NEVP transmission

Sender	stacy.runswick@enron.com
Recipients	['holden.salisbury@enron.com', 'mike.purcell@enron.com']
File	salisbury-h/inbox/704.

Please be aware that the last leg of transmission listed on tag #28010 is a dummy leg of transmission that needs to be placed on the tag in order to reflect Valley Electrics Load at Mead 230. We use this dummy leg of transmission because Valley Electric does not have a PSE acronym in the OATI tagging system. We have been creating tags such as this since the OATI tagging system has been in use and have not or should not be getting charged for using NEVP trani. Please refer to the following tag numbers as examples: 22655, 22654, 26279, 26387. Please note that each of these tags was approved by NEVP the control area and NEVP the transmission provider and therefore has been implemented. It was our understanding that this was a practice agreed upon by NEVP and Enron in order to reflect Valley Electrics load at Mead. My contact at Nevp is Jannella Battles. Please, keep me in the loop as to what the result of this issue will be.

Thanks, Stacy Runswick Enron North America (877) 464-7779 ph (503) 464-3740 fx stacy.runswick@enron.com

-----Original Message-----

From: Perrino, Dave Sent: Tuesday, August 14, 2001 3:16 PM To: Fischer, Mark; Alonso, Tom Subject: Seams Intro

Tom/Mark,

Thanks for taking the time to review the introduction. The purpose of the document will be for all parties in the west (TO's and participants) to discuss and address commercial seams which, if left unchecked, could develop with the implementation of RTO West and DSTAR. The introduction is intended to be a summary of the needs of the market and discuss the development of good base-business practices west region-wide that the RTO's can use to implement common methodologies.

Kind Regards,

Dave

From: Atta, Asem Sent: Friday, May 25, 2001 9:12 AM To: White, Michael S. Cc: Scholtes, Diana; Salisbury, Holden; Cox, Chip; Steiner, David; Kraltchev, Nikolay; Crooks, William Subject: FW: Status?

Michael,

Holden Salisbury, trader in our PDX office, seems to be having problems [emails included below] with getting full access to the Foster project's applications. Seems that when he browses through his program menu's on his local machine he sees

only Oasis Net Exports and Transmission Ticker and when he goes through TerminalServer he's got access to all of them, he needs to be able to access all apps [Transmission Ticker, Net Exports. Transmission Offerings, Reservation Reports, Batch Scheduler, ATC reports] from his local machine. IT IRM contacts up on the Portland side are Chip Cox [503-703-0536] and David Steiner [503-703-1553]. Please do let whomever know what needs to be done in order to get this resolved.

thanks in advance Asem x31700

-----Original Message-----

From: Salisbury, Holden Sent: Thursday, May 24, 2001 02:47 PM To: Atta, Asem; Cox, Chip Cc: Steiner, David; Kane, Paul Subject: RE: Status?

I need all of the Foster applications on my local profile. I have some of them on local and some of them on my terminal server profile. I need the same Foster profile that Diana Scholtes has on her local machine. As of this morning I still do not have it. Please let me know when my profile gets updated.

Thank You, Holden

-----Original Message-----

From: Atta, Asem Sent: Wednesday, May 23, 2001 7:18 AM To: Cox, Chip Cc: Steiner, David; Kane, Paul; Salisbury, Holden Subject: RE: Status?

Chip,

The issue seems to be that of an Information Risk Management problem where they haven't pushed out all the application access to Holden's profile.. I had put in a ticket with (31411) under your name for this matter on Monday. I will call them and ask them to escalate this matter.

regards Asem x31700

NPC Transmission

Sender	mike.purcell@enron.com
Recipients	['kate.symes@enron.com', 'holden.salisbury@enron.com', 'lester.rawson@enron.com']
File	salisbury-h/inbox/408.

Please keep in mind when entering NPC transmission into Enpower.

Beginning July 2001, the ancillary services rate for Nevada Power has been changed from \$0.70 to \$0.58539(roughly 59 cents) per MWh.

TOTAL = \$0.58539 per MWh

Reserved transmission is \$1.70 LLoad \$2.90 HVLoad

If the transmission is wheeled the .59 should be added to the reserved price and the amount entered should be:

\$2.29 LLoad

\$3.49 HVload

The problems I see are deals entered at prices of \$4.10, \$3.60, or \$2.40 or deals have been entered in at the reservation charge even though they the transmission was used.

Thanks

Thanks, Fran

-----Original Message-----

From: Chang, Fran Sent: Monday, October 08, 2001 11:41 AM To: Lee, Norman; Yang, Zhiyun Cc: Postlethwaite, John; Law, Samantha; Alonso, Tom; Fisher, Mark; Salisbury, Holden; Motley, Matt Subject: curve mapping issues on deals Importance: High

Dear Zhiyun and Norman:

Due to legal reasons we are in the process of changing deals with delivery point of WestWing to either WestWing 230KV or WestWing 500KV. However, in PortCalc if the delivery point is changed to WestWing 230KV or WestWing 500KV the deals will be valued against WSCC-S curve, not WestWing curve. Due to this we have observed unfavorable prior day and curve shift; this is not what our traders expected and wanted the deals to be valued. An example is deal#802862.1 in which delivery point was changed from WestWing to WestWing 500KV on 10/5/01 and we suffered a \$294K loss due to the deal change. (post id 13377 on 10/5/01 vs. post id 13337 on 10/4/01)

We would like the deals to be still looking at WestWing curve when delivery points are WestWing 230KV or WestWing 500KV. Please change the mapping of the valuation in PortCalc so the traders can get their deal change and "unreal" curve shift back.

Please let me know your timeline on this and if you have any questions.

Thanks,

Fran 503.464.7973

Enron and WACM and losses

Sender	cara.semperger@enron.com
Recipients	['virginia.thompson@enron.com', 'stacy.runswick@enron.com', 'lerichrd@wapa.gov']
File	salisbury-h/inbox/1111.

Hi Lynn,

According to my records, I do not see where we used our WAPA transmission on May 12th or May 20th.

I do see purchases from WAPA at Midway on those days, but losses are not billable to Enron on those purchases as the energy was purchased at Midway.

My tags are as follows:

May 12th. Day total of 370, tag 22299

May 20th, Day total of 55, Tag # 22803

If your records indicate that we used WAPA transmission on our own account for those days, please provide me the OASIS number that was assigned to this transmission.

Thank you

Cara West Power Scheduling Supervisor 503/464-3814

File	salisbury-h/inbox/484.

Dear Fran:

West Wing, West Wing 500 kV and West Wing 230 kV are all mapped to WSCC-S, but West Wing has a basis, B2, while the other two delivery points don't. So if you want the other two delivery points to use the same curves as West Wing, all you need to do is to associate them with basis B2 -- you should be able to do it through Global Facility.

Please feel free to give me a call if you need any assistance. Thanks.

- Zhiyun

Please respond to Dear Holden,

You have been provided with access to PIRA Online, PIRA's Internet-based energy library, as part of the Retainer Service that your company has with PIRA Energy Group. To access the online service, please go to our website at www.pira.com. Once you enter the site, click on the "Login" prompt on the left bar to enter the Client section of our website. At the Login page, you will be prompted for a User ID and Password. Please enter the following codes (NOTE: they are case-sensitive): User Name: hsalisbury Password: hs8284 Once you have entered the Client section, you have three choices for accessing your information. In the center of the page we list PIRA's latest 10 reports for all fuels; on the left is an option to go directly to the most recent issue of the main reports for Global Oil, North American Gas, Electricity, and European Gas; and at the top of the page you may select "Latest" to retrieve PIRA reports issued over the last 30 days by fuel, or "All Reports" to retrieve all PIRA reports (archived and recent) by fuel. Please call me if you have any questions or if you are having a problem logging on. John Graziano Client Relations PIRA Energy Group 3 Park Avenue, 26th Floor New York, NY 10016 (212) 686-6808, ext. 341support@pira.com

From: Phillips, Rebecca Sent: Monday, August 06, 2001 11:20 AM To: Patterson, Jessie; Miertschin, Beth Subject: Day of Caring - 5719 Ettrick, Aug 8, 2001

Below is information about the house you will be volunteering at on Wednesday, August 8th. Please send me a list of all the AA volunteers, as well as the ones who will be staying all day.

This house is in need of outside repairs. Mr. Elvin Rayes is an older man and lives there alone. He is a veteran and is very proud and doesn't want to accept charity. However, he is going to let us help him with the outside. He was very nice when I met him on Sunday and I told him that all the people coming over to help were excited they didn't have to go to work for the day. This made it seem like we were doing more of a favor for ourselves versus for him. He liked that. This house really needs a lot of TLC

I would suggest everyone wear old clothes they don't mind painting in and their GREEN United Way t-shirts (shorts are fine but jeans may be better for those who want to mow - this is Houston and it's summer). Below is a safety note one site leader sent out to his team. You may want to forward this to your AA volunteers.

Safety First!!!

Let's make sure we are all safe. We all want to go home just like we get there - no injuries!! A few safety rules:

If you see someone working unsafe - either tell them, or tell me immediately (so I can tell them)! Plan your work, and discuss it with your work crew. Don't hurry, use common sense. Use the right tool for the job Be careful lifting, lift with your legs, not your back. If item is heavy or bulky, get help! - Don't be macho. Be sure to wear safety glass or goggles when appropriate (weed eating, power saws, grass mowing, etc). Wear work gloves Make sure ladders are secure, and either tied down or someone stabilizing the base. Be aware of people around you and what they are doing.

Tasks

Here are the main tasks at the Ettrick house. Once everyone gets out there, we can shift the work according to everyone's preference as long as the work gets done. People may work on more than one task depending on progress, congestion, and what people would like to do.

Replace rotten outside trim boards Replace garage door (rotten on bottom) Trim trees with chainsaw - especially in the back yard Replace soffit screening Clean bathroom - 2 people Yard work - trim hedges, mow and edge Replace screen door Caulk around the windows Scrape old paint and paint outside Replace window screens Replace doorbell

Tools

Here is the list of tools. Bring what you have and make sure to put your name on it with a permanent marker. Please let me know if you are missing any tools and I will do my best to get them there. It may be good for people that have tool boxes just to bring them if they can. It always seems like there will be something they will need that isn't there.

5719 Ettrick Lawnmower 1 Houston, TX 77035 Edger 1 Chainsaw 1 Rakes 8 Hammers 5 Screwdrivers - phillips 2 Screwdrivers - flat 2 Weedwacker - gas 1 Shovels 2 Handsaw 2 Crowbars (to pry old boards) 3 Wire brushes 20 Ladders - 6' 4 Ladders - 8' 4 Tape measurer 2

Everyone should bring: Gloves Sunscreen Bug spray Jeans and long sleeve shirt at volunteers discretion Wear clothes appropriate to paint Disposable Camera if wanted

Buses & Lunch

A bus will leave for the morning shift at 8:15 AM and at 1:00 PM from the Enron building. Box lunches will be provided at the Enron building in the lobby. If you are working all day a lunch will be sent for you on the 1:00 PM bus.

Here is the link for mapquest: http://www.mapquest.com/cgi-bin/ia_find?link=btwn%2Ftn-map_results&random=565&event=find_search&SNVData=&address=5719+Ettrick&city=houston&State=tx&Zip=&Find+Map.x=15&Find+Map.y=6

If you have any questions or suggestions, please don't hesitate to call me. I will be at your site in the morning to kick everyone off!! Let's have a fun day, help some people, and show the Enron spirit!!!

File	salisbury-h/sent_items/8.

WALC refers to the Pinnacle Peak delivery we are currently performing on. In Enpower it is referred to as: Western Area Power Administration-Desert Southwest Region - WALC. The deal number is 705583. Please let me know if you need any more information.

Thank you, Holden

-----Original Message-----

From: Thome, Stephen Sent: Monday, January 14, 2002 2:25 PM To: Kroumov, Kroum Cc: Luong, Steven; Evans, Casey; Bishop, Serena; Alonso, Tom; Fischer, Mark; Salisbury, Holden Subject: RE: Customer Names

I will confirm deal numbers with the desk. Its our understanding (per the 1:30 CST call) that we are continuing to make deliveries to WALC, which is WAPADESERTSW, and Edwards AFB, which is believed to be WAPADESERTSWAFB. We will definitively identify WAPADESERTSW and Edwards deal numbers.

-----Original Message-----

From: Kroumov, Kroum Sent: Monday, January 14, 2002 2:16 PM To: Thome, Stephen; Luong, Steven; Evans, Casey Cc: Postlethwaite, John Subject: RE: Customer Names

If we assume that 47358 Western Area Power Administration-Desert Southwest Region WAPADESERTSW and 98773 Western Area Power Administration-Desert Southwest Region (USAFB) WAPADESERTSWAFB

were terminated as well only the desks of two deals 852890 and 853003 should be changed from EPMI Long Term Southwest to EPMI - West Performance

Casey, can you do that with Deal Entry for me please so I can avoid one long procedure for two deals.

Thanks, Kroum x39980

-----Original Message-----

From: Thome, Stephen Sent: Monday, January 14, 2002 4:08 PM To: Kroumov, Kroum; Luong, Steven; Evans, Casey Cc: Postlethwaite, John Subject: RE: Customer Names

I am not sure of your question, but DESERETGENTRAN has been terminated.

-----Original Message-----

From: Kroumov, Kroum Sent: Monday, January 14, 2002 1:59 PM To: Luong, Steven; Evans, Casey Cc: Postlethwaite, John; Thome, Stephen Subject: RE: Customer Names

Stephen,

Now we have the question if the deals with

29894 Deseret Generation & Transmission Coop. DESERETGENTRAN

or

47358 Western Area Power Administration-Desert Southwest Region WAPADESERTSW and 98773 Western Area Power Administration-Desert Southwest Region (USAFB) WAPADESERTSWAFB

had to be on the list

As a matter of fact we are talking for fixing maximum 6 deals: (Deseret Generation & Transmission Coop. was not changed in two only)

Deal No 552607 Western Area Power Administration-Desert Southwest Region EPMI - West Performance 622299 Western Area Power Administration-Desert Southwest Region (USAFB) EPMI - West Performance 638076 Western Area Power Administration-Desert Southwest Region (USAFB) EPMI - West Performance 705583 Western Area Power Administration-Desert Southwest Region EPMI - West Performance 852890 Deseret Generation & Transmission Coop. EPMI Long Term Southwest 853003 Deseret Generation & Transmission Coop. EPMI Long Term Southwest

which could be done with Deal Entry as well

Thanks, Kroum

From: Thome, Stephen Sent: Monday, January 14, 2002 12:49 PM To: Luong, Steven; Evans, Casey; Kroumov, Kroum Cc: Postlethwaite, John Subject: RE: Customer Names

WAPA Deseret is probably associated with Deseret G&T. I suspect WAPA is purchasing power on behalf of the G&T to meet its obligations.

-----Original Message-----

From: Luong, Steven Sent: Monday, January 14, 2002 10:41 AM To: Evans, Casey; Kroumov, Kroum Cc: Postlethwaite, John; Thome, Stephen Subject: RE: Customer Names

Kroum,

Hopefully this helps:

WALC - WAPA Lower Colorado - Western Area Power Administration-Desert Southwest Region WAMP - WAPA Municipal Power-NP15 - Western Area Power Administration - Sacramento Area Office WAPA Deseret - Western Area Power Administration-Desert Southwest Region (USAFB)

It looks like the only one you haven't run is the WAPA Sacramento Area Office.

Let me know if you have any more questions. Thanks.

Steve

EES--CAISO Notice - Distribution of Funds for January Preliminary

Sender	bill.iii@enron.com
Recipients	['portland.shift@enron.com']
File	salisbury-h/read/276.

We need to sell all the EES all the time. The imbalance is always zero...it doesn't matter what the beep prints(unless its negative-then you can bet we will get charged!!!).

Any ideas, or advice for them? Let me know.

Bill

----- Forwarded by Bill Williams III/PDX/ECT on 04/12/2001 08:29 AM -----

To: Bill Williams III/PDX/ECT@ECT cc: Daniel Kang/HOU/EES@EES, Jubran Whalan/HOU/EES@EES

Subject: CAISO Notice - Distribution of Funds for January Preliminary Invoice

Bill,

We are still in a bad position with the ISO. I have noticed that you have not been able to sell all of our length in the real time market. Given the below statement by the ISO we would ask your traders to get as aggressive as possible on the sales (ie just sell it) . Receiving cents on the dollar from the ISO is not a sound business proposition for us. Do you have any ideas, we welcome your advice

Thanks

NFB ----- Forwarded by Neil Bresnan/HOU/EES on 04/12/2001 07:22 AM -----

<IMCEAEX-_O=CAISO_OU=CORPORATE_CN=DISTRIBUTION+20LISTS_CN=SCSETTLECONTACTS@caiso.com>

Subject: CAISO Notice - Distribution of Funds for January Preliminary Invoice

ISO Market Participants: Cash clearing related to the preliminary invoice for January 2001 was scheduled for April 3, 2001. Due to a shortfall in receipts from market debtors, the ISO was required to perform calculations in accordance with ISO Tariff Section 11 and Settlements and Billing Protocol ("SABP") Section 6 to determine the appropriate pro-rata distributions to scheduling coordinators. These calculations have been completed, and a distribution of available funds was made today. A total distribution of \$5,980,329 was made against accounts payable of \$835,450,697, resulting in a pay-out percentage of 0.7%. Total market related collections were \$12,952,985, which were reduced to the \$5,940,329 to cover GMC short-payments and other adjustments. The ISO will provide a comprehensive reporting of the January preliminary settlement later this week, and will thereafter distribute a current certification of amounts owed. Phil Leiber Dir. Financial Planning & Treasurer California ISO 916 351-2168 916-351-2259 (fax)

File	salisbury-h/inbox/689.

Amy- I show DMS #'s 10444 and 10445. I'll enter these in the system today, although we do not agree with the loss charge from DMS 10444. I have been disputing this directly with their transmission department. We will pay the bill as is so as not to incur any late charges but there is a great possibility that we will need to future-adjust for a \$500 credit from them as we are not in agreement with the \$ 6120.

Thanks,

Virginia

Holden, Mark, and Tom- FYI - I called Don again and he is "out" til Thursday. I was given the name of John Montoya to contact. Do you know who he is?

Internet outage 6:45 PM Tonight

Sender	chip.cox@enron.com
Recipients	['david.steiner@enron.com', 'jon.werner@enron.com', 'desk.portland@enron.com']
File	salisbury-h/read/64.

Just a reminder concerning the outage tonight!!

-----Original Message-----

From: Steiner, David Sent: Wednesday, May 16, 2001 4:13 PM To: Portland West Desk Cc: Cox, Chip; Werner, Jon Subject: Internet outage 5:45 PM Tonight and 6:45 Tomorrow Importance: High

Internet Outage:

There will be a very temporary (10 seconds or so) internet outage at 5:45pm tonight as we switch from using the PGE route to the Enron Houston route.

The IT contact for tonight is:

Chip Cox 503.464.8916 503.703.0536

PGE is doing maintenance on their firewall tomorrow and to avoid a prolonged outage we will be using a different path to the internet.

Tonight we are just testing the alternate path and will be back on the PGE route around 6:00 PM tonight after testing.

Tomorrow, around 6:45PM, we will once again reroute our traffic to Enron Houston's Internet path while the PGE route is down for about 2-3 hours. This will again cause a very brief outage that will most likely go unnoticed by most. After PGE has completed their work, we will jump back over to their service.

Please let me know if you have any questions.

Dave Steiner

Hi everyone,

Thank you very much for the valuable business insight and active feedback on position manager during the past week. Based on the feedback from everyone we have made lot of changes in the new version of the application, which was released last week and I think the system is working to everybody's satisfaction. I would like to take this opportunity to sum up the features and options built inside the new position manager.

1. All the west regions and basis have been rolled out. 2. A feature has been added to the basis screen, which enables traders to paste the basis points from excel. 3. New curve types Capacity and Volatility Smiles are included. 4. Positions can be viewed by both MWH and MW. 5. Positions can be viewed by Delivery Points.

Currently we are working on fixing some problems in getting the curve shift and hopefully we will roll that out by the end of this week. We are also planning to add this application to the Enpower Launch Pad, which will make migration easier. I have noted down all the enhancement requests and we will try to get all those addressed in the next release.

Finally I would like to thank everyone on behalf of the entire risk team for devoting some time everyday to test this application. We are striving hard to end this and migrate this application to production in the near future.

If you have any questions or concerns please feel free to call any of us listed below

Arun Balasundaram (713-853-7102) Sivakumar Govindasamy (713-345-7926) Norman Lee (713-853-6976)

Thanks

- Arun

ATTENTION ANALYSTS

ORIGINATION ROTATION OPPORTUNITY IN NEW YORK

Enron Credit provides credit risk mitigation solutions to corporations and other financial institutions. We provide information on the "cost-of-credit" and pricing for 10,000 reference names on enroncredit.com to provide corporations with information required to make smart decisions about extending credit. We also participate as one of the larger liquidity providers in the inter-bank Credit Derivative Swap market with live pricing available on ENRONONLINE. Enron Credit has around 70 staff members and is based in London, Houston and a new office in Tokyo and is looking to grow strongly in the future.

Analyst will support 3 Originators in New York

The job would entail: ? doing background analysis on industry sectors and companies in order to target corporations/industry sectors for origination opportunities ? creating power point presentations and compiling background material on targeted clients ? tracking client correspondence ? working on pricing and transactions ? collating market information on pricing ? some marketing/pricing

Requirements are: ? understanding of financial statements ? understanding of credit and financial analysis ? understanding of derivatives ? innovative and interested in finding new business opportunities ? extremely motivated with initiative ? keen to live in NY

If you are interested in this rotation, please send your updated resume to: Bridget Fraser (hiring manager) 212-715-5256 Jeff Kinneman (VP) 713-853-5398 Or Andrea Richards (Career Development) 713-853-6499

ATTENTION ANALYSTS

ROTATION OPPORTUNITIES IN DENVER, COLORADO

Crestone Energy Ventures, LLC {a wholly owned subsidiary of Northern Border Partners (NBP)} is looking for Analysts to work in Denver, Colorado. NBP is a master limited partnership that is publicly traded on the NYSE and managed by Enron Transportation Services (ETS). Crestone was formed in September 2000 when Enron North America (ENA) sold \$204MM of the gathering assets to NBP. Visit www.northernborderpartners.com <<http://www.northernborderpartners.com>> for more information on NBP and the relationship with Enron.

Analysts will complete the following functions:

? Work closely with senior originators in both analyzing new transactions and optimizing existing assets, thereby gaining valuable commercial experience. ? Assist in developing creative transaction structures that balance counter party needs with the financial goals of NBP. ? Develop complex financial models that will enhance their finance and accounting expertise. ? Perform market research in identifying acquisition and investment opportunities.

Requirements are:

? Strong excel skills ? Experience creating asset valuation models and performing financial statement analysis ? Knowledge in utilizing the internet and other research tools in targeting opportunities and amassing information on potential counter parties ? Enjoy working for a lean, mean origination machine! Note: A prior rotation in RAROC would be ideal.

If you are interested, please forward your updated resume to: Charles Varnell (hiring manager) 303-575-6493 Jessica Wentworth (asst.) 303-575-6482 or Andrea Richards (Career Development) 713-853-6499

Important Notice Regarding Your Account

Sender	accounts@quickbase.com
Recipients	['holden.salisbury@enron.com']
File	salisbury-h/inbox/444.

Dear QuickBase Customer:

We want to let you know of a great opportunity that will take your use of QuickBase, the Web-based service for managing, organizing, and sharing information, to the next level!

Beginning November 9, 2001, you can create a single database, up to 10 KB in size, attach up to 500 KB in files and program QuickBase - all at no charge.

How does this impact you? It's a great opportunity for you to evaluate QuickBase for free and see how easy it is to share information. Create your database from scratch or choose one of our samples for common business applications. Or, maybe you have a spreadsheet you want to share. Simply import or paste into QuickBase.

Can you create even more databases? Yes, you can. If you're impressed with QuickBase, sign up <<https://www.quickbase.com/db/main?a=realmain&realmid=47207&promo=1&s=8>> for one of three monthly service plans. Be sure to sign in using your QuickBase username, Holden, and password.

On these plans, starting at \$14.95/month, you can create multiple databases with expanded capacity to meet your growing business needs. You can also have better control of database user access rights, receive expert support via e-mail, and program QuickBase. Review our Service Plan Highlights below to choose the plan that best fits your needs.

As a special offer for our existing Starter Plan customers, your first month of service is free when you sign up <<https://www.quickbase.com/db/main?a=realmain&realmid=47207&promo=1&s=8>> by November 9, 2001.*

Once again, QuickBase is a great way to manage, organize and share information. Create a QuickBase database, and you'll see why!

Regards, Jill Ward General Manager Intuit QuickBase

*One-time offer valid only through November 9, 2001.

Service Plan Highlights:

QuickBase offers a variety of plans to fit your business needs.

Starter Plan: No Charge Limits: 1 database; 10 KB maximum database size; 500 KB total attached files; API access

Basic Plan: \$14.95 Per Month Limits: up to 15 databases; 2 MB maximum database size; 15 MB total attached files; API access; Advanced Feature set; E-support

Intermediate Plan: \$29.95 Per Month Limits: up to 30 databases; 2 MB maximum database size; 50 MB total attached files; API access; Advanced Feature set; E-support

Premium Plan: \$49.95 Per Month Limits: up to 50 databases; 3 MB maximum database size; 125 MB total attached files; API access; Advanced Feature set; E-support

Questions? Review our Frequently Asked Questions <https://www.quickbase.com/p/pricing_faq.stm> for immediate answers.

For information about your current status and more details about our service plans, go to your My Account <<https://www.quickbase.com/db/main?a=realmmain&realmid=47207&promo=1&s=8>> page.

Notes:

**Terms, conditions, pricing features, and service options subject to change without notice.

If you elect to take advantage of the special offer, your credit card will not be charged until your second month of QuickBase usage.

Please do not reply to this e-mail, as we will not be able to respond. Instead, submit your inquiries to QuickBase Support through the QuickBase Web site.
