WSCC ESWG -

Here's what we have been waiting for. Its the sector voting registration site. You'll need a browser with 128 bit encryption to get in (guess I'll have to go home to do that).

So go tell everyone you know who qualifies for one of the these sectors to register.

John Canavan from Montana Power has put forth his name to be considered for the ESC Vice Chair officer position.

Remember, in order to vote for the officers at the Denver/April ESC meeting you need to be there and be registered.

Flip Chart notes from the SO Training workshop - Phoenix

Sender	john.theotonio@nerc.net
Recipients	['e-mail <.allen@enron.com', 'e-mail <.arthur@enron.com']
File	semperger-c/scheduling/4.

First I hope that I have everyone's correct E-mail. I guess time will tell on that.

Second I want to thank all of you for participating in the SO Training Workshop in Phoenix. Your input to date will help NERC define its role in training, and we hope improve on the training that is currently available to system operators, schedulers, marketers, and planners.

As promised attached are the flip chart notes from the workshop for you to look at and hopeful you will add more comments. I know that some attendees refrained from speaking out so here is your chance. Also I have included the

complied results of the questionnaire that you filled out in class. I included this so you can see what others felt of the workshop and of the effort that NERC is undertaking in regards to the future of training. Maybe these notes will stimulate further thoughts and ideas. These are unedited versions.

I intentionally did not want to present some formal recommendation or program at this workshop because NERC (not just me) felt that it was important to get your opinions before drafting any program. This workshop will become the basis of what NERC will be doing in the future. Training is important, that was obvious from some of our discussions. Through your input I can start to draft an outline of what NERC's role will be, what training is needed, and who needs the training. I can see now that there are varying levels of training that will be required. Some wish simple overviews, others want details and structure.

What is the next step? Each of you should review these documents and make comments, add other ideas that maybe you did not think of at the workshop. Talk about this with your fellow coworkers, seek their opinions and then send those comments back to me. I will then add any additional comments I receive to the flip chart document and try to define some of those thoughts and return them to each of you. After that I will start to draft a plan and/or program that will be posted for public comments. After public comments are received and reviewed, a second draft will be written and posted. This final draft may require approval (From the OC or BOT) before NERC rolls out any program.

Timeline:

First draft of SO workshop notes sent 10/10/01

Comments on notes due to NERC by 10/31/01 ? This is your deadline to return any comments to me.

Second draft of SO workshop notes sent 11/16/01

First draft of NERC Training Program/Role 11/23/01

White paper on role and training program posted 12/07/01

Public Comments due (45 days from posting) 01/21/02

Final draft of action plan for NERC 02/08/02

OC or BOT Approval of action plan (open) (Unknown - depends on who will approve and when their meeting is held)

Again thanks for your help and participation. Remember with your help we can improve the quality and timeliness of training for everyone.

Things are much better now, we only have minor issues with control areas, and none so specific as to be addressed in a formal way.

Thanks,

Cara Semperger West Power Scheduling Supervisor Enron North America 503/464-3814

-----Original Message-----

From: Perrino, Dave Sent: Tuesday, November 20, 2001 10:06 AM To: Comnes, Alan Cc: Semperger, Cara; Scholtes, Diana; Mallory, Chris; Fischer, Mark Subject: FW: Enron Compliance Review Recommendation Log item Importance: High
Alan,

The forwarded message below contains an issue cited by Dick Ingersoll back in June of 1997 in which Control Areas were changing the properties of our submitted schedules/transactions (tags?) and not informing us. In a subsequent letter in September 2000 Dick had noted an improvement but with Enron still experiencing some minor problems.

My question(s) to you and the traders/schedulers are, are the problems noted above still occurring, is this still causing us problems and if so are there specific incidents that you can provide to me so I can pass them on to the WSCC?

Please accpet my wishes for a Happy Thanksgiving!

Kind Regards,

Dave

If you can't see this picture, please visit <http://www.PresidentialPrayerTeam.org>
<<http://216.157.79.171/christmas/chead.gif>> "Christmas is a time of wonder and joy, of generosity and peace, that brings family and friends together in celebration and song. We sing old hymns and familiar carols, we show love for others in the giving of gifts, and we observe the hallowed traditions that make the season special. This year in the midst of extraordinary times, our Nation has shown the world that though there is great evil, there is a greater good. Americans have given of themselves, sacrificing to help others and showing the spirit of love and sharing that is so much a part of the Christmas season.

According to the Gospel of Luke, two thousand years ago, the savior of mankind came into the world. Christians believe that Jesus' birth was the incarnation of God on earth, opening the door to new hope and eternal life. Picture of President and Laura Bush in front of Christmas tree at the whitehouse <<http://216.157.79.171/christmas/presidentbush.jpg>> At Christmastime, Christians celebrate God's love revealed to the world through Christ. And the message of Jesus is one that all Americans can embrace this holiday season -- to love one another.

This Christmas we remember those who are without their loved ones. They continue to be in our hearts and prayers. May they experience peace, and may they find hope. And as we again celebrate Christ's birth, may the glorious light of God's goodness and love shine forth from our land.

Laura joins me in wishing you a Merry Christmas and a Happy New Year. May God's blessings of peace be upon us and upon the world."

GEORGE W. BUSH

Our President understands and believes in the real meaning of Christmas. Feel free to forward his meaningful Christmas greeting to all of your friends and loved ones

From: Bishop, Serena Sent: Wednesday, February 06, 2002 3:59 PM To: Purcell, Mike; Semperger, Cara; Cutsforth, Diane; Robinson, Donald Subject: TAG 40700

Hey Guys - Well, I had to learn some Cod Scheduling fast this afternoon, (we really do need to exchange new cell phone numbers :-)). Anyway, tag #40700 was incorrect and BPA called about 3:45. I cancelled that tag and replaced it with tag #40716 I hope what I did was okay, let me know if I should have done it differently. On the NW sheet that tag number is highlighted in yellow in case there is a problem. I assume the something needs to be corrected in the preschedule workspace, but I don't know what it is, so I will leave it to Cara or Donald to explain it to me in the morning. Thanks again,

Serena

Erik, Dean, & Mike,

Do you folks feel you will be able to schedule the east power contracts with some assistance from Jason and Lisa on Monday and do you have the logins that you will require? If not, what do we need to get?

Tom.

-----Original Message-----

From: Choate, Jason Sent: Fri 2/1/2002 9:06 AM To: May, Tom Cc: Subject: RE: URGENT!!! UBS SCHEDULERS WILL NO LONGER HAVE ACCESS TO EPMI FILES ON MONDAY, FEB 4!!!!

I'm not sure. Corry came over and told me this was happening on Monday. It shouldn't be a problem for me and Lisa to come down and help whoever is going to be scheduling.

Tom,

Will the estate have the necessary login capability?

-----Original Message-----

From: May, Tom Sent: Friday, February 01, 2002 9:40 AM To: Will, Lloyd; Bentley, Corry; Crooks, William Cc: O'Neil, Murray P.; Racicot, Paul; Purcell, Mike; millergd@encorp.com; Serio, Erik; Semperger, Cara; May, Tom Subject: RE: URGENT!!! UBS SCHEDULERS WILL NO LONGER HAVE ACCESS TO EPMI FILES ON MONDAY, FEB 4!!!!

Lloyd / Corry,

Do you folks know what is driving the cutover for Monday morning rather than Wednesday evening as planned? We have been planning on being ready for Wednesday morning and Monday will cause some unnecessary grief.

Bill,

Can you work with Erik and Dean in Houston and Cara and Mike in Portland to ensure that they have the required logins to estate systems to schedule next week.

Thanks,

Tom.

-----Original Message-----

I will see what I can do about the cut-over. Until the email this morning, I had been told that we had until Thursday morning. The contingency plan in the east is to have Corry's folks come down and help the estate staff using estate logins. Is this possible for you folks as well.

Tom.

Please note Enpower will be shut down for maintenance during the coming Thanksgiving weekend. IT is planning on running the maintenance from 8:00pm to 4:00am each night from Thursday the 22nd to Sunday the 25th (ending 4:00am on Monday the 26th).

During the shutdown deal entry and scheduling that are essential to trading activities will be affected. During the shut-down hours you may contact Enpower IT at 713-553-3758 (tel) or 713-327-4523 (pager) for emergency.

I have communited with Kate and Cara on the issue. Please feel free to pass this information to anyone you feel would be impacted. Please let Risk know if you have any concerns or questions.

Thank you,

Fran x7973

All --

In anticipation of the UBSWE migration, Tom May has requested that Estate accounts be set up for you, so that you may continue to work on the Estate contracts, even after you've been migrated (actual migration date TBD at this point). Please take time this afternoon to log in with the IDs and password given below (it will force you to change your password after the first login). Once logged in, please test your applications, etc. to ensure that you'll be able to work in the Estate environment. We don't anticipate any issue, as these are replicas of your current Enron accounts. Please contact me immediately should you have an issue.

Finally -- please send a note to Tom May and me after you've tested, and we'll consider your email a "sign off" that you are able to work in the Estate environment.

Please note that these accounts will be disabled on Day 1 (also TBD) of UBSWE.

thank you in advance for your assistance

Cara:

BuildRoute report is ready for testing now. Please see version 3.2.3.10 in enpower stage environment. Two optional check boxes are created as requested: "exclude DART" and "include DART only". Let me know if it works to your expectation.

Fran

-----Original Message-----

From: Aldis, Laura Sent: Wednesday, November 28, 2001 7:53 AM To: Chang, Fran; Bentley, Corry Subject: FW: BuildRoute

Good morning! BuildRoute Version 3.2.3.10 is ready for testing. I will try to help if you have any questions, but you will be better off calling Nikolay (713-345-7265) with any questions about this. Please see Bill's email for all the details I know. Thanks so much for your help. Sorry I am not more so. Laura 713-345-4410

-----Original Message-----

From: Crooks, William Sent: Wednesday, November 28, 2001 7:17 AM To: Aldis, Laura; Karen Martin (E-mail); Peter Prelli (E-mail) Cc: Kraltchev, Nikolay Subject: BuildRoute

QA's:

BuildRoute has been modified to allow the exclusion of DART deals. Since they are waiting on it, it is difficult to test and Nik has done quite a bit of testing anyway, we promoted it to Stage. Please contact Fran Chang about testing. If it goes OK and she wants to, we can put it in as a production break fix.

Regards, Bill x53492

Enron West Desk Digital Certificates

Sender	mary.tollefson@oatiinc.com
Recipients	['cara.semperger@enron.com']
File	semperger-c/inbox/16.

<<Enron West Desk Only.xls>> You have recently signed up for OATI Digital Certificates. As you probably already know, by March 6, 2002, the OATI ETS (E-Tag) System will require secure access using an OATI Digital Certificate. However, because we have a large number of customers, we will be systematically setting up our customers that are already prepared to begin using their Digital Certificates with E-Tag version 1.67 starting in early January. Therefore, as you are one of our customers that is already prepared, we contacting you to set you up as soon as possible. To begin using Digital Certificates with E-Tag 1.67 (and 1.7 after March 6th), we must link each ETS User login to a Digital Certificate. The attached spreadsheet contains an up to date list of your users in our ETS (E-Tagging) System. Once you issue Digital Certificates to all of your company's users and install the Digital Certificates in their browsers, please complete the attached spreadsheet and submit it to support@oatiinc.com. Once we are ready to activate your company to use Digital Certificates, we will contact you via e-mail to make sure you are ready also. If you have any questions or would like more information, please feel free to contact me. Thank You, OATI Support. Mary Tollefson Support Technician Open Access Technology Int'l, Inc. From: solutions@oatiinc.com [mailto:solutions@oatiinc.com] Sent: Monday, July 23, 2001 12:59 PM To: Semperger, Cara Subject: OATI Etag 1.7 Training

OATI is proud to demonstrate our Etag 1.7 readiness to the industry by announcing training dates and locations for Etag 1.7 Orientation Workshops to be held around the US, and Etag 1.7 Hands-On Training sessions to be held at the OATI Data Center in Minneapolis.

Please visit our corporate Internet site by clicking the "OATI" logo in your ETS toolbar or by going to <http://www.oatiinc.com>, and enter the "Workshops" area to find more information or to register for one of our Etag 1.7 events.

At this time, Baltimore and Minneapolis one-day Etag 1.7 Orientations are available for registration. Please watch for the imminent addition of Portland OR, Phoenix AZ, Atlanta GA, Orlando FL and Houston TX as additional Etag 1.7 Orientation sites as those facilities finish confirming their availability to us.

Several Hands-On Sessions at the OATI Data Center are currently available for registration, and additional sessions will be posted as necessary to meet demand.

If you have any questions, please contact Frank Billington at 763-553-2725 or email solutions@oatiinc.com.

Understanding Enron FEUDALISM: You have two cows. Your lord takes some of the milk. FASCISM: You have two cows. The government takes both, hires you to take care of them and sells you the milk. PURE COMMUNISM: You have two cows. Your neighbours help take care of them and you all share the milk. APPLIED COMMUNISM: You have two cows. You must take care of them, but the government takes all the milk. TOTALITARIANISM: You have two cows. The government takes them both and denies they ever existed. Milk is banned. MEXICAN DEMOCRACY: You have two cows. The government takes both and drafts you into the army. EUROPEAN DEMOCRACY: You have two cows. The EU commission decides which regulations for feeding and milking apply. If there aren't any, they invent some. They pay you not to milk the cows. They take both cows, shoot one, milk the other and pour the milk down the drain. They then require you to fill out forms accounting for the missing cows. CAPITALISM: You have two cows. You sell one and buy a bull. Your herd multiplies and the economy grows. You sell them and retire on the income. ENRON VENTURE CAPITALISM: You have two cows. You sell three of them to your publicly listed company, using letters of credit opened by your brother-in-law at the bank, then execute a debt/equity swap with an associated general offer so you get all four cows back, with a tax exemption for five cows. The milk rights of the six cows are transferred via an intermediary to a Cayman Island company secretly owned by the majority shareholder who sells the rights to all seven cows back to your listed company. The annual report says the company owns eight cows, with an option on one more.

From: Comnes, Alan Sent: Wednesday, January 16, 2002 4:33 PM To: Theriot, Kim S. Cc: Rasmussen, Dale Subject: Term Power Sales to Sierra Pacific Power and Nevada power

Kim,

Are you the person who can tell me if Sierra Pacific Power and Nevada Power Co. are timely paying their bills with respect to term power being sold to them by EPMI/OldCo? I need to know for a complaint these parties filed at the FERC in which they are asking for relief from the terms of the deal.

I would be interested in knowing when power delivered in January '02 will become due and if they paid on that date.

Thanks,

Alan Comnes Portland, OR

RE: Build Route Report

Sender	cara.semperger@enron.com
Recipients	['fran.chang@enron.com', 'william.crooks@enron.com']
File	semperger-c/sent_items/251.

Please copy me on anything that you need to speak to the developers on. DART changes to the build route need to be done in the PreSchedule Workspace version of build route, as that is what we are using now, we have been phasing out the old build route.

Cara

From: Chang, Fran Sent: Tuesday, November 13, 2001 4:45 PM To: Semperger, Cara Subject: RE: Build Route Report

Noted about the changes need to go thru you. For now I only forwarded the request for adding a check box for option to exclude DART products. From what you wrote, seems like we need the report to be able to show DART deals only, so real time can see it. So basically we have two requests: one to enable us to exclude/include DART deals and one to enable us to run DART deals only (while excluding all other deals that are going to be scheduled day ahead?)

* when IT gets back to me on the addition of the check box I will let you know so you can play around to see if that's how you want it to work.

From: Semperger, Cara Sent: Tuesday, November 13, 2001 4:38 PM To: Chang, Fran Subject: RE: Build Route Report

Build route is a very vital part of what we use every day. Any change to it must go thru me.

The change in the Build Route for DART deals is a minor one, a check box on the user interface. Real time can run the report to show only DART deals, and they would be captured that way.

Please see me before any changes to the build route are discussed.

Cara

From: Chang, Fran Sent: Tuesday, November 13, 2001 4:13 PM To: Semperger, Cara Subject: Build Route Report

Cara:

Just so you know I have submitted a request to Bill Crook's group (Bill Crook took over Will Smith's old responsibilities). I will keep you and Sean posted when IT made progress on this. I am curious what this Build Route report is and how schedulers use it, generally speaking. Also, I understand that you would like to see the DART products excluded (by a

check box) in this report. While they won't show up in this report in the future, where should the deal info show up in stead in order for Real Time scheduling to pick it up? Do we need real time position manager modified accordingly as well?

Maybe next time when you run the Build Route report I can go over and watch a bit, if you don't mind. Let me know.

Thanks, Fran

-----Original Message-----

From: Semperger, Cara Sent: Thursday, November 08, 2001 12:19 PM To: Crandall, Sean Subject: RE: Important! DART product

I think that if the Enpower guys can modify the Build Route Reports to have a check box that says Exclude DART deals, and have it default to the checked position.

That should take care of it.

(Both versions of build route, Will Smith will know what I am talking about).

-----Original Message-----

From: Chang, Fran Sent: Thursday, November 08, 2001 10:53 AM To: Crandall, Sean Subject: Important! DART product Importance: High

Sean:

Torrey Moorner in EOL IT group has created the Mid-C DART product on EOL. In the future when a trade is done on EOL, it will be bridged into Enpower Deal Entry. However, although the "DART flag" will be on in deal entry, I believe for now it's informational only, and it's not doing anything to alert the schedulers. I would like to know the rationale for creating this DART product and how you would like the schedulers in Day Ahead group (Cara's group) and Real Time (Bill's group) to see in their applications. If I can get this info from you, I'll work with Enpower IT to put all necessary DART processes in place.

Thanks,
