Laurie,

We're still working on cleaning up July. I'm here in Houston working with Gloria on some historic accounting issues and we'll be getting back to July probably by early next week. Please hold off on sending anything out until then.

It would probably be sooner, however, we have an all day meeting on Monday so I won't be able to work on it until Tuesday.

let me know if this is a problem.

Thanks, Theresa

Theresa, this was changed from 81,730 to 76,855?? Can you send the pipe support so I can recoup?

Thanks Laurie

Good morning Paul,

I would like to do a little follow-up on our discussion last week regarding ENA deliveries to White Rock for the account of LGSI/Woodward.

From discussion with Woodward today, I understand that ENA prior to the sale of LGSI to Atmos rendered a separate invoice to LGSI for gas delivered to White Rock for the account of LGSI. Since the sale, Woodward has been invoiced by ENA for those deliveries.

I understand that ENA has been LGSI/Woodward's supplier since May 2001 for its requirements on the Citizens' Arkansas Valley system. Citizens needs to know for the time period May 2000 to current how much gas ENA has delivered to White Rock for LGSI/Woodward's account and under whose transportation agreement on the CIG system were those deliveries made.

This information is urgently needed and we would appreciate your timely assistance in responding to this request. Please forward the information to me with a copy to Craig Lipke.

Should you have any questions, please give me a call.

Best Regards,

Paul,

Citizens has executed the new CIG contracts for its NNT and TF-1 service. Copies will be forwarded to you from Flagstaff. The contract delivery MDQ's are as follows:

Contract No. Type MDQ 331710000 TF-1 8,375 Nov - March 5,954 Apr, May, Sep, Oct 3,130 Jun - Aug

331750000 TF-1 2,175 Jan - Dec

31029000 NNT-1 6,579 Nov - Jan 6,441 Feb 5,151 Mar 3,750 Apr 2,519 May 838 Jun 972 Jul 987 Aug 3,618 Sep 6,250 Oct

In my earlier email on this subject, I had informed you that Citizens would have one TF-1 contract for 10,550. As you can see, this is not the case. A last minute change by CIG resulted in the two TF-1 contracts being continue except for changes for storage injection, which unfortunately I do not have, and the elimination of the discount on contract 331750000.

Prior to October 1, 2001, this contract's reservation charge was fully discounted. Effective October 1, Citizens will be paying full tariff rates. As a result of paying full rates on Contract 331750000, the contract capacity is to be used in the capacity release computation.

My apologies for not getting this information to you sooner, but we were just made aware of the changes by CIG.

Should you have any questions, please let Sean Breen or myself know.

Sincerely,

John For Citizens

Electronic Pay Stubs

Sender	payroll.enron@enron.com
Recipients	[theresa.staab@enron.com]
File	staab-t/corporate/5.

Get ready. Beginning in November, electronic pay stubs will be available to all employees who have their paychecks direct deposited into their bank account. Electronic pay stubs are an easy, fast, and efficient way for you to get your payroll information. They will also help Enron to realize a considerable savings in time and dollars spent over traditional printed pay stubs.

If you prefer to receive a hardcopy of your pay stub, click on the link below to complete a request form. This form must be submitted to Payroll by October 15, 2001. Unless you submit a form your pay stub information will default to electronic viewing.

Please click on the link below.

Name: THERESA STAAB Personnel number: P00503481 Phone: 3035756485

If you have questions about electronic pay stubs, please contact Janice Priddy (Payroll) 713-853-7839 or Marie Newhouse (ClickAtHome) at 713-345-4185 or send an email to Enron.Payroll@enron.com (Enron Payroll in Outlook).

Stay tuned for more details in the coming weeks.

Vicky, How are things going and how are you holding up? I can't believe how crazy it sounds for you and the boys.

Please let me know if you need anything at all - I won't hesitate to help in any way!.

Did you get my box of presents?

I know you're busy so I'll keep this short.

We have our walk through tomorrow (Friday) and hopefully we can close early - Monday or Tuesday. Otherwise we're scheduled to close on Thursday the 20th. Everything looks good so far. I believe our phones are getting hooked up on the 20th so I will finally have long distance service again.

Our new address is 2264 E. 101st Ave., Thornton, CO 80229 and the phone # is (303) 450-1626.

Take Care and stay strong (I know you will - You are the strongest person I've seen!)

Please email me back and let me know how things are going and if you need anything!

Love, Theresa

Theresa,

Paul Lucci wanted me to send you an update . Rainbow Gas, Chris Faul, has requested refund for their prepayment but they still owe for the penalty charges and actuals - I received \$8,604.00 from Chris Faul , this will leave a balance of \$10,177.00. Do you want me to deduct the balance from the refund or do you want to call John Childers 281-646-0232 to go over the balances - Last time I spoke with him - he was not going to pay the penalty charge plus we do not agree on the volumes (actuals). I will wait until I hear from you. You can reach me at 713-853-5667.

Theresa,

The formula BP is using is highlighted in red below. After I inquired about the discrepancy, my counterpart at BP emailed her trader who talked to Paul Lucci. Apparently, BP is using the correct pricing. I just faxed copies of the invoices to you.

Thanks, Genaro

Janice-

Good morning. I have a price discrepancy for deal 120644/120643, Anschutz Plant, for 8/01 and 9/01 (and if it is not corrected, we could have a discrepancy for as long as the deal lasts, until 4/02). Enron is showing the rate to be Inside FERC NWPL Rockies + \$0.02 less \$0.09 (Mcf conversion). In ET Deal our formula is (NWPL Rocky Mountains IF) + .02 - ((1.022-.995) * (Kern Wyoming IF)).

Can you please verify who is correct, and if Enron's rate is correct, can you please make the changes for 8/01, 9/01 and the continuing months in the deal? If we are correct, can you please talk to your counterpart at Enron to see about getting this resolved this month? My counterpart and I would both like to have this rate discrepancy cleared this month.

Please let me know if you need any additional information. Thank you for all your help.

They've already called Paul Lucci. The problem is this deal was done by Nicole Cortez (who is no longer with us) back in June of last year to Western Natural Gas/Aurora . (Which exact company we don't know..... Trouble is that Aurora no longer exists and I'm not sure if Western Natural does either. Credit was talking to Paul this morning and I'll have to track him down to see how their conversation ended).

Gloria, I am faxing to you an Imbalance Trade Request form which I sent in to PSCO on June 19, 2000 for a volume of 1,000. We traded this imbalance with Western Natural Gas / Aurora Nat. Gas.

Nicole Cortez from our office (who is no longer here) would have input the deal. I am trying to find any notes because I don't see a deal in the system. The only inclination of a note I have is a price of \$3.65 which I think would be the NWPL index for June.

Let me know if you want me to put in a deal for this transaction.

I questioned your e-mail because you referred to the 06/00 statement and then referred to the market list for 06/01. I didn't know what year you were talking about. I have the statement you left for me and I have no idea what this is all about. We did not ship in June, 2001, however I believe that Theresa in the Denver office did. I will check with her and have her get back to you. Please be aware that she is busy with COGA this week so it may be the end of the week or possibly next week.

PUC approves decrease in sales Gas Cost Adjustment ("GCA"):

The Colorado Public Utilities Commission has approved PSCo's application to decrease the Gas Cost Adjustment component of its sales rates, effective October 1, 2001. In addition to the decrease in the gas sales GCA, a slight increase in the GCA applied to gas transportation service has also been approved.

Following is a sampling of the new GCA's:

CG: GCA = \$3.504/Dth, for a new total CG commodity rate of \$4.481/Dth. IG: GCA = \$3.285/Dth, for a new total IG commodity rate of \$3.749/Dth TF/TI: GCA = \$.055/Dth (current transportation GCA = \$.047/Dth)

A Transportation Summary Sheet of the approved rates is also available on the Website for informational purposes.

Paul,

Could you set aside some time today to talk to me about the recent Kennedy Oil deal in addition to 2 other deals. These other deals were discovered in our bid week preparations, and are causing our desk some pretty big negative Prior Month Adjustments. So, we need to get these resolved. The first one is the Williams / wic deal. The deal #'s for that are 121890,854562, & 1068893. The reason for the split of this deal is b/c our books changed names. The second deal in question which needs to be resolved a.s.a.p. is a Red Rock Energy LLC deal #133661. This deal is being booked to Denver in Sitara, but in Tagg the risk is going to Keith Holst and Mike Grigsby.

Please look over these deals and let me know when a good time to talk will be. Thank you!

File	staab-t/psco/4.

September 19, 2001

ATTENTION ALL PLANT OPERATORS, SHIPPERS AND NOMINATING AGENTS:

To help avoid the possibility of upcoming weekend OBPs, it is critical that Shippers, Nominating Agents and Plant Operators do not schedule imbalance payback gas or deliver more gas than what is confirmed into Public Service Company's (PSCo's) system for each weekend, until further notice.

Plant Operators should restrict deliveries to confirmed nominations ONLY for gas days September 21 (8AM MT Friday) through September 23 (8 AM MT Monday, September 24).

Shippers/Nominating Agents should not nominate any imbalance payback gas to PSCo for gas days September 22 - 23. Any imbalance payback gas remaining on the system for this period will be cut to -0- by PSCo. Thank you in advance for your cooperation.

October 30, 2001

ATTENTION ALL PLANT OPERATORS, SHIPPERS AND NOMINATING AGENTS:

Weekend imbalance payback restrictions to PSCo will be lifted effective Gas Day November 3rd, until further notice and as system operations allow. Plant Operators must confirm imbalance payback volumes to PSCo by no later than 10:30 AM one business day in advance; payback volumes not previously confirmed will be cut and PSCo may activate flow control valves on any plants that are over-delivering into the system without permission to do so.

Shippers/Nominating Agents can nominate imbalance payback gas to PSCo for the weekends following the normal nomination schedule. If you have any questions regarding those nominations, please contact your Transportation Specialist.

PSCo's ability to accept imbalance nominations is subject to operational considerations; you will be notified via PSCo's EBB if imbalance payback restrictions are implemented again.

We appreciate your assistance in managing your gas load requirements responsibly. Please don't hesitate to call if you have any questions or concerns pertaining to your scheduling needs.

November 7, 2001

ATTENTION ALL SHIPPERS/NOMINATING AGENTS AND PLANT OPERATORS:

----EFFECTIVE IMMEDIATELY----

Due to the continuing warm weather and other operational considerations, Public Service Company (PSCo) cannot accept either:

Imbalance payback gas from Shippers/Nominating Agents More gas than PSCo's transport customers will consume each day 3. More gas than the volume currently confirmed from each plant into PSCo's system each day

Plant Operators should restrict deliveries to confirmed nominations ONLY EFFECTIVE IMMEDIATELY AND UNTIL FURTHER NOTICE; if over-deliveries become a problem during this period, PSCo will activate flow control valves on any plants involved.

Shippers/Nominating Agents should not nominate any imbalance payback to PSCo for gas day NOVEMBER 9 AND UNTIL FURTHER NOTICE. Any imbalance gas remaining on the system for this period will be cut to -0- by PSCo.

Additionally, in order to avoid an OFO for over-deliveries (previously known as an OBP), Shippers/Nominating Agents should not nominate more gas than they will consume each day into PSCo's system. Thank you in advance for your cooperation.

PSCo files for decrease in the Gas Cost Adjustment ("GCA"):

PSCo files for decrease in the Gas Cost Adjustment ("GCA"):

Monday, September 17, PSCo filed an application with the Colorado Public Utilities Commission (PUC) to decrease the Gas Cost Adjustment component of its sales rates, which, if approved are expected to become effective October 1, 2001. This GCA decrease reflects the decrease in market price of natural gas. In addition to the decrease in the gas sales GCA, a slight increase in the GCA applied to gas transportation service has also been requested, to reflect an increase in the upstream transportation and storage charges applicable to gas transportation customers.

The proposed new GCA's requested by PSCo are:

CG: GCA = \$3.504/Dth, for a new total CG commodity rate of \$4.481/Dth. IG: GCA = \$3.285/Dth, for a new total IG commodity rate of \$3.749/Dth TF/TI: GCA = \$.055/Dth (current transportation GCA = \$.047/Dth)

A Transportation Summary Sheet of the proposed rates is posted on the Web site for informational purposes.

IMPORTANT REMINDER: Remember that GCA costs noted above and in the Transportation Summary Sheet reflect the proposed rates filed by PSCo, and are subject to revision and/or approval by the PUC before rates become final. Notice identifying the new GCA rates will be posted on this website upon PUC final approval.

Both CMS Marketing, Services, & Trading and CMS Field Services, Inc. Settlements groups believe this deal was actually made with CMS Field Services, Inc. Therefore, I believe this deal needs to be changed to reflect the correct counterparty name. Please advise or change as necessary.

Furthermore, deal # 1020432 for Sep production gas sales on FUGG has the same problem. I cannot determine whether you are the deal maker on this deal, but it requires a similar change to CMS Field Services, Inc. Both deals are Denver deals.

Please let me know if you have questions or when this is complete.

Sean - Please add anything where possible.

The only thing I'd like to add is the Quantum purchase for November is 1,000 Mcf not MMBtu. We are showing a 967 btu factor so it would be 967 MMBtu at the wellhead less fuel.

Any additional gas would be under imbalance between Crestone and Quantum.

Thanks. Theresa

Scott & Walt:

A couple of things...I talked to Theresa today and the OBA Spreadsheet (or actually, Enron's imbalance sheet) needs to be changed for both October and November as follows:

October:

ENA purchased 300 mmbtu/d from Westport at the Bear Paw point beginning October 9. We need to add a column on the ENA sheet (i.e. similar to Phillips) showing that 300 mmbtu. Quantum - ENA did not purchase any gas from Quantum for October. We had some measurement of gas from Quantum throughout the month. This needs to go to imbalance between Quantum and Crestone.

November:

ENA is purchasing 1,000 mmbtu/d from Quantum. If Quantum produces more than 1,000 mmbtu/d that extra goes to imbalance between Quantum and Crestone. ENA is not purchasing Westport's gas at this time.

I would be happy to make these changes, but I am unsure as to how this file affects your Meter Allocation report and I don't want to mess that one up!!!

I'm copying Theresa on this memo....please feel free to add to it if I missed something.

Thanks.

Update From American Airlines

Dear Theresa Staab,

I promised to keep you informed and wanted to provide an update on the situation surrounding Flight 587. The National Transportation Safety Board investigation is still underway, with both the cockpit voice and flight data recorders being analyzed for clues about the cause of the accident.

In addition to our normal aircraft inspection program, and as purely a precautionary measure, we have begun a voluntary inspection of all tail fins on the Airbus A300 fleet. The inspection process started on Thursday and should be concluded next week. We have completed approximately 25% of the inspections. While we don't anticipate any problems, we certainly want to look at any and all possibilities for the accident's cause. When the inspection is finished we will communicate those results.

On behalf of all of us at American Airlines, I want to thank everyone for the outpouring of support we've received following Monday's tragedy. We are heartened by the many notes of care and concern. The unprecedented actions over the past 60 days have tested the entire nation in a way that could not be envisioned prior to September 11.

I hope that you find these communications informative. It is my pledge to you to keep you informed of not only issues surrounding the accident but also security and airport process measures that we are implementing across our system.

On behalf of the 100,000 employees at American, TWA and American Eagle, thanks for your support.

Sincerely,

Mike Gunn Executive Vice President American Airlines

talk to Lauri Leyda @303/914-4914, Lauri has identified/claimed all three invoices (1) billed to KN Gas Services - deal #925045 (this is the correct one) and (2) billed to KN Gas Marketing deal #882391 & 897510 (incorrect). I have faxed all three invoices to Lauri, stated she only rec'd one, KN Gas Serv. addressed in Colorado. Thank you Theresa for your help.

Should be SAP #3000015111 - KN Gas Services

rec'd information from Theresa Staab, was out sick yesterday, will contact Lori Leyda today. Will advise.

I guess the reason why I am so confused (?) is our invoice was mailed to KN Gas Marketing @333 Clay St., Ste 2000 Hou., Tx. contact name referenced Mike Mousteko (Mike sits in the cubicle in front of me ! no longer works for KN, now employed by Enron, the phone # referenced is listed as a fax # and that is incorrect) I called Information for a phone #, there is no listing for a KN Marketing at the address referenced ? The invoice has not been retrn'd so maybe its been

forward ? Where ? I will be in touch .

Mary, The contact for this deal is Lori Leyda at (303) 914-4914. I believe this company really should be KN Gas Services or KN Services Inc. - Lori will know for sure. I apologize for the confusion.

Please let me know which counterparty is the correct one for future reference. Thanks.

Good Morning Ms. Staab,

Please assist me by furnishing a contact name, phone # for the CP referenced, deal #882391. We have been unable to direct July prod. billing, #29928SA, in the amount of \$108,617.04 to the proper individual for handling. We know that the addressing and phone #s referenced on our invoice is incorrect. Please advise.

Thank U

The contract available for KN is a Master and I haven't gotten anything regarding KN Gas Marketing, Inc. You may want to call Cheryl Johnson in Global to inquire or call Theresa Staab in the Denver office. She may have a contact name and number for this deal.
