I'm the original owner. I got it shortly after I came to this department. It's a Compaq Armada M700.

Bill, Are you the original owner of that laptop or is it a redeployed system? Also, what model?

-----Original Message-----

From: Wendt, Richard Sent: Wednesday, November 21, 2001 7:40 AM To: LaGessee, Denise Subject: RE: Laptop accessories

Not knowing exactly what model Compaq laptop Bill has makes this an educated guess on my part. First of all, all new laptops came with both CD and floppy drives so if he is the original owner have him check in the bag. If it was a redeployed system he may not have received all the pieces. With that said, an internal floppy drive will run about \$75 for the Compaq M700 laptop. Other models may vary in price a bit but probably not by much.

Do you want Bill Rapp to approve Agave's portion of the Grynberg invoices since he has taken over Susan's position? If so, please explain to him what these invoices are all about because I can't do it justice! Thanks!

P.S. He has 3 of these invoices in iPayit that he needs to approve . . . so the sooner the better. Thanks! :-)

The Color Laser Printer in my cube is up and running now! :-)

For those of you who had previously added this color printer to your selections, you'll need to delete that old icon because it's totally different this time. Here's how you delete it:

? "Start" (in the lower left-hand corner of your monitor) ? "Settings" ? "Printers" ? Highlight the printer you want to delete (call me if you're unsure which one) ? Press the delete button on your keyboard ? Make sure that's the one you really want to delete, and click "YES"

Here's how you gain access to the new one:

? "Start" ? "Run" ? In the box that says "Open:" type in the following (without the underlining):
\\wnahou-1005919\HPColorL ? "OK" ? "YES" ? This printer has now been added to your printer selections

Lee, You don't have to do anything because I already added it to your computer.

PLEASE NOTE: If you're printing to LEGAL paper, you'll need to manually change the paper cartridge before you select print. If you call me, I'd be happy to change the cartridge to LEGAL for you, but I ask that you change it back to LETTER once you print so that it's not an inconvenience to others. Mucho thanks!

Call me if questions. Thanks for you patience in getting this up and running again! :-)

Glen, I had a conversation with Pat Davidson (SoCal) yesterday. Things have been going smoothly, because SoCal has not been calling any OFO days. She felt like we would not have an issue until spring and at that time, there is an expectation that SoCal could be calling more OFOs. We agreed to continue talking, but that does not resolve the issue completely. Thanks. Lynn

From: "Dan Douglass" <douglass@energyattorney.com>@ENRON Sent: Friday, November 30, 2001 5:59 PM To: Rapp, Bill; Hass, Glen; Gregg Klatt Subject: SoCalGas Response to TW Protest of AL 2837-A

Attached is the SoCalGas response of our mild protest to their advice letter 2837-A. The relevant language is on page 5 of their letter and has been highlighted for your convenience. In part, they state that:

"These types of reductions are no different from today's practice of allowing customers to reduce nominations in the fourth scheduling cycle. The flaw is not in SoCalGas new procedures. SoCalGas provides customers with notice of an upcoming OFO two hours prior to scheduling cycle closing times. Within those two hours, customers can make changes to their nominations and still meet the scheduling timeline as defined by GISB standards. Even if SoCalGas cuts nominations in cycle four because customer reductions don't reduce deliveries enough to avoid operational problems, changes in cycle 4 are within GISB standards. Transwestern is supposed to be complying with those GISB standards and seems to state that it is unable to do so."

They go on to state a willingness to work with us on the issue. There is no procedural option for us to respond to their response. At this point, our option is to meet with Energy Division staff to discuss the issue further, should we feel the need to do so.

Have a good weekend! Dan

Earlier this month when SoCalGas filed this Advice Letter I had routed it for information. This filing to change Rule 30 in their tariff will document the changes effectuated by SoCalGas on Nov. 1 as it relates to the elimination of Windowing. Given our record and testimony in the GIR proceeding and the Systems Adequacy proceeding I hadn't intended to comment on this Advice Letter however I wanted to make sure you agreed with that position. Let me know what you think. Thanks.

From: "Dan Douglass" <douglass@energyattorney.com>@ENRON Sent: Friday, November 09, 2001 5:02 PM To: Hass, Glen; Harris, Steven Cc: Gregg Klatt Subject: SCG Advice 2837-A

Glen and Steve:

The attached supplemental advice filing by SoCalGas replaces the changes to Rule 30, Transportation of Customer-Owned Gas, proposed by AL2837. The purpose of this filing is to describe the new internal receipt point operating procedures that SoCalGas is implementing, and to request Commission authorization to include the revised operating procedures in Rule 30. SoCalGas says this step is being taken in anticipation that it will be replaced with a system of firm tradable intrastate transmission rights in Gas Industry Restructuring (GIR) proceeding, I.99-07-003. During the GIR panel hearings, several parties requested that SoCalGas publish its windowing criteria in tariffs to facilitate a better understanding of the method used to allocate receipt point capacity. SoCalGas agreed to make such a filing, and D.99-07-015 directed SoCalGas to file an advice letter adding windowing information to its tariffs. To comply with this directive, on August 6, 1999, SoCalGas filed AL2837, which has not been acted on by the Commission. Customer complaints about SoCalGas' windowing procedures have convinced SoCalGas that it should replace its internal windowing operating procedures with a system that is open to the maximum operating capacity at each SoCalGas receipt point. SoCalGas is making these internal operating changes effective November 1, 2001. SoCalGas held meetings with upstream pipelines on October 17, and with interested customers and stakeholders on October 18, regarding the upcoming changes. They were invited to ask any questions in the days leading up to the meetings. Comments and/or protests are due on November 21. Have a good weekend! Dan

As we discussed this morning, even though Northern Natural Gas is not a party to the subject ENA/Midland contract, we would be adversely affected should the power service at that location be shut off. I appreciate your agreeing to notify me (as a courtesy) in advance (402) 398-7061 of any such cessation of service prior to it occurring.

In answer to your specific question, the appropriate party to contact who represents ENA is Mark Knippa, who can be reached at (713) 853-3463. Only he or whomever he directs you to can speak for ENA.

I understand you just received several documents from ENA and wish to review them before commenting further regarding what Midlands future actions might be. I also understood you to say that in any event you would not discontinue service over the weekend and not without 24 hours notice so that someone could meet your folks at the site.

Contacts of value to you might be:

ENA Mark Knippa (713) 853-3463

ENA's bankruptcy lawyers are supposed to be sending out a signed copy of the letter today. When I receive it, I'll fax it to Charlie so he can forward it directly to the appropriate person(s) at Midland.

I visited with Charlie Graham this AM. To the best of operations knowledge, the past due statement for October(past due Dec. 2nd.) was mailed Dec.5th. Midlands normal practice is to discontinue service 10 days after mailing the past due notice. I think it is safe to assume that we must have the attached letter in the appropriate Midland Officials hand before the 15th.

Charlie has agreed to represent Operations and call Midland power and to assure the letter is received by Midland asap.

Charlie, the following are contacts we have used in the past for Midland. Roger Wick---515-386-4111 (most likely the best starting point) Patrick Minnick---712-297-5738 Key Accounts Executive Norm Fandel---515-386-4111 Director of Marketing

Jerry, we should probably visit about this on the outage call this afternoon. We'll need to get planning to run some capacity numbers just in case.

Thanks Tom

After the meeting yesterday and speaking to Bill Rapp and several others today I believe I can summarize the Hubbard/ENA circumstances as they exist right now:

- 1) The Hubbard Compression Services Agreement is with Enron North America (ENA) and ENA has filed for bankruptcy.
- 2) The outstanding Oct. (\$88,816.33) and Nov. (\$39,881.55) Midland Power Coop electric bills to ENA have not been paid, and probably won't be until the bankruptcy proceeding unfolds (if at all).
- 3) Under bankruptcy law, a utility cannot discontinue service to a debtor for not paying invoices outstanding at the time bankruptcy is filed and Bill Rapp has asked ENA's bankruptcy attorneys to provide the attached notice to Midlands Power Cooperative.
- 4) Under supervision of the bankruptcy court, future invoices received after bankruptcy was filed (Dec 2) will be paid by ENA (if they have the cash?).
- 5) ENA's nomination of 2,010 dth/d of "Monthly Fuel Gas Payable" from NNG has been confirmed and is flowing. (This is their source of cash!?)
- 6) Gas Accounting will continue to pay the "Monthly Demand Charge" (\$64,549), and the "Monthly Peak Compression Service Charges" (ranges from \$300 to \$40,000). The next payment is not due until the end of December.
- 7) ENA's O&M payment to NNG for motor operation (\$4,072.82) will be billed on the 20th of each month. One month's payment should have been outstanding when bankruptcy was filed and therefore not paid, however, it was actually paid to NNG on Dec. 6th.
- 8) ENA's next \$320,000 "Peak Associated Payment" is not due to NNG until July 1, 2002.

There is no certainty when dealing with a bankrupt entity, however, this is where we are today. The theme I keep hearing is business as usual.

Tom,

Lorraine,

Thanks for forwarding the attached message. The way I read this, PSNM is effectively withdrawing its demand for the collateral as long as we don't use the contract. We should probably send them a letter confirming that this is the case. I would suggest that you just send an e-mail in response stating that what PSNM has proposed is acceptable and that our understanding is that PSNM will not require collateral as long as we don't utilize the contract. Therefore, PSNM's demand for collateral by December 15 is, based on our understanding, withdrawn. Please let me know if you have any questions. Thanks.

This will put the Contract in an "INACTIVE" status instead of total Termination of the Contract. Prior to any future expectation of Off-system Transportation, pursuant to Contract T39817 between PNMGS and TWPC, there will then be an updated and current determination on the Financial Responsibility as set forth under ARTICLE XII. Charlie,

I think your summary is very good. I would like to add that although Midland cannot discontinue service to ENA for failure to pay the \$88,816.33 and \$39,881.55 invoices, Midland can shut off service if ENA fails to pay any future invoices. So, it's imperative that someone from Northern very closely monitor the situation with ENA and Midland to ensure that ENA makes the necessary payments. In addition, the bankruptcy court may require ENA to provide Midland with "adequate assurance" of future payments. If required, this will most likely take the form of a cash deposit or a letter of credit. Again, if ENA fails to provide this adequate assurance, Midland may discontinue service.

Charlie, nice job. Your idea to call Midland later in the week is a good plan: we obviously need to stay on top of this. Let us know if we can help. Greg

Mark Knippa talked to Roger Wieck (Midland Power Cooperative) this morning and let him know that he should be receiving payment of at least October's (approx.. \$88k) past due electric bill yet this week. Mark also was to let him know that ENA plans on continuing to operate and pay the electric bill into the future. Mark will follow-up later this week to see if the payment was made. If I don't hear from Mark or Midland by Wednesday or Thursday, I will check with Midland to see where things are.

Lee and Bill, please find attached two SW Gas Proposals from Kim Watson. Please review for possible signing by Steve Harris on today. Kim is on vacation but would like for these letters to go out today.

Again, please review and let me know if there are any changes as soon as possible.

Thanks in advance,

Emily,

Thanks for the e-mail and I look forward to meeting you too. I would prefer a laptop with a docking station. I would also prefer to keep the same phone number that I have now. Thanks again.

Bill,

I wanted to introduce myself (I'm Drew Fossum's Assistant) and let you know I will be taking care of getting you moved to our group on October 22nd. I have most of the information already from HR but I wanted to ask you if you prefer a desktop computer or laptop with a docking station and if you want to keep your same phone number? I want to order a computer as soon as possible so you will have it when you move....Your new office location will be EB4788 (which we're hoping to have cleared out before the 22nd) in case you want to move some things before then. I look forward to meeting you in person and if you have any questions, please feel free to call or email me.

Thanks,

Bill:

You have a new LexisNexis ID under ETS Legal. ID: 094NN0E (it's a zero before 9 and another zero before E) PW: rapp
Access LexisNexis via our legal portal Enron Legal Edge <http://legaledge.corp.enron.com/> find Research category, click on Lexis-Nexis link to get to the custom page of LexisNexis. Research Help Call 1-800-346-9759.

On the portal, we have provide you a single point access to many internal and external legal sources. You assign yourself a User ID and Password first time you log in that will allow you to customize the portal to your needs or you can just access it via the default set-up. Please feel free to give me a call if you have any questions about the portal or our corporate records and library services.

Sylvia, we have a new attorney from EES Legal (Bill Rapp) starting in our group on October 22nd. Will he need a new ID & Password set up with Lexis? He probably has one already under EES Legal but I wasn't sure how that works. Let me know your thoughts. Thanks.

I am appalled at the lack of seriousness with which some of you have responded to this heartfelt message. I, however, am already taking drugs (or will be again shortly) - (legal prescribed drugs, of course) and have no need for any such assistance. I truly believe that Enron will rise again. And I am content to work in the shadow of such great lawyers as Drew and Greg (if they had been higher up, this would never have happened!) As you can see, I am still completely capable of performing all of my duties - particularly the suck up requirement (although I have felt that Louie was surpassing me in this role with his previous message). As they say..."Get back to work!!!"

As we all know, this has been a difficult time for Enron. It may be a difficult time for you and your family members as well. Therefore, Enron would like to remind you that the Employee Assistance Program (EAP) is available to provide you and your dependents with confidential access to a professional who can offer support and direction with personal or job-related issues.

The EAP is available 24 hours a day, seven days a week, by calling 713.853.6057 or 1.800.345.1391. You may see some additional information about EAP at the following Intranet site:
