I will be on vacation during that time period and am not planning to go to the data room.

-----Original Message-----

From: McConnell, Mark Sent: Thursday, October 25, 2001 10:34 AM To: Watson, Kimberly; Abdmoulaie, Mansoor; Brassfield, Morris; Huber, Lee; Chandler, Bob; Centilli, James; Ratner, Michael; Guthrie, Robert; Rice, Greek; Hawkins, Don; Jones, Nyree; Dowd, Stephen; Stephens, LD; Gleffe, Larry; Ames, Mike; Schick, Warren; Huber, Lee; Campbell, Larry Cc: Harris, Steven; Alters, Dennis; Rapp, Bill; Hayslett, Rod; Sandt, Jim; Saunders, James Subject: Questar Southern Trails Data Room OCT 29 - 30 (Monday and Tuesday)

We will be able to attend the Questar Southern Trails data room on Monday and Tuesday (Oct 29th and 30th) as originally planned. If you only need one day, please let me know which day you'll be attending.

Questar is located at 180 East 100 South, Salt Lake City, Utah. Our main contacts are Jodi Starley at (801) 324-2082 and Gary Schmitt at (801) 324-2082. The hours of the data room are 8:00 - 4:00.

They are looking at our data request and working to make sure they can accomodate us. Also, Engineers available for interviewing are only available on Monday. Legal staff needed to be interviewed are only available on Tuesday. If there are

other staff that are needed for interviews, please let me know.

Some attendees are staying at the Salt Lake City MARRIOTT SALT LAKE CITY, 75 S. West Temple, Salt Lake City, UT 84101 Phone: 1-801-531-0800 FAX: 1-801-532-4127 for Sunday and Monday nights. You need to make your own travel reservations and it is advised that you do that as soon as possible.

The Bid for Southern Trails West Leg) is due December 10th.

I show the following people going to the data room:

1. L.D. Stephens - Team Leader/Operations 2. Larry Campbell - Environmental 3. Larry Gleffe - ROW 4. Mike Ames - Pipeline Safety 5. Warren Schick - Property Tax 6. Bob Chandler - Finance 7. Stephen Dowd - Corp Dev 8. Kim Watson - Marketing 9. Mark McConnell - Marketing

Please let me know if this list needs any corrections.

ORDINARY LIFE - Thoughts and Ideas to Help You Live a Happier Life

Summary of February 10, 2002

Dear Folks ?

I want to thank Stephanie Warfield for filling in for me this past weekend. I was away making a private retreat. Stephanie always does a good job.

At the gathering on Sunday John Staley volunteered to facilitate the creation of a book discussion group. Jerrilynn Dougherty volunteered to assist with this. If you would like to know more, you can contact John at

Welcomingfriends@aol.com

Richard Wingfield forwarded to me a list of the folks who have committed to step forward to support the work in Bolivia. Each of the following persons has agreed to support one month at \$250. 1. Wayne Herbert 2. Bill Kerley 3. Richard Wingfield 4. Robert Bell 5. Phill Lewis 6. Kim Watson/Richard Stang 7. Kristine & Paul Brooks 8. Nancy Pustka 9. Jean Snyder 10. Marte Nelson 11. John M. Howard. Jr. 12. James Sasser.

Thanks to you all.

Tomorrow is, for Christians, the beginning of Lent. It is a significant time, full of rich rituals. It is a time when we are encouraged to seek for clarity about those two significant spiritual questions - "who are we and what are we to do."

With renewed threats of terrorist activity it is easy for us to forget these. I'm looking forward to being with you this coming Sunday as we continue our conversation along the way from here to there. More on this in the preview that will come to you later this week.

Much love,

Bill Kerley

Ordinary Life is a gathering that provides an opportunity to develop an enlightened heart and an awakened mind to the reality of the present moment.

The gathering meets on Sunday mornings at 9:45 am in Fondren Hall at St. Paul's UMC - 5501 South Main, Houston, Texas and is taught by Dr. Bill Kerley. If you would like more information -

-----Original Message-----

From: John Watson [mailto:john.watson@pdq.net] Sent: Wednesday, September 12, 2001 7:11 AM To: Houshyar Moarefi
Cc: Paula O'Neill Weedon; Watson, Kimberly Subject: Celebration Proposal

Houshyar -

Based on committee input yesterday and Patsy Bolton's investigation, I have filled in the budget numbers for the attached board request. I understand that it needs to go before the Finance Committee prior to presentation to the board, so I would ask your assistance in providing a copy to Lew Humke and the other committee members.

I will be out of town on Thursday and Friday, returning late Friday night, so I will not be immediately available to answer questions about the proposal. Should you need to contact me, I can be paged at (713) 687-6941.

Let me stress the time crunch under which we are working: we were fortunate to get a prime location at a reasonable per person cost tentatively booked at this late date, but they are going to need a firm contract before the actual date can be secured. This does need board action this week.

Thanks for your help. If you need to reach me today, my contact information is shown below. After today, you can reach me by pager.

Thanks again, John

-----Original Message----- From: Dee Espinoza Sent: Thursday, September 20, 2001 12:35 PM To:

'kimberly.watson@enron.com' Subject: Ferry Kim, The info I have on the ferry is this: It is not much more expensive to have a deluxe cabin. Since one never knows about Italian accomodations, I would go with it. It is the old ferry boat that goes this route on Oct 7. Departs at 20.45 (8:45pm) and arrives at 06.30 (6:30am) on the 8th. The deluxe cabin is 105,000 ITL each (approx 50.00 USD). It is not clear. but it seems that the reservations fee is 94,000 ITL (about 45.00 USD) While the cabin rate is per person, the res fee is per cabin, I believe. The regular cabin is 47.00 each and 42.00 res. The car rate is 56.00 and res fee is 53.00. Now, I am guessing on this, as their is no clear explanation. It could be that there is a discount if you make a res ahead of time, i.e. 42.00 for prior res and 47.00 if you show up at departure time. Same as passenger/cabin fee. It may mean 45.00 with prior res or 50.00 if you show up. I'll let you know when I receive an answer. It may be next week as I just e-mailed the request this morning. Regards, Dee Dee Espinoza Travel Agency in the Park 1221 Lamar, ste 718 Houston, Tx 77010 713-860-1176 - direct line 713-650-7022 - fax

Description

Kim, Here is the Job Description and the Operational Accountabilities for the position I mentioned to you last Sunday. As you can see it will take someone with some very good skills in organizing and interpersonal relationships. It will also require someone who is fairly mature in their own spiritual journey. If you know someone who might fit the bill ask them to contact me and/or send me their resume. See you Sunday.

Rescheduled Date - Invitation - Hyperion / Reliant Energy Session,

Sender	robert_dayton@hyperion.com
Recipients	['robert_dayton@hyperion.com']
File	watson-k/deleted_items/125.

FYI ... for those who did not receive notification of the re-scheduled seminar originally set for September 12th. Please note that current registration exceeds 125 registrants, so please be sure to register soon if you plan on attending, so that The Four Seasons may be given an accurate attendee total to ensure proper accommodations. Thanks for your assistance!

The rescheduled date has been set for the Hyperion session featuring Reliant Energy, who will be demonstrating how they leverage Hyperion technology to deliver business value. If you were registered for the previous 9/12 session, you may contact Karen Wasmer directly (karen_wasmer@hyperion.com or 630-245-4772) to have your registration transferred.

Otherwise you may register at 800-286-8000 or www.hyperion.com/seminars.

Please feel free to forward this e-mail to others in your organization that you would like to attend. We look forward to seeing you there!

How Did Hyperion Help Reliant Energy Leverage their ERP and Data Warehouse Investments? How did Reliant Energy Address the Consolidation, Reporting, Analysis, Modeling, Budgeting and Forecasting Issues that existed within SAP?

"Delivered via a corporate Intranet portal, SPARC [Systemized Performance Analysis and Reporting Channel] provides: forward looking, integrated financial statements ... a repository for variance explanation across forecast cycles; and a communicator of performance data." Commentary by David Michie, Reliant Energy

From The Data Warehousing Institute's WHAT WORKS, Volume 11 - Case Studies.url>>

<http://www.dw-institute.com/whatworks11/cs/cs7/cs7.html>

Join us Tuesday, October 30th, 2001 at The Four Seasons Hotel to understand how Reliant Energy has addressed the major changes in its industry so that it now has the ability to manage the short-term and long-term business horizons in a more deregulated world. Reliant Energy, Arthur Andersen, and Thinkfast Consulting will present on how Reliant Energy leveraged their ERP and Data Warehouse investments with Hyperion to create SPARC, their reporting, analysis, budgeting, forecasting and modeling system.

Prior to Hyperion, according to David Michie, "...previous plan, actuals, and one-year forecast updates came from separate source systems utilizing different account definitions and formats, which made comparability and consolidation very difficult. This led to analysts re-formatting data, adjusting links, and modifying formulas. In addition, update-to-update changes could not be identified on a real-time basis."

Learn how Reliant Energy leverages Hyperion Solutions to: ? Reduce its Forecasting and Management Cycle from 8-10 days to 2-3 days ? Provide a "single version of the truth" for business rules with the Hyperion Analytic Platform, which has reduced the average decision making horizon from indefinite (multiple internal meetings) to minutes or hours ? Automate integration with their ERP Package ? Facilitate reporting, analysis, modeling and planning from multiple data sources - including ERP, Data Warehouse, Legacy and others ? Eliminate manual efforts of spreadsheet shadow systems - re-formatting of data, adjusting links, modifying formulas, etc. ? Gain an extensible solution that can be leveraged enterprise wide with the Hyperion Analytic Platform ? Successfully deliver business value, utilizing partnerships with Arthur Andersen and Thinkfast Consulting

Where: The Four Seasons 1300 Lamar, Houston, TX 77010 (713) 650-1300 When: Tues, October 30th, 2001 Time: 9:00 AM - 12:00 PM

A continental breakfast will be served starting at 8:15 AM.

(See attached file: Houston Seminar Invite 10-30-01 - Reliant Energy.doc) Agenda 08:15 ? 09:00 Registration / Continental Breakfast 09:00 ? 09:30 Business Value of Analytics 09:30 ? 10:30 Reliant Energy Discussion and Demonstration of Consolidation Process 10:30 ? 10:45 Break 10:45 ? 11:30 Reliant Energy Discussion and Demonstration of Web Deployed Budgeting, Forecasting and Modeling Process 11:30 ? 12:00 Q&A

For additional information, please contact Robert Dayton at Robert_Dayton@hyperion.com

Recipients	['jfawcett@sempra.com', 'fawcett@enron.com']
File	watson-k/sent_items/731.

All of these sound great. Why don't you pick one. We like all of these places.

Kim. [Watson, Kimberly] -----Original Message----- From: Fawcett, Jeffery [mailto:JFawcett@Sempra.com] Sent: Friday, February 01, 2002 10:34 AM To: Watson, Kimberly Subject: Plans for tonight

Kim,

Those ideas sounded pretty good. I got a list of places from Lisa also:

Benjy's (on Dunstan by Ballys) Raven Grill (Bissonett) Goode Company Seafood Sierra Grill Floridita Seafood Grill (the place on Kirby/Richmond) Tony Mandola's Seafood River Oaks

Any of these sound good to us. I think Lisa's preference is to avoid "heavy" places, and go for either a place with variety or something that's more seafood oriented. However, we're flexible. By the way, 6:00 p.m. sounds perfect.

Whatdaya think? Jeff

Demise of Sonoran Pipeline

Sender	jfawcett@sempra.com
Recipients	['lorraine.lindberg@enron.com', 'steven.harris@enron.com']
File	watson-k/e_mail_bin/309.

You probably could have predicted this given the fact that Calpine has dropped plans for over \$20B in capital projects. This should help prop up basis expectations for at least the near - long term. Congratulations!

Jeff

Sonoran Pipeline scrapped Kinder Morgan Energy Partners and Calpine said Friday they have dropped plans for a \$1.7 billion, 1,160-mile gas pipeline from the San Juan Basin in northern New Mexico to California. "The Sonoran Pipeline was unable to secure sufficient binding commitments to make a successful project given market conditions," the companies said in a statement said. "Both KMP and Calpine will continue to evaluate other opportunities to serve the growing California market." But no firm plans were mentioned. Plans for the Sonoran Pipeline were announced last spring. Sponsors had called for a 750,000 Mcf/day system that could be expanded with compression to up to 1 Bcf/day.

FW: New Generation Report for July 2001

Sender	sarabeth.smith@enron.com
Recipients	['kimberly.watson@enron.com', 'don.hawkins@enron.com']
File	watson-k/inbox/26.

Kim, Here is the WSCC report from ENA on status of new generation facilities. The status on EAMR is that I am in the process of finalizing the writeup on power plant services that I promised you a copy of. We have been working very closely with John Dushinske's group on 3 new projects off of NNG where EAMR would potentially build or provide services for new laterals to new power plants. The projects are Lincoln Electric System (6.5 miles), Omaha Public Power (<1 mile) and Mid American (12 miles). On LES, the customer went out with an RFP for the design, ROW and construction management only. On OPP, Chuck Wilkinson is his proposal to the customer gave 3 options: 1) NNG builds and owns with customer paying overheads and tax gross up, 2) NNG rolls project into rates (cost still includes overheads but no tax gross up) and 3) customer owns and EAMR builds and possibly operates facility. The proposal for OPP is similar to MidAm. We have found that options 1) and 2) are fast and easy because Level A cost estimates can be used, however, for option 3, a much more detailed bid is required which is sort of like a Level B+ estimate, which is more detailed than normal Level B estimates. We are working through the process and various issues for option 3. To get definitive bids for option 3, a 30 to 45 day lead time is required. This ground work for NNG will come in handy on TW projects.

RE: ETS - Investor Questions

Sender	jan.moore@enron.com
Recipients	['tracy.geaccone@enron.com', 'kimberly.watson@enron.com']
File	watson-k/inbox/301.

Tracy:

I recalculated combined throughput utilization against contracted-for capacity for the West & East markets.

I used the throughput for West & East markets vs. contracted capacity (1090 West; 660 East, total 1750). Below is what I came up with.

Question 3: 84% throughput utilization against contracted-for capacity for September YTD.

Jan

-----Original Message-----

From: Geaccone, Tracy Sent: Monday, October 29, 2001 9:12 AM To: Moore, Jan Cc: Watson, Kimberly Subject: RE: ETS - Investor Questions Importance: High

We don't report this info separate. I am afraid it will lead to alot more questions. I would prefer system average.

Thanks

-----Original Message-----

From: Moore, Jan Sent: Friday, October 26, 2001 3:20 PM To: Geaccone, Tracy Subject: RE: ETS - Investor Questions

Tracy:

Talked with Kim Watson. This is how she suggested we answer Investor Question 3:

West Market - 95% throughput utilization against contracted-for capacity for September YTD East Market - 67% throughput utilization against contracted-for capacity for September YTD

The West and East are two separate markets for TW. The majority of TW's business is the West market. The East market offers our shippers more flexibility. The two percentages should stand alone and not be combined.

Kim felt like these needed to be separate as they are two distinct markets

Thanks! Hope you have a good weekend and don't get any calls from the office.

Kase Hedging Class, Early Bird 'til 3/11, Houston

Sender	info@pmaconference.com
Recipients	['kimberly.watson@enron.com']
File	watson-k/e_mail_bin/389.

Derivatives For Energy Professionals

Two Full Days, April 9 - 10, 2002 Early Bird Special Deadline is March 11th Houston, TX

Energy and Power Consumers and Producers?

Are you a consumer that hesitated to buy forward in 2000 or bought too soon last year? Are you a producer who hedged too early in 2000 and did not hedge enough in early 2001? Did you take undue credit risk because you did not know how to estimate exposure? Are you comforting yourself with the fact that you did not hedge to make money? Let's face it - you did not hedge to lose money either. Kase's Derivatives for Energy Professionals will provide you with the indispensable strategies and tactics you need to avoid costly errors and equip you to make the important hedging decisions necessary for survival in today's treacherous marketplace.

Content * The Derivatives Market * Buying and Selling Forward * Hedging Long and Short Positions * Trigger Deals, EFP's, Swaps * Hedging Spreads and Basis * Volatility and Options * Hedging with Options * Hedging with "Exotics" * Market Behavior in Favorable Price Environments * Market Behavior in Adverse Price Environments * Developing a Strategy to Match Risk Appetite * Selecting Appropriate Instruments * Developing Policies and Procedures

In This Class You Will Learn About

* How futures and OTC derivatives work * Hedging prices, basis, margins, and spreads * Math for volatility, VAR, Monte Carlos * Options, including puts, calls, floors, caps, synthetics, and more * Cost-reducing hedge strategies, such as three-way collars, option spreads * How the market behaves, including how long bull and bear markets typically last, how contango or backwardation effects hedging, the impact of removing hedges * What hedge maturities should be used * Considerations for custom strategies * Developing policies and procedures

Registration Fees Include a Copy of Kase's video "Effective Risk Management"

Early Bird Deadline is March 11

Early Bird Special: \$895.00 Two or More Early Bird: \$825.00 Regular: \$995.00 Two or More: \$895.00

ORDINARY LIFE - Thoughts and Ideas to Help You Live a Happier Life

Summary of January 13, 2002

Dear Folks ?

There is no way I can give a summary of the two touching and brilliant presentations that were given in the Ordinary Life Gathering this past Sunday.

SuZanne and Jennifer Feather gave their individual perspectives and experiences on dealing with Jennifer's discovery and announcement of being lesbian.

Over 150 people attended the presentation.

When SuZanne and Jennifer were finished they got a well-deserved standing ovation.

If you were present you saw examples of courage and love that moved many to tears. Courage and love are, in my opinion, what the spiritual journey is all about.

Audio tapes of the presentation will be available this coming week. If you live out of town, one can be sent to you. The best way to expedite this, if you want a tape, would be to send a check to me for \$6.00 made payable to Ordinary Life Gathering. I'll make sure you get a tape as soon as possible.

* * *

Those of you in Houston might be interested in this:

This Thursday evening at seven o'clock my beautiful bride, Dr. Sherry Beeman, and I will be conducting a relationship seminar sponsored by St. Paul's School. The topic is:

"Can We Talk? Don't Just Communicate, Really Connect With Your Partner."

The seminar is free but they do request that you register by phone so they will know how many to prepare for. The number is 713-528-6779.

The location of the seminar is Fondren Hall in the Jones Building at St. Paul's.

* * *

Also, Perkins School of Theology is offering several courses this coming weekend that you might want to check out.

The classes include:

The Book of Job How The Bible Got To Be The Way It Is Six Hundred Years of Growth: Church and Theology, 600-1200
Christian Understanding of War and Peace Islam and Community

Ferry

Sender	dee.espinoza@travelpark.com
Recipients	['kimberly.watson@enron.com']
File	watson-k/inbox/51.

I have found a ferry that appears to be the shortest/cheapest, but still have more investigating to do. If you go drive from Palermo down to Messina, you can cross to Villa San Giovanni. About 200 km.(2 hrs) There are ferries every 15 minutes. The cost depends on the size of the car, but is anywhere from 30,000 to 61,000 ITL. That is 14.00 USD to 28.00 USD. That would make your drive farther. You can find the crossing at the narrowest strait between Sicily and the mainland near Reggio di Calabria. I'm working on hotels now. Then the cars. Dee

Sender	kimberly.watson@enron.com
Recipients	['cgingrich@ziffenergy.com']
File	watson-k/sent_items/938.

Cameron,

I'm glad you found the bulletin board. The units are in MMBtu/d, the month should be specified by the column.

Thanks,

Kim Watson

-----Original Message-----

From: Cameron Gingrich [mailto:cgingrich@ziffenergy.com] Sent: Friday, November 02, 2001 6:39 PM To: Watson, Kimberly Subject: Available Capacity

Kimberly,

As per our conversation this afternoon, I was able to find the information on the unsubscribed capacity portion of your website but I am unsure of the units. For instance at the Loc Name "PNM RIO PUERCO BI-DEL" there appears to 70000 available for delivery. Is this MMBtu/d, MMBtu/month, Mcf?? Any help would be appreciated.

Thank-you, Cameron Gingrich, Analyst Ziff Energy Group Phone: 403.234.4296 Fax: 403.261.4631

Electronic Pay Stubs

Sender	payroll.enron@enron.com
Recipients	['kimberly.watson@enron.com']
File	watson-k/deleted_items/58.

Get ready. Beginning in November, electronic pay stubs will be available to all employees who have their paychecks direct deposited into their bank account. Electronic pay stubs are an easy, fast, and efficient way for you to get your payroll information. They will also help Enron to realize a considerable savings in time and dollars spent over traditional printed pay stubs.

If you prefer to receive a hardcopy of your pay stub, click on the link below to complete a request form. This form must be submitted to Payroll by October 15, 2001. Unless you submit a form your pay stub information will default to electronic viewing.

Please click on the link below.

Name: KIMBERLY WATSON Personnel number: P00505609 Phone: 7138533098

If you have questions about electronic pay stubs, please contact Janice Priddy (Payroll) 713-853-7839 or Marie Newhouse (ClickAtHome) at 713-345-4185 or send an email to Enron.Payroll@enron.com (Enron Payroll in Outlook).

Stay tuned for more details in the coming weeks.

Ferry

Sender	dee.espinoza@travelpark.com
Recipients	['kimberly.watson@enron.com']
File	watson-k/inbox/139.

Kim, The info I have on the ferry is this: It is not much more expensive to have a deluxe cabin. Since one never knows about Italian accomodations, I would go with it. It is the old ferry boat that goes this route on Oct 7. Departs at 20.45 (8:45pm) and arrives at 06.30 (6:30am) on the 8th. The deluxe cabin is 105,000 ITL each (approx 50.00 USD). It is not clear. but it seems that the reservations fee is 94,000 ITL (about 45.00 USD) While the cabin rate is per person, the res fee is per cabin, I believe. The regular cabin is 47.00 each and 42.00 res. The car rate is 56.00 and res fee is 53.00. Now, I am guessing on this, as their is no clear explanation. It could be that there is a discount if you make a res ahead of time, i.e. 42.00 for prior res and 47.00 if you show up at departure time. Same as passenger/cabin fee. It may mean 45.00 with prior res or 50.00 if you show up. I'll let you know when I receive an answer. It may be next week as I just e-mailed the request this morning.

Transwestern is seeking your assistance in conducting a workshop on its proposed Transport Options Program. We are asking a small group of our business partners representing a cross section of Transwestern's customer base to help us resolve some of the remaining details of the program. During the 2-hour workshop, Transwestern will attempt to answer

questions raised by its customers following the original rollout of the program a couple of weeks ago. It is hoped that following the workshop, we can put the finishing touches to a service offering that merits the support of those involved in the workshop group as well as the FERC and Transwestern's shippers. We ask that you send both a commercial representative as well as a regulatory or legal representative in order that we can address the full range of issues affecting this proposed filing. Below are the details of the meeting:

Double Tree Hotel 400 Dallas Street Houston, TX 77002 (713) 759-0202

Meeting Room: Fannin Room, 2nd Floor Date: Thursday, August 31, 2000 Time: 2:00 - 4:00 p.m. Coffee, soft drinks and snacks will be provided

RSVP your company's attendance by telephone or Email to Jeff Fawcett at 713-853-1521 or jfawcet@enron.com. Your company's participation in this workshop will be greatly appreciated.

Recipients	['onidesigns@aol.com', 'lpolk@enron.com', 'pfisch1330@hotmail.com']
File	watson-k/girls/1.

Sounds like almost everyone can make the weekend. It will be fun. Ready for your food assignments? Well, here they are:

Friday Dinner: If you get there by 7pm, we will be going out to eat. (We might leave a note on the door telling you where we are.) If you get there later, you are on your own for dinner, but Lisa promises to leave the door unlocked and the light on for you. (The dog doesn't bite too hard.)

Saturday Breakfast: Sam and Lee

Saturday Lunch: We'll be going down to Kemah for lunch, drinks by the bay and shopping. If you're not up for it, you can stay at home by the pool and relax, while we gossip about you.

Saturday Dinner: Cynthia, Paula, and Phyllis (make it lite, please)

Sunday Breakfast: Kim and Janell

Snacks: Judy, Lisa and Oni

As usual, everyone should bring drinks enough for one. A few wine bottles would be delightful, also. Lisa says she has plenty of "paper products", but I'm not sure she has enough toilet paper for all of us for the weekend, so throw some of that in your bag too if you have extra at home. Call me if you have questions.

The next Girls' Weekend will be:

November 10th (7 pm) through November 12th At Lisa Polk's house: 14023 Bay Oaks Blvd, Houston Texas 77059

I'm not certain where to direct this request, so, if contract admin is not the right group, I hope you will call me or route this request to appropriate group ASAP.

I have some clients (munis in Southern California) who are interested in tradeable rights on SoCal's system and possibly obtaining their own transport on TWPL.

I have an old (1991) Transwestern system map, and I would like to get an up to date set of system maps (system & laterals, compressors, delivery points, etc) at your earliest.

Please do not hesitate to call me should you wish to discuss this or if there is a charge. My mailing address & phone (for charges for the maps or questions) are as follows:

Best regards,

Carol Caul President Energy Business Inc 685 N Post Oak Ln Ste 100 Houston TX 77024-4606 ph: 713-680-2500 fax: 713-680-2574 email: xxenergy@ix.netcom.com

File	watson-k/sent_items/674.

Dennis,

What are your thoughts on this request? I'm not even sure that our map department exists because of December 3. If we respond to her request, we may want someone at an officer level at the Navajo Nation to request this data and then send it directly to the officer.

Thanks, Kim.

-----Original Message-----

From: Taylor, Gina Sent: Tuesday, January 22, 2002 11:19 AM To: Kuehl, Toby; Watson, Kimberly Subject: RE: Pipeline Routes

I would caution you that we have not provided any maps since Sept. 11. Kim, if you feel this is a reasonable request and legitimate, please handle appropriately.

Thanks, Gina

Subject: Pipeline Routes

Hello,

My name is Rachelle L. Silver and I'm a permanent employee of the Navajo Nation Government. I worked under the Division of Natural Resources in the Navajo Land Department-GIS Section. I would like to know if anyone there does any pipeline mapping? If so, I would like to have a copy of your latest digital data where the your pipeline covers the Navajo Nation to Big Boquillas Ranch area. I would very much appreciate it. I'll be looking forward in hearing from you. Thank you.

Sincerely, -- Rachelle L. Silver, Computer Programmer Analyst III The Navajo Nation/Division of Natural Resource/Navajo Land Department P.O. Box 9000 Window Rock, AZ 86515-9000 Phone #:(928) 871-6909 & Fax #:(928) 871-7045

Please respond to Carey Hi Kim! Thanks for the information. Bonnie's e-mail is yank@trip.net and her phone # is (361) 758-8058. Renee' phone # is (361) 790-8784 & she is in the process of getting an e-mail address. I believe that after work some day might be better for us for the get-together; but of course whatever is easier for you is most important. Talk to you later. Carey ----- Original Message ----- From: <Kimberly.Watson@enron.com> To: Carey <carey@cableone.net> Sent: Tuesday, January 09, 2001 3:21 PM Subject: Re: Fw: hotel & cooking class

Hi Carey!

The name of our hotel is SRS Hotel Du Rond Point De Longchamp, 86 Rue Del Longchamp, Paris 75116. Telephone: 33-1 45051363, fax: 33-1 47551280. I am in the process of putting together several sheets of information about our Paris trip for all the girls for distribution at our meet and greet social hour. I need to know if you, Bonnie or Renee have any constraints in coming to Houston on a weekday vs. a weekend. If we get together on a weekend, January 20 or 21 works for me. If we get together after work on a weekday, my calendar is pretty much open for the rest of the month. Do you guys have a preference? I hope to nail down a date with everyone and communicate the date soon.

By the way, I just picked your voice mail. Your email message did come through to me. My email address is kimberly.watson@enron.com. I got your message on "no" to the cooking school for you, Bonnie and Renee. Also, do you have Bonnie's and Renee's phone number and email address? I have not been able to get in touch with Judy or Janell today to get this information. It will help speed up the communication of our social gathering date.

Thanks and I look forward to meeting you! Kim.

ORDINARY LIFE - Thoughts and Ideas to Help You Live a Happier Life

Summary of November 18, 2001

Dear Folks -

I understand that Marsha Davis-Riley did an outstanding job in Ordinary Life yesterday. I am grateful to and for her.

+++++

Speaking of gratitude ?

+++++

I know that many of you will be away from your computers later this week so you might not receive the preview that will go out this coming Friday until the weekend is over. That's why I wanted to let you know that this coming Sunday at the Ordinary Life gathering we'll be talking about gratitude.

!!!Please bring your favorite stories, remembrances and/or readings. Let's give thanks together!!!

Be aware that I am so grateful to and for each and every one of you whether you attend Ordinary Life in person or by this newsletter.

Much love,

Bill Kerley

Ordinary Life is a gathering that provides an opportunity to develop an enlightened heart and an awakened mind to the reality of the present moment.

The gathering meets on Sunday mornings at 9:45 am in Fondren Hall at St. Paul's UMC - 5501 South Main, Houston, Texas and is taught by Dr. Bill Kerley. If you would like more information -

FW: Italy car and ferry

Sender	kimberly.watson@enron.com
Recipients	['dennis_dye@hotmail.com', 'janell_dye@hotmail.com', 'paul.donnelly@bakeratlas.com']
File	watson-k/sent_items/209.

J, D, P and J,

Here is a previous email from the travel agency regarding car and ferry info. I have asked Dee to book the overnight ferry from Palermo to Naples. I believe that we still have a 6 hour drive to Lucca, but that will put us there sooner than the overnight ferry to Livorno with a 2 hour drive. She is also confirming the car and rate for us (approx \$742 for each car).

FYI, I have received a few more faxes from available Rome Hotels, but none of them have a better location than what we have booked and a few of them were even more expensive than what we have booked. Janell is on the hunt for a Florence hotel. I will prepare faxes in mass for Florence tonight and send them out tomorrow.

Dorothy called me yesterday and wanted to know how our plans are coming. She and Tom are very sad that they will not be able to join us. I told her we will drink for them everyday and have them in our thoughts. She is doing well and hopes to return to the office in about three weeks on a part time basis.

Also, John and I are confirmed in a Rome hotel for the 11th-13th which is only about 5 blocks from the train station where we will return the cars. We can put everyone's luggage in our room when we return to Rome and have a nice dinner before you guys taxi to the airport to return home.

I will keep you posted as we hear more.

Thanks, Kim.

From: Dee Espinoza [mailto:dee.espinoza@travelpark.com] Sent: Tuesday, August 14, 2001 4:25 PM To: 'kim.watson@enron.com' Subject: Italy car and ferry

I have 2 Alamo full size 4 dr/5 passenger cars reserved for you. We do not have to prepay. The all-inclusive rate is 1,617,250. ITL (approx 742.00) for the 12 days. This includes collision and theft insurance, taxes and unlimited mileage. I think that this is very good. 1 car booked under John Watson and 1 under Dennis Dye. They are manuals.

The ferry from Palermo to Naples is daily, departing at 800pm, arriving 700am. It looks as though the vehicles will cost between 111,600 and 134,600 each. The passengers in a double outside cabin are 96,500 to 111,500.) I believe, per passenger.

The ferry from Palermo to Livorno departs at 1100pm and arrives the next day about 5pm. The double outside suite is 240,000. The coach seat is 120,000. Each car is 175,000 to 205,000. I need to verify if the cabin rate includes the passenger fee.

I had found a ferry to Salerno, but it only operates 1 day a week, not the day you need. I'll get back to you.

ORDINARY LIFE - Thoughts and Ideas To Help You Live a Happier Life

PREVIEW for January 13, 2002

Dear Folks -

"What is it that you want to do with the one, wild, precious thing called your life?" That is the magnificently disturbing question asked by poet Mary Oliver.

Questions - that is my starting point for our gathering this week.

Questions can be dangerous - they can take us right to the edge of all we know, of what is comfortable to us.

Every morning of your life, whether you are conscious of it or not, you begin your day with questions. We keep them going throughout the day.

Last year you filled out a questionnaire for me which I want to talk about this Sunday. And, I want to tell you a story about the most important question of all.

I'm wondering - will you be there? I hope so.

Much love,

Bill Kerley

Derivatives For Energy Professionals

Two Full Days, April 9 - 10, 2002 Early Bird Special Deadline is March 11th Houston, TX

For More Information Go To www.kaseco.com/classes/derivatives.htm

Energy and Power Consumers and Producers?

Are you a consumer that hesitated to buy forward in 2000 or bought too soon last year? Are you a producer who hedged too early in 2000 and did not hedge enough in early 2001? Did you take undue credit risk because you did not know how to estimate exposure? Are you comforting yourself with the fact that you did not hedge to make money? Let's face it - you did not hedge to lose money either. Kase's Derivatives for Energy Professionals will provide you with the indispensable strategies and tactics you need to avoid costly errors and equip you to make the important hedging decisions necessary for survival in today's treacherous marketplace.

Content * The Derivatives Market * Buying and Selling Forward * Hedging Long and Short Positions * Trigger Deals, EFP's, Swaps * Hedging Spreads and Basis * Volatility and Options * Hedging with Options * Hedging with "Exotics" * Market Behavior in Favorable Price Environments * Market Behavior in Adverse Price Environments * Developing a Strategy to Match Risk Appetite * Selecting Appropriate Instruments * Developing Policies and Procedures

In This Class You Will Learn About

* How futures and OTC derivatives work * Hedging prices, basis, margins, and spreads * Math for volatility, VAR, Monte Carlos * Options, including puts, calls, floors, caps, synthetics, and more * Cost-reducing hedge strategies, such as three-way collars, option spreads * How the market behaves, including how long bull and bear markets typically last, how contango or backwardation effects hedging, the impact of removing hedges * What hedge maturities should be used * Considerations for custom strategies * Developing policies and procedures

Registration Fees Include a Copy of Kase's video "Effective Risk Management"

Early Bird Deadline is March 11

Early Bird Special: \$895.00 Two or More Early Bird: \$825.00 Regular: \$995.00 Two or More: \$895.00

Marriott West Loop, Houston

ORDINARY LIFE - Thoughts and Ideas To Help You Live a Happier Life

PREVIEW for March 10, 2002

Dear Folks -

A tradition in our marriage is taking some time off and away when one of us has a birthday. Sherry's is coming up and we're going to go celebrate. I've asked one of the most popular guest speakers to return to spend time with you.

Marsha Davis-Riley has spoken often to Ordinary Life and always with good response. This Sunday the title of his presentation is:

"Homecoming"

This is what she has to say about her topic:

"No matter how high the stakes, it is tempting to remain in a limited life role, languishing in its safety, borne of familiar patterns and rituals. The freedom to improvise rarely occurs to us. It just happens one day on our way home."

I'm not sure exactly how she will amplify on that but it sounds very compatible with what we've been talking about. Certainly it sounds as if it fits "Journey into Wholeness."

I'll see you on the 17th to talk about SIN.

Much love,

Bill Kerley

ORDINARY LIFE - Thoughts and Ideas To Help You Live a Happier Life

PREVIEW for October 28, 2001

Dear Folks ?

Shortly after the terrorist attacks of 9/11, I had a meal with Michael Butera. We get together and talk about our spiritual journeys. I find him a most gifted spiritual being. After listening to him for I while, I asked him if he would be willing to come and speak to our Ordinary Life Gathering. He his agreed to do so this Sunday.

His title will be:

"Fear, What Is It and How to Handle It"

This is what he says about this topic:

"Finding ourselves alive in an independent form, vulnerable and subject to death, we become frightened, afraid of extinction. This fear is then projected on all our experience. Especially today we may find that our usual consolations are not doing the trick. Like the "bottom" reached in an addiction, we will become overwhelmed with our fear or discover that fear is a characteristic that is unnecessary - just as an addict discovers that the object of addiction is not necessary. What a blessed discovery this is."

Do yourself a spiritual favor and come to hear this spiritual fellow.

Much love,

Bill Kerley

ORDINARY LIFE - Thoughts and Ideas To Help You Live a Happier Life

PREVIEW for March 3, 2002

Dear Folks -

I hope you have been allowing the story of One/Two Man to work its magic on you. It is a most wonderful story.

But what in the world - either the outer or inner world - does such a story have to do with us? And those various animals who helped One/Two Man in his task? Especially the snake?

When we gather this week, as promised, I'll give you some ideas about what this story means. What I'm mostly interested in is how we can use this story and others like it - and there are many - for our own movement toward freedom and love.

I also want to connect this story to that primal Judeo-Christian story of the exodus.

I hope to see you this week as we continue our journey from bondage to freedom, from darkness to light, from death to life.

Much love,

Bill Kerley

ORDINARY LIFE - Thoughts and Ideas To Help You Live a Happier Life

PREVIEW for October 21, 2001

Dear Folks -

There is a story told in Buddhism of a monk who was fleeing a tiger. He ran to the edge of a cliff and, being unable to stop himself, went over the edge. He caught the branch of a tree on his way down. He looked down and way below on the ground was another tiger. He glanced aside and saw a strawberry on a bush growing from the edge of the cliff beside him. He let go of the limb with one hand, picked the strawberry and savored it.

This story is told as an example of the ability to enjoy a true present.

But how can we do that when our experience is that our lives are falling apart?

Our lives are really no different than they were prior to 9/11. What is different is that we see the reality of "what is" a bit better. True, these are difficult times. I'm inviting you to come to the Ordinary Life Gathering this Sunday. What I want to offer is comfort and suggestions on not just how to survive our present circumstances but how to thrive in the midst of the places that scare us.

I look forward to seeing you then.

Much love,

Bill Kerley

Ordinary Life is a gathering that provides an opportunity to develop an enlightened heart and an awakened mind to the reality of the present moment.

The gathering meets on Sunday mornings at 9:45 am in Fondren Hall at St. Paul's UMC - 5501 South Main, Houston, Texas and is taught by Dr. Bill Kerley. If you would like more information -

ORDINARY LIFE - Thoughts and Ideas To Help You Live a Happier Life

PREVIEW for November 11, 2001

Dear Folks -

The spiritual practice I am attempting to teach about isn't about believing anything - at least not at first.

It isn't about attempting to get someplace - like to security.

These matters, and others, are by-products of our willingness to give up trying to transcend ordinary life and simply to be with life as it is.

When we gather this week, I want to talk with you - in light of what we have been discussing - about the principle of "sacred unity."

Think about this: In his ministry Jesus was constantly inviting all sorts and conditions of people to him. He ate and drank with all kinds of people. He excluded no one. He was enacting the principle of sacred unity. In fact, this got him into far more trouble than any claim he ever made about himself.

What might it mean for us to practice the principle of sacred unity in both the outer world and in our inner life?

Whoever you are, whatever your condition I invite you to include yourself when the Ordinary Life gathering meets this week.

I look forward to seeing you and being with you.

Much love,

Bill Kerley

ORDINARY LIFE - Thoughts and Ideas To Help You Live a Happier Life

PREVIEW for February 3, 2002

Dear Folks -

Wow! What a ton of feedback I've gotten from the past two Sundays. I'll share that with you this week. Most of it is about the presentation on our work in Bolivia. Some of it about community- building.

Some of the more "theological/theoretical" questions I've gotten have to do with the general area of "how do we know what we know and how do we know if it is true?"

If our goal is to take the journey of life in such a way that we do not die an unlived life, how do we know that the choices we make about being and doing are correct and true?

A couple of years ago there was a movement that attempted to answer this question by the phrase WWJD - What Would Jesus Do? What, for example, would Jesus do about the terrorist attacks on 9/11? Then there were the copycats of that position - What Would Buddha Do? etc. My beautiful bride suggested WWGUD - What Would A Grown-Up Do?

This week when we gather I want to talk with you about these terribly important matters ?

How Do We Know - For Sure

And

How Do We Decide?

I hope you choose to be present.

Much love,

Bill Kerley

Apparently Sam can make it. Shoot her a recipe, or let me know and I'll forward it tomorrow night...

ILY, JW

===== Original Message From "SAM COOK" <samhill39@msn.com> =====

Hey there...I'll be glad to be a part of our gourmet group on Saturday, 3/23...please send me recipe for whatever I can bring..thanks and please include me in directions when ready. Thanks, y'all. Looking forward to seeing you two. SAM

----- Original Message -----

From: John Watson Sent: Tuesday, March 12, 2002 8:11 AM To: Jerilynn & Tom Daugherty; Jerilynn Daugherty; Jennifer Harvey; Jerry Granacki; Jim McKinley; Hattie Thurlow McKinley; Sam Cook Cc: Kimberly Watson Subject: Assignments for March 23

Ordinary Life Gourmands -

We're ready to meet at Tom & Jerilynn's house for our bimonthly gathering of the Gourmet Group, Saturday, March 23. I believe the plan is to meet at 6 p.m., so mark your calendars accordingly. If that is not correct, I'll let you know. Directions will be provided before the event.

Kim has doffed her toque long enough to do research on various recipes a la Francais, and we submit the following assignments pour du nuit:

Jennifer & Jerry -

Bring French bread, plus

Title: Roasted Garlic

Servings: 2 Total Time: 45 min. Baking Time: 40 min. Preparation Time: 5 min. Comments: This a really simple appetizer to make. If you haven't had roasted garlic before, you'll be amazed how roasting makes the pungent garlic into a buttery, mellow spread. I like it best spread on fresh bread with goat cheese on top. Its also a great butter and mayonnaise substitute for sandwiches, that's low in calories. (Ignore the 83% fat percentage in the nutritional information below, its counting all of the olive oil, most of which slips off) The whole head of garlic has only 24 calories!!

Ingredients: 1 head garlic 1/2 teaspoon olive oil Instructions: Preheat oven to 450 degrees F. Chop top 1/5 of garlic head (from the pointy tip). Discard any extra garlic skin, leaving most of it intact. Place garlic head in a medium sized piece of aluminum foil. Pour olive oil on top of garlic. Wrap foil around garlic, encompassing the entire head. Bake in oven until the garlic is golden brown and the garlic pulp is easily removed from its individual shell (around 40 minutes). Remove from oven; let cool.

plus

Baked Pears on Sugared Puff Pastry with Caramel Sauce <http://www.epicurious.com/run/recipe/view?id=10012>

Jim & Hattie Haricots Verts a La Vapeur <http://www.epicurious.com/run/recipe/view?id=11972>

plus Red Pepper Soup (to be faxed by Kim to 409-938-3710) plus two bottles of red wine (French, of course)

Tom & Jerilynn - our hosts for the evening

pate (purchased), cocktail party toast 2 selections of French cheese crackers 2 bottles of white wine (French)

Kim & John Duck with Orange Sauce 2 bottles of red wine (French)

Sam Cook - is not sure whether she can attend, so her assignment is pending.

We look forward to seeing you all there!

Bon jour et bon chance!

Kim & John Watson

ORDINARY LIFE - Thoughts and Ideas to Help You Live a Happier Life

Summary of October 28, 2001

Dear Folks ?

Already I have heard from a number of folks what an outstanding job Michael Butera did yesterday in the Ordinary Life gathering. He always does. It is impossible to provide a summary of what he did. Though he speaks from deep preparation, little of what he says is on paper. There will be a tape available of his presentation.

His topic was fear and how to deal with it. These are certainly fearful times.

This seems to be true on both personal and global levels.

On my own personal level, the eye surgeon discovered scar tissue growing on my retina last week. This is a possible side-effect of the surgeries I've had. If this scar tissue can't be dealt with by medication, I'll have to have more eye surgery.

On our national and global levels, things are out of control.

Let me recommend to you a couple of resources to draw on for these troubling times.

One is a book that you might want to be reading as we continue to speak about our spiritual journey in light of our present national and global context. The book is "When Things Fall Apart: Heart Advice for Difficult Times" by Pema Chodron. One of her points is that the very effort to find a safe and secure place is what causes us so much suffering. This book will both challenge and comfort you.

The other resource is to visit a web site where you can find two talks by Thich Nhat Hanh. One is a sermon he gave at Riverside Church right after the 9/11 attacks. The other is an interview he gave entitled "If I Could Talk With Osama Bin Laden." You can find all of this at

<http://www.plumvillage.org>

I look forward to seeing you this coming Sunday.

Much love,

Bill Kerley

File	watson-k/e_mail_bin/265.

Discover new ways to share information enterprise-wide and drive increased value to your company's bottom line. Attend this invitation-only seminar featuring Ameritrade.

~~~~~ "Financial modeling and reporting in an extremely dynamic operating environment requires cutting-edge tools. Using Hyperion software, with support from Navigator, we have taken a huge step forward in creating an integrated, accessible data environment, that is both flexible and efficient. They say knowledge is power. We are truly empowering our decision makers." - John Langwith, VP Finance, Ameritrade ~~~~~

Your analytical systems contain a wealth of data - yet your company taps just a fraction of it. But with the power of Hyperion's strategic analytical solutions, all the data you and your co-workers need is right at your fingertips. And that information can be shared quickly and easily across your enterprise via the Web.

~~~~~ Discover how Ameritrade revolutionized its budgeting, planning and forecasting. ~~~~~ A pioneer in the online brokerage industry, Ameritrade has 26 year's experience providing clients a self-directed approach to

investing. When the company realized that its outdated planning process was hindering performance, Ameritrade quickly installed a comprehensive strategic planning platform. Built using Hyperion solutions, this platform gives Ameritrade a dynamic, integrated decision-making tool that supports budgeting, forecasting, capacity planning and financial modeling.

Register for this seminar now at: <http://hyperioninfo.01o.com/s/J?T=e2v&R=1343866702>

At this seminar you'll hear directly from Ameritrade's John Langwith, VP Finance, Private Client Division, and Tim Nowell, Director, Business Planning and you'll glean vital, actionable information, including: - How Ameritrade now forecasts and plans on demand - and connects all operational units to ensure correct and consistent data. - How this solution boosts Ameritrade's decision-making flexibility by enabling it to plan and forecast with complex "what if" scenarios. - Why a common set of tools on a common platform drives faster, more accurate decision-making and fosters communication across all functional areas and business units. - How a strategic planning solution integrates easily with existing ERP systems and data warehouses.

~~~~~ Navigator Systems - A Hyperion Gold Consulting Partner  
~~~~~ Combined with Hyperion analytical applications, Navigator Systems helps its clients drive profitability with innovative business intelligence and knowledge management solutions. Navigator's approach integrates business, design and technology expertise to create automated closed-loop solutions for deployment via internet, intranet or extranet. Based on the success of its clients, Inc. magazine named Navigator one of America's fastest growing, privately-held companies for four consecutive years.

ORDINARY LIFE - Thoughts and Ideas To Help You Live a Happier Life

PREVIEW for January 13, 2002

---

Dear Folks -

I mentioned to you a few weeks ago that nothing divides the Christian church in the Western world any more than views on how to interpret the Bible. On the one hand there is either the natural or conscious literal approach and, on the other, the mytho-poetic approach. The topics over which various groups within the Christian tradition have the most controversy are views about creation, homosexuality and the historic Jesus.

We will have a first-hand opportunity to explore one of these - the issue of homosexuality - this Sunday as a mother and daughter share with us their story.

Jennifer Feather grew up in the St. Paul's community. Her mother, SuZanne Feather, has been very active at St. Paul's.

The Ordinary Life Gathering will combine with the Point of View Class this Sunday to hear these two women share their experience. About what they will be doing, Jennifer writes this:

"Religion is a fundamentally communal experience. Shared beliefs and rituals form its foundations. However, the practice of our faith is also inextricably bound to our own personal experience. Our individual relationship to God is as important as our communal experience of religion. Our differences from one another make the competing demands of individuality and community evident.

"Sexuality has become a divisive issue in the Church precisely because it brings to light these difficulties.

"Having grown-up at St. Paul's, the interplay between individual difference and this community has shaped my experience of my faith.

"Join me and my mother, SuZanne, as we share with you our story and explore the implications of sexuality for our understanding of religious community and the place of difference within that community."

\* \* \*

We will skip having refreshments at the beginning of our time together this week only.

DON'T FORGET - this Sunday only we'll be meeting in the Activities Center.

I look forward to seeing you this Sunday.

Much love,

Bill Kerley

John, Do we know if Sam is coming? I am wondering on my assignment for the pears. Also, have you and Kim made this before? Would it be OK to make the pears and sauce ahead of time or shall I bring it for preparation? Thanks. Jennifer -----

Ordinary Life Gourmands - We're ready to meet at Tom & Jerilynn's house for our bimonthly gathering  
of

the Gourmet Group, Saturday, March 23. I believe the plan is to meet at 6 p.m., so mark your calendars accordingly. If that is not correct, I'll

let

you know. Directions will be provided before the event. Kim has doffed her toque long enough to do research on various recipes a

la

Francais, and we submit the following assignments pour du nuit:

===== Jennifer & Jerry - Bring French bread, plus Title: Roasted Garlic Servings: 2 Total Time: 45 min. Baking Time: 40 min. Preparation Time: 5 min. Comments: This a really simple appetizer to make. If you haven't had roasted garlic before, you'll be amazed how roasting makes the pungent garlic into a buttery, mellow spread. I like it best spread on fresh bread with goat cheese on top. Its also a great butter and mayonnaise substitute for sandwiches, that's low in calories. (Ignore the 83% fat percentage in the nutritional information below, its counting all of the olive oil, most of which slips off) The whole head of garlic has only 24 calories!! Ingredients: 1 head garlic 1/2 teaspoon olive oil Instructions: Preheat oven to 450 degrees F. Chop top 1/5 of garlic head (from the

pointy

tip). Discard any extra garlic skin, leaving most of it intact. Place garlic head in a medium sized piece of aluminum foil. Pour olive oil on

top

of garlic. Wrap foil around garlic, encompassing the entire head. Bake

in

oven until the garlic is golden brown and the garlic pulp is easily

removed

from its individual shell (around 40 minutes). Remove from oven; let

cool.

plus Baked Pears on Sugared Puff Pastry with Caramel Sauce <http://www.epicurious.com/run/recipe/view?id=10012>

===== Jim & Hattie Haricots Verts a La Vapeur

<http://www.epicurious.com/run/recipe/view?id=11972> plus Red Pepper Soup (to be faxed by Kim to 409-938-3710) plus two

bottles of red wine (French, of course) ===== Tom & Jerilynn - our

hosts for the evening pate (purchased), cocktail party toast 2 selections of French cheese crackers 2 bottles of white wine

(French) ===== Kim & John Duck with Orange Sauce 2 bottles of red

wine (French) ===== Sam Cook - is not sure whether she can attend,

so her assignment is

pending.

===== We look forward to seeing you all there! Bon jour et bon chance!

Kim & John Watson

JOHN AND KIM--

I WAS JUST GETTING READY TO LEAVE FOR AN OVERNIGHT TRIP TO CHECK ON MY PARENTS IN THE DALLAS AREA . A LITTLE AFTER 8 AM I CAME UP TO THE COMPUTER, BEFORE RUSHING OUT THE DOOR, TO SEE IF

THERE WAS AN EMAIL REGARDING DINNER CLUB! AS I WAS CHECKING SOME OTHER CORRESPONDENCE, YOUR EMAIL POPPED UP !! CARL JUNG WOULD CALL IT "SYNCHRONICITY" (SP?)!!

EVERYTHING LOOKS WONDERFUL !! TOM AND I ARE SO EXCITED!!

WE WILL BE BACK IN TOUCH -- WE'LL HOPEFULLY SEE YOU BOTH ON SUNDAY !! (PS KEEP ME IN YOUR THOUGHTS-- MY RELATIONSHIP WITH MY PARENTS HAS BEEN A DIFFICULT ONE THROUGHOUT MY LIFE, AND I'M COMING TO SOME "TERMS OF ENDEARMENT" FOR THE "WHAT IS" WITH THEM!)

TAKE CARE! JERILYNN

ORDINARY LIFE - Thoughts and Ideas To Help You Live a Happier Life

PREVIEW for January 6, 2001

Dear Folks -

I know that lists like the following pop up now and again on the internet. This one, sent to me by George Leyendecker, has some fresh ones ?

1. The best way to get even is to forget. 2. Feed your faith and your doubts will starve to death. 3. God wants spiritual fruit, not religious nuts. 4. Some folks wear their halos much too tight. 5. Some marriages are made in heaven, but they ALL have to be maintained on earth. 6. Unless you can create the WHOLE universe in 5 days, then perhaps giving "advice" to God, isn't such a good idea! 7. Sorrow looks back, worry looks around, and faith looks up. 8. Standing in the middle of the road is dangerous. You will get knocked down by the traffic from both ways. 9. Words are windows to the heart. 10. A skeptic is a person who when he sees the handwriting on the wall, claims it's a forgery. 11. It isn't difficult to make a mountain out of a molehill just add a little dirt. 12. A successful marriage isn't finding the right person, it's being the right person. 13. The mighty oak tree was once a little nut that held its ground. 14. Too many people offer God prayers, with claw marks all over them. 15. The tongue must be heavy indeed, because so few people can hold it. 16. To forgive is to set the prisoner free, and then discover the prisoner was you. 17. You have to wonder about humans, they think God is dead and Elvis is alive! 18. It's all right to sit on your pity pot every now and again. Just be sure to flush when you are done. 19. You'll notice that a turtle only makes progress when it sticks out its neck. 20. If the grass is greener on the other side of the fence, you can bet the water bill is higher. 21. You are richer today if you have laughed, given, and forgiven.

These are pithy sentences that can cause us to laugh and to think.

There is another phrase I use in our work from time to time. It is -

Having a heart as light as a feather.

What does that mean? Is it possible? If it is, what keeps us from experiencing it more?

These are some of the questions I want to talk with you about when we gather this Sunday. I invite you ? to be present, to bring your heart, to be prepared to lay aside some of your burdens, and to dare to open some doors to new life.

My heart is hoping to see you Sunday.

Much love,

Bill Kerley

Kim & John: This Saturday night, the Great Gourmand Dinner Club is gathering to recognize the contributions of the legendary Owen Edward Brennan family to Creole culinary arts. We'll meet at 6:00pm at our house at 2001 Barrington Pointe, League City, TX 77573. A map will follow by email. Would you bring the following entree, prepared to serve 10 people? Crabmeat Imperial 1 pound lump crabmeat, picked over to remove any shell and cartilage\* 1/2 cup scallions,

finely chopped 1/2 cup green bell pepper, finely chopped 1/4 cup chopped pimentos 1 egg yolk 1 teaspoon dry mustard 4 artichoke hearts, coarsely chopped 2 tablespoons paprika 1 cup mayonnaise 1/4 cup freshly grated Parmesan cheese 1/4 cup seasoned bread crumbs Salt and black pepper Preheat oven to 375 degrees. In a large bowl, combine the crabmeat, scallions, bell pepper, pimento, egg yolk, dry mustard, artichoke hearts, paprika and one-half cup of the mayonnaise. Stir until well-mixed and season with salt and pepper to taste.

Spoon the crabmeat mixture into four one-cup baking dishes; then cover with the remaining mayonnaise. Sprinkle Parmesan and bread crumbs on top and bake in the hot oven for 15 to 20 minutes until heated through. Serve immediately.

Makes four servings. [http://www.brennansneworleans.com/r\\_crabmeatimperial.html](http://www.brennansneworleans.com/r_crabmeatimperial.html) If you have any questions, call me at 281-334-3526. Good Luck! Hattie & Jim

From: Blair, Lynn Sent: Friday, July 20, 2001 5:24 PM To: Hass, Glen; Williams, Jo; Watson, Kimberly; Donoho, Lindy; Lohman, TK; January, Steven; Schoolcraft, Darrell; Holmes, Bradley; Harris, Steven Cc: Blair, Lynn; Corman, Shelley; Garcia, Ava Subject: SoCal Needles "Window" allocation

I would like to have a meeting to review pros and cons in relation to the procedure Transwestern is using today for the SoCal Needles "window" allocation.

Some of the questions being asked:

1. Why are we allocating for SoCal, (at their request)?
2. Why are we allowing SoCal to set the capacity lower than TW's primary firm?
3. What are the options for TW to change the allocation procedure at Needles?

I am sure there is a host of other questions we could answer as well. We are looking at Tuesday, July 24, at 9:00 a.m or Wednesday, July 25, 1:30 p.m.

Please let Ava Garcia (713-853-5842) know which day is better for you. Then we will get a room and let everyone know date and time.

Thanks. Lynn

Dear Hattie and Jim,

Thank you so much for hosting our dinner group Saturday night. Your home is just lovely and we particularly enjoyed the beautiful china! It is so nice to share stimulating conversation and great food with wonderful friends. Thank you again for your hospitality! See you next week.

Kim and John.

Driving Instructions to the McKinley's 2001Barrington Pointe Drive League City, TX 77573 281 334 3526

a Take I-45 South to FM 518. That is the League City/Kemah exit. a Go east - under the freeway. a Follow 518 E. Cross Hwy. 3. Continue on 518 - move to the right lane. a The next major intersection is Egret Bay/270 (the name changes as you cross 518). a This is a complex intersection with two lights in close succession. Go through the first light, then bear right at the second light, i. e. follow 518. Note: 518 is also called Deke Slayton Blvd. Move to the left lane. a Continue on 518 to the next major intersection. This is South Shore Blvd. a Cross South Shore Blvd. Note the Fire Station on the right. a Turn left at the next street - immediately past the fire station. This is Amber Shores Drive. a Follow Amber Shores to the end and turn left on to Barrington Pointe Drive. a Barrington Pointe curves gently to the right. Follow it until you must turn right on to Sterling Point. We are at the corner on the left - 2001 Barrington Pointe. Park in our driveway or anywhere along the street.

From: Gold, Amy [mailto:AGold@coral-energy.com] Sent: Wednesday, August 01, 2001 11:25 AM To: Watson, Kimberly Subject: FW: New Report on Lessons from California

I just got this and thought you might find it interesting as well.

Amy

----- Inline attachment follows -----

From: <Eric@EHirst.com> To: Eric@EHirst.com Date: Wednesday, August 1, 2001 12:16:55 GMT Subject:

Dear Colleague,

The Edison Electric Institute just published a paper, The California Electricity Crisis: Lessons for Other States, which I wrote. The paper is available on the Publications page of my website, [www.EHirst.com](http://www.ehirst.com) <<http://www.ehirst.com/>> . Please let me know if you have any comments on the paper.

Here is a summary of the paper:

California was supposed to show the rest of the nation a brighter electricity future. That future, as outlined by the California Public Utilities Commission in 1994, envisioned an electricity industry featuring competitive markets. Such markets were intended to produce lower costs and more choices for consumers, while ensuring profits for efficient energy suppliers and encouraging the retirement of old, inefficient power plants.

Although the first two years of restructuring (beginning in April 1998) seemed to bear out these promises, the last year has been a disaster for California's electricity consumers, taxpayers, and electric utilities. Part of the fallout from California's electricity crisis is considerable concern-even opposition-in other states to restructuring the electricity industry.

Although a few states have decided, based on the California experience, not to restructure, I believe that is the wrong outcome. Instead, the primary lessons other states should learn from California are that competitive markets can work; competition is not to blame for California's problems; and basic economic principles of supply, demand, and prices affect market outcomes.

Section 2 of this paper briefly reviews the history of electricity regulation and restructuring in California and the problems that occurred beginning in May 2000. Section 3, the heart of this paper, offers guidance to other states on the key ingredients of a competitive electricity industry. This section makes several points:

- \* Maintain a favorable investment and regulatory climate for new generation to ensure that enough generation capacity is online and planned to meet growing loads.
- \* Ensure that enough infrastructure (transmission capacity and natural gas pipeline capacity) is in place and planned to meet growing loads, maintain reliability, connect new generators to the grid, support large regional markets, and provide fuel to power plants.
- \* Encourage retail customers to participate in dynamic-pricing and voluntary-load-reduction programs (i.e., couple retail and wholesale markets).
- \* Create honest retail competition: avoid standard-offer rates with artificial discounts and create conditions that encourage many companies to offer retail services without favoring individual competitors.
- \* Encourage electricity suppliers to manage and diversify their supply and price risks.
- \* Create efficient and integrated wholesale markets for energy, ancillary services, and transmission congestion.
- \* Monitor and minimize horizontal market power (generation) and vertical market power (combined ownership and operation of generation and transmission).

Ultimately, competitive markets for electricity will lower costs and prices, better align consumer prices with producer costs, improve producer efficiency in both investment and operation, maintain or improve reliability, and yield greater innovation in customer services and pricing options.

But, this transition from one industry structure to another is turning out to be long and complicated. It is complicated because electricity is so important to our modern, high-tech society; electricity is our most flexible fuel, providing light, heat, motive power, and the energy to operate all our electronic equipment. Also, electricity truly is a real-time product for which production and consumption must occur at the same time.

Although the problems that have occurred in California are substantial and worrisome, regulators and legislators in other states should focus on the long-term benefits of competitive electricity markets and accept the possible short-term problems that may occur. They also need to recognize that wholesale markets are regional in scope and extend far beyond the boundaries of any single state. Finally, competition in retail and wholesale markets must be coordinated; in particular, it is not possible to have competitive wholesale markets unless at least some retail load faces time varying prices.

If states restructure properly to create competitive markets for wholesale energy and retail services, we should all benefit. Consumers will enjoy lower prices, they will have many more choices of energy services and price-risk tradeoffs, reliability will be improved because most reliability services will be obtained through markets instead of by engineering edict, and the financial risks associated with building and operating power plants will be assigned properly to investors rather than consumers.

From: Roensch, David Sent: Monday, August 13, 2001 10:09 PM To: Watson, Kimberly Subject: Contacts for West End Teams

Per our conversation this afternoon:

The following is a list of contacts for the Teams I work with. These are Go Too folks for information or questions about their respective areas and capabilities.....

La Plata & Ignacio Lateral Larry Harrell 970-259-8238

Blanco Hub, San Juan Station and SJ Lateral Jeff Greider 505-632-3876

Station 3 & Flagstaff Citizens interconnects Chris Hulls 520-686-6298

Station 2 Hank Hull 520-774-2980

Station 1 & Kingman Citizens interconnect Scott Hill 520-757-7505

Needles Station, Topac Lateral, Griffith & Calpine Russ Ulibarri 520-768-4455

Please don't hesitate to contact me for questions in any of the areas but, do not feel like it is necessary. If it expidites the necessary communication, please just go straight to these Team members. These guys will keep me in the loop. Thanks...

From: Neville, Sue Sent: Friday, October 12, 2001 4:33 PM To: Bodnar, Michael; Watson, Kimberly; Lohman, TK Cc: Blair, Lynn; Hanagriff, Richard; McEvoy, Christine; Giambrone, Laura Subject: RE: PNR Balance on PNM Cr# 25672 - PO# 27190

I would recommend that we just have them nominate it out when it is convenient for TW and not charge them any additional fees. Is there a procedure in place that will prevent us from missing a balance like this again?

Sue

-----Original Message-----

From: Bodnar, Michael Sent: Friday, October 12, 2001 4:06 PM To: Watson, Kimberly; Neville, Sue; Lohman, TK Cc: Blair, Lynn; Hanagriff, Richard; McEvoy, Christine; Giambrone, Laura Subject: PNR Balance on PNM Cr# 25672 - PO# 27190

In analyzing shipper imbalance statements, Laura Giambrone discovered a PNR balance of 10,000 Dth on the above noted contract. The balance was parked on TW on April 26, 2000 and PNM paid a \$0.03 per Dth/d fee in that month. TW has not billed PNR fees on the balance since May 1, 2000. PNM has not inquired about nor nominated the redelivery of the quantities held by TW. How should this matter be handled?

Date: February 26, 2002

To: Enron Global Distribution

From: Derryl Cleaveland, Sr. Director Global Strategic Sourcing

Subject: Audio Conferencing Provider

Enron has selected WorldCom Conferencing as our sole conferencing provider. Under a recently signed national contract, all Enron locations can utilize WorldCom for their conference calling needs at a substantial savings when compared to other conferencing providers.

The favorable pricing supplied to us by WorldCom Conferencing gives us a significant reduction in our conference call per minute rate, providing beneficial savings to our company. In order to achieve these savings, it is critical that all Enron employees start, or continue, to use WorldCom for all your conferencing needs.

If you are currently using another company, please begin using WorldCom Conferencing for your audio conference needs. Enclosed is information on how to set up your user profile and start conferencing with WorldCom.

Should you need additional training, information on conferencing services, or assistance in planning a meeting please contact Torri Rhodes, WorldCom Conferencing Consultant at 713-651-3278. For account management and sales support, please contact Sandra Audrain-Gorrie, District Sales Manager at 713-888-1369. For all internal conferencing questions or concerns, please contact Peter Goebel, Global Strategic Sourcing, Director-IT/Telephony at 713-345-3325.

Elizabeth, Yes I would like to discuss this with you. My schedule for Wednesday afternoon or Thursday looks good. How about you?

Kim.

-----Original Message-----

From: Brown, Elizabeth Sent: Tuesday, February 19, 2002 12:39 PM To: Buchanan, John; Watson, Kimberly Subject: Discounting of GRI on One-part Contracts Importance: High

It again appears that some one-part contracts have not had the GRI commodity portion discounted to zero whenever possible. This detail needs to be reviewed monthly since it impacts Transwestern's bottom line. Can we discuss so that everyone is on the same page? Maybe we need a point person in the scheduling group to review a monthly report and identify who within Marketing will be updating/correcting the rates in CBS.

Examples of discounted contracts in January 2002 where we paid out to the GRI rather than discounting to zero and taking the money to income: Sempra K #27808 PG&E Energy Trading K #27796 Western Gas K #27797 Agave K #27377 Tenaska K #27792

Please let me know what your thoughts are.

Thanks, Elizabeth

| Recipients | ['Dennis; Matthews', 'mark.mcconnell@enron.com', 'Perry; Watson', 'Ron; Frazier', 'Ben; Alters', 'Asante'] |
| File       | watson-k/sent_items/873.                                                                                   |

FYI, Kim.

-----Original Message-----

From: Abdmoulaie, Mansoor Sent: Wednesday, February 06, 2002 11:31 AM To: Chanley, Earl Cc: Asante, Ben; Alters, Dennis; Matthews, Ron; Frazier, Perry; Watson, Kimberly; Whippo, Jeff; Roensch, David Subject: FW: TW interconnect to Southern TRails

Earl

Please proceed to issue a Work Order to construct the facility requirements ( tap, valve, measurement and DAS facilities as previously described) to tie Questar to TW at San Juan. Please see attachment where Questar explains that you have to acquire a small R.O.W from El Paso and that will connect TW property to the site where eventually will be Questar's R.O.W. TW will be reimbursed by Quesatr for the total costs at no tax-gross up is added for this particular project. TW will own and operate the interconnect facilities.

### Payment Schedule

Payment No. Amount Due Date

Payment #1 \$137,562 Within 10 days after full execution of the Agreement.

Payment #2 \$137,562 Within four (4) weeks after full execution of the Agreement.

Payment #3 \$137,562 Within eight (8) weeks after Full execution of the Agreement.

Payment #4 \$137,560 Within 30 days after Or balance of actual Transwestern submits to costs if over the original Southern Trails a final estimate shown, Invoice for actual costs, according to Sec. 3.2 of Subject to Sec. 3.2 of the the Agreement. Agreement.

Total \$550,246 or actual

The in-service date that Marketing is recommending is May-1 and I know that you might have a problem with that but according to Kim Watson Questar is willing to support us in purchasing materials a little quicker than us.

Your engineering contact with Questar is Jerry Mouser at 801-324-5744.

Call me if you any concerns/ questions on this project.

Mansoor

From: Watson, Kimberly Sent: Tuesday, February 05, 2002 9:28 AM To: Abdmoulaie, Mansoor Subject: FW: TW interconnect to Southern TRails

Mansoor,

Here is a note from Gaylen at Questar. We would like to have this interconnect in place by May 1. The Interconnect Agreement is anticipated to be executed this week. I will let you know when it is officially signed. If it would help us meet our May 1 timeframe, please remember that Questar is more than willing to help order equipment (to our specifications) if our vendors cannot respond as quickly as we would like . Please let me know if you need additional information. Thanks, Kim. -----Original Message----- From: Gaylen Haag [mailto:GaylenH@questar.com] Sent: Monday, February 04, 2002 12:01 PM To: Watson, Kimberly Cc: Gary Schmitt; Jack Ahern; Jodi Starley; Monte Kester Subject: TW interconnect to Southern TRails

Kim, As we discussed and agreed, we continue to plan on having the Transwestern meter for the new interconnect into Southern Trails located on our property at Blanco. Will are planning for Transwestern to tie into it's pipeline and extend piping over to our site where the meter will be located. Transwestern may need to aquire a small length of right-of-way from El Paso that will connect the TW property to the site we are getting from El Paso. TW personel will have unlimited access to this site. We will create a lease agreement to lease the footprint for the meter to TW. As we discussed, this facility must be in operation on May1, 2002. Thank you for all your help. Let me know if I can be of further assistance. Gaylen If you or any of your people need additional information please have them call me on tele # 801-324-5133 or Project Engineering: Jerry Mouser office# 801-324-5744 Design Engineering: Jack Ahern office# 801-324-3385 Right-of-way: Monte Kester cel# 801-558-0335

From: Smith, Rick Sent: Tuesday, August 28, 2001 10:45 AM To: Watson, Kimberly Cc: Jolly, Rich Subject: Laguna Festival

Kim, I have some information on the Laguna Festival being faxed to me today. I will forward to you, if you get me your fax number. Here are some contact numbers: Tribal Building --- 505-552-6654, Information on setting up a booth, Mike Silva @ 505-552-5429, To enter the parade, Ron Ray @ 505-552-6651. We are planning to participate in the parade using the Enron go- carts and yes we are looking for some drivers (like you). Look forward to hearing from you, Rick

FYI. -----Original Message----- From: Brown, Elizabeth Sent: Saturday, September 22, 2001 10:58 PM To: Watson, Kimberly; Blair, Lynn; Dietz, Rick; Donoho, Lindy Subject: K #27291 - Invoices not capturing incremental fees for alternate points

FYI - In working to load rates for the FERC California reporting requirements, it appears that for the last four months Duke Energy T & M contract #27291 has not been billed the incremental fee of \$0.06/dth for alternate deliveries to the Cal Border (over and above the base discount negotiated for the contracted primary points).

Please let me know if you have any questions.

Thanks, Elizabeth x3-6928

FYI R2

-----Original Message-----

From: Arnold, Jeff Sent: Monday, August 06, 2001 6:01 PM To: Rice, Randy Subject: Language Solutions

Randy,

Listed below are some companies/individuals we have used in the past to provide translation services. The first two would be the preferred.

CD Language Solutions, 713-661-9553, email: languagesolutions@prodigy.net

mellis.sanford@enron.com (can't find her number); she teaches Spanish at Enron

interlingua - Muriel Dupont # 713-957-2040

Carlos Varela #281-646-9754 (phone and fax), email is: cvarela7@yahoo.com

If you are interested in using one these options I suggest we get a price quote first. Since these people are scattered about in Houston, they like to do things over email if files are electronically available. If not, I recommend using a courier service - such as City Central at 713-623-0303 (never had a problem with them).

If you have any questions or need any additional information please let me know.

Jeff

Cc: Gary Schmitt; Jack Ahern; Jodi Starley; Monte Kester Subject: TW interconnect to Southern TRails

Kim, As we discussed and agreed, we continue to plan on having the Transwestern meter for the new interconnect into Southern Trails located on our property at Blanco. Will are planning for Transwestern to tie into it's pipeline and extend piping over to our site where the meter will be located. Transwestern may need to aquire a small length of right-of-way from El Paso that will connect the TW property to the site we are getting from El Paso. TW personel will have unlimited access to this site. We will create a lease agreement to lease the footprint for the meter to TW. As we discussed, this facility must be in operation on May1, 2002. Thank you for all your help. Let me know if I can be of further assistance. Gaylen

-----Original Message-----

From: =09Fauchaux, Eric =20 Sent:=09Thursday, July 19, 2001 4:54 PM To:=09Centilli, James; Watson, Kimberly; Lindberg, Lorraine Cc:=09Rance, Byron; Eisenstein, Arnold L.; Gottsponer, Morgan; Asante, Ben;= Schoolcraft, Darrell; Graves, Jerry; Jolly, Rich; Chanley, Earl Subject:=09TW Capacity Affected for Red Rock Tie-ins=20

The following volumes are capacities west of Station 1 that will result from tie-in construction work slated for the Red Rock expansion. Tie-in assemblies will be required on both the Mainline and Loopline at stations 1, 2, 3 and 4. New block and side valve assemblies for new compressor and scrubbers will be installed on the suction side main and loop lines at each station. The tie-in will entail blocking (isolating) a line segment within the station yard on the suction side (each line done separately) thus creating a dead leg back to the next upstream block valve crossover(s). Hence, all of the flow will be forced into a single line when making tie-in on the adjacent pipeline line. The result of forcing all volumes into a single line will produce greater pressure losses in the operating segment to the existing compression and reduce throughput due to lower suction pressure and respective horsepower limitations. Discharge piping at the station having tie-in work will be unchanged regarding valving configurations.

From: Robertson, Audrey Sent: Tuesday, February 12, 2002 3:02 PM To: Sawyer, Lisa Cc: Harris, Steven; Watson, Kimberly Subject: Shared Drive Concerns

Lisa, Steve Harris suggested I share with you our concerns on the subject of "Shared Drives". We had some problems on last week with deleted files on the TW\_NNG Shared Drive -"S". The Help Desk has resolved these problems, but in the process, we noticed that some of the files on the shared drive were still being viewed and updated by NNG's personnel over in Dynegy's offices.

Our concerns are such that some files should be viewed only by ETS, specifically TW. Would you please check on this concern as soon as possible?

If you would, please update me on the status of this request. If you have additional questions concerning this problem, please do not hesitate to call me (x35849).

Thanks in advance for your prompt attention.

From: Lindberg, Lorraine Sent: Friday, February 22, 2002 10:09 AM To: McConnell, Mark; Bailey, Arnie; Watson, Kimberly; Frazier, Perry Cc: Panhandle, Team; Panhandle-P2, Team; Roensch, David; Whippo, Jeff; Smith, Rick Subject: RE: Duke's Proposed Power Plant At Clovis

Duke does plan to build a merchant plant in Curry County, NM. They think it will be a 2-stage project with each stage 600 megawatts. The proposed in-service date of the 1st phase is 2Q04. They will need a minimum pipeline pressure off TW of 500 psi. Perry Frazier and I have met with Duke reps as recently as Jan. 02 about this plant. A draft interconnect agreement has been forwarded to Duke who is working on providing their comments to TW. So far, we have not determined any items such as who will build a line to the plant and pay for and operate it. I will keep everyone posted as this develops.

Lorraine

From: Bailey, Arnie Sent: Friday, February 22, 2002 9:15 AM To: Watson, Kimberly; McConnell, Mark Cc: Panhandle, Team; Panhandle-P2, Team; David Roensch (E-mail); Jeff Whippo (E-mail); Rick Smith (E-mail) Subject: Duke's Proposed Power Plant At Clovis

Kim and Mark, Butch Bentley, who is on the Panhandle Team, called me this morning and said he had heard on a local radio station that Duke had paid the city of Clovis, NM \$50,000 for water rights for a 6 month period. This sounds like Duke is again interested in building a power plant near Clovis. About a year ago they were proposing a power plant South of Clovis about 2 miles from our Panhandle lateral. The proposed plant would be gas fired with a fuel need of up to 100mmcf/d. Later I was told that the project was a dead issue because of problems getting water. Butch will get a newspaper today and see if there's any more information. This could be a good opportunity for us. If you contact Duke, please let us know the results. Thanks, Arnie Bailey 505-625-8005 Office 505-626-1530 Cell 800-586-5735 Page 505-627-8137 Fax

**RBAC Visits Calgary this Week**

Bob Brooks will be in Calgary Tuesday through Thursday of this week for GPCM training and demonstration. He will be returning to Los Angeles and be available for GPCM support and other business on Friday, February 8th. Bob will be in contact with his office ( 323-663-4831) during his absence. Emergency support will also be available via 323-821-9075.

From <http://www.enerfaxgold.com> <<http://www.enerfaxgold.com>> :

**OPEN SEASON**

SG Resources Mississippi, L.L.C., a wholly owned subsidiary of SGR Holdings, L.L.C., is conducting an open season for firm storage services at its new high-deliverability, salt cavern, natural gas storage facility, known as the Southern Pines Energy Center. The open season will begin at 9:00 a.m. CDT on February 4, 2002, and will continue until 5:00 p.m. CDT on March 4, 2002. The project is located at the border of Mississippi and Alabama with access to the major pipelines serving the Mid-Atlantic and the Southeastern United States. The facility is ideally located to serve as a transportation

and storage hub for shippers on any one of nine major pipelines that will be interconnected directly or indirectly to the project.

Information on the facility and the Open Season is available on our web site at

<http://www.sgr-holdings.com> <<http://www.sgr-holdings.com/>>

or contact us at 713-914-8188.

From <http://www.enerfax.com> <<http://www.enerfax.com/>> :

Baker Hughes Weekly Rig Count

The number of rigs searching for oil and natural gas in the US fell by 6 to 853 last week, according to Baker Hughes. The total was down from 1,138 a year ago. The number searching in Canada was down 7 to 452, compared to 579 a year ago. The number of rigs in the Gulf of Mexico was down 3 to 114, compared to 159 a year ago. In the US, the number searching on land was 714, and the number offshore was 121. Eighteen were operating in inland waters. The total North American rig count fell by 13 to 1,305, down from 1,717 a year ago.

Subject: K #27291 - Invoices not capturing incremental fees for alternate points

FYI - In working to load rates for the FERC California reporting requirements, it appears that for the last four months Duke Energy T & M contract #27291 has not been billed the incremental fee of \$0.06/dth for alternate deliveries to the Cal Border (over and above the base discount negotiated for the contracted primary points).

Please let me know if you have any questions.

Thanks, Elizabeth x3-6928

## RE: Missing Document from Questar Data Room

**Sender** kimberly.watson@enron.com

**Recipients** ['mark.mcconnell@enron.com']

**File** watson-k/sent\_items/936.

Mark, I reviewed my files and did not find the Dandby section. I don't believe that I looked in the asset book. Check with Jim Curry - there did seem to be some confusion about the Asset Listing Summary vs. the Asset Listing Detail (that wasn't in the file) - maybe it is just miss-filed in their stuff.

Kim. -----Original Message----- From: McConnell, Mark Sent: Thursday, November 01, 2001 10:06 AM To: Gleffe, Larry; Watson, Kimberly; Stephens, LD; Ames, Mike; Curry, Jim; Campbell, Larry Subject: Missing Document from Questar Data Room

I got a call from Questar's Jodi Starling this morning. She said an original document is missig from the data room and was wondering if someone brought it home by mistake.

The missing information is the Dandby section from the Asset Binder. It had a grey card-stock cover. We can certainly keep a copy but they need the original back. With all of the paper floating around the tables, it is likely to have been mixed up with some copies that were given to us. Anyway, please check your stuff and see if this got in there.

Also, the late copies she was making for us (including the stuff from Colleen) will be mailed overnight to Kim on Friday. We'll get the information passed out when we get it.

Thanks,

Mark

From: Hayslett, Rod Sent: Thursday, March 07, 2002 4:46 PM To: Harris, Steven Subject: RE: TransPecos KMI LOI

Do we have a projected timeline of expenditures?

-----Original Message-----

From: Harris, Steven Sent: Thursday, March 07, 2002 3:49 PM To: Horton, Stanley; Hayslett, Rod Subject: FW: TransPecos KMI LOI

Stan/ Rod, here is the most recent red-lined version of the TransPecos agreement. We have substantially changed numerous items from the prior red-line and feel this more accurately represents TW's interests. Please review the document and let me know if you are comfortable with it. In particular, we have softened the language requiring us to demonstrate our financial ability to provide services under the agreement.

At this point, we are just trying to agree on the basics of the K/M LOI so that we can get the transport rate proposal in front of Pemex.

| File       | watson-k/inbox/419.                                                                                                |

I don't know if Perry has responded to your request yet concerning what contracts are expiring with WTX Pool capacity and about that Duke contract you mentioned in our Staff Mtg yesterday, but I looked at my notes and this is what I come up with.

The Duke contract that expires 7/31/2002 without ROFR is already taken into consideration as expired in the November, 2002 capacity of 17,300/d we derived last week (which we've already sold 20,000/d to Calpine & PPL).

Other contracts expiring in 2002 & early 2003 from the WTX Pool are:

25841 PG&E 17,200/d 10/31/2002 (ROFR trigger 10/31/01) 26511 PG&E 8,165/d 10/31/2002 (ROFR trigger 10/31/01)  
Total 25,365/d

26683 APS 8,000/d 3/31/2003 (subject to ROFR)

Otherwise, we have WTX Pool capacity every Apr-Oct of 14,000/d (opposite of SWG's seasonal ctrc).

The other issue we could take into consideration here is displacement. For the month of November, 2002 (for example) we have 22,000/d of capacity we are including in our WT-1 total that is made up of southward paths (20,000/d for USGT & 2,000/d for Astra with receipts north of WT-1 for delivery to WTX delivery points south of WT-2). This is the most conservative capacity reservation policy. In the event not enough physical receipts were nominated south of WT-1 to fulfill all physical deliveries nominated south of WT-1, we would need to compress gas south through WT-1 to make deliveries for these two contracts. We may want to reassess this.

The LOI with a nonbinding bid referencing our interest in their West Leg of the Southern Trail Pipeline was faxed to Questar yesterday . We are confident that we will be invited to the data room to perform due diligence. We anticipate that this will occur at the end of this month. As soon as we know the exact date, we will advise all of those involved.

We will be assembling the due diligence team this week and then we will meet to create a plan for the process while we have access to the data room.

We'll be in touch as the details unfold. In the mean time, if you have any questions, please feel free to call Kim Watson or myself.

Kim.

-----Original Message-----

From: McConnell, Mark Sent: Tuesday, November 13, 2001 6:52 PM To: Cherry, Paul Cc: Watson, Kimberly Subject: email to USG confirming our decision not to require more LOC \$

Rob Cooper (of US Gypsum) asked me to send him an email concerning our decision to not to force USG to provide the remaining 8 months of LOC and also asked me to verify a couple of other points. Below is my reply. Please let me know if you have any comments. Paul, please provide the dollar amount needed in the blank below.

Rob,

After reviewing the current status of United States Gypsum Company and Transwestern's status as a creditor of Administrative Claims, we will not proceed in seeking the additional \$\_\_\_\_\_ letter of credit (worth approximately 8 months of reservation charges). The current letter of credit valued at \$\_\_\_\_\_ is sufficient.

Also, our timing for the completion of the Red Rock Expansion that will make this capacity available is still on schedule for June 1, 2002. In our latest discussions with SOCAL, they have indicated that their expansion of the SOCAL Needles delivery point will be completed by that time. It would probably be best for you to discuss this with them yourself to verify its availability completely and thoroughly.

Please call me if you have any additional questions.

Best regards,

Mark

From: Harris, Steven Sent: Thursday, March 07, 2002 3:49 PM To: Horton, Stanley; Hayslett, Rod Subject: FW: TransPecos KMI LOI

Stan/ Rod, here is the most recent red-lined version of the TransPecos agreement. We have substantially changed numerous items from the prior red-line and feel this more accurately represents TW's interests. Please review the document and let me know if you are comfortable with it. In particular, we have softened the language requiring us to demonstrate our financial ability to provide services under the agreement.

At this point, we are just trying to agree on the basics of the K/M LOI so that we can get the transport rate proposal in front of Pemex.

From: Mason, Robert Sent: Thursday, January 24, 2002 2:03 PM To: Watson, Kimberly Cc: Janousek, Martha; Y'barbo, Paul; Ferguson, Mark; Volpone, Ray Subject: Nymex Price Feeds (Update)

Kim, This is to update you regarding the status of getting real-time Nymex pricing on the TW desktops on Level 13. We are taking a quick hit approach and will be providing the data as it is fed from DTN and as it appears below. Our next steps (once the feed is active) will include providing average price strips across seasons, remainder of seasons, and calendar years. There are some contracting issues that exist which Mark Ferguson and I are addressing. However, we will use interim steps if necessary to provide this data to you by next Wednesday before the NNG marketers leave the building. I will continue to work with Paul Y'Barbo regarding the details of this request. Paul and I are also working on getting both ICE and Dynegy Direct access for everyone in the TW commercial group. If you have any questions please do not hesitate to call.

FOOD ASSIGNMENTS:

Saturday Breakfast - Sam, Paula Saturday Dinner - Kim, Phyllis Snacks - Judy, Lee Sunday Breakfast - Lisa, Cynthia Paper Products - Amy

DIRECTIONS FROM LISA:

Hello Everyone- Here are detailed directions to the beach cabin for the Nov. 30 girl's weekend.

Directions to the Polk Beach Cabin:

Go south on IH-45.

Take the Harborside Dr. exit when you get to Galveston and turn left under the highway (this is the first exit after crossing the causeway, so be watching for it).

Travel approx. 6 miles on Harborside Dr. to Ferry Rd.

Turn left on Ferry Rd., go to the end, and catch the ferry to Bolivar ( this is a free drive-on ferry operated by the Texas Hwy Dept.).

After exiting the ferry you will be on Bolivar Peninsula Hwy 87. Travel approximately 11.5 miles to the Emerald II edition (the Crystal Beach water tower is a good land mark when you are getting close and the Emerald II edition is the first road after the post office).

Turn right into Emerald II (there is a small green sign). After entering, turn left on Flamingo, and follow the curve around to Eastview. The cabin is on the right about half way down and is located on the corner of Eastview and Crestview. The address is 919 Eastview and "J.S. Polk" is written on the side.

The telephone # is 409-684-0195.

I'm looking forward to seeing everyone!!

--lsp

**GPCM Training and Support Schedule**

Bob Brooks will be in Houston on Tuesday, Wednesday, and Thursday of this week. Tuesday and Wednesday he will be training the newest GPCM licensee. On Thursday, a few times remain available for meetings with existing licensees or with others who might be interested in the GPCM system. Contact Bob at 323-663-4831 to set up a time to meet.

Next week Bob will be in Calgary to attend the Ziff Energy Group Conference and to demonstrate GPCM to various Canadian energy companies.

During the next two weeks, support questions can be directed to Bob's office at 323-663-4831 or his cell phone 323-821-9075 or by e-mail to reb@rbac.com .

From <<http://www.enerfaxgold.com/>> <http://www.enerfaxgold.com>:

**LNG Tanker Prevented from Entering Boston Harbor**

Claiming that Coast Guard plans are too vague, the mayor of Boston has filed suit in a federal court to prevent a tanker full of millions of gallons of LNG from entering the city's the harbor. After the terrorist attacks on September 11th, the Coast Guard kept tankers from entering the port for over a month while formulating a safety plan with officials from federal to local levels. After a disaster plan was prepared, the Coast Guard re-opened the harbor to tankers carrying the highly flammable gas on October 16th. Boston's mayor contends that the plans are not specific enough and provide too little information on evacuation and protection procedures for nearby neighborhoods. He pointed out that the ships path would run close to a recreation area and a highly traveled bridge. However, his allegations were contradicted by Massachusetts acting governor who said that the Coast Guards plans were sufficient to ensure safety. The governor said that the Coast Guard had worked closely with the appropriate public safety officials to create a security plan to ensure the safe delivery of LNG and she was confident that the plans were adequate. During the peak winter season, LNG provides up to 35% of heating supplies in New England.

From <<http://www.enerfax.com/>> <http://www.enerfax.com>: Arctic Pipeline Plans May be Delayed Plummeting natural gas prices and bulging inventories may have zapped the urgency once attached to the construction of pipelines from Alaska's North Slope or Canada's Mackenzie Delta in the Northwest Territories. It is believed that sustained natural gas prices of \$3 per MMBtu is needed to make the ventures viable. Supporters of the projects contend that even though current prices are not sufficient to garner the necessary investments, it will be 6-10 years before either pipeline is operational, as it could take up to 4 years to obtain regulatory approval. They point to declining production from wells in the US and maturing Canadian resources as proof of the need to proceed with the projects. Even though the consortium of companies planning to build the \$2 billion Mackenzie Delta pipeline settled with native tribes by giving them 33% ownership, they have not proceeded with plans to build the 1,375 mile pipeline. The consortium, which consists of Imperial Oil, Conoco, Shell Canada and Exxon Mobil, says a feasibility study is necessary to make an informed decision. Companies backing the \$15 - \$17 billion Alaskan pipeline, which could follow the route of either the Alaskan Highway or go under the Beaufort Sea to the Mackenzie Delta, say they will need federal assistance for the project to be feasible. Alaska's governor, a strong

supporter, has already asked the Senate to supply incentives. BP, Exxon Mobil and Phillips are the major companies involved in the Alaskan plans. Bob Brooks GPCM Natural Gas Market Forecasting System <http://gpcm.rbac.com> <<http://gpcm.rbac.com/>>

FYI, Kim.

-----Original Message-----

From: Chanley, Earl Sent: Wednesday, February 06, 2002 5:58 PM To: Watson, Kimberly Subject: RE: Questar San Juan Hub Interconnect

Kim

The in-service date of May 1, will be very difficult to attain. Since the bankruptcy filing, vendors have been very reluctant to ship material prior to it being prepaid (Daniels, Fisher, Rosemont, other). These are the vendors of instrumentation required for the interconnect. Questar may be able to purchase material, but some of the items can have up to a 60 day delivery. (From time PA approved and funded to in-service will be 75 days at most. We have worked with Daniels on a chromatograph on another project and prepayment has taken 45 days alone. Daniels is not set up for prepayments as they bill off an invoice and the main office and accounting had to create an invoice for a chromatograph that had not been delivered. Not the usual mode of operations. The I/C design is for a UltraSonic meter and this is dependent on their testing schedule ( Canada or Kansas are the only two places to test to 100% of design). Will confirm testing schedule and delivery dates with UltraSonic ASAP. We will try to complete the I/C with the earliest in-service date possible, but with conditions as they are, a realistic date would be June 15, 2002. If you have questions or issues, please let me know.

Thanks Earl Chanley 505-625-8031

-----Original Message-----

From: Watson, Kimberly Sent: Wednesday, February 06, 2002 9:27 AM To: Chanley, Earl Cc: Abdmoulaie, Mansoor Subject: RE: Questar San Juan Hub Interconnect

Earl,

We are looking at putting the metering facilities on their ROW (also, I think we will have to purchase about 50ft of ROW from ElPaso to get to Questar's property). As you look at this, if for some reason we cannot obtain ElPaso ROW, we will have to look at Plan B which would be to put the metering on our ROW. Our in-service date is May 1. If you think that May 1 may be difficult due to receiving the parts/materials on a timely basis because of the issues that vendors may have with us because of recent Enron events, please let me know. Questar has already informed us that they would help obtain parts/materials to our specifications if it helps achieve an in-service date of May 1.

Thanks, Kim.

Thanks Earl Chanley 505-625-8031

-----Original Message-----

From: Watson, Kimberly Sent: Tuesday, February 05, 2002 3:40 PM To: Lokey, Teb; Geaccone, Tracy; Abdmoulaie, Mansoor; Chanley, Earl; Roensch, David; Whippo, Jeff; Schoolcraft, Darrell; Guthrie, Robert Cc: Rapp, Bill Subject: Questar San Juan Hub Interconnect

All,

Please see the attached Interconnect Agreement with Questar. I wanted you all to have a look at what we believe is the final draft. It is a fairly standard, fully reimbursable interconnect with Questar. Transwestern will own and operate the interconnect. You will notice that Questar has requested a "Payment Plan" that details when they will pay Transwestern for the interconnect due to the recent Enron events. If anyone has any questions or concerns about the timing of these payments, please give me a call. Also, you will notice this interconnect may not be subject to the CIAC tax gross up, but to protect ourselves, we have added language in Para 3.2 that protects us financially if the IRS ever comes back to determine that this interconnect is subject to the CIAC tax. Robert Guthrie with the tax department has worked with us to develop this language.

We hope to execute this Agreement this week. If you have any comments, please let me know. After execution, we will forward a final copy to you for your files.

Thanks, Kim 713-853-3098
