-----Original Message-----

From: Gadd, Eric Sent: Thursday, December 13, 2001 1:21 PM To: McCarty, Danny Cc: Armstrong, Julie; Wadle, Susan Subject: Christmas Holiday

Danny,

I plan to go to West Virginia over the holidays. We leave Friday, 21 Dec and return Monday, 1 Jan. I'll be staying with relatives. Contact details are-

Betty Michael (Pat's mother) 160 Sunnyvale Drive Charleston, WV 25302 tel. 304-343-9788

Nanya Friend (my sister) 1424 Sweetbrier Charleston, WV 25314 tel. 304-343-7074 office. 304-348-5124 email: nanyaf@dailymail.com

I will be available for calls on my mobile phone (713-775-6446) and will have my Blackberry at hand for messages. Pat will also have her mobile (713-306-8528).

If anything kicks on Alaska, I can be available immediately. Please let me know if I need to be in the office to cover.

Electronic Pay Stubs

Sender	enron.payroll@enron.com
Recipients	['danny.mccarty@enron.com']
File	mccarty-d/inbox/personal/13.

Get ready. Beginning in November, electronic pay stubs will be available to all employees who have their paychecks direct deposited into their bank account. Electronic pay stubs are an easy, fast, and efficient way for you to get your payroll information. They will also help Enron to realize a considerable savings in time and dollars spent over traditional printed pay stubs.

If you prefer to receive a hardcopy of your pay stub, click on the link below to complete a request form. This form must be submitted to Payroll by October 15, 2001. Unless you submit a form your pay stub information will default to electronic viewing.

Please click on the link below.

Name: DANNY MCCARTY Personnel number: P00505021 Phone: 713-345-3271

If you have questions about electronic pay stubs, please contact Janice Priddy (Payroll) 713-853-7839 or Marie Newhouse (ClickAtHome) at 713-345-4185 or send an email to Enron.Payroll@enron.com (Enron Payroll in Outlook).

Stay tuned for more details in the coming weeks.

From: Smith, Chris A. Sent: December 04, 2001 1:26 PM To: Patnaik, Anoop Cc: Barnes, Caroline Subject: PROPHETX

Caroline Barnes has asked if you would scan the ETS systems to identify who has the PROPHETX software installed. We're concerned about the name...it could be PROFITX. However, Danny McCarty has it installed, so you could check the spelling there.

Would you please provide her with a report? If you have any questions, please feel free to call me at 33270 or Caroline at 36375.

Thanks, Chris

From: Armstrong, Julie Sent: Monday, October 15, 2001 10:26 AM To: 'tmcgill@nsource.com' Cc: 'pmcleod@nsource.com' Subject: October 27th Huskers vs. Oklahoma

Please note that Husker gear (sweatshirts, wind jackets and hats) will be given out on the plane.

Thank you for agreeing to join Enron at the Huskers vs. Oklahoma game on Saturday, October 27th in Lincoln, Nebraska.

The game time has not been determined (Game time is at 11:00 a.m.) and a tentative flight schedule for the Houston attendees is as follows.

7:00 am departure from Houston and 4:00 pm departure from Lincoln.

The flight times may adjust when the game time is determined.

I will furnish information and directions to the Enron hanger closer to the game date.

If you have any questions, please call me at 713-853-3597. Thank you.

Julie Armstrong Enron 713-853-3597

FW: McCarty Itinerary - 11 November

Sender	julie.armstrong@enron.com
Recipients	['danny.mccarty@enron.com']
File	mccarty-d/inbox/7.

Danny: Please see your travel itinerary for SGA Conference. Note that Sunday departure was required as no Monday flights would get you in time for conference and were connections (example, American flight departing at 6:10 am with arrival into Palm Beach at 11:50. Note, there is a direct later flight on Sunday night, 6:45 pm with arrival into Palm Beach 10:09. Please advise if you want to change to later flight. As you can see it is challenging on the return flight too. I booked you out of Fort Lauderdale as no direct flights from Palm Beach were available. The earlier flight from Palm Beach was a connection with arrival at 7:00 pm into Houston so the 3:04 direct flight out Fort Lauderdale was a better choice. Fort Lauderdale is about 40 miles from Palm Beach. Please advise if you wish to make any changes.

Rod:

As per our phone conversation, the list of information we would like to have follows:

1. FERC Form 2s for the last three years 2. Revenue breakdown: Assumptions made for the contracted period, as well as the time period beyond current contracts - firm/interruptible mix and volumes, tariffs for each type of transportation contract A build up from contracts to the revenues in the model would be ideal 3. As before, compressor gas volumes and assumed sales prices for the projected years 4. As before, the story as it relates to CERA's view of the world 5. Explicit calculation of rate base going forward 6. Employee benefit plan information - funding status, return rates, future liabilities

Thanks Rod.

When you have a time in mind for a call to discuss the above list please contact:

File	mccarty-d/deleted_items/27.

Dear Mr. Miller,

Dan McCarty forwarded your note to me. I am responsible for Asset Development and will contact you on Friday to discuss Enron's level of interest.

Regards,

Eric Gadd -----Original Message----- From: McCarty, Danny Sent: Thursday, October 18, 2001 11:18 AM To: Gadd, Eric Subject: FW: Mackenzie Delta Explorers Group - Interest in a Mackenzie Delta P ipeline

-----Original Message-----

From: "Miller, John D." <JDMILLER@petro-canada.ca>@ENRON Sent: Tuesday, October 16, 2001 10:04 AM To: McCarty, Danny Cc: Le Dain, Eric; Maier, Rod 403 234-5433 Subject: Mackenzie Delta Explorers Group - Interest in a Mackenzie Delta P ipeline

Mr. D. McCarty Managing Director and Chief Commercial Officer Enron Corp.

Dear Mr. McCarty,

I am writing on behalf of the Mackenzie Delta Explorers Group who are a group of seven E&P companies with current and proposed exploration activities in the Mackenzie Delta area. The member companies include Anadarko Canada Corporation, Alberta Energy Company, Anderson Exploration/Devon, Burlington Resources Canada Energy Ltd, BP Canada Energy Company, Chevron Canada Resources and Petro-Canada Oil and Gas.

We are assessing alternatives to transport natural gas from the Delta to southern markets and will soon be engaging in a feasibility engineering design study to assess routing, construction techniques, optimum sizing, pressure requirements, capital and operating costs, liquids handling, gathering systems, environmental considerations and other relevant design parameters.

We are contacting potential strategic alliance partners in the pipeline arena to determine the level of interest of participating in the study and/or contributing information to the Feasibility exercise.

If you require more information and wish to discuss this in more detail, please fell free to contact me (403-296-4824) or Rod Maier (Chevron Canada Resources 403-234-5433).

Thanks for your consideration.

John D. Miller Manager, Natural Gas Marketing 403-296-4824 Phone 403-296-4433 Fax jdmiller@petro-canada.ca

Why would we be buying this as TW?

-----Original Message-----

From: McConnell, Mark Sent: Monday, October 15, 2001 10:58 AM To: Geaccone, Tracy; Hayslett, Rod; Huber, Lee; Kilmer III, Robert; Lokey, Teb; Centilli, James; Abdmoulaie, Mansoor; Gadd, Eric Cc: Harris, Steven; Watson, Kimberly Subject: Southern Trails letter of interest

Attached is a NON BINDING letter of interest to Questar for their Southern Trail Pipeline - west leg. This is their crude pipeline that was purchased with the intention of converting it to a natural gas line but apparently, their interests have changed. The west leg runs from near the California border to Long Beach.

The importance of this non binding bid is to get us into the data room so that we can really take a close look and gather information to see how interested we really are in this pipe.

Please let me know if you have any comments. This letter has gone through legal and will be faxed to Questar today.

<< File: Southern Trails 10-15-01 initial bid.doc >>

Subject: Schedule for Next Week

Hi everyone,

The following is an update on the timing of meetings for next week. Note that we have moved the Regulatory Session to October 11th. Curt Moffatt (from Van Ness) is not available next week due to the ANGTA Senate hearings. I believe that you will appreciate having Curt at the session once you see the knowledge that he brings on such matters. Please let me know if this will work with your schedules.

Could everyone confirm your attendance for the meetings next week with the following information in an email to marty.heeg@foothillspipe.com <mailto:marty.heeg@foothillspipe.com>, with cc to andrew.ilnycky@foothillspipe.com <mailto:andrew.ilnycky@foothillspipe.com> and jane.stothers@foothillspipe.com <mailto:jane.stothers@foothillspipe.com> for each individual attending:

Name, Title Company and Address Phone, Fax, and Cell

The rescheduling of the Regulatory Session has allowed us to consolidate some of the other sessions. We will now be starting the meetings on Tuesday morning at 8:30 AM and finish by Noon on Friday. This will allow everyone to come in on Monday afternoon and return on Friday afternoon. The schedule of meetings will now be as follows:

Engineering / Technical Review - Tuesday, October 2nd and Wednesday, October 3rd

- * Original design basis for ANGTS * Historical information available (route surveys, soil testing, etc.)

- * Review technology advancements * Review cost estimate for 2.5 to 4 bcf/day pipeline * Review J-curve options for alternate size pipeline * Right of way status * Environment status * First Nations status

Liabilities Review - Thursday, October 4th, AM

- * Review history of TAPS and current status and strategy * Review history of Design and Engineering Agreement, current status and strategy * Review Special Charge history, current status and strategy

Commercial Review - Thursday, October 4th, PM and Friday, October 5th, AM

- * Review historic Tariff principles * Discuss options to modernize Tariff in the US and Alaska * Review economic model assumptions * Review toll sensitivities * Discuss ANGTS advantage

And the following week:

Regulatory Review - Thursday, October 11th

- * Review history of Treaty, President's Decision, and Certificates * Review ANGTA and NPA * Political overview: Alaska, Washington, Canada * Discuss status of Enabling legislation in Washington

All meetings are at Foothills Pipe Line office. The address, contact and meeting information is as follows:

707 Eighth Avenue S.W. General phone number: 294-4111

Meetings will start at 8:30 AM. Meeting room TBA (details in the next email).

In addition to the presentation material we will have some information available in binders for you to take back with you. Additional information will be available for viewing in a document room that we are preparing. Please let me know if you want to set up a time in subsequent weeks to review these documents.

Please note that the information that will be presented, handed out and available for review/copy is confidential. Please ensure that your company has signed the Confidentiality Agreement prior to the start of the meetings next week. Please contact Tony Palmer at TransCanada (403-290-2035) with questions on the CA.

Please forward any questions or comments to me at 403-294-4425 or via email at marty.heeg@foothillspipe.com <mailto:marty.heeg@foothillspipe.com> .

Thanks.

Marty Heeg Vice President, Northern Development 403-294-4425

URGENT MESSAGE - PLEASE NOTE NEW DIAL IN NUMBER FOR CONFERENCE

Sender	susan.wadle@enron.com
Recipients	['anngtc.dl-ets@enron.com']
File	mccarty-d/deleted_items/33.

Due to the increased number of conference calls we are having, it has become necessary to have this bridge line more available for our use. This makes a change necessary but only on the dial in number. The pass code will remain the same. Please make note of the new dial in numbers. This will pertain to our weekday (7:15 a.m. CST) calls as well as other future calls.

NEW CALL IN NUMBER FOR U.S. AND CANADA PARTICIPANTS

1-800-711-8000 PASS CODE 683747#

FOR INTERNATIONAL CALLERS

1-614-410-1515 PASS CODE 683747#

IF YOU EXPERIENCE TROUBLE AT ANY TIME DURING THE CALL YOU SHOULD DIAL *0

RE: Updated model

Sender	jebong.lee@enron.com
Recipients	['kay.miller@enron.com', 'anngtc.dl-ets@enron.com']
File	mccarty-d/inbox/alaska_gas/100.

A revised model of the project is in the shared driver. Please check "Iteration" (under Tools-Options-Calculation in Excel) and put Max Iteration at 200 before you open the file.

For "Cost of Service" page, we now have \$0.70 for traditional rate and \$0.59 for levelized rate. We are still \$0.16 away from Foothills \$0.43 but we believe we know what accounts for \$0.11 difference; if we use Foothills assumptions, the levelized rate would go down to \$0.48. However, Foothills pro forma model has some questionable assumptions (e.g. 0% Opex and Capex escalation). I will send you (Mary Kay) assumptions comparison sheet in separate mail. I still couldn't reconcile the \$0.05 difference.

If anyone has any comments or questions, please let me know.

Thanks,

JB

UPDATE

Sender	julie.armstrong@enron.com
Recipients	['danny.mccarty@enron.com']
File	mccarty-d/inbox/83.

Danny: This completes your direct reports accomplishments. Please note that two-online contracts (#42895, #42941) were approved by Craig Buehler. Also that I spoke with HR about the termination letters and big mistake. Apparently many people received the letters due to massive mailing. Please note that if you receive letter, it halts your contribution to your savings plan. I will send out notice to your direct reports in case someone else received same form letter. Dave Neubauer called in to see if there was any news on Northern. Word is out that Citibank is ready to proceed on Trading deal. I saw that you called in today but, when I called you were working out. I spoke with Ben who told me about the electronic scooter (the coolest thing he got for Christmas). Everything is fine. Have a relaxing holiday!

FYI

Sender	julie.armstrong@enron.com
Recipients	['danny.mccarty@enron.com']
File	mccarty-d/inbox/87.

The on-line contracts Request 42975 and 42965, Route 1 were approved by Karen Brostad.

The report for Stan was sent to Cindy (only had three reports) to send in. You were copied on the email.

FYI on the move. Pam Daily received information today from Stan and Rod that the people in the 3AC (Lowry's group) have to be moved by January 18th the lease is being terminated early. Kim Watson called Pam to get status on our move and Pam seemed overwhelmed by this information. Kim has graciously volunteered to assist Pam in coordination of the move and how the moves will affect our move. Kim and I discussed and came up with several alternatives. Kim also suggested that we both assist Pam as we have to get Market Services and the groups placed one floor soon. Pam wanted to move some of the people on 44 and 45 where our group was to moved and move them again when space opened? Kim suggested either 47 or the 13th floor. Mucho space on 47 and I took a rough count of the 13th floor. 10 offices and 82 cubicles. Some of the cubes are very spacious.

Call me at home or on the cell tomorrow if you need anything.

Dan, Ken Rice suggested that I contact you directly after a conversation we had. I will be leaving Texaco at the end of this month as a result of the Chevron/Texaco merger and will be in the marketplace looking for opportunities. I was talking to Ken about the idea of initiating a consultative sales approach with NNG's customer base and selling Enron's extensive portfolio of capabilities. In addition to that I have a business opportunity that provides a real time, web-based measurement technology that may enhance operating capabilities and allow additional services. In discussions with people at NNG that was an area of unexplored opportunity.. but I haven't gotten any resolution. I would appreciate a phone conversation, if any of this sparks your interest. I talked to Julie and she said you had received my resume from Ken and it was forwarded to Dave in Omaha. Thank you for your consideration. Fred M. 402-493-1113 (office) 402-201-6557(cell)

RE: Brian Barrington

Sender	danny.mccarty@enron.com
Recipients	['robert.laughman@kornferry.com']
File	mccarty-d/sent_items/2.

Bob, I've not kept up with Brian for the past several years. I can say, that during the four years that Brian worked for me, he created value every year without having tasks and opportunities handed to him. In fact, even in his worst year, he created \$6.5m. Brian really started our currency arb's (US/Canadian) in 1992 when we worked on Sithe. The concept of a "virtual power station" was co-created by Brian and Joe Gold (his associate) when they sold a virtual pump storage to National Power Ltd. after their failed attempt purchase an actual pump storage in the UK (trading peak against off-peak spreads seems to be no great feat today, but no one had ever done one in 1996). A lot of what we've done the past few years stems back to many of the ground breaking things that Brian and Joe started (including the way that we structured the tolling agreements surrounding our Sutton Bridge Plant in the UK). As for enemies at Enron---I think that they are all gone (Ken, Amanda, Cliff, John Stokes and crew). I think that Mark Frevert still thinks highly of Brian and understands that Brian was put in a bad situation (being put in the middle of the Ken and Amanda thing). I do know that Brian has turned around his life quite significantly--he's very Christian and has a lot less ego than he once had. If I could hire him back, I would. I'd just cut him loose, ask him to make me \$6.0m/yr., and he'd deliver me \$10.0m/yr. I'd take as many of those kind of people that you could find for me. Let me know if I can help further.

Dan

At yesterday's meeting of the ANGTS Commercial Team, it was agreed that Dave, Cavan and I would continue to work together to modify the commercial proposal's executive summary over the next two weeks so it can be sent to the ANS producers on the Friday just before Xmas. In advance of next week's meeting in LA, we will incorporate comments made yesterday (some of which are listed below) as well as any points conveyed to us by the close of business tomorrow. Attached is the exact same version of the document discussed yesterday (in case you did not receive the soft copy the previous evening). Please feel free to provide your comments by e-mail. <<ANGTS_Proposal_Dec6.doc>>

* ANS producers want a pipeline capable of transporting 4.0 to 5.5 bcf/d; 4.0 to 4.5 bcf/d initial volume at Prudhoe Bay. * Provide a basket of pipeline design options; namely, a 42-inch, 2,050 psig line capable of transporting 2.5 to 5.3 bcf/d (loop sections being necessary to achieve volumes above 4.0 bcf/d) and a 48-inch, 2,050 psig line capable of transporting 3.1 to 5.3 bcf/d; also provide the lowest per unit cost means of transporting gas to market. * Indicate how fuel consumption will impact the optimum pipe platform, assuming a fuel cost of US\$0.75/MMBtu. * Provide a range of traditional cost-of-service tolls that includes historic costs (US\$385 mm total) and provides for 14% ROE; consider including capital cost per decatherm of throughput capacity; tolls will not be a binding offer. * Emphasize that the ANGTS "B-to-C" strategy is consistent with NPA and ANGTA. * Describe each "asset" (certificates, permits, legislation, etc.) underpinning the ANGTS timing advantage; reduces risk and increases certainty. * Provide an estimate of the value of the ANGTS timing advantage. * Address specific strategies for dealing with each contingent liability on the theory that used and useful capital will be credited at start up. * Express a willingness to discuss producer equity participation and risk sharing.

From: Shortridge, Pat Sent: Wednesday, September 19, 2001 12:09 PM To: McCarty, Danny Cc: Robertson, Linda; Hartsoe, Joe Subject:

This article demonstrates the difficulty Bingaman will have trying to change current law and roll over the Alaskans.

Pat Shortridge

Article from Today's CQ Monitor

Terrorist Attacks May Tilt Gas Pipeline Route Toward Alaska

The debate over federal support for a pipeline to transport natural gas from the North Slope oil fields of Alaska to the lower 48 is expected to accelerate during the next few weeks because of the terrorist attacks. Alaska lawmakers, who already were pushing for federal dollars to subsidize a pipeline that stays within their state for much of its route, now are citing the

threat to world energy supplies as a new justification. Until now, arguments over a route have turned on economics, with the oil companies that own the gas supply arguing that the route sought by Alaskans is simply not supportable. They want no congressional dictates on routing. Even before the Sept. 11 attacks, Senate Energy and Natural Resources Committee Chairman Jeff Bingaman, D-N.M., described the development of the natural gas pipeline as both an "economic and national security issue." Now, ranking Republican Frank H. Murkowski, R-Alaska, says the attacks will bolster congressional support for the project. "These attacks are evidence to the American public that as we increase our dependence on foreign sources, we abrogate our national security responsibilities." One possible route, commonly referred to as the northern route, would stretch 1,619 miles from Prudhoe Bay under the Beaufort Sea, come ashore in northern Canada and extend up Mackenzie River valley to Edmonton. The other route, commonly referred to as the southern or highway route, would extend 1,982 miles from Prudhoe Bay south to Fairbanks, Alaska, and then toward Edmonton. This route would parallel the Alaska Highway. Northern route supporters, which include the Canadian government, say that it is the only economically viable route. Alaska's Democratic governor and all-Republican congressional delegation support the southern route. They say the pipeline's construction would create jobs for Alaskan workers and allow Alaskan communities to tap into the gas supply. Last week, Joe Handley, resources minister for Canada's Northwest Territories, told a business conference in Yellowknife that Tuesday's attack may have harmed prospects for the northern route. "They may decide that even though the Alaskan pipeline isn't economically viable, they may decide to go ahead with it anyway just to maximize their self-sufficiency," Handley said, according to a Canadian Broadcasting Company report. Although Bingaman has vowed to include language in his comprehensive energy bill (S 597) that would "streamline the regulatory approval process" for construction of a natural gas pipeline from Alaska, "he has always been route-neutral," spokesman Bill Wicker said. However, the chairman is a realist. "If people put in provisions specifying a route, so be it," Wicker said. - Ted Monoson continued from page 1 To tell us of key personnel changes, please call (202) 887-8515, fax (202) 835-1635 or e-mail people@CQ.com. From: Mary Grace Landrum <lan-link@swbell.net>@ENRON Sent: Tuesday, October 09, 2001 11:54 AM To: Armstrong, Julie Subject: Special CTN Security Broadcast - November 1

Danny, CTN, a subsidiary of the SGA, is seeking a corporate sponsor for the special security broadcast described below. We hope Enron will join other industry leaders as a sponsor. We would also welcome someone from your organization on the program, should you wish. Sponsors will enable us to make the program available to companies as a web cast and to include more agency and government presenters by using studios in D.C. Major sponsorships are available for this broadcast at \$15,000 and \$25,000. Host sponsorships are \$2500. Your sponsorship will enable you to receive the program down linked at your office and be invited to the dinner with participating executives on October 31. Please let me know who else I should present this opportunity to at Enron. We plan to send the initial news release this Friday. I will have additional content information after the committee meets later this week. I attached the brochure from our Special broadcast in October so you can see the type of publicity we will be sending. Our standard viewer reach is 100,000 employees. Because of the nature of this broadcast, we expect the numbers to be much higher. Vicky Bailey or Joe Kelleher, Asst. Secretary, DOE have agreed to be on the program, pending no significant changes in world events. FERC Commissioner Brownell and Andrew Lundquist from V.P. Cheney's office have also expressed an interest. Thanks for your

consideration, Mary Landrum CTN Marketing Director 713-722-8307 SPECIAL BROADCAST November 1, 2001 10:30-noon ET, 9:30-11 a.m. CT, 8:30-10 a.m. MT A Heightened Look at our System....Now That We Know What the "New Normal" is, We Have Work To Do" September 11 changed the world! Do you remember where you were when you first heard about the tragic events that occurred in New York City and Washington, DC?? A special task force met on September 27 to discuss how best to communicate and educate what September 11 means to our daily business lives. Representatives from El Paso Corp., ONEOK, Inc., Reliant Energy, TXU, Dominion Energy, Iroquois Pipeline, Williams Gas Pipeline, Columbia Gas, Columbia Gulf Transmission and Alliance Pipeline created a preliminary outline for a Special CTN Broadcast. David Jones, Tennessee Gas Pipeline VP Operations and Earl Fischer, Atmos Energy Senior VP will lead the task force efforts. Mike McGonagill, Alliance Pipeline General Manager-US Operations will serve as the program host. Speakers have been invited from the FBI, security consultants, energy security officers, industry leaders, Department of Energy and FERC representatives. Three separate panels will discuss regulatory agency response and expectations regarding system security and what companies can and are doing to protect: ? Physical Assets ? Human Assets Registration Fee: CTN Subscribers \$495 SGA Members \$595 All Others \$695 To register, please contact Nadine Fred (972) 620-4015, Mary Landrum (713)722-8307 or e-mail to nfred@southerngas.org << File: <mailto:nfred@southerngas.org> >> , or mlandrum@southerngas.org << File: <mailto:mlandrum@southerngas.org> >> . More details will appear at www.southerngas.org late in the week of October 8 - 12.

Was this resolved? You were going to speak to Stan as Mary Landrum suggested that he was interested. I would think with the recent events at Enron, we would not be interested? Please advise.

Julie, Here is the updated announcement with confirmed presenters and underwriters. I will let you know as soon as we hear from Stan's assistant. We have asked Jerry Halverson for an alternate, if Stan is unavailable. Vicky Bailey will speak about DOE expectations and concerns. Glynn Blanton will address expectations and concerns from a state perspective.

Mary Landrum

CTN Live

"A Heightened Look at the Security of Our System" November 1, 2001 8:30-10:00 a.m. MT, 9:30-11:00 a.m. CT, 10:30 a.m. - 12 noon ET

"Now that we know what the 'new normal' is, we have work to do" Earl Nye, Chairman, TXU Corp.

Target Audience: Senior Executives, Team Leaders and management from Operations, Human Resources, Engineering, Safety, Environmental, Communications, and Regulatory Deliverables: Persons viewing this Special Program will have a better understanding of the following: Can the industry effectively secure the massive infrastructure within the United States? If we cannot, what methodology do we utilize to determine and address our greatest risks? What is the REAL threat to the gas infrastructure? Do we understand what companies are trying to protect against? How to effectively evaluate your current system security. Proactive steps in creating alliances with homeland security, law enforcement and trade associations Our 'new normal' will not be like the last?but what is the proper level of awareness we should have? Should we look to foreign companies as our 'new normal' what may already be their standard operating procedures? We

may need to sacrifice "convenience" for the benefit of better security, but what does that mean? To increase security we will need to share less system information as widely?what information should we begin to hold more closely?

The broadcast will be aired in three segments. Each segment will follow the model: Preparedness, Prevention, Protection, Response & Recovery

Physical Assets Human Assets Regulatory Response & Expectation Risk Assessment Existing System Security Proactive Measures The Pre-Event Process During the Crisis or Event Post Event Process Increased Facilities Security New Guidelines Rate Relief

Panelists include: Mr. Earl Nye, Chairman, TXU Corporation The Honorable Linda Breathitt, Federal Energy Regulatory Commission (Invited) Ms Vicky Bailey, Assistant Secretary, Policy & International Policy, Department of Energy Ms. Stacy Gerard, Office of Pipeline Safety (Invited) Mr. Glynn Blanton, Chief of Pipeline Safety, Tennessee Regulatory Authority Dr. Karl Seger, Author & Terrorism Expert, Associated Corporate Consultants Mr. Mike McGonagill, Vice President-U.S. Operations, Alliance Pipeline Mr. David Jones, Vice President-Eastern Operations, El Paso Pipeline Group Mr. Bill Burton, Senior Vice President-HR, Williams Gas Pipeline Mr. Lewis Griffith, Director-Corporate Security, Reliant Energy Mr. Gary Forman, Chief Security Officer, Columbia Gas Transmission, a NiSource Co.
