MetrixND Version 3.0

Sender	shannon@rer.com
Recipients	['shannon@rer.com']
File	saibi-e/inbox/1112.

Dear MetrixND Users,

Based on the results of our recent user survey regarding what Windows platforms you are using, we have decided to eliminate testing and support of MetrixND version 3.0 on Windows 95. The small fraction of you that are currently running a Windows 95 environment will need to upgrade to at least Windows 98 to run MetrixND version 3.0. RER will still support previous versions of MetrixND that run on Windows 95, however we encourage all users to run the most current version.

MetrixND version 3.0 will be tested on the following platforms:

-Windows 98 -Windows 2000 -Windows NT version 4.0 or higher -Windows ME -Windows XP

If you have any questions, please contact Frank Monforte or me.

Shannon Ashburn Regional Economic Research, Inc. (RER) 11236 El Camino Real San Diego, CA 92130-2650

Sender	jae.black@enron.com
Recipients	[eric.saibi@enron.com]
File	saibi-e/inbox/525.

-----Original Message-----

From: Arnold, Thu Pham Sent: Friday, September 28, 2001 11:49 AM To: Black, Tamara Jae; Gilbert-smith, Doug Cc: Sever, Stephanie; GCP_Houston Subject: RE: Stack manager ID

Tamara:

Eric Saibi has been linked to Enron Power Marketing Inc. His global ID is: 95063. GCP does not provide passwords for EOL, the EOL group handles passwords.

Doug:

Per our conversation, we will await to hear from you the specific desk to which you would like Eric linked next week. There are currently 16 different "ERCOT" desks, therefore we need to narrow down to the specific desk. Feel free to call w/ questions. Thanks.

Thu 5-4446

-----Original Message-----

From: Black, Tamara Jae Sent: Friday, September 28, 2001 8:18 AM To: GCP_Houston Cc: Sever, Stephanie Subject: Stack manager ID

Please give Eric Saibi a stack manager ID and password for EOL...he is on the East Power Trading Desk under Doug Gilbert-Smith trading the ERCOT offpeak.

Thanks

T.Jae Black East Power Trading Assistant to Kevin Presto off. 713-853-5800 fax 713-646-8272 cell 713-539-4760

Electronic Pay Stubs

Sender	enron.payroll@enron.com
Recipients	[eric.saibi@enron.com]
File	saibi-e/inbox/546.

Get ready. Beginning in November, electronic pay stubs will be available to all employees who have their paychecks direct deposited into their bank account. Electronic pay stubs are an easy, fast, and efficient way for you to get your payroll information. They will also help Enron to realize a considerable savings in time and dollars spent over traditional printed pay stubs.

If you prefer to receive a hardcopy of your pay stub, click on the link below to complete a request form. This form must be submitted to Payroll by October 15, 2001. Unless you submit a form your pay stub information will default to electronic viewing.

Please click on the link below.

Name: ERIC SAIBI Personnel number: P00502568 Phone: 713-853-5012

If you have questions about electronic pay stubs, please contact Janice Priddy (Payroll) 713-853-7839 or Marie Newhouse (ClickAtHome) at 713-345-4185 or send an email to Enron.Payroll@enron.com (Enron Payroll in Outlook).

Stay tuned for more details in the coming weeks.

-----Original Message-----

From: Walker, Chris Sent: Monday, November 19, 2001 10:50 AM To: Williams, Ryan Subject: RE: EOL Product

Ryan-

This product is now in the active status. Unfortunately, the 7x8 loadshape is out of our hands until the EnPower guys can come up with a solution. I'll keep our testing/bridging team on it.. Also, send an email to Stephanie Sever and Karen O'day requesting Execute access for Product Manager (all products you currently have read access for) and Read access for all Nat. Gas. Be sure to copy your desk head on the email. Call me with any questions.

Chris 3-7533

-----Original Message-----

From: Williams, Ryan Sent: Monday, November 19, 2001 10:40 AM To: Walker, Chris Subject: EOL Product

Chris-

Can you please approve the following product for Eric Saibi (EOL Product # 66296). Any news on the 7X8 product? Eric wants to roll it out as quickly as possible. Additionally, when log into Product Manager.....I am unable to create any

products as my access is "read only." What do I need to do to have this changed and have read only access to gas products added?

Thanks,

Ryan

Feb 1, 2002

What's New on [platts.com](http://www.platts.com)? Platts Enron Report: Read about the implications of Enron's bankruptcy on the financial and energy communities. (<http://www.platts.com/features/enron/index.shtml>)

E-commerce Update - Jan 2002: Latest energy e-commerce news. (<http://www.platts.com/ecommerce/index.shtml>)

DOE to propose Yucca Mtn: US Energy Secretary Spencer Abraham made known Jan 10 what had to be the worst-kept secret in the history of the nuclear industry: Yucca Mountain will be recommended to President George W. Bush as the permanent warehouse for the United State's radioactive castoffs beginning in 2010. (<http://www.platts.com/features/nukewastedisposal/>)

Upcoming Events Grid Business - The Midwest Region: An Electrical World Roundtable in cooperation with R. J. Rudden Associates and the United States Energy Association. March 21-22, 2002 St. Louis, Missouri. (<http://www.platts.com/gridbusiness/index.html>)

Futures Round-up NYMEX: Crude to open lower despite Kuwaiti blast NYMEX March crude oil is called to open 15 cts lower at \$19.33/bbl. March Brent is called to open 18 cts lower at \$19.00/bbl. March heating oil is called to open 6 pts lower at 52.80 cts/gal and March unleaded gasoline is called to open 42 pts lower at 57.00 cts/gal.

IPE Brent Focus: IPE Brent falls after initial 'knee jerk' move higher Front-month March peaked at \$19.45/bbl early on, before slipping lower to trade at \$19.11/bbl at 1104 GMT, 7 cts shy of the previous day's close at \$19.18/bbl. April futures had shed 9 cts to trade at \$19.32/bbl at the same time.

News Round-up Click on the headlines below or paste the URLs provided in your internet browser to see the full story.

ENERGY INSIGHT : A closer look at the Enron debacle There are questions to be answered on many aspects of the Enron crash, from political connections to corporate governance and professional accountability. But probably the biggest mystery concerning this largest US bankruptcy of all time is simply how it could have happened. (<http://www.einsight.com>)

OIL: Philippines new oil players wage war on illegal dealers There is a growing body of illegal dealers underselling refined oil products in the Philippines, according to a report by the country's New Petroleum Players Association.

(<http://www.platts.com/archives.shtml#58448>)

NATURAL GAS: Conoco consolidates Canadian gas marketing unit Conoco Canada said Thursday it was consolidating its entire Canadian natural gas marketing services under one umbrella in the company's gas and power marketing division, effective Friday. (<http://www.platts.com/archives.shtml#58431>)

PETROCHEMICALS: Lyondell to acquire Oxy's 29.5% stake in Equistar Lyondell Chemical Co announced Thursday that it had agreed in principle with Occidental Petroleum Corp to acquire Occidental's 29.5% share of Equistar Chemicals LP. (<http://www.platts.com/archives.shtml#58412>)

ADVERTISEMENT: Platts Global Energy Jobs Board and Resume Bank: Created in partnership with the Energy Jobs Network, the Jobs Board gives you access to a pool of job seekers and open positions across the energy industry. It's free for all job seekers, and there is a range of packages for employers posting jobs. (<http://www.energyjobsnetwork.com/home.asp?code=platts>)

ELECTRIC POWER: Barclays Capital hires Enron staff, expands commodities Barclays Capital is to expand its global commodities activities and has hired two professionals from Enron Europe, the investment banking division of the Barclays group, said. (<http://www.platts.com/archives.shtml#58458>)

NUCLEAR: Non-regulated plants boost Entergy earnings Entergy Corp said its non-regulated nuclear plants' performance boosted 2001 earnings, which were higher than the record results of 2000. (<http://www.platts.com/archives.shtml#58428>)

COAL: ExxonMobil sells coal firm to international consortium ExxonMobil late Thursday said it had agreed to sell its coal company International Colombia Resources Corp or Intercor to a consortium of Anglo American, BHP Billiton, and Glencore International. (<http://www.platts.com/archives.shtml#58441>)

ALTERNATE NUMBERS FOR JERRY WATSON AT FRONTERA/TECO

Sender	m..forney@enron.com
Recipients	['joe.errigo@enron.com', 'alexander.mcelreath@enron.com', 'eric.saibi@enron.com']
File	saibi-e/saved/5.

Please use the following:

Cell - 813-760-7199 Office - 813-228-4907 (should roll over to his cell after hours) second line in home: 813-634-7772

We have had problems locating Jerry on occasion in order to affect schedule changes. He lives in a rural area and his cell phone doesn't always work. In these instances, we tried to contact the plant to instruct them to increase/decrease generation. They have refused in the past, as they were only to receive instruction from Jerry.

The plant should now be aware that this communication problem can exist and will be receptive to making generation changes per our instructions.

JMF

File	saibi-e/inbox/505.

Eric,

You will not have to do anything....you will be using all of the equipment at Smith's desk. I have ordered Smith the new equipment he will need. I marked you down for vac and everything should be set up for you when you return.

Thanks Tjae

-----Original Message-----

From: Saibi, Eric Sent: Thursday, September 27, 2001 2:46 PM To: Black, Tamara Jae Subject: RE: Move Scheduled

TJ, I am planning to take all of next week off as vacation. However since I am on the hourly desk now, I don't really have any hardware or boxes that need to move. I am assuming that they will put two new machines and several flat screens at the new desk, and set them up like the other traders. Please let me know if this is not correct or if I need to do anything related to this move. Thanks.

Eric

Fw: Contact Infotmation Change Notice

Sender	akhan@khanventures.com
Recipients	[]
File	saibi-e/inbox/636.

----- Original Message -----

From: Adnan Khan Sent: Thursday, October 11, 2001 10:24 PM Subject: Contact Infotmation Change Notice I apologize for the mass email to everybody. Some of you are hearing from me out of the blue and others I may not have kept in touch with quite as much (but neither did you!). In any case I hope you are all doing well.

As you know I have been working from home these past few months - it's been nice; but I have started to get quite a few crank calls, at odd hours. Therefore, from now on, you will not be able to get a voice response at my old number (949) 387-9492 - this will be my fax. My voice number will be (949) 387-9493. Sometimes in this high tech world its nice to just have to switch the plugs!! (of course I'm also curious to see how long it will be till the rest of the world will figure this out). I can still also be reached at my cell phone (949) 307-6512

Please, keep these numbers in confidence, and do not share them with anyone. Thank you all.

Regards, Adnan Khan CEO Khan Ventures, LLC

Recipients	['jeffrey.miller@enron.com', 'John; Saathoff', 'William "Bill"; 1 Client Service Reps; Gates', 'Vikki [SC]; W...
File	saibi-e/saved/6.

When: Wednesday, June 06, 2001 9:30 AM-3:30 PM (GMT-06:00) Central Time (US & Canada). Where: Austin, TX; or via conf. call

~~*~*~*~*~*~*~*

Correction of meeting date: The subject meeting will be next week, June 6, 2001 rather than July 6 as stated in the invitation. We apologize for the error. It is just an indication of our zealous focus on July 6, 2001 as a big day for us and you as market participants. Ted Hailu Client Relations Manager Electric Reliability Council of Texas E-mail:

Thailu@ercot.com Telephone: (512) 248-3873 -----Original Message----- From: Client Relations Sent: Thursday, May 31, 2001 8:43 PM To: Hailu, Ted Cc: Doggett, Trip; Adams, John; Saathoff, Kent; Bojorquez, William "Bill"; 1 Client Service

Reps; Gates, Vikki [SC]; Wagner, Marguerite [SC]

Subject: Meeting on Dynamic Schedules and Responsibility transfers (RTs)

This is to invite you to a meeting on dynamic schedules and responsibility transfers that will be conducted by ERCOT on Wednesday, July 6, 2001. ERCOT will present the ways in which dynamic schedules and RTs will be accomplished per the current system design and protocols with examples of various scenarios to walk through the roles and responsibilities of the parties involved. A document on the ERCOT system design regarding these issues will be e-mailed to market participants by Monday June 4, 2001. The examples presented in the document will be the basis for discussions and time will be allocated for questions and answers on each topic.

Here is a tentative agenda for the meeting:

9:30 a.m. to 12:00 noon - Dynamic Schedules (Examples and Q&A) 12:00 noon to 1:00 p.m. - Lunch (will be provided)
1:00 p.m. to 3:00 p.m. - Responsibility transfers (Examples and Q&A)

The discussion on RTs may start before lunch if time allows and continue after lunch. There may also be a discussion of system design and protocol changes needed to implement RTs for balancing energy and capacity auctions.

The meeting will be held at the Austin Airport Hilton, 9515 New Airport Drive: Telephone (512) 385-6767. A conference call line will be set up for those unable to attend and the number to call in will be communicated along with the document mentioned above.

RDI Newsletter-The second edition of Inside RDI is now online!

Sender	platts1@ftenergy.com
Recipients	['insiderdi@list2.resdata.com']
File	saibi-e/inbox/493.

Valued RDI client,

Welcome to the second edition of Inside RDI, which you can access by clicking [here](#). We've changed how we deliver this newsletter in response to your suggestions. More about that later. First, we'd like to tell you about some significant corporate changes at RDI.

We are pleased to announce the merger of two of the world's most respected energy information, research, and market services groups: Financial Times Energy (FT Energy, including the RDI and E sourcebrands), a unit of Pearson plc, has been acquired by Platts, the energy division of The McGraw-Hill Companies. The merger with FT Energy fits well with Platts' mission: to be the world's largest and most authoritative provider of information, services, and solutions for the energy industry.

Operating within Platts, RDI will maintain its commitment to its customers, offering data, geospatial, and consulting products and services of the highest quality. But combining our talents with Platts' considerable expertise will result in significant expansions of existing products and capabilities in the areas of news, price assessments, increased global support, and market analysis of the energy industry.

In particular, Platts will augment RDI's database capabilities, mapping resources, and consulting services, providing a new level of analysis and insight. Furthermore, the merger with Platts will enhance RDI's ability to develop sophisticated new products and services. Just as in the past, should you have any questions about RDI database, geospatial, or consulting services, please direct your inquiries to RDI's Boulder, Colorado, office at 720-548-5000.

Inside RDI will continue to provide assessments of the latest industry trends, explain how you can use existing RDI products more effectively, and keep you up to date on the new tools we're developing. Because we listen to your thoughts

and suggestions, we've changed our delivery method with this edition of Inside RDI. As you've requested, you'll now receive bimonthly e-mail updates with a link that will allow you to download the publication on the spot. (Alternatively, you can visit www.rdionline.com to download the most recent edition whenever you wish.)

We hope you'll find Inside RDI to be a useful business tool. Your input is invaluable to us, because our goal is to make this newsletter serve your changing needs. Please don't hesitate to let us know what we can do to improve the publication.

Sincerely,

Heath Kucera Editor, Inside RDI

Dear Eric, On Thursday, the Washington bureau will have the test on the decision by Senate Democrats to speed a comprehensive energy bill to the floor, bypassing the normal committee process. Washington Bureau Chief Peter Cook says the decision is getting mixed reviews on Capitol Hill. The House Energy and Commerce Committee is expected to vote Thursday on legislation to renew the Price Anderson Act, which indemnifies the nuclear industry in the event of a major accident. The Washington bureau will bring us updates tomorrow. Also Thursday, we'll have complete coverage of the FERC meeting from the Washington bureau. Plus, the National Energy Marketers Association recently looked at critical infrastructure protection programs and how energy companies can better secure their facilities. NEMA President Craig Goodman will join us Thursday from the Washington bureau during the noon ET newscast. Also from Houston, Britain-based Centrica's President of Texas Operations Don Whaley is penciled in to discuss their participation in the Texas deregulated power market. Join us during the 4:00 p.m. ET newscast for the Whaley interview. Oil and Gas Journal Director of Internet Operations Les Finalle talks on Thursday about lease bidding on the Internet. He'll discuss some of the sellers, which include Giant Petroleum, Inc., Lewis Oil Corp., Louis Dreyfus Natural Gas, LLC, and more. ENL's Kym McNicholas will be live on Thursday from the Invensys Conference in Las Vegas. Kym is expecting to speak with former Secretary of State James Baker tomorrow. She'll also talk with British Airways Chairman Lord Marshall about supply and demand issues following the September 11 attacks. Keep in mind things are subject to change at a moment's notice. Occasionally guests cancel or change time slots. We'll continue to do our best to keep you updated on future interviews and events. Be sure to watch our newscasts every business day - 9 a.m. to 5 p.m. ET, at the top of each hour.

=09 =09 Dear Eric, In the wake of Enron's downfall, the Senate Energy = Committee is taking a second look at the Public Utility Holding Company Act= . On Wednesday, the Committee will hold a hearing on the PUHCA and our Was= hington bureau will bring us the latest. With talk of possible criminal a= ctivities in Enron's trading division, many are wondering what liabilities = UBS Warburg could face. On Wednesday from the Houston bureau, we'll talk w= ith former U.S. Attorney and Porter and Hedges Partner Dan Hedges about pro= blems that could arise for UBS Warburg. Haynes and Boone, LLP Attorney La= rry Pascal talks about how Argentina's economic crisis is affecting the ene= rgy industry. We'll have details on the disarray in Argentina from the Hous= ton bureau on Wednesday. On the West Coast, ENL's Kym McNicholas will sp= eak with Saber Partners CEO Joseph Fichera on Wednesday. Fichera says ther= e are some serious issues being overlooked in regard to the CPUC's rate agr= eement with the CDWR. Fichera will share his concerns during the 1:00 p.m.= ET newscast tomorrow. Also on Wednesday, Kym says she'll have more on th= e California Senate Energy Committee's hearing on the Independent Systems O= perators' Market Design Plan for 2002. Members of the committee say they h= ave serious doubts about the ISO's ability to enforce market rules going fo= rward. We'll also talk with Hydrogenics President and CEO Pierre Rivard o= n Wednesday. Rivard will join us from the NASDAQ during the 4:00 p.m. ET n= ewscast to discuss hydrogen fuel cell technology. Closing Prices for Tue= sday, Feb. 5, 2002 Crude: \$20.07/bbl unchanged Unleaded: \$0.5852/gallo= n -\$0.0079 Heating Oil: \$0.5369/gallon -\$0.0012 Gas: \$2.074/mmBtu -\$0.0= 43 Fwd uE(Mar.): \$3.55/mmBtu -\$0.02 Keep in mind things are subject to = change at a moment's notice. =09 =09 Dear Eric, The Center for Strategic and International Studies = is holding a daylong conference in Washington on Tuesday to address U.S./Ca= nadian energy issues. Washington Bureau Chief Peter Cook says a hot topic = up for discussion is the proposed gas pipeline linking Alaska to the Lower = 48. British Petroleum's President of Alaska-Canada Gas David Welch will be= a participant at the conference. The Washington bureau will have highligh= ts from the event tomorrow. We'll also have the latest fallout from the = Enron collapse in Washington. We'll explain where the various investigatio= ns are headed and whether the Enron situation may have a larger impact on e= nergy legislation in Congress. We'll bring you these reports from the Wash= ington bureau on Tuesday. Baker Botts Partner and Dynegy Lead Counsel Dav= id Burns is coming to the Houston bureau on Tuesday. He'll talk about the = decision to keep the Enron bankruptcy case in New York and Dynegy's concern= s with the terms of the deal with UBS Warburg. Catch Burns in the noon ET = newscast - and other Enron-related stories from the Houston bureau througho= ut the day. Raymond James &

Associates' Jim Rollyson will also be in the Houston bureau on Tuesday. Rollyson will discuss lower energy prices and how they might impact the economy. Congressional Representative for Oklahoma and gubernatorial candidate Steve Largent joins us on Tuesday. Rep. Largent will stop by ENL headquarters during the 10:00 a.m. ET newscast to discuss his thoughts on whether he expects a comprehensive energy bill to be passed in the near future. Closing Prices for Monday, Jan. 14, 2002 = Crude: \$18.89/bbl -\$0.79 Unleaded: \$0.5505/gallon -\$0.0226 Heating Oil: \$0.5166/gallon -\$0.0228 Gas: \$2.250/mmBtu +\$0.046 Fwd uE(Feb.): \$3.60/mmBtu -\$0.01 Keep in mind things are subject to change at a moment's notice. [IMAGE] =09 =09 Dear Eric, Next week, Washington bureau coverage will be dominated by the questions surrounding a comprehensive energy bill. Republicans and Democrats disagree on whether there is enough time and support to pass the bill, and Washington Bureau Chief Peter Cook says the dispute could threaten the bipartisan unity currently on the Hill. While Senators try to resolve that issue, members of Congress are tackling other major energy topics. Next week, the Senate Energy Committee will hold a hearing on the proposed natural gas pipeline connecting the lower 48 states to Alaska. Also, the House Resources Committee will look into using federal land for renewable energy production. CTN is sponsoring a major energy conference in Washington on Wednesday. Vice President Dick Cheney, FERC Commissioner Norma Mead Brownell and Williams CEO Keith Bailey are among those invited to the conference. The Washington bureau will bring us coverage of the event on Wednesday. Pace Consultants President Karl Bartholomew will join us from the Houston bureau next week. Bartholomew will give us his thoughts on Wednesday about the EPA's plan to review low sulfur diesel rules. Energy Intelligence Group Bureau Chief Barbara Shook will be another guest from the Houston bureau next week. A couple of years ago, companies like Enron were planning to offer multiple services online. On Thursday, Shook will ask the question, "What ever happened to convergence?" Also next week from Houston, Platts Petrochemical Alert Managing Editor Annette Hugh will talk about the U.S. phasing out MTBE, and New Energy Economy Editor-in-Chief Roxane Richter will explain why trading energy over the web still hasn't caught on. Catch all this from the Houston bureau next week. Keep in mind things are subject to change at a moment's notice. Occasionally guests cancel or change time slots. We'll continue to do our best to keep you updated on future interviews and events. Have a wonderful weekend! Be sure to watch our newscasts every business day - 9 a.m. to 5 p.m. ET, at the top of each hour. Keep it on energynewslive.com for all your energy news. =09 =09=09=09=09 =09=09=09=09=09 =09 =09=09Jay Rickerts, EnergyNewsLive.com Anchor View today's Energy Wrap Video: (Windows Media Player required) Broadband (100k) | Dial-up (56k) Get Windows Media Player Experience all that Williams Energy News Live has to offer! =09 =09 Dear Eric, The Enron/Dynegy story continues to heat up, and EN= L's Gale Smith says they'll have the very latest on developments surroundin= g the companies from the Houston bureau on Friday. William-Paul Thomas = of the Rainbow/PUSH Coalition talks to ENL's Myra Jolivet in the Houston bu= reau. Thomas is previewing the Rainbow/Push energy conference taking place= in Houston next week. He'll also have comments on Enron's involvement in t= he conference. Also, Signa Engineering Corporation Chairman and CEO Ric= k Stone is penciled in at the Houston bureau on Friday. Stone is talking a= bout underbalanced drilling and whether it's still the drilling technology = of choice for E?companies. Join us during the 2:00 p.m. ET newscast for th= e Houston bureau's conversation with Stone. On Friday from the ENL tradin= g floor, Stephanie Stanton will speak with Platts Natural Gas Markets Edito= r Liane Kucher. During the 9:00 a.m. ET newscast Kucher will discuss the = natural gas price jump of 79% in November. We can also look for a progres= s report from the Washington bureau on Friday on where energy legislation s= tands in Congress. Friday, we'll also see where the coal industry is head= ed. The National Coal Council met this week in Washington, and tomorrow we= 'll hear what participants are saying about some of the issues and opportun= ities facing the industry. The Washington bureau will bring us more on = developments at the FERC regarding Regional Transmission Organizations. Th= e Commission is giving states more time to get on board the RTO bandwagon a= nd provide more input on the subject. We'll bring you a closer look at the= implications of this week's order from the Washington bureau on Friday. = ENL's Kym McNicholas will also take a look at this week's FERC order and wh= at changes are underway at the California ISO in light of the order. Keep= in mind things are subject to change at a moment's notice. Occasionally gu= ests have to cancel or change time slots. We'll continue to do our best to= keep you updated on future interviews and events. =09 =09 Dear Eric, On Tuesday and Wednesday, Houston Correspondent Kim= Benestante will be live from the Power Mart Conference in Houston. The co= nference will cover key issues in electric power, gas and emerging markets.= Former Securities and Exchange Commission Chairman Arthur Levitt will be = among those attending the conference and on Tuesday he'll join us for an in= terview. Catch Levitt and live reports from the conference tomorrow. We'= ll have the latest from the Washington bureau Tuesday on Regional Transmiss= ion Organizations Week at the FERC. Washington Bureau Chief Peter Cook say= s we'll hear more from Chairman Pat Wood and key participants on the Commis= sion's weeklong effort to resolve issues raised by the transition to RTOs. = On Capitol Hill Tuesday, a House subcommittee will hold a hearing on cons= traints in the nation's gas infrastructure, and Peter says we can expect mo= re developments in the ongoing dispute over energy legislation in the Senat= e. Watch for those stories and the latest on the anthrax scare

that now includes Congress on Tuesday. West Coast Bureau Correspondent Kym McNicholas talks with Henwood Energy Managing Director Gary Hunt on Tuesday during the 1:00 p.m. ET newscast. Hunt will talk about why California should renegotiate the long-term power contracts with electricity providers, saying it would be mutually beneficial in some cases. The state could potentially see lower prices over time, while the generators could have the opportunity to sell more capacity to the state. A.G. Edwards Director of Futures Research Bill O'Grady will drop by during the 2:00 p.m. ET newscast on Tuesday. O'Grady will give us his reaction to the elimination of the AGA weekly numbers and explain how this change will affect traders. We'll have more reaction to the discontinuing of the AGA numbers during the 11:00 a.m. ET newscast. RDI Gas Consulting's Mike Farina will join us from Boulder on Tuesday. Keep in mind things are subject to change at a moment's notice. Occasionally guests cancel or change time slots. We'll continue to do our best to keep you updated on future interviews and events. Be sure to watch our newscasts every business day - 9 a.m. to 5 p.m. ET, at the top of each hour. =09 =09=09=09=09 =09=09=09=09=09 =09 =09 =09Jay Rickerts, EnergyNewsLive.com Anchor View today's Energy Wrap video (Requires Windows Media Player or Real Player) Experience all that Williams Energy News Live has to offer! =09 =09 Dear Eric, The White House continues to push for an economic stimulus package, with time running out for Democrats and Republicans trying to reach a deal. Washington Bureau Chief Peter Cook says on Tuesday, we'll continue to watch for developments with the stimulus legislation. Some of the proposals contain significant tax relief potential for energy businesses. The Senate Commerce Committee's Consumer Affairs Subcommittee will hold its first hearing Tuesday on the collapse of Enron. Peter says like the previous hearing on the House side, Enron management is not expected to take part. At least one Enron shareholder will participate. When Enron wraps up its bankruptcy case, many may walk away with little or no money. However, some will benefit from Enron's demise - bankruptcy attorneys. On Tuesday, University of Houston Law Center Director, Dean Nancy Rapaport talks about how corporate bankruptcies equal big business for lawyers. Continuing Enron coverage, Raymond James & Associates Oil Field Service Analyst Jim Rollyson is stopping by the Houston bureau on Thursday. He'll talk about the effects of the Enron collapse on the oil field services industry during the 2:00 p.m. ET newscast. UBS PaineWebber First Vice President of Investments Robert Young will also join us from the Houston bureau on Tuesday. He'll bring us up to speed on how the investment community views companies cutting expenses. Catch Young during the 10:00 a.m. ET newscast tomorrow. West Coast Correspondent Kym McNicholas will talk with California ISO President Terry Winter on Tuesday about transmission constraints in the San Francisco Bay Area and the outlook for this winter and next summer. Closing Prices for Monday, Dec. 17, 2001 Crude: \$19.15/bbl -\$0.07 Unleaded: \$0.5407/gallon -\$0.0048 Heating Oil: \$0.5337/gallon -\$0.0044 Gas: \$2.686/mmBtu -\$0.16 Keep in mind things are subject to change at a moment's notice. =09 =09 Dear Eric, Growing developments in Washington regarding Enron = - second hearing has been added for this Thursday. A complete list of who = will testify remains up in the air. We'll have all the details on hearings= in the nation's capital from our Washington bureau on Tuesday. A key Dem= ocrat in the U.S. Senate is taking the offensive Tuesday in the debate over= national energy policy. Days after the President renews his call for the = Senate to act on his energy plan, Senator John Kerry (D-MA) is scheduled to= deliver a speech on energy to the Center for National Policy. Kerry will = outline his ideas on how to reduce U.S. dependence on foreign oil and voice= his criticism of the Bush administration's push to open a portion of Alaska= a's Arctic National Wildlife Refuge to exploration and production. A fed= eral court judge will hear arguments Tuesday regarding the destruction of E= nron-related documents. The hearing is in response to Amalgamated Bank's r= equest to discover how and why Andersen destroyed Enron-related documents. = We'll have details on the hearing from the Houston bureau tomorrow. Also= from Houston on Tuesday, AES NewEnergy President Clem Palevich discusses d= eregulation and overcoming problems in the Texas market. Join us for these= reports from Houston. Tuesday, West Coast Correspondent Kym McNicholas w= ill discuss the California ISO's new Market Design Project 2002 with Harvar= d Economist William Hogan. Hogan says the new plan is a step forward for t= he California electricity market. Kym speaks with Hogan during the 3:00 p.= m. ET newscast tomorrow. Deutsche Banc Alex Brown Major Oil Analyst David= Wheeler is also dropping by on Tuesday. Wheeler will discuss fourth-quart= er estimates for the major oil companies live from New York during the 9:00= a.m. ET newscast tomorrow. Wrap Note: The NYSE was closed Monday due to = the Martin Luther King, Jr. holiday. We'll continue with commodity settle= on Tuesday when the markets resume trading. Keep in mind things are subj= ect to change at a moment's notice. Occasionally guests have to reschedule = or change time slots. We'll continue to do our best to keep you updated on= future interviews and events. =09 =09 Dear Eric, On Monday, the Washington bureau will follow up on = the President's new push for energy legislation in Congress. Washington Bu= reau Chief Peter Cook says on Friday, we heard some of the President's stro= ngest language to date, urging Democrats in the Senate to bring a bill to t= he floor. There are also several energy hearings scheduled in Congress n= ext week, including one on possible new limits on power plant emissions in = the Senate and another on MTBE in the House. The hearings are some of the f= irst to be rescheduled since the anthrax scare hit

Congress earlier this month. RDI Consulting Principal Mark Morey is penciled in from the Washington bureau on Monday. He'll share his insight on where the emissions issue stands on the Hill during the 9:00 a.m. ET newscast. Secretary of Interior Gale Norton was in Houston Friday at the IPAA conference. On Monday Houston Correspondent Kim Benestante will bring us more from Secretary Norton on Lease Sale 181 and how drilling in ANWR will create thousands of jobs for Texans. Noble Drilling CEO Jim Day will also stop by the Houston bureau to talk about his company's third-quarter earnings. The company reported very good earnings but Day warns that the fourth quarter may not be as good because of a weakening economy. Join us for all the details on Monday. ENL's Kym McNicholas will speak with Western States Petroleum Association Spokesperson Dave Fogarty next week. Fogarty will discuss California's decision to ban MTBE by December 31, 2002 and whether the state is ready for this move. Catch Fogarty from the West Coast bureau on Wednesday. Former Governor Pete Wilson tells Kym he takes responsibility for signing the state's deregulation plan, but adds there were steps Governor Gray Davis could and should have taken to avoid what turned out to be an energy crisis. Kym will have all the details on this story next week. Finally from New York, Goldman Sachs Analyst Dave Fleischer will drop by to talk about the gas market during the noon ET newscast. Keep in mind things are subject to change at a moment's notice. Occasionally guests cancel or change time slots. We'll continue to do our best to keep you updated on future interviews and events. Have a fantastic weekend! Be sure to watch our newscasts every business day - 9 a.m. to 5 p.m. ET, at the top of each hour. =09=09=09=09=09=09=09=09=09=09=09 Jay Rickerts, EnergyNewsLive.com Anchor View today's Energy Wrap video (Requires Windows Media Player or Real Player) Experience all that Williams Energy News Live has to offer! Dear Eric, Congressional interest in the collapse of Enron is growing. We'll have updates from the Washington bureau on Tuesday on the various committees looking into the company's problems. The first hearing is scheduled for Wednesday in the House Financial Services Committee and Enron Chairman Ken Lay has been invited to participate. The Federal Reserve's Open Markets Committee meets Tuesday to make a decision on interest rates. The Washington bureau will have the latest for us if and when the Fed decides to cut interest rates for the 11th time this year. Washington Bureau Chief Peter Cook is also watching the status of any economic stimulus package from Congress. Peter says signs indicate lawmakers could leave town for the year without a stimulus plan in place. We'll have more on the Senate Democratic energy bill on Tuesday. Renewable Fuels Association Communications Director Monte Shaw will talk about what the legislation will mean for the ethanol industry. I'll speak with Shaw during the noon ET newscast tomorrow. Also Tuesday, President Bush marks the three-month anniversary of the September 11th attacks. He'll participate in a White House ceremony before heading to South Carolina to deliver what the White House is calling a major address Tuesday afternoon at The Citadel. TradeSpark's Michael Williams will talk on Tuesday about his company's efforts to rebuild operations after the attacks of September 11. The online trading operation was one of the hardest hit in the tragedy. Houston Bureau Chief Myra Jolivet says they'll speak with TechKnowledge Consulting Corporation's Dave Jacobs on Tuesday. Jacobs will stop by the bureau to talk about disaster preparedness and recovery for energy companies. Join us tomorrow for these interviews from the Houston bureau. Closing Prices for Monday, Dec. 10, 2001 = Crude: \$18.37/bbl -\$0.67 Unleaded: \$0.5109/gallon -\$0.141 Heating Oil: \$0.5066/gallon -\$0.102 Gas: \$2.747/mmBtu +\$0.179 Keep in mind things are subject to change at a moment's notice. Occasionally guests have to cancel or change time slots. We'll continue to do our best to keep you updated on future interviews and events. Be sure to watch our newscasts every business day - 9 a.m. to 5 p.m. ET, at the top of each hour. =09=09=09=09=09=09=09=09=09=09=09

=09 =09 Dear Eric, As Enron continues to tumble, the Houston bureau wi= ll talk with analysts and experts about the anticipated bankruptcy filing a= nd gain perspective on how Enron got into this situation. Houston Bureau C= hief Myra Jolivet will bring us a report on the fall of the energy giant. = The Washington bureau will also bring us the latest on the fallout from th= e collapse of Enron. Washington Bureau Chief Peter Cook says members of Co= ngress are questioning whether Enron's problems are a sign of larger troubl= es within the energy industry. Some on the Hill are calling for Congressio= nal hearings. We'll hear more from former FERC Chairman James Hoecker on F= riday. Megawatt Daily Editor Michael Lustig will also talk with us about = Enron. He'll join us from the Washington bureau during the 9:00 a.m. ET ne= wscast on Friday. There are also several pieces of legislation on the tab= le that could impact the energy industry. The Senate is still divided over= how to stimulate the U.S. economy. Business tax relief is one of the issu= es on the table, but an agreement still seems a long way off. Republicans a= nd Democrats are still arguing over the time frame for a vote on comprehens= ive energy legislation. The Washington bureau will have the latest on that= battle, and take a look at a new proposal to improve security at the natio= n's nuclear plants. Catch these reports and more on Friday. There will b= e more live coverage Friday from Anchorage, as Houston Correspondent Kim Be= nestante reports from "Alaska Resources 2002: Can Alaska Compete?" Log on = for live reports from the conference throughout the day. We'll also have = reports on the Arctic Gas Symposium taking place in Houston on Friday. The= symposium is covering the Canadian perspective on natural gas. ENL's Gale= Smith will bring us the details tomorrow. Closing Prices for Thursday, = Nov. 29, 2001 Crude: \$18.62 -\$0.60 Unleaded: \$0.5200 -\$0.0078 Heatin= g Oil: \$0.5194 -\$0.0115 Natural Gas: \$2.561 -\$0.171 Keep in mind things= are subject to change at a moment's notice. =09 =09 Dear Eric, The first Congressional hearing into Enron's collapse takes place Wednesday. Slated witnesses include the Chief Accountant of the Securities and Exchange Commission and the CEO of Arthur Andersen, Enron's auditor. Enron Chairman and CEO Ken Lay declined an invitation to participate in the hearings. The Enron hearing isn't the only energy story on the Hill. All four FERC Commissioners will participate in a hearing on Representative Joe Barton's (R-TX) new electricity restructuring bill. Barton plans on holding at least two hearings this week on his legislation in hopes of trying to move the bill out of committee before the end of the year. Washington Bureau Chief Peter Cook says Wednesday House Majority Leader Dick Armey (R-TX) is expected to announce his intention to retire from Congress, from the House floor. We'll keep you updated on the situation from Washington tomorrow. The Global Oil Trends 2002 study says volatile oil price cycles and increasing competition mean applications of technology are key in determining success for the oil industry. On Wednesday, Houston Correspondent Kim Benestante will cover an event at which President and CEO of CERA Joseph Stanislaw and Energy Sun Microsystems Manager Larry Rice will talk about the findings from the joint study. West Coast Correspondent Kym McNicholas will bring us a report on the state of deregulation in California. Kym says politicians, state regulators and consumers are becoming more convinced deregulation doesn't work in light of the California energy crisis and Enron's fall. Catch Kym's report on Wednesday. Closing Prices for Tuesday, Dec. 11, 2001 Crude: \$18.08/bbl -\$0.29 Unleaded: \$0.5061/gallon -\$0.048 Heating Oil: \$0.4999/gallon -\$0.067 Gas: \$2.803/mmBtu +\$0.056 We'll check in with Alaron Trading Vice President Phil Flynn on Wednesday from the Chicago Mercantile Exchange. Flynn will bring us an overview of the API and DOE numbers during the noon ET newscast tomorrow. Keep in mind things are subject to change at a moment's notice. Occasionally guests have to cancel or change time slots. We'll continue to do our best to keep you updated on future interviews and events. Be sure to watch our newscasts every business day - 9 a.m. to 5 p.m. ET, at the top of each hour. =09 =09 =09 =09 =09 =09 =09 =09 =09 =09 =09 =09 Jay Rickerts, EnergyNewsLive.com Anchor View today's Energy Wrap Video Windows Media Player: 56K | 100K | 300K Real Player: 56K | 100K | 300K (Requires Windows Media Player or Real Player) Experience all that Williams Energy News Live has to offer! =09 =09 Dear Eric, ENL's Washington bureau will have the latest on efforts in Congress to pass electricity legislation. The House Energy and Air Quality Subcommittee will have two hearings during the day dealing with transmission and reliability issues. Electricity issues are also expected to be a major topic for Federal Energy Regulatory Commission Chairman Pat Wood as he heads to the Hill to meet with lawmakers behind closed doors. Also from Washington, Gas Daily Editor Nathan Hodge will join us to give us his take on FERC Judge Curtis Wagner's initial decision in the El Paso/California case. As we reported on ENL late Tuesday, Wagner concluded that the company is guilty of affiliate abuse, but says allegations the company exercised market power should be dismissed. Catch Hodge during the 9:00 a.m. ET newscast on Wednesday. Frost Bank Vice President Ted Harper will stop by the Houston bureau to continue

the discussion on Judge Wagner's recommenda= tion for El Paso. And University of Houston Professor Michael Economides, = Ph.D., talks about foreign oil and why it's critical for the U.S. to decrea= se its dependency on foreign producers. We'll bring you these interviews f= rom the Houston bureau on Wednesday. West Coast Correspondent Kym McNicho= las reports, the California Public Utilities Commission will meet on Wednes= day. The Commission could take up the CDWR's rate agreement again after fa= iling to approve it at their last meeting. California Governor Gray Davis = is urging them to reconsider the agreement that would pave the way for the = issuance of \$12.5 billion in energy bonds to pay off the state's budget def= icit. Gov. Davis could make a decision on whether to delay the ban on MTB= E in the state of California as early as Wednesday. Kym says she'll bring= us details as they become available. University of Tulsa Professor Mar= vin Will, Ph.D., will join us from ENL Headquarters on Wednesday morning. = Will is an expert on the Middle East and tomorrow he'll discuss oil supply = sensitivity in the region. Join us during the 10:00 a.m. ET newscast tomor= row. Keep in mind things are subject to change at a moment's notice. Occa= sionally guests cancel or change time slots. We'll continue to do our best= to keep you updated on future interviews and events. =09 =09 Dear Eric, Another Congressional hearing into the Enron collap= se is scheduled for next week, with the focus falling on energy. The Senat= e Energy Committee will look into what impact Enron's demise has had on ene= rgy markets. The Washington bureau will have complete coverage of Enron de= velopments on Capitol Hill. The White House could find a lawsuit on its d= oorstep next week. General Accounting Office Comptroller General David Wal= ker says he could decide as early as Wednesday whether to sue Vice Presiden= t Cheney over the administration's decision not to turn over more informati= on regarding the work of his energy task force. The GAO has never filed a = similar lawsuit in its history, but Vice President Cheney maintains the req= uest is inappropriate. FERC Chairman Pat Wood addresses a meeting of th= e American Public Power Association in Washington on Monday. The Washingto= n bureau will have details on the APPA meeting and coverage of the regular = FERC meeting on Wednesday. The FERC meeting includes a closed-door session= on the start of a possible FERC investigation. There's another whistlebl= lower in the Enron case - on Monday, the Houston bureau will speak with the= attorney for a woman who says she knew there were problems at Enron. We'l= l also have updates on the investigation into the death of a former Enron e= xecutive. On Monday, ENL's Kym McNicholas talks to Phoenix Consulting's = Susan Schneider about some recent California ISO filings with the Federal E= nergy Regulatory Commission. Schneider will also discuss the California Po= wer Authority's Energy Resource Investment Plan. Williams Energy Partners= L.P. CFO Don Wellendorf joins us on Monday. Wellendorf will discuss Willi= ams Energy Partners' fourth-quarter earnings during the 3:00 p.m. ET newscas= t. Closing Prices for Friday, Jan. 25, 2002 Crude: \$19.99/bbl +\$0.29= Unleaded: \$0.5828/gallon +\$0.0143 Heating Oil: \$0.5373/gallon +\$0.0034= Gas: \$2.037/mmBtu -\$0.011 Fwd uE(Feb.): \$3.44/mmBtu -\$0.05 Keep in m= ind things are subject to change at a moment's notice. Dear Eric, On Wednesday, the Washington bureau will have the latest on the warning from the Bush administration on new terrorist threats. We'll hear more from Energy Secretary Spencer Abraham on the security of the nation's energy infrastructure and the security reviews that are a top priority. Washington Bureau Chief Peter Cook says a key House Committee is expected to vote Wednesday on whether to reauthorize the Price Anderson Act, which would indemnify the nuclear industry in the event of a major accident. There has been behind-the-scenes debate over amendments being pushed by Democrats on the committee. We'll have more for you tomorrow from the Washington bureau. Competitive Enterprise Institute Attorney Chris Horner will join us from the Washington bureau to give us his take on climate change negotiations underway in Morocco. During the 9:00 a.m. ET newscast, Horner will discuss what the U.S. is trying to gain from the negotiations, and how climate debate has changed since the recent global economic downturn. The Houston bureau has penciled in Petrotechnical Open Software Corporation President and CEO David Archer on Wednesday. Archer is stopping by during the noon ET newscast to explain what POSC does, who participates in the organization and what role international standards will have in the future of the energy industry. We'll also talk on Wednesday with Swift Energy Executive Vice President Bruce Vincent from the Houston bureau. He'll join us to discuss Swift's earnings, which will be released tomorrow. Join us at 3:00 p.m. ET to find out how Swift fared in the third quarter. On Wednesday from the West Coast bureau, ENL's Kym McNicholas will have more on Tuesday's meeting between PG&E and Northern California Natural Gas Producers. Aleron Trading Vice President and Senior Market Analyst Phil Flynn will join us from the Windy City tomorrow. He'll give us an overview live from Chicago during the noon ET newscast of the API and DOE numbers and discuss how they may affect commodity prices. Keep in mind things are subject to change at a moment's notice. Occasionally guests cancel or change time slots. We'll continue to do our best to keep you updated on future interviews and events. Be sure to watch our newscasts every business day - 9 a.m. to 5 p.m. ET, at the top of each hour.

=09 =09 Dear Eric, Former Enron CEO Kenneth Lay will not testify at ei= ther Congressional hearing this week. Washington Bureau Chief Peter Cook s= ays because of Lay's decision not to appear, the Senate Commerce Committee = is expected to authorize the issuance of a subpoena to Lay as early as Tues= day morning. Two House subcommittees could soon issue their own subpoenas = as well. A subpoena would compel Lay to appear, but it does not guarantee = he will testify - he could invoke his constitutional right not to speak. = Other hearings involving Enron will proceed as planned, with three hearings= scheduled for Tuesday morning. One of the hearings involves Enron board m= ember William Powers, who will testify in front of the House Energy and Com= merce Committee's Oversight Subcommittee. Powers led the internal investiga= tion at Enron, resulting in a report released this weekend that was highly = critical of the company's management team. We'll have highlights from Powe= rs' testimony on Tuesday from Washington. Unsecured creditors can help en= sure a better rate of return on what they're owed by Enron through claims t= rading. That's according to Haynes and Boone LLP Attorney Lenny Parkins. = He'll join us during the noon ET newscast from the Houston bureau to discus= s the process of claims trading and how creditors can assure they will rece= ive some sort of payment. Also from Houston on Tuesday, Williams Gas Pipe= line CEO Doug Whisenant talks about pipeline safety following September 11.= He'll also discuss the future of Williams Gas Pipelines. We'll have more= from the one-on-one interview between West Coast Bureau Correspondent Kym = McNicholas and California Public Utilities Commission President Loretta Lyn= ch. Kym says Lynch will discuss the ongoing negotiations with generators t= o rework the state's long-term power contracts. Closing Prices for Monda= y, Feb. 4, 2002 Crude: \$20.07/bbl -\$0.31 Unleaded: \$0.5931/gallon -\$0.= 0103 Heating Oil: \$0.5381/gallon -\$0.0150 Gas: \$2.117/mmBtu -\$0.021 F= wd uE(Mar.): \$3.57/mmBtu +\$0.05 Keep in mind things are subject to change= at a moment's notice. =09 =09 Dear Eric, Washington Bureau Chief Peter Cook will sit down fo= r a one-on-one interview with Interior Secretary Gale Norton Wednesday. Pet= er plans to ask Secretary Norton about the pending fight in Congress over d= rilling in Alaska's Arctic National Wildlife Refuge and the future of energ= y production on federal lands. We'll have portions of the interview starti= ng tomorrow afternoon. Congress returns to work on Wednesday - The early = agenda will be filled with Enron hearings, as both the House and Senate beg= in hearings on Thursday. We'll have the latest on Wednesday, including the= lists of likely witnesses for each hearing. The Senate Environment a= nd Public Works Committee is holding a hearing Wednesday to consider whethe= r to reauthorize legislation that indemnifies the nuclear industry in the e= vent of a major nuclear accident called the Price Anderson Act. The Washin= gton bureau will have all the highlights from the hearing tomorrow. Wedne= sday, the Houston Bureau talks with MoneyLine host Lou Dobbs about the Enro= n story. Dobbs says there will be many more shoes to drop in this tragedy.= Catch Dobbs from Houston tomorrow. On Wednesday, we'll be talking live = with Laredo Energy President Glenn Hart. Hart will join us in the Houston = bureau during the 2:00 p.m. ET newscast to discuss a newly formed partnersh= ip between EnCap Investment, LLC and Michael Petroleum. We'll have more f= ourth-quarter earnings releases on Wednesday from Houston, including Dynegy= and Halliburton. Watch for Kerr-McGee earnings from ENL Headquarters as w= ell. West Coast Correspondent Kym

McNicholas will have more on a new California Senate Resolution sponsored by Senator Steve Peace. The resolution = praises Federal Energy Regulatory Commission Chairman Pat Wood, and at the = same time, shows displeasure with previous FERC boards. Closing Prices for Tuesday, Jan. 22, 2002 Crude: \$18.34/bbl +\$0.34 Unleaded: \$0.5479/gallon +\$0.0087 Heating Oil: \$0.5141/gallon \$0.000 Gas: \$2.106/mmBtu -\$0= .130 Fwd uE(Feb.): \$3.55/mmBtu -\$0.04 Keep in mind things are subject to change at a moment's notice. [IMAGE] =09 =09 Dear Eric, On Friday, the Washington bureau will have more from FERC Chairman Pat Wood on some of the changes he's proposing at the Commission. Wood and his colleagues are considering dramatic steps to compel utilities to join Regional Transmission Organizations. Wood will be the guest of honor at a newsmakers breakfast hosted by Energy Daily and the Washington bureau will have all the details Friday. Washington Bureau Chief Peter Cook will bring us the latest on the growing fight in Congress over energy legislation. Peter says Republicans and Democrats in the Senate continue to battle over whether to bring a comprehensive energy bill to the floor before the end of the year. Both sides say it's a priority, but Senate Majority Leader Tom Daschle argues there may not be time to pass an energy bill with the current demands on Congress. One issue continuing to divide the two sides is proposed drilling in Alaska's Arctic National Wildlife Refuge. The Teamsters have broken with the Democrats over ANWR, and at 11:00 a.m. ET tomorrow we'll find out why from Jerry Hood, the Teamsters Special Assistant on Energy. Dain Rauscher Wessels Equity Research Analyst Stephen Smith will join us from the Houston bureau on Friday. Smith will discuss energy stocks and explain why now is the time to buy. He'll be on during the noon ET newscast. Also from Houston, we'll have a report on Enron's on-line trading business. ENL's Gale Smith reports, the online service is saving the company millions of dollars. On Friday, one industry analyst will explain how this is possible. Join us from Houston for all the details tomorrow. Midwest Generation Vice President of Public Affairs Doug McFarlane will join us from Chicago on Friday. He'll bring us a strike update and a possible announcement during the 11:00 a.m. ET newscast tomorrow. Programming note: Catch the latest commentary from former Deputy Secretary Assistant of Energy Dr. Dennis O'Brien on EnergyPulse, every Friday after each newscast. Keep in mind things are subject to change at a moment's notice. Occasionally guests cancel or change time slots. We'll continue to do our best to keep you updated on future interviews and events. Be sure to watch our newscasts every business day - 9 a.m. to 5 p.m. ET, at the top of each hour. [IMAGE] Dear Eric, The leaders of three of the largest energy industry trade groups will talk Friday about last week's terrorist attacks and their impact on energy. The Washington bureau will bring us the very latest from the American Petroleum Institute, the American Gas Association and the Edison Electric Institute. We'll also have more from Thursday's House hearing on electricity issues. Washington Bureau Chief Peter Cook says there were some strong comments from members of the FERC regarding the commission's legal authority and the issue of Regional Transmission Organizations. Peter also says the Washington bureau will continue to have the very latest on any U.S. military response to last week's attacks. Stewart & Stevenson on Vice President of Marketing and Board of Directors Jim Stewart III is penciled in Friday from the Houston bureau. Stewart & Stevenson is a major supplier of products to the U.S. Army and commercial airlines and tomorrow Stewart will discuss how company operations will change following the terrorist attacks. He'll join us during the 3:00 p.m. ET newscast from the Houston bureau tomorrow. Also from the Houston bureau, we'll have a report on Dallas-based Ness Energy. Ness has increased its drilling operations in Israel and the company believes the area is the next Saudi Arabia for oil and gas. We'll bring you all the details from the Houston bureau tomorrow. From the West Coast bureau on Friday, we'll have the California ISO Board of Directors decision on whether or not to approve a payment plan put together between the grid operator and the California Department of Water Resources. We'll also have more on PG&E Corporation and PG&E Company's reorganization plan with reaction from the Governor's office and Phoenix Consulting Principal and former PG&E Executive Susan Schneider. Finally on Friday, Enrgy Daily Publisher Llewellyn King talks about what might happen to U.S. energy legislation in the wake of the terrorist attacks. Join us tomorrow for the latest from King. Keep in mind things are subject to change at a moment's notice. Occasionally guests cancel or change time slots. We'll continue to do our best to keep you updated on future interviews and events. Be sure to watch our newscasts every business day - 9 a.m. to 5 p.m. ET, at the top of every hour. Keep it on energynewslive.com for all your energy news.

Dear Eric, Congressional Representative for Oklahoma and gubernatorial candidate Steve Largent is scheduled to stop by ENL headquarters next week. We'll get Rep. Largent's opinion on the fight over energy legislation, whether he expects an energy bill any time soon and if ANWR is going to be in a final bill. Catch the Largent interview on Tuesday during the 10:00 a.m. ET newscast. The federal magnifying glass is on Enron - There are now six Congressional inquiries and at least four separate federal agencies conducting Enron reviews, including the Justice

Department. On Monday, the Washington bureau will have the latest developments regarding the investigations. Also from Washington, we'll continue our conversations with the Commissioners at the FERC. The Commissioners address what's ahead for the FERC in 2002 and where the fight over Yucca Mountain is headed. Despite Energy Secretary Spencer Abraham's conclusion that the Nevada site is prepared to store the nation's highly radioactive nuclear waste, many hurdles still stand in the way. The Washington bureau will explain what some of those hurdles are on Monday. On Monday, the Houston bureau will have more on Enron - A U.S. Attorney in Houston will discuss his official role in the criminal investigation into Enron. Join us for details next week. Also next week, we'll speak with Texas Public Utilities Commissioner Brett Perlman from the Houston bureau. Perlman will bring us an update on electric deregulation in Texas on Wednesday. California Governor Gray Davis drafted a plan with the Wall Street firm Saber Partners, which helps control energy costs and avoid blackouts in the state. On Monday, West Coast Correspondent Kym McNicholas will speak with Saber Partners CEO Joseph Fichera about his company's work with California. Fichera will join us during the 11:00 a.m. ET newscast on Monday. Closing Prices for Friday, Jan. 11, 2002 Crude: \$19.68/bbl -\$0.70 Unleaded: \$0.5731/gallon -\$0.165 Heating Oil: \$0.5394/gallon -\$0.139 Gas: \$2.204/mmBtu +\$0.019 Fwd uE(Feb.): \$3.61/mmBtu +\$0.09 Keep in mind things are subject to change at a moment's notice. Occasionally guests have to reschedule or change time slots. We'll continue to do our best to keep you updated on future interviews and events. =09=09 Dear Eric, The final Federal Energy Regulatory Commission meeting of 2001 will dominate our coverage from the Washington bureau on Wednesday. The agenda is packed, and includes discussion on the California refund case and a proposal to change accounting standards for energy companies. Washington Bureau Chief Peter Cook says we should also hear more on the development of Regional Transmission Organizations at the meeting. Lawmakers are preparing to leave town for the holidays. Republicans and Democrats are still trying to reach a deal on an economic stimulus package before they head home - so far there's no agreement. We'll follow these stories from the Washington bureau on Wednesday, and have more on possible Congressional action in the wake of the Enron implosion. Enron's collapse is affecting companies across the board, forcing some to reassess their balance sheets. On Wednesday from Houston, Jacobs Consultancy Managing Director Joe Ramsey will discuss how they account for their bottom lines. Join us during the 10:00 a.m. ET newscast for the Ramsey interview. Director of the University of Houston Energy Institute Michelle Foss, Ph.D., talks about what's next in the wake of Enron's fall. Foss will join us from Houston during the 3:00 p.m. ET newscast on Wednesday. Also on Wednesday, West Coast Correspondent Kym McNicholas speaks with Independent Energy Producers Association Executive Director Jan Smutny-Jones. Smutny-Jones talks about RTOs in the West and his hopes that Wednesday's FERC meeting can bring some guidance to the region. Log on for reports from the West Coast bureau on Wednesday. Closing Prices for Tuesday, Dec. 18, 2001 Crude: \$19.36/bbl +\$0.14 Unleaded: \$0.5504/gallon +\$0.0049 Heating Oil: \$0.5469/gallon +\$0.0088 Gas: \$2.657/mmBtu - \$0.031 We'll check back in with the Chicago Mercantile Exchange and Alaron Trading Vice President Phil Flynn on Wednesday. Flynn will discuss the relationship between OPEC and non-OPEC producers and where he thinks the war on terrorism will lead. Don't miss Flynn at noon ET on Wednesday. Keep in mind things are subject to change at a moment's notice.

Occasionally guests have to cancel or change time slots. We'll continue to do our best to keep you updated on future interviews and events. Be sure to watch our newscasts every business day - 9 a.m. to 5 p.m. ET, at the top of each hour. Dear Eric, We'll bring you more Monday on the showdown over energy heating up in the U.S. Senate. Washington Bureau Chief Peter Cook says Republicans plan to attach comprehensive energy legislation to the economic stimulus plan expected to hit the floor next week. Democrats plan to fight the effort. Peter also says people in Washington are expecting a decision from the Bush administration on whether the President intends to add to the nation's Strategic Petroleum Reserve. It currently stands at 543 million barrels and some in Congress are pushing for the White House to fill the SPR to its capacity of 700 million barrels. Former Secretary of Energy Bill Richardson will join us live from Washington on Monday at noon ET. Richardson will give us his insight on the current debate over energy in the Senate and other topics. The Houston bureau will speak with Industrial Information Resources Synfuels & Petroleum Refining Group Manager Chris Pascall on Monday. He'll have details on new multi-million dollar ethanol plants that are coming online in the U.S. in anticipation of the banning of MTBE. Also from the Houston bureau on Monday, Duke Energy Group President of Energy Services Harvey Padewer talks about the importance of safety and security at U.S. nuclear plants following the September 11th attacks. We'll hear from Padewer from the Houston bureau on Monday. From the West Coast bureau on Monday, we'll have more on the FERC Conference on Energy Infrastructure in the West. ENL's Kym McNicholas will bring us an update on the issues covered, concerns expressed, and comments from those attending in Seattle. Kym will also discuss a proposed plan for public power in San Francisco. On Monday, we'll have comments on the plan from California Power Authority Chair David Freeman. On Tuesday, California Alliance for Distributed Energy Resources Chairman Jairam Gopal is expected to speak with Kym. He'll talk about the integration and hybridization of distributed energy generation technologies in the state. Join us for reports from the West Coast bureau next week. Keep in mind things are subject to change at a moment's notice. Occasionally guests cancel or change time slots. We'll continue to do our best to keep you updated on future interviews and events. Have a fantastic weekend! Be sure to watch our newscasts every business day - 9 a.m. to 5 p.m. ET, at the top of each hour. =09 =09 Dear Eric, Congress is out of town, but we've still got plenty= of energy news from Washington. The Federal Energy Regulatory Commission = meets on Tuesday. One of the issues on the FERC's agenda is a complaint fi= led against the California Independent System Operator. Some companies all= ege the ISO is giving the California Department of Water Resources preferen= tial market treatment in its new role as California's main power purchaser.= We'll bring you the latest from the FERC on Tuesday. ENL's Washington = bureau will also cover the release of the North American Electric Reliabil= ty Council's Winter Assessment on Tuesday. The new NERC report will be rel= eased at 9:30 a.m. ET from the National Press Club in Washington. Also on= Tuesday, ENL's Alison Kosik will bring us more from the Department of Ener= gy's Clean Coal Technology Conference in Washington. The event focuses on = the latest in clean coal innovation and the prospects for coal-fired genera= tion in the U.S. Houston Correspondent Kim Benestante reports, many compa= nies feel wild price swings could be eliminated with more accurate weather = predictions. On Tuesday, Kim talks with Reliant Energy about steps that ca= n be taken to minimize weather risks. Ivanhoe Energy Vice President of In= vestor Relations John MacDonald talks with our Houston bureau about plans h= is company has for Gas-to-Liquids production. This type of motor fuel is o= dorless and emissions-free. We'll have more from MacDonald on Tuesday. F= rom the NASDAQ on Tuesday, ESAI Power and Gas Services Director Edward Krap= les will join us. During the 9:00 a.m. ET newscast, he'll talk about the a= mount of investment needed to keep Northwest power prices from escalating. = Broadcasting Note: Thanksgiving is this Thursday and the ENL staff is pre= paring the turkey. The markets are closed Thursday and Friday, so we'll be= dark. Wrap Note: In response to many viewer requests, starting today w= e're going to add some of the day's commodity settles. We hope you'll enjo= y this new addition to the daily wrap. Crude: \$17.72 Unleaded: \$.5079 = Heating Oil: \$.5238 Natural Gas: \$2.791 Keep in mind things are subject = to change at a moment's notice. Occasionally guests have to cancel or chang= e time slots. We'll continue to do our best to keep you updated on future = interviews and events. =09 =09 Dear Eric, The Federal Energy Regulatory Commission made sever= al major decisions at their last meeting of 2001. On Thursday, the Washingt= on bureau will examine the Commission's latest orders, including the FERC's= approval of the country's first Regional Transmission Organization. Energy= BusinessWatch Editor-in-Chief Howard Buskirk will join us in Washington dur= ing the 11:00 a.m. ET newscast to bring us his insight on the FERC. On Th= ursday, the Washington bureau will also bring us any progress from Congress= on reaching a deal on an economic stimulus package. Lawmakers are trying t= o come to an agreement before they head home for the holidays. President = of the Republic of Kazakhstan Nursultan Nazarbayev will address various ene= rgy topics during a speech at Rice

University in Houston on Thursday. Nearly 160 deposits of oil and gas have been discovered in Kazakhstan, one of which is the largest known deposit in the world. We'll also report the latest developments from Houston regarding Enron's bankruptcy case. Dynegy Lead: Counsel David Burns talks to the Houston bureau about getting the Enron bankruptcy case moved to Texas. Join us on Thursday for these reports and more from the Houston bureau. The California Public Utilities Commission is holding a prehearing conference on Thursday to discuss the potential impact of Enron's Chapter 11 filing on California energy markets. We'll have details from the West Coast bureau tomorrow. Closing Prices for Wednesday, December 19, 2001 Crude: \$19.80/bbl +\$0.20 Unleaded: \$0.5581/gallon+\$0.0077 = Heating Oil: \$0.5613/gallon+\$0.0144 Gas:\$2.616/mmBtu -\$0.041 Data: Synapse CEO Peter Lee will speak with us from the AMEX in New York on Thursday. Lee will discuss distributed computing technology and why he expects the energy industry to embrace the innovations during the 3:00 p.m. ET newscast. Broadcasting Note: OPEC will hold an extraordinary meeting to discuss the production cuts and exports scheduled to take effect on January 1. ENL Houston Correspondent Kim Benestante will be in Cairo, Egypt on Friday, December 28th to bring us live coverage of the meeting. Keep in mind things are subject to change at a moment's notice. Occasionally guests have to cancel or change time slots. We'll continue to do our best to keep you updated on future interviews and events. =09 =09 Dear Eric, Details of two major pieces of energy legislation were released this week. Washington Bureau Chief Peter Cook says we'll have more reaction on Friday to the Senate Democrats' comprehensive energy bill. We'll also have reaction to House Energy and Air Quality Chairman Joe Barton's electricity legislation. Barton talked about the legislation on ENL Thursday afternoon and you can watch that interview in its entirety in ENL's Video Library. On Friday during the noon ET newscast we'll hear what the American Public Power Association thinks of the bill. The Washington bureau will also take a closer look at the debate over vehicle fuel economy standards. A hearing took place on Thursday in the Senate. We'll bring you the follow-up on Friday. We'll also have the latest on the Enron situation from Washington. Company Chairman Ken Lay is currently scheduled to participate in a hearing on the Hill next week. On Friday, Houston Bureau Chief Myra Jolivet says we'll speak with Ann Baker Ronn and Karen Churchfield of the AFP Financial Planning Group. They'll join us to discuss what effect the Enron business dealings are having on 401(k) programs. Ronn and Churchfield will also discuss retirement savings and ways to avoid going down with the company in bad situations. The electronic trading organization = Tradespark is rebuilding after devastating staff losses in the attacks from September 11. On Friday, the Houston bureau will speak with Tradespark Managing Director Michael Williams about the company's operations after 9/11. We'll also have more from the Gulf of Mexico offshore drilling conference in Houston. Companies at the conference are exhibiting the latest technology and information from the offshore business sector. We've got more live coverage on Friday from Platts' Day of the Trader Conference in Las Vegas. Don't miss reports from West Coast Correspondent Kym McNicholas, live from the conference tomorrow. Closing Prices for Thursday, Dec. 6, 2001= Crude: \$18.54/bbl -\$0.95 Unleaded: \$0.5175/gallon -\$0.0245 Heating = Oil: \$0.5066/gallon -\$0.0248 Gas: \$2.565/mmBtu +\$0.074 Keep in mind things are subject to change at a moment's notice. =09 =09 Dear Eric, President Bush delivers his State of the Union address Tuesday evening, and on Wednesday our Washington bureau will bring us complete coverage of the speech as it relates to energy. During his address, the President will likely discuss the pending debate in the U.S. Senate over comprehensive energy legislation. President Bush is not expected to mention Enron by name, but he's expected to touch on some of the issues raised by the company's bankruptcy. There's a regular Federal Energy Regulatory Commission meeting on Wednesday. There are a host of issues on the agenda including the Commission's new push to address market power and the California case. Finally from Washington, in the wake of the Enron implosion, there's talk of a new lobbying effort on behalf of electricity restructuring. Former FERC Chairman James Hoecker is spearheading the effort and will talk with us during the 10:00 a.m. ET newscast tomorrow about where those efforts stand. Altira Managing Partner Dirk McDermott talks about challenges new energy companies face when trying to find investors, especially since the Enron crisis. On Wednesday in the Houston bureau, we'll hear from McDermott and have details on his speech from Energy Venture Fair II, where he addressed the issue. Also from Houston, AES New Energy President Clem Plevich talks about the challenges his company faces in the new Texas electric deregulated market in Texas. Bonneville Power Administration Spokesperson Mike Hansen will join West Coast Correspondent Kym McNicholas during the 1:00 p.m. ET newscast on Wednesday. Hansen will discuss how lower market prices will lead to higher rates in the Northwest. More on energy prices - from New York on Wednesday, Merrill Lynch Senior Economist Gerald Cohen will discuss the impact of energy prices on the economy. He'll also give us his expectations for the Fed. Catch Cohen during the 11:00 a.m. ET newscast tomorrow. Closing Prices for Tuesday, Jan. 29, 2002 Crude: \$19.58/bbl -\$0.47 Unleaded: \$0.5669/gallon -\$0.0142 Heating Oil: \$0.5205/gallon -\$0.0108 Gas: \$2.006/mmBtu +\$0.098 Fwd uE(Feb.): \$3.39/mmBtu = +\$0.03 Keep in mind things are subject to change at a moment's notice. =09 =09 Dear Eric, Energy Secretary Spencer Abraham is recommending to the President that the government open the Yucca Mountain Facility in Nevada to store the nation's high-level nuclear waste. On Friday from the Washington bureau, we'll have reaction to Abraham's decision and where the Yucca project goes from here. On Friday, we'll bring you more comments from our interviews with Federal Energy Regulatory Commission members William Massey and Nora Mead Brownell. Both Commissioners will give us a look at what's in store for the FERC in the upcoming year. The White House faces a greater number of questions after Thursday regarding Enron's collapse. The Department of

=09 =09 Dear Eric, On Tuesday the Washington bureau will have the late= st on the U.S. military response in Afghanistan to the September 11 attacks= . We'll keep you updated as events unfold. Also from Washington on Tue= sday, a resolution calling for the government to fill the Strategic Petrole= um Reserve to capacity is heading to the House floor for a vote. Also tomo= rrow, the Senate Energy and Natural Resources Committee will begin addressi= ng the issue of energy infrastructure security. Senators will discuss ways= to further strengthen the energy industry's physical and cyber infrastru= ctures from attack. Washington Bureau Chief Peter Cook says the Federal E= nergy Regulatory Commission's Chief Administrative Law Judge is expected to= announce his initial decision on Tuesday regarding the Commission's invest= igation into allegations that El Paso and some of its affiliates manipulate= d the California gas market. Join us for these stories and more from Washi= ngton tomorrow. The Structure Group is Houston's sixth fastest-growing bu= siness, due to their work in the deregulated power industry. On Tuesday, T= he Structure Group Principal David Shephard will stop by the Houston burea= u during the 2:00 p.m. ET newscast to discuss the company's growth, which h= e attributes to deregulation in Texas. The Structure Group has played an in= tegral role in setting up the software systems in the state's power grid. = Also from the Houston bureau, ENL's Gale Smith says we'll have a report on= the FBI's role in combating cyber theft. We'll bring you all the details = on Tuesday. From the West Coast bureau on Tuesday, ENL's Kym McNicholas r= eports on the annual Independent Energy Producers Association meeting. The = focus of the meeting will revolve around where the California market is hea= ded. Kym will bring us all the details from the meeting tomorrow. The M= irant Corporation flips the switch on a new power facility in Longview, Was= hington Tuesday. Kym says we'll have more on Tuesday from Mirant Spokesper= son Patrick Dorinson from the West Coast bureau. From San Francisco, iSph= eres CEO and Co-founder Santosh Alexander will discuss iSpheres' announceme= nt of the energy industry's first solution for real-time trader event manag= ement. Catch Alexander during the 11:00 a.m. ET newscast on Tuesday. Kee= p in mind things are subject to change at a moment's notice. Occasionally g= uests cancel or change time slots. We'll continue to do our best to keep y= ou updated on future interviews and events. Be sure to watch our newscas= ts every business day - 9 a.m. to 5 p.m. ET, at the top of each hour. =09= =09=09=09=09 =09=09=09=09=09=09 =09 =09 =09Jay Rickerts, EnergyNewsLive.com Anchor View today's Energy Wrap vi= deo (Requires Windows Media Player or Real Player) Experience all that= Williams Energy News Live has to offer! =09 =09 Dear Eric, The second of two hearings in the House Energy and = Air Quality Subcommittee on Representative Joe Barton's (R-TX) electricity = bill will be held on Thursday. At the first hearing on Wednesday, all four= FERC commissioners commented on Barton's bill. Several industry trade ass= ociations will testify during day two of the hearings. Washington Bureau C= hief Peter Cook says Rep. Barton believes the legislation will improve rest= ructuring efforts around the country, while some Democrats on the Subcommit= tee say the bill goes too far. We'll bring you more on the debate tomorrow= . Peter also says the bureau will have more from the first Congressional = hearing into the collapse of Enron. Wednesday's hearing is expected to be = the first of many on the Hill dealing with the fall of Enron. Join us Thur= sday for these reports from Washington. The Houston bureau will also cont= inue to monitor developments surrounding Enron on Thursday. We'll have the= latest on the energy giant's fall from grace, the bankruptcy case, and rea= ction to the Enron hearings taking place in Washington. The Texas Suprem= e Court hears arguments in a utility refund case on Wednesday. The Houston= bureau reports the case could end in a multi-billion dollar refund for the= state's power company customers. We'll have updates from the proceedings = tomorrow. The President of Mirant California Anne Cleary sits down with E= NL's Kym McNicholas on Thursday. They'll discuss the energy industry and w= hat it needs to do to bring the benefits of deregulation to consumers. Al= so, Thomas Dehaan, a Vice President with COEN, talks to Kym about the boomi= ng combined-cycle power plant industry. Dehaan discusses how his company i= s increasing its market share. Catch reports from the West Coast bureau on= Thursday. Closing Prices for Wednesday, Dec. 12, 2001 Crude: \$18.3= 6/bbl +\$0.28 Unleaded: \$0.5172/gallon +\$0.111 Heating Oil: \$0.5058/gall= on +\$0.0059 Gas: \$2.719/mmBtu -\$0.084 Site News: The National Journal l= isted ENL as one of the top two Best Energy Web sites in its December 8, 20= 01 issue. We're excited about the exposure and want to let you know we app= reciate your continued support. From all of us at ENL - thanks! Keep in = mind things are subject to change at a moment's notice. Occasionally guests= have to cancel or change time slots. We'll continue to do our best to kee= p you updated on future interviews and events. Be sure to watch our new= scasts every business day - 9 a.m. to 5 p.m. ET, at the top of each hour. = =09 =09 =09 =09 =09 =09 =09 =09 =09 =09 =09 =09 Jay Rickerts, EnergyNewsLive.com Anchor View today's Energy Wrap Vi= deo Windows Media Player: 56K | 100K | 300K Real Player: 56K | 100K | = 300K (Requires Windows Media Player or Real Player) Experience all that= Williams Energy News Live has to offer! =09 =09 Dear Eric, On Thursday, the FBI announced it had received info= rmation that there may be additional terrorist attacks inside the United St= ates or abroad in the next several days. On Friday, we'll discuss the secu= rity of the nation's energy infrastructure with Interstate Oil & Gas Compac= t Commission Executive Director Christine Hansen. Hansen will join us fro= m Oklahoma City during the 11:00 a.m. ET newscast tomorrow. On Friday f= rom the Houston bureau, we'll have a report on Regional Transmission Organi= zations. The Structure Consulting Group has already seen success due to th= e deregulation in the power industry and the company thinks more RTOs will = help the industry in the long run.

We'll bring you more on RTOs from the Houston bureau tomorrow. Tidelands Oil & Gas Corporation/Reef International President Michael Ward will drop by the Houston bureau on Friday. Ward's company just received operating and construction permits from the Texas Railroad Commission to begin construction on a pipeline into Mexico. He'll bring us all the details for the upcoming project during the noon ET newscast. The Washington bureau will speak with Megawatt Daily Editor Michael Lustig on Friday. He'll provide his reaction to the FERC meeting from Thursday. The Washington bureau will also have the very latest on efforts by Republicans in Congress to get their energy bill onto the Senate floor. Majority Leader Tom Daschle is expected to respond Friday to GOP criticisms that he's holding energy legislation hostage in Congress. Live from the Enersys Conference in Las Vegas on Friday, ENL's Kym McNicholas will speak with Editor of Energy Decisions Magazine Mike Lobash. Lobash will talk about how market dynamics affect the cost and availability of energy and technology's role in managing energy consumption. FirstCall Director of Research Chuck Hill is scheduled to join us from Boston, Massachusetts on Friday. Hill will discuss corporate bookkeeping in regard to terrorism-related losses during the 3:00 p.m. ET newscast tomorrow. Finally, from ENL Headquarters, Spears & Associates Vice President Richard Spears will talk about U.S. drilling activity and how long he feels the current drilling depression could last. Catch Spears during the 10:00 a.m. ET newscast on Friday. Keep in mind things are subject to change at a moment's notice. Occasionally guests cancel or change time slots. We'll continue to do our best to keep you updated on future interviews and events. Be sure to watch our newscasts every business day - 9 a.m. to 5 p.m. ET, at the top of each hour. Dear Eric, The National Coal Council holds its annual fall meeting in Washington. Council members will discuss emissions issues with representatives from the EPA and the Department of Energy. The group will also present their latest policy recommendations to the DOE on Thursday. The Senate Environment and Public Works Committee is holding a markup hearing on Thursday. Committee Chairman Jim Jeffords (I-VT) is marking several important bills including legislation from Senator James Inhofe (R-OK) dealing with nuclear security. The Washington bureau will be following the hearing tomorrow. Finally, the Washington bureau will bring us more reaction from Wednesday's FERC meeting. We'll hear from Megawatt Daily's Michael Lustig on the new RTO deadlines, and former FERC Commissioner Branko Terzic will give us insight into a Deloitte & Touche study looking at consumer views on deregulation. Join us from the Washington bureau on Thursday. The Houston bureau will continue to follow developments surrounding Enron. Join us on Wednesday for the latest Enron update. The Rainbow/PUSH Coalition is holding an energy conference on November 12 - 13. On Thursday from the Houston bureau, William-Paul Thomas of Rainbow/PUSH will bring us details on the participants and companies slated to attend the event. Join us during the noon ET newscast to catch the Thomas interview. Also from Houston, Paul Frison, CEO of Houston Technology Center will stop by during the 4:00 p.m. ET newscast. He'll discuss HTC's recent alliance with several big name energy companies to address technical challenges the energy industry is facing. Log on for the scoop from the Houston bureau tomorrow. Executive Director of the Independent Energy Producers Association Jan Smutny-Jones talks to West Coast Bureau Correspondent Kym McNicholas about the FERC order on creditworthiness issues. Kym says there may also be reaction from California ISO. Catch these reports from the West Coast bureau. C.H. Gurnsey & Company Attorney Jeremy Oller will talk with us from Oklahoma City on Thursday. During the 3:00 p.m. ET newscast Oller is discussing the current trend showing

=09 =09 Dear Eric, Henwood Energy Services Senior Project Manager George Given talks about the Texas power market from the Houston bureau on Monday. Henwood Energy Services is forecasting the ERCOT power market is overbuilt. The Houston bureau will bring us details next week. We'll also hear from Niagara Mohawk Energy President and CEO Philip VanHorne next week as he talks about the negative effects of Enron on the national power industry. Catch VanHorne's comments on Monday from Houston. Amalgamated Bank of New York is trying to freeze the assets of some Arthur Andersen executives. We'll have coverage of the federal court hearing on Tuesday taking place in Houston. The two major stories in Washington next week are the return of Congress and the ongoing investigations into Enron. Lawmakers return on Wednesday and will immediately begin new hearings on the embattled energy company. The first hearing is scheduled for Thursday in Senator Joe Lieberman's Governmental Affairs Committee. The Washington bureau will be covering the hearing next week and examining the impact the Enron situation could have on the overall energy debate in Congress. Washington Bureau Chief Peter Cook will sit down next week for an exclusive interview with Interior Secretary Gale Norton. Peter says he'll ask her about a host of issues including the future of energy production on federal lands and her view on the pending debate in Congress over drilling in Alaska's Arctic National Wildlife Refuge. ENL's Kym McNicholas talks with California Assemblyman Joe Natton on Monday. He'll discuss a new bill offering more incentives for renewables. Harvard Economist William Hogan will also join Kym next week to discuss the California ISO's new Market Design Project 2002. Hogan says his plan is a major step forward in the California electricity market. Catch him during the 2:00 p.m. ET newscast on Tuesday. Closing Prices for Friday, Jan. 18, 2002 Crude: \$18.00/bbl +\$0.03 Unleaded: \$0.5392/gallon = +\$0.0031 Heating Oil: \$0.5141/gallon -\$0.0004 Gas: \$2.236/mmBtu -\$0.018 Fwd uE(Feb.): \$3.60/mmBtu -\$0.05 Scheduling Note: I want to let everyone know that though the markets are closed, we'll be live from 9:00 a.m. ET to 5:00 p.m. ET Monday. Keep in mind things are subject to change at a moment's notice. Occasionally guests have to reschedule or change time slots. We'll continue to do our best to keep you updated on future interviews and events. =09 =09 Dear Eric, Although baseball season is over, crowds in the thousands are expected at Enron Field, home of the Houston Astros, on Friday. A job fair for displaced Enron employees will be held at the stadium. ENL's Houston bureau will be there to speak with former employees about Enron's collapse. Houston Bureau Chief Myra Jolivet says other businesses are feeling the effects of the fall of Enron. On Friday, the bureau will speak with analysts about the economic ramifications. The Big 5 Accounting firms plan to improve financial reporting and auditing following Enron's

demise.= On Friday from the NASDAQ, AccountingMalpractice.com CEO Mark Cheffers wi= ll discuss the dos and don'ts for firms. Catch Cheffers during the 2:00 p.= m. ET newscast tomorrow. The Washington bureau will have the latest on the = Congressional investigation of Enron on Friday. The Senate Commerce Commit= tee announced Thursday that it will hold a hearing next Tuesday. The list = of witnesses is still being determined. The debate over electricity restr= icturing continues in our nation's capital and the Washington bureau says w= e'll have more reaction on Friday. Electric Power Supply Association's Gen= e Peters will join us from the Washington bureau during the 11:00 a.m. ET n= ewscast with EPSA's take on the issue. From space shuttles to hog farms= - West Coast Correspondent Kym McNicholas talks to UTC Fuel Cells Commerci= al Power Systems Director Brian McDonald about his company's decision to sh= ift gears. Also from the West Coast bureau on Friday, Pratt & Whitney Pre= sident Ellen Smith talks with Kym about applying flight technology to power= plants to make them more efficient. Finally, Kym talks with ALSTOM Presi= dent and CEO Mike Barnoski. Barnoski talks about the best market for power= at a time when the supply and demand scenario is somewhat bearish. Catch t= hese interviews from the West Coast bureau on Friday. Closing Prices for= Thursday, Dec. 13, 2001 Crude: \$18.12/bbl -\$0.24 Unleaded: \$0.5208/ga= llon +\$0.0036 Heating Oil: \$0.5104/gallon +\$0.0046 Gas: \$2.756/mmBtu +\$= 0.037 We'll be talking about Master Limited Partnerships on Friday with R= BC Capital Markets CFA Mark Easterbrook. =09 =09 Dear Eric, The Senate will have the first official vote this y= ear on comprehensive energy legislation on Monday. Senate Minority Leader = Trent Lott has offered the House energy bill as an amendment to railroad le= gislation. Washington Bureau Chief Peter Cook says the Democratic leadersh= ip in the Senate opposes the bill and expects to prevail in voting it down.= The big issue dividing the two parties is whether to open a portion of Al= aska's Arctic National Wildlife Refuge to oil drilling. The vote is expect= ed to take place at 5:00 ET on Monday and the Washington bureau will bring = us the vote outcome as soon as it becomes available. Peter says the burea= u will continue to follow the Enron story as it relates to Washington. Con= gressional hearings are now being planned to determine what went wrong and = whether there could be a larger impact on the energy sector. Several feder= al agencies and the White House continue to monitor the situation, and we'l= I bring you the latest from Washington next week. On Monday from the Hous= ton bureau, we'll follow the trail of liquid natural gas and arctic gas. C= atch a report next week on how both are brought to market. The Houston bu= reau will continue to bring us the very latest on Enron next week as the en= ergy giant nears bankruptcy. West Coast Correspondent Kym McNicholas is= set to speak with Energy Research & Consulting's Catherine Horiuchi on Mon= day. She'll talk about the energy supply in California and whether it will = be adequate for the future. Also on Monday, Kym will bring us a report = on Calpine's geothermal strategy in Northern California. We'll bring you a= look at the world's largest producing geothermal resource. Finally, Kym = will be live at Platts' Day of the Trader Conference in Las Vegas, Nevada.= Be sure to join us for reports from the West Coast bureau all next week. = We'll have a special guest in studio on Monday. Alaska Department of Nat= ural Resources Director Mark Myers will join us during the 10:00 a.m. ET

n= ewscast to discuss the state's 12.5% interest in the Arctic Pipeline Projec= t. Closing Prices for Friday, Nov. 30, 2001
Crude: \$19.44 +\$0.82 = Unleaded: \$0.5343 +\$0.0143 Heating Oil: \$0.5323 +\$0.0129 Natural Gas: \$= 2.701 +\$0.140

=09 =09 Dear Eric, Lawmakers are getting to work on energy legislation= next week. The Senate Energy and Natural
Resources Committee will vote on= issues involving critical energy infrastructure security. Another Senate = panel will
work on a bill that would reduce carbon emissions and other harm= ful greenhouse gases. Also from Washington, a House
panel will take up = the issue of electricity transmission policy. We'll have updates as lawmak= ers work through the
legislation from the Washington bureau next week. We= 'll have plenty of guests from the Houston bureau starting
Monday. Universi= ty of Houston Professor Michael Economides, Ph.D. , will join us to discuss= the economy. Dr.
Economides says energy is the key to U.S. economic stimu= lus, and if this point is ignored, it could cost the U.S. a million
jobs pe= r month. The Structure Group Principal David Shephard will join us durin= g the 2:00 p.m. ET newscast on
Tuesday. The software company is now Housto= n's sixth fastest-growing business due to its work in the deregulated
power= industry and has provided software to the ERCOT computer system. On Fri= day, Tidelands Oil & Gas
Corporation/Reef International President Michael W= ard is penciled in at the Houston bureau. Ward's company just
received ope= rating and construction permits from the Texas Railroad Commission to begin= construction of a pipeline
into Mexico. We'll bring you all the details n= ext week from Houston. On Monday, the Independent Energy Producers
Associ= ation begins its annual meeting. The focus this year is on where the Calif= ornia market is headed. ENL's Kym
McNicholas will attend the meeting and h= ave more on the discussion next week. Also next week from the West Coast=
bureau, California Energy Commission Executive Director Steve Larson talks= to Kym about the state's natural gas
situation for the winter. He'll also= discuss the influx of power plant investment and the impact of the state's= long-term
power contracts. Kym says she'll also have more reaction to= the U.S. District Court's approval of the Edison rescue plan,
and she'll c= ontinue to watch for reaction from large creditors who are still concerned = they may not be assured payment
in full under the deal. Monday from New Y= ork, Goldman Sachs Analyst Dave Fleischer will drop by to discuss the gas
m= arket. Catch Fleischer during the noon ET newscast. Keep in mind thing= s are subject to change at a moment's
notice. Occasionally guests cancel or= change time slots. We'll continue to do our best to keep you updated on f= uture
interviews and events. Be sure to watch our newscasts every busin= ess day - 9 a.m. to 5 p.m. ET, at the top of each hour.

Williams Energy News Live -- today's video newscast

[IMAGE] =09 =09 Dear eCenter, The Washington bureau will continue following the very latest on any possible U.S. military action against last week's terrorist attacks. The House Subcommittee on Energy and Air Quality will hold a hearing on national electricity policy on Thursday. All of the FERC commissioners are scheduled to testify at the hearing.

The Washington bureau is expecting to talk to Subcommittee Chairman Rep. Joe Barton (R-TX) before the hearing. The bureau hopes to get a preview of the hearing and hear what Chairman Barton expects for energy legislation out of Congress for the rest of this year. Log on during the 10:00 a.m. ET newscast to catch Rep. Barton. The newest member of the Texas Public Utility Commission is stopping by the Houston bureau on Thursday. Commissioner Rebecca Klein will talk about the Texas PUC's declining role once deregulation takes effect next year. The Houston bureau will speak with Klein during the 10:00 a.m. ET newscast. Also from the Houston bureau on Thursday, Energy Consultant Dutch Holland, Ph.D., will discuss how company politics can sometimes get in the way of productivity. He'll also go into some of the mistakes companies make when they merge during the Noon ET newscast. On Thursday, the CPUC is expected to consider approving a request from PG&E to disperse \$8.3 million from a trust fund to decommission Unit 3 at Humboldt Bay Nuclear Plant. Also, California Public Utilities Commission met on Wednesday. ENL's Kym McNicholas reports the commission is expected to decide whether to accept a draft decision that would transfer its ratemaking authority to the California Department of Water Resources. On Thursday, Governor Gray Davis' Press Secretary Steve Maviglio is expected to comment on the potential for a bailout plan for Southern California Edison and the declining price of power. The total state power costs were released Wednesday, with costs for August reaching \$815 million, down \$100 million from July. We'll have all this from the West Coast bureau tomorrow. Dain Rauscher Wessels Principal Mark Easterbrook met with Enron, Dynegy, Williams, Kinder Morgan and El Paso on Tuesday. On Thursday, he'll join us with all the details from that meeting during the 4:00 p.m. ET newscast. Keep in mind things are subject to change at a moment's notice. Occasionally guests cancel or change time slots. We'll continue to do our best to keep you updated on future interviews and events. Be sure to watch our newscasts every business day - 9 a.m. to 5 p.m. ET, at the top of every hour. Keep it on energynewslive.com for all your energy news.

09 09 Dear Eric, The FERC meets on Wednesday in Washington and bureau chief Peter Cook says the Commission is expected to announce an update on its push for Regional Transmission Organizations. The deadline for RTO applications is December 15th and Chairman Pat Wood is expected to spell out at the meeting whether that date could change. Peter says we'll also have the latest on energy legislation in Congress. The showdown over energy in the Senate could be on hold indefinitely, due in part to the separate fight over the economic stimulus package. Finally from Washington, President Bush is meeting with more world leaders Wednesday. The First Deputy Prime Minister of Kuwait, the Foreign Minister of Morocco and Britain's Prime Minister are among those meeting with the President. We'll keep you updated on those meetings from the Washington bureau. AEP Principal Communication's Consultant Peter Main is stopping by the Houston bureau on Wednesday. In the 10:00 a.m. ET newscast, he'll discuss the company's wish to postpone deregulation in the Southwest Power Pool of Texas. We'll also bring you a report on the Texas Legislative Oversight Committee meeting with the Texas PUC and ERCOT. The meeting will address technical issues that still need to be resolved before electricity competition begins on January 1. We'll have the report from the Houston bureau tomorrow. ENL's Kym McNicholas will bring us the results from two ballot measures in San Francisco, which would pave the way for the creation of a Municipal Utility District. PG&E warns if voters approve the public power initiatives, it will tie the measures up in a lengthy court battle. Log on Wednesday for more details. On Tuesday the California Energy

Commission held a public workshop: "Exploring Alternative Wholesale Electricity Market Structures of California." The workshop was given to evaluate how alternative market structures can add generation in a timely fashion to reduce price volatility and deliver reliable service. We'll have all the details from Tuesday's workshop from the West Coast bureau tomorrow. From Chicago on Wednesday, Alaron Trading Vice President and Senior Market Analyst Phil Flynn will join us. During the noon ET newscast Flynn will bring us an overview of the API and DOE numbers and their effect on commodity prices. Keep in mind things are subject to change at a moment's notice. Occasionally guests cancel or change time slots. We'll continue to do our best to keep you updated on future interviews and events. Be sure to watch our newscasts every business day - 9 a.m. to 5 p.m. ET, at the top of each hour.

Dear Eric, The first meeting of 2002 for the Federal Energy Regulatory Commission takes place on Wednesday and the Washington bureau will bring us coverage. The Commission begins the year with a full plate that they'll dig into tomorrow. We'll bring you updates from the meeting throughout the day. During the 2:00 p.m. ET newscast, Reed Wasden & Associates Managing Partner Cary Wasden will join us to give his assessment of the year ahead at the FERC and the major issues on the Commission's agenda. We'll have the latest developments on Enron as members of Congress prepare to return to Washington. Washington Bureau Chief Peter Cook says politics could play a major role in determining where the congressional investigations into the company are headed. Former Enron Lobbyist Chris Horner, now with the Competitive Enterprise Institute, will join us at 9:00 a.m. ET to give us his take on the political dimensions of the company's collapse. On Wednesday, we'll talk about hydrogen fuel cells as an alternative source of energy. From the Houston bureau during the noon ET newscast, RBC Capital Markets Vice President of Equity Research, Energy and Power Technology Thad Vayda will discuss alternative-fuel technology. We'll also have a deregulation update - The Houston bureau will speak with Texas Public Utilities Commissioner Brett Perlman on Wednesday. He'll bring us details on how electric deregulation is working in the Lone Star State. The California Senate's Select Committee investigating the energy markets is asking the Senate Rules Committee to issue subpoenas for Enron and Andersen. On Wednesday, West Coast Bureau Correspondent Kym McNicholas will bring us more on the request and questions surrounding potential destruction of documents subpoenaed by the California Senate's Select Committee last spring to aid in the investigation of California's energy crisis. Also on Wednesday from the West Coast bureau, California Energy Committee Chairman Rod Wright gives his top-ten list of things the state did to create last year's energy crisis. Join us for this report tomorrow. Closing Prices for Tuesday, Jan. 15, 2002 Crude: \$18.90/bbl +\$0.01 Unleaded: \$0.5520/gallon +\$0.0015 Heating Oil: \$0.5207/gallon +\$0.0041 Gas: \$2.291/mmBtu +\$0.041 Fwd uE(Fe b.): \$3.63/mmBtu +\$0.03 Keep in mind things are subject to change at a moment's notice. Occasionally guests have to reschedule or change time slots. We'll continue to do our best to keep you updated on future interviews and events. Be sure to watch our newscasts every business day - 9 a.m. to 5 p.m. ET, at the top of each hour.

=09 =09 Dear Eric, The National Academy of Sciences may change its ori= ginal report on fuel economy standards. Washington Correspondent Alison Ko= sik reports, those on the panel say they may have miscalculated the numbers= , overestimating the fuel efficiency gains possible for the next generation= of vehicles. We'll have an update on the Academy's announcement on Friday= from the Washington bureau. Major players that could be effected by en= ergy legislation are meeting Friday behind closed doors to discuss emission= s issues. Senator Jim Jeffords, (I)-Vermont, is leading the meeting, which= could help craft his multi-pollution legislation. We'll have reaction to = the negotiations on Capitol Hill from the Washington bureau tomorrow. J= acobs Consultancy Managing Director Karl Bartholomew says multiple requirem= ents being placed on boutique fuels could make them so expensive, many smal= I U.S. refineries may be put out of business. We'll bring you the details = from the Houston bureau on Friday. Following delays and computer proble= ms during the Texas Pilot Program, ERCOT is switching more Texas customers = over to its computer system. ERCOT COO Sam Jones talks about the switch fr= om the Houston bureau on Friday. West Coast Bureau Correspondent Kym McN= icholas talks with Phoenix Consulting's Susan Schneider on Friday. Schneid= er will discuss the DWR rate agreement, California ISO's budget and electri= city market regulations. We'll also have a report from the West Coast bur= eau on this winter's forecasted natural gas supply, as well as PG? and Sout= hern California Gas Company's efforts to improve California's intrastate pi= pelines. Kym also says we may hear more from federal court on the Californ= ia PUC/Southern California Edison rescue plan. We'll have all this from th= e West Coast bureau on Friday. [IMAGE] Dear Eric, I'm Washington Bureau Chief Peter Cook filling in for Jay Rickerts. On Wednesday, International Correspondent Wolfgang Val will bring us live coverage from the OPEC Conference in Vienna, Austria. Log on for updates throughout the day tomorrow. New FERC Chairman Pat Wood will run his first hearing as head of the Commission on Wednesday. The first meeting with Wood as Chairman was originally scheduled for September 12, but was cancelled due to the terrorist attacks on September 11. We're expecting developments on several FERC issues to come from tomorrow's meeting. At a closed-door hearing on Capitol Hill, the Senate Energy and Natural Resources Committee will focus on securing the nation's energy infrastructure. Besides discussing potential new security threats with federal officials, Senators will also discuss the energy industry's response to the terrorist attacks. We'll bring you reaction from the Washington bureau on Wednesday. Methanol Institute Vice President of Communications Greg Dolan will join us from Washington Wednesday to discuss methanol's role in the debate over what kind of fuels will be used to power automobiles in the future. He'll also preview what types of vehicles the auto industry will produce in the near future. Stolt Offshore recently achieved a high "lay rate" for a large diameter pipe on the Williams East Breaks shelf project in the Gulf of Mexico. On Wednesday from the Houston bureau, Stolt Offshore Vice President Gordon Barksdale will stop by to discuss the project during the noon ET newscast. Also on Wednesday, EnerSea Transport Managing Director Paul Britton is penciled in to join us at the Houston bureau. EnerSea has a new marine transport technology utilizing compressed natural gas. Britton will talk about their commercialization of the new technology on Wednesday. Finally, Frost Bank Vice President and Energy Analyst Ted Harper will talk with the Houston bureau on Wednesday. Harper says energy stocks may begin to rally in tandem with the Dow, before taking another hit. Catch Harper from Houston during the 10:00 a.m. ET newscast. From the NASDAQ on Wednesday, TradeSpark Managing Director Mike Williams will join us to discuss TradeSpark coming back online this week. Don't miss Williams during the 9:00 a.m. ET newscast. Keep in mind things are subject to change at a moment's notice. Occasionally guests cancel or change time slots. We'll continue to do our best to keep you updated on future interviews and events. Be sure to watch our newscasts every business day - 9 a.m. to 5 p.m. ET, at the top of each hour. Keep it on energynewslive.com for all your energy news.

Dear Eric, The Washington bureau will bring us more Wednesday from their one-on-one interview with FERC Chairman Pat Wood. We'll hear what Chairman Wood has to say on a wide range of topics including market power, standard market design and the push for regional transmission organizations. Wood will also talk about the implications of the Enron collapse and why he feels Texas will play an important role in showing the country that retail electricity competition can work. Washington Bureau Chief Peter Cook says they'll bring us details Wednesday of an announcement from Secretary of Energy Spencer Abraham on a new government partnership with the auto industry, aimed at developing cars powered by hydrogen. Abraham is expected to unveil the plan at the Detroit auto show tomorrow. Washington will also take a closer look at the impact the crisis in Argentina is having on U.S. energy companies. U.S. Energy Association's Barry Worthington will talk about Argentina during the 11:00 a.m. ET newscast. On Wednesday from the Houston bureau, Industrial Information Resources Synfuels and Petroleum Refining Group Manager Chris Paschall will stop by. He'll discuss the U.S. petroleum refining industry during the noon ET newscast tomorrow. Also from Houston, Simmons Company & International Analyst Justin Tugman talks about the problems

Halliburton is having, and how those problems shouldn't affect other companies in the oil field service sector. Join us from the Houston bureau on Wednesday. California Governor Gray Davis gives his State of the State address Tuesday evening. West Coast Correspondent Kym McNicholas says he is expected to talk about California's energy conservation efforts and what's to come in 2002. We'll bring you details from Governor Davis' speech on Wednesday from the West Coast bureau. Kym also says she'll be speaking with Western Power Trading Forum Executive Director Gary Ackerman on Wednesday. Ackerman will bring us his reaction to Governor Davis' State of the State address. Closing Prices for Tuesday, Jan. 8, 2002 Crude: \$21.25/bbl - \$0.23 Unleaded: \$0.6099/gallon - \$0.0135 Heating Oil: \$0.5682/gallon - \$0.0037 Gas: \$2.811/mmBtu + \$0.009 Fwd uE(Feb): \$3.76/mmBtu \$0.00 Video Library: Washington Bureau Chief Peter Cook's one-on-one interview with FERC Chairman Pat Wood is archived in its entirety in ENL's Video Library. 09 09 Dear Eric, Washington Bureau Chief Peter Cook says the Energy Information Administration is set to release its Winter Fuels Outlook and Short Term Energy Forecast Thursday morning in Washington. We'll bring you the numbers as soon as they're released and hear from acting head of the EIA on what they mean. The House Energy and Commerce Committee will be very busy Thursday. The Committee is expected to vote on whether to renew the Price Anderson Act, which would indemnify the nuclear industry in the event of a major accident. The same Committee is also expected to vote on a resolution calling on the Bush Administration to fill the Strategic Petroleum Reserve to capacity. ENL's Gale Smith says we'll have more on the Gulfstream Natural Gas System on Thursday. Gulfstream Communications Director Chris Stockton talks about the joint development between Williams and Duke to create the largest system along the Gulf of Mexico. Also from Houston, Energy Intelligence Group Bureau Chief Barbara Shook will drop by on Thursday. Companies like Enron were planning to offer multiple services online a couple of years ago. Tomorrow during the 4:00 p.m. ET newscast, Shook will ask the question, "What ever happened to convergence?" Finally from Houston, Texas City Sun Reporter Lora-Marie Bernard will join us on Thursday. She'll discuss an internal state memo she obtained regarding toxic levels of benzene released from BP and Marathon Ashland refineries in Texas City. Catch Bernard during the 3:00 p.m. ET newscast tomorrow. We'll have more reaction from the West Coast bureau to the new California PUC plan to get Edison back into the power procurement business. ENL's Kym McNicholas also says we'll have the latest Thursday on Governor Davis' efforts to get the California PUC to approve the CDWR's rate agreement at its next meeting on October 10. Daily Update Note: You can now send today's Daily Update to a friend. =09 =09 Dear Eric, It's been a busy week for energy in the nation's capital. On Friday, we'll have more from hearings dealing with potential federal emissions curbs and the future of MTBE. Washington Bureau Chief Peter Cook says he will have the latest on the fight over energy legislation in the U.S. Senate. Former Secretary of Energy Bill Richardson is scheduled to join us from the Washington bureau Friday at 3:00 p.m. ET to discuss energy issues in Washington. We hope to get his insight on the current debate over energy happening in the Senate and the state of the nation's energy infrastructure. Society of Independent Gas Marketers of America Communications Director Tom Osborne will drop by the Washington bureau on Friday. Osborne will talk about how independent gasoline marketers will be affected by the EPA's proposal to streamline the transition between winter- and summer-grade fuels. Log on during the 9:00 a.m. ET newscast to catch Osborne. Also from Washington, Center for Strategic and International Studies Energy and National Security Director Robert Ebel will discuss the world energy markets since the September 11th attacks. He'll also try to shed some light during the noon ET newscast on what we can expect in oil markets over the next six months. We'll have another earnings report from the Houston bureau on Friday. GulfMark Offshore Incorporated Executive Vice President Ed Guthrie is stopping by during the noon ET newscast to bring us their third-quarter earnings report. Anadarko and BP Exploration are working together on a joint venture. The project calls for the exploration of 95 deep-water blocks held by BP in the Central Gulf of Mexico. On Thursday from the Houston bureau, Anadarko Petroleum Vice President of Exploration Jim Emme will stop by during the 11:00 a.m. ET newscast to discuss the project. We'll also get a preview of the Texas PUC and Legislative Oversight Committee hearing on deregulation beginning in Austin on Friday. Legislators, energy providers and regulators will attend the hearing to decide whether deregulation should continue as planned. We'll bring you all the details from the Houston bureau on Friday. Finally, there's a FERC Conference on Energy Infrastructure in the West going on in Seattle, Washington on Friday. West Coast Correspondent Kym McNicholas will be in Seattle to bring us updates on the conference throughout the day. Keep in mind things are subject to change at a moment's notice. Occasionally guests cancel or change time slots. We'll continue to do our best to keep you updated on future interviews and events. Be sure to watch our newscasts every business day - 9 a.m. to 5 p.m. ET, at the top of each hour. =09 =09 =09 =09 =09 =09 =09 =09 =09 =09 =09 =09 Jay Rickerts, EnergyNewsLive.com Anchor View today's Energy Wrap Video Windows Media Player: 56K | 100K | 300K Real Player: 56K | 100K | 300K (Requires Windows Media Player or Real Player) Experience all that Williams Energy News Live has to offer! [IMAGE] =09 =09 Dear Eric, Tuesday could be a pivotal day for energy on Capito= l Hill. Washington Bureau Chief Peter Cook says a cloture vote on the Sena= te floor could effectively kill efforts by some Senate Republicans to force= a comprehensive energy bill to the floor. Republicans are trying to attac= h energy legislation to a defense-spending bill while Democrats opposing th= e move are using their control of the Senate to fight it. We'll have the v= ery latest from the Washington bureau on Tuesday. Peter also says the b= ureau will be covering a hearing Tuesday in the Senate Energy Committee to = discuss the proposed natural gas pipeline that would connect Alaska to the = lower 48 states. The witness list includes Alaska Governor Tony Knowles, F= ERC Chairman Pat Wood and Williams CEO Keith Bailey. Among other issues, S= enators are expected to question claims from the industry that the pipeline= would cost too much to build. Gas Daily Assistant Editor Nathan Hodge wil= l drop by during the 9:00 a.m. ET newscast to give us his take on where the= project stands. On Monday, Rep. Joe Barton (R) Texas and some Texas mem= bers of Congress toured the Big Hill strategic petroleum reserve site near = Beaumont, Texas. Houston Bureau Chief Myra Jolivet reports, Rep. Barton wa= nts to introduce legislation to fill the country's SPR sites. Rep. Barton= says he has support for the legislation as a way to protect the nation's p= etroleum supply, especially following the recent attacks on America. We'll= bring you updates from Rep. Barton's trip tomorrow. Also from Houston, T= exas PUC Chairman Max Yzaguirre will talk about upcoming deregulation and t= he move by Shell Energy to pull out of the competitive market even before t= he competition begins in January. Don't miss Yzaguirre from the Houston bu= reau on Tuesday. ENL's Kym McNicholas reports, the California Public Util= ities Commission is meeting on Tuesday. Kym say the Commission is consider= ing a rate stabilization plan that would call for a rate increase and an en= d of rate-freeze tariffs. Also on Tuesday, the California State Board of = Equalization begins a three-day workshop discussing the exclusion of certai= n small electric generation facilities from a state tax assessment. Log on= Tuesday for reports from the West Coast bureau. Programming Note: Catch = interviews from Stephanie Stanton's recent trip to the Women's Power Market= ing Symposium throughout the week. Keep in mind things are subject to cha= nge at a moment's notice. Occasionally guests cancel or change time slots.= We'll continue to do our best to keep you updated on future interviews an= d events. Be sure to watch our newscasts every business day - 9 a.m. to= 5 p.m. ET, at the top of each hour. Keep it on energynewslive.com for a= ll your energy news. =09 =09=09=09=09 =09=09=09[IMAGE]=09=09=09 =09 =09=09Jay Rickerts, EnergyNewsLive.com Anchor View today's Energy Wrap v= ideo: (Windows Media Player required) Broadband (100k) | Dial-up (56k)= Get Windows Media Player Experience all that Williams Energy News Liv= e has to offer! Dear Eric, Oil prices dropped to a two-year low on Wednesday. ENL's Stephanie Stanton will follow the situation from the trading floor on Thursday. The Washington bureau will follow the much-anticipated hearing in the Senate Environment and Public Works Committee on Thursday. Committee Chairman Jim Jeffords (I-VT) will hear from both the EPA and the Department of Energy on his proposal to limit emissions from power plants. Also from the Hill on Thursday, the Washington bureau will follow a hearing in the House of Representatives on the impact of MTBE in reformulated fuels. And we'll also hear from the Safe Energy Communication Council's Christopher Sherry. Sherry will talk about the House Energy Committee markup hearing on the Price Anderson Act and what it could mean for the nuclear industry if the act is renewed. We'll also have more on the anthrax investigations taking place in Washington and we'll get the very latest on the Bush administration's response to terrorism. Join us from the Washington bureau on Thursday. ENL's Gale Smith reports, some industry refiners say they can blend cleaner-burning gasoline without using oxygenates like MTBE. On Thursday we'll have more from Jacobs Consultancy Director Dan Foley on cleaner-burning gasoline. Petroleum Argus Editor of Natural Gas Liquids Markets Zeeba Llorens is penciled in from the Houston bureau on Thursday. Llorens will talk about the failed attempt to ban a tanker carrying LNG from entering Boston Harbor. She'll also discuss the possibility of this happening again and the future risk. Join us during the 3:00 p.m. ET newscast from Houston tomorrow. On Thursday from the West Coast bureau, we'll have more from PG&E Contract Development Manager Rod Boschee as he talks about low-quality natural gas in Northern California and the problems facing producers in the area. California Energy Commission Citing Project Manager Paul Richens talks with West Coast Correspondent Kym McNicholas about the approval of some new power plants in the state including Valero Refinery's cogeneration facility. Join us for these stories and more from the West Coast bureau. Daily Wrap Note: You asked for it and now it's back. We're bringing back the one-click view option for the Energy Wrap video. Simply select a speed and view the video. We've also added a 300K option for those with high-bandwidth connections. We hope you'll enjoy this added feature. Keep in mind things are subject to change at a moment's notice. Occasionally guests cancel or change time slots. We'll continue to do our best to keep you updated on future interviews and events. Happy Halloween! Be sure to watch our newscasts every business day - 9 a.m. to 5 p.m. ET, at the top of each hour.

=09 =09 Dear Eric, We'll have more live coverage on Wednesday from the= Power Mart Conference in Houston. The Houston bureau will be speaking with= guests from the technology sector of the energy industry. Tomorrow we'll = hear from Automated Power Exchange's John Melby, Skipping Stone Principal A= ndrew Zetlan and Triple Point Technology CEO Peter Armstrong. Log on for = these live interviews and more from the Power Mart Conference on Wednesday.= The Washington bureau will bring us the latest from the Hill on the figh= t over energy legislation. Washington Bureau Chief Peter Cook says Republi= cans and Democrats are blaming each other for the lack of a comprehensive e= nergy bill in the Senate. Senator James Inhofe (R)-Oklahoma, will join us= during the 3:00 p.m. ET newscast to give his take on where things stand. = Wednesday is day three of the FERC's Regional Transmission Organization = Workshop. We'll hear more from the participants tomorrow. RTO development= will also be the topic of conversation at the Power Marketers Association = Annual Washington meeting. Rep. Joe Barton (R)-Texas, the architect of a r= estructuring bill in the House, will be a featured speaker at the meeting. = We'll hear from Rep. Barton on Wednesday. Henwood Energy Services Managi= ng Director Gary Hunt talks with ENL's Kym McNicholas Wednesday about how h= e feels California's energy supply crisis has turned into a displacement st= rategy by power generators. Hunt will also talk about what he believes mus= t be done to clean up the financial mess from the crisis. Kym also repor= ts, President Bush is heading to California on Wednesday. He'll address mi= litary personnel at Travis Air Force Base and meet with the California Busi= ness Association prior to leaving for Shanghai, China. Join us for these r= eports from the West Coast bureau tomorrow. On Wednesday, Occidental Petr= oleum is releasing its third-quarter earnings report. During the 9:00 a.m.= ET newscast, Standard & Poor's Equity Research Oil and Gas Industry Analys= t Tina Vital will join us from New York to discuss how Occidental fared. = We'll also get an earnings report on Duke Energy on Wednesday. Edward Jon= es Senior Energy Analyst Zach Wagner will join us from St. Louis during the= 2:00 p.m. ET newscast to discuss Duke's third quarter. From Chicago on W= ednesday, Alaron Trading Vice President and Senior Market Analyst Phil Flyn= n is penciled in during the noon ET newscast. Flynn will provide insight o= n how traders could be affected by the AGA's plan to stop publishing its we= ekly storage report. Keep in mind things are subject to change at a momen= t's notice. Occasionally guests cancel or change time slots. We'll continu= e to do our best to keep you updated on future interviews and events. =09 =09 Dear Eric, I'm Jay Rickerts, back from vacation feeling refresh= ed and rejuvenated - I hope everyone had a great holiday season. ENL's Wa= shington bureau is scheduled to sit down with Federal Energy Regulatory Com= mission Chairman Pat Wood on Tuesday. Washington Bureau Chief Peter Cook te= lls me he will ask Wood about some of the major issues facing the Commissio= n in 2002. Also, former FERC Commissioner Don Santa joins us during the 11= :00

a.m. ET newscast to provide his insight on the future of the FERC. Pete= r also says the FERC will resume work Tuesday on the California refund case= - we'll bring you an update. The attorneys general of nine northeastern = states are hosting a news conference regarding emissions policy on Tuesday.= Peter says the group is expected to warn the Bush administration their st= ates will consider legal action against the federal government if a pending= review of the nation's emissions rules leads to a relaxation of enforcemen= t against power plants and refineries. Join us for this report from the Wa= shington bureau. We've got more on the FERC for you from the Houston bure= au on Tuesday. Kim Benestante will speak with Gulfstream Communications Di= rector Chris Stockton about his company's FERC filing. We'll get details f= rom Stockton during the 1:00 p.m. ET newscast tomorrow. Also from Houston= , Paragon Engineering Director of Business Development Barbara Thompson wil= l join us at noon ET to discuss pipeline safety. She'll bring us an update= on the federal deadline coming up in March 2002 regarding "high-consequenc= e areas" for pipelines. Finally, Raymond James & Associates Managing Dire= ctor Marshall Adkins says the current energy situation isn't like the last = downturn in 1998, but more like the bust of 1972 - '73. Adkins will give us= an explanation at 2:00 p.m. ET on Tuesday. West Coast Correspondent Kym = McNicholas will bring us an update Tuesday on the California legislature's = return to session for 2002. Kym also tells me California Governor Gray Dav= is' State of the State address is set for Tuesday evening. Davis is expect= ed to address last year's energy crisis in California and what they expect = this year. We'll also have more from California ISO Manager of Market Des= ign Lorenzo Kristov as he talks to Kym about the ISO's new plan scheduled f= or release on Tuesday. Don't miss these reports from Sacramento tomorrow. = Closing Prices for Monday, Jan. 7, 2002

=09 =09 Dear Eric, We'll have live reports from Capitol Hill on the la= test Enron hearing as the Senate Energy Committee takes its first look at t= he energy-related questions raised by the company's collapse. Among witness= es scheduled to attend are Federal Energy Regulatory Commission Chairman Pa= t Wood, Commodity Futures Trading Commission Chairman James Newsome, and Vi= ncent Viola, the head of the NYMEX. Lawmakers are deciding whether new legi= slation changes may be needed in the aftermath. A legal fight is brewin= g between the White House and the General Accounting Office over the work o= f Vice President Cheney's energy task force. Cheney is refusing to release= more details on with whom the task force met and the substance of those ta= lks. The head of the GAO says he may be forced to file a lawsuit as early = as Wednesday to obtain the information. Finally from Washington, Presid= ent Bush will deliver his State of the Union address Tuesday evening. The = Washington bureau will look at what we can expect from the speech regardin= energy policy. It's earnings time, and we'll continue to check in with c= ompanies from the Houston bureau. On Tuesday during the 1:00 p.m. ET newsc= ast, Parker Drilling Company President and CEO Robert Parker, Jr. joins us = to discuss his company's fourth quarter 2001. Also, Merrill Lynch-Houston = Director Carl Kirst is stopping by during the 4:00 p.m. ET newscast to brin= g us an analysis of a compilation of earnings, including Williams and Dyneg= y. We'll have more earnings reports from Tulsa as well - Williams Energ= y Services President and CEO Steve Malcolm will

Dear Eric, Former Enron CEO Kenneth Lay breaks his silence - Lay is expected to testify in front of a Congressional hearing on Monday. We are planning to provide live coverage of the entire hearing in addition to our regular newscasts. Our Washington bureau will also be reporting live from the hearing every hour with updates. The hearing is one of 12 scheduled in Congress next week related to the Enron collapse. In addition to appearances by Lay, former CEO Jeff Skilling and former CFO Andrew Fastow will testify Thursday in front of the House Energy and Commerce Committee. The Washington bureau will track this hearing, and any others that may have an impact on the energy sector. Our Houston bureau will also have reaction to former Enron CEO Ken Lay's testimony in Washington. In the first legal showdown over electricity deregulation in Texas, two state agencies are entangled in a lawsuit over rates set under the state's deregulation program. The Office of the Public Utility Council is suing the Public Utility Commission over the rates a default provider can charge in the western service territory for TXU Corporation. We'll have all the details from the Houston bureau on Monday. West Coast Correspondent Kym McNicholas talks with California Public Utilities Commission President Loretta Lynch about the proposed Rate Agreement with the California Department of Water Resources. Lynch says the PUC, DWR and Wall Street made a number of compromises in order for an acceptable deal to materialize. Director of the California Department of Finance Timothy Gage also talks with Kym about the proposed Rate Agreement between the CPUC and the CDWR. He'll discuss the bridge loans that will hold the state over until \$12.5 billion in consumer-backed energy bonds are issued. Gage will also discuss the state's budget crisis and how to secure California's energy future on Monday. E Source Energy Industry Analyst Matthew Joyce comes to us from Boulder on Monday during the 4:00 p.m. ET newscast. Joyce has the latest on what former Enron customers are doing since the fall of the energy giant. Closing Prices for Friday, Feb. 1, 2002 Crude: \$20.38/bbl +\$0.90 Unleaded: \$0.6034/gallon +\$0.0292 Heating Oil: \$0.5531/gallon +\$0.0215 Gas: \$2.138/mmBtu unchanged = Fwd uE(Mar.): \$3.61/mmBtu +\$0.22 Newscast Update: Starting at 9:30 a.m. ET, we'll have wall-to-wall coverage of former Enron CEO Ken Lay's testimony at a Congressional hearing in Washington. You can view the hearing as it happens by going to the ENL Video Library. We hope you'll take some time to watch this special coverage on Monday. Keep in mind things are subject to change at a moment's notice. Occasionally guests reschedule or change time slots. We'll continue to do our best to keep you updated on future interviews and events. =09 =09 Dear Eric, Let the Enron hearings begin - both the Senate and = House begin hearings on the fallen energy giant Thursday. The Senate Gover= nmental Affairs Committee hearing will focus on whether federal agencies sh= ould have foreseen the company's demise. A second Enron hearing on Thursda= y in the House Energy and Commerce Committee's Oversight and Investigations= subcommittee will look into the destruction of Enron-related documents by = Andersen. The Washington bureau will have live reports and highlights from= the hearings on Capitol Hill throughout the day. Also from Washington on= Thursday, another Senate subcommittee will look at whether it's time to ra= ise the Corporate Average Fuel Economy Standards. Senate Democrats are exp= ected to add CAFE increases in their comprehensive energy bill and this hea= ring is the next step in the process. Vinson & Elkins attorney Bill Wei= land talks with the Houston bureau about bringing oil and gas from Russia t= o the United States through the Caspian region. Weiland says there are rule= s over which countries' ships are allowed into ports in the Caspian Sea. O= n Thursday, Weiland will talk about the complications and added expenses th= ese rules place on U.S. imports from the Caspian region. Also from Ho= uston, we'll have a report on a class-action lawsuit filed against Andersen= . The plaintiffs are accusing the auditing firm of racketeering. This is = the first lawsuit against Andersen charging the firm with violations under = the RICO act. From the West Coast on Thursday, Portland General Electric = Spokesperson Scott Simms joins us to discuss electricity restructuring in O=regon. ENL's Kym McNicholas will speak with Simms about some new options f= or electricity customers starting March 1, 2002. Simms joins us during the= 1:00 p.m. ET newscast. We'll have earnings updates from New York on Thur= sday - Merrill Lynch Analyst Daniel Rolling will join us during the 2:00 p.= m. ET newscast to discuss Arch Coal and Consol Energy earnings. We'll also= be joined by UBS Warburg's Matthew Warburton Thursday. He's going to brin= g us Conoco earnings and fourth-quarter expectations for the oil sector. D= on't miss Warburton during the noon ET newscast. Closing Prices for Wed= nesday, Jan. 23, 2002 Crude: \$19.50/bbl +\$0.52 Unleaded: \$0.5635/gallo= n +\$0.156 Heating Oil: \$0.5253/gallon +\$0.112 Gas: \$2.076/mmBtu -\$0.030= Fwd uE(Feb.): \$3.43/mmBtu -\$0.16 Video Library: ENL's interview with S= ecretary of Interior Gale Norton is now logged in the Video Library. If yo= u happened to miss the excerpts aired during our newscasts, take some time = and check out the interview in its entirety. Keep in mind things are subj= ect to change at a moment's notice. [IMAGE] Dear Eric, I'm Washington Bureau Chief Peter Cook filling in for Jay Rickerts. Next week from the Washington bureau, we'll keep you up to date on a new effort on Capitol Hill to rush energy legislation through Congress. Senator James Inhofe of Oklahoma is one of many making the push with hopes of attaching the comprehensive energy bill that has already cleared the House to a Defense Appropriations bill in the Senate. If successful, the energy bill could be voted on as early as next week. Next Wednesday marks the first FERC meeting for new Chairman Pat Wood. The Commission's last meeting was canceled due to terrorist attacks on Washington, D.C. and New York City. The Senate Energy and Natural Resources Committee will also meet on Wednesday to discuss possible legislation on securing the nation's energy infrastructure. We'll have updates on these events from the Washington bureau next week. Houston Correspondent Kim Benestante will be covering the Houston Energy Dialogue 2001 Conference that begins on Monday. The Indonesian Minister of Energy and Mineral Resources is expected to be there along with other delegates from Indonesia. Kim will bring us updates from the conference next week. The Houston bureau will also bring us a report on U.S. rigs and how their numbers are down. Raymond James & Associates' John Tasdemir talks about the reasons for the low rig count next week. Also next week from Houston, Stolt Offshore Vice President Gordon Barksdale is penciled in to join us. Barksdale will talk about the company's achievement of a high "lay rate" for a large diameter pipe on the Williams East Breaux pipelay project. Finally from Houston, ENL's Gale Smith will bring us a report on a Rice University program dedicated to studying solar weather. Join us for these reports and interviews from Houston next week. spokesperson for CAL ISO Greg Fishman will talk about new agreements between the grid operator and renewable energy resources. ENL's Kym McNicholas also says Fishman is expected to give a load and supply forecast for the month of October. Also on Monday, the California Energy Commission is expected to vote on possible changes to the power plant siting process. The changes could potentially give applicants a greater opportunity to communicate with the staff. Kym will follow any progress from the Commission next week. Kym will talk more with Phoenix Consulting Principal Susan Schneider next Tuesday. Schneider will join us from the West Coast bureau to discuss her concerns with PG&E Corporation and Pacific Gas & Electric Company's reorganization plan. Keep in mind things are subject to change at a moment's notice. Occasionally guests cancel or change time slots. We'll continue to do our best to keep you updated on future interviews and events. Be sure to watch our newscasts every business day - 9 a.m. to 5 p.m. ET, at the top of every hour. Keep it on energynewslive.com for all your energy news.

Dear Eric, Crude hit a 27-month low of \$17.15 on news that OPEC will not cut output without a simultaneous, significant production cut by non-OPEC producers. Alaron Trading's Phil Flynn tells ENL crude prices could fall below the \$10.00 mark in the near future. Unleaded hit 4840 and heating oil reached 5080 - levels not seen since June of 1999. ENL's Stephanie Stanton will have the latest on all the commodities on Friday. We'll have more on Friday surrounding the impasse between OPEC and independent producers as Fahnstock & Company Senior Energy Analyst Fadel Gheit joins us from the AMEX in New York. Gheit will stop by at 9:00 a.m. ET. Video Library Update: OPEC Secretary General Ali Rodriguez spoke with International Correspondent Wolfgang Vale on Thursday about OPEC's conditional output cut. If you happened to miss the interview, jump into the Video Library to view the conversation in full. In Washington on Thursday, Senator Frank Murkowski (R-AK) threatened to tie up the Senate unless legislation to

Dear Eric, The Department of Energy is hosting a conference on Clean Coal Technology on Monday in Washington. The conference will take a look at where coal-fired generation could be headed in the future. U.S. Energy Association Chairman John Derrick, the Chairman and CEO of Pepco, is among those scheduled to speak. Look for energy legislation to move to the forefront when lawmakers return from Thanksgiving break. Republicans in the Senate say they want to take action on energy legislation in December, while Democrats aren't as sure of the time frame. Next week, the Washington bureau will bring us an update on where legislation stands and what the chances are that we'll see a comprehensive energy bill before the end of the year. The North American Electric Reliability Council will release its 2001/2002 Winter Assessment on Tuesday; our Washington bureau will bring us coverage. If MTBE is banned, the gasoline industry will have to drastically increase production of ethanol. On Monday, the Houston bureau's Gale Smith will have a report on some companies looking at alternative ways of making ethanol. We'll find out which products have a chance at becoming a substitute for MTBE. A recent poll taken by Deloitte & Touche says power deregulation in Texas won't mean an immediate rate reduction for consumers. The Houston bureau will have more from Deloitte & Touche's Branko Terzic on Monday. ENL's Kym McNicholas reports the California Power Authority is meeting over the weekend to discuss the scope and direction of its Energy Resource Investment Plan. The plan is due to the legislature and to the governor by February 15, 2002. Kym will bring us the latest on Monday from the weekend meeting. Also on Monday, the California Energy Commission will hear a petition for reconsideration of its decision on Calpine's proposed Metcalf Energy Center. After the meeting we'll have comments from the counsel to the petitioners Stephan Volker. Jolen Operating Company President David Fleischaker will speak with us from Oklahoma City on Monday. He'll give us a status check of energy legislation and discuss what he feels is the real problem behind Enron. We'll hear from Fleischaker during the 2:00 p.m. ET newscast. From Dallas on Monday, RBC Capital Markets Director Mark Easterbrook is joining us. Easterbrook will talk about the performance and outlook for Master Limited Partnerships in the energy industry and which investors are suited to buy MLPs. Catch him during the 3:00 p.m. ET newscast. Broadcasting Note: I just want to give you a heads up on the schedule for next week. ENL will be dark on Thursday and Friday for the Thanksgiving market holiday. Keep in mind things are subject to change at a moment's notice. Occasionally guests have to cancel or change time slots. We'll continue to do our best to keep you updated on future interviews and events. Have a wonderful and relaxing weekend! Be sure to watch our newscasts every business day -

=09 =09 Dear Eric, ENL will have the latest on the American Gas Associ= ation's decision Friday to end its weekly storage reports. The Washington= bureau will have the very latest on the progress of comprehensive energy l= egislation in Congress. The big sticking point in the Senate continues to = be the proposal to open Alaska's Arctic National Wildlife Refuge to oil and= gas drilling. Washington Bureau Chief Peter Cook says Bush administration = officials are promising to keep the pressure on. Peter also says there ar= e several specific energy issues being debated on the Hill next week. A Ho= use Committee vote on renewing the Price Anderson Act, which provides insur= ance for the nuclear industry, should be back on the agenda after a delay t= his week. Representative Doug Ose's (R)-California, Government Reform S= ubcommittee on Energy Policy, Natural Resources and Regulatory Affairs will= be looking at natural gas capacity and infrastructure constraints. The Wa= shington bureau will have news from these events and others on the Hill nex= t week. ENL's Gale Smith says the bureau will be packed next week with in= terviews starting Monday. Pace Consultants Director Dan Foley is stopping = by to talk about the effects of a U.S. MTBE ban on other countries that imp= ort gasoline during the noon ET newscast. A memorial service will be held= in downtown Houston Monday evening to honor the employees of TradeSpark, e= Speed and Cantor Fitzgerald killed in the September 11 attacks in New York.= The Houston bureau will bring us a report from the service on Tuesday. = On Thursday next week, IBM Chemical & Petroleum Industry Vice President of = Marketing Craig Hodges is stopping by the Houston bureau. Hodges will brin= g us details on Shell Oil's selection of IBM to pilot the "e-Station" proto= type that would create wireless gas stations. West Coast Correspondent Ky= m McNicholas will speak with Wright & Talisman Attorney Mike Small from Was= hington, D.C., on Monday. Small will give his reaction to the results of th= e Western Systems Power Pool Conference during the 1:00 p.m. ET newscast. = Kym also says we'll have more from former Secretary of State James Baker = and British Airways Chairman Lord Marshall, both speakers at the Invensys C= onference, next week. Jefferies & Company Electricity Utility Analyst Pau= l Fremont is penciled in from New York. Fremont will discuss PG&E's bankru= ptcy reorganization and whether bankruptcy status makes PG&E a better investm= ent than Edison. Catch Fremont in the 9:00 a.m. ET newscast on Monday. P= rogramming note: On Monday, ENL's weather team will bring you advance tempe= rature readings from the U.S. National Weather Service's MRF model. With t= hese new maps, we'll have the most accurate temperature readings for up to = eight days out. Log on Monday for forward-looking weather data from ENL. = Keep in mind things are subject to change at a moment's notice. Occasional= ly guests cancel or change time slots. We'll continue to do our best to ke= ep you updated on future interviews and events. Be sure to watch our ne= wscasts every business day - 9 a.m. to 5 p.m. ET, at the top of each hour. = =09 =09=09=09=09 =09=09=09=09=09=09 =09 =09 =09Jay Rickerts, EnergyNewsLive.com Anchor View today's Energy Wrap vi= deo (Requires Windows Media Player or Real Player) Experience all that= Williams Energy News Live has to offer! =09 =09 Dear Eric, ENL rakes in the frequent-flyer miles next week as = International Correspondent Wolfgang Vale reports live from Vienna, Austria= . Wolfgang will bring us coverage of next week's extraordinary OPEC meeting= , including the latest on any cartel production cuts. On Monday, we'll h= ave an update on the talks between Enron and Dynegy. As of Friday evening,= there was still no word of a deal for Dynegy to buy out its cross-town riv= al. Enron's troubles continued on Friday with Moody's downgrading the comp= any's debt ratings to one level above junk bond status. We'll follow devel= opments next week. We're full to the brim with guests scheduled from the = Houston bureau next week. We'll kick it off Monday during the 3:00 p.m. ET= newscast with zed.i solutions CEO Keith Smith. Smart-Alek is a new produc= t created by zed.i that allows producers to monitor flow rate from gas well= s from remote locations. Smith will bring us details on the product. On = Tuesday from Houston, UBS Paine Webber First Vice President-Investments Ro= bert Young gives us a comparison and contrast of Kinder Morgan and Enron. = He recommends Kinder as a strong buy right now as opposed to Enron, whose t= roubles continue to mount. Also next week, Conoco Project Manager Ken Sm= ith will discuss a five-year, \$50M joint venture. Conoco, Global Marine, = Texaco, Hydril, BP, Chevron, Diamond Offshore and Schlumberger are working = on subsea mud lift drilling technology, which has been successfully tested = and is now in the marketing stage. Catch the interview from the Houston bu= reau during the noon ET newscast on Tuesday. The showdown in Washington o= ver energy legislation may happen next week as the economic stimulus packag= e reaches the Senate floor. Washington Bureau Chief Peter Cook reports, th= ere's a possibility that energy legislation could be added as an amendment.= New energy statistics will also be released next week. The Energy Inf= ormation Administration will announce energy projections for the U.S. for t= he next 20 years. We'll have the forecast for you from the Washington bure= au on Wednesday. We'll have more on Enron from the West Coast bureau nex= t week. On Monday, Henwood Energy Services Managing Director Gary Hunt talk= s about how a Dynegy/Enron company could have a major impact on one large o= il producer in California. The California Senate's Committee investigatin= g price manipulation in the state's wholesale electricity market will hold = a hearing on November 13. The hearing will focus on allegations by generat= ors that the California ISO has given preferential treatment to the CDWR. = Cal ISO President and CEO Terry Winter received a subpoena requiring him to= attend the hearing. ENL's Kym McNicholas will bring us all the details fr= om the West Coast bureau on Tuesday. Keep in mind things are subject to = change at a moment's notice. Occasionally guests have to cancel or change t= ime slots. We'll continue to do our best to keep you updated on future int= erviews and events. Be sure to watch our newscasts every business day - = 9 a.m. to 5 p.m. ET, at the top of each hour. =09 =09=09=09=09 =09=09=09=09=09=09 =09 =09 =09Jay Rickerts, EnergyNewsLive.com Anchor View today's Energy Wrap Vi= deo Windows Media Player: 56K | 100K | 300K Real Player: 56K | 100K = | 300K (Requires Windows Media Player or Real Player) Experience all = that Williams Energy News Live has to offer! =09 =09 Dear Eric, An extraordinary OPEC meeting begins on Wednesday a= nd our International Correspondent Wolfgang Vale will be live in Vienna, A= ustria. We'll have reports and live coverage from the meeting throughout t= he day and we'll bring you an update on a possible production cut. In Was= hington, the Senate continues debate on an economic stimulus package. The = Senate version is missing some of the corporate tax relief measures in the = House bill already passed. In addition, Washington Bureau Chief Peter Cook= says we could see a decision by Republicans to try and attach energy legis= lation to the bill as early as Wednesday. The Washington bureau on Wednes= day will bring us more reaction to President Bush's decision to fill the St= rategic Petroleum Reserve to capacity. Peter says the move is being applau= ded by many on the Hill, but there are concerns that it could boost prices.= The Energy Information Administration releases its Annual Energy Outlook= on Wednesday morning. The Washington bureau will bring us the latest ener= gy forecast for the nation tomorrow. We'll be talking about pigs from the= Houston bureau on Wednesday - smart pigs to be exact. Paragon Engineering= Manager of Pipeline Integrity Management Joe Killin will stop by to give u= s his take on the pipeline-testing smart pigs. Killin says this technology= may not be the best method of testing for a faulty pipeline. Check Killin = out in the noon ET newscast. Also on Wednesday, zed.i solutions CEO Keith= Smith talks about a new product called the Smart-Alek. The Smart-Alek all= ows producers to monitor the flow rate of gas wells from a remote location.= Finally from Houston, we'll have reports on Russian President Vladimi= r Putin's speech at the James A. Baker Institute for Public Policy at Rice = University. He's taking time out of his three-day visit with President Bus= h to discuss the energy industry. We'll have this report and more from Hou= ston on Wednesday. During the 1:00 p.m. ET newscast, ENL's Kym McNicholas= will speak with Chairman of the California Alliance for Distributed Energy= Resources Jairam Gopal. Gopal will talk about more emissions standards exp= ected to come from the California Air Resources Board this week. We'll = have a visitor from the Chicago Mercantile Exchange on Wednesday. Alaron T= rading Vice President and Senior Market Analyst Phil Flynn will give us an = overview of the API and DOE numbers and an outlook on new petrochemical con= tracts. Log on during the noon ET newscast to catch Flynn. From ENL Head= quarters on Wednesday, Banc One Investment Advisors Managing Director Antho= ny Chan will discuss Federal Reserve Board policy. Chan will give us his a= nswers to the questions of where do we go from here, and does the Fed have = any more room to move? I'll talk with Chan during the 2:00 p.m. ET newscas= t. Keep in mind things are subject to change at a moment's notice. Occasi= onally guests have to cancel or change time slots. We'll continue to do ou= r best to keep you updated on future interviews and events. Be sure to w= atch our newscasts every business day - 9 a.m. to 5 p.m. ET, at the top of = each hour. =09 =09 =09 =09 =09 =09 =09 =09 =09 =09 =09 =09 Jay Rickerts, EnergyNewsLive.com Anchor View today's Energy Wrap Vi= deo Windows Media Player: 56K | 100K | 300K Real Player: 56K | 100K = | 300K (Requires Windows Media Player or Real Player) Experience all = that Williams Energy News Live has to offer! Dear Eric, The Washington bureau will bring us more on the EPA decision to recommend changes to the nation's fuel specifications on Thursday. Washington Bureau Chief Peter Cook says the proposal to reduce the number of boutique fuels across the country will likely draw mixed reaction. We'll have the latest on energy legislation from the Senate. There continues to be mixed signals coming from both parties on the likelihood of a deal that could pave the way for a comprehensive energy bill to reach the floor. Also in Washington, a long list of energy influentials will speak at the Alliance to Save Energy's Summit on Energy Efficiency. Energy Secretary Spencer Abraham, Senate Energy Committee Chairman Jeff Bingaman and S. David Freeman, the Chairman of California's new state power authority are among the scheduled participants. We'll have coverage of the Summit from the Washington bureau on Thursday. Houston has long been called the energy capital of the world and downtown Houston has always been considered the energy corridor. Now the Woodlands, a community located north of Houston, is staking its claim as the next energy corridor of the area. On Thursday the Woodlands Chamber of Commerce is hosting an energy forum to discuss the area's growth and ways to attract more companies. We'll bring you details from the Houston bureau tomorrow. We'll take a rare look Thursday into the largest nuclear power plant in Texas. South Texas Project Electric Generating Station invited members of the news media to tour secured areas as nuclear plants around the country upgrade security in light of the threats and attacks on America. Also from the Houston bureau on Thursday, Simmons & Company International Vice President of Research Mark Meyer will drop by to discuss how oil stocks are doing this quarter. Catch Meyer during the 10:00 a.m. ET newscast. The California Public Utilities Commission is meeting on Thursday. West Coast Correspondent Kym McNicholas says the agenda may include the Rate Agreement between the CDWR and the PUC along with the issue of Direct Access. Kym also reports, the Sacramento Municipal Utility District is boosting its capacity. This move will add to what is already the largest utility-owned distributed photovoltaic system in the world. Kym will bring us details on Thursday. Finally from the West Coast bureau, we'll have comments from California Governor Gray Davis' Press Secretary Steve Maviglio on the federal government's plans to expand Path 15. Join us for these stories from the West Coast bureau tomorrow. From ENL Headquarters on Thursday, Williams Energy Partners L.P. Chief Financial Officer Don Wellendorf will join us to discuss the company's third-quarter earnings. And Edward Jones Senior Energy Analyst Zach Wagner will join us from St. Louis to continue the discussion on earnings. Wagner will discuss Enron during the 4:00 p.m. ET newscast tomorrow. Keep in mind things are subject to change at a moment's notice. Occasionally guests cancel or change time slots. We'll continue to do our best to keep you updated on future interviews and events. Be sure to watch our newscasts every business day - 9 a.m. to 5 p.m. ET, at the top of each hour.
