc. We will let you know when this becomes effective.

Tana, the products listed below (as I understand) comprise the initial products for the EOL roll-out. Enron principal counterparty for each: ECTRIC Each product is a financially-settled swap (NO OPTIONS)

(1) Coffee swap -- NYBOT reference price (executed by ECTRIC from Houston) (2) Coffee swap -- LIFFE reference price (executed by ECTRIC/EEFT from London) (3) Coffee basis swap -- NYBOT/LIFFE spread (executed by ECTRIC from Houston) (4) Sugar swap -- NYBOT reference price (executed by ECTRIC from Houston) (5) Sugar swap -- LIFFE reference price (executed by ECTRIC/EEFT from London) (6) Sugar basis swap -- NYBOT/LIFFE spread (executed by ECTRIC from Houston) (7) Cocoa swap -- NYBOT reference price (executed by ECTRIC from Houston) (8) Cocoa swap -- LIFFE reference price (executed by ECTRIC/EEFT from London) (9) Cocoa basis swap -- NYBOT/LIFFE spread (executed by ECTRIC from Houston)

I will immediately look into whether there would be special restrictions for swaps on coffee, sugar and cocoa with respect to Australian, Singapore and Hong Kong counterparties (I think these are the three most likely non U.S./European jurisdictions at this point)

Good Afternoon Tana,

StatOil Energy has performed a deal that they would now like reassigned under a new counterparty name - StatOil Energy Services Inc. I explained to Kara Mucha (StatOil contact) that the trades done on EOL were firm and in order to actually have this done, an assignment needed to be drafted by legal etc.

I am forwarding the details on a deal performed on 3/28/00 that needs to be reassigned. Bob Bowen in confirmations explained that we should perform an over the counter trade just exactly the opposite to cancel out the trade and then perform the trade over the counter with the right counterparty name. However in verifying with our Product Control Group, they suggested I forward this information on to you.

Trade Details: 132184 - 03/28/00 09:47:36AM Statoil Energy Trading, Inc. US Gas Phy Index Firm non-TX < or = 1Mo, IF CNG SP April00 Sell volume - 10000 MMBtu USDollars 0.005

Hi!

Thanks for your help. According to Matt Dawson, it looks like a signed ISDA has been executed between ENA and Utilicorp United Inc. in the past. We will also need an ISDA between ECTRIC and Utilicorp United Inc. You mentioned perhaps mirroring the existing ISDA however with the restricted lists I believe you will be to obtain the copy easier than we will. However, if you would like Utilicorp to produce a draft, let me know and I can request that from the woman in the e.mail below.

Please advise and I will pass the information on to Utilicorp.

Cross Border Forms: GTC Omnibus

File	jones-t/notes_inbox/3430.

Jeff, thanks for your work on Bob's draft, however, for form management purposes we are going to continue with our previous style which is to include the crossborder annexes.

1. Attached below is the ENA/US Annex A, which is the base GTC type of document that we utilize with our confirmations when we do not have an ISDA in place (definitions of parties are in the Confirmation). If ENA contracts with a Canadian party we use the Canadian Annex attachment (also attached below) to the Confirmation and Annex A. Where ENA contracts with a foreign counterparty other than Canada, the Canadian Annex may be utilized with additional legal scrubbing concerning the particular jurisdiction. It is for this reason that I think we should continue the more amplified approach rather than targeting it toward just Canada/US.

2. Attached below is the ECC/Canadian Annex A, which is the base GTC type of document that we utilize with our confirmations when we do not have an ISDA in place (definitions of parties are in the Confirmation). If ECC contracts with a US party we use the United States Annex attachment (also attached below) to the Confirmation and Annex A. Where ECC contracts with a foreign counterparty other than US, the United States Annex may be utilized with additional legal scrubbing concerning the particular jurisdiction. It is for this reason that I think we should continue the more amplified approach rather than targeting it toward just Canada/US.

At your convenience, please review the Canadian and United States annexes and advise of any comments. Thanks again.

Note to Paralegals: Please note that the annexes are now under current forms. If you have any questions about how they are to be utilized, please stop by to discuss.

APB Agreements

File	jones-t/all_documents/10570.

Todd/Joe -

Thanks for the time earlier today on this matter. I know that both Bob and I appreciate your attention to these agreement.

Consistent with our conversation, I have made changes to both the Fee Agreement and BETA. I have attached marked versions of these documents reflecting my additional changes (all additions marked in caps and bolded). I have also attached "clean" drafts which incorporate all prior changes and reflect the last set of Enron additions in caps and bold.

On the Fee Agreement, two changes were made that were not discussed, both in relation to the Access Fee. I apologize for not having raised these points, but they were overlooked in my notes. The first of these changes is the deletion of the concept of a partial quarterly payment. The concept behind the Access Fee is that it is an annual fee that is to be collected at the time the Fee Agreement is signed; however, because of our negotiations, we are comfortable allowing the fee to be paid over the year in four equal installments. Accordingly, a partial payment should not occur as we are contemplating a contract running for a full calendar year.

Secondly, the last sentence of the Access Fee paragraph has been modified. It is intended by Enron that any entity who has signed a BETA is subject to paying an Access Fee. No subsidiary of APB should be signing a BETA unless a Fee Agreement has been completed.

Finally, in the interest of time, I am forwarding the attached without first having had Bob review the changes. If any additional changes need to be made based upon his review, I will let you know.

Please take a look at the attached at your earliest convenience and let either me or Bob know what, if any, additional comments or questions you may have.

Once again, thanks for the cooperation on this matter.

Attached is the link that will allow you access to referenced database. Please note, that we have just upgraded the database to add the ISDA definitions, branch offices approved for trading, and market disruption provisions. This information should be inputted for the new master swap agreements on a going forward basis, but we still need to go back and repopulate the data for the existing master swap agreements.

Also, FYI, the "See" drop down is our nickname for the name changes and mergers reference. If an item is filled in for that entity it should show you any prior or new names for the counterparty.

If there is anyone else who would like the link, please let me know and I will forward it to them.

We hope you find the information provided in this database helpful.

Samantha, Tana,

I have attached an amended credit worksheet for the referenced counterparty. This amended worksheet includes a Guaranty from its parent company of \$5MM, thus increasing the collateral threshold to \$5MM, and amending other credit covenants.

Per the Legal Comment in the Master Swap Lotus Notes Database, Tana received a call from the counterparty requesting a 'less complicated' agreement. In the comment, Tana suggested using an Industrial Master, if this agreement is OK from

a Legal standpoint, I am OK using the Industrial from a Credit standpoint.

Please draft this amended credit worksheet to an amended Industrial Master.

Thank you,

Russell

Broker ETA and Fee Agreement

Sender	mark.greenberg@enron.com

File	jones-t/all_documents/10417.

Gentlemen -

Bob has asked me to forward revised versions of the Broker ETA and Fee Agreement for the BrokerClient product. Attached you will find marked versions of these documents.

In making the noted revisions, I have relied upon the revisions forwarded to Bob on 3/21, Bob's notes of your discussions on 3/21 and discussions earlier today that I had with Bob.

A few items to note:

1. Neither the BETA nor the Fee Agreement reflect changes allowing APB to enter into these agreements on behalf of affiliates or to assign these agreements. Since the access and use of the website is intended to be supported by the credit of APB, allowing APB to act on behalf of or to transfer its obligations to an unknown party would result in possible unknown (and possibly unacceptable) credit risk to Enron.
2. The provisions relating to Liquidated Damages are the corner stone of Enron's ability to recover from APB in the event a counterparty/participant fails to honor a deal that APB has executed. In order to have a liquidated damages concept be effective, the calculation of liquidated damages must be reflected in the agreement and not left to negotiation.
3. Currently, the website contemplates that each broker will sign - electronically - the BETA agreement contained online. Since we will be physically signing these agreements, there is no need to refer in the agreements to the online signing. There is, however, the need to address future online BETA agreements (modifications or amendments to current forms) and, accordingly, language surrounding this issue has been placed into the agreements.
4. We have provided for a quarterly payment of the Access Fee. While this is not consistent with the requested monthly payment, it is possible this will be acceptable to sr. management. Currently, this item is subject to final approval by Enron management.

Please take a look at the attached at your convenience. As we would like to move this process along promptly, I understand Bob will contact you tomorrow to further discuss these matters. In the meantime, please feel free to call me with any questions or comments.

Ladies - I would like to get a vote on which date would work best for the training class in April. We have a conference room where a PC cart would work nicely for us. The monitor is a large screen for easy viewing. You might want to select 2 dates in case your first choice is taken.

Which of these dates works best: April 9, 11, 12, 13 (Mon, Wed - Fri) ? Also, would 11 AM - 1:30 PM be enough time? Lunch will be provided.

I have approved all the security forms received so far so you should have view access to GCP in plenty of time. Look forward to hearing from you!

We finally got the information from Mr Hashimota.

Could you please give me a bilateral NDA by late morning or early midafternoon if at all possible? I realize this is a hurry up and wait scenario and I apologize for giving you such a short timeframe but I am working around the client.

We will be discussing the figures for clickpaper and we will ask them information on who they sell too how much etc.

Matthew,

Per our conversation, according to our records the Master Agreement in question is signed with ENA, not ECTRIC. As far as the suggestion of amending the Agreement to cover Oslo trades, I am not sure that would work because it is a Local Jurisdiction Master. However, I would speak with Tana Jones to see if something along those lines can be done.

Please let me know if you need anything else.

Hi Anthony,

Can you do me a favour and take a look into this ISDA. The traders in our Oslo office have done a weather deal with Koch Energy Trading Inc. The counterparty mentioned they had an ISDA in place with ECTRIC. We are trading as ECTRIC. But maybe the CP was confused and thought it was ECTRIC instead of ENA.

The trader here said she plans to do many more future trades with Koch, and has been asking if we can amend the ENA ISDA to cover Oslo.

If you can just confirm what you've got, whats covered etc and if possible send through a copy and I can liaise with Oslo and our legal dept to get them covered.

Thanks

I have attached hereto a copy of our memorandum dated September 20, 1999 which had previously been provided to Mark Taylor setting forth our analysis of Canadian (Alberta/Ontario) legal/regulatory issues concerning the entering into of commodity based OTC products by Enron with counterparties on line through what was then Enron's proposed internet based trading system. The proposed extension of that system to coffee, sugar and cocoa swaps/options does not present any unique issues under Alberta or Ontario laws.

Note that in reviewing the September 20, 1999 memorandum, the Proposed Rule of the Ontario Securities Commission on OTC derivatives (which was not in effect as at the time of that memorandum) was eventually not implemented; accordingly, that part of the discussion regarding the Proposed Rule can be ignored. Moreover, I understand that Ontario has, subsequent to the date of that memorandum, adopted the Uniform Electronic Commerce Act published by the Uniform Law Conference of Canada which is based on the United Nations Model Law on Electronic Commerce and which, in short, gives legal efficacy to electronic documents and contracts. Alberta has not yet adopted such legislation.

I trust this is satisfactory for your purposes. Please contact me should you require anything further. Regards.

<Robert.Bruce@enron.com> 04/19/01 05:36PM >>>

Fred, as a follow-up to our telephone conversation, we would like to launch some new products on EnronOnline -- swaps on coffee, sugar and cocoa (the agricultural "softs"). We would like to know if Canadian law presents any sort of restrictions or other issues with respect to financially settled derivatives on these commodities. We would like an analysis with respect to both swaps and options (however, if timing becomes an issue, we should concentrate on swaps, as our offering of swaps is more imminent).

We are looking at rolling out with nine products -- for each of the three commodities, there will be a calendar-month swap tied to (i) the New York Board of Trade price, (ii) the LIFFE price, and (iii) the spread between the two exchange prices.

We would like the results of your analysis by April 27. Please feel free to call me with any comments or questions you may have. Thank you for your assistance with this -- Bob Bruce

Tana Jones Tana.jones@enron.com Enron

Dear Tana Jones:

The New York Mercantile Exchange is excited and we want to tell you why. NYMEX is about to launch enymexsm and its prospects are invigorating.

Over-the-counter (OTC) participants will now be able to execute transactions on the same platform as NYMEX futures. The Exchange plans to use its proven clearing infrastructure to introduce complete counter-party risk management, and create net margining with Exchange futures markets by calculating a consolidated clearing position. Subsequent enymexsm functionality will also provide an internet-based interface to the established Exchange futures market by routing futures orders to the trading floor and the NYMEX ACCESSc electronic trading system, depending on the session.

Attached please find information announcing the first slate of products to be offered for listing on enymexsm .

Since we value your business as a forerunner in this industry, we are enclosing for your review the sale registration form, which consists of the enymexsm System User Agreement. Please review, sign and return to Robert A. Dagistino, Director of Customer Service, New York Mercantile Exchange, One North End Avenue, New York, N.Y. 10282. Any questions can be answered via email at rdagistino@nymex.com or via telephone at 212-299-2429.

The signatory must be an executive officer or partner of the firm. We are also attaching two "click-on screens" that users will view when they first log on to the system.

Please note that since the enymexsm products will be cleared you will also need to obtain authorization from a clearing member for your account.

A NYMEX team, consisting of members of our Board, local traders and staff, will be visiting each one of you in person. They will discuss with you how to utilize the benefits of NYMEX to achieve precision in many of your customized transactions.

We look forward to receiving your registration and participation in what is intended to be the premier, global exchange for forward trading and clearing contracts focusing on energy and metals products.

Sincerely,

I believe what we sent them was a form document reflecting the changes we proposed to Paragraph 4(e) and others in relation to the liability issue for the collateral (e.g., when that liability ends). If APB is comfortable with the concept, the idea is to do an amendment document that addresses the changes in the applicable paragraphs.

Please confirm acceptance of the changes to the appropriate paragraphs with Chris and then I will work on the necessary amendment document. I do not believe it is necessary to sign another agreement.

Attached is a report listing all Master Contracts or 'Executed' contracts with the counterparty's provided by Bill Hare classified as either "Division" or "Tradenname" within the Global Counterparty ("GCP") Database for ENA Physical Gas & ENA Financial (those Financial agreements in the Financial - North America Global Maintenance Group). Differences in Counterparty names (difference between those in the database & what is listed on the contract or on appropriated contract duplication) are shown in red. This does not necessarily mean that the name is incorrect; the Global Counterparty Group may have additional information or documentation supporting the difference that has not made it into the contract file.

Bill, can someone from your group review these differences & provide documentation where available so that we may complete our contract files?

As I understand it (Bill please verify), according to the business rules built into the GCP Database, those counterparties established as a Division or Tradename must be linked to a CP record classified as "Headquarter". Therefore, these records are included on exposure reports. However, if a counterparty name is a Division or Tradename & classified as "New - Needs DnB" or potentially misclassified as "Headquarter", then the business rules requiring that the record link up to the actual Headquarter entity within the GCP Database do not impact the record set-up (Bill, is this a potential scenario). Furthermore; these records, because they do not link up to a Headquarter & because credit recognizes them as "Division" or "Tradenname", will not be included in any exposure reports (Debbie, is this correct). Thus, this then becomes the potential 'crack' where Enron could have unreported exposure issues. As such, is there a list anywhere of known Divisions or Tradenames that we could cross-reference against the GCP Database?

Please let me know if additional information is needed on the attached report or if there is anything further that I can help with. Thank you, Cyndie

Also, thank you Bridgette Anderson, Anthony Campos, Susan Elledge, Sharon Gonzales, and Marlene Hilliard for all of your help in researching these agreements.

Notice No. 01-42 January 31, 2001

MEMORANDUM

TO: ALL NYMEX AND COMEX MEMBERS

FROM: Neal L. Wolkoff , Executive Vice President

DATE: January 31, 2001

RE: Six-Month Extension of Resolution Governing Price Fluctuation Limits Applicable to Trading on NYMEX ACCESS

On December 12, 2000, the Exchange issued Notice to Members #421, which consisted of a reminder to Members of an Exchange Resolution in effect that concerned Exchange price fluctuation limit rules as those rules apply to trading on NYMEX ACCESS(; That notice stated that the Resolution would continue until February 1, 2001, unless Members were notified otherwise by the Exchange.

The purpose of this Notice is to advise Members that the Exchange has extended this Resolution, which is attached below, for another six months. Thus, this Resolution will continue through August 1, 2001, unless Members are notified otherwise by the Exchange.

If you have any questions, please contact Rick Taibi, Director, NYMEX ACCESS Operations, NYMEX ACCESS Department, at (212) 299-2677; or Brian Regan, Senior Associate General Counsel, at (212) 299-2207.

APPROVED RESOLUTION OF THE EXECUTIVE COMMITTEE OF THE BOARD OF DIRECTORS REGARDING PRICE FLUCTUATION LIMITS FOR EXCHANGE CONTRACTS

The Executive Committee of the Board of Directors hereby

Resolves that, until further notice, the price fluctuation limit rules for each futures contract that is listed for trading on NYMEX ACCESS(r) and that has such applicable rules shall continue in effect except as amended below with regard to market activity occurring on NYMEX ACCESS(r):

The initial and subsequent price fluctuation limits (for each Exchange futures contract that has such limits) shall be expanded to 200% of the initial and subsequent price fluctuation limits applicable to the first two contract months of that

futures contract that have price limits under the applicable rule.

This expanded limit (200% of the limits for the first two months with limits) shall be applicable to all contract months for that futures contract.

In the event that such a price fluctuation limit is reached by a bona fide bid at the high price fluctuation limit or a bona fide offer at the low price fluctuation limit, trading on NYMEX ACCESS(r) shall be halted immediately except as directed otherwise by the President or the President's designee. Following resumption of trading, the price limits in effect shall be 200% of the limits applicable to RTH trading. In the event that a limit is touched during the last 90 minutes of a NYMEX ACCESS(r) session, the market shall be halted briefly, and price limits shall be expanded thereafter

In addition, in the event that a contract trading on NYMEX ACCESS(r) traded for five minutes during the NYMEX ACCESS session at a price fluctuation limit applicable to the Regular Trading Hours session, then the RTH session shall open with expanded price fluctuation limits as provided under the applicable rule, even though no temporary cessation of trading occurred during the NYMEX ACCESS(r) trading session.

(01-184) Reminder on Use of Money Market Funds as Original Margin

Sender	exchangeinfo@nymex.com

Notice # 01-184 May 31, 2001

TO: All NYMEX Division Members and Member Firms

FROM: Neal L. Wolkoff, Executive Vice President

RE: Reminder on Use of Money Market Funds as Original Margin Deposits on the NYMEX Division

DATE: May 31, 2001

This Notice is a reminder regarding certain rule changes and related policy guidelines that will go into effect on June 1, 2001 for the NYMEX Division. The rule changes going into effect on June 1, 2001 on the NYMEX Division allow shares of certain money market mutual funds to be acceptable for purposes of original margin deposits.

Corresponding rule changes for the COMEX Division have also been approved by the NYMEX Board of Directors and filed with the CFTC; the changes for the COMEX Division will be implemented at a later date.

Rule Amendments The amendments generally require that in order to be used for such purpose, a money market fund must be approved by the NYMEX Board and also must comply with CFTC Regulation o 1.25. For purposes of

original margin, the Exchange= =01,s=20 Clearing House will value such money market fund shares at 95% of their=20 market value. In addition, a Clearing Member=01,s participation in any app= roved=20 fund or any group of approved funds offered by the same issuer shall be=20 limited to the greater of \$250,000 or 25% of the Clearing Member=01,s total= =20 original margin obligations. Finally, no more than 25% of the total assets = of=20 an approved money market mutual fund may be used to meet original margin=20 obligations at the Exchange.

Exchange Policy on Money Market Funds The NYMEX Board of Directors also recently adopted three additional=20 guidelines that will be applicable to such funds. First, until further noti= ce=20 from the Exchange, the Board has determined to limit the number of money=20 market funds available for this purpose to ten. Second, the Board will=20 require that henceforth each fund applying for such status must have a=20 minimum value of \$5 billion. Finally, each fund further must provide for= =20 same day payment if notification is made by 3:00 p.m. on that day.

If you have any questions concerning this change, please contact Bernard=20 Purta, Senior Vice President, Regulatory Affairs and Operations, at (212)= =20 299- 2380; Arthur McCoy, Vice President, Financial Surveillance Section,=20 NYMEX Compliance Department, at (212) 299-2928; or Joseph Sanguedolce,=20 Director, Financial Surveillance Section, NYMEX Compliance Department, at= =20 (212) 299-2855.

AMENDMENTS TO NYMEX RULE 9.05 (=01&MARGINS=018)

(Asterisks indicate additions; brackets indicate deletions.)

Rule 9.05. MARGINS

* * * * (E) Clearing Members may meet original margin calls by depositing:

*(4) Shares in a money market mutual fund that complies with CFTC Regulatio= n=20 o1.25 and that has been approved by the Board, subject to the following=20 conditions:

(i) for purposes of original margin, such shares will be valued at 95% of= =20 market value; (ii) a Clearing Member=01,s participation in any approved fund or any group= of=20 approved funds offered by the same issuer shall be limited to the greater o= f=20 \$250,000 or 25% of the Clearing Member=01,s total original margin obligatio= ns; (iii) no more than 25% of the total assets of an approved money market mutu= al=20 fund may be used to meet original margin obligations at the Exchange.*

Susan,

I am working with Joe Hunter to prepare the individual letters to our counterparties for the below detailed project. In order to fill in the blanks in the first paragraph of Carol's template, it is necessary for me to know the appropriate section in each counterparty's Agreement that references the existing confirmation procedures (the "Confirmation Procedures").

Would it be possible for you to provide me with copies of the Master Agreements for each of the following counterparties, so I can fill in the blanks and get these letters out the door:

Bank One (formerly FNB) Bankers Trust Company Barclays Bank PLC The Chase Manhattan Bank Citibank, N.A. Credit Suisse Financial Products Elf Trading S.A J.Aron & Company Paribas Phibro Inc. Royal Bank of Canada

I would be happy to come up and retrieve them as soon as you have them ready. If you have any questions, please give me (3-0443) or Joe (3-3316) a call.

Thanks - we're looking forward to being able to implement this procedure. -Diane

Coast Energy Canada, and Coast Energy Group contract question?

Tana,

Per my voice mail, I received a call from Gregg Thompson with Coast energy Canada, and US. He has several questions regarding the base contract that they have with Enron, and EnronOnline. For example, if their users logged into EOL under Coast Canada, and transacted on an US product, what underlying agreement would be governed? From my conversation with Gregg, I believe that they are trying to figure out what contract applies to what entity, when transacted on EOL. If you could give them a call they would really appreciate it. Thanks for your time.

He can be reached at 281-274-7690 Thanks TARA 34523

John, I've been out of the office for two days and just got in. I take it that Cowlitz PUD is a governmental entity? Our usual sample form does not have the governmental provisions. I would think we would want to send them a sample with those provisions in there, because they would be rather surprised if they got a draft from us at some point and it had all these additional provisions in there. Can you confirm for me that they are a governmental/quasi-governmental? Also, have you requested credit from Credit?

Louise -

I invite you to partner with BrentBroker.com to allow the dissemination of EOL crude & refined product quotes onto our platform. At the moment, it looks as if we are supporting markets that won't compete directly with those announced for True Quote. We are going live within the next week or so and are narrowly focused on the crude physical, crude derivative and refined product derivative markets (we have received our CFTC no-action relief). You may have heard, we are also commission free. Your participation in BrentBroker would be welcomed.

Tana-

We have a few counterparties that have been in the work queue for a while. When you get a chance, would you mind taking a look at the counterparties listed below:

Cascades Inc. Capital Paper Recycling, Inc. Storm Mountain Publishing Company Jeffrey Acquisition Group Nippon Paper Industries Co., Ltd. NLK Consultants Inc. Plateau Forest Products, Inc. Southwest Paper Stock Inc.

We also need to get together and go through the work queue again for a few old counterparties I still see on the list. Give me a call when you get a chance and we can run through that.

Thanks Tana!

Hi Tana--

Rex would like to move forward with the Sun NDA using the exact language as the recent iPlanet NDA, except with "Sun Microsystems, Inc." instead of "iPlanet."

This is because the initial Sun discussions will be only with the business development people and there will be no engineers or software developers in the room, so the residuals clause is OK as Sun likes it.

For now, this new NDA could take the place of any Sun NDA in progress.

Please let me know if you need any more information before sending this out.

Thanks, Mark P.

Input info for the NDA

Legal name of the company: Sun Microsystems, Inc.

Business contact name at the company (who will receive the NDA): John Fowler

Business contact email & phone (& fax, if applicable): john.fowler@sun.com phone 650-336-0945

Company's address: 901 San Antonio Rd. Palo Alto, CA 94303-4900

Nature of discussion: Project Offline

NDA delivery method: Email

Other delivery needed? (hard copy sent by mail, Fedex, fax): No

Legal contact at the company (optional but helpful): ENE legal may already have this.

FROM: Michael Campanelli, Vice President Floor Operations, COMEX Division

RE: Spot Month Procedures on the Eve of First Notice Day

Please be reminded that Thursday, May 31, 2001, is the First Notice Day, for the Gold, Silver, Copper and Aluminum futures delivery month of June 2001 (the new spot month).

On Wednesday, May 30, 2001, the Eve of the First Notice Day, all Brokers and Clearing Members must have a duly authorized, On-Line Trade Entry ("OLTE") system trained representative available until such time as the Exchange deems necessary.

It is imperative that trades involving the Spot Month are processed and cleared properly. Therefore, representatives are expected to make a diligent effort to process all Spot Month trades accurately.

Failure by any Clearing Member or qualified Floor Trader to show due diligence involving Spot Month Trade processing may result in severe disciplinary action by the Exchange.

If you should have any questions, please do not hesitate to contact David Sherman at (212) 299-2061.

Pls. find attached a list of Password Applications we've received for transaction access to EnronOnline. As defined by our business process, we're allowed a MAXIMUM turnaround time of 3 days (including mailing the User ID's) upon receiving the PA. Please keep in mind the sense of urgency regarding the approval process as the Product Control Group gets slammed with requests every day and it will be very difficult to meet our turnaround goals without urgent feedback from you guys.

Also, make sure to submit your feedback in a consolidated format and on the spreadsheet attached below (only one feedback from each group at a time instead of multiple feedbacks from different people). Mark clearly what type of access you are letting the customer have for each product on the matrix so that we may consolidate the information efficiently. Dave Forster or I will be contacting the point people within each group (in the "To" Header for this message) periodically to ensure prompt feedback. As the flow of new customer slows down, the PCG will take over this process once again.

If you recall I told you that this counterparty had originally given us a physical guaranty and you made "a few" changes to include derivative language. They sent us the form back, can you review this a second time to see if you are comfortable with it as it is necessary for a omnibus confirm that is being sent out with required credit language.

I have already noticed some errors in thier format, although I can bring your original makred up version to you as a guide.

Please let me know when you are available.

Notice No: 01-193 June 7, 2001

To: All NYMEX Division Members

From: Donna Talamo, Director Office of the Corporate Secretary

Re: NYMEX BOARD EXTENDS PROPRIETARY FEE REDUCTION PROGRAM

At its meeting on June 6, 2001, the NYMEX Board of Directors determined to= =20 extend the current Proprietary Fee Reduction Program (=01&Program=018) thro= ugh July 31, 2001.

Pursuant to the Program, Member Firms and individuals members who own seats= =20 will have their NYMEX Division fees reduced by 12 cents per round turn (6= =20 cents per trade side).

Individual members who lease their seats, or hold a membership under an ABC= =20 Agreement, will have their NYMEX Division fees reduced by 2.5 cents per rou= nd=20 turn (or 1 ? cents per trade side).

Clearing Members who clear Member Firm trades should adjust their billing= =20 systems accordingly.

Clearing Members clearing floor members=01, accounts should not adjust thei= r=20 billing systems for such individual members. NYMEX issues payments directl= y=20 to individual members based upon their trading activity.

Floor members who execute Type 3 trades are asked to pay special attention = to=20 NYMEX Rule 6.18 (B) (ii), requiring the executing member to report the alph= a=20 code (badge symbol) of the receiving member on PTS.

Should you have any questions regarding this matter, please feel free to=20 contact M. Dawn Lowe or Donna Talamo at (212) 299-2370.

REUTERS TO PROVIDE ITS CUSTOMERS WITH ENRONONLINE REAL-TIME QUOTES

Effective June 4, 2001, Reuters has launched a new EnronOnline Real-Time Quotes service benefiting commodity traders and industry analysts. Subscribers to this service will be able to view bids, offers and midpoints as well as high, low and closing midpoint and change from previous day indications for numerous commodity products available on EnronOnline. Subscribers will be able to integrate EnronOnline Real-Time Quotes with Reuters, news, data and analytical tools to view real-time prices and charts as well as create option models, position reports and other analysis. Initially, the quotes will be available for power, natural gas, crude oil and refined products, metals, bandwidth, coal, seafreight, emission allowances and weather derivatives markets in North America and Europe.

For more information, visit www.reuters.com/enrononlinequotes or call Reuters at 1-800-226-3955. Please forward this e-mail to others who may benefit from this service.

Disclaimer All prices presented by Reuters through the EnronOnline Real-Time Quotes service shall not constitute or be deemed, for any purposes, to be an offer by EnronOnline or Enron to enter into any transaction on those or any other terms, and are not available through or deemed to be an offer within any trading products that may be offered by Reuters in association with the EnronOnline Real-Time Quotes service. Any use of the EnronOnline.com website is expressly subject to the terms and conditions contained within the EnronOnline.com website, including the registration process detailed therein. By presenting this information within the Reuters site, EnronOnline.com is not representing or indicating automatic qualification for access to or use of the EnronOnline.com website for commodity trading.

I look forward to having you all as guests for an evening of Cajun cooking at my home on Saturday, May 19 at 7:00 pm. Some of us (I won't name names!) are hoping we might even have enough time to play a wicked game of African Uno!

Below is the list of the individuals attending the dinner at my home, and attached below are the recipes for the evening. I will provide beer, wine and soft drinks. In addition, I will make a big pot of white rice to go with the Red Beans & Rice, & Shrimp Etouffe.

Please let me know as soon as possible which recipe you would prefer to prepare.

Laura Johnson (1) Charles and Janice Thompson (2) John Hagood (1) Ann Hutson (1) Henry and Alicia Goodrow (2) Beryl and Ray Mack (2) Tana Jones (1)

The directions to my house are as follows:

1. Take 59 to the Greenbriar exit (like you are going to Church) 2. Make a right on Greenbriar 3. Quickly get into the left lane because you will have to make the first left possible onto a street called Milford 4. Then, make a left onto Shepherd (you need to go back one street in the opposite direction) 5. The first right will be Banks Street (it is the street right next to the 59 freeway) 6. On Banks, go past the first stop sign, I will be the 3 or 4th house on the left, a taupe colored, ivy covered cottage, 1920 Banks 7. My phone number is (713) 529-1038

Hi Tana,

We did have it set up in the system without "Inc." but I got a request from the settlements group to add "Inc." to the name. I personally verified it with the counterparty, and changed the record in GCP. Lexis-Nexis shows that it was incorporated in California in 1984 as Pacific Forest Resources, Inc. Yes, please fax the articles to 713 646 5797, so I can get this clarified once and for all.

Thanks,

Unless this is another company or they have changed their name subsequent to the execution of the ISDA Master in 1998, we have an ISDA Master in place with this counterparty and have a copy of their Articles of Incorporation in the file, and there is no "Inc." at the end of this company's name. Earlier this week, we met Tana Jones (Senior Legal Specialist) and Leslie Hansen (Legal Counsel) with ENA (servicing ENW) to discuss the process for executing NDAs. Leslie will serve as in-house legal counsel for EMS while Tana will be the Senior Legal Assistant for all documentation such as NDAs.

There are two general forms that ENW uses for NDAs. The first form is bilateral and used when both parties are disclosing confidential business information. The second is unilateral and more clearly and thoroughly articulates Enron's interests. The second form should be used when Enron is the only party disclosing confidential information.

When you would like to execute an NDA with an outside party, please contact Tana via email (tana.jones@enron.com) and carbon copy myself, providing the following information: 1. Which form you would like to use 2. General description of the confidential information to be shared 3. Counterparty's legal name 4. Counterparty's address 5. Contact name at Counterparty 6. How/where to send NDA and appropriate information (fax or email and number or address).

With respect to the FX, interest rate, S&P and NASDAQ indice trading, as long as your job does not involve trading those products and as long as you do not in your job have access to the trading information (working on the confirmation desk, risk management desk, credit, etc.), you are OK to trade those products. We do not currently trade agricultural commodities, so you are currently not in violation with that product group. As you may be aware, we have acquired a metals company, so you should also not trade any metals.

The Enron trading policy prohibits employees from trading any products the company trades. Please let me know if you are trading any commodities that Enron trades, otherwise you should be OK.

We are in the process of preparing applications for position limit exemption for ENA's NYMEX energy commodities futures trading. These applications require that ENA represent whether its officers, employees, owners, or agents have a power of attorney, control or have a financial interest in any other related commodity future(s) account either individually or acting with another person pursuant to express or implied agreement.

Please direct any responses to my paralegal, Tana Jones, via intercompany email or call her at (713) 853-3399 by the end of business Friday, June 30, 2000 if you have any power of attorney, control or have a financial interest in any commodity futures account (other than an ENA or other trading affiliate account).

IF YOU DO NOT HAVE A COMMODITY FUTURES ACCOUNT, YOU DO NOT NEED TO RESPOND TO THIS REQUEST.

Notice # 01-150 May 4, 2001

TO: All NYMEX Members and Member Firms

FROM: Neal L. Wolkoff, Executive Vice President

RE: Amendments to NYMEX End of Week Post-Close Trading Session Rule

DATE: May 4, 2001

[illegible]

Please be advised that beginning on Friday, May 11, 2001, a number of changes to the NYMEX End of Week post-close trading session rule that were recently approved by the Board will become effective.

Specifically, beginning on Friday, May 11, 2001 and continuing for subsequent Friday post-close sessions (and post-close sessions the day before a mid-week Exchange holiday) the following changes will be in effect:

(1) Contract months eligible for trading in these sessions will be expanded= =20 from the first four to the first 12 consecutive listed contract months.

(2) The sessions will be 5 minutes in duration.

(3) The trading range for these sessions will be expanded by adding the=20 following ticks above (below) the daily high (low) for the applicable contract month (provided that this=20 expanded trading range does not violate the maximum permissible price=20 fluctuation limits then in effect):

Crude Oil 20 ticks Heating Oil 50 ticks Unleaded Gas 50 ticks Natural Gas 50 ticks

If you have any questions concerning these changes, please contact George Henderson, Vice President, NYMEX Floor Department, at (212) 299-2071; Rob Stasi, Manager of Trading Floor Systems, NYMEX Floor Department, at (212) 299-2067, or Brian Regan, Senior Associate General Counsel, at (212) 299-2207.

AMENDMENTS TO NYMEX RULE 6.57(=01&POST-CLOSE TRADING SESSION=018) AND NYMEX RULE 6.57A (=01&END OF WEEK TRADING SESSION=018)

(Asterisks indicate additions; brackets indicate deletions.)

Rule 6.57A. END OF WEEK TRADING SESSION

On the last trading day of the calendar week, and, in any week when an Exchange holiday falls on a Tuesday, Wednesday or Thursday on the trading day preceding such midweek Exchange holiday, there shall be no post-close trading session provided on the trading floor pursuant to Rule 6.57. Instead, on such dates, an end of week trading session (the "End of Week Session") shall commence on the trading floor pursuant to this rule and subsequent to the close. Except as otherwise provided by the President or the President's designee for a particular trade date, such End of Week Session shall commence twenty (20) minutes after the close of trading in all futures contracts and shall continue for a period of [ten (10)] * five (5) * minutes in all energy and metals futures contracts, subject to the following conditions:

(A) Trading during the End of Week Session shall be limited to the first=20 [four] * twelve * listed delivery months;

(B) Trades occurring during the End of Week Session for a particular contract month of a futures contract shall be executed openly and competitively at a price within the daily trading range of the applicable contract month for that futures contract * and as further expanded above the daily high and below the daily low only for the contracts listed below provided however that no such expanded trading range may exceed the price fluctuation limits in effect for the applicable contract as of the end of the RTH session:

Contract Additional Ticks

Crude Oil 20 ticks Natural Gas 50 ticks Unleaded Gasoline 50 ticks Heating Oil 50 ticks *

(C) During the End of Week Session, Floor Members, Floor Brokers and their customers may participate in the same manner as trading occurring during the regular RTH session, except that any order submitted during the RTH session, including but not limited to resting orders such as stop orders, limit orders and good until cancelled (GTC) orders, will be deemed to have expired as of the end of RTH for purposes of this End of Week Session. Accordingly, in the event that a market participant with such an expired order seeks to participate in the End of Week Session, a new order must be submitted.

(D) Prices for trades executed during the End of Week Session shall be reported on public ticker services;

(E) Current market prices and trades executed during the End of Week Session shall not be considered in determining any settlement price; and

(F) Floor Members executing trades during the End of Week Session shall mark a line across their trading cards prior to the entry of an End of Week Session trade.

I will be having about 5-7 other people that I will need added to this database. Should I send these requests back directly to you, or do them through the system as well?

Also, there are two ways of getting edit access through this database. One is for employees of Legal, who can then enter Legal comments, and the other is for employees of Credit, who can then enter Credit comments. Do you see that choice? Is there some way for me to verify which employees of Legal and which employees of Credit have what access? I know that some employees of Credit have Legal access by mistake. Can I get lists of the Legal and Credit breakdowns?

The below language is acceptable; however, I would suggest it be placed as the first sentence of Paragraph 3, if it remains TradeSpark's position that the existing first sentence of this paragraph (beginning with "Except as otherwise provided") is to be deleted. Debbie Brackett and I met this week and reviewed the various Koch Hydrocarbon Company Divisions and have developed the following game plan to resolve the division issue with respect to this counterparty:

The following entities exist in GCP:

1. Koch Hydrocarbon Co. (GCP #36680): We would like this entity to remain OPEN and to be renamed "Koch Industries, Inc., acting through its Koch Hydrocarbon Company Division". 2. Koch Hydrocarbon Company (GCP #57853): We would like all future trading with this entity SUSPENDED. There appears to be one trade under this entity and this trade should be moved to GCP 36680. 3. Koch Hydrocarbons Inc. (GCP #26197): We would like all future trading with this entity SUSPENDED. There appear to be no trades under this entity.

With respect to the current financial trading being done by Koch Industries, Inc. (GCP #126) (not under a master agreement), I spoke to the Legal Department at Koch and we will be entering into a side letter agreement with Koch that will put all financial trades done by Koch Industries, Inc. under the existing ISDA Master Agreement we have with Koch Industries, Inc. acting through its Koch Hydrocarbon Company Division. I will let you all know when such side letter agreement has been executed.

As soon as GCP #36680 has been renamed we can re-submit them to EnronOnline and open them up for trading.

Luanne: Our credit person is fine with revising the MAC language to say taht a MAC would be triggered if either (1) an entity's Credit Support Provider's rating from S&P is below BBB- by S&P or Baa3 by Moody's or (2) if such Credit Support Provider fails to be rated by both S&P and Moody's. Also, in Sections 4.5 and 4.6 of the ISDA Schedule we would like to change the reference to "Goldman Group" to "The Goldman Sachs Group, Inc."

I will have Tana Jones draft an amendment and send it to you. Call me if there are any problems with the above.

Bob -

Thanks for the information and access id's.

As I indicated in my voice mail earlier today, the standard process is to run these deals through one central point and to ensure that a review of all descriptions and information related to each respective product to be traded is undertaken by a Legal Dept. member. As you will note from the list of cc's, I have included legal dept. members involved in the physical power, physical gas and financial products areas. These people will need to review the product definitions/descriptions - if any - on the Tradequote site, as well as any other items associated with these products. Accordingly, each of these individuals also needs a password/user id for due diligence purposes.

I have almost completed my review of the Access Agreement and the other documents on the site (available without a password). I can complete the review process only after Brent, Dan and Shari have completed their on-line product reviews and provided any comments.

We can further discuss this at 3:30.

I'm in agreement with Tana's message below. I understand that the Trader / Requester applied to EOL as International Paper Corporation, however, after further investigation, DnB supports that the location of this company is actually a Branch location of International Paper Company, CP/ID 1836 - - already an EOL counterparty.

Please confirm and advise.

Please contact Bernice Rodriguez if an inactivation of this Branch record is in order.

Bernice, if an inactivation occurs, would you adjust the spreadsheet above on the O: drive and resend it to our EOL distribution as an EOL 03-07-01 Amendment.

Dear Carol

Under Bermuda law, there is no real concept of "perfecting" security since it is not necessary to ensure the enforceability in Bermuda that a charge be registered in Bermuda. However, although it is not necessary for a security interest to be registered in order for it to be valid, the charge document itself can be registered in Bermuda in the Register of Charges in accordance with Section 55 of the Companies Act 1981 in order to ensure the priority in Bermuda of the charge. On registration, any charge evidenced in the charging document will have priority over any unregistered competing charge or any subsequently registered competing charge in respect of the assets which are the subject of the charge (i.e. the cash).

If the agreement will be governed by either Texas or New York law, it will be a matter of the laws of either Texas or New York as to the actual nature of the security interest which is created by the charge.

If you would like us to effect the registration of the charge, we would need an original (or a certified true copy) of the executed document which creates the security interest. There is no time limit on such registration. However, please note that, in addition to our professional fees, there is a filing fee of \$446 which is payable in respect of the registration.

I trust that the above is of some assistance. If you have any questions please do not hesitate to contact me.

Kind regards.

Chris Garrod

Also, there are two ways of getting edit access through this database. One is for employees of Legal, who can then enter Legal comments, and the other is for employees of Credit, who can then enter Credit comments. Do you see that choice? Is there some way for me to verify which employees of Legal and which employees of Credit have what access? I know that some employees of Credit have Legal access by mistake. Jennifer -

I sincerely apologize to you for my delay in responding. I had honestly thought I had done so, but guess I was wrong.

I have reviewed the comments you made to the agreement and have the following comments:

1. Paragraph 1 - First insertion of "or those of its affiliates" - this is acceptable.
2. Paragraph 2 - Second insertion of "or its affiliates" - Since the term "Company" is not a defined term and, as a defined term, is not used elsewhere in the agreement, I would proposed that the provision where this word appears be redrafted to state --

"Without limiting the generality of the foregoing, each such Representative must be specifically informed that he/she can use the Confidential Information solely in his/her capacity as a Representative of the Protected Party."

3. Paragraph 10 - The change to this area for New York law is fine.

Presuming the change in Paragraph 2 is acceptable, I will have the final documents prepared, signed and forwarded for signature to your attention.

I have reviewed your standard form NDA and have noted two minor comments thereon. I have suggested the State of New York as a more neutral jurisdiction and one that is widely used in commerical transactions, rather than the State of Texas. The other comments are self explanatory.

Mark, thank you. We would request that in Paragraph 3 the "Except as otherwise provided" language be deleted and the language below be added in replacement.

"The parties acknowledge and understand that this agreement does not limit or restrict the ability of either party to engage in its respective business, nor does it limit either party's use or application of any information or knowledge acquired independently of the other without breach of this agreement in the course of such business.

Is this acceptable?

Stephen -

The below language is acceptable; however, I would suggest it be placed as the first sentence of Paragraph 3, if it remains TradeSpark's position that the existing first sentence of this paragraph (beginning with "Except as otherwise provided") is to be deleted. If the existing first sentence is to remain, the language you propose should be added as the second sentence of paragraph 3.

Please confirm the above and I will move forward on finalizing the agreement.

Thanks for your cooperation.

Stephen -

Since we keep missing each other, I wanted to drop you a note about the comments TradeSpark made to the Enron NDA.

As to the comments:

Paragraph 1 - The changes are acceptable.

Paragraph 3 - The rationale for this deletion needs to be provided. I cannot see why this change was made or is necessary.

Paragraph 5 - This deletion is unacceptable to Enron.

When you get a chance, please call me to further discuss Paragraph 3.

Thanks.

Hi to Everyone,

I did ask about International Paper Corporation when I spoke to International Paper Company's legal department regarding the merger of Champion International w/into International Paper Company. I was told there was no affiliation. I also looked at D&B today (see the Company Lookup below). It shows there is an International Paper Company, a branch, with the same location as the Corporation record, as Sam indicates below. I was unable to find any D&B report or any other company report i/n/o International Paper Corporation. Once I learned there was no affiliation between the Corporation record and the Company record, I mistakenly assumed that it was a separate entity.

It appears that the Corporation record is set up in error. It should be set up as a branch of International Paper Company, or it should be inactivated as a duplicate record.

We contacted International Paper Corp. when they first applied and found that they are related, but they are separate entities from International Paper Company. International Paper Corp. is a division of International Paper Company according to Walter Guidroz's notes in the Access Database. Cheryl, can you contact someone at International Paper Corp. and see what the relationship is for sure? The applicant may be wrong and not sure what or who to talk to over there to get the correct answer.

Hi Karen,

I'm in agreement with Tana's message below. I understand that the Trader / Requester applied to EOL as International Paper Corporation, however, after further investigation, DnB supports that the location of this company is actually a Branch location of International Paper Company, CP/ID 1836 - - already an EOL counterparty.

Please confirm and advise.

Please contact Bernice Rodriguez if an inactivation of this Branch record is in order.

Bernice, if an inactivation occurs, would you adjust the spreadsheet above on the O: drive and resend it to our EOL distribution as an EOL 03-07-01 Amendment.

Thanks !!

Ms. Bannes -

A copy of the AMR non-disclosure agreement was forwarded to my attention to review in anticipation of a meeting to take place tomorrow between our companies. I have reviewed the form provided and have numerous comments related to bringing the agreement into the form generally acceptable to Enron. Instead of revising your form, I have provided Enron's standard form to you for review. The general concepts are the same, however, you will note:

1. the attached contained provisions relating to arbitration as the means of settling disputes between the parties 2. the laws of New York are applicable (neutral site to both parties), and 3. there is no requirement of marking information as confidential as this places an undue burden on Enron to police this practice.

Please review the attached at your earliest convenience and let me know your thoughts.

File	jones-t/inbox/586.

Good morning wine lovers,

I am so excited about the following list of wines that I can hardly contain myself. It appears that all the hard work I am doing to procure the best wines possible is beginning to be recognized by the Wine Spectator. Remember something, though: with reviews like these, the wines listed below are EXTREMELY LIMITED. I suggest calling me ASAP to reserve a few bottles before they are just a memory.

AMAZING NEW ARRIVALS: * Champagne Diebolt-Vallois Brut Blanc de Blanc 1995 (90 points, Spectator) \$61.50 each * Carillon Puligny-Montrachet Champs Canet 1999 (95 points, Spectator) \$109 each * F & L Pillot Chassagne-Montrachet 1998 (90 points, Spectator) \$57.50 each * F & L Pillot Puligny Montrachet Noyers Brets 1998 (91 points, Spectator) \$72.50 each * Zind Humbrecht Gewurztraminer Alsace Herrenweg Turkheim 1999 (90 points, Spectator) \$39.50 each * Zind Humbrecht Pinot D'Alsace 1999 (87 points, Tanzer) \$27.50 each * Zind Humbrecht Riesling Alsace Clos Windsbuhl 1999 (91+ points, Tanzer) \$63 each * Yves Cuilleron Condrieu La Petite Cote Viognier 2000 (89 points, Spectator) \$68.50 each * Domaine Monpertuis Chateaneuf du Pape Tradition 1999 (90-92 points, Tanzer) \$41.50 each Please call me as soon as you decide at 713-524-9144. I will be more than happy to put some of these aside for you. Don't miss out!!!

As for this week's tastings, we have a few seats remaining:

Nora,

I have a call into my business person. I ran what's going on by Mark Taylor (you know, I'm just a paralegal, Mark's a lawyer), and got his permission to exclude the arbitration language from the agreement. So I just wanted to run it by Dave, and then we're home free. Also, I don't know who you had lined up to sign, but Louise Kitchen has strict rules that I have to have someone from her group execute all their documents. Who would you get to sign?

To: Tana Jones/HOU/ECT@ECT cc: Jeff Bartlett/HOU/ECT@ECT, Mark Taylor/HOU/ECT@ECT, Roseann Engeldorf/Corp/Enron@enron Subject: Re: Net Works/Bridge NDA

Update. Bridge has signed and faxed back to us the attached NDA. We have not provided a signed counterpart and will not until we hear back from you. If the attached is not acceptable to Net Works, we can ask Bridge to sign the NDA again with DealBench as the Enron counterparty and you can have Bridge sign the appropriate NDA for Net Works.

I apologize for any inconvenience; we merely were trying to accommodate everyone's goals in a short time frame.

A couple of additional thoughts. The mutual NDA covers Net Works and its wholly-owned subsidiaries (which includes EOL). Equitable relief is more likely than arbitration to be the relief sought for breach of an NDA and equitable relief is covered by attached. We appreciate the need to conform to policy; these thoughts are shared merely in an attempt to help

streamline the process for this transaction. Again, just let us know how you would like to proceed. Regards, NJD

Are you drafting this NDA for us? I have already prepared a draft based off your form, which adds not only Enron Net Works, but also EnronOnline as our counterparty. In addition, we have a company policy that requires that we have arbitration in all of our agreement. Our client over at EnronOnline, Dave Samuels, is sending our form to his customer.

Further to attached, Shmuel advises that Bridge's signed counterpart of attached is being faxed back to us this afternoon. In my physical absence, I have asked Rose to initial for Net Works (Mark, hope this is ok; this is same agreement used for DealBench with changes noted below). Bridge did not return signed its counterpart of DealBench agreement, asking this morning for a mutual NDA which we have accommodated. Jeff suggested that since we had to revise the agreement, we streamline the Net Works effort by making it the Enron counterparty (Net Works and its wholly-owned subsidiaries (including DealBench) are covered by NDA).

Attached is an inactivation of Kinder Morgan Texas Pipeline, L.P., CP ID 93330 and an overlay of Kinder Morgan Texas Pipeline, Inc., CP ID 54292. Per the March 2001 report, this entity converted to a limited liability company. We did not receive any documentation at that time. Ten days later, it converted again to a limited partnership. Per our normal procedures, a new record was created for the limited partnership. The "Inc" record was to be inactivated on 04/02/01. In the meantime, a legal opinion was issued to state that this should be treated as a name change and that an overlay should be done. I have overlayed the "Inc" record with "LP", and the newly created LP record, CP ID 93330 will be inactivated.

As we do with all Tradenames, Divisions, DBAs etc., we create Type 3 records "child records" which we then link to a Type 1 record "legal entity".

If a Trader wants to trade under "Scooby Doo", we can do it and have all exposure roll-up to his legal entity record.

We have duplicate records in the system.

Deutsche Bank Aktiengesellschaft, CP ID 55900, and

Deutsche Bank AG, CP ID 92230

Credit has verified that the correct legal name should be Deutsche Bank, AG. A record in that name was just created in GCP in Feb '01. In order to preserve the history on the old record, and since one name is just an abbreviated form of the other, I will make the correction on the older record, 55900 to change it to "AG" and suspend the newer record, 92230, pending inactivation on 04/01/01. This is not an overlay, so I wanted to provide some explanation in advance.

Please note the overlays. These changes were made in GCP today, with the noted exception. The summary of those changes are on the "Mar 01 Changes" tab (refer to bottom left corner), to see the detail for those entries, see the "Mar 2001" bottom tab.

Shortname changes will be coordinated w/ ERMS IT on Friday, March 16.

Records will be inactivated on April 2, 2001.

Steve Hall and I do not prepare ISDAs. They have to be prepared by the ISDA group in Houston. A former ISDA trading attorney in Houston, Carol St. Claire, recently helped us negotiate a couple of ISDAs with Benton and Franklin PUD's. We should see if she can help us with this one, and if not, it has to go into the ISDA kingdom through a door opened by one Tana Jones. Perhaps they can sort it out and let us know after reading this message. ----cgy

I have reviewed your standard form NDA and have noted two minor comments thereon. I have suggested the State of New York as a more neutral jurisdiction and one that is widely used in commercial transactions, rather than the State of Texas. The other comments are self explanatory.

The below language is acceptable; however, I would suggest it be placed as the first sentence of Paragraph 3, if it remains TradeSpark's position that the existing first sentence of this paragraph (beginning with "Except as otherwise provided") is to be deleted. If the existing first sentence is to remain, the language you propose should be added as the second sentence of paragraph 3.

Please confirm the above and I will move forward on finalizing the agreement.

Paragraph 3 - The rationale for this deletion needs to be provided. I cannot see why this change was made or is necessary.

Paragraph 5 - This deletion is unacceptable to Enron.

Jennifer -

I sincerely apologize to you for my delay in responding. I had honestly thought I had done so, but guess I was wrong.

I have reviewed the comments you made to the agreement and have the following comments:

1. Paragraph 1 - First insertion of "or those of its affiliates" - this is acceptable.
2. Paragraph 2 - Second insertion of "or its affiliates" - Since the term "Company" is not a defined term and, as a defined term, is not used elsewhere in the agreement, I would proposed that the provision where this word appears be redrafted to state --

"Without limiting the generality of the foregoing, each such Representative must be specifically informed that he/she can use the Confidential Information solely in his/her capacity as a Representative of the Protected Party."

3. Paragraph 10 - The change to this area for New York law is fine.

Mark,

I have reviewed your standard form NDA and have noted two minor comments thereon. I have suggested the State of New York as a more neutral jurisdiction and one that is widely used in commercial transactions, rather than the State of Texas. The other comments are self explanatory.

Please contact me should you have any concerns.

Attached please find a revised NDA as per our discussion this morning. I was unable to mark this document or generate a red-line, so unfortunately I'm only able to send you a clean copy. The version attached is the earlier version I sent you with the following changes:

1. Section 2 was revised to delete lenders and to add the last sentence as per your revisions below. 2. Section 5 was revised as per your revisions attached below. 3. Section 6 was revised to clarify that compilations, etc. must contain info of the receiving Party or a third Party in addition to the Confidential Information. 4. Section 10 was revised to provide that confidential information will be protected for 3 years from the Effective Date.

If the revised NDA is acceptable, I will finalize and have it executed and then forwarded as per you instructions for execution by i2.

Gillian, I have reviewed Enroncredit's requested changes to the NDA. Most are fine. In response to some, I have added or changed some language. The only real significant issue that I could see was the length of the protection period. The absolute minimum i2 will agree to is 3 years. Please review my changes in the attached document. I would be happy to discuss any of these and can be reached at the numbers below. Thanks for your help and your consideration. K (See attached file: EnronCredit.com 113000kak.doc)

Hi, I'd like to have these turned around as soon as possible. Leslie, I'd like to meet with you regarding this deal tomorrow morning, Friday 10/20, at 10am. Please advise if this works with your schedule.

I'm suggesting to Exodus that we add language to the Global US & Global UK order forms stating something like "the parties agree to negotiate in good faith the completion of the Master Services Agreement form by December 15, 2000. This order form is not binding until successful execution of the Master Services Agreement." [Leslie, I sent the Master

Services Agreement form to you via Tana earlier this week].

Kara,

I'm enclosing the Siebel Orders that reflect space in the U.S. and the U.K. The quantity is shown in terms of cages which contain 4 racks and 4 20-Amp power circuits per cage. I assumed 92 racks in the US and 12 racks in the UK based on the assumption that a typical customer will take 3 racks at a minimum. I'd like to reiterate that this order does not obligate Enron. The space will be billed as it installs, and I anticipate that we'll blow past our projections!

There is also a line-item for full-time program management on the US order. Like we discussed, it's critical to have this person ramping-up each marketplace and defining the bundles as we go. I'll work through the LOI tomorrow. I'd like to target a signing meeting in Santa Clara for next week while you're team is in town followed by the energy discussion with our execs.

Please let me know if you have any questions. I look forward to Rex's and David's feedback after your meeting in the morning.

Thanks! Andrea

Hydro Quebec is not only a provincial utility, it is owned by the Government of Quebec and its business and affairs will be governed by Quebec civil law (all other jurisdictions in Canada are common law jurisdictions) which is generally foreign to non-Quebec lawyers. Also, unless you are uniquely successful at your negotiations, I expect that HQ will insist on the guarantee being governed by Quebec law. Accordingly, I agree that Quebec counsel should be involved in looking at the guarantee and issues of authority, capacity, execution, delivery, enforceability, etc. In fact a legal opinion may be appropriate.

As to Quebec counsel, I would suggest the following:

1. Andre Vautour @ Desjardins Ducharme Stein Monast in Montreal @ 514.878.5595. Andre acted for us us the Papier Mason transaction and I would recommend him to you. 2. Xeno Martis @ Fasken Martineau DuMoulin in Montreal @ 514.397.7509. Xeno acted for Bank of Nova Scotia on our financing of the Papier Masson transaction and I would also recommend him to you. 3. Fred Erickson at Stikeman Elliott in Calgary (who is well known to Mark T) @ 403.266.9016. Fred is located in Calgary, but he could refer you to someone in his firm's Montreal or Quebec City office. I personally do not know anyone in particular at either Stikeman's Montreal or Quebec City offices.

Let me know if I can be of any assistance or how things turn out.

Regards, Peter.

Tana, the products listed below (as I understand) comprise the initial products for the EOL roll-out. It is unusual that ECTRIC, rather than ENA, will be the Enron party, even with respect to transactions that will be confirmed out of the U.S. This is something Mark and I (as well as tax and credit) have scrubbed at length and approved.

Enron principal counterparty for each: ECTRIC Each product is a financially-settled swap (NO OPTIONS)

(1) Coffee swap -- NYBOT reference price (executed by ECTRIC from Houston) (2) Coffee swap -- LIFFE reference price (executed by ECTRIC/EEFT from London) (3) Coffee basis swap -- NYBOT/LIFFE spread (executed by ECTRIC from Houston) (4) Sugar swap -- NYBOT reference price (executed by ECTRIC from Houston) (5) Sugar swap -- LIFFE reference price (executed by ECTRIC/EEFT from London) (6) Sugar basis swap -- NYBOT/LIFFE spread (executed by ECTRIC from Houston) (7) Cocoa swap -- NYBOT reference price (executed by ECTRIC from Houston) (8) Cocoa swap -- LIFFE reference price (executed by ECTRIC/EEFT from London) (9) Cocoa basis swap -- NYBOT/LIFFE spread (executed by ECTRIC from Houston)

I will immediately look into whether there would be special restrictions for swaps on coffee, sugar and cocoa with respect to Australian, Singapore and Hong Kong counterparties (I think these are the three most likely non U.S./European jurisdictions at this point)

Carol -

Thanks for the update on the review.

As to the language inserted, the words "access" and "entry" relate back to the provisions under (ii) and (iii) of paragraph 5(b) since these are the two subparts that discuss access. The words "action taken or not taken" relate back to the provisions under (iv) as this is where "actions taken or not taken" relate to the Broker. The additional phrase should be couched in these terms since this is what Broker has for responsibilities.

As to the addition of the words "unlawful acts" this is not acceptable to Enron.

"Carol Wilhelm" <wilhelmc@PENNIE.COM> 02/26/2001 11:22 AM

To: Mark.Greenberg@enron.com cc: Subject: Re: Natsource BETA

Mark, I've looked at the revisions to 5(b) and have one comment and one item I inadvertently left out in our conversation on Friday.

First, I like the idea of the defined term "Costs", but I had envisioned that that term would take the place of, rather than be used in addition to, the language "associated with access, entry, or action taken or not taken by Broker". I believe that the "associated with..." language makes the exception appear to apply only to section (iv).

Second, we would like to insert the words "unlawful acts," before the word "negligence" in the new language.

Therefore, we propose that the added clause read as follows:

"unless such Costs arise from the failure of Enron to maintain commercially reasonable security controls for the website or otherwise from the unlawful acts, negligence or intentional misconduct of Enron and its directors, officers, employees, agents or contractors."

Please let me know what you think.

Also, what changes will be in the side letter?

Thanks.

<Mark.Greenberg@enron.com> 02/23 4:32 PM >>>

Carol -

Pursuant to our discussion, attached is an updated draft of the BETA with Enron. I have marked all of the changes we have discussed, including those discussed earlier today, and provided these edits on the final base BETA being used for the website.

As I indicated, the final BETA has been modified from the one originally forwarded to you and Natsource for review. Though we briefly reviewed the global changes, I have provided below a copy of the marked version of the final, website version. This is marked against only changes made to the original Enron version and does not incorporate any Natsource related changes. As you will recall, any changes that will ultimately be made to the BETA will be reflected in a side letter and Natsource will still be required to "accept" the form BETA on the Website.

Please take a look at the attached when you have a chance and let me know if anything further needs to be accomplished.

Thanks.

SERIOUS South American Value Sampler Case & Schedule of Wine

Sender	email@christopherswine.com
Recipients	[]
File	jones-t/inbox/955.

Good morning wine lovers, Some of you may remember the sampler case from several weeks ago that contained a couple of wines from the following producer. The Malbec that was featured generated such a positive response that I decided to try the entire line-up from this highly rated yet small production winery from Argentina. One taste of this group and I knew we had a winner!!! Without letting the importer know just how much I loved these wines, I began to negotiate the prices in hopes of offering a case of 12 to all of you for a price that could not be matched. The final pricing was so good that I bought dozens of cases of each wine. To give you an idea of what I am talking about, the Reservas from this winery normally run about \$18.50 each, while the regular bottlings run in the neighborhood of \$15. The normal case price, therefore would hit a price tag of more than \$200!!! Wait until you see what kind of magic I performed on these fabulous wines:

SERIOUS South American Value Sampler (2 btls each): Finca Flichman Cabernet Mendoza Argentina 1999 (full bodied, concentrated fruit) 87 points Finca Flichman Malbec Mendoza Argentina 1998 (intense color, maximum Malbec expression) 87 points Finca Flichman Syrah Mendoza Argentina 1999 (vigorous raspberry, well structured & tannic) 88 points Finca Flichman Cabernet RESERVA 1997 (numerous awards as one of Argentina's best) 88 points Finca Flichman Malbec RESERVA 1999 (serious complexity, plum, soft tannin, amazing finish) 89 points Finca Flichman Syrah RESERVA 1998 (black in color, spicy, jammy, quite passionate style) 90 points

As I stated above, this case of wine could run over \$200 without my negotiating skills. THIS WEEK ONLY, STEAL A FEW CASES FOR ONLY \$143 PLUS TAX EACH. Buy now, thank me later. Call us soon at 713-524-9144 to be certain that we don't run out. We will be happy to hold your case(s) until you come by. As for the tasting schedule for this week:

THURSDAY, NOVEMBER 15th: Topic: "NOTHING OVER 15 BUCKS!!!" Time: 6-8 PM (Champagne reception at 5:30 PM) We will be tasting through and discussing 8 of the best values in my store! Price per person: \$10 plus tax RESERVATIONS ARE REQUIRED Please contact the store to reserve your seats 713-524-9144 FRIDAY, NOVEMBER 16th: WINE BAR AT CHRISTOPHER'S For all of you who have visited over the past several weeks: Thank you for making this such a fabulous success!!! Steve -

Attached is what I have as the final version of the Agreement. It is a clean copy of the version forwarded to Enron by Brenda reflecting Sabre's changes to Enron's 3-20-01 draft. The only modification I have made is in Section 7 - Term. Since we do not have Supplements attached to the agreement, this provision needed to be revised to reflect a different method of calculating the term. I have provided for termination upon the earlier of (i) 2 years from the effective date or (ii) upon 30 days written notice from one party to the other. In light of the fact that we do not have the Supplements, this seemed to make sense.

Please take a look at the attached and confirm it is acceptable. If so, I plan on initialing an original and forwarding that document to our personnel in the morning for signature. Since they will be meeting with Sabre personnel, I will be faxing it to them at your offices for them to sign and have countersigned by Sabre prior to their meeting. Since I will be in a meeting out of the office tomorrow morning, I will be unable to address any changes. Accordingly, please let me know your thoughts as soon as possible.

Thanks.

This email is in response to my earlier voice mail regarding two NDAs to be sent out today. Here's what I think may be the pertinent information:

Continental Airlines - Cargo 1600 Smith Street Houston, TX 77002 United States Attn: Mr. Ed O'Meara

Eagle Global Logistics 15350 Vickery Dr Houston, TX 77032 Attn: Mr. Stephen J. Carattini

Content might say something about not mentioning any details about talking to Enron about air cargo commoditization with any other company or to the press, etc. until we give them express written permission.

I'm sure I forgot something relevant. Just give me a call at 5-9323.

Karen et al.,

To begin with, I contacted Legal (Tana Jones) in reference to Weyerhaeuser Company listed on the Clickpaper Credit Response 090700, and left her a voicemail message since she was not available. She has not yet responded.

Since then, I have been in contact with Global Counterparty and they have advised me that the CP#11319 Weyerhaeuser Company (the CP reported on Clickpaper 090700) is the parent to CP#81012 Weyerhaeuser Company Limited (the CP that we currently have an executed contract).

Based on similar issues in the past, and supported by Mary Solomonson's agreement with the Legal department, the Global Contracts group will not provide a response until Legal clarifies the issue. Accordingly, we will not include the current Global Contract number given to CP#81012 Weyerhaeuser Company Limited unless and until Legal approves the contract for Weyerhaeuser Company.

I enjoyed our chat a few minutes ago. I am looking forward to working with you and Tana Jones on NDA's.

Here is the NDA that Nortel sent us a week or so ago. At this point, it would probably be best if we worked off their form. I am trying to set up a meeting with them on Wednesday afternoon, October 18, and I will need this NDA executed from our side before that meeting. Please review it and let me know if you have comments or questions.

Thanks for your help. What is Tana's e-mail address? I couldn't find her in the system. I'd like to CC her on our conversations.

Eagle Global Logistics 15350 Vickery Dr Houston, TX 77032 Attn: Mr. Stephen J. Carattini

Content might say something about not mentioning any details about talking to Enron about air cargo commoditization with any other company or to the press, etc. until we give them express written permission.

Hydro Quebec is not only a provincial utility, it is owned by the Government of Quebec and its business and affairs will be governed by Quebec civil law (all other jurisdictions in Canada are common law jurisdictions) which is generally foreign to non-Quebec lawyers. Also, unless you are uniquely successful at your negotiations, I expect that HQ will insist on the guarantee being governed by Quebec law. Accordingly, I agree that Quebec counsel should be involved in looking at the

guarantee and issues of authority, capacity, execution, delivery, enforceability, etc. In fact a legal opinion may be appropriate.

As to Quebec counsel, I would suggest the following:

1. Andre Vautour @ Desjardins Ducharme Stein Monast in Montreal @ 514.878.5595. Andre acted for us us the Papier Mason transaction and I would recommend him to you. 2. Xeno Martis @ Fasken Martineau DuMoulin in Montreal @ 514.397.7509. Xeno acted for Bank of Nova Scotia on our financing of the Papier Masson transaction and I would also recommend him to you. 3. Fred Erickson at Stikeman Elliott in Calgary (who is well known to Mark T) @ 403.266.9016. Fred is located in Calgary, but he could refer you to someone in his firm's Montreal or Quebec City office. I personally do not know anyone in particular at either Stikeman's Montreal or Quebec City offices.

Let me know if I can be of any assistance or how things turn out.

Regards, Peter.

I understand your concern; however, it is possible that we will discuss matters which are not public and which may not become public in relation to the information that will actually appear on your site. The agreement specifically exempts from coverage anything that is within the public domain or becomes public. Therefore, if any portion or all of the information we discuss becomes public, Forestweb does not have to be concerned about confidentiality requirements. From: Jones, Tana Sent: Monday, October 22, 2001 10:23 AM To: Chaney, Craig; Cruver, Brian; Detiveaux, Kim; Jackson, Jacquelyn; Kinneman, Jeff Cc: Greenberg, Mark Subject: Requests for NDAs

In order to expedite getting Non-Disclosure Agreements (Confidentiality Agreements) in place, it would expedite matters if the Enron Credit Inc. followed the following procedures:

1. Send all requests for NDAs by email directly to me, Tana Jones 2. The email should contain the correct legal name of the company and its address 3. I will need a brief description of the nature of the business/project you are discussing with the customer 4. Generally we will send out a bilateral NDA, but there are instances where only Enron is providing confidential information, and we prefer to use that form whenever possible as it is much more favorable to Enron. Please indicate when you think you have such a situation. 5. We have found it most helpful to send the NDAs to the counterparties by email directly from Legal. I have a email letter that states: "At the request of "dealmaker name" I am attaching our proposed form of Non-Disclosure Agreement. If the enclosed meets with your approval, please execute the agreement and return it to me via fax no. (713) 646-3490. I will then have it executed by Enron. If you have any comments or questions please call Mark Greenberg, Senior Counsel, at (713) 345-3397 or me at (713) 853-3399. We look forward to hearing from you." If you prefer, we can email the NDA to you to go out under you cover letter, or send it by fax or UPS. Just let me know and I will do so. Otherwise, I will email it as it speeds things up. 6. Please indicate any special timing concerns (i.e., it needs to go out today, by lunch, we have a meeting Wednesday, whatever). Generally they go out within 1-2 days of receipt of your email.

Upon receipt of this information I will do the conflicts check, prepare the NDA, and log the NDA into the list I keep of the Enron Credit Inc. NDAs. I hope this will make for a smooth process! Thanks for your assistance.

From: Allario, John Sent: Tuesday, October 16, 2001 5:35 PM To: Stephen Semnitz (E-mail) Cc: Mark Vonderheide (E-mail); Robert Silvay (E-mail) Subject: EnronOnLine Demonstration & Meeting

Steve,

It was good speaking with you this morning. I would like to cover a few housekeeper issues and to plan for our next meeting and the EnronOnLine (EOL) demonstration.

Non-Disclosure Agreement

The demonstration will show you how the Market Manager programs work, the different behind-the-scenes administrative and data modules, and the screens a trader would use to load and trade on the system. In order to show these proprietary functions and screens, my management is requiring third parties to sign a confidentiality agreement. I have attached this agreement. Please have your legal team review it and direct questions to Tana Jones, paralegal, at 713-853-3399 or Mark Greenberg, legal counsel, at 713-345-8897.

Suggested Day and Time for the Meeting & Demonstration

How is November 1st or 2nd ? What days are good for you and your team?

Format of the Demonstration

We can provide various ways to demonstrate EOL and its applications. The simplest way may be for HETCO to provide us with one or two desktops or laptops in order to view a remote, internet, demonstration from Houston, which would also feature an open phone line to my demo-team in Houston. In this way, HETCO and Enron get a live demonstration of the EOL system, but avoid the IT headaches of opening up the necessary internet port and setting aside the required IP addresses, which are necessary if Enron were to bring its own laptops and projectors. I can work with someone from your IT department to work out these details.

Thanks again for this opportunity. Please reply or call me with any questions. I look forward to our next meeting.

To all -

If you have not already viewed the TradeSpark website, please do so at your earliest convenience. I am trying to move forward with negotiations on the access agreement and need to be assured that I have all Enron comments prior to doing so. My goal for finalizing the document is Friday of this week.

Thanks for your support and assistance.

Tana,

The Tradespark PC has been installed in EB3858D. I created a local account for all the lawyers to use to login, the userid is tradespark and the password is tradespark. Once they login, they will doubleclick on the tradespark icon on the desktop and will be at the tradespark login window. The userid should already be in place, but if not, it is netnrg3 and the password is espeed. That should get them into the tradespark system. Now, once Tradespark has come out with a version that is W2k compatible, we will install the application on each of their PC's for their convenience. Let me know if you need any further information. As always, I am here to help.

Thanks, Jason

Ed,

Please talk to Tana Jones and see if she can get the ball rolling to finalize the assignment amendment that is on Carol St.Clair's desk. Basically, I spoke with Vangie last week, and we agreed to make the effective date of the assignment JUNE 12, 2000. That's the last issue at hand. Please have Tana (or other legal person) insert the date, get it executed accordingly, and fax a copy of the signature back to Vangie at Merchant. Vangie's number is 410-295-1719. Please ask for her fax number if you don't have it or can't find it. [this assignment is what Christopher Smith worked on with Vangie...it pertains to gas and financial trades]

FYI, last week Vangie forwarded to me the second assignment batch pertaining to power deals. I'll look at this.

Tana,

Before Carol St. Clair left for maternity leave, she was working on the assignment of some financial and gas deals with Christopher Smith (who previously worked in our group). Since Christopher is no longer here and with Carol being out, I'm scrambling to find out who in the financial team is working on this.

I've left Mark Taylor a message since Carol's voice mail forwards all questions to Mark.

Could you let me know if you have any info?

Thx, Tracyh

Subject: Fee Agreement and BETA

I thought it would accelerate the process somewhat if I explained my confusion with the recently received Fee Agreement and Broker Electronic Transaction Agreement. After working for several weeks on the language of the Letter of Intent, it

was discouraging to receive the BETA and the Fee Agreement. The following comments below highlight what I see as the primary commercial areas of difference between the LOI and the draft documentation:

* No commitment by EOL that prices on EOL and the broker website will be the same. * No reference to the fact that credit will be checked simultaneously with Prebon's clicks to trade. * No mention that Prebon Energy has no obligation to transact on the website. * No commitment by EOL to provide access to the website, even if Prebon is restricted from executing transactions on a voice basis. (In fact, the BETA expressly states that access can be denied.) * No commitment by EOL to provide prices continuously during normal business hours. * No mention that Prebon will not have any liability for settlement of a transaction once confirmed by Prebon's customer. * No mention of our ability to provide credit support in another form acceptable to Enron such as a parent guarantee. * No mention of the breakdown in the fee schedule - \$250k for US gas and electricity and \$200K for UK/Electricity and no mention of the additional products. * The LOI limited free brokerage to trades executed via the website.

These are some, but not all, of the business concepts that we discussed and agreed to for the Letter of Intent, that were excluded from the Fee Agreement and BETA.

I would appreciate if you could discuss some of the points I described above. I will be in Houston from Feb 19 until Feb 21 and be back in the office on the 22nd. We could set up a conference call for Feb 22 to discuss these points. I have also spoken with Nanette Crist, and she has agreed to redraft the Fee Agreement and BETA to reflect the Letter of Intent signed between Enron Online and Prebon Energy once we have confirmed our understanding of these points. Nanette will be on vacation next week; however, she feels that she will be able to send you the revision by February 27, 2001. I look forward to speaking with you next week. If you have not yet visited the Wine Bar on Friday, here are some details: We offer 45 wines by the glass to include reds, whites, sparkling wines & after dinner wines, too. Our amazingly talented Chef prepares 5 new menu items each week. In addition to the wines by the glass list, you may choose ANY wine in the store to enjoy with your foods or friends. BEST PART??? Retail prices for all wines, NOT restaurant prices!!! Our wines by the glass range from \$4 to \$15 & Our Chef's specials range from \$10 to \$22. No reservations are needed. Get here early for the best seats. Time: 6-10 PM Friday nights Location: here at Christopher's

YOU HAVE GOT TO CHECK THIS OUT, IT IS A BLAST!!! I have recently re-released some highly rated wines. The following wines were reviewed by Parker in recent issues of his publication, THE WINE ADVOCATE. Scores and availability are listed. Call us as soon as you decide, these will move very fast: Parker on the 1996 wines from Piedmont: "1996 has turned out to be a classic vintage along the lines as such years as 1989, 1978 & 1971. Concentrated, long-lived, majestic wines that are firm and closed in their youth but blossom beautifully with aging are the rule when it comes to 1996 Barbaresco and Barolo." Brovia 1996 Barolo "Ca Mia" single vineyard Barolo \$80 each (6 bottles available)

And, from issue #119 of Parker's Wine Advocate: Abadia Retuerta 1996 Cuvee Palomar (from Spain, a blend of 50% Tempranillo & 50% Cabernet)

92+ points, \$52 each, 9 bottles available Abadia Retuerta 1996 Cuvee Campanario (from Spain, 100% Tempranillo)

93+ points, \$58 each, 3 bottles available Ramirez de Ganuza Rioja Old Vines Unfiltered (from Spain, mostly Tempranillo)

92 points, \$62.50 each, 6 bottles available As a quick note, I would like to add that I have been stashing some very amazing wines in our extremely cold storage area here at Christopher's since I opened. Now that these wines are approaching their optimum drinking windows, I thought it a good time to begin showing them to all of you. Thanks to the ratings by Parker, though, the wines I will be offering on this basis are very limited. So please call me soon if you would like to partake of these well-cellared, highly rated wines. That's it for this week. We look forward to seeing all of you soon. Attached below is a spreadsheet report of Bandwidth contracts in the Global Contracts database. As we agreed, the Bandwidth group either has or will set up new EBS Contract numbers for each of these agreements, provide the new EBS Contract number for EOL Reporting, and provide specific notations and information regarding inactivation of the Global Contracts database records so that we don't have 2 "master" numbers for any given contract.

I do not have edit access to Bandwidth contract records in Global and it is my understanding that the Bandwidth group no longer uses Global -- therefore none of us involved in this process will have appropriate security rights to inactivate the Global database records. I will request appropriate security access to inactivate the records. Then, when instructed via e-mail from a member of the Bandwidth team, I will inactivate the Global Contract database records.

Our agreement is that I will continue to report Bandwidth master contract information to EOL until Profile Manager is in production -- with the understanding from EOL that I cannot see the contract data reported for Bandwidth masters contracts.

Our GREATEST value sampler to date, this week's schedule of events

Sender	email@christopherswine.com
Recipients	[]
File	jones-t/inbox/844.

Good morning wine lovers, I was so excited to receive the following wines last week, that I came in on Sunday to put this sampler together. In this fabulous case of 12 bottles, you will find some of the most exciting, unbelievably well-priced Cabernets, Merlots and Chardonnays that I have tasted in years. By the way, in case anyone has forgotten, the holidays are coming. And, if your family and friends are like mine, you will need lots of great wines for the Thanksgiving dinner. These wines will go so well with your turkey day!!! Regardless of your main course of choice, get one of these cases (or more if you like) and enjoy the great email price while they last.

OUR GREATEST VALUE SAMPLER CASE TO DATE (2 BTLS OF EACH):

Baron Foulon Chardonnay Loire Valley 2000 (New Zealand wine maker, French vineyard, delicious) 87 points \$12.50 each Baron Foulon Merlot 1999 (elegant, ripe, wonderful fruit) 87 points \$12.50 each Baron Foulon Cabernet 1998 (amazing vintage, well structured, spicy) 87 points \$12.50 each L'Enclave des Papes Cabernet 2000 (surprising depth, mature fruit components) 87 points \$12.50 each Vina Sardasol Merlot Crianza 1997 (WOW, mint, spice eucalyptus, wild berries) 87 points \$15.00 each Vina Sardasol Cabernet Crianza 1995 (how did they get so much flavor at this price?!) 88 points \$15.00 each

Good morning wine lovers, I trust all of you will have a safe and happy new year and come to see us next year!!! Always sounds strange to say 'see 'ya next year', no? Anyway, on to the business at hand. Starting in 2002, I am going to experiment with something. It seems that all of you on our email list are quite regular with your visits to our tastings. Therefore, I will be announcing the weekly wine seminars through this service only. Sending our schedule in the mail just doesn't seem nearly as cost effective as this email service. So, starting now, I will inform everyone of the Thursday topic on Monday. Let's see how it goes. Immediately following the Thursday wine tasting topic you will find an awesome sampler case. This case contains the winners from last week's tasting with a special price. If we can continue to stock the best wines from the Thursday tastings, this trend will continue. That is, the sampler will contain the highest scoring wines from the previous week's Thursday night tasting, unless we sell out of those wines in the tasting.

THURSDAY, JANUARY 3RD, 2002 THURSDAY NIGHT TASTING SERIES: Topic: The Great Estates of Italy Please join us as we taste through, study and discuss 8 wines from the best estates in Italy. Scheduled estates to taste include: BROVIA (PIEDMONTE); PRADI PRADIS (FRIULI); CAPPONI (TUSCANY); SOLARIA (TUSCANY); LE MANDORLAE (TUSCANY); CASINA DEL GIGLIO (TUSCANY); CELLOLE (TUSCANY); DACAPO (PIEDMONTE) These estates are well-known, yet small producers, focused on estate-bottled wines ranging from Montalcino to Asti and from white wines to full bodied reds, as well. This class will be limited to 20 participants, so please RSVP ASAP. Reservation details: Reservations are required Time: 5:30 Champagne reception 6:00 PM to 8:00 PM: tasting of the 8 wines Price per person: \$35 plus tax RESERVATIONS LIMITED TO 2 PER PERSON Please call 713-524-9144 to sign up No cancellations accepted after 6 PM on Wednesday CALL SOON, LIMITED SEATING!!!

FRIDAY, JANUARY 4TH, 2002: WINE BAR AT CHRISTOPHER'S We offer 45 wines by the glass to include reds, whites, sparkling wines & after dinner wines, too. Our amazingly talented Chef prepares 4 new menu items each week. In addition to the wines by the glass list, you may choose ANY wine in the store to enjoy with your foods or friends. BEST PART??? Retail prices for all wines, NOT restaurant prices!!! Our wines by the glass range from \$4 to \$15 & Our Chef's specials range from \$10 to \$22. No reservations are needed. Get here early for the best seats. Time: 6-10 PM Friday nights Location: here at Christopher's CHRISTOPHER'S CABERNET SAMPLER (2 BTLS EACH): La Palma Reserve Cabernet Chile 1999 (French oak aging, very smooth, minty) 87 points Riverside Collection California Cabernet 1999 (easy drinking Cab, some spice, too) 85 points Poppy Hill California Cabernet 1998 (surprising depth and richness) 86 points Cloverdale Ranch Cabernet Alexander Valley 1998 (first place winner in our tasting!) 88 points Domaine du Barrail Bordeaux 1999 (MY favorite, rich, plums, currants, oak) 88 points Domaine Tuilleries Bordeaux 2000 (ripe, juicy, wonderful finish) 87 points

Normally priced (and already a bargain): \$170 SPECIAL EMAIL CASE PRICE: \$144.50 PLUS TAX As always, please call to reserve: 713-524-9144. Well, let's see, did I cover everything? Thursday night tasting, Friday WINE BAR, sampler case... I guess that about covers it for this week. Call us as soon as you can to reserve seats for the Thursady tasting or to order your sampler case(s). And, again, HAPPY NEW YEAR. The most popular wines from recent samplers together in one case,	
Sender	email@christopherswine.com
Recipients	
File	jones-t/inbox/1087.

Good afternoon wine lovers, Over the past three weeks, I have been monitoring the feedback from those of you who have purchased the weekly sampler cases. And it appears that we have found some winners. While all the wines have been well-received, the ones below have gained a serious following in just three short weeks. To give the rest of you a chance to see what all the buzz is about, and to help the regulars re-stock their wine racks after the Thanksgiving feast, I have put together our most recent sampler. As always, it comes with a special price, too.

THE BEST FROM RECENT SAMPLER CASES, TOGETHER AT LAST (2 BTLS EACH):

Finca Flichman Cabernet Mendoza Argentina 1999 (full bodied, concentrated fruit) 87 points Finca Flichman Malbec Mendoza Argentina 1998 (intense color, maximum Malbec expression) 87 points Vina Sardasol Cabernet Crianza 1995 (how did they get so much flavor at this price?!) 88 points L'Enclave des Papes Cabernet 2000 (surprising depth, mature fruit components) 87 points Chateau LaCroix Martelle Minervois 1999 (you may remember this, my house red, serious Syrah) 89 points Domaine Capouilleres Ventoux 1998 (so full of blue fruits, loves the spicy stuff) 87 points

Let me tell you, this case is already a bargain at \$155!!! LOAD UP, THIS WEEK ONLY (IF THEY LAST THAT LONG) FOR JUST \$132 PLUS TAX!!! Now most of you know that these cases disappear before the week's end. So pick up the phone and call us now with your card number and we will be happy to set as many of these aside as you would like. Don't miss out! This is one heck of a great buy!!! As for the schedule:

THURSDAY, NOVEMBER 29th: Topic: "UNBELIEVABLE CABERNET & MERLOT VALUES" Time: 6-8 PM (Champagne reception at 5:30 PM) We will be tasting through and discussing 8 of the best values in my store! Hi Tana,

Further to Karen Lambert's email below, could you please let me know what the status is with SaskEnergy? Are they understanding the fact that their EOL transactions will fall under the Master Agreement's terms and conditions?

Let me know if I need to contact them. Thanks,

Matilda

Yes, she is working with Tana Jones in Legal regarding New York jurisdictional issues (and others). You might want to touch base with Tana in a few days while I am out.

FYI -- The counterparty question below includes reference to a Canadian Physical Gas master contract for online trading. I am not certain which other agreement they are questioning (online GTC? online ETA? other master contract?). When I tried to contact the counterparty her voice mail states that Debbie is out of the office until March 6th. At this point, I am unsure if this is a purely "Canada gas" question or if they have questions that cross-commodities and locations. No specific action is needed by your group. I just want to make sure you are aware of any Canadian contract issues. (There is an open EOL Help Desk ticket pending until this question is resolved.) Please let me know if you have any questions or new information that might help resolve this issue.

Thank you, Karen x3-0605

Tana - Can you please let me know your query. Bud Ricketts has had a draft physical power agreement since Sept. of last year. As you can see from the Lotus Notes entry- I called him yesterday to chase him as we have not gotten even a first set of comments from them. Their Credit Guy is apparently the hold-up.

I am not sure what else needs to be done from our end. Please advise.

Thanks!

(00-347) CFTC Approval to Amend Price Fluctuation Limits for

Sender	exchangeinfo@nymex.com
Recipients	['tana.jones@enron.com']
File	jones-t/all_documents/4287.

Notice No. 00-347 October 6, 2000

MEMORANDUM

TO: ALL NYMEX AND COMEX MEMBERS

FROM: Neal L. Wolkoff, Executive Vice President

DATE: October 6, 2000

RE: Notice of CFTC Approval of Executive Committee Resolution Amending Price=20 Fluctuation Limits for Trading on NYMEX ACCESSc

Please be advised that the CFTC has approved a Resolution of the Executive Committee of the Board of Directors. The Resolution amends on a temporary basis a number of Exchange price fluctuation limit rules for trading on NYMEX ACCESSc so as to ensure the successful implementation of the new implied order functionality on NYMEX ACCESSc. (The price fluctuation limit rules that are now in effect for the Exchange's contracts will remain the same for trading occurring during Regular Trading Hours ("RTH") on the trading floor.) The Resolution is attached and will become effective with the commencement of the NYMEX ACCESSc session on Sunday, October 8, 2000.

By significantly expanding the price fluctuation limits applicable to trading activity occurring on NYMEX ACCESSc, the Resolution reduces the possibility that a price limit would be triggered by the implied functionality. The Resolution amends the Exchange's price fluctuation limit rules with regard to trading on NYMEX ACCESSc in three ways:

- (1) The initial and subsequent price fluctuation limits (for each Exchange futures contract that has such limits) would be expanded to 200% of the initial and subsequent price fluctuation limits applicable to the first two contract months for energy contracts, or to the first contract month with limits in effect for metals contracts, of that futures contract under the applicable rule.
- (2) This expanded limit (e.g., 200% of the limits for the front two months for energy contracts) would be applicable to all contract months for that futures contract.
- (3) In the event that an expanded price limit was touched by a bid or offer trading on NYMEX ACCESSc generally would be halted immediately, rather than requiring the market to trade at that price for five minutes. During the last 90 minutes of a NYMEX ACCESSc session, the market would be halted only for as long as it takes for the system to incorporate expanded price limits.

Finally, notwithstanding the changes noted above, in the event that a contract trading on NYMEX ACCESSc traded for five minutes at a price fluctuation limit applicable to RTH trading, then the RTH session would open with expanded price fluctuation limits as provided under the applicable rule, even though there had been no temporary cessation of trading during the NYMEX ACCESSc trading session.

If you have any questions, please contact Stu Homler, Director, NYMEX ACCESSc Operations, NYMEX ACCESSc Department, at (212) 299-2754, Matt Morano, NYMEX ACCESSc Department, at (212) 299-2679, or Brian Regan, Senior Associate General Counsel, at (212) 299-2207.

APPROVED RESOLUTION OF THE EXECUTIVE COMMITTEE OF THE BOARD OF DIRECTORS REGARDING PRICE FLUCTUATION LIMITS FOR EXCHANGE CONTRACTS

The Executive Committee of the Board of Directors hereby

Resolves that, until further notice, the price fluctuation limit rules for each futures contract that is listed for trading on NYMEX ACCESSc and that has such applicable rules shall continue in effect except as amended below with regard to market activity occurring on NYMEX ACCESSc:

The initial and subsequent price fluctuation limits (for each Exchange futures contract that has such limits) shall be expanded to 200% of the initial and subsequent price fluctuation limits applicable to the first two contract months of that futures contract that have price limits under the applicable rule.

This expanded limit (200% of the limits for the first two months with limits) shall be applicable to all contract months for that futures contract.

In the event that such a price fluctuation limit is reached by a bona fide bid at the high price fluctuation limit or a bona fide offer at the low price fluctuation limit, trading on NYMEX ACCESSc shall be halted immediately except as directed otherwise by the President or the President's designee. Following resumption of trading, the price limits in effect shall be 200% of the limits applicable to RTH trading. In the event that a limit is touched during the last 90 minutes of a NYMEX ACCESSc session, the market shall be halted briefly, and price limits shall be expanded thereafter.

In addition, in the event that a contract trading on NYMEX ACCESSc traded for five minutes during the NYMEX ACCESSc session at a price fluctuation limit applicable to the Regular Trading Hours session, then the RTH session shall open with expanded price fluctuation limits as provided under the applicable rule, even though no temporary cessation of trading occurred during the NYMEX ACCESSc trading session.
