To: Debra.Perlingiere@enron.com cc: Subject: Enron/PPL GISB?

Debra,

Since we currently have a Master in place with PPL Gas Utilities, we can do an "identical" one with PPL EnergyPlus, LLC. Draw it up in duplicate and mail it out to me (I'm attaching a "Notices" sheet for you to use in preparing it). Your Credit Department can contact our Alan A. Babp, Credit Risk Analyst, at Phone: 610-774-6129 or email: aababp@pplweb.com. OR they can go directly to our web site (www.pplweb.com) and click on "Building Shareowner Value", which will take them to our financial information page.

Debra, we also prefer to be the confirming party, but have become enamored of "Both" since it forces our Trading Controls to compare our Confirmation document with your Confirmation document. As a matter of interest, the existing GISB we have with you, dated June 1, 1999, does in fact have "Both" parties listed as confirming parties and your office prepared that document.

Your netting language is acceptable.

You and I know that the disclaimer states that the GISB is intended for Interruptible transactions or Firm transactions of one month or less and that it does apply to the Enron contract. However, we have 141 other contracts that are used for Firm transactions of up to one year (which is the maximum allowable period the Fuel Trading group can commit to without higher, Vice Presidential, approval and signature. So, if we have the time period specified, as I suggested, in the Special Provisions we have a much better chance that our Traders will remember which contract to use, our data entry personnel will cite the proper contract and, if not, our Trading Controls personnel will spot and correct any that sneak by. So if it is just a matter of resistance to duplication, I ask that you "bite the bullet" for I would appreciate it if we could have the language included.

Thanks for your response.

To: Shay, Gary E. Subject: Re: Enron/PPL GISB?

Gary,

Thanks for your e-mail, attached is a sample of our Master. I notice we currently have a Master in place with PPL Gas Utilities?

In response to your previous e-mail my comments are as follows:

We cannot agree to both parties confirming. ENA prefers to be the confirming party.

Section 13.5 NY law is fine.

Our netting language is a stated below:

In the event that Buyer and Seller are each required to pay an amount in the same Month hereunder, then such amounts with respect to each Party may be aggregated and the Parties may discharge their obligations to pay through netting, in which case the Party, if any, owing the greater aggregate amount may pay to the other Party the difference between the amounts owed.

Your suggest to stipulate a 30 day limitation on usage for the contract is not necessary as this condition is stated at the bottom of the first page in the disclaimer. With regards to limitation, we do not limit transactions to one year.

(See attached file: Sam3102.doc)

Finally, with regards to the Master, our credit department will need to speak to someone in your office for credit information.

Good Morning Debra - I have attached a revised copy of the GISB Agreement and Special Provisions for your review and consideration. I anticipate completing the review of the Master Agreement form and submitting comments to you by Monday.

In addition, I received feedback from our Gas Desk that the access to the Gas segment of Enron On-Line was cut off to CPS --- do you know who would handle this at Enron that we can speak to? Greatly appreciate your prompt feedback to this inquiry.

I look forward to your feedback on the GISB.

Debra,

Attached below is a slightly revised Mac language for the Aquila Master. After speaking to Aquila today, we should execute both HPL and ENA Masters simultaneously (as both documents were sent over for their review at the same time--especially since we do so much business w/ENA & Aquila and the Master is so old).

Please confirm the above for me and let me know if you need anything else.

Thanks and I apologize for the delay in getting back to you,

Veronica

Debra,

I thought I would touch base with you on the status of the Material Adverse Change language for the above agreement. I did speak with Marie Heard yesterday and she indicated she would contact you concerning this language. Marie advised that even though this language was approved for the Bandwidth agreement, it would not necessarily be approved for this gas agreement.

This particular language needed special approval from our CFO as it differs from our "approved" language. In light of that, I am sending you our standard language in case the "bandwidth" version is not acceptable to Enron's gas Credit people.

We are very anxious to finalize this agreement, so please let me know if there is anything I can do from our side to expedite this. I really appreciate all of your assistance!

The price should be: Inside FERC CIG Index minus \$.67 not Gas Daily minus \$.55 (that was the purchase prices from April. Which is the month I'm working on for allocations right now. (Not that this falls as a valid excuse)). All other information is fine.

Debra,

I'm not sure we wouldn't prefer to have it kept as Houston Pipe Line Company. We have been filing with the regulatory bodies all expenses under HPL, since November of '99. So, what I would like to have happen, even if it was a mistake, is have the contract assigned to HPL. This will keep our records with the PUCT and FERC the same. In either case, I will still need documentation in our contract files to show the assignment. I appreciate your help, and please let me know what your thoughts are on this matter.

Section 11.1 We cannot agree to the use of GISB's force majeure language. Section 13.9 We will agree to suggested changes.

Finally, warranty language would also need to be included in the GISB.

Please let me know how you would like to proceed.

Section 13.9 In the fourth line change "designate an arbitrator, who need not be neutral" to "designate a neutral arbitrator".

If you are agreeable to Dow's requested changes, please send either by e-mail or mail originals for signature. If you have any questions, please give me a call.

"8.5 (i) Intrastate Warranted Gas. If the Delivery Point(s) for the Transaction are intrastate interconnections, (a) Seller represents and warrants to Buyer that all Gas will have been produced within the State of Texas and will not have been commingled by Seller with other Gas prior to the Delivery Point(s) which is or may be sold, consumed, transported or otherwise utilized in interstate commerce in such manner which would subject Buyer's Transporter's pipeline to the jurisdiction of the Federal Energy Regulatory Commission or an successor authority under the Natural Gas Act of 1938 and (b) Buyer represents and warrants to Seller that none of the Gas will be sold, consumed, transported or otherwise utilized outside the State of Texas or delivered to another party which will subsequently sell, consume, transport or otherwise use the Gas outside the State of Texas where such event would subject Buyer's Transporter's pipeline, Seller's pipeline, or any portion of such pipelines to the jurisdiction of the Federal Energy Regulatory Commission or any successor authority under the Natural Gas Act of 1938.

Debra,

Ok, we're getting there. Please see comments below.

1. Good, please prepare the draft Master Agreement and send it to my attention. We've been doing business with Enron since 1996, so the credit review shouldn't be a problem. You can probably find everything you need on our home page (www.pplweb.com) or call Alan Babp at (610) 774-6129 { aababp@pplweb.com}.

2. We're at a stalemate on the confirmations. I have checked with out electrical side and their negotiated contract with Enron uses "Seller Confirms". For Gas GISB contracts while we prefer "PPL Confirms", we recognize that almost everyone wants to be the confirming party so we have been accepting "Both". But if you can't accept either of them, I suppose we can live with "Seller Confirms", since our electrical side has accepted it. Those are our choices, in order of preference.

3. Good, I'm pleased you agree to the "redundant" language. I know it will help my Trading Controls people.

Please advise...again, I think we're close. Gary Shay

Cheryl,

I have reviewed the current contracts and deals in place with Constellation Energy Source, Inc. (CP ID 55358) and found that we have deals extending through 08/31/01. However, the only current deals are with ICC Energy Corporation (an alternate payee under our contract with Constellation Energy Source, Inc.). There are NO current deals with Constellation Energy Source, Inc. at this time.

We currently have two master contracts in place as well as two spot GTCs. I imagine that we will need to terminate all these agreements, but Legal is unaware of any changes with this counterparty. Darren, can you please provide Stacy Dickson with the name of your contact at Constellation?

We also do not have ANY master agreements in place with Constellation Power Source, Inc. - all business (telephonic and EOL) is being covered under GTCs. Stacy or Debra, do we have any negotiations in place for a master under this name? Darren, can you work with Stacy on this?

Please let me know if we need to terminate or trade suspend the Constellation Energy Source, Inc. agreements.

Thanks, SBR x30569

Cheryl,

Please do not suspend this CP until my group can review the current contracts in place and any deals that may have been covered by those contracts. Bridgette Anderson will be looking at this once trading slows tomorrow. We'll discuss it and get back with you tomorrow afternoon.

Has anyone in Legal heard anything on this?

Thanks, SBR x30569

Hi Stacey,

Got a request from Darren in Credit, to change the status of the subject CP to non-trading. When I made the change, I got the edit that indicates that 8 contracts are still active on the record, and the maintenance group is HOUGAS. Per Darren, all trades should be under CP ID 55134, i/no/ Constellation Power Source, Inc. I just want to make sure those can be moved if the record is in a non-trading status.

This is also flagged for EES, should that link and retail flag be added to the Constellation Power Source record, even though it is not known to be one of EES's customers at this time, or at least it hasn't been flagged as such at this time? I also went in to make that change, but since you are working on those contracts, I wanted to run it by you first.

Bad news. Even though I was able to get the Tagg numbers (NE2988 and NE3039, respectively), the only things in Livelink were the deal tickets. Please call Ellen Wallumrod at x54099 - she may be able to pull something for you. I'm going to try and play around in Tagg and see if I can somewhere print the confirms, but Ellen's your best bet there.

Enron LNG Marketing, LLC, a Delaware limited liability company

The address would be the Three Allen Center address on Clay St., 18th floor.

Debra,

I thought I would touch base with you on the status of the Material Adverse Change language for the above agreement. I did speak with Marie Heard yesterday and she indicated she would contact you concerning this language. Marie advised that even though this language was approved for the Bandwidth agreement, it would not necessarily be approved for this gas agreement.

This particular language needed special approval from our CFO as it differs from our "approved" language. In light of that, I am sending you our standard language in case the "bandwidth" version is not acceptable to Enron's gas Credit people.

We are very anxious to finalize this agreement, so please let me know if there is anything I can do from our side to expedite this. I really appreciate all of your assistance!

I know that you forwarded to me a copy of an agreement initially between ENA and BNG (the CES predecessor) but unfortunately, all of our files are in boxes (just moved office areas) so I can not locate immediately. If you want to, we can re-generate a copy for ENA with the applicable terms of the referenced agreement (title of the agreement and effective date is all I need), and forward to you.

Let me know if you can help me with this new request ----then we can take care of it right away.

Subject: Enron Energy Services Gas Contracts

Good morning Debra,

Could you help me on the following questions that we have:

1. Could you tell me who the contract administrator or Paralegal would be for Enron Energy Services. Maybe it is you? 2. If it is you, could send me electronically the Master Gas Agreement for Enron Energy Services in word format? 3. If you handle Enron Energy Services can we can do a gas long confirm until we have the Master fully executed? 4. Once we have come to a final agreement with Enron North America's could we rubber stamp the agreement for Enron Energy Services?

Sorry to shoot so many questions at you so early in the morning but if you could let me know, I sure would appreciate it.

Thanks for your help,

Dear Debra,

It is great to hear from you. I just took a practice exam. I consisted of 3 essays from 9-12, then a one hour lunch break, then a 3 hour performance test. I think I did well on the essays, but not the performance exam. I pretty much spend most of my time studying. this whole bar thing is quite an undertaking. I do not know how people pass it, but they do. It is a lot of work and sometimes you just hit these walls, but I have rebounded pretty quick.

BERkeley is quite an interesting place. I have seen more Freaks here than in Austin during college easily. It is like they breed them here. At first, it was funny and I liked it, but now it has become so normal for me to see a guy with a nose ring, and a tattoo over his adam apple(Ouch!), that they are just another person. I have met some people, but I do not hang out with people here very much. I knew that coming here, but at times it does get lonely.

The women here are quite average. I think I was very spoiled in Texas. Texas women are beautiful.

I am home sitting for my uncle in San Francisco for the 4th of July weekend. So it is a nice break from bar reviewing, but I did bring all my books.

I still think of you guys a lot. Please tell everyone that I say hello.

So has the new parking garage been built yet or what.

Take care....Yaron Shaham

Finally, because I know you would want to know, I do not have a BOYfriend, yet there was this one guy I met, oops, uh nevermind. --- Debra Perlingiere <Debra.Perlingiere@enron.com> wrote:

Debra,

The only confirm I've been able to print is for Sitara deal 131153 (Tagg N47394.1) and this one is weird: the deal was a two-month firm deal covering 12/01/99 - 01/31/00. Since firm deals over a month should not be confirmed under a GISB, this deal was split and 01/00 was moved to Sitara deal 133958 (cannot find Tagg number). Deal 131153 was originally confirmed under a Master Purchase Sale Firm but moved to the GISB following the correction of the CP name on the deal ticket. The deal was not reconfirmed under the GISB to the best of my knowledge; I couldn't locate the deal in Livelink (the only confirms under that deal number were for EPMI deals) and could only print the confirm out of Tagg.

I could not locate the other deal numbers at all in Tagg and there are no records in Livelink of the confirms either (only EPMI deals). I'm guessing the deals were confirmed out of DCAF, but I don't have access to that. Someone in the Confirms group will have to print those for you. One note: The last deal, Sitara 107197, is a five-month firm deal that should NOT have been attached to the GISB.

Since these are HPL deals, I'm not sure who confirms them, but you could probably get some help from either Ellen Wallumrod, Ann Osire, or Richard Deming. On the contract side, Cheryl Dudley or Amelia Alland should be able to help. I'm afraid I've done all I can on this end.

I'm getting ready to fax the confirm for deal 131153 (before it was split) since it's the only record I could pull up.

Sorry I couldn't find you everything! SBR

Debra, I have reviewed Markwest's proposed changes to the Master, and given the fact that we have since amended the ISDA with Markwest I would like to maintain consistency between the two agreements with respect to the credit terms. This being said, I have attached an amended credit worksheet that highlights in Red the changes I would like inserted in the Master. Please make these changes. You will notice that I have increased Markwest's collateral threshold to \$1MM and have agreed to both of their proposals to amend the Third Party Debt and the Collateral Multiple amount. Also, with respect to their request to amend Section 4.2, section (ix), I would like to know how they define 'borrowed money' and if this change is going to be representative of Markwest, then why is it not bi-lateral.

Thanks Russell

Good Morning Bob and Happy Holidays to you - Hope things are going well with you and Enron North America ("ENA"). Earlier this week, I assumed a new role at Constellation Power Source, Inc., which will give the opportunity to "reconnect" with many of the contract administration and legal professionals I worked with during my years at MEGA. I look forward to working with you once again.

In light of the upcoming addition to our wholesale energy business, this email confirms our request to establish a gas purchase and sale agreement between your organization and Constellation Power Source, Inc. ("CPS"). According to our business structure, our affiliate company in Houston, TX, Constellation Energy Source, Inc. ("CES"), was previously handling all of the wholesale natural gas business on behalf of our organization. It is expected that CES will cease operations by April '01 and the wholesale gas trading activity will be conducted through our newly formed Gas Desk located within the CPS' offices in Baltimore, MD. I have already contacted CES in an attempt to gather contracts and determine whether an assignment or the termination and reissuing of a new agreement between us would be the most feasible mean to proceed with our gas trading activity in a timely fashion.

ENA has been identified by our Gas Desk as one of the potential counterparties for gas trading in the year 2001. CPS will initiate gas trading as early as January 29th, 2001. Considering this, I am looking forward to receiving a copy of your master agreement for our review and consideration. Such can be forwarded to me via email at the earliest convenience.

I thank you in advance for your assistance and prompt response to our request and look forward to working with you in the near future. Do not hesitate to contact me if there are any further inquiries to this request. I will make a note to follow up with you during the first week of January '01.

Debra,

I think this just takes us back to your Feb. 22 proposal. Since the second sentence seems to be somewhat problematic for Enron, we will withdraw our request for that sentence. My only other change would be that the ".1" appearing after the "4" and the "11" in the last sentence should also be deleted.

Hopefully this will resolve the issue.

Best regards, Beth

Beth,

We will agree to this version with the following changes:

"Enron recognizes that, when NEGM is acting as Buyer hereunder, NEGM is purchasing gas on behalf of certain gas companies (the "Repurchasers") to whom it immediately resells such gas at the Delivery Point(s). In addition to any other circumstances for which NEGM is entitled to claim force majeure pursuant to this Contract, Enron agrees that NEGM as Buyer shall be entitled to claim force majeure if a Repurchaser purchasing gas from NEGM is unable to take delivery of gas as a result of an event of force majeure at such Delivery Point(s). The parties further agree that the term "Transporter" when used in this Contract, including, but not limited to, in Sections 4.1. and 11.1, shall include any company acting in the capacity of a transporter for any Repurchaser and agree that Section 4.3 of the Contract will apply to invoices from such Transporters for Imbalance Charges received from such Transporters to the same extent as if such invoices were received by NEGM, provided that any such Repurchaser scheduled and nominated the same volumes as Enron and NEGM scheduled and nominated on behalf of such Repurchaser at the Delivery Point(s)."

Please let me have your thoughts.

Welcome back from your vacation.

We've got our GISB agreement in place, and gas is flowing. However, Metromedia Energy is still waiting on a Master Agreement so we can do some term deals. We've got the form of parent guaranty, and that's been approved, so once we can fill in the dollar figure we'll have that taken care of.

I have not yet seen a sample master agreement, so if you can email that to me, it would speed things up a bit.

Debra, Thank you for sending your GISB agreement. I have forwarded it onto AK Steel for them to review and sign.

However, in the meantime it has been brought my attention that there is a master agreement in place between AK Steel and Enron North America. If this is the case then we can work off of the master agreement. Please let me know if you know of a master agreement already in existence.

Thank you, Julie

Office: Save As... responds very slowly when naming the file Mike Hernandez on 06/12 at 10:04 AM Category: Applications

Problem: When a document is created or renamed using the Save As option under the File menu, the system responds very slowly when typing in a file name.

Cause: Office keeps a directory full of shortcuts to recently opened files. As this directory gets larger, the problem starts to occur.

Resolution: Delete the h:\application data\microsoft\office\recent directory. It will be re-created when the next file is saved.
Note: This is a workaround, as this directory will re-populate itself over time and the problem will resurface. A long-term solution is being researched.

I wanted to let you know I am currently negotiating two Master Gas Agreements with TransCanada for the two entities listed above. As previously discussed, credit suggests increasing TransCanada Pipelines Ltd.'s guaranty to \$50MM and decreasing Enron's to the same amount. Have you discussed TransCanada's guaranty? Is \$50MM large enough to cover your agreement?

Veronica Espinoza(66002) in credit is working with me on guaranty issues. Finally, did you receive copies of Enron's and TransCanada's guaranty? If not, let me know I will fax same. Their guaranty expires the end of this month.

This deal was originally confirmed as an Oct-Dec delivery of firm gas....on a GTC-Firm...so revised language might want to be included in your confirm(??)

Also, there are only two active trades with Oasis Pipeline Company which are October Transportation deals...and I don't confirm.

Although the Clark County gas deal is moving slower than I'd like it to, it is very much a live deal. Thanks to all of you for your patients and assistance thus far. Its being held up by the Master Agreement which their credit representative (Reid Grossmann) will be working on it AGAIN tomorrow. He will be in Houston and asked if he might meet with Debra and Jay in person. He has assured me that our issues are being taken care of today. Since they still have some of their own issues, he is of the opinion that nothing can happen before Friday. Debra--

My only response to this contract is that Duke should only be given \$1MM for their credit threshold (and not \$10MM). Again, the ISDA contract that we already have executed is eating up all of their line. They should not complain about this, as the executed Master Physical with ECC gives them a \$1MM threshold.

Let me know if you have any questions. I remember going through this once before with them. Just have them call me about their threshold if they're disputing it.

Thanks--Veronica

Good morning,

My name is Barbara Hammack and I am a new contract analyst at Reliant Energy, I am assuming the responsibilities of the desk that is handling the negotiations of the GISB with ENA Upstream. From what I can gather in the pending file left at this desk, it does not appear that you were sent Reliant's Special Provisions to the GISB. I have attached these Special Provisions, as well as, the comments our legal group has made regarding ENA's Special Provisions.

If you have any questions or require further information, please feel free to call or email.

Please let me know if this is not possible. Also, you have indicated that Seller will be responsible for initiating the Transaction Confirmation. When will Prairielands be receiving the Confirmation for the term deal done by Paul Lucci for the time period of 12/01/2000 through 03/31/2001? As I mentioned on the phone, our Traders (Tom Carlson and Theresa Cline) and our management have requested a Master Agreement for the purchase & sale of Natural Gas (presumably for firm sales) between Enron and Pinnacle West Capital Corporation, Arizona Public Service's parent company. As I further mentioned, our hope is to have this Agreement in place by next week because our respective traders are poised to start trading under it.

I have attached PinWest's Company Information Sheet which provides certain background and contact information.

Please email the draft Agreement as soon as possible to our Contract Manager (Miki.Kolobara@pinnaclewest.com). Please contact either Miki (602/250-3427) or me if you have any questions. Thank you.

To: "'Debra Perlinger'" <DPerlin@enron.com> cc: Subject: Master Firm Purchase/Sale Agreement - effective 7/1/99

Debra,

As requested here is a bit of history regarding the initial request for the above referenced Agreement.

On July 1, 1999 through October 31, 1999 Cabot began purchasing supply from Enron at Sumas. When we received the Transaction Agreement dated June 10, 1999, I began calling regarding the Master Firm Purchase/Sale Agreement dated November 1, 1993, stated therein. I could find no such agreement in our files.

On July 28, 1999, Karen Lambert faxed this Agreement. I then realized that Enron was utilizing an Agreement which had not been assigned to Cabot in its merger with Washington Energy Resources Company in May 1994. I tried on several occasions to explain the situation. Finally on October 24, 2000 we received the above referenced Agreement originally effective October 1, 2000. We then requested the effective date to be July 1, 1999 to encompass the original transaction along with the three (3) additional transactions.

See the attached sheet for specific deal information. <<GC115.xls>> Hope this helps. I have submitted the master agreement for execution and will let you know when it is on its way. Thanks.

Hi Debra; Attached are documents for your review regarding Aquila's request of Enron to amend our current Gas contract to replace/assign the UtiliCorp responsibilities to Aquila, Inc. I have sent along for your review, the supporting documentation from both Moody's and S&P regarding the Aquila credit rating, the Secretary of State filing/order showing Aquila's name change, our underlying contract and a proposed amendment for your review/execution.

It appears that this amendment is necessary because there has been a delay in the execution of a new contract which would have removed UtiliCorp as a party.

Because of the Aquila spin off, we are under a significant time constraint to remove UCU from all Aquila contracts.

If you have any questions regarding this, please do not hesitate to contact me.

Dear WEN Members-2000:

We have not received your 2001 membership applications. You are in danger of being dropped from the membership directory for 2001 and from receiving monthly luncheon notices. Please send in your application for 2001 (see attached form) and your \$30 membership dues AS SOON AS POSSIBLE!

In the past, the WEN Board has sent you a copy of the monthly luncheon meeting notice and the bi-monthly newsletter by both e-mail and regular mail. The WEN Board recently voted to discontinue sending notices by regular mail. Beginning with this e-mail message, you will receive future meeting notices and the WEN newsletter by e-mail only. Those members for whom we do not have an e-mail address will continue to receive their notices by regular mail.

Keeping the above in mind, please make sure that you print the attached meeting notice as an extra reminder to yourself to sign up for the luncheon since you won't be receiving the hard copy in the mail. We hope that you approve of this method. If you have friends in mind that you think would be interested in attending our next luncheon on February 14, please forward the attached luncheon notice to them.

Additionally, the Board also voted to begin publishing the WEN newsletter on a quarterly basis rather than bi-monthly. We look forward to sending you your next newsletter in April.

For your information, we will be sending a survey to you in the near future to gather your input about suggestions for making WEN even better. We value your opinion, so your responses to the survey will be greatly appreciated.

Don't forget that we will be having a Networking Happy Hour for all WEN members on Thursday, February 1, at Mesa Grill, 1971 W. Gray (713-520-8900) beginning at 5 p.m. Hope to see you there!

Here are the most frequently used agreements for physical gas trades. I draft and negotiate both the Master Firm Purchase/Sale Agreement as well as ENA's Spot Agreement and GISB. If you have any questions, I can explain the process including credits part. Finally, the Master Agreement was last revised in September of 1998. These were minor revisions and I doubt you would ever have occasion to visit the 1998 form. Please let me know if I can be of further assistance.

John,

The only remaining points at issue concerning the GISB are as follows:

Section 1.2 change to "Oral". As you may recall in our previous discussion, Enron will always send a written confirm.

Section 10.1 supplement: Agree to purposed language save "two day", please revise to "5 business days".

If in agreement with changes above, please prepare final document and send for our execution.

Thank you for your assistance in this matter.

I have made the following changes:

On page 1-2 under "Financial Information" , 7th line beginning w/ "Customer". Deleted "[for its Guarantor] J.M. does not have a guarantor.

On the signature page for the Guaranty I changed "JM Huber" to "J.W. Huber".

In addition, in the "Appendix "1" I have deleted "EBITDA Coverage Ratio" this ratio does not apply here. And moved "Net Income" to its correct place in alpha order before "Net Worth"

Please see the attached revised draft.

How is the baby? Have you adjusted? Have the dogs adjusted?

The luncheon was just OK. I thought last year was better with regards to food and clothes. River Oaks CC did not live up to the Junior League in my opinion.

I have reviewed the special provisions for the GISB, we agree to your provisions however, I have a question with regards to no. 6. The last sentence states, " ..each party agrees that either party may use these recordings in its business affairs as it deems appropriate." My concerns are founded in the use of "these recordings". As the GISB does not have a provision for confidentiality we are concerned with the use of these recordings. Also, we want to be the confirming party.

Regarding BC Utility, I have discussed a GISB with Mr. Wong and we have been unable to come to agreement due to their choice of law restriction. Because they are a utility they are by statute required to bind agreements subject to British Columbia. Conversely as this would be an agreement subject to state laws of Texas as well as the United States, it will not work to agree to British Columbia as jurisdiction for this contract.

Please let me know if you have any questions, or I can be of further assistance.

Melissa,

Further to our conversation, attached are ENA's Special Provisions to the GISB along with revisions to certain sections. With regards to the payment guarantee, in the second paragraph please change "10 days" to "five business days" where it appears. For Section 2.4, please change ENA to confirming party, and in Section 3.2 change to Spot Price Standard.

Finally, we purpose the following language for Section 10.1.

Upon your review of the attached, please give me a call to discuss same.

Concerning ProLiance, we have tried in the recent past to negotiate with much difficulty a Master Gas Purchase Sale Agreement with this customer. There are significant credit and legal issues surrounding ProLiance. Enron Credit has refused to grant a line of credit as a result of these issues and will not ok a GISB. In addition, ProLiance has proven to be most unreasonable with regards to terms in the Master.

Please give Russell Diamond or I a call if you have any questions and or comments about ProLiance.

Pat,

Attached is a draft of the GISB between ENA and Sequent Energy. As requested, I have included in the Special Provisions found on the last page, an addition to Section 7 a provision for netting.

Regarding the date, how were the previous transactions papered you wish to be a part of this GISB? Are there in current active transactions?

Finally, if in agreement with this draft please complete Sequent's administrative portion and remove "Draft" from the heading and we can discuss your reasons for the date change.

Victoria,

Now it is my turn to apologize for a late response. Having said that, I have reviewed your remarks regarding the GISB my comments are as follows:

Section 1.2 Transactions may be negotiated orally or online. In either case Enron will send a written confirmation via fax or electronic for the trade. I hope this helps in clearing any confusion regarding the oral designation in Section1.2.

Section 7.2 With regards ACH, I am waiting on a response from my accounting dept.

Section 13.5 Concerning jurisdiction we will agree to New York.

Please let me have your thoughts regards these issues.

Please see the attached Transaction Agreement and Master Firm Purchase/Sale Agreement.

We are in receipt of signed faxes of the Transaction Agreement and Master Agreement however, we also need signed originals. To that end, "DRAFT" has been removed from the attached documents for execution. Please note, on the first page of the Master Agreement and Exhibit "C" the blank after "a". Determine the state of incorporation for Huber, and file in the name of the state.

Finally, print two of each document, have signed and send both to my attention.

Please let me know if you have any questions.

I have determined the GISBs referred to earlier were acquired by ENA through Columbia Energy Services. I will be faxing those to you soon. They are executed but in the name of CES. Regarding those agreements, we have Consent Agreements for assignment from MarkWest.

Concerning the Master Sale Spot Agreement dated 5-1-90, I have located same and will send you a fax of it as well.

I agree, with your suggestion to terminate the previous agreements and we can begin with a new GISB. I have not yet determined , do you know if there are any trades booked under any of these contracts? If so, we can move them to the new agreement,

I have completed my review of the revised Special Revisions my remarks are as follows:

We do not agree to the first paragraph.

1. Agreed 2. Agreed 3. Agreed 4. Agreed 5. Agreed 6. Agreed with change in wording.' 7. Agreed 8. Agreed to with exception of (ii).

We do not agree to suggested addition of Sections 10.3 and 10.4.

9 and 10. Agreed 11. Agreed 12. Agreed 13. We do not agree to this language.

Because the Special Provisions are part of the agreement there is no need for additional signature.

Debra, The only exception that we would have to make to the GISB agreement you sent would be the special provision regarding 3rd party arbitration. As a public entity in the state of Tennessee, arbitration is expressly not enforceable against TEAC and the language would have to be excluded from the agreement. Please give me an update or status for the following:

Dynegy Canada Inc. When we last spoke, you were in the review process and wanted to make changes to credit terms. Please advise on how I should proceed.

Engage Energy Canada LP The draft went to Engage in Oct. of last year. You had said you wanted to change credit terms? Do you want me to keep trying with this draft or send a new one?

TransAlta Energy marketing Corp. Do you want to change the credit terms ?

Reliant energy Services Canada Ltd. They have requested a Master with HPL?

Please let me have your thoughts on each of these by early tomorrow as I have to give Jeff / Stacy a memo regarding progress. If was my understanding from my last conversation with Veronica that there is significant exposure with some of these.

Many thanks!

Kathleen,

Further to our conversation, attached are drafts for Master Firm Purchase/Sale Agreements for HPL and ENA. As previously noted, our credit department has been in discussions with Jennifer West and Aquila's credit department regarding these agreements. It is my understanding Aquila requested the attached drafts.

Having said that, I will review your responses to my comments for the HPL agreement. I have suggested we amend the current Master Agreement (1993) between ENA and Aquila.

Finally, while there are existing guaranties currently in place between Enron and Aquila, they are only referenced in the attached and not included.

I look forward to working with you in finalizing these agreements. Please let me have your thoughts regarding these issues.

Debra,

Attached is the requested electronic version of the WPSC contract and Corporate Guaranty sent to Enron 12/14. Given the cold weather conditions, WPSC is very anxious to get this agreement executed. Hopefully, given the time we all spent resolving contract issues, this contract can be executed and sent to WPSC this week.

Please call me if you foresee any problem with this timetable.

Leandra,

As previously discussed, attached is a red-line version of suggested changes from Tractebel and ENA.

Please note ENA changes from the earlier draft are as follows:

Section 4.2 Triggering Event. Increase defaults for both parties to \$100,000,000.

Section 4.6 Collateral Requirement/ Termination Payment Threshold. Decrease in Tractebel's Threshold from
\$10,000,000 to \$7,500,000.

Appendix"1" "Material Adverse Change". Change Tractebel S.A. "Minimum net worth ratio" to \$3,375,000,000 USD from
\$150,000,000 Belgian Francs.

Laura Kinner in your credit dept. is working with ENA's Russell Diamond concerning these changes to credit sections.

Finally, although this draft has been reviewed by my attorney, there are a few sections as you will note we need to discuss
further.

Thank you for your assistance. Please let me have your thoughts regarding the draft.

Hi Debra,

Have you had any word back from credit regarding the Exposure Thresholds? When last we spoke, Enron wanted Duke to be reduced to \$1M regarding Early Termination Damages due to current exposure rates. Our credit department came back and said the Enron's exposure to Duke was such that they would then want to see an equal reduction in Enron's Early Termination Damages amount.

Basically, our credit department has asked that these amounts be reciprocal in nature as we have a situation where our exposure to one another is almost equal.

Please let me know what they say.

Robin

Thank you for your e-mail regarding SP's to the purposed GISB. My responses are as follows:

Section 1. We will agree to your suggest language.

Netting: We suggest the following:

In the event that Buyer and Seller are each required to pay an amount in the same Month hereunder, then such amounts with respect to each Party may be aggregated and the Parties may discharge their obligations to pay through netting, in which case the party, if any, owing the greater aggregate amount shall pay to the other party the difference between the amounts owed.

Adequate Assurance: We will agree to 5 business days.

Term: For firm delivery limit the use of the GISB to 30 days. For interruptible delivery there is no limit.

We will agree to the above along with our other SP's as written. Thanks for your attention to the foregoing. Please let me have your thoughts.

Attached are the Transaction Agreement and Master Firm Purchase/Sale Agreement for JM Huber.

Revisions are as follows: No changes were made to the Transaction Agreement. However, on page two the sixth line in the section "Condition Precedent" please fill in the correct date and have Huber initial.

Concerning the Master: Page1-3; Line 7 beginning with "Customer" [or its Guarantor] has been deleted. On the signature page "JW" has been changed to J.M. In Appendix 1: "EBITDA Coverage Ratio" has been deleted and "Net Income" has been moved and placed in alpha order. Finally, please fill in the name of the state in the blank on the first page in the first paragraph.

For execution: print two of each document and have Huber sign and return same to my attention. I will forward a set of originals for their records upon final execution.

I have place the amendment with your revisions and ours with my attorney for review. Hopefully I will receive it back today. In Section 4.2 we increased the event for Enron Corp. to 100m and Idacorp, Inc. to 50 m. In addition to this I changed the date of the Amendment to July 1, 2000, changed the name to reflect Enron North America Corp. and finally to Section 4.6

the following: Collateral Requirement/Termination Threshold is hereby amended by the addition thereto after the last sentence: "For purposes of this Section 4.6, the calculation of "Early Termination Payment" shall include all amounts owed but not yet paid by one Party whether or not such amounts are then due, for performance already provided pursuant to any and all Transactions."

These are the only changes we have made. Pending my attorney's review we should be ready. I will e-mail the new version as soon as I receive it.

Sorry for the confusion. Yes, you did send special provisions and the GISB. My comments to each of these are as follows.

GISB

Section 2.5 We would like for ENA or "Seller" to confirm.

Section 2.24 Gas Daily --Midpoint

Section 13.5 We will agree to Texas or New York jurisdictions.

Special Provisions

Section 1.2, Oral Transaction Procedure:

In third line of the suggested paragraph, delete "for purposes of Section 2.201(1) of the Uniform Commercial Code".

Section 7.5

We suggest the following language:

In the event that Buyer and Seller are each required to pay an amount in the same Month hereunder, then such amounts with respect to each Party may be aggregated and the Parties may discharge their obligations to pay through netting, in which case the Party, if any, owing the greater aggregate amount may pay to the other Party the difference between the amounts owed.

Please do not hesitate to contact me with you questions or comments. Attached is our information sheet for the GISB.

H.L. Jacobson ExxonMobil Gas Marketing Company

Further to our discussion Friday, concerning certain confirmations for ExxonMobil Gas Marketing Company, I have determined the following: first, ExxonMobil or HPL may confirm transactions as agreed at the time of the trade; second, in the event HPL confirms, we have made changes to our system which should prevent the issuance of GTCs for Exxon Mobil Gas Marketing Company trades, with the exception of "online" trades, therefore causing future trades relating to these agreements to attach to one of two contracts under discussion Friday. Please bear in mind these changes may not be in effect until the end of next week. With regards to confidentiality language contained in the confirm, we are unable to amend this at this time.

Finally, concerning the August 8th letter (confirmation) provided by you in the meeting, we are in agreement with same.

We trust the foregoing meets with your approval. Please do not hesitate to contact me with any questions you may have regarding this matter.

Gary,

Thanks for your e-mail, attached is a sample of our Master. I notice we currently have a Master in place with PPL Gas Utilities?

In response to your previous e-mail my comments are as follows:

We cannot agree to both parties confirming. ENA prefers to be the confirming party.

Section 13.5 NY law is fine.

Our netting language is a stated below:

In the event that Buyer and Seller are each required to pay an amount in the same Month hereunder, then such amounts with respect to each Party may be aggregated and the Parties may discharge their obligations to pay through netting, in which case the Party, if any, owing the greater aggregate amount may pay to the other Party the difference between the amounts owed.

Your suggest to stipulate a 30 day limitation on usage for the contract is not necessary as this condition is stated at the bottom of the first page in the disclaimer. With regards to limitation, we do not limit transactions to one year.

Finally, with regards to the Master, our credit department will need to speak to someone in your office for credit information.

Dear Colleagues:

Excellent news--the Women's Energy Network of Houston (WENH) 2002 Membership directories are going to print very soon! Your help is needed in order to ensure that your information is included in the directory.

According to our membership records, you have been a member or special event guest of the Women's Energy Network of Houston (WENH), or have attended one of our recent luncheons. To allow you the opportunity to enroll (or re-enroll) for 2002, and ensure inclusion in the 2002 Membership Directory, the deadline for membership enrollment has been extended until Tuesday, March 5, 2002.

Please know that enrollment occurs year-round. Once enrolled, you will receive advance notice of monthly luncheons, quarterly evening receptions, and special career and charitable events. And, of course, you will receive a complimentary copy of the WENH 2002 Membership Directory.

However, if you wish to be listed in the directory, please complete and return the attached form, along with check payment (\$30.00) before Tuesday, March 5, to:

Gloria Cook WENH Membership Coordinator 515 Tallowood, Suite 10 Houston, Texas 77024

For questions, please call me at 713.844.3626.

Thank you very much for your support of the Women's Energy Network of Houston!

Sarai,

Further to our conversation below is suggested language for Section 8.2.

8.2. Transfer. This Agreement, including, without limitation, each indemnification, shall inure to and bind the permitted successors and assigns of the Parties; provided, neither Party shall transfer this Agreement without the prior written approval of the other Party which may be withheld entirely at the option of such Party; provided further, either Party may, without the consent of the other Party (and without relieving itself from liability hereunder), (i) transfer, sell, pledge, encumber or assign this Agreement or the accounts, revenues or proceeds hereof in connection with any financing or other financial arrangements, (ii) transfer or assign this Agreement to any Affiliate by assignment, merger or otherwise, or (iii) transfer or assign this Agreement to any person or entity succeeding to all or substantially all of the assets of such Party. Any Party's transfer in violation of this Section 8.2 shall be void. Finally, with regards to Section 4.2, we will agree to the use of "occurrence" in (vii) however, we will not agree to the "borrowed money" in section (ix).

Please let me have your thoughts regarding these issues.

Beth,

We will agree to this version with the following changes:

"Enron recognizes that, when NEGM is acting as Buyer hereunder, NEGM is purchasing gas on behalf of certain gas companies (the "Repurchasers") to whom it immediately resells such gas at the Delivery Point(s). In addition to any other circumstances for which NEGM is entitled to claim force majeure pursuant to this Contract, Enron agrees that NEGM as Buyer shall be entitled to claim force majeure if a Repurchaser purchasing gas from NEGM is unable to take delivery of gas as a result of an event of force majeure at such Delivery Point(s). The parties further agree that the term "Transporter" when used in this Contract, including, but not limited to, in Sections 4.1. and 11.1, shall include any company acting in the capacity of a transporter for any Repurchaser and agree that Section 4.3 of the Contract will apply to invoices from such Transporters for Imbalance Charges received from such Transporters to the same extent as if such invoices were received by NEGM, provided that any such Repurchaser scheduled and nominated the same volumes as Enron and NEGM scheduled and nominated on behalf of such Repurchaser at the Delivery Point(s)."

Please let me have your thoughts.

Yes, the agreement was under ENA. The confirmation / contracts are on Stacy's desk for signature. The customer signed the contract/confirm with ENA !! I question if this is really suppose to be ENA Upstream? This deal was done with John Singer?? Can you speak with these guys? Let me know as the contract and confirm has been signed.

The Stevens Oil & Gas deal (06/01/01 - 05/30/02 - Sitara # 892828)) was only entered in the system today. Mary (Terry) Franklin entered it, but under John Grass instructions they entered it under ENA Upstream Company LLC - we need to send out revised Confirmation.

The question is, do we need to revise the Master to ENA Upstream too - John ?

Re: Enron/PPL GISB?

Sender	debra.perlingiere@enron.com
Recipients	[geshay@pplweb.com]
File	perlingiere-d/all_documents/2324.

Gary,

I have reviewed your GISB and Special Provisions my remarks are as follows:

Concerning the first page, Section 2.5 Enron prefers to be the confirming party; Section 3.2 we will agree to Spot Standard, and Section 13.5 Choice of Law we will agree to New York or Texas.

Special Provisions:

1. We would agree to this provision with minor changes in wording. 2. Agree to netting again with changes to language as follows: In the event that Buyer and Seller are each required to pay an amount in the same Month hereunder, then such amounts with respect to each Party may be aggregated and the Parties may discharge their obligations to pay through netting, in which case the Party, if any, owing the greater aggregate amount may pay to the other Party the difference

between the amounts owed.

We do not agree with purposed revisions to the remaining sections.

As previously stated, ENA will consider use of the GISB for firm delivery for 30 days or less. This of course does not apply to interruptible service. If your intent is for greater than 30 days of firm delivery, I suggest we explore use of our Master Agreement in combination with a GISB or alone. The Master cannot be used for interruptible service thus the need for the GISB.

Please let me have your thoughts regarding these issues and how you would like to proceed.

Debra,

All of the thresholds and Mac's on the contract look good. However, please confirm in which name the contract will be executed as, please. I think that the contract should be executed with Atmos Energy Corporation. In which case all of the references to Customer in the contract will have to be changed (as they all currently refer to Greeley Gas Company, a div...). The problem is that we do term deals with Atmos as well (most of them) and if it is a division of the contract should be with Atmos and not Greeley Gas, a div.

Thanks and sorry about the delay,

From: Gillespie, Steve Sent: Wednesday, October 03, 2001 2:24 PM To: Perlingiere, Debra Subject: RE: Louisville Gas & Electric

Debra,

My contact at LG&E has requested the default pricing in the contract be switched from "spot" to some type of "true-cost" verbiage. His point was that if he is buying 10,000 on a given day from Enron and ENA only delivers 5,000 by the terms of the present contract Enron would be responsible for the "spot" cost of replacement gas or the gas daily average for that zone. My contact points out that the market for gas when this purchase is to take place could be significantly higher (or lower) than gas daily and that is the cost they want to pay or receive.

Is something like this request possible?

FYI, I have started negotiations with LG&E, however they have not resolved the issue of party name(s) on their part. I will keep you apprised of my progress.

Beth,

My last e-mail should have read as follows ending with "volumes". =20

Enron recognizes that, when NEGM is acting as Buyer hereunder, NEGM is=20 purchasing gas on behalf of certain gas companies (the =01&Repurchasers=018=) to=20 whom it immediately resells such gas at the Delivery Point(s). The parti= es=20 further agree that the term =01&Transporter=018 when used in this Contract,= including, but not limited to, in Sections 4 and 11, shall include any=20 company acting in the capacity of a transporter for any Repurchaser and agr= ee=20 that Section 4.3 of the Contract will apply to invoices from such=20 Transporters for Imbalance Charges received from such Transporters to the= =20 same extent as if such invoices were received by NEGM provided, that any su= ch=20 Repurchaser, Enron and NEGM scheduled and nominated the same volumes. =20

In the event this is not acceptable, please let me know how you would like= =20 this Section to read. With regards to imbalances, I would direct you to= =20 section 4.3. As an example, if Enron nominates 10MMbtus and only 8 are=20 placed in the line, 2 will be made up by the transporter the cost is=20 Enrons, and 10 would be delivered to NEGM. And so the opposite holds for= =20 NEGM. If 10 could not be accepted by NEGM, its transporter would respond= =20 accordingly, and NEGM would be responsible for the cost.

Enron's concern is with NEGM's desire to claim force majeure as a result o= f=20 an event by its customer downstream. Force majeure must take place at the= =20 delivery point.=20

Hope this helps! Have a great weekend!!!!!!!!!!!!!!

In particular, we would like for you to articulate why some of the marked provisions are outright unacceptable. I hope that we can work together to create compromise provisions which will be accetable to all. Where possible, feel free to suggest alternate or edited language that solves your objections. Where entire provisions are unworkable, please give us some indication of why you have reached that determination. Also, please find a revised cover sheet attached as well. Carl,

Thank you for your e-mail yesterday re the GISB agreement. To finalize this agreement we would include the following in our Special Provisions:

GPU Service, Inc. is authorized agent acting for and on behalf of Jersey Central Power & Light Company, dba GPU Energy (the "Operating Utility") pursuant to the Agency Agreement, dated_____, by and between GPU Service, Inc. and Jersey Central Power & Light Company.

Buyer shall pay Seller the Contract Price regardless of whether the applicable state public utility commission[s] allow for the amounts paid by the Operating Utilities to the Service Company pursuant to the Agency Agreement to be recovered in customer rates. Furthermore, GPU Service, Inc. represents and warrants that: (a) the Operating Utility is duly organized,

validly existing, and in good standing under the applicable laws of the jurisdiction of its formation; (b) the execution, delivery, and performance of this Agreement are within the scope of its agency for the Operating Utility pursuant to the Agency Agreement; (c) the Agency Agreement is in full force and effect and represents a valid and binding obligation of the Operating Utility to accept and pay for the goods and services being obtained by the Service Company under the Agency Agreement; (d) the Operating Utility has all regulatory authorizations necessary for the Operating Utility to legally perform its obligations under this Agreement and the Agency Agreement; (e) the Operating Utility will be responsible for the obligations incurred under this Agreement on the Operating Utilities behalf by the Service Company as its authorized agent.

GPU Service, Inc. as agent for Jersey Central Power & Light Company has obtained all necessary or appropriate consents, commitments, and undertakings from the Operating Utility to assure the foregoing representations and warranties.

Finally, did I provide you with our Special Provisions? If not, please let me know. Upon your review of the above, please give me a call to discuss.

Dear Debra:

Our proposed restatement of Section 13.10 is as follows:

"Enron recognizes that, when NEGM is acting as Buyer hereunder, NEGM is purchasing gas on behalf of certain gas companies (the "Repurchasers") to whom it immediately resells such gas at the Delivery Point(s). In addition to any other circumstances for which NEGM is entitled to claim force majeure pursuant to this Contract, Enron agrees that NEGM as Buyer shall be entitled to claim force majeure if a Repurchaser purchasing gas from NEGM is unable to receive gas from NEGM because such Repurchaser has been affected by an event of force majeure. The parties further agree that the term "Transporter" when used in this Contract, including, but not limited to, in Sections 4.1. and 11.1, shall include any company acting in the capacity of a transporter for any Repurchaser and agree that Section 4.3 of the Contract will apply to invoices from such Transporters for Imbalance Charges received from such Transporters to the same extent as if such invoices were received by NEGM, provided that any such Repurchaser scheduled and nominated the same volumes as Enron and NEGM scheduled and nominated on behalf of such Repurchaser at the Delivery Point(s)."

I look forward to hearing from you. Best regards, Beth Webb

Dear Debra:

As promised, here is a redraft of the language on the force majeure point:

"Enron recognizes that, when NEGM is acting as Buyer hereunder, NEGM is purchasing gas on behalf of certain gas companies (the "Repurchasers") to whom it immediately resells such gas at the Delivery Point(s). In addition to any other circumstances for which NEGM is entitled to claim force majeure pursuant to this Contract, Enron agrees that NEGM as Buyer shall be entitled to claim force majeure if a Repurchaser purchasing gas from NEGM is unable to take delivery or transport gas from the Delivery Point(s) as a result of an event of force majeure. The parties further agree that the term "Transporter" when used in this Contract, including, but not limited to, in Sections 4.1. and 11.1, shall include any company acting in the capacity of a transporter for any Repurchaser and agree that Section 4.3 of the Contract will apply to invoices from such Transporters for Imbalance Charges received from such Transporters to the same extent as if such invoices were received by NEGM, provided that any such Repurchaser scheduled and nominated the same volumes as Enron and NEGM scheduled and nominated on behalf of such Repurchaser at the Delivery Point(s)."

Hopefully this reflects our discussions of yesterday and today. Best regards, Beth

In response to your e-mail please see the attached draft sent to Trans Canada. Be advised Trans Canada was less than eager to negotiate this agreement and as of today there has been no action. It would be great to get both executed!!

Christy, I am going to speak with Debra Perlingiere in ENA Legal to obtain the most recent version of the Master between ENA and TransCanada Energy Marketing USA, Inc. and will forward it when I receive it. I also will check into the status of that unexecuted Master as it may be that we can assist in getting both executed at the same time. Thanks.

James, thanks for the info. Yes, I agree they should be the same. Is there a chance I could get a copy of the one ENA sent out to them, not only would it show me how ENA worded certain things but would show me where ENA and EES agreements are different, so I can make sure we have same info. If you could send me a copy of ENA's proposal to TransCanada that would be helpful.

Thanks. Christy

From: James L Copeland/ENRON@enronXgate on 02/27/2001 11:43 AM To: Christina Finelli/HOU/EES@EES cc: Jesus Guerra/HOU/EES@EES, Russell Diamond/ENRON@enronXgate, Veronica Espinoza/ENRON@enronXgate Subject: Master Purchase and Sale Information Worksheet for TransCanada Energy Marketing USA, Inc.

Christy, attached please find the Master Purchase and Sale Information Worksheet for TransCanada Energy Marketing USA, Inc.

Please note that Russell Diamond and Veronica Espinoza have been working on executing a Master Purchase and Sale Agreement with the same counterparty on behalf of ENA. I have based the EES Master Worksheet off of the ENA Master Worksheet to remain consistent. My understanding from talking with Veronica and Russell is that this Master is not yet executed.

In negotiating the ENA Master, a \$60MM Enron Corp. guarantee has been issued benefiting TransCanada Energy USA, Inc. In addition, TransCanada Pipelines Ltd. has issued Enron and any of its subsidiaries a \$60MM guarantee on behalf of its sub, TransCanada Energy USA, Inc.

Putting in place an executed Master is definitely the only way to go as it will allow us to net exposures between EES and the counterparty. Please let me know how the status of the Master progresses or if you need my assistance to facilitate. Thanks for your help.

Barry,

My name is Alisha Mahabir and I have been working on negotiating the MGI/ENA GISB. I have been in contact with Lourdes Cervantes at MGI; her phone number is 525-232-5990. There are still a few issues left to be resolved before we can proceed with the execution of this document. Per Gerald Nemec's request, I will outline these changes as they are addressed in Exhibit B to the GISB that was sent over by Lourdes.

Initially I want to note that some changes must be made to the front page of the GISB. MGI has previously agreed to allow ENA to be the confirming party under Section 2.5. Additionally, there have been a few problems with allowing payment to be made on the 30th day of the month. It appears that MGI has been construing this provision broadly so as to make payment on the 2nd day of March after a short month in February. Thus, we would like Section 7.2 to read "30th day or, for the Month of February, on the last day of the Month".

As for Exhibit B, the changes are as follows:

#4 The words "or interruptible" should be deleted from this provision. The interruptible language conflicts with the ability to do 30 day firm deals under this contract.

#11 This provision deals with when notices are deemed received. The provision as written provides that notice by first class mail is deemed received 2 business days after mailing. MGI would like to change this to allow for receipt to mean actual receipt. Lourdes told me that she will check to see whether the change can be stricken or at least to extend 2 business days to 3 business days.

#12 (a) MGI has agreed to strike the term "letter" from the requirement that the Parent issue a guarantee should doubt arise as to Enron's ability to pay. (b) Originally the GISB provides that a contract can be terminated without prior notice should certain conditions be met. MGI wants to change this to require the parties to provide 48 hours notice. Lourdes told me that she would check to see whether this could be changed to 24 hours prior notice.

#16 The language designating ICC is acceptable, however any redundant language should be stricken.

If this memo is at all unclear, please feel free to call me. My extension is 52722.

Alisha Mahabir

Hi Anthony,

Please run a Sitara report for Williams Energy Marketing & Trading Company to see any CURRENT deals pending for this counterparty. Debra Perlingiere in Legal needs to know who the traders are dealing with this CP, so just spot check your list for about 20 deals. I realize there are quite a few deals out there, but you can limit the list by running with flow dates from today forward. Debra needs this information as soon as possible. If you don't recognize any of the names who created the deal, check people finder. Most of the book admins should be in the same cost center as the trader. Please let me know if you have any questions.

Dear EC Members, Alternates, Contracts Subcommittee Members and EC Meeting Participants,

We have received several requests to extend the comment period for the consideration of the base contract due to unexpected work load. After speaking to the chair of the Contracts Subcommittee and the officers of the EC, the comment period is extended to January 15 and while it will be discussed at the EC meeting in December, it will not be voted on for adoption until the February EC meeting. We hope that this change does not inconvenience you.

Best Regards, GISB Office

Anthony,

Please contact Keith Ford at TXU Fuel and give him the info he needs to prepare a contract with ENA (Tax ID, payment info, etc.). We need this to be effective June 1, 2001. If you are not the correct person to handle this, please forward to the appropriate person. Thanks.

At the request of Lynn Handlin, please find attached a copy of the following: GISB contract form Special Provisions for intrastate gas Special Provision for interstate gas

Please review, and if interested in putting these contracts in place, forward to me all required information on the first page of the GISB contract form. I will then have the contracts prepared and forwarded to you for execution.

Please keep in mind that TXU Fuel Company is an intrastate pipeline and can purchase interstate gas only under certain limited conditions. These conditions are covered under item number 8 in the Special Provisions. Thanks.
