File	mclaughlin-e/sent_items/68.

Working on it -- Joey is running mini-books.

-----Original Message-----

From: Royed, Jeff Sent: Tuesday, October 30, 2001 9:00 AM To: Taylor, Joey; Olney, Matthew; McLaughlin Jr., Errol Cc: Keiser, Kam Subject: FW: P&G

As discussed yesterday, please run a mini-book on two the P&G deals that I gave Errol (details showing the exact legs involved with NG-MM are also given) to determine the exact position and M to M value of these deals. These deals will ultimately be given to EES for them to manage but we will keep our traders indifferent P&L and position wise. If you can get this to me by early this afternoon, that would be great.

Thanks

JR -----Original Message----- From: Keiser, Kam Sent: Monday, October 29, 2001 8:05 AM To: Royed, Jeff Subject: FW:

Jeff,

Can you take this over for me? There is a deal with Procter & Gamble that Troy Black originated. It was booked as a sale with ENA but should be in the EES books. According to Mark Breese ENA should be kept whole, to the mids only, not

against offers. There were also hedges on the volumes that need to be moved as well. I have asked Troy and Derek Baily about these hedges and they don't know anything about it. I doubt that a hedge was done specifically for these deals so we may have to get bids/offers to fill the position that is left when the deals are moved to EES. Can you get with Derek Baily and take care of this today?

Thanks

Kam

-----Original Message-----

BRM Homework Assignment

Sender	monica.l.brown@accenture.com
Recipients	['errol.mclaughlin@enron.com']
File	mclaughlin-e/inbox/426.

Monica L. Brown To: Errol.McLaughlin@enron.com 11/13/2001 10:28 AM cc: Sheri A. Righi/Internal/Accenture@Accenture Subject: BRM Homework Assignment

Hi Errol,

Thank you for today's meeting - it was very informative and it was exactly what we were looking for.

Per our conversations, you will provide us with the Definition Accrual Accounting and provide us with an example of an Executive Report.

I would like to schedule some time with you on Tuesday, November 27th from 10:00 am - 11:00 am if possible. Let me know what your schedule looks like for that week (The week after Thanksgiving!)

Basically, develop it in Microsoft word, Arial 10 pt. Keep it succinct, use active voice and use bullet points instead of text whenever possible. This helps keep the reader from feeling overwhelmed.

Assignment #1 Due Date: Friday, November 16, 2001

Outlines to Help Guide You When Writing Books ?Definition of Books (commodity specific) ?Discussion on how one trader can trade in one or many books ?Financial books: -Price book (e.g. NYMEX Gas Book) -Basis book (differential off of the NYMEX book) -Index book -Options book (sometimes become physical, but mostly traded financially) ?Physical books: -Index book -Transport book -Storage book

Assignment #2 Due Date: Friday, November 30, 2001 Reports ? Position reports (Probably better named Executive Report. Industry standard term or should we keep at the generic level calling it a Positions Report?) -Definition -Sample position report -Data in a position report -Interpreting position report

? P/L reports -Definition -Sample P/L report -Data in a P/L report -Interpreting a P/L report

Assignment #3 Due Date: Friday, December 7, 2001 Closing the Book ? Collection/Liquidation ? Reconciliation ? General Ledger

Let us know if you have any questions or concerns, I can be reached at x5-6687.

Have fun on vacation!

Thanks, Monica L. Brown Accenture Houston - 2929 Allen Parkway Direct Dial: +1 713 837 1749 VPN & Octel: 83 / 71749 Fax: +1 713 257 7211 email: monica.l.brown@accenture.com

Warning Screen Change

Sender	monica.clay@enron.com
Recipients	['d..winfree@enron.com', 's..lim@enron.com', 'kam.keiser@enron.com', 'errol.mclaughlin@enron.com', 'karima.hus...]
File	mclaughlin-e/deleted_items/184.

After our meeting today the change has been approved and will be put into production no earlier than November 9, 2001 and no later than November 19. Again, this change will in no way restrict trading activity. It's function is to limit the number of unintentional errors when entering a trade (due to back dating a trade). The warning screen that exists will now appear when a date is entered on a deal that is prior to today's date.

Thank you for your assistance. Please call with any questions.

Monica Clay Enron Net Works, LLC 1400 Smith Street Houston, Texas 77002 713-345-7227 1-800-97-ENRON

File	mclaughlin-e/inbox/457.

little late, already got it and passed it out

-----Original Message-----

From: McLaughlin Jr., Errol Sent: Tuesday, November 20, 2001 3:28 PM To: Taylor, Joey; Jones, Brad; Thibaut, Dan; Olney, Matthew; Vargas, Laura Cc: Gossett, Jeffrey C.; Keiser, Kam; McLaughlin Jr., Errol Subject: Wednesday Nite Procedures

Lady &Gentlemen,

WEDNESDAY night after you calc the all the books for WEDNESDAY and are sure everything is correct and finished per standard procedures, you all will have to copy each of the OFFICALIZED books and calc and officialize them for Thursday and Friday. For Thursday, your dates will be 22-NOV-2001 & 21-NOV-20001. Friday's calc's will have the dates 23-NOV-2001 & 22-NOV-2001. You will have to calc Thursday's and Friday's books on INEXACT b/c curves will not be uploaded for those days. This is all being done for Credit purposes since the rest of the world does not celebrate Thanksgiving.

If you have any questions, call me at 713-870-8211 or ask Jeff or Kam.

Thanks,

Errol "Cigar in one hand, 8 iron in the other" McLaughlin

Re: Gas New Deals Request

Sender	errol.mclaughlin@enron.com
Recipients	['mark.austin@enron.com', 'Sharon Smith/AA/Corp/Enron@ENRON']
File	mclaughlin-e/sent/122.

Mark,

Deals NZ9791 and NZ9950 were done between John Arnold (gas floor) and Fletch Sturm (power desk). Deals done between desks inside Enron do not have deal tickets, nor do they get confirmed. The details for these deals were included in the information picked up Friday.

I apologize for not relaying this sooner, but all question regarding the Management book (P&L, etc.) need to be directed to Georganne Hodges at 713-853-0430.

Attached below is the forwards detail that you requested for the LTX GD book for 12/7/01 and for the NG Price book for 12/19/2001.

I am getting confirms on the deals in the table below and will call you as soon as I get them. Please be advised that these deals are in the forwards details that I have already given you. Also, deals QE6558 & QF4044 will not have confirms b/c they are intra-desk deals within Enron.

Mark C Austin 01/19/2001 07:02 PM To: Errol McLaughlin/Corp/Enron@ENRON cc: Sharon Smith/AA/Corp/Enron@ENRON

Subject: Gas New Deals Request

Errol,

At your earliest convenience, could you please provide the applicable deal ticket and confirmation for each of the following deals? Also, could you please provide the Forwards Detail for 12/19/00 as earlier requested? Other outstanding items include: A) Deal Tickets for Deals NZ9791.1 & NZ9950.1, B) Exotic Book Detail, C) Gas Daily EOL Book Detail, D) Support for MGMT P&L - Nov. (\$130) & Dec. (\$274), and E) the December Management P&L Top Page.

Thank You,

Mark Austin ext. 68680

Hey, I have been sooooo swamped with school and work this week! Hope your week has been lots better than mine. It looks like you have a great job doing exactly what you've always wanted to do. Well, Jana is 11 yrs old now so you should feel pretty old 'cause you are. :) And she acts like a little lady too. I know your cousin Lauren must be close to college by now. I don't even want to know how old her brother is. Wow, how time passes... Jina is at UH about to graduate this May. Don't ask me what she is going to do with a sociology degree but she likes helping people and working with them. My parents are doing fine. My dad is living in Baton Rouge now. How are your parents? Has your father retired yet? I also wanted to ask you about your boy, Maurice. I heard he got married to Demetris and I was kinda hurt he didn't invite me to the wedding, but C'est la vie. Tell him I said hello and give me his e-mail address if you have it. Well, I just wanted to see how you were doing. You know, make sure you were still alive and well. :)

Name Change/Merger revised Report

Sender	cheryl.johnson@enron.com
Recipients	[amelia.alland@enron.com', 'lane.alexander@enron.com', 'laurel.adams@enron.com']
File	mclaughlin-e/discussion_threads/772.

To Everyone,

The following are revisions to the final report for April 2001. I am providing details here, and the updated report is also attached.

Tom Brown Resources Ltd., CP ID 96309 is the result of an amalgamation with Stellarton Energy Corporation, CP ID 64040. Stellarton Energy Corporation will be inactivated on 05/01/01. Have Certificate of Amalgamation and Articles of Amalgamation in hand.

Please also note that the Western Area Power Administration-"Upper Great Plain" record, CP ID 81177, will be corrected to read "Western Area Power Administration-"Upper Great Plains Region". The record that was overlayed per the report, CP ID 35194, will be inactivated as a duplicate record. These changes have been included on this revised report and the changes have been made in GCP today. These are branch locations by geographic area of the US Dept. of Energy, and there is no documentation for these changes.

I have also just received a name correction that may as well be included in this report - From Greer Comm. of Public Works, CP ID 36393, to Commission of Public Works, City of Greer

Please call me with any questions or concerns.

Thanks, Cheryl x33103

FW: Next NETCO test - wanted to confirm as to participants...

Sender	m..smith@enron.com
Recipients	['russ.severson@enron.com', 'Cynthia', 'a..campos@enron.com', 'd..hare@enron.com', 'Clark']
File	mclaughlin-e/inbox/44.

Sorry,

Incorrect date on User Test Doc (was Feb 3,4). Correction is Mon/ Tue 4th and 5th. No working on Superbowl Sunday!

Question for NetCo employees: The new corp id's xfer to UBS is being considered for this Sunday. Hence, no start menu access to estate. You will still have access to NT estate drive data to copy. Does anyone have the need to retain a estate id for support estate application during the last week? Exceptions have to be authorized. Wanted to get a preliminary need analysis.

Thanks,

Status report of integration testing from Tuesday, Jan. 22nd

Sender	m..smith@enron.com
Recipients	['a..allen@enron.com', 'bridgette.anderson@enron.com', 'diane.anderson@enron.com']
File	mclaughlin-e/inbox/56.

Status report of integration testing from Tuesday, Jan. 22nd (completion of subset of Gas/ Power scenarios to test that all platform components are setup)

We've completed the remainder of test scripts, including transmitting invoices to SAP successfully! And all reported testing issues are resolved (need confirmation by a few users). Thanks to all involved!

It was very productive as 16 issues (8 from Unify) were identified and resolved (attached). A spreadsheet is attached of the outstanding/ resolved issues If any testing issues are missing and not reflected, please email Terry Sanvido or myself to assist with tracking and resolution.

The importance of Wednesday's test below is: (1) to test after all estate data removal is done; as if testing a Netco 'go-live' (2) to test all (15+) transaction scenarios 'end to end' test.

A reminder of Aftab's email requesting your assistance is attached.

Schedule for Wednesday 01/23 (complete set of scenarios to be tested) (1) By 11:00am - all IT systems to have deleted any estate data & backups completed (2) 11:00am - Global to repush any setup data if needed (3) 12:00pm - any global data setup by users (we may) (4) 1:00pm - 5:00pm User integration test of all test scenarios. The goal is to test 'end to end' to ensure the all issues are resolved, and data removal and resetup is valid. - Bridgeline open to discuss issues (800-711-8000; code #3454709)

We appreciate your support as we work towards setting up the NETCO!

Subject: Windows 2000 Migration for the RM-Finance and Administration Business Unit

I wanted to take a few minutes to not only introduce myself, but also to inform you that ProjectGEM - the Windows2000 Global Enron Migration - is well underway and is now approaching your group to begin the initial steps of upgrading to this newer operating system. Currently Jeff Gossett is our pilot for this business unit and is testing out all applications associated with your business unit. We expect to migrate Finance and Administration Wednesday or Thursday of next week (4/4 - 4/5) As a former member of T.S.G. (TradeFloor Support Group - EB31/32) - I'm well aware of the time constraints and schedules you all must work with. Therefore, I would like to start the migration process first with visiting with each of you, going thru a 'profile process' that should last no more than 10-15min. Profiling can begin as early as today- so here is what I ask of you: *** Please reply to this e-mail with your current location, the number of PC's you have and the number of screens/displays you have attached to each PC, as well a date/time that I can stop by. Being that most of you sit in the same, general location - I'm hoping this profiling process should take no more than a few days. *** Feel free to e-mail/call me should you have any questions or any specific concerns with this process, as we strive to ensure the migration from WinNT to Win2K is a smooth, efficient one.

XMS (Expense Management System)

Sender	enron.announcements@enron.com
Recipients	[ena.employees@enron.com]
File	mclaughlin-e/all_documents/163.

Effective March 1, 2001 Enron North America (CO 0413) employees will begin= =20 using XMS (Expense Management System) to process employee expense=20 reimbursements.

XMS is a web based employee expense reimbursement system which will provide= =20 the following benefits;

? More timely reimbursements to employees ? User friendly Web access ? Ability for employee or designated administrative assistant to submit=20 expense reimbursement ? Greater efficiency and lower cost ? Efficiently integrated with the current SAP accounting system

This system will REPLACE our current manual expense reimbursement process. = =20 All employee expense reimbursements for ENA employees submitted after March= =20 1, 2001 should be done via XMS.=20

Following are details regarding system access, training and support.

To access the system go to the Enron Home Page and type <http://xms.enron.co>= m=20 in the address field.

LOGON ID Enter your personnel number (P number). HR information is loaded=20 automatically into XMS, but an incomplete load may mean that some people's= =20 IDs are not updated. If your P number doesn't work, try using your first= =20 initial and last name (lower case). If you can't log in to the system, go = to=20 the IT Central web page from the Enron home page and select Services>Securi= ty=20 Requests>eRequest or call (713) 853-5536.

PASSWORD The first time you log in, the password is upper case ENRON. The system wi= ll=20 guide you through confirming your personal information and changing your=20 password. The Enron Code of Ethics prohibits the sharing of passwords and= =20 logging on as another person. Please observe Enron=01,s policy. If you ha= ve=20 forgotten your password, call the Resolution Center at (713) 853-1411.=20

TRAINING Go to the IT Central web page. Select Services>Training. Click on=20 "Schedules" in the North America column, and go to the XMS Workshop schedul= e=20 to choose your class. If no classes are listed, call the training departme= nt=20 and place your request at (713) 853-1816. Those in outlying locations and= =20 those who prefer on-line training can use LEAP by signing on to isc.enron.co= om=20 and clicking on "training and education," then LEAP (shown as a link). Use= =20 xms (lower case) as the User ID and Password. =20

DOCUMENTATION Step by Step documentation is also available from IT Central web page. =20 Select Services>Training. Click on "Documentation" in the North America=20 column and choose XMS User's Guide from the list.

APPLICATION SUPPORT SERVICES Call the ISC help desk at (713) 345-4SAP (4727). Do not call Accounts Payab= le=20 with questions about how to use the system or with issues regarding=20 electronic pre-populated data.

Resolution Center Management-

With regards to the estate cutover last weekend for trading systems (Houston, Calgary, Portland) the integration test team has been manning a 'Bridgeline 800 number' for users to report their problems/ issues. Due to low volume of calls (a good thing), effective Tuesday am, we are asking the users to return to normal procedures and contact the resolution center.

We are not aware of any remaining problems for the cut-over. The only items for support pertain to Unify, such that:

Unify users will have to update start menu or reboot to obtain the new start menu options Unify passwords were reset to 'houston'

Thanks,

Regan Smith Energy Operations Systems Enron Net Works 713-853-9291 (wk); 281-850-7551 (cell)

When you look back over the past few weeks, you realized that a tremendous amount of work was done and it resulted in only a few minor issues during today' s integration test. Everyone involved should give himself or herself a well-deserved pat on the back.

Thank You!

During the upcoming week, the integration test team will be concentrating on resolving any outstanding issues for Estate and completing the Netco integration tests. For the most part, we will use the same test scripts used for Estate; the major differences are EOL and SAP. The plan is to complete the testing by end of day on Friday, January 18th.

Problem resolution Monday - Wednesday - procedure

Contact the Bridgeline 800-711-8000 (Code #3454709) from 7am - 7pm. This will be the most effective of tracking, dispatching to the application representatives. The integration test team will be monitoring and have access to the escalation procedures.

For those individuals who work in Unify, please remember to logoff and log back into Windows prior to accessing Unify. Please pass this information on to your co-workers.

Just a reminder, for those individuals who participated in the testing, please clean up (zero out, un-officialize, etc.), do not kill the deal, any deals created during the testing for Sitara, TAGG, EnPower, Unify PM, Unify VM, Unify Settlements, CAS and ?????:

Thank You,

Integration Test Team

Status report of NETCO integration testing from Friday, Jan. 18th

Sender	m..smith@enron.com
Recipients	[a.allen@enron.com', 'evelyn.aucoin@enron.com', 'diane.anderson@enron.com']
File	mclaughlin-e/inbox/59.

Status report of integration testing from Friday, Jan. 18th (executed subset of Gas/ Power scenarios to test that all platform components are setup)

Thanks to all those involved in user integration testing last week. Numerous issues were identified and resolved throughout testing, and many people worked late Friday evening (and weekend) to resolve outstanding issues. Infrastructure made super headway with creating the NetCo nc_t_xxxx id's and quickly addressing the startup script issues.

A spreadsheet is attached of the outstanding/ resolved issues. Issues could be resolved but not confirmed through testing, or not communicated back to the test team. If any testing issues are missing and not reflected, please email Terry Sanvido or myself to assist with tracking and resolution.

Canada/ Portland testing Some users were able to test/ validate their startup/ applications. The NetCo terminal server (<<http://remoteservices.netco.enron.com>>) is available (Trading Cluster, GPC). We are requesting for the Canada/ Portland users to test according to the schedule below. Richard McKeel will assist with escalation to Houston. <<http://remoteservices.netco.enron.com>>

Where we left off with testing: Gas testing Unify volume management, logistics, and Settlements; awaiting data replication fix. Power testing Kelley Huntley/ Unify Settlements; awaiting data replication fix. Financial testing Mechelle Stevens/ Unify Settlements; awaiting data replication fix. Canada/ Portland testing Some testing conducted; awaiting any issues

Schedule for Tuesday 01/22 - resolve issues and complete subset testing scripts 9:00am daily IT status meeting. Review spreadsheet and discuss any issues outstanding from testing. Work to resolve all issues before user testing startup at 1:00pm.

1:00pm - 4:00pm Continue with subset testing scripts (1) Continue with testing left off on Friday - mainly Unify and SAP (2) Canada/ Portland to continue pre-testing and report issues (3) Re-validate any open issues from last week that are resolved but not confirmed - Bridgeline open to discuss issues (800-711-8000; code #3454709)

4:00 pm - IT to continue with testing of deletion/ truncation scripts to prepare for Wednesday

Last week's testing - not all systems have removed their estate data Given application unit testing was crossing the same schedule as user integration testing, not all systems have completely deleted (truncated) their estate data (contracts, desks/ portfolios, estate data, addresses). The next user test needs to be conducted in an environment that emulates a 'go live' for Netco. It's requested for all IT systems to have completed removal of data (truncation scripts) by 10:00am on Wednesday. Global will have to repush the NetCo data before the testing.

Schedule for Wednesday 01/23 (complete set of scenarios to be tested) (1) By 11:00am - all IT systems to have deleted any estate data & backups completed (2) 11:00am - Global to repush any setup data if needed (3) 12:00pm - global data setup by users (4) 1:00pm - 5:00pm User integration test of all test scenarios. The goal is to test 'end to end' to ensure the all issues are resolved, and data removal and resetup is valid. - Bridgeline open to discuss issues (800-711-8000; code #3454709)

We appreciate your support as we work towards setting up the NETCO!

When: Friday, January 18, 2002 1:00 PM-5:00 PM (GMT-06:00) Central Time (US & Canada). Where: 2521, 2525

~~*~*~*~*~*~*~*

Hi, Please see the attached document with the correct date that corresponds with the meeting request. In addition, the Canadian and Portland users are also included. The Bridgeline (800-711-8000 CODE 3454709) will be open during this time for us discuss and resolve issues.

Thanks << (01)0118 User_Test_ Schedule Netco.doc >> Hi, Attached is schedule for NETCO testing for Friday afternoon. The objectives for tomorrow will be to:

1. Test logins for NETCO users and drive mappings 2. Execute a subset of the Gas and Power scenarios to test that all platform components are setup.

The complete set of scenarios will be tested next week. We appreciate your support as we work towards setting up the NETCO platform which has a number of moving parts that are coming together.

Thanks Aftab
