Hi Griff,

Here is the contact information for Edison Mission Marketing and Trading and Nicor Gas Company. I still need to provide info on IdaCorp, but IdaCorp has requested that all credit arrangements be put in place prior to receiving any documentation from UBS.

Thanks for your help.

P.S. Can you let me know when these customers have received the packets?

So sorry about that.....We do not have a date for you b/c the contract does not exist as of yet. Legal said that we could just end that sentence right after the word "transactions". take out the language that says "including without limitation the Enfolio.....

Once you make that deletion, how long do you think it will take to have it executed and a copy faxed to me at 713-646-3390?

Thanks, we're almost there!!!!!!

Electronic Pay Stubs

Sender	enron.payroll@enron.com
Recipients	['l.mims@enron.com']
File	mims-thurston-p/deleted_items/580.

Get ready. Beginning in November, electronic pay stubs will be available to all employees who have their paychecks direct deposited into their bank account. Electronic pay stubs are an easy, fast, and efficient way for you to get your payroll information. They will also help Enron to realize a considerable savings in time and dollars spent over traditional printed pay stubs.

If you prefer to receive a hardcopy of your pay stub, click on the link below to complete a request form. This form must be submitted to Payroll by October 15, 2001. Unless you submit a form your pay stub information will default to electronic viewing.

Please click on the link below.

Name: PATRICE MIMS-THURSTON Personnel number: P00502751 Phone: 7138535772

If you have questions about electronic pay stubs, please contact Janice Priddy (Payroll) 713-853-7839 or Marie Newhouse (ClickAtHome) at 713-345-4185 or send an email to Enron.Payroll@enron.com (Enron Payroll in Outlook).

Stay tuned for more details in the coming weeks.

They are correct, Cilco city gate does not exist....the only reference point is the Nicor city gate. As far as the guarant, I'm okay, but the last time we asked them to draft the guarantee, it was horrible. I'll ask them to send us a draft.

Call me when you get a chance.

thanks

-----Original Message-----

From: Perlingiere, Debra Sent: Thursday, October 25, 2001 5:46 PM To: Mims, Patrice L. Subject: CILCO

Regarding the GISB, issues remaining are Section 3.2 Performance Obl. and their Guaranty.

We prefer Spot Standard for Section 3.2 however, they argue the Cilco city gate does not have a "Spot Market" . If the city gate is their end user I will give on this point. Tammy is checking on this. The only other issue is their Guaranty to Enron. I have no problem with amending the gty or putting a new one in place. Having said that, I would prefer they draft the amendment. This of course is contingent on credits ok with the change in the gty amount.

FYI, I will be out to the office tomorrow afternoon for meetings. If you need me leave a message with my assistant and I will call you back.

Hi Patrice,

I have an issue with Edison Mission and I saw your name on a deal (1094593) from October so I thought I could ask you about it. It looks like the deals are on a month to month basis. They paid us \$5M back in February and each month we deduct their invoice from this balance. They called Max in Credit (x.58261) and want their money back. So, I am fully

prepared to wire them their money back, I just want to make sure all the people involved are aware. Credit is going to request an invoice from them stating what we owe them. When that comes in someone in credit will sign off on this request. I just want to make the front-end aware of what's going on. Do you know who else does these deals? Thanks for your help

Have a GREAT Thanksgiving.....you may already be gone.....if so, lucky you!!!!

I would like to use the following for the Flexible Pricing. The last sen= tence regarding the keep whole verbiage I think you will want to delete th= is as it does not allow for Force Majeure.

FLEXIBLE PRICING: During the Period of Delivery for a Transaction, Custome= r may request a price other than the original Contract Price, being a Fixed= Price or (each below defined) by contacting Company during Pricing Hours r= equesting any such price for a specified quantity of Gas to be Scheduled du= ring selected Months within the Period of Delivery; provided, such request = must be made prior to 12:00 noon C.T. of the last Business Day prior to the= last trading Day of the NYMEX Gas futures contract for the selected Month.= A Confirmation may be sent by Company to Customer confirming the Flexible= Pricing agreement in accordance with Exhibit "A" "Fixed Price" means a fix= ed dollar amount agreed to by the Parties. The price for all Gas for which= a Flexible Price has not been agreed by the Parties shall be the original = Contract Price applicable to the Transaction. "Notwithstanding anything to= the contrary contained in this Confirmation or the GTC, upon Customer's ac= ceptance of Fixed Price, Customer shall keep whole and hold Company harmles= s for all cost and expenses incurred by Company with respect to the quantit= y of Gas that is converted into a Fixed Price, in the event that such quant= ity of Gas is not Scheduled by Customer for any reasons, including without = limitation events of Force Majeure.

For the Section "Daily Pricing for Physical for Physical Call Option" =20

Daily Pricing means the "Daily Midpoint" price set forth in Gas Daily Platts, a division of The McGraw-Hill Companies, or successor publication, = in the column "Daily Price Survey" under the listing applicable to the geo= graphic location closest in proximity to the Delivery Point(s) for the rele= vant gas day. If there is no single "Daily Midpoint" price published for t= hat particular Gas Day, but there is published a "Common" range of prices u= nder the above column and listing, then the Spot Price shall be the average= of such "Common" high and low prices. In the event that no 'Daily Midpoin= t' price or "Common" range of prices is published for that particular Gas D= ay, then the Spot Price shall be the average of the following: the price (d= etermined as stated above) for each of the first Gas Day immediately preced= ing and following the Gas Day in which the default occurred for which a Spo= t Price can be determined.

Let me know what you think.

Hi Jan,

So nice to hear from you. I am glad you are finally "enjoying life". I wish I could join you now. With the Enron stock and "whatnot", I'll have to hang around alot longer than anticipated (smile). Are the boys excited about going to "MDO". I bet that is a change for them, and alot less expensive for you.

The job is going well, I really like it, it is a different kind of stress, but definitely more preferable for me. I really like what I'm doing. My boys are getting the added benefit of Mom being in a really good mood most of the time. Jordan is doing pretty good in school, I'm not really sure that he's in love with school, but he's doing well. Kendall, what can I say? My Kendall is something else. He is so funny, and guess what, he talks in a very loud voice, it kills me, i wonder where he got that from!

Suzy is moving to New York this Friday morning. Her husband's mom lives somewhere in New York and they will be moving there so that he can hopefully find a job. I hate to see her go, but if it's best for there family, then go for it.

Anyway, take care

Love ya!

How the heck are ya? I have been thinking of you alot lately. I tried to guess your e:mail address a couple of times over the last couple of months but there is just no guessing it. I finally had to call Laura Vuittonet.

Well, I'm having a great time home with the kids. I really thought I would be bored by now but I feel just a busy just not as tired. In fact, for the first time since I had my kids I feel very rested and at peace. It's fun being a kid and running around Houston when there isn't much traffic and it nice having the time to slow down the pace.

The boys are in Mothers Day Out 2 times a week from 9:00 - 2:00 which really isn't much time at all. I could use another day of alone time. On those days I am usually meeting with Enron or once in a while I meet a friend for lunch. Time really flies.

Anyway, I hope all is well for you. Miss ya.

We are getting ready for the launch of "NetcoOnline" and have been preparing new documentation, a refreshed site design and cleaned products to reflect our Gas and Power focus.

The following timetable could change, but the general sequence should apply in any case:

Week of Jan 14:

Upon approval by the new buyer of the PA and ETA formats, we will contact the Master Users at our Top 50 customers and send them copies of the final PA and ETA forms with our new buyer's name filled in. During this week, we will be working hard to get as many of the PA's returned as possible. Once we have an approved PA, we can send the customer their new User ID, which will allow them to start trading on the day we launch "NetCoOnline".

A Splash page will be available within two business days of knowing our new company name, on a web page reached via an automatic redirect from www.enrononline.com. This page will tell customers about the pending launch of "NetCoOnline" and provide links to the PA and Registration screens and also to the User Admin screens, which will allow customer Master Users to start setting up their Sub users.

The Splash page will look something like the following:

A Press Release will be issued which will include the planned launch date of "NetcoOnline"

Week of Jan. 21:

If all goes well, "NetcoOnline" will be launched on Tuesday, January 22, with at least financial products (timing for gas physical and power physical to be determined according to regulatory issues).

We will send out a mass mailing to approx. 3,000 individuals at 450 companies inviting them to sign up for NetcoOnline. Included in the package will be a simple brochure, copies of the PA and ETA, key messages and a list of Frequently Asked Questions.

General Terms and Conditions (GTC's) will be available online and must be accepted online before a company can start to trade a particular commodity.

Trading/Origination Coordination

Certain individuals in the Trading and Origination groups will be contacting customers on our Top 50 list to introduce the new company and begin the process of getting signed PA's. The NetcoOnline marketing team will work with Trading and Origination groups to make sure that all Master Users that previously had EnronOnline North American Gas and Power execution rights are contacted within one week of the PA and ETA being approved by the new buyer. NetcoOnline Marketing will follow up with the Master Users to make sure PA's are signed and returned.

NetcoOnline Marketing Contacts:

For Marketing-specific questions, please use the following contacts. For other questions, please contact Bob Shults (30397) or Dave Forster (31861).

Teresa Mandola (39807) - Power Kara Boudreau (30570) - Gas Jennifer McQuade (53614) - Power Dan Diamond (39673) - Gas

Definitions:

Password Application (PA) - Only document where a physical signature is required by an authorized person (Master User)

Electronic Trading Agreement (ETA) - Must be accepted online by the Master User before they can proceed into NetcoOnline

Master User - Typically the company authorized signatory that signed the Password Application. Establishes transaction rights for each trader (sub-users)

Sub-User - Trader, assigned either execute or read only status

General Terms & Conditions (GTC) - Document that governs online trades unless a Master Agreement is in place

Master Agreement - Document that governs online and offline trades and supersedes the GTC

With the filing of the Hart-Scott-Rodino application last week, it looks like our updated launch timeline is as follows. Note that it is still possible that this timeline could shift:

Week of Jan 28:

We will distribute a packet to each of the Originators/Traders who have volunteered to call customers and assist in getting signed Password Applications. The packets will contain:

Key Messages Frequently Asked Questions (FAQs) Top Counterparty Checklist External Customer Cover Letter Password Application (PA) Registration Form Fax Cover Sheet for PA/Registration Electronic Trading Agreement (ETA) Internal online Marketing Contact List

Each person receiving a pack will contact the Master Users at the companies they have volunteered for and send them copies of the Password Application (PA) and Electronic Trading Agreement (ETA). During this week, we will be working hard to get as many of the PA's returned as possible. Once we have a signed PA, we can send the customer their new User ID, which will allow them to start trading on the day we launch the new site.

A Splash page will be available at www.UBSWenergy.com or via an automatic redirect from www.enrononline.com. This page will tell customers about the pending launch of www.UBSWenergy.com and provide links to the PA and Registration screens and also to the User Admin screens, which will allow customer Master Users to start setting up their Sub Users.

The Splash page will look something like the following:

Week of Feb. 4:

We will send out a mass mailing to approx. 3,000 individuals at 450 companies inviting them to sign up for the site. Included in the package will be a simple brochure, copies of the PA and ETA, key messages and a list of Frequently Asked Questions.

Week of Feb. 11:

The site will launch, with at least financial products (timing for gas physical and power physical to be determined according to regulatory issues).

General Terms and Conditions (GTC's) will be available online and must be accepted online before a company can start to trade a particular commodity.

Trading/Origination Coordination

The Top 50 customers will have at least an initial contact within the first two days of starting the marketing effort and that all customers who previously traded either gas or power will receive a mailing within the first 10 days. An online marketer has been assigned as coordinator for each company and will assist each Trader/Originator in following up with Master Users as necessary to make sure PA's are signed and returned.

Stephen E. Pierce Senior Purchasing Agent USS Energy Purchasing 412-433-2450 412-433-2449

Stephen,

At this time, ENA chooses not to bid on your RFP for the reasons listed below.

Mid 5: NNG/ GPM Linam Ranch 1709 is not a liquid point and it would not be prudent to sell where we do not have the reserves to back it. The other issue is the NNG-TOK Index is not traded frequently and therefore the posting may easily be manipulated.

The alternative plan is to allow ENA to sell Mids 1 through 6 up to the volume US Steel requires to meet system needs and to price it off of a Demarcation Index (a frequently traded Index).

If you have any other questions or comments, please call me.

Best Regards,

Sylvia Pollan Patrice Thurston 713-853-6211 713-853-5772

Patrice,

Lisa Kinsey mentioned you may have information on the cancellation of ENA's transportation contracts on Midwestern. Midwestern has an expiration date of 12/31/01 for the two contracts on the Dec. invoice (contract 30349 & 31468). Do you agree with that end date or should they have an end date of 11/30/01? Any information you could provide would be of great help.

Originally we sent you this but now this is what we need to have set up:

We asked for

PGLC/NBPL/NBPL should be NBPL/Peoples/82 - Northern Border Manhattan PGLC/NGPL/NGPL should be NGPL/Peoples/909285 - NGPL Peoples PGLC/TTP/TTP should be PGLC/TTP/TTP - This was formerly PGLC/NGPL/909285 which is and INCORRECT meter on PGLC's side. PGLC/TTP/TTP is the POOL for PGLC. This product should be called Peoples Pool on EOL rather than PGLC/NGPL/Non Pool

Please take a look at these two test deals that Patrice has requested. I am still waiting on global to get the tradezone TTP added. I will let you know as soon as I hear from Sylvia Campos. In the mean time please take a look at the other two test

deals in sitara Parallel. The deal numbers are as follows:

Nicor/E.Dubuque = 4037411 NBPL/Manhattan = 4037412

Please get back to me ASAP if these two products look good, and we can release them for production. Thanks TARA

Everything right now is currently mapped to PGLC/NGPL/909285 when deals are done on EOL. There are deals out there right now with this meter for future months. These deals will need to be changed to PGLC/TTP/TTP manually. The meter PGLC/NGPL/909285 should not be used after these new trade zones are set up.

This is how it needs to be set up :

PIPE/TRADE ZONE/FACILITY:

PGLC/NGPL/NGPL PGLC/NBPL/NBPL PGLC/TTP/TTP - We need to set up this trade zone. Spoke with Russ Severenson

To: Patrice L Mims/HOU/ECT@ECT cc: Lisa Valderrama/HOU/ECT@ECT Subject: Coral, CMS and Petro Canada

I have two counterparties that we have invoiced for gas on December 13th - Coral and CMS. In both cases I am being told that this gas is also being invoiced by Petro-Canada and that it was baseload and at a cheaper price than what we are invoicing them for.

The deal numbers are CMS Marketing #529459 22000 @ 9.10 = \$200200.00 Coral #529442 8000 @ 8.90 = \$71200.00

Both counterparties have stated that they will not pay our invoiced amount. Is it possible that these deals should be invoiced to Petro-Canada instead of CMS and Coral? Would you let me know what the resolution is?

Thanks for your assistance

Patrice Thanks for the call the other day. Here is a copy of our contract. It is written with Aux Sable as an end-user in mind and therefore differs from the typical pipe-to-pipe contract. <<ASLP Master Inlet Gas Purchase Agreement.doc>> You can give me a call at 403-508-5852 if you have any questions.

If you have any questions on credit you can have your people contact me or Gerry O'Connor, our VP of Finance. Gerry has been talking to Jennifer Shipohs (I may have the spelling wrong) of your Industrial group, about financial instruments and credit.

Another name and number you should have is Bob Lee, who is our short term (30 days or less) trader. Bob's number is (403) 508-5851. I look after longer term arrangements (30 days or more) and back-up Bob when he is away.

Derek Ashing PS for Aux Sable - Patrice is the Enron physical trader for Chicago. Bob, if you have any questions about what is being posted on Enron Online for Chicago, this is the person to talk to. Patrice's number is 713-853-5772

In an effort to remain up to date with your goals and expectations for your investment portfolio, we recommend an annual meeting. This will give us the chance to catch up on changes in your life, review your asset allocation, the current market conditions and any possible changes in income and estate tax laws.

Since we are entering the last quarter of 2001, we feel it is time to conduct your review. Please review the attached document to begin the process for your review. Simply complete the form and return to us via fax, mail or email.

Many of our clients are located out of state, we will conduct your review over the phone.

If you do not feel it is necessary to review your financial plan at this time, please complete the top half of the attachment and return it to update our records.

As always, we appreciate the confidence you place in us and we hope to work with you toward your financial success for many years to come.

We look forward to meeting with you soon.

Sincerely,

Jason Williams in credit, Jeff Hodge, and I had a conference call late Friday. You already know everything we talked about I'm sure. Jeff advised that we should have a number in mind that they may be asking for. Hopefully Jason called you.....

See you in the morning! Valerie

Did you get with Alex to find out what hotel? It is the Westin. Also, who is Jason and what are HS numbers? As far as delivery point, yes, it is the interconnect between Midwestern and Vectren (the LDC). Please make sure and bring your pipeline statements. Also, I did meet with Jeff Hodge, our attorney, and I know the details regarding the contract. I'll be in the office until around 10:30.

Thanks

Hi Patrice,

I'm going to get an earlier flight in on Monday. I'll leave Houston at 7:20 and arrive Indianapolis at 9:42. I'll just take a cab to the hotel that night. This is much better so we don't have to worry about being late.

On a side note--Jason will be calling you regarding some HS numbers. Did you find anything out about the contract and what it says about the delivery point? Are we going to discuss that there? Also, I'm going to try to talk with Lisa Mellancamp and find out exactly which topics are off limits. I know you're leaving Monday, but we'll have time to talk about all this on the drive to Terra Haute.
