Notice # 01-137 April 20, 2001

TO: All New York Mercantile Exchange Members and Member Firms

FROM: Neal L. Wolkoff, Executive Vice President

RE: Rule Changes to Implement enymex(sm)

DATE: April 19, 2001

Please be advised that the NYMEX Board of Directors has approved a number of rule changes, which are summarized below, to incorporate the implementation of enymexK. These rule changes, which have been filed with the CFTC and thus may become effective at any time, will be implemented upon the launch of enymexK.

An unmarked version of these rule changes can be found on the Exchange's website. A hard copy "black-line" version of the rule changes, which shows changes from the current rules, can be obtained by calling Kelly Ann Neeson at (212) 299-2217 in the Exchange's Legal Department.

The rule changes include the following areas: trading; position limits, accountability and reporting; arbitration, Clearing Member obligations and a summary disciplinary procedure for denial of access.

Trading Rules A number of changes are being made to existing rules to reflect the roll-out of enymexK, such as expanding such rules to cover both NYMEX ACCESS7 and enymexK. For example, the NYMEX ACCESS7 error trade rule has been retitled and revised to cover error trades occurring on either system.

EFP and EFS. Similarly, Rule 6.21B and 6.21C are the Exchange's rules that respectively govern EFP and EFS transactions for futures contracts traded only on NYMEX ACCESS7, i.e., electricity futures contracts. These rules will now also govern enymexK EFP and EFS transactions.

Settlement Procedures. New NYMEX Rule 6.52E ("enymexK Settlement Price Procedures") was modeled upon the current settlement price rule for electricity contracts trading only on NYMEX ACCESS7. Thus, settlement prices generally would be determined manually by the Settlement Committee, or if the Settlement Committee was not available, by Exchange staff using the same criteria used by the applicable Settlement Committee. However, one difference is that the electricity settlement rule provides that no settlement price shall be established that would be lower than the best bid or higher than the best offer that: (a) was for at least twenty-five (25) contracts, and (b) had been posted with the Exchange and remained available for execution and unfilled for the final 30 minutes of trading. By comparison, new NYMEX Rule 6.52E contains more general language that would allow the Exchange to customize for each enymexK contract the bids and offers that would be protected in the settlement process.

Position Limits, Accountability and Reporting. With regard to the four physical delivery enymexK crude oil contracts, the amendments to NYMEX Rules 9.26 and 9.27 provide for position accountability in the back months and a spot month limit of 2,000 contracts for each of these four contracts. Also, the Exchange's current hedge exemption procedures will be made applicable to the enymexK contracts. With regard to the cash-settled enymexK contracts, the rule amendments provide for position accountability across all contract months. The amendments to Rule 9.34 establish a reporting level of 25 contracts for each enymexK contract, the same reporting level currently used for many other Exchange contracts. However, NYMEX staff also has initiated discussions with CFTC staff regarding possible regulatory relief to exempt market participants from these reporting requirements to the CFTC for the cash-settled contracts.

Brokerage and Clearing Member Financial Responsibility. As to brokerage, new Rule 9.04A ("enymexK Trading") permits brokerage to be done for enymexK products. Section (C) of new Rule 9.04A clarifies that a Clearing Member will be

financially responsible for trades done for each account it carries, even if there is a system malfunction.

Arbitration Rules The Exchange's arbitration rules are being amended to reference Non-Member enymexK Users and to provide that disputes between a Member and a Non-Member enymexK User or between Non-Member enymexK Users would be subject to Exchange arbitration on a permissive rather than on a mandatory basis.

Summary Disciplinary Procedures The sole disciplinary sanction that would be applicable to a Non-Member enymexK User would be denial of further direct access to the system. Consistent with this approach, new Exchange Rule 8.99A establishes a summary disciplinary procedure that would allow the Exchange to take action when necessary on an expedited basis.

Please note that Exchange Members who are enymexK Users also will continue to be subject to Exchange rules.

If you have any questions concerning these rules, please contact Christopher K. Bowen, Senior Vice President and General Counsel, NYMEX Legal Department, at (212) 299-22200; or Brian Regan, Senior Associate General Counsel, NYMEX Legal Department, at (212) 299-2207.

(01-162) Reminder and Clarification on NYMEX Division Post-Close

Sender	soblander@carrfut.com

File	keavey-p/discussion_threads/370.

Notice # 01-162 May 11, 2001

TO: All NYMEX Division Members and Member Firms

FROM: Neal L. Wolkoff, Executive Vice President

RE: Reminder and Clarification on NYMEX Division Post-Close Trading Sessions

DATE: May 11, 2001

Reminder Changes will be going into effect today, Friday, May 11, 2001 for the End of Week post-close trading sessions and also, beginning on Monday, May 14, 2001, for the Monday-Thursday post-close trading sessions. The trading range for all of these sessions will be expanded by adding the following ticks above (below) the daily high (low) for the applicable contract month (provided that this expanded trading range does not violate the maximum permissible price fluctuation limits then in effect): Crude Oil 20 ticks Heating Oil 50 ticks Unleaded Gas 50 ticks Natural Gas 50 ticks

Clarification Previously, the trading range for the Monday-Thursday sessions was the closing range for the applicable contract month. Exchange staff interpreted the rule to provide that if a contract month did not trade during the close, there would be no closing range and thus it would not be permissible to trade that contract month during the post-close. Now, as noted above, the post-close session trading range on any day of the week will be an expanded version of the daily range. Therefore, the Exchange is issuing the following clarifications as to the contract months that can be traded during a post-close session (on any day of the week):

1. Only the first twelve listed contract months are eligible for trading in the post-close.
2. If a particular contract month does not trade during the RTH session, it may not be traded during the post-close.
3. It is not necessary for a contract month to trade during the close in order to be traded in the post-close as long as it has traded during the RTH session.

If you have any questions concerning these changes, please contact George Henderson, Vice President, NYMEX Floor Department, at (212) 299-2071; Rob Stasi, Manager of Trading Floor Systems, NYMEX Floor Department, at (212) 299-2067, or Brian Regan, Senior Associate General Counsel, at (212) 299-2207.

TO: All NYMEX Members and Member Firms

FROM: Neal L. Wolkoff, Executive Vice President

RE: Amendments to NYMEX End of Week Post-Close Trading Session Rule

DATE: May 4, 2001

Please be advised that beginning on Friday, May 11, 2001, a number of changes to the NYMEX End of Week post-close trading session rule that were recently approved by the Board will become effective.

Specifically, beginning on Friday, May 11, 2001 and continuing for subsequent Friday post-close sessions (and post-close sessions the day before a mid-week Exchange holiday) the following changes will be in effect:

- (1) Contract months eligible for trading in these sessions will be expanded from the first four to the first 12 consecutive listed contract months.
- (2) The sessions will be 5 minutes in duration.
- (3) The trading range for these sessions will be expanded by adding the following ticks above (below) the daily high (low) for the applicable contract month (provided that this expanded trading range does not violate the maximum permissible price fluctuation limits then in effect):

Crude Oil 20 ticks Heating Oil 50 ticks Unleaded Gas 50 ticks Natural Gas 50 ticks

If you have any questions concerning these changes, please contact George Henderson, Vice President, NYMEX Floor Department, at (212) 299-2071; Rob Stasi, Manager of Trading Floor Systems, NYMEX Floor Department, at (212) 299-2067, or Brian Regan, Senior Associate General Counsel, at (212) 299-2207.

AMENDMENTS TO NYMEX RULE 6.57("POST-CLOSE TRADING SESSION") AND NYMEX RULE 6.57A ("END OF WEEK TRADING SESSION")

(Asterisks indicate additions; brackets indicate deletions.)

Rule 6.57A. END OF WEEK TRADING SESSION

On the last trading day of the calendar week, and, in any week when an Exchange holiday falls on a Tuesday, Wednesday or Thursday on the trading day preceding such midweek Exchange holiday, there shall be no post-close trading session provided on the trading floor pursuant to Rule 6.57. Instead, on such dates, an end of week trading session (the "End of Week Session") shall commence on the trading floor pursuant to this rule and subsequent to the close. Except as otherwise provided by the President or the President's designee for a particular trade date, such End of Week Session shall commence twenty (20) minutes after the close of trading in all futures contracts and shall continue for a period of [ten (10)] * five (5) * minutes in all energy and metals futures contracts, subject to the following conditions:

(A) Trading during the End of Week Session shall be limited to the first [four] * twelve * listed delivery months;

(B) Trades occurring during the End of Week Session for a particular contract month of a futures contract shall be executed openly and competitively at a price within the daily trading range of the applicable contract month for that futures contract * and as further expanded above the daily high and below the daily low only for the contracts listed below provided however that no such expanded trading range may exceed the price fluctuation limits in effect for the applicable contract as of the end of the RTH session:

Contract Additional Ticks

Crude Oil 20 ticks Natural Gas 50 ticks Unleaded Gasoline 50 ticks Heating Oil 50 ticks *

(C) During the End of Week Session, Floor Members, Floor Brokers and their customers may participate in the same manner as trading occurring during the regular RTH session, except that any order submitted during the RTH session, including but not limited to resting orders such as stop orders, limit orders and good until cancelled (GTC) orders, will be deemed to have expired as of the end of RTH for purposes of this End of Week Session. Accordingly, in the event that a market participant with such an expired order seeks to participate in the End of Week Session, a new order must be submitted.

(D) Prices for trades executed during the End of Week Session shall be reported on public ticker services;

(E) Current market prices and trades executed during the End of Week Session shall not be considered in determining any settlement price; and

(F) Floor Members executing trades during the End of Week Session shall mark a line across their trading cards prior to the entry of an End of Week Session trade.

2. Recommended as Proposed Nominees for "Futures Commission Merchant": (ONE vacancy) (Term expiring 2003)

John McNamara (JLMC) Stanley Meierfeld (STAN) Peter Meyer (WIM)

3. Recommended as Proposed Nominees for "Public": (ONE vacancy) (Term expiring 2002)

George Burman Melvyn Falis Lee White

ONLY PERSONS WHOSE NAMES HAVE BEEN SUBMITTED TO THE OFFICE OF THE CORPORATE SECRETARY BY 5:00 P.M. ON MONDAY, APRIL 16, 2001 WILL BE PERMITTED TO STAND FOR ELECTION.

Please note that in order to qualify as a Public Director, a person must be knowledgeable of futures trading or financial regulation or otherwise capable of contributing to the deliberations of the Board of Directors and may not be a member of the Exchange or affiliated with any member of the Exchange or an employee of the Exchange.

After Monday, April 16, 2001, the Membership Subcommittee ("Subcommittee") will convene to make its determination as to the eligibility of the proposed nominees to run in the category for which he was proposed or otherwise. Such determination will be immediately posted. Should the Subcommittee determine that a proposed candidate is ineligible to run in the category for which he was recommended, written notice thereof shall immediately be submitted to that person. To assist the Subcommittee, NYMEX members may submit information regarding the eligibility of a proposed nominee to the Subcommittee. All such submissions must be received by 5:00 p.m. on Thursday, April 19, 2001 at the Office of the Corporate Secretary. In addition, a proposed nominee may appeal the Subcommittee's categorization. Such appeal must be made by 5:00 p.m. on April 20, 2001. The Subcommittee will consider the appeal and make a final ruling no later than April 23, 2001. At that time, the Subcommittee will assign the proposed nominees to the proper categories, regardless of the category for which the proposed nominee was originally recommended.

TO BE OFFICIALLY NOMINATED, EACH PROPOSED NOMINEE WILL BE REQUIRED TO FILE WITH THE OFFICE OF THE CORPORATE SECRETARY A DECLARATION WHICH STATES THAT CATEGORY IN WHICH THE PERSON INTENDS TO STAND FOR ELECTION. FAILURE TO SUBMIT A DECLARATION TO THE OFFICE OF THE CORPORATE SECRETARY BY 5:00 P.M. ON TUESDAY, APRIL 24, 2001 WILL RENDER THE PROPOSED NOMINEE INELIGIBLE TO RUN IN ANY CATEGORY.

Please note: only those persons who were proposed by 5:00 p.m. on Monday, April 16, 2001 will be permitted to be officially nominated.

The Record Date for the determination of stockholders entitled to vote will be April 25, 2001.

The Candidates' Forum will be held on May 9, 2001.

Proxy statements and ballots will be mailed on or about May 1, 2001.

The election will be held on Wednesday, May 23, 2001.

Should you have any questions regarding the above, please contact Christopher Bowen at (212) 299-2200 or Donna Talamo at (212) 299-2372.

Pete,

Just a quick note to see how things are going down there? I'm sorry to hear that Enron's on some tough times, hope you're area is safe. Got to love paying Andersen for their quality financial statements huh? Old AA is in hot water for their F/S for Enron, Waste Management Inc. and couple other companies. Their getting some pretty bad press and rightfully deserved, since all they've tried to focus on is building up a consulting firm years before the inevitable split with Andersen Consulting (Accenture).

On a personal side, hope you, Anne and the girls are doing ok. Kim and I move into our new place on Monday. Of course we were supposed to move in back in September, but what can you do. We're cutting it close to Kim's due date, but if she keep her legs together until after Monday we should be ok.

New address: 80 Ellison Avenue Bronxville, NY 10708

Phone (914) 337-7510 (same as before)

I'll catch up with you later.
