How about "LaMaquina-I/B Link"

-----Original Message-----

From: Lozano, Melba Sent: Thursday, September 20, 2001 10:32 AM To: Lokay, Michelle Subject: RE: New point and combo on EOL---thanks! Importance: High

The abbreviation can only be 21 characters long. Please let me know how to modify it.

-----Original Message-----

From: Lokay, Michelle Sent: Thursday, September 20, 2001 10:19 AM To: Lozano, Melba; Walker, Chris Subject: RE: New point and combo on EOL---thanks!

Can this be set up to start this weekend, the 9/22? I will build this product combo for daily, weekly, and definitely monthly. LaMachina is misspelled (my mistake); the correct spelling should be LaMaquina. Can the abbreviation for the web be "LaMaquina-IgnacioBlanco" Thanks!

-----Original Message-----

From: Lozano, Melba Sent: Thursday, September 20, 2001 9:45 AM To: Lokay, Michelle Subject: RE: New point and combo on EOL---thanks! Importance: High

Michelle,

What Dates do you need set up? Does the abbreviation for the web look o.k?

US PLCapTW Frm WFS-IgnacioBlanco (abbreviation) This Transaction provides firm pipeline transportation capacity from the primary receipt point of WFS LaMachina [500539] to the primary delivery point of Ignacio/Blanco Link [500545]. The posted rate, stated in USD/MMBtu on the Website, is a daily one-part rate, inclusive of all applicable reservation, commodity and surcharge rates. The total charge for the month will equal the posted rate multiplied by the maximum daily volume times the number of days in the term of the transaction. The daily rate does not include fuel, which will apply and be billed separately.

Thanks, Melba Lozano 713-345-8986 713-646-8511 Fax 713-698-4847 Pager

-----Original Message-----

From: Lokay, Michelle Sent: Wednesday, September 19, 2001 5:34 PM To: Lozano, Melba Subject: New point and combo on EOL---thanks!

A transaction with Transwestern Pipeline Company ("Transwestern") under which Transwestern will transport, on a firm basis, a maximum daily volume (stated in MMBtu per day) equal to the volume identified on the Website. Customer agrees that this Transaction will be governed by the terms contained within the online General Terms and Conditions (GTC). The

term of the Transaction shall correspond to the date(s) set forth in the Product description on the Website. This Transaction provides firm pipeline transportation capacity from the primary receipt point of Central Pool [58649] to the primary delivery point of Oasis Block 16 [8516]. The posted rate, stated in USD/MMBtu on the Website, is a daily one-part rate, inclusive of all applicable reservation, commodity and surcharge rates. The total charge for the month will equal the posted rate multiplied by the maximum daily volume times the number of days in the term of the transaction. The daily rate does not include fuel, which will apply and be billed separately. The price is quoted in US Dollars per unit of volume, which will be the Contractual Currency. The unit of measure against which the price is quoted shall be millions of British thermal units and the quantity shown shall be in millions of BTUs per day.

The new receipt is 500539 WFS LaMachina and the delivery is 500545 Ignacio/Blanco Link.

Re: Transwestern Expansion

Sender	tdickers@westerngas.com
Recipients	[michelle.lokay@enron.com]
File	lokay-m/tw_commercial_group/1149.

** Proprietary **

Michelle: Thanks for sending this to me so quickly. I do have a couple more questions for you.

1. What is the discount rate you will be using to calculate the NPV in your open season?
2. Can an affiliate of a company also place a bid for up to the volume available to Needles?
3. How does the right of first refusal work?

For example, when we spoke earlier I think you used an example of a \$3.00 bid for 1 year getting equal value as a \$.30 bid for 10 years (adjusted for NPV, of course) and the winning party got a ROFR. (Let's say the 1 year bid won). At the end of the year, is the ROFR calculated on the \$3.00 value the shipper holds the transport at or is it based on current market conditions. Let's say the market value has collapsed and the market views this capacity as worth only \$.28/Dth and the current shipper is willing to match that rate does that mean he can retain the capacity? Then for what term, whatever the market bids that piece for or will there be a set time the (in years) that the holder of the capacity will have to match regardless of what the bidder bids?

I hope this example makes sense. If not, please give me a call to discuss at (303) 252-6224.

Thanks for your help.

Terri Dickerson

Transwestern Pipeline Company Red Rock Expansion

From October 30, 2000 to November 17, 2000, Transwestern posted a notice of open season. As a result of the response to the open season, Transwestern has filed for FERC authority to expand its mainline by 150,000 MMBtu by a proposed in service date of June 2002. The project is known as the Red Rock Expansion.

Transwestern is continuing to solicit bids from open season respondents as well as all other interested parties. Interested parties should submit bids conforming to the criteria listed below. The deadline for bidding is Friday, April 20, 2001 at 5:00 p.m. CDT.

If you have questions or need further information, please contact Lorraine Lindberg at (713) 853-5403 or your marketing representative.

Volume: 150,000 Dth/day

Points of Delivery/Receipt:

Primary Receipt Points: East of Thoreau

Primary Delivery Points:

Topock Lateral Capacity: 92,000 MMBtu - Available Point Capacity: PGE/Topock, POI # 56698 (126,000 MMBtu)

Mojave Topock, POI # 56696, (280,000 MMBtu)

Calpine/Southpoint, POI #78113 (76,000 MMBtu)

Other Delivery Points: Southwest Gas, POI #78003 (86,000 MMBtu)

Citizens/Griffith, POI #78069 (120,000 MMBtu) Subject to availability of additional delivery point capacity: SoCal Needles, POI # 10487 (50,000 MMBtu)

Awarding Capacity

1. Written offers must include material terms (rate, term, points, quantity). Shipper should indicate whether it will accept partial volume in the event allocation is necessary.
2. Shippers' binding bids must be accompanied by a valid Request for Gas Transportation Service form.
3. Shippers submitting bids containing terms or conditions unacceptable to Transwestern shall not be accepted.
4. If the total volume of all bids received by Transwestern exceeds the capacity of the proposed expansion, Transwestern will award the capacity based on the highest net present value bid (calculated consistent with the net present value provisions of Transwestern's tariff).
5. In the event of a tie, the capacity shall be awarded on a pro rata basis.
6. Transwestern reserves the right to reject any bid less than the maximum tariff rate, or any bid that would cause the Red Rock Expansion to be uneconomic.

RE: new points

Sender	michelle.lokay@enron.com
Recipients	[melba.lozano@enron.com]
File	lokay-m/tw_commercial_group/1097.

Please build a new point as both a receipt and a delivery on Transwestern. The point name is "PNM Rio Puerco" and the receipt number is 9240 and the delivery number is 60921.

Another point that need to be built is "Valero Pecos" and the receipt number is 12283 and the delivery number is 500515.

For the point-to-point combination, please build Rio Puerco as a receipt and Valero Pecos (#500515) and West Texas Pool (#58646) as the delivery for IT and FRM transport.

Thanks.

-----Original Message-----

From: Lozano, Melba Sent: Friday, May 25, 2001 8:54 AM To: Lokay, Michelle Subject: new points Importance: High

I will be able to build it at 11:00 - it will take at most - 15 minutes.

Please fill in the following portion in RED and send it back to me.

US PLCapTW Frm [WTPool-OasisBlock16]

This Transaction provides firm pipeline transportation capacity from the primary receipt point of West Texas Pool [58646] to the primary delivery point of Oasis Block 16 [8516]. The posted rate, stated in USD/MMBtu on the Website, is a daily one-part rate, inclusive of all applicable reservation, commodity and surcharge rates. The total charge for the month will equal the posted rate multiplied by the maximum daily volume times the number of days in the term of the transaction. The daily rate does not include fuel, which will apply and be billed separately.

Thanks,

Melba Lozano 713-345-8986 713-646-8511 Fax 713-698-4847 Pager

Dynegydirect: New Trade Floor Functionality

Sender	customer.care@dynegy.com
Recipients	[]
File	lokay-m/systems/172.

Effective Monday, January 7, 2002, Dynegydirect will institute a "new look" on our Trade Floors. The new look will have ACTIVE and INACTIVE markets designated with green and red lights to the right of the product line.

Upon opening your individual Trade Floor/Window the window may not contain the usual number of products. You have two choices to make:

Choice 1: A "SHOW ALL MKTS" button will be on the upper right of the screen. If you check this, all the markets you have saved in your trading window(s) will appear, just as they always have, whether the markets are ACTIVE or INACTIVE. You will not see the green and red lights to the right of the product line. Choice 2: If you do not check the "SHOW ALL MKTS" button, the window may be blank until Dynegy begins posting prices and volumes and a "REFRESH" button appears on the top center of the window. Clicking on the "REFRESH" button will enable ACTIVE markets, which will be indicated by a GREEN light to the right of the product line. The light will remain GREEN for 30 seconds after activation.

The "REFRESH" button will reappear as additional markets become ACTIVE or as an existing market becomes INACTIVE. When Dynegy places a product on hold (INACTIVE market) the price and volume will disappear and a RED light will appear to the right of the product line after 15 minutes of inactivity.

Clicking on the "REFRESH" button will add all ACTIVE markets and/or remove all INACTIVE markets.

ADDITIONAL NOTE: Any new Trading Windows you create from Monday forward will default to Choice 2.

New points and combinations

Sender	michelle.lokay@enron.com
Recipients	['kevin.meredith@enron.com']
File	lokay-m/inbox/52.

Please set up the following points and combinations. The receipts and deliveries will be marketed daily starting December 1.

The receipts are 58646 West Texas Pool, 58649 Central Pool, and 58647 Panhandle Pool. The deliveries are 10487 SoCal Needles and 56698 PG&E Topock.

A transaction with Transwestern Pipeline Company ("Transwestern") under which Transwestern will transport, on a firm basis, a maximum daily volume (stated in MMBtu per day) equal to the volume identified on the Website. Customer agrees that this Transaction will be governed by the terms contained within the online General Terms and Conditions (GTC). The term of the Transaction shall correspond to the date(s) set forth in the Product description on the Website. This Transaction provides firm pipeline transportation capacity from the primary receipt point of XXX [XXX] to the primary delivery point of yyy [yyy]. The posted rate, stated in USD/MMBtu on the Website, is a daily one-part rate, inclusive of all applicable reservation, commodity and surcharge rates. The total charge for the month will equal the posted rate multiplied by the maximum daily volume times the number of days in the term of the transaction. The daily rate does not include fuel, which will apply and be billed separately. The price is quoted in US Dollars per unit of volume, which will be the Contractual Currency. The unit of measure against which the price is quoted shall be millions of British thermal units and the quantity shown shall be in millions of BTUs per day.

Thanks,

Michelle Lokay Account Director Transwestern Commercial Group 713-345-7932

I didn't think I was finished negotiating

Sender	lorraine.lindberg@enron.com
Recipients	['michelle.lokay@enron.com', 'kevin.hyatt@enron.com', 'steven.harris@enron.com']
File	lokay-m/tw_commercial_group/114.

We should discuss this asap. ----- Forwarded by Lorraine Lindberg/ET&S/Enron on 08/10/2000 03:21 PM -----

"Richard Riehm" <rriehm@br-inc.com> on 08/10/2000 02:07:55 PM Please respond to <rriehm@br-inc.com> To: <Lorraine_Lindberg@enron.com> cc:

Subject: I didn't think I was finished negotiating

Lorraine, I wanted to send you an e-mail about our negotiations regarding TW/VV interconnect. I don't want you to feel like I am trying to renegotiate something you think we agreed to last week.

When we were talking last week about concessions I was seeking from TW in lieu of underperformance at the VV interconnect, I gave the example of reducing our alternate delivery rate on the Jack Rabbit agreement, but I wanted to talk to you further about it. We agreed that you would call me this week to talk about it. It was my intention that the negotiations were not over yet, but that we need to talk further.

Quite simply, a discounted rate on an alternate delivery point for an agreement where I don't have a lot of volume does not do much for Burlington. The lack of TW's ability to accept nominated volumes from Val Verde as mutually agreed to in the IPOA is a big and expensive issue to Burlington. It significantly limits our ability to operate the plant efficiently, honor nominations of third party shippers on the system and it is causing BR to nominate extra volume into the EPNG system which is constrained. All of these factors cost Burlington a significant amount of money.

Some of the concession I am seeking include: The same discounted rate to make alternate deliveries into EPNG as TW at Blanco on agreement 25597. The same discounted rate for alternate receipts north of the LaPlatta compressor station which in contrary to the language on agreement 25597. I realize that BR would be alternate firm, but the agreement would be higher in the queue than interruptible.

Alternatively, what about terminating 25597 retroactively back to August 1. The agreement expires at the end of the year and I really don't need the way it is currently structured. I have an IT agreement for \$.03 with all of the flexibility that I am looking for on 25597.

I have not sold this idea to my boss or anyone else in management. We have had a conceptual meeting about this issue. It was agreed that our first option was not to ask TW to spend a bunch of money to bring you into contract compliance. Instead we wanted to work with you to find some common ground.

The bottom line is that you have to give me something to take to my management. Please call me to discuss this. I really do want to keep these negotiations up beat. I think past negotiations have not gone as well as you or I would have liked. I really look forward to talking to you and working something out that is agreeable to both companies.

File	lokay-m/tw_commercial_group/1629.

Oneok will be handling these deliveries instead on Westex, effective January. Do you have a copy of the original contract?

-----Original Message-----

From: Lee, Dennis Sent: Thursday, November 29, 2001 10:02 AM To: Lokay, Michelle; Watson, Kimberly; McConnell, Mark; Lohman, TK; Buehler, Craig; Hanagriff, Richard; Lee, Dennis Subject: Terminate CR 22017 Oneok Westex Transmission

We received a request from Oneok Westex Transmission to terminate FTS-2 Agreement 22017 effective January 1, 2002.

According to Butch at Westex, he thinks Energas will begin moving the volumes. Can someone look into this?

Thanks,

Dennis P. Lee ETS Gas Logistics (713) 853-1715 dennis.lee@enron.com

Electronic Pay Stubs

Sender	payroll.enron@enron.com
Recipients	['michelle.lokay@enron.com']
File	lokay-m/personal/104.

Get ready. Beginning in November, electronic pay stubs will be available to all employees who have their paychecks direct deposited into their bank account. Electronic pay stubs are an easy, fast, and efficient way for you to get your payroll information. They will also help Enron to realize a considerable savings in time and dollars spent over traditional printed pay stubs.

If you prefer to receive a hardcopy of your pay stub, click on the link below to complete a request form. This form must be submitted to Payroll by October 15, 2001. Unless you submit a form your pay stub information will default to electronic viewing.

Please click on the link below.

Name: MICHELLE LOKAY Personnel number: P00514742 Phone: 713-345-7932

If you have questions about electronic pay stubs, please contact Janice Priddy (Payroll) 713-853-7839 or Marie Newhouse (ClickAtHome) at 713-345-4185 or send an email to Enron.Payroll@enron.com (Enron Payroll in Outlook).

Stay tuned for more details in the coming weeks.

GPG Solution Center

Sender	gpg.center@enron.com
Recipients	['enron.everyone_et&s_houston@enron.com']
File	lokay-m/all_documents/333.

The newly consolidated GPG Solution Center has arrived at our new location! We are now happy to announce that:

the new telephone number for the GPG Solution Center is 713-345-GPG5 (713-345-4745)

and our new toll-free number is 888-465-GPG5

We also have a new mailbox (GPG Solution Center). Please use this address to request security setups and changes, Notes setups, etc. To find the id when addressing a message, type GPG S, press ENTER, and select the id from the resultant pick list.

You will be receiving a gift today or tomorrow that will help you remember our new numbers. If you don't receive a reminder by Monday, August 21, please let us know at the number above.

As a reminder, you will continue to contact us for: Desktop, laptop and peripheral repair. Desktop configuration and installation. Password security administration. Security setup and modification (rights to LAN and application access). Answers on Microsoft Office Products. Support of GPG-specific applications. Assistance with Notes Mail. Assistance with remote access (dial-up). Anything else you're unsure of!

Important Notes: We're trying to make these changes as transparent as possible to you! The old help desk numbers (37307 and 35352) will automatically be transferred to the new number. Contact the Hottap Help Desk at 713-853-6063 for

Hot Tap issues only. Omaha and field users will continue to call their current support groups. ET&S Marketing (Houston, Minneapolis and Omaha) will continue to contact the Omaha Helpdesk.

If you have any questions, please call us!

FREE Trial: Europe and Asia energy information!

Sender	r-6-56294-4156775-2-7136-us2-7cf50b7f@xmr3.com
Recipients	['michelle.lokay@enron.com']
File	lokay-m/publications/5.

Dear Colleague:

Energy Argus has just launched two new bi-monthly publications that focus on the European and Asian energy markets - Argus Power Europe and Argus Asia Gas & Power.

AND - we'd like to offer you a FREE no-obligation trial to both!

Why Argus Power Europe and Argus Asia Gas & Power?

Because you need to know what's going on in the international markets. These markets are deregulating and expanding, causing opportunities overseas - and threatening to steal away your own domestic opportunities as well. Now more than ever, you need to be in the know and stay ahead of your competition and to take advantage of these new business opportunities.

Argus Power Europe covers these essential issues:

- * Consolidation - who's buying what, and why;
- * New developments - who's building what and when -and what equipment they need;
- * Price trends and analysis;
- * Analysis of the differences in the European markets - from the Nordic market's complex structure and the dominant UK and German markets to the EU expansion's impact on new markets in the Czech Republic, Hungary and Poland.
- * Much, much more!

Argus Asia Gas & Power covers the electricity and natural gas markets in Asia - from upstream to downstream.

- * It's power coverage focuses on restructuring, financing, competition and demand (both residential and commercial).
 - * It's gas coverage focuses on supply to and from the Asia region - including proposals to ship for the first time liquefied natural gas from Asia and Australia to the US West Coast, a development that may have a serious impact on the US's involvement in the region's gas industry.
 - * Our news coverage also details new developments - who's building what and when -and what equipment they need;
- SIGN UP TODAY!**

To start your FREE, no-obligation trial to one or both newsletters, just reply to this email and let us know which one(s) you'd like to receive! <mailto:rlippock@energyargus.com> .

If you would rather not receive Argus promotions please follow instructions at the bottom of this message.

Energy Argus 1700 K Street NW Suite 1202 Washington DC 20006 Tel: 202-775-0240 Fax: 202-872-8045
<mailto:rlippock@energyargus.com> <http://www.energyargus.com>

If you would prefer not to receive further messages from this sender: 1. Click on the Reply button. 2. Replace the Subject field with the word REMOVE. 3. Click the Send button. You will receive one additional e-mail message confirming your removal.

An Invitation to my NESA and Energy Friends

Sender	dmeek@agency.com
Recipients	['dmeek@agency.com']
File	lokay-m/publications/20.

An invitation to my NESA and Energy friends:

Intranets and Corporate Portals are on the rise in energy companies for two very simple reasons:

They help you save money. . . They help you make money. . .

. . . and in today's marketplace, we all have to improve profitability and "do more with less".

AGENCY.COM would like to assist with your eCommerce initiatives.

We are hosting a seminar, "Portals: Beyond the Hype," on Wednesday, February 27th , at our offices here in Houston.

Please pass this SAVE THE DATE notice to individuals within your organization who have an interest in using eCommerce to enhance workforce productivity, market share, customer satisfaction and employee loyalty.

I will send a formal invitation to your contacts next week if you will be good enough to send me their email addresses. For your trouble, AGENCY.COM will send your company a copy of a study we conducted which outlines the impact of portals from a user's perspective and the benefits achieved.

Thank you for your time and action! I appreciate your help!

Deborah

ADDITIONAL INFORMATION IS ATTACHED.

The new Consent to Assignment

Sender mblanco@calpine.com

Recipients ['michelle.lokay@enron.com']

File lokay-m/tw_commercial_group/879.

<<New TW Consent.doc>> Michelle, My regrets for the delay in getting this to you - however, prompted by the comments supplied by your legal counsel, we've discovered, and are verifying, that the first Consent to Assignment Agreement that we forwarded to Lorraine referenced the WRONG Agreement - a possible mistake on our part, and if it turns out to be so, something we regret happened. Again, I will confirm once my legal team confirms.

Instead, it has become (painfully) obvious that the Agreement that should have been referenced in the Consent to Assignment document is the Measurement and Control Facilities Operating Agreement dated February 12, 2001 between Transwestern and CPN South Point LLC (now, Calpine Construction Finance Company, LP as successor by merger to CPN South Point LLC). The New Consent provided above has been modified and we suspect that no edits will be necessary: To confirm, South Point Energy Center, LLC will be funded with assets transferred from Calpine Construction Finance Company, LP at the closing scheduled for Oct. 18, 2001.

Your facilitation of the Consent to Assignment is appreciated - pls. contact me with any questions.

Michele A. Blanco, P.E. Manager, Asset Optimization Calpine Corporation - Western Region 4160 Dublin Blvd. Dublin, CA 94568-3139 (925) 479-6755 (925) 479-7311 Fax mblanco@calpine.com

-----Original Message-----

From: "Dan Douglass" <douglass@energyattorney.com>@ENRON Sent: Thursday, January 17, 2002 7:15 PM To: Rapp, Bill; Hass, Glen; Harris, Steven; Kilmer III, Robert Cc: Gregg Klatt Subject: SoCalGas/SDG&E BCAPs -- ALJ Brown Denies EGA Motion to Strike

ALJ Brown denied the EGA motion to strike, so testimony on both the embedded cost-based and the long-run marginal cost-based (LRMC) methodologies for revenue allocation among customer classes will be allowed in this proceeding. Attached is a copy of her ruling. Her primary rationale is expressed on page 6, as follows: ".....the Commission has frequently deviated from cost allocations based solely on LRMC, and has been moving towards embedded costs for unbundled transmission and storage functions, as evidenced in both the recent decision in the GIR, and in the Gas Accord

for PG&E. Therefore, it is apparent that the Commission is interested in comparing LRMC and embedded cost for cost allocation purposes. For this reason, EGA's motion to strike testimony on embedded cost-based allocation is denied. Testimony on embedded costs will be compared with the testimony on LRMC, to enable parties and the Commission to determine which method, or combination of methods, is most appropriate for allocation among customers of each utilities' non-gas costs of service. Including an embedded cost analysis in this BCAP might require more work from all the parties, but the record will then be as complete as possible so that the Commission can make a well-informed decision." She also ruled that, "The evidentiary hearing schedule of May 21 through June 14, 2002, is not suspended at this time. No later than January 22, 2002, parties are to meet and confer to determine if a shift in the filing dates for testimony will be sufficient to meet the needs of the parties' to respond to the March amendments to Biennial Cost Allocation Proceeding applications, and keep the established hearing schedule." Dan

ETS and Corporate Change Control

Sender	center.ets@enron.com
Recipients	[]
File	lokay-m/deleted_items/294.

The following items were discussed in this weeks corporate change control...

Mar. 14 Beginning today through 3/19, the Corporate Security team will replace the GRC.dat file in W:\scripts\UpdateGRC and W:\scripts\logon\Win2000\original to point NAV clients on nahou-apnav01 to nahou-apnav02 (only about 650 left). No impact is expected.

Mar. 15 From 11:00 - 11:15 a.m., the Corporate Security group will remove the svceu_SAPConnect account from CORP Domain Admins group. No impact is expected.

Mar. 15 From 4:00 - 6:00 p.m., the Unix Team will upgrade the Time server. Timex.ect.enron.com which is now on a Unix desktop network will be moved to a production network and to Netra T1 hardware. It would be doing the same activity as Rolex which was replaced on Monday. All clients are now pointing to new Rolex server & Timex. No impact is expected.

Mar. 15 From 5:00 - 6:00 p.m., Enron Network Services will replace the switch on the Extranet link HOPIX1. This change will cause intermittent outages for those external companies using this link to access the Enron Network.

Mar. 15 From 8:00 p.m. through 3/17 at 6:00 p.m., the Corporate Security team will re-enable the File Replication Service on all Corporate domain controllers. This change is necessary to replicate security policies. FRS will be started on Corp DCs one at a time, watching to be sure replication completes. Brief outages of Corp.enron.com security policies and possibly Exchange may occur. The Messaging team will be notified if replication causes problems. Support staff whose applications experience problems due to FRS should contact the solution center at ext. 54745. Mar. 15 From 10:30 - 11:30 p.m., the Corporate Server team will place Nahou-appr1 into the Corp Domain. This change will affect applications using the R drive. Mar. 16 From 10:00 - 11:00 p.m., Telephony Services will perform the monthly maintenance on the CMS (Call management) systems. This maintenance affects only call center reporting. No impact to users is expected. Mar. 16 From 2:00 - 4:00 p.m., the Blackberry Network Team will perform maintenance on a component of the Blackberry Network. Some customers may experience delays in receiving messages. It is also possible that messages sent from the Blackberry may be returned. Returned messages can be resent after the maintenance is complete. Mar. 18 From 5:00 - 6:00 p.m., the Corporate Security team will change the DHCP scopes to update the secondary WINS and DNS entries. This change will affect workstations that get their IP addresses via DHCP. All scopes are renewed on a 24-hour basis so all changes should be completed by 3/19. No impact is expected. May 1 At 5:00 p.m., the Corporate Security team will remove access to CORPHOU-DC07 (172.23.226.23, primary/secondary DNS) and NAHOU-NSWN03 (172.23.226.24, primary/secondary

WINS) from devices within ECN. All servers/workstations/equipment using these for WINS/DNS must have their settings changed. Use 172.16.7.120 for DNS and 172.16.7.116 for WINS in their place by this 5/01.

Transport Options Program Meeting

Sender	jeffery.fawcett@enron.com
Recipients	['Wheatley', 'Teddy G.' <Teddy.G.Jones@usa.conoco.com>, 'Jones', 'pete.frost@usa.conoco.com', 'Jerry L.']
File	lokay-m/tw_commercial_group/137.

Pete, I appreciate your response. While I certainly understand your position, please know that we were careful in choosing the date and time, balancing the need to conduct the workshop as soon as practicable with the need to accomodate the commercial activities of our customers. We were told by a number of parties that by the last day of the month, most of the next month's business has been done. We also set it up for later in the day to accomodate morning trading.

Given your personal experience in these matters and Conoco's involvement in gas and electric matters across the county, I really hope that you can find time to participate in our workshop. If not, certainly your efforts to date to bring certain questions and issues to our attention have been very helpful. We look forward to working with you on this and other projects in the future.

Thanks, Jeff

"Frost, Pete" <Pete.Frost@usa.conoco.com> on 08/23/2000 05:22:21 PM To: "'jeffery.fawcett@enron.com'" <jeffery.fawcett@enron.com> cc: "Jones, Teddy G." <Teddy.G.Jones@usa.conoco.com>, "Wheatley, Jerry L." <Jerry.L.Wheatley@usa.conoco.com>

Subject: Transport Options Program Meeting

Jeff,

Conoco would like to participate in the referenced conference, but because the meeting is scheduled on August 31st, during gas bid-week, we will most likely be unable to attend. However, given the importance of this meeting to all of TW's shippers, we suggest that consideration be given to rescheduling the meeting to a later time when all interested parties have an unhindered opportunity to attend. This would allow TW to seek input from the largest possible number of its customers.

We look forward to actively participating in the development of this proposed service. Additionally, please place me on the distribution list for future correspondence.

Sincerely,

Pete Frost Manager of Regulatory Affairs Conoco Gas and Power Marketing pete.frost@usa.conoco.com

Sold 15,000 MMBtu/d of stranded firm transportation to Burlington Resources from LaMaquina to Blanco for October at \$0.05 plus fuel, which gives TW an incremental revenues of \$24000 not already in plan. This transaction was executed through EnronOnLine. Because the Griffith power plant is not passing the PP&L facility's testing, PP&L executed a firm transport agreement from East of California to California. The incremental firm of 20,000 MMBtu/d is from Griffith to PG&E Topock for October at \$0.10 plus fuel, resulting in an additional \$62,000 also not in the plan.

Dear Colleague:

Petroleum Argus has in-depth information for you on refinery maintenance!

Petroleum Argus' Refinery Turnarounds service offers the latest information on scheduled and unscheduled maintenance, detailing the unit size and duration of the turnaround - for both domestic and international plants. We also analyze the impact of shutdowns on crude and product prices.

How do we get this information?

Petroleum Argus has scores of reporters all over the globe - so we get the inside track on these turnarounds well before they are announced. We talk not only to the plant managers, but also to traders and oil company inside sources.

Petroleum Argus publishes a variety of petroleum industry publications - from the industry standards Weekly Petroleum Argus and Argus Global Markets to Argus LatAm Energy, Argus Crude and Argus Asphalt Report - giving us a thorough understanding of the industry and reliable contacts cultivated from having over 30 years of petroleum industry experience.

You need this information!

* If you are a trader: You need to know what affect these turnarounds will have on market prices. One turnaround can have a major impact on the market - we give you advanced warning so you can protect yourself.

* If you produce crude or market products: These turnarounds directly affect your margins - you need to know when they occur in order to accurately assess your best supply and demand strategies.

* If you service the industry: This information is vital, giving you the inside track to equipment and service opportunities well before the competition learns of them.

* If you analyze market trends or forecast prices: You must have accurate maintenance data if your forecasts and analysis are to be accurate. REPLY TODAY!

To receive more information on this essential service, please email <mailto:rlippock@energyargus.com>" or call 202-775-0240 ext 304.

FREE TRIALS TO OUR OTHER PRODUCTS!

For more information and FREE trials to Petroleum Argus' line of other publications and services, visit our website at <http://www.petroleumargus.com>

If you would rather not receive Argus promotions please follow the instructions below:

If you would prefer not to receive further messages from this sender: 1. Click on the Reply button. 2. Replace the Subject field with the word REMOVE. 3. Click the Send button. You will receive one additional e-mail message confirming your removal.

FYI - Notice Posted on FERC Website this morning.

UNITED STATES OF AMERICA FEDERAL ENERGY REGULATORY COMMISSION

NOTICE OF PUBLIC MEETING ON WHOLESALE POWER MARKETS AND TRANSMISSION SERVICES IN CALIFORNIA

(September 1, 2000)

On September 15, 2000, the Federal Energy Regulatory Commission is planning to convene a public meeting in San Diego, California to allow interested persons to give the Commission their views on recent events in California's wholesale markets. While the Commission is finalizing arrangements for a meeting on September 15th, the Commission may need to change the meeting to a different date within the week of September 11th. A further notice will be issued confirming the date. The meeting is scheduled to begin at 9:00 a.m., at the San Diego Concourse, the Copper Room, 202 C Street, San Diego, California 92101. All interested persons may attend the meeting. The meeting will be transcribed. A separate notice will be issued before the meeting, setting forth an agenda and identifying the panels of participants. Additional information

may be obtained from the Office of External Affairs at (202) 208-0870. Information also may be obtained from the Commission's web page at www.ferc.fed.us.

Edison Charges Gas Market Manipulation

Southern California Edison filed a motion late last week with the California Public Utility Commission seeking emergency relief from high spot gas prices on which its power purchase rates are based. The company told the CPUC that Southern California Border (Topock, AZ) prices in the last month have risen by \$2.50/MMBtu possibly because of market manipulation, in particular the withholding off of the market of pipeline transportation capacity between the supply basins and the California border.

"[T]here is substantial and compelling evidence that the basis differential has been and continues to be grossly distorted by market power abuse, collusion and affiliate self dealing of out-of-state gas suppliers and merchants," Edison told the CPUC.

The company noted the CPUC already has filed a Section 5 complaint with FERC regarding this issue and is seeking a rescision of "certain allegedly collusive contracts which it contends have permitted out-of-state natural gas suppliers and their affiliates to drive up artificially California border gas prices by wrongfully withholding capacity." It notes the complaint "conservatively estimates that the anti-competitive manipulation of the basis differential has already damaged California gas and electricity users by \$100 million annually since the beginning of 1998."

Edison seeks an expedited order authorizing it to use the posted gas price of \$4.5133/MMBtu, which was applied to SCE's August 2000 avoided cost posting, to calculate its payment obligations to qualified power producers for the month of October and every month going forward. It estimated September bidweek border prices would average \$7/MMBtu. If such prices were used in Edison's September avoided costs posting, its Transition Formula payments to certain independent power producers will be \$29 million more than the month prior, the company told the CPUC. "No mechanism exists to recapture the increase in such payments if it is later determined by this commission or in another forum that the Topock border indices are unreliable at this time."

RE: Contract terminations

Sender	michelle.lokay@enron.com
Recipients	['perry.frazier@enron.com', 'jeffery.fawcett@enron.com']
File	lokay-m/tw_commercial_group/1210.

The contracts that have either terminated or that had ROFR expire within the last 6 months are: Vastar #24926 for 4000/day, Burlington #25067 for 15000/day, Emerald #24568 for 32000/day, ENA #24654 for 8000/day, Valero #24809 for 20000/day, Conoco #20835 for 20000/day, Amoco #25700 for 25000/day, Duke #27137 for 10000/day, PNM #24194 for 40000/25000/10000/day, BPEnergy #24926 for 26000/day, and Agave #26490 for 70000/day. Most of this capacity has already been resubscribed. I will also pull each contract to verify if the deliveries are on the east end of our system.

-----Original Message-----

From: Fawcett, Jeffery Sent: Tuesday, March 13, 2001 9:48 AM To: Lokay, Michelle Cc: Frazier, Perry Subject: Contract terminations

Michelle, Do you have any record/recollection of East Flow contracts/capacity that may have terminated and/or became available in the six month period, say from Sept. '00 through Feb. '01? I recall that Enervest and ENA (32/8 MMcf/d respectively) became available on Jan. 1. Other examples? PG&E Trading? I need a complete (as possible) list of when they came available. Based on an earlier conversation with Perry, I don't think there was necessarily a reflection of the availability on the board inasmuch as the capacity was probably already showing available. Can you work with me to get this info?

IVOLUNTEERI The Ronald McDonald House needs volunteers to help prepare and serve dinner to ill children and their families this Thursday, July 27 from 6 p.m. - 8 p.m. If you are interested in volunteering or would like more information, please call 713.795.3575.

Volunteers Needed to Bowl For The Cure! Join Enron and the Muscular Dystrophy Association for their annual Beach Bowl fund-raiser to find a cure for Lou Gehrig's Disease, July 29 at Funplex. You can sign up yourself or a team of five. Can't bowl? That's ok, you can still help by raising donations. Everyone participating is eligible to win great prizes, including airline tickets and hotel reservations to an exotic location! Register now by calling Sandy Hoelscher at 713.345.6006. For more information, visit <http://home.enron.com/cr>.

Festa Italiana! The Federation of Italian-American Organizations of Houston is now recruiting volunteers for its annual Italian Festival held September 15-17. Opportunities include assisting in Federation booths for beverages, food, promotional material, children's area and VIP tent. If you are interested, contact Rachel Feldt at 713.345.7629. For more information, click here <http://home.enron.com/cr>.

The United Way Kick-Off is just around the corner and we need volunteers to help at the event. If you are available on August 9 from 11 a.m.- 2 p.m. and are interested, please contact Rachel Feldt at 713.345.7629.

Participate in the debut of Enron's new hire news program, Enron At A Glance on Wednesday, July 26. The New Hire Network Team needs volunteers to usher and register our new employees from 7:30 a.m. - 8:30 a.m. Breakfast will be served. Feel free to stay and enjoy the show. For more information, contact Jeff D. Davis at 713.345.8908 or Angela Sprock at 713.853.6335

IHAPPENINGSI Hey Enron, Is That Your Final Answer? Don't forget to fill out your "Who Wants to Help Millions" on-line questionnaire for our United Way Kick-off Contest. Answer all of the questions correctly and you could win a spot on the United Way/Enron Gameshow on August 9th!

Get Your Tickets On-line Now for Enron Night at Enron Field! Join us for the game on Thursday, August 8th. Tickets are only \$8 each, limit 1 pair per employee. Click here to purchase your tickets http://166.90.156.218/acb/showprod.cfm?&DID=13&CATID=32&ObjectGroup_ID=44 or go through the Signature Shop on-line. For more information about the game, visit <http://home.enron.com/cr/>.

You are invited attend the Knowledge Beginnings Back Up Child Care Center Open House, July 24 to 28 from 11:00 a.m. - 2:00 p.m. The center is located at 777 Clay Street. RSVPs are required. Contact Susan Bohannon at 281.681.8317 or via e-mail at sbohannon@klcorp.com. Please bring picture identification (i.e. drivers license, Enron ID). Representatives will be in the Enron Building lobby this Thursday-Friday (July 27 to 28) from 11 a.m. - 1 p.m. to provide more information about Knowledge Beginnings. Click here for more details <http://home.enron.com/cr/>.

The Birds and the Bees and the Flowers and the Trees! All gardeners are invited to attend the Wild@Work Brown Bag Lunch on Friday, July 28 in EB 5C2 from 11:30 a.m. - 12:30 p.m. Maggie Honig, a science teacher at the Kinkaid School, will be speaking on Garden Ecology - the relationships between plants and the insects, birds, and other critters in your backyard garden. Please RSVP to Teresa Nava at 713.646.7668.

The Summer Slam Indoor Volleyball Tournament will be held on July 29, 2000 at the Spike Sport Volleyball Club. You can either form your own team or play as an add-on. Food and drinks are provided and cash prizes will be given to the top 3

teams. For more information, please contact Traci Nguyen at 713.853.9032.

Join Downtown Houston for it's 17th Annual National Night Out, Tuesday, August 1st from 11:00 a.m. - 1:00 p.m. in Antioch Park. Celebrate the fight against crime with Houston's law enforcement authorities. The first 400 Enron employees to donate a grocery bag of non-perishable items (benefiting the Star of Hope) on Friday, July 28 in the Enron Building lobby from 1 - 3 p.m, will receive a complimentary T-shirt. For more information, contact Marcia Broom at 713.853.5362.

From: Doll, Jeanette Sent: Tuesday, March 05, 2002 11:12 AM To: Moore, Jan; Lokay, Michelle Subject: FW: Conoco Contract Nos. 20747 & 20748

We still need to bill Conoco the TCR II Surcharges on 20,000 MMBtu per day. Maybe Michelle can get with Conoco and see how they want it billed. If they want it billed on their new contract, maybe we can do an amendment. If they want it billed on the old contracts, then you need to contact someone in the contract group to see how we bill it since the contracts are expired (i.e., overriding the CBS system or something).

Jeanette

-----Original Message-----

From: Moore, Jan Sent: Monday, March 04, 2002 10:38 AM To: Doll, Jeanette; McConnell, Mark Cc: Donoho, Lindy Subject: Conoco Contract Nos. 20747 & 20748

Jeanette:

I just reviewed the handout for your presentation on the Global Settlement. One of your slides stated that the TCR surcharge is applicable for 10 years from the Global settlement, even if the CFS's contract expires.

Conoco Contract Nos. 20747 & 20748 expired at the end of February. I assume we should bill the TCR surcharge for these contracts beginning in March, 2002. Please let me know if this is correct.

Thanks!

Re: Status of PNR Contracts

Sender	michael.bodnar@enron.com
Recipients	['cynthia.rivers@enron.com', 'debbie.moseley@enron.com', 'richard.hanagriff@enron.com']
File	lokay-m/tw_commercial_group/120.

Please write-off the balances held on the contracts listed below. I cannot find any current information to verify the existence or final resolution of account balances for the subject contracts. A review of our billing records reflects that the contracts have not been invoiced since December 1998. The net loss of revenue will be negligible compared to the ill will that would be generated in attempting to bill these all-but-forgotten, year and a half old P&R quantities.

The monthly invoicing file now tracks P&R quantities carried over from month to month. This practice should prevent this problem from occurring in the future.

Note: There are currently two shippers with P&R balances that have carried over from previous months. - Reliant PO# 27060 has 1,514 MMBtu parked at POI# 500621 since April 2000 and Sempra PO# 27255 has 6,000 MMBtu parked at POI# 500615 since June 2000. We will work with Darrell to get these quantities returned to these shippers.

Cynthia Rivers 08/11/2000 04:56 PM To: Richard Hanagriff/ET&S/Enron@ENRON, Debbie Moseley/ET&S/Enron@ENRON cc: Teresa McOmber/ET&S/Enron, Michael Bodnar/ET&S/Enron@ENRON

Subject: Re: Status of PNR Contracts

Richard, today I gave Mike Bodnar the PNR contracts listed below to review. I'll let you know what the "fix" will be once the Storage desk decide what needs to be done; write-off, bill, or maybe even netting two of the contracts.

Richard Hanagriff 07/31/2000 07:22 PM To: Cynthia Rivers/ET&S/Enron@ENRON, Teresa McOmber/ET&S/Enron@ENRON cc: Debbie Moseley/ET&S/Enron@ENRON

Subject: PNR Contracts

Please resolve the old PNR balances below. E-mail Debbie and myself as to how the balance was resolved. thanks

----- Forwarded by Richard Hanagriff/ET&S/Enron on 07/31/2000 07:21 PM -----

Debbie Moseley 07/30/2000 09:41 AM To: Richard Hanagriff/ET&S/Enron@ENRON cc:

Subject: PNR Contracts

Richard,

Please have the market service reps clean up the old PNR contracts that have outstanding balances. These balances date back to 1998.

The contracts and volumes are:

Noram 26437 -1 Pancandian 26494 378 Pancandian 26496 18 PNM 26608 20,000 PNM 26630 -20,000

Thanks for your help,

Debbie

Transwestern Capacity Release Invoice for Feb 2002 - ENA/Burlington

Sender	elizabeth.brown@enron.com
Recipients	['michelle.lokay@enron.com', 'paul.y'barbo@enron.com', 'richard.hanagriff@enron.com', 'amy.mulligan@enron.com']...
File	lokey-m/tw_commercial_group/1775.

Please be advised that a manual adjustment will need to occur on ENA's contract 24924. The deal was structured whereby TW would receive a marketing fee equal to 50% of the rate negotiated in excess of the original contracted rate between ENA and TW; the other 50% goes to ENA.

Here's the basics: ENA's contract with TW is at a daily rate of \$0.0600 (one-part) The release to Burlington is at a daily rate of \$0.1020 (demand only plus applicable commodity and fuel based on usage) TW will bill Burlington through normal course of business (reservation of \$71,400 [$\$0.1020 \times 25,000 \times 28\text{days}$] plus applicable commodity fees) ENA demand invoice will need to be adjusted so that they only receive a capacity release credit of \$56,700 [$(\$0.1020 - \$0.0210) \times 25,000 \times 28\text{days}$] Amy - please do an adjustment of the capacity release rate by inputting a discount of \$0.0210 for this line item on the manual invoice. Richard - When payment is received from Burlington for their acquisition, please process the credit amount of \$14,700 to ENA. TW will need to book marketing fee revenues of \$14,700 [$\$0.0210 \times 25,000 \times 28\text{days}$] Richard - Has a separate account been established for these revenues?

If you have any questions, please let me know.

Elizabeth

-----Original Message-----

From: Brown, Elizabeth Sent: Wednesday, February 27, 2002 8:29 AM To: Giambrone, Laura; Hernandez, Bert; McEvoy, Christine; Miller, Beverly; Miller, Christopher L; Minter, Tracy; Mulligan, Amy; Ward, Linda; Donoho, Lindy; Lindberg, Lorraine; Lohman, TK; Lokay, Michelle; Watson, Kimberly; McConnell, Mark; Y'barbo, Paul; Buchanan, John Cc: Dietz, Rick; Lee, Dennis Subject: Transwestern Capacity Release Report for February 2002 Reservation Invoices

Attached is the file to be used for demand invoice verification for January 2002 capacity release transactions. If you have any questions, please feel free to contact me.

FYI - Based on the flash invoices I generated last night for the capacity release transactions and global settlement contracts, please note the following: ENA K #24924 Res - manual rate adjustment is needed for the 50/50 split of marketing fees for capacity released to Burlington Conoco K #20748 Res - delete the Thoreau to E. Thoreau line item Conoco K #20835 Comm - delete authorized overrun line items and roll volumes up to the commodity charge type Texaco K #25923/25924 Comm - when verifying fuel rate of 4.5% between the lateral and mainline contract sched volumes, there is a difference that could not be attributed to rounding. Need to verify if difference is caused by makeup volumes; and if delivery makeup scheduled, then invoice should be adjusted accordingly.

Please remember that the notes above are based on data as of 2/26/02. I will review again on the 1st.

Schedulers - Please provide a final copy of the delivery tolerance report to both me and Marketing so it can be determined if makeup will affect the rate to be charged [some contracts are based on calculations, especially when charging incremental fees for alternate point usage].

Wild Goose Storage Open Season and the Ruby Pipeline

Sender	benledene@aec.ca
Recipients	['e-mail <.barry@enron.com>', 'billhogue@aec.ca', 'e-mail <.angela@enron.com>', 'hogue@enron.com', 'vallow.alan@...]
File	lokay-m/tw_commercial_group/1100.

This note is to remind you of the May 22 deadline for indicating your interest in booking capacity at an expanded Wild Goose gas storage facility.

We also wish to inform you that AEC has now decided to participate in a group that is examining the feasibility of the Ruby Pipeline, which is being proposed by Colorado Interstate Gas to serve the western United States. The proposed Ruby line would have a capacity of 750 million cubic feet per day and deliver gas from Wyoming to northern California with a connection to the Wild Goose storage facility. The addition of a large new pipeline in this region would also offer Wild Goose storage customers a more liquid trading hub in the heart of the volatile California gas market. AEC's preliminary assessment of this proposed project is that it provides a very competitive means of delivering additional supply flexibility into California from the growing U.S. Rockies production basin. If you have any questions about the specifics of the opportunities to ship gas on the Ruby Pipeline, please call Ed Miller at (719) 520-4305 and Tom Dobson at (719) 520-4606 with Colorado Interstate Gas or if you have questions about obtaining capacity at Wild Goose, please call either Ben Ledene with Wild Goose Storage at (403) 266-8192, or Chris Price at (530) 525-0490 and Mark Baldwin at (925) 243-0350 with Interstate Gas Services.

As we all plan to serve the growing California energy market, we encourage you to consider all the marketing opportunities available to you by having a strong gas storage position at an expanded Wild Goose.

Conoco notice

Sender	susan.scott@enron.com
Recipients	['michelle.lokay@enron.com', 'lindy.donoho@enron.com']
File	lokay-m/tw_commercial_group/1220.

Here is a notice letter to Conoco terminating Agreements 20835, 20747 and 20748. Please be advised that under the 365-day notice provision of 20835, there is a chance that Conoco could take the position that we have given notice one day too late and the contract therefore does not terminate until the end of the first renewal term, or February 28, 2003. Ditto for the other two agreements (except they could only claim the agreements are effective until the end of March 2002). To be on the safe side, I've included an "acknowledged and agreed to" signature block (even though Conoco is not required to consent to a timely notice of termination). Any questions -- let me know.

ETS and Corporate Change Control

Sender	center.ets@enron.com
Recipients	[]
File	lokey-m/deleted_items/234.

The following items were discussed in this weeks corporate change control...

Feb 27 From 5:00 - 6:00 p.m., Enron Network Services will block all ICMP messages from all Internet routers. These changes will be made on the Houston, Ardmore EIN, and Omaha Internet routers. No impact is expected.

Feb. 27 From 9:00 - 10:00 p.m., the Messaging team will upgrade Nahou-MSBES01P, Nahou-MSBES02P and Nahou-MSBES03P to SP2 and apply a hotfix. This change will result in a five minute delay sending and receiving Blackberry messages.

Feb 28 From 7:00 p.m. through 3/1 at 1:00 a.m., the Unix team will upgrade the ftp.enron.com server from existing Ultar2 to E450 as well as upgrade ftp to Proftpd ver. 1.2. This maintenance will result in a total outage of the ftp.enron.com site. The old sites moby.enron.com and sparky.enron.com will no longer exist after this change. Support staff should ensure jobs going to the enron ftp server use ftp.enron.com. Any questions about this maintenance, contact me at 713-853-3381 or 713-859-6676.

Mar. 6 At 12:00 p.m., the Gas Measurement team will decommission the MIPS server (IP address 192.168.175.62). All users and processing should be pointing to PGAS as the MIPS system is not longer being updated. The MIPS server will be powered off at this time but the equipment will not be moved until later.

File	lokay-m/tw_commercial_group/784.

Rich, The POGO well isn't completed yet. They expect to be down within three weeks. This well is adjacent to the big EOG well that came into our system a couple of months ago and is in the same formation. The EOG gas is still good gas so far. Hopefully POGO's gas will be the same. Thanks, Arnie

Rich Jolly 01/18/2001 09:02 AM To: Michelle Lokay/ET&S/Enron cc: Arnie Bailey/ET&S/Enron@ENRON, George Kneisley/ET&S/Enron@ENRON, Team Carlsbad/ET&S/Enron@Enron, Mike McCracken/ET&S/Enron@Enron, Darrell Schoolcraft/ET&S/Enron@Enron

Subject: Re: Pogo Interconnect

Mike this is in your court now. Can it be installed by the middle of February? Arnie has anyone seen a gas analysis on this? Thanks Rich

Michelle Lokay 01/18/2001 08:42 AM

To: Arnie Bailey/ET&S/Enron@ENRON cc: Rich Jolly/ET&S/Enron@ENRON, George Kneisley/ET&S/Enron@ENRON, Team Carlsbad/ET&S/Enron@Enron, Mike McCracken/ET&S/Enron@Enron, Darrell Schoolcraft/ET&S/Enron@Enron

Subject: Re: Pogo Interconnect

According to John Havard with Pogo, we are to continue on. With the work order approved, I was told the landowner's notification had already begun. Pogo is buying the required equipment (including chromatograph, monitors, etc.), per our specifications. They will own the equipment, but we will operate. Let me know if you guys have additional information...is this still possible by the middle of February? Thanks.

Rich Jolly 01/17/2001 05:46 AM To: Arnie Bailey/ET&S/Enron@Enron cc: Michelle Lokay/ET&S/Enron@Enron, George Kneisley/ET&S/Enron@ENRON, Team Carlsbad/ET&S/Enron@Enron, Mike McCracken/ET&S/Enron@Enron, Darrell Schoolcraft/ET&S/Enron@Enron

Subject: Re: Pogo Interconnect

Thanks Arnie. Even if Pogo owns the meter station we want to operate it including the flow control. This is one of the ways we're keeping our UAF down. If I can help let me know. We do need to discuss who will operate the facilities asap. RJ

Arnie Bailey 01/16/2001 03:55 PM

Subject: Pogo Interconnect

Michelle,

I was wondering where we stand now on the Pogo interconnect South of WT-1 on the West Texas Lateral. Per our phone conversation a few days ago it sounded like the 30 day landowner notification would be the biggest hold up. What will be the design capacity for the interconnect? I think you told me, but I can't find it in my notes. My understanding is that there will be a chromatograph, sulfur monitor, water monitor, flow control and a way to shut in if pressure reaches our MAOP. Also, who will own and operate the station? Let me know if I'm off base on any of this or what I've missed and also don't hesitate to call if you need anything. Please let us know as things progress.

Thanks, Arnie

August 2000 - Park and Ride	
Sender	michael.bodnar@enron.com
Recipients	['morgan.gottspomer@enron.com', 'cynthia.rivers@enron.com', 'beverly.miller@enron.com', 'kay.threet@enron.com']...
File	lokay-m/discussion_threads/380.

Attached is the August 2000 billing for park n ride.

Please note: Reliant (PO 27060) carryover quantity of 1,514 MMBtu from previous month - \$1,408.02 (This qty was carried over from April. Reliant withdrew the gas on AUGust 31st) Sempra (PO 27255) had carryover quantity of 6,000 MMBtu (from June) Withdrawals were nominated several days in August but the nominations were nver scheduled. Sempra's invoice amount is \$5400. Duke (PO# 27266) made a series of mistakes in scheduling their pnr activity. An adjustment has been made to Duke's invoice amount.to reduce the total invoice from \$5,404.90 to \$3,704.90.

If you have any questions, please call me at x36486.

PPL #27641

Sender	michelle.lokay@enron.com
Recipients	['craig.buehler@enron.com', 'dennis.lee@enron.com']
File	lokay-m/sent_items/57.

Approved. Please increase, on Amendment #4, the West Texas receipts from 14,265 to 18,000 effective Nov 2002-Feb 2003. This will still leave a balance of 2,000 at the "East of Thoreau" area. The Red Rock administration contract will also need to be adjusted. Thanks.

-----Original Message-----

From: dlsmith@pplweb.com [mailto:dlsmith@pplweb.com] Sent: Thursday, January 03, 2002 8:25 AM To: Lokay, Michelle Cc: jacammarano@pplweb.com; baveety@pplweb.com Subject: West Texas Pool

Michelle,

Per our conversation on January 2, please assign 3735/dth of available West Texas Pool receipts for contract 27641 during the four months beginning November, 2002 and ending February, 2003. We will continue to look for the remaining 2000.

As for Amendment 3 which increased our West Texas receipts to 14265 during the period described above, I do not see anything. Can you send me another copy and I will get that signed today. Sorry for the confusion.

If you have any questions, please give me a call.

Best Regards David

One-part vs Two-part Flag on TW Contracts

Sender	elizabeth.brown@enron.com
Recipients	['craig.buehler@enron.com', 'amy.mulligan@enron.com', 'laura.giambrone@enron.com', 'michelle.lokay@enron.com', ...]
File	lokay-m/tw_commercial_group/932.

The following contracts were truly negotiated as one-part rates (inclusive of reservation, commodity and surcharges):

K# 24194 PNM \$0.1100/dth K# 24568 Enervest \$0.2200/dth K# 24654 ENA \$0.2175/dth

The way the invoice system is designed, all contracts identified as one-part automatically generate 'credits for commodity' on the reservation invoice. However, this causes us to underbill the shippers because these rates bump up against the max tariff demand rate. In the past, we switched the flag to be two-part to minimize the amount of manual invoice corrections for the schedulers.

Because we are briefing contracts and beginning our data conversion review/process for the new ETS contracts system, we will correctly reflect the contract as negotiated. Therefore, effective with September 2001 invoices, schedulers must remember to delete the credits for commodity on these invoices. Also, the marketers will need to ensure the input of any discounts (commodity and/or demand GRI surcharges), if necessary, to guarantee that TW does not overbill these shippers.

Bottom line, make sure that the total amount invoiced on the reservation and commodity invoices combined for these contracts =

Rate listed above * Contract MAXDTQ * Number of Days in Month

If you have any questions about this process, please contact me.

Thanks, Elizabeth

EPA Request

Sender	40enron@enron.com
Recipients	[]
File	lokay-m/enron_t_s/159.

Recently, Enron Corp received a request from the U.S. Environmental Protection Agency (EPA) to provide information relating to any spill, discharge, or release of "oil" (broadly defined but excludes natural gas or liquid petroleum gas) from any EOTT pipeline facility for the time period from July 1, 1998 to July 7, 2001. A "pipeline facility" includes those fleet operations where tanks are connected by/to pipelines or to other tanks through piping and in which any EOTT entity owns an interest. The EPA request seeks detailed information concerning releases of "oil" during this period, including among other things, the extent and nature of the spill, which EOTT or EPSC representative/employee was the first to learn of the spill, remedial efforts, weather conditions at the release site, etc. The request also seeks information concerning pipeline management system(s) in place during this three-year period and efforts or investments made by EOTT to prevent the release of "oil," including capital costs, expenditures and maintenance costs.

In order to respond to the EPA information request, you are instructed to identify and locate any relevant documents or information and ensure that no responsive information or documents are destroyed or discarded. You may be contacted about this inquiry in the near future, because we will be sending teams to many of the field locations to assist employees in identifying and locating documents responsive to the EPA's information request. If you believe you have relevant information or responsive documents but have not been contacted/visited by one of our teams by August 17, 2001, please contact the designated document custodian, Don Hawkins (713-646-7358).

Due to the length of the EPA information request, we have not attached the = document here. However, if you would like a copy, have any questions concern= ing the scope or nature of the request, or have any questions regarding th= e document collection process, please contact Lou Soldano (713-853-7237) or= Dave Nutt (713-853-7267).=20

Thank you for your cooperation.

File	lokay-m/all_documents/318.

Some contractual options to consider for 2001resubscription assumptions:

Ctrc 25071 Amoco May reduce MAXDTQ San Juan to CA Border by 10,000/d (6,500/d from Ignacio and 3,500/d from Blanco) Please note: These volumes are not reflected in the resubscription volumes below. Notice: 6/3/01 Effective: 11/30/01 (Rate ranges from \$.175 to .205 for the remainder of the 90,000/d contract term)

Ctrc 26490 Agave May extend contract to 10/31/02 or 10/31/03 Notice: 4/1/01 Effective: 11/1/01 (Extension rates: 70,000/d West at \$.15, 40,000/d East at \$.07)

Ctrc 24194 PNM May extend contract for 1-15 years Notice: 9/30/00 Effective: 10/1/01 (Seasonal 40,000/25,000/10,000/d MAXDTQ EOT to EOTat \$.11 rate)

Lindy Donoho 08/15/2000 11:34 AM To: Kevin Hyatt/ET&S/Enron@Enron, Jeffery Fawcett/ET&S/Enron@ENRON, Lorraine Lindberg/ET&S/Enron@ENRON, TK Lohman/ET&S/Enron@ENRON, Michelle Lokay/ET&S/Enron@Enron, Christine Stokes/ET&S/Enron@ENRON cc: Steven Harris/ET&S/Enron@ENRON, Ray Stelly/ET&S/Enron@ENRON

Subject: 2001 Plan - Resubscription Assumptions

Please let me know your availability to meet for 1-2 hours either Wednesday or Friday afternoon to discuss the resubscription assumptions for the following blocks of capacity that become available in the year 2001. It would be helpful to get some long-term and short-term quotes before our meeting (so maybe Friday is better) to discuss the future value of this space. (Of course, contracts can extend past Dec-01, but these are the months we need for the plan.) Let's discuss various combinations of these segments as well (for example: Can we get more for IG to BL space if we ultimately combine to subscribe IG to WOT?)

EOT to WOT 20,000/d Feb-Dec EOT to WOT 70,000/d Nov-Dec EOT to WOT 8,000/d Apr-Dec (Currently subscribed at \$.13 to .15)

BL to TH 20,000/d Dec (Currently subscribed at max)

EOT to EOT 10,000/d Mar-Dec EOT to EOT 15,000/d Apr-Dec EOT to EOT 25,000/d Oct-Dec (currently sold seasonally 40/25/10) EOT to EOT 440,000/d Nov-Dec (Currently subscribed at \$.0075 to .11)

TH to EOT 20,000/d Dec (Currently subscribed at max)

IG to BL 48,000/d Jan-Dec IG to BL 4,000/d Feb-Dec IG to BL 15,000/d Dec (Currently subscribed at \$.03 to .06)

S. IG to BL 158,500/d Jan-Dec S. IG to BL 26,000/d Feb-Dec (Currently subscribed at \$.02 to .06)

Thanks! Lindy

RE: Thanks

Sender	julie.armstrong@enron.com
Recipients	['michelle.lokay@enron.com', 'eric.gadd@enron.com']
File	lokay-m/tw_commercial_group/1147.

Eric: Michelle and I discussed with Cindy/Telepathy and confirmed the following details.

Marvix phone will installed within 5 days, no later than May 1st. Marvix phone will be a white Panasonic model with two lines, speaker phone and voice mail capabilities 750 prefix will not be associated with Enron trunks lines Marvix phone will go straight to voice mail, can check messages (message waiting feature)

Please call me or Michelle at x57932 if you have any questions. Thanks.

Eric Gadd 04/18/2001 12:17 PM To: Julie Armstrong/Corp/Enron@ENRON cc:

Subject: RE: Thanks

Julie,

We're going to have to work out some kind of phone coverage capability - - - any ideas??

Julie Armstrong 04/18/2001 10:28 AM To: Eric Gadd/ET&S/Enron@Enron, Michelle Lokay/ET&S/Enron cc:

Subject: RE: Thanks

Please advise if the 750 exchange and set-up is acceptable. ----- Forwarded by Julie Armstrong/Corp/Enron on 04/18/2001 10:29 AM ----- From: Cynthia Siniard/ENRON@enronXgate on 04/18/2001 10:21 AM To: Julie Armstrong/Corp/Enron@ENRON cc: Ivan Howard/ENRON@enronXgate

Subject: RE: Thanks

Julie - we can assign a centrex line (713-750-xxxx) number for him. I will have to order call notes from SWB (monthly charge) on this for his voicemail. This will work totally different from the Lucent phone with it's only feature being call notes. Please be sure Eric understands this. I'll let you know the due date this will all be completed. It will probably be another 5 working days to get the order completed by Bell.

Let me know if you have any questions. I apologize for the delay...this request did not make it to my group.

Cindy Siniard Enron Net Works, LLC Enterprise Telephony Services - EB 2656E 713-853-0558 (office) 713-853-9828 (fax) 713-410-8244 (cell) <mailto: cynthia.siniard@enron.com>

From: Armstrong, Julie Sent: Wednesday, April 18, 2001 7:59 AM To: Siniard, Cynthia Subject: Thanks

Please see the initial request from Michelle Lokay and my follow-up below. Thanks. ----- Forwarded by Julie Armstrong/Corp/Enron on 04/18/2001 07:59 AM -----

Julie Armstrong 04/06/2001 10:24 AM To: Grace E Warren/HOU/ECT cc:

Subject: Thanks

Grace: It was good to talk to you and thank you for your assistance yesterday. Louis Porter quickly resolved issue and I learned a feature on the phone system. I have an unique request and wanted to get your expert assistance on the below request. The physical phone will need to be set up in Eric Gadd's office, EB4162. The phone should have the features such as voice mail and send calls. Charge to Co#1439, Cost #112442. If you have any questions, please call me at x33597. Thanks. ----- Forwarded by Julie Armstrong/Corp/Enron on 04/06/2001 08:44 AM

----- From: Michelle Lokay/ENRON@enronXgate on 04/05/2001 11:14 AM To: Julie Armstrong/Corp/Enron@ENRON cc:

Subject: Mavrix phone

Per Legal's recommendation, please order another phone for Eric Gadd. He is the officer representing Mavrix and needs a phone number that is not associated with Enron (no 853 or 345 prefix). Thanks.
