About three weeks ago, I inquired about EBA's interest in organizing a concurrent session at the upcoming IAEE (International Association for Energy Economics) conference in Houston (April 2001).

Since I did not hear back from you, I assume that EBA was not interested. It would help us a lot in our future planning if you could perhaps help me with your reasoning. Did we approach you too late (given the Dec 4 deadline)? We required all participants to pay registration fees, was that an issue? We couldn't guarantee you a slot even if you proposed a session, was that an issue?

Hi Susan!!

I'm so glad to hear from you! I know how crazy life is, so don't worry....that's the great thing about good friends- you can always pick up where you left off! I know it's tough to email a ton, too, so we'll just write each other short notes whenever we can....

Can you fly using your dad's passes? I'll keep my eyes open for great rates, too, because I would love for you to come visit- San Diego is of course perfect during the summer! Here are some weekends that are good for me- just so we can get the dialogue started about you coming to visit....I think the only way we can catch up on several years of news and gossip is for you to come out and visit!! July 28-30th August 18-20th August 25-27th September 1-4th (Labor Day Weekend)

Brendan is moving into a new place right on the beach, and I live about a mile from the beach, so we will have a great time lounging around and shopping whenever you can come visit. Let me know what you think- I'll talk to you soon!

Needs to be an officer or someone with power of attorney. Ordinarily, you do not have power of attorney unless there is board of director approval authorizing you to sign contracts on behalf of the company. The point is to make sure someone signs it who is authorized to bind the company to the obligations of the agreement; otherwise they could argue later that the agreement is not valid.

...that her husband can be so devious.

Here's hoping that you can join me in surprising Kim Watson for the 11th anniversary of her 29th birthday. Her birthday is actually on December 17th, but a key part of the deception is surprising her early.

We hope to see you on Friday, December 8, at The Spires, 2001 Holcombe Blvd., Unit 2406 (77030). If you need directions, you can call the front desk at (713) 799-2501. Desserts, wine, coffee and soft drinks will be served.

The most current plan calls for folks to gather at our home between 7:30 and 8:00 p.m. on December 8. Kim and I will be returning from our co-birthday dinner (both of us are December kiddos), no earlier than 8:00 p.m. and will proceed to unit 2406. We'll come in and...(you know the rest...).

I need to have a rough head count of those who can make it, so please reply to this e-mail by December 6 with your RSVP, or you can leave me a voice mail at (281) 440-5300 x222. Both are secure from Kim, so don't worry about using either of these methods. If you've already told me you can't make it, you don't need to reply again.

Remember, no gifts, please. Your presence will be gift enough.

Hope to see you on the 8th!

Deb - to confirm my voice mail message, the name Brook LLC is not available in DE. Brook, Inc. was formed in DE in 1986. CT advised Teresa that it was available, but it appears they were mistaken.

JD,

To follow up on our earlier meeting, attached are the following documents for CG&E:

- TSA network handbook which summarizes all requirements - Request for Network Transmission Service (Network Application) - Request to designate a New Network Resource (only required when we are ready to designate a resource) - OATT Tariff Attachments that includes Attachment F, Network Service Agreement and Attachment G, Network Operating Agreement - CG&E TSA, Transmission Scheduling Agent Agreement

If EPMI does not already have the Network Transmission Agreements in place, then CG&E indicated that the process was to first fill out the Network Application and then they will send the Network Service Agreement and the Network Operating Agreement.

Assistance for Enron Alumni

Sender	jamie.kingbelinne@bus.utexas.edu
Recipients	['jamie.kingbelinne@bus.utexas.edu']
File	scott-s/inbox/357.

Dear Enron Alum:

The Ford Career Center at the McCombs School of Business is very concerned about the welfare of our alumni who have been working with Enron. We wanted to make all of our Enron alumni aware of the services we are able to offer to assist them if they need or choose to do a job search at this time. Most of these services are available remotely through our web site at <http://cso.bus.utexas.edu/>.

* Free access to UT job postings at <https://accessut.utexas.edu/students>. This system requires a UTEID to log in. If you do not have one or cannot remember yours, there is a link on the login screen to request one. There are generally more than 1,000 jobs on this system at any time for a variety of skills sets and experience levels. We encourage you to take

advantage of this.

* Free access to the Vault Career Library. (Link listed in "also see" box on our web page at <http://cso.bus.utexas.edu/mba/> .) With your UTEID you have access to thousands of company profiles and industry guides.

* Free access to the materials in our on-site Career Library. We have hundreds of books, periodicals and on-line subscriptions to assist you with your job search. The Career Library is open 8-5, Monday-Friday.

* Access to our recruiting database and participation in our alumni resume book for only \$75. (Details and registration at <http://cso.bus.utexas.edu/alum/> .) Because we are still student fee supported, we are required to charge non-students for access to our student-funded recruiting databases. We've worked to keep the fees as low as possible in order to better assist you. We also actively market our on-line alumni resume book available through our recruiting database system and have given access to nearly 100 companies in the past few months. Participation is included in the \$75 recruiter database access fee.

We are also in negotiations with Lee Hecht Harrison to provide more career service options to our alumni and hope to be able to announce these services soon. Until then, we encourage you to take advantage of what we are able to offer our alumni as they recareer in this challenging economic environment. For information and additional services, please see our web page at <http://cso.bus.utexas.edu> .

I'm sure she knows you're CC'd her on the email...she wants you to witness the flirtation. She told me about the exchange last night and was wondering how he got your email address. I told her I sent it to him. She said, "I didn't think you knew his last name?" To which I responded, "I didn't , but I called you and got it remember...I thought I told you I was emailing him to give him Emily's email address. I'd promised him at Kenneally's that I'd send it when I got the chance."

Lisa was none to pleased with me...she wants you to have nothing to do with him, but I told her she has to share the wealth and quite being such a boy hog. I promised her we'd find her a new boy toy closer to home. Speaking of which, she and Mitch had the "let's just be friends talk" last week (which I think was the right move).

Glad you got some good sleep last night, but we need to chat when you get the chance (and not while I'm at work), so give me a call on the cell phone sometime. Nothing bad, just a good little story.

(213) 764-0150

Kevie now lives in South Central (aka Da 'Tto aka the Ghetto), so don't break your necks coming visit his new place. He's always up for hanging out away from his new location, though.

Actually, the new place is not too bad. I have a roommate who I have not yet met, but the apartment is adequate. The bars on the windows are a lovely touch. For those CU alums in the LA area, I'm planning on hitting Grunyun's in Manhattan Beach on Sunday night to watch the Buffs game, so hopefully you other kids can make it, as well. Talk at ya'll later.

Hey Everyone,

This is a reminder about the Mucky Duck show starring Jimmy LaFave on Nov 3rd, immediatly after Jennifer's shower.

I know that I have contacted some of you and for others this might be the first time you have heard about this.

You should have received your invitation to the shower by now. Please email me if you have not. The shower will end around 9 pm. We are going to the Mucky Duck afterwards to surprise Jennifer.

If you are interested in going, I need to buy the tickets by this Friday. I can't wait any longer, I'm afraid the show is going to sell out.

Please send a check for \$15, to:

Sarah Hughes 1652 Castle Court Houston, TX 77006 713-522-5881

Please call if you have any questions. Looking forward to seeing you all!!

Subject: Gallup Conference Calls for 2000

Starting on January 6, 2000 there will be a Gallup status conference call/meeting every Thursday through May. The Conference Bridge number is 713-853-3802 and the access code is 9473 (same as before). When using the 1-800-97ENRON, simply press 1 for the building code then the ext 33802. Wait for the beep and enter the access code (9473). For those in Houston, Conference Room EB40C2 will be available. They're a limited number of ports so please try to group together as much as possible. This is becoming a critical period for Gallup and we must share information as soon as it's known. Please don't wait for the "THURSDAY" meeting if any information is critical to the success of Gallup.

If I have left anyone off the list who should know this information, please pass this along and copy me so I'll know the next time.

Thank You

Shrinkage Allowance Reduction

Sender	dft1@pge.com
Recipients	['ahuertas@enron.co.uk', 'agoldberg@lgl.twc.com', 'abb@eslawfirm.com']
File	scott-s/gir/190.

To: Oil Agreement Settling Parties

Attached for your review and comment is a draft advice filing in which PG&E proposes to reduce the in-kind shrinkage allowances for on-system transmission and distribution service to the level proposed in PG&E's 2000 Biennial Cost

Allocation Proceeding (BCAP). PG&E's current adopted shrinkage allowances require customers to deliver more in-kind shrinkage gas than is actually needed on PG&E's pipeline system. Reducing shrinkage allowances to the proposed levels in PG&E's 2000 BCAP will more accurately reflect currently projected customer usage. PG&E is requesting your review and support of this adjustment to shrinkage allowances. October 1, 2000, is the target implementation date.

PG&E is continuing to study ways to better manage shrinkage on its system. For this purpose, PG&E is examining the mechanisms used by other pipelines. If the Company determines that further proposals should be implemented, such as a true-up mechanism to adjust for the over- and under-collection of shrinkage that has occurred since the beginning of the Gas Accord, or which may occur in the future, it may file for such proposals through a separate mechanism. As with this filing, PG&E will seek your input prior to making any official advice filing.

Please provide any comments on the attached no later than Friday, July 7, 2000, to Ms. Cynthia Crane by e-mail at CMC5@PGE.com or in writing to PG&E, Mail Code N15A, P.O. Box 770000, San Francisco, CA 94177. If comments are favorable, PG&E will file this advice filing the third week of July with a proposed implementation date of October 1, 2000. Please contact Ms. Cynthia Crane at (415) 973-5809 if you have any questions.

Sincerely,

Dan Thomas Manager, California Gas Transmission

Dear Judge Biren:

The Core Aggregators sponsoring the prepared testimony of Richard H. Counihan (California Utility Buyers JPA; Enron Corp.; Regional Energy Management Coalition; School Project for Utility Rate Reduction; Shell Energy Services, LLC; TXU Energy Services, Inc.; United Energy Management, Inc.; and Utility.com) provide the following information in advance of the May 25 prehearing conference:

1. Exhibits: The prepared direct testimony of Mr. Counihan is identified as Exhibit 7; Mr. Counihan's prepared rebuttal testimony is identified as Exhibit 13. Both of these identified exhibits will be offered into evidence at the hearing.
2. Direct Examination: The Core Aggregators estimate only a few minutes of direct examination of Mr. Counihan.
3. Cross-Examination: The Core Aggregators estimate the following cross-examination:

Michel Florio (TURN) -- 3/4 hour Cathy Yap (SDG&E) -- 1/2 hour James Weil (Aglet) -- 1/4 hour Larry Black (Southwest Gas) -- 1/4 hour

These estimates of cross-examination are subject to revision in the event that the referenced witnesses, or other witnesses, testify with respect to matters that are outside the scope of their prepared testimony.

Counsel for the Core Aggregators will be present at the May 25 prehearing conference to respond to any questions.

Thank you.

Dear Judge Biren:

Pursuant to your instructions regarding procedures for serving testimony and preparing exhibits, I submit the following information on behalf of Long Beach.

a. List of exhibits

Long Beach intends to offer two exhibits: Ex. 200, the prepared direct testimony of Elizabeth Wright, and Ex. 201, the prepared rebuttal testimony of Elizabeth Wright.

b. estimate of direct and cross-examination time

Long Beach estimates only a few minutes of direct examination.

Regarding cross-examination, Long Beach's estimates are necessarily preliminary and incomplete (apparently I did not receive all of the direct testimony) in light of the recent filing of rebuttal testimony. Current estimates are as follows:

Ladd Lorenz, SoCalGas - 4 hr. Eric Nelson, SoCalGas - 2 hr. R. Thomas Beach, various parties - 2 hr. Paul Amirault, Wild Goose - 1/2 hour Jeffrey Dasovich, Enron - 1/2 hour John Burkholder, Western Hub Properties - 1 1/2 hour Florio/Weil/Yap,

Turn, et al - 2 hours

There may be additional witnesses, depending on information at the prehearing conference.

I'm so sorry I've hurt you Boone...never my intention. I had no idea you were so fragile, you hide it well. Life at Enron is good but things have been pretty busy the last couple weeks. I went to New Braunfels last Friday to visit one of Lisa and my friends (actually it's the girl we visited in London) and then had a wedding to go to Saturday night.

No big plans for the 4th as of yet. I'm still trying to figure out where I'm going to be...could be Houston, Austin or Georgetown. I know, I know...I'm such a jet-setter. How about yourself? Planning another famous Boone BBQ. Cooking

Hope you're having a nice day.

"ATTENTION ANALYSTS SEARCHING FOR 2nd or 3rd ROTATIONS" Joe Richards, the Executive VP at EOTT Energy Corp., is looking for an analyst that will be rotating within the November/December, 2000 timeframe. EOTT is located at 2000 W. Sam Houston Parkway South; therefore, if there is anyone living out near the beltway and I-10 (West Sam Houston Tollway at Briar Forest) and meet the requirements, this would be a great rotation for you. The information about the rotation is as follows:

Description of the Group: EOTT Energy is engaged in the purchasing, gathering, transporting, trading, storing and reselling of crude oil and natural gas liquids (NGL's) and related activities. EOTT Energy has been serving the oil industry's needs since 1946 Is one of the largest lease crude purchasers in North America and a major marketer of crude oil and NGL's in the US and Canada. Is an indirect, wholly-owned subsidiary of Enron Corp with approximately 770 employees Operates in most major producing areas of the US, serving customers in 18 states; maintains district offices in over 25 different communities.

Description of Function: Will conduct analysis to support the development of business opportunities related to assets that enhance cash flow. This includes: Acquisition of strategic assets and optimization of existing assets; Working closely with the Director of Business Development in co-ordinating the input of business units to identify under-utilized assets and implement plans for alternative disposition; Assisting in formalizing and standardizing post audit procedures; Analyzing and developing financial and tracking models for capital projects; Screening proposals for completeness, consistency and accuracy and providing required research data as applicable.

Anyone interested in this rotation should contact Lynette LeBlanc at 713-993-5014 or Steven Jungman at 713-993-5096 or fax or e-mail your more recent resume to them at 713-993-5898 expressing your desire for this rotation.

I may also be contacted at 713-853-6499 if you have questions.

Thank you.

PG&E To Host First Gas OFO Forum August 29th

PARTIES In The Gas Strategy Oil, I.99-07-003

PG&E is holding the first Gas OFO Forum on Thursday, August 29, 2000. The Forum was established by PG&E's OFO Settlement that was approved by the CPUC in Decision 00-02-050. Below is the list of issues from the Settlement that the Forum is to explore (Section B.3.a). This Settlement also initiated a quarterly OFO Report (Section C.f). PG&E completed the first OFO Report on July 31, 2000, and would like to review this report with the Forum.

In addition, the Comprehensive Gas Oil Settlement approved by the CPUC in Decision 00-05-049 made the issue of adding more storage to balancing a first priority for the Forum (Section 2.1.3.7) and required PG&E to provide a balancing study (Section 5.1.3). The "Report on Adding Storage to PG&E's Bundled Pipeline Balancing Service" was sent to parties on March 7, 2000.

The OFO Forum will be held in San Francisco at PG&E's Pacific Energy Center, 851 Howard Street (between 4th and 5th Streets). The meeting will start at 9:30 a.m. and end around 4:00 p.m. We will provide refreshments and lunch. We will send our proposed detailed agenda to you next week.

Please RSVP to Belinda Bates at bdb9@pge.com or 415-973-6626, so we can get an accurate count of attendees. Please call or e-mail Geoff Bellenger at gjb2@PGE.com or (415) 973-8415, if you have questions, or need copies of either the March 7 Balancing Report or the July 31 OFO Report.

Ron Stoner Randy Litteneker (415) 973-3606 (415) 973-2179

B.3. The Gas OFO Forum will further explore the following issues: a. The effectiveness of customer-specific OFOs and possible improvements to the procedure outlined in this Settlement, including the need and methodology for changes to the Performance Factor set forth in Section C.3.b.(7). b. Whether and how parties who significantly contribute to system-wide OFOs on a repeated basis, e.g. to three (3) or more per month, should be specifically identified. A "significant contributor" is defined as any balancing entity with total imbalances greater than 5,000 Dth and 10 percent of its usage in the three days leading up to each system-wide or customer-specific OFO. For Core Procurement Groups, supply will be compared to their Determined Usage, which is the Cumulative Imbalance (except for OFO days when the 24-hour forecast will be used). c. Whether the exemption for OFO noncompliance charges set forth in Section D.3.b should be increased. d. The need for the allocation of additional storage to balancing (see Section C.6). e. Changing the Cash-out procedures. f. Other issues which relate to PG&E pipeline balancing and OFOs.

Sorry to hear there was an emergency at home; I hope all is well by now.

Subject: RE: Exhibit

At the ALJ's direction, this subject was discussed among the parties who were present in the hearing room yesterday at the lunch break and again after the conclusion of hearings for the day. The parties present reached agreement on a process for this exhibit.

I had to leave for home immediately after the discussions in the hearing room at the end of yesterday due to a family emergency.

I am informed the results of these discussions were put on the record today. I understand that SoCalGas will provide to all parties by June 16 a draft of the exhibit. Parties can then comment to SoCalGas and we will attempt to get a consensus by June 21. SoCalGas will file by June 21 either a version that has consensus, or failing consensus, its own version of what it thinks the exhibit should show. Parties who do not agree with what SoCalGas files on June 21 can file on June 23 either their own version or comments on SoCalGas' version.

I cannot absolutely guarantee the accuracy of the above details since I was not present today and there is no transcript yet for today.

If this arrangement is not acceptable to Transwestern, you should object to the ALJ immediately. Hearings are scheduled to conclude after the lunch break today.

Also, I am informed that SCGC has distributed in the hearing room and will attempt to introduce today a written exhibit that includes an extensive discussion of its views on the subject of "mismatches" of delivery and take-away capacity at the California border.

Glen, at page 1020 of the transcript of yesterday's proceedings, the judge asked you and Norm Pedersen to work with various other parties to develop an exhibit reflecting capacity at the California border. The judge mentioned she wanted to discuss the exhibit this morning, so I am surprised that you did not attempt to contact me to get Transwestern's input or at least to let us review the exhibit. I would like to review the exhibit as soon as possible. I am out of town but you can either e-mail it to me or fax it to 941-466-2198 (before 3 pm PDT). Can't say I have too much scoop on Reliant. Although, I do know a couple of people who work and have worked there and I'd be happy to put you into contact with them if you'd like.

I'd love to get together while you're in town. Tomorrow night's probably best for me so either give me a call at work or on my cell phone when you get a chance.

Hello Susan,

I hope that you are doing well and looking forward to the weekend! I am actually going to be in town, so perhaps we can all get together one night. What is your schedule? It's been too long. Black Swan....???

I have an interview tomorrow with Reliant Resources and wanted to know if you knew anything about them...being in the trading industry yourself. The inside scoop would be great!

I'm flying out tonight, but can always be reached on my cell at (713) 385-3358.

Take care, Mary Rebecca

Just wanted to drop a quick note to tell everyone hello and to let you know my new contact information. Clay and I are living in my parent's backhouse (room w/ bathroom and kitchenette over the garage) while we work in Dallas for the summer. Our number there is 214-691-3638 and Clay's cell is 214-649-6914. My work email is jessica.pulliam@bakerbotts.com and my work number is 214-953-6532.

Hope you all are doing well--I have had a great first few days of work. But things have been busy as usual--throwing a 50th Birthday party for my mom on Thursday--"Come as Jeanie" (the theme is a surprise)--should be pretty funny!! On a heavier note, my grandmother Mimi (mom's mom) had a stroke on Monday which left her totally paralyzed on one side and unable to eat. She decided not to go into the hospital (she hadn't been doing too well) so we should lose her in the next couple of weeks--I would appreciate very much your prayers for my family on that front. I am comforted in that Mimi is still coherent enough to understand what is going on and in that my mom seems to be at peace with the whole thing.

Anyway, Clay and I are great--we are looking forward to a wild summer and I hope this note has found you guys doing well.

Much love to you all, bate

Gas Oil Settlement Parties:

We are holding a workshop on tariffs to implement our Comprehensive Gas Oil Settlement on Tuesday morning, June 13 in San Francisco. We will be meeting in Conference Room 307, 77 Beale Street, which is PG&E's headquarters, starting at 9:00 a.m. We expect the workshop to conclude around 12:30 p.m. A continental breakfast will be available around 8:30 a.m.

We will be reviewing the draft tariff package and responses to issues which was sent by e-mail on May 25. If you need a copy, please let me know. WE WOULD LIKE YOUR COMMENTS AND QUESTIONS ON THIS PACKAGE BY FRIDAY, JUNE 9, SO WE CAN BE PREPARED TO RESPOND ON TUESDAY.

Our tariffs must be filed by July 17. Therefore, we want to make sure we have all the issues and concerns of the parties identified, if not resolved, at the end of this workshop.

PLEASE RSVP TO BELINDA BATES AT (415) 973-6626 BY THURSDAY, JUNE 8 SO WE CAN GET AN ACCURATE COUNT OF ATTENDEES. We will also have conference call capability for a limited number of participants, although this is not the preferred means of participation. When you RSVP, please let us know if you want to call in, and we will then get back to you with the necessary information for your call.

Thanks for your participation.

Gas Oil/OFO Settlement Parties:

Attached please find PG&E's OFO Report for The Second Quarter 2000. This is provided to you in accordance with the Operational Flow Order ("OFO") Settlement Agreement between PG&E and many other parties, filed in the CPUC's Gas Strategy Oil 99-07-003, and approved by the CPUC by Decision 00-02-050. Section C.1.f. of that Agreement requires PG&E to prepare a Quarterly OFO Report concerning the number and causes of OFO events within the prior three months.

We attempted to send this report earlier today, in two different versions of WORD and Excel, to help make this document readable to all. However, the resulting message was too large to reach many of you. This e-mail only contains one copy of each document. If you have any difficulty opening these documents, please contact Geoff Bellenger at GJB2@PGE.com.

We are in the process of setting a date for the first OFO Forum and will notify you shortly of those arrangements.

If you have any questions on this report, please call Rich Hall at (415) 972-5115.

Carbo Loading Dinner Unfortunately, there was not a significant response to a dinner this year, so the ERC we will not be hosting a formal carbo loading.

Marathon Day Many of us will be meeting marathon morning at the 'E' in the George R. Brown. I, along with a few others, will see off the marathoners and then make our way down the course to cheer on the runners at Miles 7/8, 23 and the Finish. If you, your friends or family would like to join us, please e-mail me or leave me a voice mail at (713) 853-4770.

Massages Attention Marathoners & 1/2 Marathoners! Good luck to you all on Sunday! Enjoy every step of the way (that's a LOT of enjoyment coming your way)! And when all of those steps are behind you, you'll need a massage for your legs of steel. So, here is the deal I have for you! A 45-minute massage for \$30! Just contact me at 713-432-6628 or moraap@chevrontexaco.com. I will do my very best to accommodate your schedule requests. Remember, distance running doesn't build character, IT REVEALS IT!

Happy Hoofing! Ann Mora, 713-432-6628

Team Roster I will be submitting a team roster, so if you're running, please provide me your name and age. Thanks!

I wish the best of luck to all our runners who have dedicated so much of their time and energy training to meet their marathon goals. I hope everyone runs a strong, injury-free, successful race on Sunday! We gain strength, and courage, and confidence by each experience . . . we must do that which we think we cannot. It was indeed an area bequeathed with natural beauty and with minimal pollution. When the pictures come out I will be sure to let you see them. I arrived back at 2am last night - I actually feel good now, which is rather odd given the general level of exertion the past few days. Yet it had been too long since I sat in front of a fire away from civilization as we know it and passed around a bottle of whiskey. Very therapeutic for the soul. Now it is time for some more Enron therapy once again, for an indefinite period of time... Perhaps you would be interested in going out with Tobin and myself on Thursday to the front porch? That is another form of therapy that I quite enjoy...

Enjoy your day,

Ben

Sorry I didn't return your call last week. I actually didn't check my voice mail until Friday after work and thus saw little point in calling back as you were probably in some remote area of pristine, scenic beauty by that time. Hope the camping trip was a rousing success and allowed you to reconnect with your old friends and old self. I am in desperate need of natural beauty and negligible pollution but have alas been trapped in Houston the past couple of weekends. I see a road trip in the not too distant future for myself, if only to get a way for a while.

Hi Sarah,

So nice to here from you....

I'm actually still employed right now, but don't have a heck of a lot to do around here. We're all in somewhat of a holding pattern, waiting to see what happens with the bankruptcy etc. Hope all is well with you! I haven't made any real decisions regarding my living situation. My roommate and I have movers coming the weekend before Christmas and as of right now I had just planned on moving back in with the folks...on a temporary basis of course! Anyway, I'm just not really sure where I'll be 2 or 3 months from now, so I'm obviously reluctant to sign any long term leases etc. If a temporary roommate is something you guys would be interested in I'd certainly like to discuss the prospect w/ you...but I would also completely understand if you'd prefer to get somebody in there who's more permanent.

My number at work is 713-853-1455 and home is 713-622-2788....

Talk to you soon, Susan

Confidential Settlement Document Under CPUC Rule 51

PARTIES:

This is a reminder that PG&E will host a Gas Accord II Settlement Workshop next week, on Tuesday and Wednesday, November 7th and 8th. Please note, the workshops will start promptly at 9:00 a.m. each day, and end around 4:00 p.m. Among other things, these slightly longer sessions allow time for feedback from the parties. With this earlier start, we will provide a continental breakfast as well as lunch on both days. The Workshop will be held at PG&E's headquarters, 77 Beale Street, San Francisco. We will be in Conference Room 308 on Tuesday, and Conference Room 300 on

Wednesday.

Please RSVP to Darcy Morrison, at e-mail D2Mr@pge.com, or by telephone at (415) 973-6644, so that we can get a head-count for the meals.

Attached below is our proposed agenda for the November 7-8 Workshop. The topics include: demand-supply forecast, supply reliability, capital cost forecast, and backbone direct connection and local transmission rate design options. Although these subjects have been discussed at prior workshops, our objective is to present additional detail and analysis so we can all wrestle with some key issues and begin to formulate possible solutions.

Also, as we discussed at the last Workshop, we have set aside two hours at the end of each day for observations and feedback from the parties. Along with the issues list, this will help PG&E to put together a proposal that seeks to balance the many competing interests.

This is our last scheduled Workshop before we send out our first version of a settlement proposal. Our target date for this proposal remains December 8.

We look forward to seeing you next week. Please call or E-mail us if you have any questions or suggestions.

Hey Paul,

I'm so glad you emailed. My parents were just asking me what you were up to this past Sunday...now I'll have something to report to them. It's good to hear that things are going so well for you and I must say I'm a tad envious you're getting to do so many things you've always wanted to this summer (I'm still trying to figure out exactly what those things are).

We will most certainly have to get together next week while you're in town. I may be going to Austin for part of the long weekend, but I doubt I'll go before Saturday so Thursday and Friday are definite possibilities. Happy to hear about your brother and Josh's impending marriages and can't wait to find out what school will next be graced with the presence of Paul Thomas.

Well, Larry just won't let go of these contract issues, will he?? I believe the answer is that SWGas will always be billed based on the one-part rate, regardless of how we choose to allocate the rate components. My understanding is that the reason we reserve the right to allocate the components is simply for internal accounting purposes, to keep any one component from exceeding the max or going below the min. Hope this helps; let me know if you have further questions!

Lorraine, Confirmation that I did receive your executed TSA and Letter Agreement. I'm so glad you are excited. We have so little in our lives to give us true excitement. At my age, I try to reserve all events of elevated blood pressure for only the esoteric things. (Just kidding.) I'm very pleased we finally got this done. Now for the pipe wrench and welder folks to get the physical jobs done, as well.

Unfortunately, the work is never over. I will now try to concentrate on the OBA, which has been sitting by the sideline for a long time. Will get back to you on that as soon as I can.

As for the TSA rate, I have a few questions. We have agreed that TWPL would allocate the rate between fixed and variable components. I have never been clear on just when and how that will be done. I have assumed you would make that call, let us know, and it would be over. Is there any idea that issue would be a changing thing, or is it "once done, always done"? Further, what factors do you use to make that determination and what, if any, rules and regulations apply? From different views, I'd like to have it all variable and you would like to have it all fixed. What is the process here?

I will get back to you soon on the OBA stuff. Meanwhile, chill that champagne! Larry

Jay and Dan:

This is the first draft of a filing Transwestern is considering filing with FERC on Monday, October 16, 2000. Susan Scott will be finalizing this document on Friday, October 13, 2000. I will be out of town and unavailable to review it so she asked if you would look it over here (and as revised on Friday) to be sure they do not say anything in the filing that is not true or mischaracterized. If you have any other suggestions, Susan's phone number is below. Again, they are still considering whether or not they will make this filing.

Susan:

I understand that Jay Golub, too, is traveling this week but is able to view and respond to his email. His email address is jgolub@bakerbotts.com <mailto:jgolub@bakerbotts.com> . I am also forwarding this to Dan McFearin, Manager of Transportation Services. Dan's email address is dmcfear@pnm.com <mailto:dmcfear@pnm.com> and Dan's phone number is (505) 241-2496. If you do not hear from Jay, you can check with Dan.

I have made changes to the document. I think the document refers to "peak" period when it means to refer to "non-peak" period in the first paragraph of the Argument and vice versa in the second paragraph. You may have caught these by now. I will be in on Monday after all so if you need to talk to me, you can call me on Monday.

-----Original Message-----

From: Hetrick, Nancy Sent: Tuesday, August 07, 2001 12:03 PM To: Scott, Susan M. Cc: Twiggs, Thane; Ryall, Jean; Kingerski, Harry Subject: Texas - Retail Market

Per our conversation, I have put the following information together for you to distribute to individuals in EPMI. This details out various aspects of the Texas retail market. I have included in Item 3 below a copy of a Texas market analysis I prepared for EES which provides detailed implementation requirements. The following are high-level items that I see need to be completed for EPMI to enter the Texas Retail market by January 1, 2002. 1) Complete ERCOT LSE application 2) Review market requirements 3) Compare market requirements (enrollments, billing, payments, etc.) with current system capabilities for gaps 4) Develop EDI maps based on Version 1.4 5) Register for and complete Flight 1001 Testing 6) Execute applicable TDSP agreements (copies attached) Delivery Service Agreement Electronic Funds Transfer (EFT) Authorization Electronic Data Exchange Trading Partner Agreement

Please feel free to contact me at 712-366-3399 or page me at 888-912-1426, if you have any questions or if I can be of assistance in getting EPMI in the Texas Retail Market.

1) Need to complete the ERCOT LSE application, copy attached. ERCOT Contact for assistance: Karen Berman 512-248-3171

2) Need to review background information from ERCOT Protocol Sections #15 (Customer Registration) and #19 (Texas Standard Electronic Transactions), copies attached.

3) I have attached a copy of a Texas Market Analysis that I prepared for EES. The general rules are identical for each TDSP service territory. This provides details of the implementation requirements.

4) EDI Implementation Guides (Version 1.4) to support the Texas Market Opening January 1, 2002, have just been released. This Version will be the basis for Flight 1001 testing. Additional information including scenario maps, change control process, etc., can be found at <http://www.ercot.com/Tac/RetailISOAdHocCommittee/Customer/SET/keydocs/Keydocs.htm>.

5) There is a detailed EDI testing plan in place for Texas. This testing process is administered by the Independent Third Party Testing Administrator (ITPTA). The website where all of this information can be reviewed is <http://itpta.intellimark-it.com/>. Attached is the Testing Signoff Worksheet that must be completed prior to beginning the testing process. Tentative key testing dates for Flight 1001 (the last testing flight for January 1, 2002 market opening) are: August 30th Mandatory Market Orientation for Trading Partners September 11th All paperwork must be submitted for testing September 13th Flight 1001 Connectivity Testing will begin September 27th Flight 1001 Kickoff December 5th Completion of Flight 1001 Testing

6) A uniform set of TDSP T&Cs were filed and adopted by the PUCT, copy attached.

7) Execute applicable TDSP agreements. I have attached, as an example, agreements required by Reliant:

Hi Julie,

Thanks for resending the message. I shouldn't have too much difficulty arranging travel, but I wanted to run a few things by you first. It seems to me that it would be preferable to fly in Thursday evening, therefore freeing myself up to come in Friday at whatever time of day best suits yourself and the rest of the group. If no one minds, it might even be nice to see some of the activity on the desk during cash trading. Also, I anticipate staying through the weekend to see a bit more of the city and surrounding areas, but plan to cover those expenses myself. If all of this is acceptable to you just let me know and I will begin making all of the necessary reservations. I look forward to seeing you and meeting the rest of the group.

Got your message last night and since both nights work for Lisa and myself we figured we'd leave the decision up to the more finicky Alan.

So Alan, it's all up to you...will it be Thursday or Friday? If you're looking for a preference from Lisa or myself I think we would both be leaning more towards Thursday. So just shoot us all back an email and let us know when.

Can't wait to catch up with you Paul.

Hey Paul, I'm so glad you emailed. My parents were just asking me what you were up to this past Sunday...now I'll have something to report to them. It's good to hear that things are going so well for you and I must say I'm a tad envious you're getting to do so many things you've always wanted to this summer (I'm still trying to figure out exactly what those things are). We will most certainly have to get together next week while you're in town. I may be going to Austin for part of the long weekend, but I doubt I'll go before Saturday so Thursday and Friday are definite possibilities. Happy to hear about your brother and Josh's impending marriages and can't wait to find out what school will next be graced with the presence of Paul Thomas. I hope things are going great. I am going to be in town next Thursday, Friday, Saturday and Sunday and I was wondering if yall had time to hang-out? I haven't seen any of you in a while and I would love to hear how you are doing. If you were curious, life is good for me. This summer is going to be one of the busiest(and coolest) I have have ever had. I am doing alot of stuff I have always wanted to do(missions trip to Costa Rica, helping start a small business, best man in my brother wedding, usher in Josh Williams wedding, etc, etc)! Next fall I will be going to get my MBA - I am supposed to decide where I will be going by the end of the week..... Anyway, if any of yall have time let me know. I would love to see you. I'm sure it is...I'll just keep forwarding the emails to you as I get them. However, I will warn you that I'm on vacation from the 14th-26th of August. I'm going to visit my brother and his wife in S. Korea so it should be interesting. Anyway, you may want to give a heads up to people to make sure they're sending the information to the right person.

Thanks Susan. I'm in the middle of my official Enron name change, so you might get a few e-mails for me in the next few weeks. Never change your name at this company; it is the biggest nightmare!

Per our conversation, I have put the following information together for you to distribute to individuals in EPML. This details out various aspects of the Texas retail market. I have included in Item 3 below a copy of a Texas market analysis I prepared for EES which provides detailed implementation requirements. The following are high-level items that I see need to be completed for EPML to enter the Texas Retail market by January 1, 2002. 1) Complete ERCOT LSE application 2) Review market requirements 3) Compare market requirements (enrollments, billing, payments, etc.) with current system capabilities for gaps 4) Develop EDI maps based on Version 1.4 5) Register for and complete Flight 1001 Testing 6) Execute applicable TDSP agreements (copies attached) Delivery Service Agreement Electronic Funds Transfer (EFT) Authorization Electronic Data Exchange Trading Partner Agreement

Please feel free to contact me at 712-366-3399 or page me at 888-912-1426, if you have any questions or if I can be of assistance in getting EPML in the Texas Retail Market.

1) Need to complete the ERCOT LSE application, copy attached. ERCOT Contact for assistance: Karen Berman 512-248-3171 << File: LSE_Registration_Form.zip >> 2) Need to review background information from ERCOT Protocol Sections #15 (Customer Registration) and #19 (Texas Standard Electronic Transactions), copies attached. << File: ERCOT Protocol #15-070101.DOC >> << File: ERCOT Protocol #19-010501.doc >> 3) I have attached a copy of a Texas Market Analysis that I prepared for EES. The general rules are identical for each TDSP service territory. This provides details of the implementation requirements. << File: AEP - Texas Executive Market Summary.doc >> 4) EDI Implementation Guides (Version 1.4) to support the Texas Market Opening January 1, 2002, have just been released. This Version will be the basis for Flight 1001 testing. Additional information including scenario maps, change control process, etc., can be found at <http://www.ercot.com/Tac/RetailISOAdHocCommittee/Customer/SET/keydocs/Keydocs.htm>.

<< File: Version1.4.zip >> 5) There is a detailed EDI testing plan in place for Texas. This testing process is administered by the Independent Third Party Testing Administrator (ITPTA). The website where all of this information can be reviewed is <http://itpta.intellimark-it.com/>. Attached is the Testing Signoff Worksheet that must be completed prior to beginning the testing process. Tentative key testing dates for Flight 1001 (the last testing flight for January 1, 2002 market opening) are: August 30th Mandatory Market Orientation for Trading Partners September 11th All paperwork must be submitted for testing September 13th Flight 1001 Connectivity Testing will begin September 27th Flight 1001 Kickoff December 5th Completion of Flight 1001 Testing << File: TxTSW.doc >> 6) A uniform set of TDSP T&Cs were filed and adopted by the PUCT, copy attached. << File: TDSPs T&Cs.pdf >> 7) Execute applicable TDSP agreements. I have attached, as an example, agreements required by Reliant: << File: Reliant DSA.pdf >> << File: Reliant EDI Agreement.pdf >> << File: Reliant EFT Agreement.pdf >>
