FW: Resume' - Phillip Platter- Enron Power Marketing

Sender	phillip.platter@enron.com
Recipients	['KAPUSTKA', 'dried@oppd.com', 'LAURA L']
File	platter-p/sent_items/7.

Mr. Ried,

I thought I'd drop you a line to inquire about the energy marketer position you have had open. I understand you had the position open internally and that if you did not find a qualified candidate you would consider outside candidates. I am currently awaiting an offer from UBS, the new owner of Enron's wholesale trading assets. I want to reiterate my desire to return to Omaha and to work for OPPD. Please let me know of the status of your search for an energy marketer. I can be reached on my cell at 503-701-9736.

Thanks!

Dear Mr. Platter:

We currently have one opening for an energy marketer who works rotating shifts. This position will be posted internally in the next week or two. If we do not receive any qualified internal applicants, I will forward your resume to the Manager of Energy Marketing for consideration.

Thank you for your interest in OPPD.

David Ried, P.E.

Division Manager - Energy Marketing & Trading Omaha Public Power District 444 So. 16th Street MALL, 10E/EP 1
Omaha, NE 68102-2247

-----Original Message----- From: Platter [SMTP:platter.oregon@verizon.net] Sent: Thursday, December 13, 2001 5:37 PM To: dried@oppd.com Subject: Resume' - Phillip Platter- Enron Power Marketing Dear Mr. Ried, Sometime last year I was in contact with Bill Jones and Bob O'Neill, both longtime employees of OPPD. They both suggested I contact both you and Dave Dietz at that time. Though you did not have opportunities available then, my desire to work at OPPD is still with me. As you may know, Enron has filed for bankruptcy which has resulted in very uncertain times for many Enron employees including myself. While I am still employed in Enron's trading operations and believe we will be back trading as soon as we find a buyer, I have decided to seek other opportunities. I am an Omaha area native and wish to return home and use the skills I have attained in the Power Industry. I believe my experience at Enron, especially in power trading and scheduling, would provide me with a great foundation for success at OPPD. The past 11 months I have been trading next day power in the California market. My primary responsibilities included making markets on EnronOnline for off peak and odd-lot power. My average daily trading volume for these products ranged from 60 to 90 trades per day. I also had responsibility for managing the scheduling function which had been my main focus for the prior 3 years. Much of my time has been spent analyzing the market fundamentals including plant outages, transmission constraints, gas prices, weather, and Hydro flows. Over the last 4 years in power marketing I have been involved in scheduling all trading hubs in the WSCC, including extensive experience with the California ISO. I also worked shifts in the real time group. I am primarily interested in opportunities you may have in energy marketing and trading, but would consider other areas in your company. I have attached my resume' for your review and want to inform you I will be in Nebraska from December 26th thru January 3rd. I realize the Holidays are a busy time, but if you feel it may be beneficial to meet, I would gladly arrange to be available. I can be reached at 503-624-7995 (home), 503-464-3934 (work), or 503-701-9736 (cell). I look

forward to hearing from you soon. Sincerely, Phillip Platter << File: PHILPLATTER_RES4.doc >>

Estate Sch Worksheet

Sender	john.oh@enron.com
Recipients	['phillip.platter@enron.com', 'serena.bishop@enron.com']
File	platter-p/inbox/34.

Serena, Attached is the new scheduling sheet to point to the new databases for the ESTATE. The current Excel models will work until the final separation between Enron and UBSW (Next Thursday). I do not know who is responsible for the Estate scheduling, but forwarding it to you for now. More than likely, the sheet I am sending you will not work since you do not have access to the database. If you have the final answer to who will be doing the Scheduling the Estate, please send me and CC an Email to Sonny Seaton requesting access to SQDV001d Scheduling database.

Thanks,

John Oh Enron North America 503.464.5066 121 SW Salmon Street 503.701.1160 (cell) 3WTC 0306 503.464.3740 (fax)

Cali Scheduling Sheets

Sender	john.oh@enron.com
Recipients	['phillip.platter@enron.com', 'serena.bishop@enron.com']
File	platter-p/inbox/173.

The new California Scheduling sheet is located at

P:\Trading\California\EES\joh2\SCH

There are 2 sheets, one for Newco and one for the Estate. If you could please test out the Estate sheet and make sure it correlates correctly with the current old sheet, that would be greatly appreciated. Both sheets point to different databases.

There is still the known "holiday bug" where all holidays from 2002 and on will not show up correctly. This will be fixed in the new upcoming sheet.

The Newco sheet seems to work but there is no valid data in the Enpower database (all data for newco in the Enpower database has been truncated). Hopefully, Phil and I will have the new system up and running before we have to revert back to the old Newco sheet.

John Oh Enron North America 503.464.5066 121 SW Salmon Street 503.701.1160 (cell) 3WTC 0306 503.464.3740 (fax)

Hello everybody. You'll recall last year I raised over two thousand dollars for the American Heart Association in honor of my good friend Mitch Platter who died of a heart attack in last February. He was only 36. The actual diagnosis was something called "left main disease", but for you and me that just means a clogged artery at a very young age. He left a beautiful wife and four great kids. He was the best man in my wedding. We even went to kindergarten together.

While I can't bring my friend back, I can do something small to help fight heart disease and stroke. The American Heart Association, along with the USG Corporation, is again holding its annual Heart Walk America in Grant Park on September 14th, and I'll be walking in the event. Since the walk is on a Friday, most people can't take time off work to participate. But you can take part by sponsoring me for this walk.

I'm asking each person to consider a \$25.00 pledge, but any amount will do. Please e-mail back letting me know the amount you wish to pledge or call me at (312) 606-4507 and just leave a message. Your donation is tax deductible to the extent provided by law. I'll send each of you a return envelope and receipt for your tax records. Thanks again for supporting the American Heart Association.

FW: Hanson and Pilot Annuities

Sender	chris.mallory@enron.com
Recipients	['phillip.platter@enron.com']
File	platter-p/inbox/340.

-----Original Message-----

From: Cocke Jr., Stanley Sent: Saturday, November 03, 2001 8:41 AM To: Mallory, Chris; Richter, Jeff; Foster, Chris H.
Cc: Platter, Phillip; Gang, Lisa; Bishop, Serena Subject: Hanson and Pilot Annuities

All,

I've entered an annuity for October and November Pilot Power scheduling fee, for the November Hanson Cement scheduling fee, and the book-to-book transfer between West Services and Short Term California to split the scheduling fee. Currently, the fee for Pilot Power is \$7,500 per month (\$2,500 per load zone scheduled, SCE1, SDG1, and PGE3), and the scheduling fee for Hanson is \$2,500. The Enpower deal #'s are 855213, 855309, and 855318.

Please take a few moments to review these annuities. Going forward, West Services will enter these annuities at the first of every month for the month ahead.

Thanks,

Stan Cocke Enron North America 121 SW Salmon Portland, OR 97204 (o) 503-464-3829 (c) 503-819-1132

File	platter-p/inbox/35.

It was another epic adventure in Lake Tahoe as we "had it goin on"! The skiing was great, the scenery fine and the laughs gut wrenching. Don and I almost fell off the lift at Squaw Valley from Andy's cutting edge humor.

Here are the top ten lines from Ski Trip 2002.

10. Ichiban...or is it Ichi-Bob? 9. Hey Turch, put the yellow side up. 8. They must only let you guys out once a year. 7. My puppies are burnin! 6. Oh Billie, Billie, Billie. 5. One time? Come on...one time! 4. Hey Andy, what's that dirty t-shirt doing on the floor? 3. Alright Tommy, we'll take you to McDonalds. 2. Come right now, right now. I make big big big offa. 1. Yan Can Cook!

Ski Trip 2003 is tentatively scheduled for Jan. 29th - Feb. 2nd, 2003. The venue will be Park City, Utah. More details coming this fall. Give me a call for more information and mark your calendars now!

Electronic Pay Stubs

Sender	payroll.enron@enron.com
Recipients	[phillip.platter@enron.com]
File	platter-p/inbox/365.

Get ready. Beginning in November, electronic pay stubs will be available to all employees who have their paychecks direct deposited into their bank account. Electronic pay stubs are an easy, fast, and efficient way for you to get your payroll information. They will also help Enron to realize a considerable savings in time and dollars spent over traditional printed pay stubs.

If you prefer to receive a hardcopy of your pay stub, click on the link below to complete a request form. This form must be submitted to Payroll by October 15, 2001. Unless you submit a form your pay stub information will default to electronic viewing.

Please click on the link below.

Name: M PLATTER Personnel number: P00503890 Phone: 5034643934

If you have questions about electronic pay stubs, please contact Janice Priddy (Payroll) 713-853-7839 or Marie Newhouse (ClickAtHome) at 713-345-4185 or send an email to Enron.Payroll@enron.com (Enron Payroll in Outlook).

Stay tuned for more details in the coming weeks.

Upcoming OR4NE events

Sender	or4ne@or4ne.com
Recipients	[or4ne@or4ne.com]
File	platter-p/inbox/31.

I want to remind everyone that the deadline for purchasing tickets for the Winterhawks hockey night for Oregonians for Nebraska is fast approaching. We have a block of tickets reserved for Sunday, February 24th, 5:00 pm at Memorial Coliseum. Get your checks (\$11.50 per ticket and payable to Oregonians for Nebraska) to Lisa Martin at 401 S. Everest Road #2 Newberg OR 97132. If you have questions, you can contact her at lamartin59@aol.com. We must have your check prior to February 10th.

In other upcoming events, the Oregonians for Nebraska 3rd Annual Founders Day celebration is scheduled for Saturday, March 9th. The festivities will kickoff with an exclusive social hour for Blackshirt Club members only from 6 to 6:30 pm. A social hour with a no host bar including a silent auction for all others will start at 6:30 with dinner served at 7:30 pm. Throughout the evening, there will be door prizes and an exclusive raffle for those attending who are Alumni Association members.

The event is taking place at McMenamins Edgefield Manor in Troutdale. Edgefield is a unique European-style village, which includes lodging, a pub with a movie theater, fine dining, a winery, a brewery, distillery, golf course, gardens, vineyards, artwork, meeting, wedding and banquet space, and special events year round. Edgefield, built in 1911, served for several decades as the Multnomah County Poor Farm. Residents operated a self-sufficient environment, raising hogs, poultry, growing a variety of fruits and vegetables, operating a dairy, cannery and meat packing plant as well as working in the laundry, kitchen and hospital. In 1947, it was renamed the Multnomah County Home and Farm and in the late fifties the farm operation was eliminated. In 1962, the facility was renamed Edgefield Manor and for the last two decades of operation, functioned as a nursing home and eventually closed in 1982. McMenamins purchased the property from Multnomah County in 1990. In phases lasting over four years, the condemned buildings and land were transformed into a place that is quite special.

Edgefield also offers over 100 bed and breakfast rooms creating a unique lodging experience. Spacious rooms are furnished with cozy and inviting decor from the turn of the century. Televisions and telephones are absent from the rooms, encouraging a tranquil retreat atmosphere. If you are interested in spending the night on the 9th, contact Edgefield directly at 503-669-8610. Be sure to mention that you are with the Oregonians for Nebraska for discounted room rates.

Our speakers this year include the dean of the Nebraska football coaching staff, George Darlington and Chancellor of the University Harvey Perlman. Coach Darlington is the only remaining member of Tom Osborne's original Husker staff. Darlington is just finished his 29th season with the Huskers and his 16th as Nebraska's secondary coach. Darlington originally tutored the defensive ends for 13 seasons. Chancellor Perlman took over the reins of the University in 2000. Come hear about the future of both the University and the football team!

The theme of this year's Founders Day is The Road to Number One. The Alumni Association is hoping, with your help, to become the number one alumni association in the country. You can help by joining the Alumni Association - contact them

at www.unl.edu/alumni. When joining be sure to use our chapter code ORE.

If you have questions about Founders Day or want to make a reservation (the deadline is Friday, March 1st but space is limited!), contact Amy Dougherty at doughertyamy@attbi.com or at (503) 230-7004. If you have questions on joining the Alumni Association, our local chapter or the Blackshirts Club, feel free to contact me at this email address or check out our website at www.or4ne.com. Thanks and GO BIG RED!

FW: IEP FERC/ISO: FERC Mtg Agenda for 12/19

Sender	alan.comnes@enron.com
Recipients	['richard.shapiro@enron.com', 'l.nicolay@enron.com', 'd.steffes@enron.com']
File	platter-p/inbox/229.

In addition to the summary below, the agenda has the West-wide cap case on the agenda.

FERC has posted its agenda. It is available at <http://cips.ferc.gov/Q\CIPS\MISC\CA\CA121901.000.TXT>.

Here comes the Federal Regulatory Santa Claus? FERC's agenda for its 12/19 meeting is incredibly ambitious and appears to have queued up a large swath of high profile cases. To speculate based upon the current, end-of-the-year agenda, it appears that there will be orders regarding RTOs at center stage, with a twist of congestion mitigation thrown in (?). Interconnection issues also come up, including the CA dockets. There's also an order coming in the California docket, but its not that clear whether this addresses the gross load issue, outage coordination, the must-offer requirement, or some other facet of the "market mitigation" docket. RMR contract updates and the various protests also come up for consideration.

OR4NE Night at Winterhawks Hockey

Sender	or4ne@or4ne.com
Recipients	[glueguy@easystreet.com', 'or4ne@or4ne.com', 'kelleytralle@yahoo.com']
File	platter-p/inbox/79.

OR4NE Night at the WinterHawks - Top 10 reasons to clear your evening on Sunday, Feb. 24, 2002, 5:00 pm and be at Memorial Coliseum: 10. You want an excuse to go to a hockey game. 9. You want to go with people you know you'll have fun with. 8. You want to bring along additional people so we can have at least 50 people and get an official Winter Hawks hockey puck...to be utilized at a future event, like the Colorado game. 7. You know far enough in advance to actually be ABLE to clear your evening. 6. We'll get to see our name up in lights. 5. The opposing team is Tri-Cities, an apparently very "physical" rival. 4. We're NOT going on the same night as the church groups and cub scout troops. 3. Tickets are only \$11.50 per person and the theme is Dream Vacation. 2. If it's a raving success, we'll go back for their Big XII night on March 15, with a pre-game banquet to schmooze with other Alumni groups. And the #1 reason to go to the game is. . .

We can still wear our Husker red since they were smart enough to make the WinterHawk colors red, white and black. GO BIG RED!!!!!!!

If you have any questions, feel free to email Lisa Martin at lamartin59@aol.com, or call at (503) 913-6271. Send your check (\$11.50 per ticket), payable to Oregonians for Nebraska to Lisa at 401 S. Everest Road #2 Newberg OR 97132. We must have your check prior to February 10th. Hope to see you then and GO BIG RED!

NOTICE TO MARKET PARTICIPANTS El Paso Merchant Energy is changing their SCID

Effective Trade Date Monday, October 1, 2001 El Paso Merchant Energy (currently EPPS) will begin scheduling energy trades and bids under the new SCID; EPME. The OLD SCID 'EPPS' WILL NO LONGER BE VALID. All of El Paso Merchant Energy's scheduling transactions will use the new SCID beginning with submission of Day Ahead schedules for Trade Date, Monday, October 1, 2001. Any advance schedules that may have already been submitted using the old SCID, 'EPPS', must be removed (deleted) and rescheduled using the new SCID, EPME. If you have any questions regarding the scheduling of transactions with El Paso Merchant Energy, please contact: * EPME Scheduling D/A, Jana Bowden 800-664-7556 option #2 * EPME Scheduling H/A, Real Time desk 800-664-7556 option #1 * Other Issues / Questions, David Webb 713-420-5510 * EPME Real Time 800-664-7556

Distributed on behalf of El Paso Merchant Energy to facilitate the transition to their new SCID.

Nebraska Recruiting

Sender	jmvkad@earthlink.net
Recipients	['rosenau.paul@enron.com', 'phillip.platter@enron.com']
File	platter-p/inbox/106.

This just in (at 1pm Central Time) --

High School All-American runningback David Horne from Omaha Central choose Nebraska over Michigan. He also considered Notre Dame, Colorado, and Iowa.

Needless to say, this is a huge get for the Huskers.

From today's Lincoln Journal Star:

Omaha Central's David Horne, ranked by rivals100.com as the nation's No. 6 running back, has scheduled a 1 p.m. press conference today at his school to announce his decision. He recently narrowed his list to Nebraska and Michigan.

"I think he'll end up at Nebraska," Central Coach Joe McMenamin said Tuesday night. "But he's got a cousin at Michigan, and that plays into it. The one thing David knows is he wants to make his decision and be done with it."

The 6-foot, 195-pound Horne runs the 40-yard dash in 4.4 seconds and has a 34-inch vertical leap. He recently canceled recruiting trips to Iowa and Notre Dame after eliminating Colorado as a finalist.

Regards,

Jim Vojtech 661.799.3818 (home) 310-508-2487 (mobile) 800-946-4646, pin # 142-1608 (national pager)

CAISO NOTICE: Market Design 2002 (MD02)

Sender	bwoertz@caiso.com
Recipients	['20participants@caiso.com']
File	platter-p/deleted_items/56.

ISO Market Participants:

As you know, the ISO has scheduled four Focus Group meetings on January 14-17 to present the Market Design 2002 (MD02) preliminary design. Although we have suggested primary stakeholder groups for each meeting, the focus groups are completely open. We have structured the meetings as focus groups, rather than large stakeholder meetings, for two primary reasons:

- * We have better communication with smaller groups (~20) than with larger groups (~75). The ISO used this approach in a recent series of meetings on uninstructed deviation pricing and had very good success.

- * We expect to have better-focused discussions by concentrating those with similar interests into the same meetings.

The ISO does not want to exclude any stakeholder and would like any interested entity to participate in one of the four meetings. If your organization is not represented directly by one of the four identified stakeholder groups, you may attend whichever meeting you desire. We do ask that entities participate (either attend or actively participate by conference call) in only one meeting, although you may listen in to as many as you desire. If you would like to attend one of the meetings, please RSVP to my Assistant, Julia Payton at jpayton@caiso.com or (916) 608-7069.

CAISO Notice - Changes to RMR Conformed Dispatch Notice

Sender	crcommunications@caiso.com
Recipients	['scsettlecontacts@caiso.com', '20participants@caiso.com']
File	platter-p/inbox/130.

MARKET NOTICE January 17, 2002 Changes to RMR Conformed Dispatch Notice ISO Market Participants SC Settlement Contacts Effective February 1, 2002 the ISO will implement an updated version of the Conformed Dispatch Notice (CDN) that is sent to RMR Generator Owners and Participating Transmission Owners. We have added eight new columns to the end of the CDN to provide a way to document Voltage Support and Unit Substitution. Attached to this Notice is a sample CDN to illustrate these changes. The first additional column on the CDN, VOLT SUPP, will be used as a flag to determine whether or not a unit has been called for Voltage Support. A "0" in this field will signify the unit was not dispatched for Voltage Support, and a "1" will signify the unit was dispatched for Voltage Support. The second additional column, VOLT SUPP MW, will be used to record how much energy is associated with a Real Time Voltage Support dispatch given to Non-Synchronous Condensers. This column will contain a positive value, which signifies the amount of energy that the unit needs to decrease its Market Schedule. The next six columns, SUB UNIT1, SUB UNIT1 MW, SUB UNIT2, SUB UNIT2 MW, SUB UNIT3, SUB UNIT3 MW, will be used to list the Unit ID(s) and number of MWs that were substituted for the Unit with the original Dispatch Notice. These six additional columns will record each unit(s) that was(were) substituted and how much energy was generated hourly. The modifications to the CDN will not affect any other systems, since there are no formulas associated with these columns. If you have any questions, please call or e-mail any of the following ISO contacts: Yolanda Hernandez (916) 608-5938 yhernandez@caiso.com <mailto:yhernandez@caiso.com> Miranda Shore (916) 608-1286 mshore@caiso.com <mailto:mshore@caiso.com> Michael Glatz (916) 608-5727 mglatz@caiso.com <mailto:mglatz@caiso.com>

FW: Resume' - Phillip Platter - Enron Power Marketing

Sender	platter.oregon@verizon.net
Recipients	['phillip.platter@enron.com']
File	platter-p/inbox/102.

-----Original Message-----

From: Platter [mailto:platter.oregon@verizon.net] Sent: Thursday, December 13, 2001 8:42 PM To: lkapustka@oppd.com
Subject: Resume' - Phillip Platter - Enron Power Marketing

Dear Ms. Kapustka,

Last year I believe you had a conversation with my sister Molly Elvig about any opportunities for me at OPPD. I got in touch with Dave Dietz (it may have been Dave Ried) at that time and it was apparent then that there weren't opportunities available. Since then, I have expanded on my experience in the power industry with Enron in Portland, Oregon.

As you may know, Enron has filed for bankruptcy which has resulted in very uncertain times for many Enron employees including myself. While I am still employed in Enron's trading operations and believe we will be back trading as soon as we find a buyer, I have decided to seek other opportunities.

I believe my experience at Enron, especially in power trading and scheduling, would provide me with a great foundation for success at OPPD.

The past 11 months I have been trading next day power in the California market. My primary responsibilities included making markets on EnronOnline for off peak and odd-lot power. My average daily trading volume for these products ranged from 60 to 90 trades per day. I also had responsibility for managing the scheduling function which had been my main focus for the prior 3 years. Much of my time has been spent analyzing the market fundamentals including plant outages, transmission constraints, gas prices, weather, and Hydro flows.

Over the last 4 years in power marketing I have been involved in scheduling all trading hubs in the WSCC, including extensive experience with the California ISO. I also worked shifts in the real time group. I also am a C.P.A. with experience in budgeting and earnings analysis with Northern Natural Gas Company, an Enron subsidiary.

I am primarily interested in opportunities you may have in energy marketing and trading, but would consider other areas in your company. I have attached my resume' for your review and want to inform you I will be in Nebraska from December 26th thru January 3rd. I realize the Holidays are a busy time, but if you feel it may be beneficial to meet, I would gladly arrange to be available. I can be reached at 503-624-7995 (home),503-464-3934(work), or 503-701-9736(cell). I have also sent this information to David Ried and Dave Kulisek.

I look forward to hearing from you soon and I appreciate any assistance or advice you may provide me.

Sincerely,

Phillip Platter

Phillip - Thanks for the e-mail. I spoke with David Reid (Division Manager - Energy Marketing & Trading) regarding open trading positions. He indicated that he has one opening for a energy marketer (shift position) that will be posted internally first. If he doesn't get any qualified applicants, he will look externally. I would suggest you contact our Human Resources area and complete an application so a current one will be on file. I will watch for the position to be posted and let you know when it is opened to current employees - that will give you an idea of the time frame for filling the position. Good luck!

Laura Kapustka

EES CA SCHEDULE for 1/23/02

Sender	michael.frazier@enron.com
Recipients	['timothy.coffing@enron.com', 'pete.davis@enron.com', 'serena.bishop@enron.com']
File	platter-p/inbox/128.

The attached schedule covers Monday through Wednesday, Jan 21-23. Schedules sent yesterday for the holiday Monday and for Tuesday now incorporate later weather forecast data and are again shown on sheets "EES-Schedule day 1" and "day 2". The schedule for Wednesday, Jan 23 on sheet labeled "day 3" is being sent early to accomodate the long holiday weekend. If significant changes occur, this schedule will be rerun Tuesday AM. Associated text files for all dates will be posted to Sparky as usual.

EES CA SCHEDULE for 12/16 and 12/17/01

Sender	michael.frazier@enron.com
Recipients	['timothy.coffing@enron.com', 'kysa'.alport@enron.com', 'serena.bishop@enron.com']
File	platter-p/inbox/226.

The attached schedules have been generated with adjustment factors to reflect apparent over-estimation of customer loads, based on an analysis of EES meter data by Tim Coffing and on comparisons of past metered loads to previous forecasts produced. The impact of the adjustments lowers load totals by averages of approximately 100 mW in the NP15 zone and another 50-60 mW in the SP15 zone. These adjustments, which will continue to be refined with further analysis, have been discussed with Tim. Please call if you have any questions regarding these changes.

MARKET NOTICE December 5, 2001 In Re: California Independent System Operator Corporation Docket Nos. ER01-3013-000 and ER01 889-009 Compliance Filing Changes to Provision of Data to CERS Modification to November 30, 2001 Market Notice Modified Implementation Schedule - Changes to Provision of Data to CERS ISO Market Participants: On Friday, November 30, the ISO issued a market notice providing the ISO's schedule for complying with the Federal Energy Regulatory Commission ("FERC") November 7 and 20, 2001 orders, that require the ISO, among other things, to stop providing information to the California Department of Water Services, California Energy Resource Scheduling ("CERS") which is not also provided to other Scheduling Coordinators ("SCs"). The ISO has accomplished all milestones as listed through December 3, 2001. The transition planned on December 6 has been shifted until next week. The ISO is making every effort to insure that the transition is a smooth one and seeks some additional time to work with the resources in the California market to gain their cooperation with provision of inc and dec bids at reasonable prices. Specifically the items that were listed in Item 4 of the November 30 market notice to begin at HE 2400 on December 6, 2001 will now occur at 23:59 Wednesday night December 12, 2001. They include: a. The ISO will halt the preferential provision to CERS of the ISO Forecasted net short in the BEEP Stack; b. CERS will no longer engage in OOM purchases; and c. The ISO will dispatch all available Energy from bids in the BEEP Stack for both resources prior to the ISO making OOM purchases. ISO Market Participants: As announced at the November 15 Market Issues Forum Meeting, the ISO will host several focus group meetings to discuss the current proposal for pricing uninstructed deviations. Please note that we have added a fourth focus group meeting to address issues related to Municipal Utilities. The meeting dates, times, location, and intended participants are as follows: Tuesday, November 27 - 2:00 p.m. to 5:00 p.m., 101 Blue Ravine, Room 101 1b, Folsom, CA (IOUs, LSEs and Electricity Consumers) Wednesday, November 28 - 8:30 a.m. to 11:30 a.m., 101 Blue Ravine, Room 101 1b, Folsom, CA (Generators and Marketers) Friday, November 30 - 10:00 a.m. to 1:00 p.m., 101 Blue Ravine, Room 101 1b, Folsom, CA (Other Control Areas) Monday, December 3 - 10:30 a.m. to 1:00 p.m., 151 Blue

Ravine, Room 145b, Folsom, CA (Municipal Utilities) If you would like to participate in one of these discussions, please select the one that most closely matches your company's primary market involvement. To keep the discussions focused, we request that you participate in only one session. If you plan to attend a session in person, please RSVP to Julia Payton at jpayton@caiso.com <<mailto:jpayton@caiso.com>> so that we can plan seating appropriately (meetings will be at the ISO). If you cannot attend in person, you may participate by conference call. The phone-in information is as follows: Call-In Number: (877) 381-6005 Leader: Byron Woertz Tuesday, November 27, 2001, I.D. Number: 2511174 Wednesday, November 28, 2001, I.D. Number: 2511180 Friday, November 30, 2001, I.D. Number: 2511183 Monday, December 3, 2001, I.D. Number: 2522451 The ISO has posted a white paper describing the issue and resolution options. If you have questions regarding these meetings, please call Julia Payton at (916) 608-7069 Client Relations Communications CRCommunications@caiso.com
