FW: interview schedule for AIESEC interns

Sender	chris.gaskill@enron.com
Recipients	['tara.piazze@enron.com', 'matt.smith@enron.com']
File	smith-m/inbox/53.

I had to move the AIESEC intern interviews to this afternoon due to the group meetings that were scheduled for yesterday afternoon. Since the group meetings are now scheduled for today and I do not want to move the interviews again, you will be conducting the interviews and making recommendations on who to hire. Here is the schedule:

All three of us will interview Milen and Grzegorz at 2:00 and 2:30. Tara & Mat will interview Mohit and Guilherme at 3:00 and 3:30. All three of us will interview Jenny on Thursday at 2:30.

Make sure their English and technical (Excel/Database) skill are sufficient. If you would like, we can talk briefly about what to ask the candidates. We will meet Thursday afternoon to make a decision.

Chris

Hey Chris,

I rescheduled the interviews for all the candidates. Please see below.

Mohit is out of the hospital as it seems because he is available to be interviewed as well.

Milen Kurdov 011 3592-91137 Wednesday 2:00 p.m.

Grzegorz Turek W 2:30 pm 0011 48-501-826-966

Mohit Kala W 3:00 pm 0011 91-98280-12505

Guilherme Belloque W 3:30 PM 55-11-55431370 or 55-11-2408203.

Jenny D?valos Thursday 2:30 011 5932 560-561

Please let me know if you need anything else before the interviews. I will contact you Friday morning to see how the interviews went and how we can move forward.

Regards, Grit Farrell AIESEC Houston

As you can see, Mohit is not listed below because as I found out from his AIESEC representative in India, he is in the hospital right now. It may or may not be possible for him to get interviewed this week. I am still waiting for a response on that. I will let you know as soon as I know. Also, I would like to make you aware that Guilherme's schedule changed since I got his resume. He has accepted another traineeship in India and would not be able to start until mid August. As they say, "All good things must come to an end."

Unfortunately, this is hardly ever more true than in the IT consulting realm. I have been informed that as of this Friday (11/30/2001), my assignment here at Enron comes to an end. Obviously, Enron's current economic uncertainty predicated the need to alleviate any and all "excess baggage" (read: consultant/contractor costs).

I truly have enjoyed my time here in the Gas Fundamentals group. I have definitely learned a great deal from everyone, and hopefully have helped others to do the same. I leave my contact information below, in hopes that if there is anything I can do for you in the future, you will not hesitate to get in touch with me (especially to let me know what time to be at Front Porch! ;-).

All kidding aside, this has been a great overall experience for me. From now until Friday, I will be involved in handing off all projects/initiatives that I have been a part of (or directly responsible for). If there is anything needed of me (between now and then), feel free to give me a call (x5-8885) or stop by (ECS 06836) prior to Friday.

Thanks for everything, and I wish everyone the best of luck in their future endeavors.

Sincerely, Chris Hyde

Becky,

Well, today things suck, but overall everything is great. I lost about \$100,000 this morning because I'm an idiot, but it's not completely my fault. Anyway, you should definitely take an earlier flight so we could go to dinner or something. Too bad it's not at the end of week so you could stay over, even though if you wanted to, you could. I could leave work pretty much anytime on wednesday, so just let me know. If you don't have my work number, its 713-853-0472. Thanks.

Hey Mat - I haven't heard from you since we played phone tag about a month ago. Wanted to let you know that I have a trip coming up next week and I'll be passing through IAH Wednesday night around 9:00. Right now my layover is for only 50 minutes but I may be able to catch an earlier connection out of Denver if you're going to be around that night. If you're around I'll call your cell on Wednesday as I'm leaving Denver & let you know if I catch the earlier connection and maybe you can meet me at the airport for a drink. Anyway, let me know what your plans are.

Other than being totally swamped here at work things are good. Matt & I see each other about once a month and we're going to Alaska for two weeks at the beginning of August. Let me know how things are with you.

Unfortunately for this particular trip there is no flexibility in my schedule. The company is usually very good about this kind of stuff, but we're in a crunch on this and many projects so it's just get out and get back. It looks like the best I can do getting an earlier flight is to be in IAH by 7:55 with my flight to B'Ham at 9:55. We'd have to get dinner at the airport unfortunately, but it's better than nothing. I'll call you Wednesday and let you know what's happening.

Becky,

I recently requested historical flow information from Questar pipeline. In= their response they indicated that they will only provide flows for the on= e or two locations for which Enron has capacity allocations. Chris Gaskill= indicated that you would be able to comment on whether this is consistent = with the FERC 637 reporting requirements. Matt, It looks like Enron has only one active contract on QPC. That is a rele= ase capacity contract from Chalk Creek to the Wasatch Front. I can provide= daily data on that point for the period during which the contract is effec= tive if you would like.

Because we do not offer the other data you have requested to all shippers = on the pipeline, I can not respond fully to your request for historical dat= a on all or most points on the pipeline.

Once again I would suggest that you refer to our website (www.questarpipeline.com) to begin gathering the information you need from this point forward= . I would be happy to answer any questions you may have regarding data po= sted on the web site

Hello!!!! I haven't heard much from either of you concerning what we'd like to do this year. I have zero vacation since Matt & I are going to Alaska in August for 2 weeks. It's not Jazz Fest, but I wanted to let you know that we have 2 good events coming up in B'Ham next month.

1. May 12 - Crawfish Boil. Annual event to raise money for charity. Entry fee: asked \$5 donation. Bands, good food, beer. Options to spread a blanket or bring a chair or just wander around and stand in front of stages (2 to choose from). See link below for more info. <http://www.crawfishboil.org/> <<http://www.crawfishboil.org/>>

2. May 18-20 - City Stages. This is our annual music festival. Other cities (Atlanta, Chattanooga, etc.) have patterned their events from this one that's been going on for over 20 years. I've been once and it was fun - multiple stages - not Jazz Fest caliber, but what is? Tickets are \$20/day or \$35-40/weekend pass. Again, food, beers, etc. See link below for more info. <http://www.citystages.org/> <<http://www.citystages.org/>>

Just wanted to put the offer out there to see if you guys were interested. Obviously, we'd work it out so that whoever came could stay at my house (I figure I can sleep ~10). Let me know if you're interested or if you've found anything else we might want to look into.

To Whom This May Concern,

I have spoken to a couple people in your sales department regarding the shipping of this order. Delivery was withheld because I specified a residential address. In response, I would like to have the order delivered to the apartment offices at the delivery location. The address should read Manor Way Office, but reference the specified apartment number. Pete and Christy should be notified via the submitted phone number of the timing of the delivery. If the offices are still considered "residential" you are authorized to bill me for the additional surcharge, which I understand to be not more than \$30.

The value should be 0 for R (the value moved from DRN 30685 which should have been changed to zero) and 30685 for D. All the values were D's consistent with the existing data for DRN 30684 for those days prior to moving the R values over (which should be zeros for those days).

Chris,

More changes.....

For DRN 34585, please change the utilization value in the usage table for 4/23/01 to zero. Then change the DRN on all of the usage data for 34585 to 34584 and delete location 34585. In addition, please make the following utilization value changes to the usage data for DRN 34584:

4/2/01 28954 4/3/01 31401 4/4/01 31401 4/5/01 38490 4/6/01 23116 4/7/01 28674 4/8/01 31311

Colin,

Great. As we discussed, we'll need the final query to list all counterparties for each product with net quantities stated for each day (dates listed as column headings) of the current month. Ideally, the query will be executed daily and posted in html or xls on the Gas Fundy website. I understand that we do not yet have permission from EOL to hit their database regularly and that you will have someone else from your team finish out this task. I'm available today to help any way I can. Thanks.

Matt, I think I cracked the query to give a counterparty based position of the SoCal product you requested. Can you (or Mike) verify the following numbers (COB 04/27/2001) ? I was unable at this point to net the volumes in one sweep

Angela,

CIG (#42) is almost complete, but we have a few data changes to make:

First, for DRN 24906 Big Blue Meter Station, please replace the utilized capacity values of the records with effective date 4/2/01 to 4/8/01 with values below listed from 4/2/01 to 4/8/01 and delete records with effective date 4/21/01. Also, please change all historicals from receipts to deliveries.

39014 39982 32987 44781 41381 41357 40586

Second, for DRN 16688 Keyes, Town of, please delete both the receipt and delivery records for effective data 4/21/01 and the receipt record for effective date 4/8/01.

Thanks.

Brief,

Sorry for being such a loser by not getting in touch with you a little sooner. It's totally my fault. Anyway, I do want to catch up with you sometime. Also, I will be back in NY in two weeks, but only for one day. So, check your calendar for the Sunday after Thanksgiving. I'm getting in early in the morning, so maybe we could go out to lunch or something. I'll give you a call sometime this week. When are the best times to get a hold of you? Here's some digits for you:

Matt, It looks like Enron has only one active contract on QPC. That is a release capacity contract from Chalk Creek to the Wasatch Front. I can provide daily data on that point for the period during which the contract is effective if you

would like.

Because we do not offer the other data you have requested to all shippers = on the pipeline, I can not respond fully to your request for historical data = a on all or most points on the pipeline.

Once again I would suggest that you refer to our website (www.questarpipeline.com) to begin gathering the information you need from this point forward = . I would be happy to answer any questions you may have regarding data posted on the web site

I discussed your request with my supervisor and we are happy to provide you with the daily use reports that you've requested for the points where you actively move gas. We do not have the resources at this time to provide data for all points on our system. If you can give me a list of specific points I can get those for you by tomorrow afternoon. I would suggest that you refer to our web site for other data. Pipeviewer posts daily billing estimates for all meters and up to 30 days history for those meters.

Steve,

I'm real flexible on timing, but this whole - you may not be there thing - definitely restricts the possibilities. What are the chances of a follow-on tour? Won't the contract be renewed? If your tour was indeed over, would how long would you be there both with and without a contract extension? Which weekend do you intend to be around and wish to have company. The later the better for me, but seriously, I could probably get on plane next weekend if that was the only opportunity. I'll give a call sometime, but I don't think I have the number anywhere. Can you send it to me? FYI, my numbers are as follows: w 713-853-0472, h 713-784-8180, m 832-444-7702.

At this point, our contract is over on January 30th and it's unclear what will happen after that. When are you thinking of coming? It sounds like your new job is cool. The diving is AWESOME!!!

Steve,

Hey, what's up my friend? I hear that business is well in Puerto Rico (although that was quite awhile ago so who knows). I'm assuming that you are, indeed, still there. I can't believe that I've just finished my fifth month with Enron. It's been great, though. Everything is new so I'm learning a ton. Working on a trading floor is quite a different environment than Pirnie. My desk is so small it reminds of Puerto Rico, although there are no bomb threats, the bell does not sound at lunch, and the number of holidays does not exceed the number of work days in the year. I've recently been accepted into a subprogram of the program I'm in to become a trader, so my next year is pretty much planned and eventually I'll start trading.

Anyway... I was just thinking the other day that I miss my trips to the island (especially my accommodations at the Excelsior), and I can't help feeling a little shorted that I didn't get a follow-up event of the Reggae tour or diving trip. So I was wondering if maybe I should come down some weekend and make it right., you know put all of the planets back in alignment. So I was wondering if you might be able to put me up for a weekend and maybe do some diving or something. If not, then no big deal, there's about zillion places I'd like to visit in the next few months. Just drop me a note sometime and let me know what you think.

Please say hello to Pat, Joanne and Juan Carlos for me. By the way, it was bittersweet to hear Barry left soon after I did. Had he done so sooner, I would have taken his spot! Anyway, wish everyone well and I'm curious to hear what's happening on the island these days.

Take care,

Mat
