I have to pay \$25 because I forgot what my score was?

I'm not asking for an official copy to be sent to a school. I don't need some fancy transcript that I can hand to someone. I was just curious what my scores were.

I paid for the test once and I'm not paying again.

Great customer service.

Thank you for contacting GMAT.

Official score reports contain the three most recent score results achieved in the last 5 years. However, score reports for scores achieved 5 to 20 years ago are still available for reporting.

Although GMAT score records are retained for 20 years, many institutions will not accept scores which are more than five years old because they present special interpretation problems. We suggest that you contact the institution(s) to which you are applying to determine whether they will accept older scores.

The fee is US\$25 for each score report requested. Additional score report requests will be processed for mailing to you and the designated institutions within one week after being received at ETS-GMAT. NOTE: Recipients indicated on an Additional Score Report Request Form cannot be changed or deleted.

Unfortunately, we do not accept additional score report requests via e-mail or internet. To obtain a copy of your GMAT score report or to send copies of your report to recipients, you will need to request an additional score report by one of the following methods:

- Complete the Additional Score Report Request Form you receive with your score report and mail it with the fee to the address on the form. If you do not enclose the fee, your request will be returned to you. Checks and money orders should be payable to GMAT-ETS.

- You may fax (609)883-4349 or telephone (609)771-7330 your request if paying by Visa, MasterCard, or American Express. Please include credit card number and expiration date.

- Mail a letter requesting additional score reporting to ETS at one of the following addresses:

Russell, I agree with all of Jeff's comments on both the GPA and the PMA. I primarily have questions about the GPA, because I do not understand the Kalkaska issue they are trying to address. It seems that they are wanting to limit us, while at the same time not limit us. As for the PMA, the problems that Jeff notes are problematic. Please let me know when we can meet to discuss and please give me the courtesy of seeing the next draft before it goes to MGU. Regards, Ed

Your tax equalization will be prepared in Houston, so I cannot provide you with the Enron figures, however, your Canadian return is nil (no refund nor balance owing) and your U.S. return shows a \$538 refund.

Jeff The Amoco netting Agreement has been finalized and will be circulated for signature tomorrow as soon as I get execution sets from their attorney. On the Coral side, the EEI and Guaranty issues have been agreed to and documentation will be executed no later than tomorrow. My understanding from Harlan Murphy, a colleague of mine, is that Coral is NOT requiring the Netting Agreement in order to do the ring trades.

File	storey-g/deleted_items/347.

Welcome to Diabetes E-News Now!

You are receiving this newsletter by request. This weekly newsletter provides you with the latest news and events occurring in the world of diabetes and is brought to you by the American Diabetes Association.

Visit the online community of diabetes.org. Explore. Learn More.

THIS WEEK'S ISSUE INCLUDES:

TRAVEL... SNACKING... TASTY THANKSGIVING RECIPES... WONDERIN' WHAT TO DO WITH THE LEFTOVER TURKEY?... R&R...

It's that time of year again...Thanksgiving. And with it comes the beginning of another festive holiday season. During this hectic time, you'll tend to do things that are out of your normal routine: shopping at the mall for hours on end, snacking in-between meals, eating out and traveling. This crazy schedule can often affect you and your blood sugar - sometimes

you may not even realize it. The ADA has resources that can help.

TRAVEL... Wouldn't it be great if someone made your packing lists and wrote down all the things you need to do before you travel? Well, someone has. Check out the ADA's The Diabetes Travel Guide, by clicking here:

<http://list.diabetes.org/UM/T.ASP?A19.22.215.1.97735>

SNACKING... Ever feel like everyone can eat junk food but you? Finally, a collection of snack recipes for people with diabetes! The Diabetes Snack, Munch, Nibble, and Nosh Book features snack ideas for parties and crowds that are diabetes-friendly. Now even YOU can enjoy festive food items such as chili con queso, chips and black bean salsa, pesto, and muffins. To learn more about this book, click here: <http://list.diabetes.org/UM/T.ASP?A19.22.215.2.97735>

TASTY THANKSGIVING RECIPES... Today's diabetes.org Recipe of the Day is Sweet Potatoes with Apple. To view this recipe, click here: <http://www.diabetes.org/main/health/nutrition/recipe/112001.jsp> Later this week, make a return visit for many more scrumptious recipes such as Carrots with Coriander, Apple-Cheese Pancakes, Low-Calorie Jam, and Yogurt-Oatmeal Muffins.

WONDERIN' WHAT TO DO WITH THE LEFTOVER TURKEY?... Bored with the same old leftover-turkey-day-after Thanksgiving meal? Then try something new! Spicy Turkey Chili (6 servings at 1 cup each) 2 onions, chopped 2 garlic cloves, minced 2 c green pepper, chopped 1 T olive oil 1 lb. diced turkey meat (cooked) 2 c pinto or kidney beans 2 c canned tomatoes, with liquid 1 cup low-sodium chicken broth 2 T chili powder 2 t cumin Fresh Ground pepper

In large saucepan, saute onion, garlic and green pepper in olive oil for 10 minutes. Add diced turkey and stir until seasoned. Add remaining ingredients, bring to a boil, lower heat and then simmer, uncovered, for 30 minutes. Add additional chili powder if you like your chili extra spicy.

Hello to all:

I am raising money for Juvenile Diabetes Research Foundation and I would like to reach a goal of \$1000.00 and would greatly appreciate if anybody in our group would like to donate to this cause. It doesn't matter how much \$1.00, \$5, \$10 or \$20 the amount doesn't matter. The kids who have this disease would greatly appreciate any kind of help. I have attached a letter to help explain more about Juvenile Diabetes. This is the second year that I have joined Enron to help raise money and last year we were the biggest company who donated the most. Thank you and May God Bless You.

I will be collecting money until Oct. 26. If you have any questions please feel free to contact me @ 713-345-4411.

Thank you,

I would like to introduce Intercontinental Staffing Group. Our offices in Houston and London are primarily focused on serving the energy trading industry, bringing together top energy trading talent with the worlds leading energy trading companies. Our search consultants have past experience in either trading or brokering energy products. This gives us a distinct advantage with respect to our knowledge of and exposure to the energy trading industry.

We are currently working on filling several trading and marketing/origination positions throughout the US. If you have an interest or know of someone who is looking for a new career opportunity, please contact me at the phone number listed below or feel free to email me at possibilities@istaffinggroup.com <mailto:possibilities@istaffinggroup.com>. We do offer a referral fee if we are successful in placing one of your recommendations.

Here is the credit ring we would like to do:

ENA buys from Sempra Cal02 Nymex swap @ ATM + \$2 ENA sells to NY Bank Cal02 Nymex swap @ ATM + \$2 NY Bank sells to Sempra Cal02 Nymex swap @ ATM + \$2

We can then do an opposite ring of ATM trades to keep counterparty position = flat. ENA release margin to Sempra. Sempra posts margin to NY bank based on their = ISDA contractual rights. NY Bank's Enron credit exposure is replaced with = Sempra.

The National Energy Board has approved the TCPL 2001-2002 Settlement agreement in its entirety. The link to the Reasons for Decision (RH-1-2001) is attached below.

Highlights - No change to current tolls pending final decision on Fair Return Hearing expected in late spring or summer, say June or July 2002 - AOS and FT Makeup Credits to IT Service to start effective Jan 1/02. - IT Floor floats monthly between 80-120% of FT depending on AECO MI and seasonal marginal fuel rate (at current prices expected to remain at 80%) - NEB expected to review Settlement Guidelines in near future (potentially opening door in future to FERC style negotiated tolls)

Hey fellas,

A couple days left....

If you guys get this today (Thursday) and if you get a chance, could you call the tux shop and go ahead and pay for your tuxes. I am going to pick up all of the tuxes this afternoon and bring them out to the rehearsal tomorrow. IF you are in town, you can just go to the shop on Clybourn and pay for and pick up your tux, otherwise, if you could call and pay with a credit card, it would make things a lot easier. I will be going over there at 1:30 or 2:00 this afternoon. If you could either call and pay for you tux or at least let me know that you are planning to pick it up tonight before 2:00 (Cellular: 773-294-6114), I'd really appreciate it.

Safe travels.

Randy,

What we wanted to look at on the gas side would be a three way ring trade that is out-of-the-money on one side and in-the-money on the other.=20

For example:

Counterparty A sells to Enron a jan02-dec02 nymex swap at current market + = \$2 Enron sells to Williams a jan02-dec02 nymex swap at current market + \$2 Williams sells to Counterparty A a jan02-dec02 nymex swap at current market= + \$2

There will be no net position change for each counterparty, but if will replace Counterparty A's Enron credit exposure with Williams.

All the trades would fall within our existing ISDAs. Our lawyers have added some language for the confirms that would tie the trades together. That language is included below. If you have any legal questions feel free to call our lawyer Mark Taylor at 713-853-7459.

If you have any questions feel free to call me at 713-853-7058. I'll ring you latter this afternoon to go over the details and talk about possible counterparties.

Thanks for your time.

Credit Ring

Jerry,

Here would be the proposed trade:

For example:

Counterparty buys from Enron=09jan02-dec02 nymex swap 350 contracts/mo @ cu= rrent market + \$2 Enron buys from TXU =09=09jan02-dec02 nymex swap 350contracts/mo @ current= market + \$2 TXU buys from Counterparty =09jan02-dec02 nymex swap 350 contracts/mo @ cu= rrent market + \$2

There will be no net position change for anyone. It lowers TXU's and the Co= unterparty's open positions and VAR with Enron. It will also replace the Co= unterparty's Enron credit exposure with TXU.

Enron releases TXU margin and TXU posts margin with the Counterparty based = on their contractual obligations.

All the trades would fall within our existing ISDAs. Our lawyers have added= some language for the confirms that would tie the trades together. That la= nguage is included below. If you have any legal questions feel free to call= our lawyer Mark Taylor at 713-853-7459.

If you have any questions feel free to call me at 713-853-7058. I'll ring y= ou latter this afternoon to go over the details and talk about possible cou= nterparties.

Thanks for your time.

Geof Storey

Re: TCPL and Stakeholders Closer to Partial Settlement

What is the AOS? How does it work? The details have not yet been agreed. TCPL is proposing AOS of 2.5% of firm entitlement that would be credited to an IT bill. This means you would have to have IT services in any month to access the credit but it is not limited to your FT path. Some shippers are still insisting on a separate class of service on the FT nomination. Due to system development constraints I expect either TCPL's proposal to go through or the whole concept is scrapped.

IT Floor - how do you calculate the marginal fuel cost? That is still to be worked out but TCPL's position is to publish an Empress to Parkway marginal fuel toll updated monthly for changes in Empress MI.

No ability to negotiate services or discount? That is correct. There is no appetite for negotiated services amongst the LDCs, CAPP and the larger producers. Marketers and IPPs are much more receptive.

TCPL and the Stakeholders have been meeting regularly since January and are close to a partial two year toll settlement along the following lines acceptable to TCPL:

Cost of Capital and ROE - to be litigated in NEB Rate Hearing Operations, Maintenance and Administration Costs - 2001 = \$223M 2002 = \$216.5M Depreciation - 2001 2.76% (increase of 0.1%) 2002 = 2.91% (approx \$60M over two years) Authorized Overrun Service of 2.5% of FT credited to IT services Employee Severance costs amortized over 3 years Revenue Sharing to be capped at \$5M New Services to be tariffed and run through expedited Tolls Task Force Process. If opposed at TTF, sponsors can file application with NEB. IT Floor = greater of 80% of FT toll or sum of incremental marginal fuel cost plus FT Commodity toll plus 5% of daily FT demand toll STFT - status quo AECO/ANR Storage - TCPL commitment to review monetization and disposition options on 8 bcf this year

In terms of an Eastern Zone toll and prior to taking into account any increase for higher cost of capital, this represents about CDN\$1.10/GJ in 2001 and \$1.15 in 2002 (assuming discretionary revenue of \$40M/year).

Going around the table most stakeholders, including the LDCs and CAPP gave it unenthusiastic support although IGUA and Centra Man indicated they have strong problems with AOS if it is run as a credit to IT services. El Paso and PGE were non-committal and may end up opposed. Representing Enron, I expressed concern about the lack of clarity around what marginal fuel costs mean but indicated we would unlikely to be opposed (i.e prepared to litigate) if it was otherwise widely supported.

TCPL is to draft agreement language for distribution next week.

Any questions let me know.

1. A Simple Step To Prevent Diabetes, High Blood Pressure and Heart Disease

In a recent study in Washington State, researchers with Premera Blue Cross found that thousands of patients with high blood pressure, diabetes, or past heart attacks may be missing the life-enhancing benefits of the right blood pressure medications. Comparing prescription guidelines with the drugs actually used by people to control their blood pressure, the study found that far too many diabetes patients were not taking the most effective medications or taking no blood pressure medicine at all.
